Ice Crystal Immortal Monarch sighed as he said with a grim expression: “The five regions are huge, they have abundant resources, even if our grotto-heavens are added together, we cannot compare to them. The world will definitely go into chaos, if we do not try to improve ourselves, when the five regions settle down, they will find a chance to eliminate us all. Only by taking this lead can we have a hope of survival.”

Chapter 1970 - Heavenly Court“s Dilemma

1970 Heavenly Court“s Dilemma

Lady Cold Ash flew first towards the entrance of Ice Crystal grotto-heaven.

The two rank sevens from Soul Pacifying grotto-heaven quickly went to receive her.

“Aunt.” The tall and thin Gu Immortal asked in concern: “How was the discussion?”

Lady Cold Ash shook her head lightly, at this time, Night Heavenly Wolf Lord also flew out of Ice Crystal grotto-heaven.

The two conversed for some time before parting ways. Night Heavenly Wolf Lord brought his wolf group along while Lady Cold Ash led her soul beast army, going back to their respective grotto-heavens.

Along the way, the three immortals conversed, not knowing that Spectral Soul was lurking around them.

Spectral Soul had originally wanted to hunt the soul beasts, but after seeing this, he changed his mind.

Just by the name of Soul Pacifying grotto-heaven, he could tell its foundation was soul path. Seeing that Lady Cold Ash and the two rank sevens were soul path Gu Immortals, Soul Pacifying grotto-heaven must be a place filled with abundant soul path cultivation resources.

Let alone anything else, just the soul beast army that they controlled was a scrumptious meal to Spectral Soul.

“Qi tides rampage in the five regions and two heavens, the grotto-heaven forces in black and white heaven will not lay low. Hehe, I can use this to my advantage and assault the other venerable forces and speed up my growth!”

Spectral Soul not only had to deal with Fang Yuan, there were also venerable forces like Heavenly Court and Longevity Heaven.

Now that fate Gu was destroyed, Spectral Soul was able to revive, the other venerables were also able to revive themselves.

With Fang Yuan missing at the moment, Spectral Soul had to consider the whole situation. Even though his true nature was killing, there were many ways to kill. Using others as one’s lethal weapon was also a high level killing method, he was going to use it now.

Lady Cold Ash and the rest did not know that their Soul Pacifying grotto-heaven was currently targeted by a huge monster, Spectral Soul. Meanwhile, Night Heavenly Wolf Lord returned to his Night Wolf grotto-heaven.

Many Gu Immortals in Night Wolf grotto-heaven quickly greeted him.

Night Heavenly Wolf Lord said: “Ice Crystal Immortal Monarch wants us to form an alliance to resist the five regions. This is quite a difficult situation.”

Gu Immortal Ye Zhi nodded: “It is quite difficult. In the current situation, fate Gu is destroyed, the five regions merged, as the heaven and earth qi fuse together, qi tides rampage in the world, no grotto-heaven can conceal itself. We are small and lone forces, when the five regions attack us, we will not be able to resist them. However, we do not need to fight the five regions, we are humans but Ice Crystal Immortal Monarch and the rest are variant humans after all. The five regions are stronger than the two heavens, this is an obvious fact, why can't we join the five regions instead?"

Night Heavenly Wolf Lord laughed: "Ye Zhi, you know me best, that is how I feel too. If we work with the variant humans, we will be considered spies of humanity. Even if the five regions do not want to attack us, if we ally with the variant humans, they will want to."

Ye Zhi frowned: "But we cannot join the five regions. Firstly, Northern Plains of the five regions is impossible. Secondly, the other four regions might not welcome us. And finally, if we join them, we will be attacked by Ice Crystal Immortal Monarch and the rest."

Night Heavenly Wolf Lord sighed: "Indeed, that is why I made an agreement with Soul Pacifying grotto-heaven's Lady Cold Ash, we will advance and retreat together, we will combine the forces of the human grotto-heavens here. As for which region to join, in my opinion, Central Continent's Heavenly Court is the most appropriate. We can secretly contact them first."

Night Heavenly Wolf Lord was an experienced leader, not only did he have rank eight cultivation level, he was shrewd in politics, nobody in Night Wolf grotto-heaven defied his rule.

Since he made a decision, the Gu Immortals in Night Wolf grotto-heaven did not dare to raise objections.

Heavenly Court.

Central Great Hall was finally repaired, Qin Ding Ling was currently the person taking charge.

They failed to repair fate Gu, Heavenly Court had undergone an intense battle, the damage was huge, even now, many areas were still in ruins.

"This is a humiliation!" Qin Ding Ling put aside the letter Gu as she rested temporarily. Her expression was calm but her eyes flickered with light, as memories surfaced in her mind, rage built up within her.

After Red Lotus' goal was achieved, Duke Long died while fighting and Fang Yuan retreated rapidly. But the three regions' Gu Immortals wanted to destroy Heavenly Court, nobody backed off.

At the moment of life and death, Primordial Origin Immortal Venerable's method started to activate. All sorts of rage qi, unlucky qi, grief qi, and others plagued the three regions' Gu Immortals, their physical conditions weakened.

This move was originally meant to deal with Fang Yuan, but Limitless Demon Venerable blocked it for him. After Red Lotus' plan succeeded, the battle between two venerables in Imperfection Regret Pavilion also concluded, with Limitless laughing as the two venerable silhouettes faded away. Without Limitless' power to restrict it, Primordial Origin's method started to work again.

And the other good news was that even though Feng Jiu Ge turned on them, he only helped Fang Yuan to refine the Gu, he did not do anything against Heavenly Court.

Heavenly Court was able to recover because of this and retaliate, maintaining their position in this difficult battle.

The three regions' Gu Immortals had no choice, with Dragon Palace, Calamity Luck Altar, and Clear Jade Dripping Wind Tiny Bamboo Building as their foundation, they retreated gradually.

After leaving Heavenly Court, some people wanted to loot Central Continent but the first qi tide happened at this moment.

The immortal apertures of the three regions' Gu Immortals became unstable, they had to leave.

Heavenly Court's Gu Immortals stopped chasing them, after witnessing Fang Yuan refine destiny Gu in front of them, their morale and fighting spirit had fallen.

After the battle ended, Heavenly Court, which was greatly damaged, tried to reduce its losses and take care of the aftermath.

Duke Long died while Fairy Zi Wei betrayed them for Spectral Soul, after Heavenly Court's Gu Immortals talked over it, they decided that Qin Ding Ling would be the new leader.

During this period of time, Qin Ding Ling had been the one in charge, taking care of all the matters, big or small.

Qin Ding Ling had a plain expression but a fire was burning in her heart. The great Heavenly Court had actually lost, it was a complete loss! She was eager to make up for this humiliation, but logic told her to not act rashly. Because everything had changed, Heavenly Court was no longer the old Heavenly Court, the enemies were no longer the same, even the world had changed.

After resting for a while, Qin Ding Ling continued to deal with the matters at hand.

"Oh?" She held an information path mortal Gu as her expression changed slightly: "Night Wolf grotto-heaven?"

Night Heavenly Wolf Lord was not willing to fight alongside the variant humans, he wanted to join the stronger side of the five regions. Among them, although Heavenly Court had lost this fight, it was still the number one human force for the last few million years.

Night Wolf grotto-heaven had grudges with Longevity Heaven, in the five regions, only Heavenly Court had the foundation to stand up against the vicious Longevity Heaven members.

In this information path Gu worm, Night Heavenly Wolf Lord also explained the ill intentions of the variant humans.

"Hmph, those of other races have such motives! Once fate Gu got destroyed, these variant humans jumped out immediately." Qin Ding Ling snorted, deep killing intense rose in her heart.

After calming down, Qin Ding Ling started to think about this situation.

Qin Ding Ling knew very little about Night Heavenly Wolf Lord and Night Wolf grotto-heaven. With just one information path Gu worm, she could not confirm if Night Heavenly Wolf Lord was really trying to sincerely join them, or if they were scheming against Heavenly Court.

"If this Night Heavenly Wolf Lord is sincere, how should we deal with

Longevity Heaven and the variant human forces of the grotto-heavens?"

Night Heavenly Wolf Lord talked about the history of his ancestor truthfully in the letter, he did not conceal the grudges they had with Longevity Heaven.

Qin Ding Ling was slightly troubled.

Heavenly Court was at an unprecedented level of weakness.

Qi tides rampaged in the world, heaven and earth qi converged, the Heavenly Court Gu Immortals who had phantom apertures were even more mobile than the Gu Immortals in black or white heaven.

But Heavenly Court could not move them.

Firstly, most of Heavenly Court's members had limited lifespan. Secondly, they had to reinforce Star Constellation's will.

Thus, a portion of Heavenly Court's members had to enter the immortal graveyard to hibernate and help Star Constellation's will, to prevent her from being completely assimilated with heaven's will.

But in that case, Heavenly Court's battle strength would be far lower.

Thus, Qin Ding Ling could not make up her mind.

"If only Fairy Zi Wei was still around." Qin Ding Ling sighed, the worry in her heart intensified.

Fairy Zi Wei and Old Man Zheng Yuan were enslaved by Spectral Soul, they left with him. The two of them knew a lot about Heavenly Court's secrets, together with the soul of a Demon Venerable, who could underestimate them?

Qin Ding Ling thought about it for a while before feeling the severity of this situation, she decided to discuss it with Zhou Xiong Xin and the rest.

Zhou Xiong Xin suggested: "This is an important matter, but the situation is not very clear now. The six Gu Immortals including Night

Heavenly Wolf Lord are merely the rank eights of the black heaven above our Central Continent. What about the other four regions' black heaven? We do not know how many grotto-heavens there are, or how many rank eight Gu Immortals exist in these grotto-heavens. I am willing to go and investigate the two heavens myself!"

Zhou Xiong Xin cultivated information path, he knew the importance of information.

He had a phantom aperture and was not afraid of the heaven and earth qi convergence.

Qin Ding Ling agreed with his suggestion, she chose to continue keeping in contact with Night Wolf grotto-heaven while investigating the situation.

Jun Shen Guang took out an information path mortal Gu, saying: "The list of names have been chosen, they are all Gu Immortal seeds with great talent and aptitude. Most importantly, they are loyal to Heavenly Court and the ten great ancient sects. But there is one person whom I need everyone's input and discussion on."

Jun Shen Guang's list contained the names of many mortal Gu Masters, they were all exceptional geniuses.

Heavenly Court lost this battle and the immortal graveyard was even destroyed by Fang Yuan, everything had to be rebuilt from scratch. With the threat of the five regions chaotic war, Heavenly Court decided to nurture new Gu Immortals, disregarding the costs.

Qin Ding Ling received the Gu worm and looked into it.

There were many names on this list: Immortal Crane Sect recommended Sun Yuan Hua, Spirit Butterfly Valley recommended Xiao Qi Xing, Ancient Soul Sect had Gu Ting, Heaven's Envy Manor had Wei Wu Shang… but at Spirit Affinity House's section, the list was empty without a name.

Qin Ding Ling sighed as her expression turned complex.

She knew about the person Spirit Affinity House nominated, it had to be Feng Jin Huang.

But after the battle over Fate, Feng Jiu Ge betrayed Heavenly Court and went missing, his daughter Feng Jin Huang ended up in an awkward position.

She was originally Duke Long’s disciple and the future Great Dream Immortal Venerable. But with the death of Duke Long and the destruction of Fate, she was no longer certain to be Great Dream Immortal Venerable.

Zhou Xiong Xin’s concern was: If Heavenly Court continued to nurture Feng Jin Huang and she betrayed them like her father, what would they do?

Even though Feng Jin Huang was Duke Long’s disciple, the disciple that he nurtured wholeheartedly spent a million years to plot and destroy Heavenly Court’s fate Gu. Would his second disciple Feng Jin Huang also inherit this ‘great tradition’?

“We will talk about this again next time.”

Chapter 1971 - Struggle Between Feng and Zhao

1971 Struggle Between Feng and Zhao

Central Continent, Lake Heart Mountain.

Spirit Affinity House's public blessed land headquarters was situated here.

Within the blessed land, there was an area called Quiet Rain Valley.

When Feng Jin Huang was strolling in the valley, it started to rain.

A drizzle.

The rain was mild and quiet.

Bathed in the rain, Feng Jin Huang slowed down subconsciously as she walked.

The air was fresh with the smell of grass, all around her was a faint field of greenery.

This rain did not feel cold, it was like jade, mild and calm.

Feng Jin Huang knew that this was called quiet rain. When it rains, all sounds would be absorbed and the surroundings would be silent. Heaven and earth would be soundless, one would be able to hear their own heartbeats and breathing.

Quiet rain was a rank six immortal material, this valley was the resource point that created quiet rain, this was why it was named Quiet Rain Valley.

After Feng Jiu Ge betrayed Heavenly Court and went missing, his wife, the mother of Feng Jin Huang, Fairy Bai Qing, requested to be transferred to Quiet Rain Valley to collect quiet rain, she said she would not leave this place.

Whenever there was quiet rain, the valley would have music that sounded like zither and flute, it was akin to Fairy Bai Qing's anguished cries of sadness.

Feng Jin Huang had heard of this rumor and felt worried, she came to the valley to visit her mother.

The quiet rain was drizzling, there was indeed the music of zither and flute being emitted.

The sound of the zither spread out all around, like white clouds in the sky, ancient, melodious and pleasant to the ear. The sound of the flute, however, was high pitched, fluctuating almost abruptly, like a fierce hawk flying across the sky, sharply piercing the wind, tearing the sky.

At first, the sound of the zither resounded and the sound of the flute reverberated, alternating with each other, as if both sides were speaking, one sentence after the other.

Then, the zither and the flute began to approach each other, and gradually merged into one another. The white clouds were misty, and the eagles were flying across the clouds. The two abrupt sounds of music merged together, creating an indescribable beauty.

In the end, the sound of the zither and the flute become one and the same, forming a kind of mix, with the melodious sound of the zither and the clarity of the flute, it was unique and beautiful!

Feng Jin Huang was enchanted by the beautiful sound of the music. She went deeper into the valley and managed to meet her mother.

Fairy Bai Qing was sitting in a bamboo pavilion, with two Gu flying around her like white jade pearls. They were sound path mortal Gu, zither Gu and flute Gu.

When Feng Jin Huang entered the pavilion, the music slowly stopped.

Fairy Bai Qing had already known of Feng Jin Huang's arrival, she turned around slowly: "This demonic immortal unification song was composed by your father when we fell in love, it is the symbol of our relationship. I still remember the first time your father played it for me, he told me: Immortals and demons are one to begin with, initially, Primordial Origin Immortal Venerable was known as Primordial Origin Demon Venerable by the variant humans as well. This song contains deep meaning and your father has been treasuring and not using it, but he played it during the fate war."

Saying so, Fairy Bai Qing's tone changed as she looked at Feng Jin Huang fixedly: "The list of names has been announced already."

Feng Jin Huang nodded: "I know. The last time the sect recommended me, there was no reply from Heavenly Court. This time, the sect put Sun Yao's name and it was quickly approved by Heavenly Court."

Fairy Bai Qing said plainly: "Originally, the sect still wanted to recommend you to go there, but Li Jun Ying and Xu Hao got in the way, they ended up promoting Sun Yao instead. How do you feel about such an outcome, my dear daughter?"

"Hehe." Feng Jin Huang smiled slightly, her smile brilliant as a flower, bringing a bright sunshine to the bamboo pavilion for a moment.

"Mother, why do you have to test me on this? Ever since father betrayed and turned against Heavenly Court, I've already prepared myself. Right now, the situation is already not bad, my dream path Immortal Gu was not taken." Feng Jin Huang said.

Fairy Bai Qing also smiled slightly at her words: "It's not like there isn't any forceful seizure in the righteous path, but it's just that the act is often cloaked in a layer of righteousness and morality. It's already good that you have come to this level of understanding. However, don't worry too much, your father left Heavenly Court but created destiny song, his outstanding battle strength is evident to the world, Heavenly Court and Spirit Affinity House will not dare to touch you."

Feng Jin Huang revealed a look of displeasure: "Mother, you don't need to make an explanation for father. Although I can understand father, I will not forgive him. For him to suddenly turn his back on Heavenly Court and not even telling us beforehand is simply abandoning his wife and daughter! One day, I will settle the score with him."

"Hehehe." Fairy Bai Qing laughed and shook her head, walking up to Feng Jin Huang and holding her hand: "You misunderstand your father. That demonic immortal unification song, which he kept as a symbol of our love, has never been used for anything other than singing in front of me. But he used it during the fate war to tell me that righteous immortals and demons are the same, his feelings for me had never changed, and even when he left the righteous path and returned to the demonic path, it wouldn't end the relationship of our family."

"Do you believe me? As long as I give out the slightest hint of inclination to leave Spirit Affinity House, he will definitely take the initiative to bring me away. He understands me well and knows that I do not want to become a demonic path member. Therefore, he gave us both the opportunity to choose our side freely. He didn't want his ideals to become a burden on us."

Feng Jinhuang snorted coldly: "Father would rather help Fang Yuan, the great demon, than help my master. It's true that master was stubborn and was always nagging about fate and all that, but he was ultimately kind to us and truly had my best interests in mind. Father was simply too cold and heartless."

"Mother, since you are fine now, I'll be leaving."

"Oh you." Fairy Bai Qing sighed, but did not ask her daughter to stay.

When Feng Jin Huang left Quiet Rain Valley, she met with two female Gu Masters.

One was beautiful while the other was cute, they were acquaintances of Feng Jin Huang, they were anxiously waiting outside the valley.

After seeing Feng Jin Huang, they showed joy on their faces as they went to her.

“Senior sister, we heard you came here so we rushed over to find you!” The beautiful woman was Qin Juan.

“Senior sister, sorry, I… I did not want to snatch your opportunity…” Sun Yao had a cute and round face, she was very anxious now.

Qin Juan and Sun Yao were good friends with Feng Jin Huang, they had always followed behind her.

But in the recent years, Feng Jin Huang followed Duke Long and went away to cultivate dream path, they did not meet much during this period.

Feng Jin Huang laughed aloud and stretched out her hand to nudge Sun Yao’s forehead: “Oh, you’ve done well this time, so why are you apologizing. The nomination quota is just a small matter, am I unable to become immortal without this funding? For me, becoming a Gu Immortal is by no means an obstacle. It’s just that I have to consider the kind of Gu Immortal I want to become. But for you, this is a rare opportunity, so seize it well.”

After speaking to Sun Yao, Feng Jin Huang looked at Qin Juan: “You’ve always been quite active and have good perseverance, but this time, when fusing with the dao marks, why did you faint? If not, the nomination would have been yours this time.”

Qin Juan did not dare to retort: “Senior sister, you are right, I have slacked off on my cultivation.”

“No, that is not so, senior sister. Sister Qin Juan was injured at that time, she could not endure the ordeal and fainted.” Sun Yao quickly clarified.

“So that’s how it was.” Feng Jin Huang nodded her head and said regrettably: “It is indeed a great loss. Fang Yuan destroyed fate Gu and refined it into countless heaven path dao marks, which were dispersed to the people in the world. The more heaven path dao marks you absorb, the more beneficial it will be in the future. Be it cultivation or developing the immortal aperture, it will benefit with no harm. But there’s no harm in not having any, at best it’s just an opportunity. What determines your achievements in life will still depend on your own talents and efforts.”

“Yes, Qin Juan will listen to senior sister’s teachings.” Qin Juan bowed.

Feng Jin Huang smiled again: “Let’s go, I will give you two some guidance.”

Qin Juan and Sun Yao revealed joyful expressions, the latter jumped around cheering: “That’s great, we haven’t been together for such a long time.”

The three of them walked together, gradually leaving Quiet Rain Valley.

Within the valley, Fairy Bai Qing retracted her investigative method.

“Daughter, you’ve grown up.” Fairy Bai Qing had a relieved expression.

Feng Jin Huang was very clear about her own circumstances, as well as Heavenly Court and the ten great ancient sects. Towards Feng Jiu Ge’s actions, she had her own opinion, but she was able to put it aside and make a clear judgment, she had a solid foundation of skills.

“Maybe, your betrayal has hastened our daughter’s maturity. We should let her walk on her own path.”

“As a mother, all I can do is to wish the best for her.”

“Of course, if some people in the sect do not know what is good for them and go overboard, I will not avoid conflict either.” Fairy Bai Qing’s expression turned cold.

At the same time, on another mountain, Affection Peak.

Spirit Affinity House’s Li Jun Ying and Xu Hao went to visit Zhao Lian Yun.

Zhao Lian Yun had already become an immortal, she was assigned by Spirit Affinity House recently and became the Affection Peak Lord.

She was able to achieve what she had today thanks to the support of Xu Hao and Li Jun Ying, in addition to her own efforts. Zhao Lian Yun was also guided by the two immortals during her Gu Immortal cultivation journey and the management of her immortal aperture, so she was able to avoid many pitfalls.

Zhao Lian Yun remembered these debts in her heart, so when Xu Hao and Li Jun Ying visited her, she quickly came out of cultivation and attended to them personally.

But hearing their request, Zhao Lian Yun felt troubled.

“Seniors, you want me to use my status as the current generation fairy to deal with Feng Jin Huang and Fairy Bai Qing?”

“Indeed, now is the best opportunity! Feng Jiu Ge betrayed us and caused Heavenly Court to lose and Fate to be destroyed. If we target them now, we will definitely win.” Xu Hao had a fierce expression.

The hatred between him and Feng Jiu Ge had a long history. In the past, he had hated Feng Jiu Ge so much that he held back key information and intelligence, almost causing him to die. Feng Jiu Ge had a very strong stance in his political manipulation, ostracizing the couple to the fringe of Spirit Affinity House in this power struggle. Most of the time, the two immortals were at a disadvantage against Feng Jiu Ge, they could only support each other with difficulty.

For them, Feng Jiu Ge’s betrayal was great news, it was worth celebrating.

“This…” Zhao Lian Yun hesitated: “Feng Jiu Ge has already betrayed Heavenly Court, seniors, I know that you have grudges with him, but why do you want to implicate his family?”

“Oh Lian Yun, we cannot be too kindhearted sometimes. Think about it, think about the time you competed with Feng Jin Huang over the fairy position." Li Jun Ying urged: "If we do not use this chance, we will regret it in the future. You do not need to worry about it, I will tell you something, our sect's nominee was originally Feng Jin Huang but now she has been removed from the list."

"Seniors, people should let others off when possible." Zhao Lian Yun explained, she was not willing to do that. Conflicts should be resolved and not deepened, back then, when competing for the fairy position, both of them had used above board methods, Feng Jin Huang had a deep background but did not use any unscrupulous ways to deal with her as well.

Even though Zhao Lian Yun and Feng Jin Huang were competitors, Zhao Lian Yun admired Feng Jin Huang's personality, she had no ill feelings towards her.

Xu Hao did not listen to her words: "Back then, did the demon Feng Jiu Ge spare us?"

"You are too kind for your own good, Lian Yun." Li Jun Ying frowned.

Zhao Lian Yun sighed to herself, she changed her words and explained: "Seniors, we need to analyze this situation deeply. Even though the sect nominated someone else, Heavenly Court did not directly take away Feng Jin Huang's status. From that, we can see the attitude of Heavenly Court is still unclear towards her."

"Precisely because they are uncertain now, we need to deal the fatal blow and affirm their decision! The fight over authority will never cease, only when a true victor is decided can there be peace." Li Jun Ying said with deep meaning.

Zhao Lian Yun sighed again, she could only accept their request.

There was no choice, she owed them a big favor after all. Even though she was unwilling, people had to do some things that they did not want to in this world. They had helped her greatly, if she rejected them, what would others think?

Zhao Lian Yun was half an otherworldly demon, even though she was the current generation fairy, Spirit Affinity House still ostracized her. If she lost her relationship with Xu Hao and Li Jun Ying, she would truly become a loner.

The two immortals saw that Zhao Lian Yun agreed, they were overjoyed, they promised her a huge reward.

Zhao Lian Yun was not interested in the reward, after the two of them left, she continued her closed cultivation.

The destruction of Fate was actually great news to Zhao Lian Yun. With this, Ma Hong Yun's revival would be much easier and less troublesome.

But Ma Hong Yun's soul was still in Fang Yuan's hands.

Thus, Zhao Lian Yun had to cultivate and raise her strength, to make preparations to save her beloved.

In the secret room, Zhao Lian Yun calmed down and inspected her own immortal aperture.

Lian Yun blessed land had 5700km2 of land, the rate of time was one-to-thirteen. The terrain was mostly grassland and plains.

But after the heaven path dao marks were absorbed, Lian Yun blessed land started to change in many aspects.

Firstly, the ground cracked to form huge trenches, next, there was torrential rain as huge rivers were formed. The rivers overflowed and floods plagued the surroundings.

After three days and three nights, the floods receded, leaving behind vast expanses of fertile mud. Small ditches and rivers connected to the main channel of the giant river, forming an elaborate and dense network of rivers.

Zhao Lian Yun witnessed the transformation of her immortal aperture the entire time, she was dazed and greatly shocked internally.

"With heaven path dao marks, the immortal aperture will transform and become closer to a truly balanced environment. Even though there are temporary losses, the potential and prospects will rise by many times.”

Zhao Lian Yun had divine concealment from Thieving Heaven’s true inheritance. She did not face calamities and tribulations, this was beneficial and also detrimental, her immortal aperture development had always been a problem. But with the addition of heaven path dao marks, this problem was reduced greatly.

“If only I had more heaven path dao marks!”

“Sigh, what a pity that I only obtained six and a half heaven path dao marks, and they are all segmented too, I do not have a single complete heaven path dao mark.”

“How many heaven path dao marks did Fang Yuan get? He was the person refining the Gu, he was the closest to these heaven path dao marks.”

Zhao Lian Yun sighed.

She could not imagine it or find the answer, but she knew that the difference between her and Fang Yuan had been greatly increased again.

Chapter 1972 - Fang Yuan“s Disaster Relief

1972 Fang Yuan“s Disaster Relief

“Wake up, wake up, kid!”

Peng Da groaned and barely opened his eyes to see a bearded uncle, slapping him in the face with a rough palm.

Peng Da was in a trance, and it was only then that he recognized the man in front of him.

“Uncle Mo Li.” He called out: “Wasn’t I sleeping on the camel?”

Peng Da looked around, he could not help but be stunned once more.

There was sand everywhere, the caravan was nowhere to be seen, leaving only him and Mo Li, both were in a messy state.

“Ouch.” Peng Da groaned as he realized he had bruises all over his body.

Uncle Mo Li looked at Peng Da and sighed: “You kid, I don’t know what to say about you, you are so lucky! Many Gu Masters fled desperately, they all died. You were deeply asleep but survived. However, if I hadn’t discovered your faint breath in time and dug you out, I’m afraid you would have been buried alive.”

“Uncle Mo Li, you’ve saved me once again.” Peng Da grabbed both of Mo Li’s hands, saying gratefully: “But what in the world had happened?”

“It’s a natural disaster, I’ve never seen it before.” Uncle Mo Li let out a heavy sigh.

“So… what about our caravan?”

“Sigh, it’s just the two of us now.”

What?! Peng Da could not help but stare with wide eyes and scream in his heart: “How can this world be so vicious, there was a natural disaster with no warning! I just slept for a bit and almost died again! My lord, what kind of world have I come to. It is simply a brutal and terrible place to live!”

“At least we’re still alive.” Mo Li knocked Peng Da on the head: “Kid, you don’t look satisfied? To be alive after a natural disaster like that is the greatest of all blessings!”

“Look at me.” Mo Li pointed his finger at his chest: “I’ve worked hard most of my life to own such a caravan. And now it’s all gone! Look on the bright side, otherwise we won’t survive until tomorrow. Sigh, it would be great if I could become an immortal!”

“Immortal? There are immortals in this world?”

Mo Li looked at Peng Da: “Did you forget everything?! You forgot even immortals? Sigh, I’ll explain in the future, let’s leave first.”

Peng Da followed Mo Li as they left, heading towards the closest oasis.

Peng Da followed behind Mo Li and asked with caution: “Are there many disasters like this?”

“Of course!” Mo Li said in a vicarious tone: “It’s not easy for us to make a living in the desert. Sandstorms are the killers that visit often. Sometimes there are also flying blade hurricanes, and each gust of wind can condense into a huge wind blade that cuts everything wherever it goes. In addition to natural disasters, there are also vicious beasts. For example, we are in wolf desert, desert wolves are most plentiful here.”

Howl—!

As Mo Li was saying that, a group of desert wolves suddenly emerged from under the desert.

“Wolves, wolves!” Peng Da jumped up in fright: “Oh heaven, they’re coming out from under the sand! So many heads, what do we do, uncle?!”

Mo Li looked pale and cursed out loud: “Damn it! Why weren’t these desert wolves wiped out by the natural disaster?”

It was not strange.

The qi tides were the phenomenon of fusing heaven and earth qi, it originated from the Heavenly Dao. But the Heavenly Dao would not wipe out all life, there was a chance of survival in every situation. Mo Li and Peng Da were able to survive, other lifeforms naturally had such an opportunity as well.

The desert wolves emerged from everywhere, but strangely enough, although they spotted Peng Da and Mo Li, they did not come to attack, instead they quickly assembled, howling and staring at the desert ground.

Rustle rustle….

With a series of moving sand sounds, golden scorpions emerged from the ground. These golden scorpions were all the size of a millstone, Peng Da watched with chills in his heart.

The golden scorpion group and the desert wolf group were engaged in a brutal fight.

Whenever a desert wolf was stung by a golden scorpion’s needle, it would immediately foam saliva at the mouth, fall to the ground, and eventually die. On the other hand, the golden scorpions could not fight against the desert wolves’ claws and teeth, and were often torn apart by the wolves’ claws.

The two groups of beasts fought, because they were weak in intelligence, they paid no attention to Mo Li and Peng Da who were close by.

Peng Da looked frightened and pale. This world was too dangerous, no matter which beast group won, they would surely still end up attacking the humans.

“We must break out!” Mo Li gritted his teeth with a firm expression.

“But uncle, we’re surrounded by golden scorpions and desert wolves.” Peng Da wanted to cry.

“Do you want to wait to be eaten?” Mo Li said, about to move: “Kid, can you fight?”

“Huh? I, I can’t, I have amnesia.”

“These desert wolves and golden scorpions don’t care if you have amnesia. Stay close to me and do your best to save yourself. There is at least hope for breaking out.” Mo Li said and laughed, “If breaking out fails, you’ll have to go fill the bellies of the beasts. But don’t worry, you won’t die alone, there’s still me.”

Peng Da could not help but roll his eyes, rather than dying like this, he would prefer to be buried alive!

Mo Li started to break out and Peng Da yelled: “Uncle, wait for me!”

He could only desperately follow behind Mo Li.

It was fine when they were still, but when they moved, they alerted the scorpion and wolf groups.

Almost at the same time, there were several golden scorpions and desert wolves, one left and one right, attacking them.

Mo Li grunted and activated his mortal Gu, but he only managed to repel two of the beasts before they got encircled by the groups.

“Breaking out has failed!” Mo Li sighed and gave up the fight.

Peng Da clutched his head and fell into despair, he stuttered: “Am… am I going to die?!”

Inside the sovereign immortal aperture.

At this moment, be they the mini five regions or the mini nine heavens, chaos was everywhere, the entire place was in a commotion.

Mini Southern Border's mountains collapsed, the terrain became disorganized, Mini Central Continent's river channels changed paths and caused torrential floods, Mini Western Desert had sandstorms everywhere that devoured cities and oases.

Mini Northern Plains.

An intense snowstorm was blowing, a pure white flame, fluttering in the blizzard, attached itself to wherever it burned.

This was the special fire immortal material — frost ice flame.

In places where the ice and snow path dao marks were dense, there would be a certain degree of probability that this special flame would be produced. Most of this flame was filled with ice and snow path dao marks, but the heart of the flame had dense fire path dao marks.

"We cannot let this frost ice flame spread everywhere!" Snowman Gu Immortal Xue Er was in charge of the situation, she tried to salvage it.

She was tasked by Fang Yuan to manage Triple Sacred Mountain, she controlled the snow crystal formation and focused on the growth of the snowman tribe's expansion.

Frost ice flames started to spread on triple sacred mountain, once the flames grew to a certain size, be they snowmen or snow monsters, they were burnt to death while crying in agony.

The snowmen were in chaos, they escaped and trampled on each other, causing unnecessary deaths.

Amidst the raging chaos, only a handful of snowman Gu Masters were trying to maintain order. But unfortunately, even with their cultivation, it was difficult to do anything against the immortal material frost ice flame.

“Oh no, the frost ice flame has reached the ice path crystal essence!” Xue Er’s face turned pale, she became anxious.

She had just now tried to save more of the snowmen, and as a result, she had lost sight of this, allowing the frost ice flame to appear in the snow crystal formation.

The ice path crystal essence was the core of the snow crystal formation, Fang Yuan used the formation to spread out the frost energy created by the ice path crystal essence, that would constantly alter the environment inch by inch, creating a living habitat that suited the snowmen.

Xue Er felt deep regret as she watched the frost ice flame burn the ice path crystal essence, while being helpless against it.

Xue Er could not help but tear up and blame herself. The snow crystal formation was entrusted to her by Fang Yuan, it was the foundation for the snowman tribe’s growth, but it was actually going to be destroyed because of her mistake.

She felt that she had let down the snowmen, she had let down Fang Yuan.

But at this moment, a figure suddenly appeared.

“Fang Yuan!” Xue Er was stunned before happiness appeared on her face.

Fang Yuan grabbed the empty space in front of him, all of the frost ice flames within the formation were drawn away.

Fang Yuan suddenly grunted as his body shook, pale white traces appeared around his body all of a sudden.

From these pale white traces, Xue Er felt a vast power that surged in heaven and earth!

“These are… heaven path dao marks! Oh heavens, there are so many heaven path dao marks, he must have at least a thousand!” Xue Er covered her mouth in surprise.

“I will leave the rest to you.” Fang Yuan smiled at Xue Er as he brought the frost ice flame away with him and vanished on the spot.

Xue Er felt relaxed but worry soon appeared in her heart: “My dear fiance has so many heaven path dao marks, no wonder he went into seclusion after the fate war and rarely fought. Sigh, I am so useless, I could not help him at all. I could not even defend this snow crystal formation!”

Fang Yuan appeared to help Xue Er alleviate the crisis of the snowmen in Mini Northern Plains, he immediately went back to his secret room to continue his closed cultivation.

When he was refining fate Gu, Fang Yuan had the best position, because he was doing his best to absorb the heaven path dao marks, he had more than three thousand heaven path dao marks on his body, they were all complete and intact dao marks!

One could say that he was the biggest winner in this plan that Red Lotus created.

But this benefit was too great, he could not process it in the meantime. The sovereign immortal body had non-conflicting dao marks, with the addition of heaven path dao marks, that also meant that Sovereign grotto-heaven gained three thousand heaven path dao marks all of a sudden.

These heaven path dao marks created a huge impact on Sovereign grotto-heaven.

The impact was in many different aspects and had varying effects. They could be as large as mountains and rivers shifting, but also small like a changing tributary channel.

“The way of heaven is to take away surpluses while replenishing deficits. It focuses on the balance of living beings, they limit each other. Even in an extreme environment like the snow crystal formation, the Heavenly Dao could alter it and create fire path dao marks within the ice and snow path dao marks, once the frost ice flame spreads its destruction, Mini Northern Plains would be completely altered beyond recognition.”

“Of course, if we ignore it, my Sovereign grotto-heaven will benefit from this, we will create a complete ecosystem that has balance and good prospects in the future.

“However, this method consumes too much of my foundation, it is also what Red Lotus Demon Venerable wants to see!”

Fang Yuan smiled coldly.

Fate Gu was destroyed, Red Lotus Demon Venerable’s plan succeeded, Fang Yuan no longer had any value to him. Thus, Red Lotus Demon Venerable schemed and used the heaven path dao marks to restrict Fang Yuan, to limit his growth speed.

However, even though Fang Yuan saw through this, he had to take the bait. It was because Fang Yuan noticed that sovereign immortal fetus Gu was tampered by Spectral Soul, he needed the heaven path dao marks to counter Spectral Soul’s arrangements.

Red Lotus Demon Venerable had been making use of Fang Yuan, it was evident from the rank seven future self killer move. But Fang Yuan also made use of Red Lotus, he used this Demon Venerable’s plan to destroy fate Gu, which was his biggest problem, he used Red Lotus’ million year plan to escape from the clutches of Spectral Soul’s arrangement.

Zhao Lian Yun allowed the heaven path dao marks to make the alterations but Fang Yuan decided to interfere with them.

The heaven path dao marks altered the sovereign immortal aperture, he actively participated, resisting and cooperating with the alterations to preserve his immortal aperture’s foundation.

This cooperation and resistance gave Fang Yuan a lot of insight.

Heaven path was merciless and impartial, human path was putting up a resistance, these two intertwined in Fang Yuan’s heart, shining in different radiance.

“Time is about right.” A while later, Fang Yuan moved again.

This time, he stored the sovereign immortal aperture, his main body arrived in the world of the five regions.

He stood in Western Desert as he looked at a tree in front of him.

This tree was not even eight feet tall, the branches were short, thin and twisted like monstrous claws, making it look extremely ugly. But the strange thing was, it had an enormous shadow of light. This shadow of light was extremely large, reaching five or six hundred feet. The shadow of light was like a flourishing tree with many branches and leaves. The tree branches were white as snow, the flowers were pink like cherries. There were clusters of small fruits among the floral leaves that had yet to ripen, with all sorts of colors.

It was the thousand wish tree.

Around the thousand wish tree was Fang Yuan's immortal formation.

Right now, he stored the immortal formation and took the thousand wish tree along with him, they were all sent into the sovereign immortal aperture.

This action caused a storm to surge, a vast air current spread out to the surroundings.

Fang Yuan did not care about this, he turned into a flash of light and flew into the sky.

The air currents rampaged in the surrounding deserts, causing loud sounds to be emitted.

Peng Da and Mo Li failed to breakout, they were surrounded by desert wolves, right when they were about to die, the air currents arrived.

The desert wolf group went into chaos as they scattered and escaped.

Peng Da jolted: "Another disaster!"

Mo Li stared with wide eyes as he looked and laughed: "Haha, we are saved! This is not a disaster, it is merely a normal hurricane. Let's go!"

Chapter 1973 - Going After Fang Yuan

1973 Going After Fang Yuan

After the qi tide passed, clouds were sparse in the sky, it was a refreshing sight.

A yellow cloud flew high in the sky, sprinkling light sand behind it along the way.

There was a female immortal sitting on the yellow cloud. She had a corpulent body, her belly was bulging, her entire body resembled a water vat, she was a member of Mo clan, a super force in Western Desert. There was a title for her in Western Desert's Gu Immortal world — Plump Lady.

Plump Lady did not dislike this title at all. She felt beautiful for being fat, and upon learning of this title, she liked it so much that she publicly called herself this from then on. In time, even her original name was forgotten in place of this title.

“Huh?” As the yellow cloud flew, Plump Lady suddenly had a change of expression, sensing something unusual.

Thus, the yellow cloud slightly contracted and flew down diagonally, changing its course slightly before suspending in mid-air.

Plump Lady stood up from the yellow cloud and looked down at the giant pit beneath her feet.

This giant pit was partially hidden by the wind blowing yellow sand

and covering it, but Plump Lady was a native of Western Desert, she was all too familiar with the landscape of the sand pit.

“This isn’t a naturally formed sand pit, but rather an empty space left behind after something in it was drawn away.”

“This aura… it’s the aura of an ancient desolate plant!”

Plump Lady’s eyes shined with bright light, she immediately understood: a Gu Immortal had secretly made a move to steal an ancient desolate plant from here.

Plump Lady snorted coldly as anger rose in her heart. Although she did not know what this ancient desolate plant was, this place was wolf desert, the territory of Mo clan. Stealing this ancient desolate plant was the same as stealing the Mo clan.

“This ancient desolate plant must be quite valuable since it is able to hide and conceal itself from the detection of our clan. I’m afraid that it has already been discovered by some people long ago but they just did not take it. Now that qi tides is causing disasters, this person who stole the ancient desolate plant must have been worried that they would endanger this ancient desolate plant, and that’s why they took it.”

Plump Lady secretly analyzed the scene and carefully examined it.

The thief’s actions were very clean, no obvious clues were left behind. Feeling disappointed, she had to use an information path Gu worm to inform the Mo clan, hoping that the clan would send good investigators to track down and capture this damned thief!

And finally, Plump Lady used information path Gu worms to record the scene before leaving. She had a mission right now, she could not waste time here.

As she flew along, she saw an oasis. The oasis was vast, and there was a stone city at the center. The city walls were short, but the overall length was long, there were a huge number of mortals living in the city, it was Sand Wolf City.

Sand Wolf City was one of the main cities of Mo clan.

Plump Lady did not cover her tracks and flew directly from high in the sky to the City Lord Manor.

There were already people at the City Lord Manor who were ready to receive her, when they saw the arrival of Plump Lady, they all fell to their knees and shouted: “We pay our respects to revered immortal!”

“Get up.” Plump Lady stored the yellow cloud and stepped on the ground in front of everyone.

“Revered immortal, the arrival banquet has been prepared. It contains the best wine and delicacies of Sand Wolf City, as well as fresh fruits that were just picked today.” The city lord spoke.

Plump Lady, however, waved her hand, she was not interested, she only said: “Prepare a secret room for me to undergo closed cultivation. Also, I asked you to gather Gu Masters with aptitude and loyalty, how is it going?”

“It’s almost done. The vast majority of the city’s Gu Masters have already been screened.” The city lord replied quickly.

“Very well. After three days, I will take them away. Now, you can go and attend to your own matters.”

“Yes, I will do my best to complete this task to the best of my ability.” The city lord promised in succession.

The door of the secret room closed slowly, Plump Lady activated the formation here with a wave of her hand.

She looked exhausted as her divine sense probed into her immortal aperture, when she saw the scene inside the immortal aperture, she inevitably let out another deep sigh.

Her immortal aperture was originally a land of yellow sand and it was flat. At the heart of the desert, Plump Lady had carefully laid out more than six thousand acres of sand farms.

Her sand farms mainly produced two types of immortal materials, they were light sand and cold-warm flowing sand. They were the main sources of goods that Plump Lady produced for a long time.

But after the fate war, Plump Lady absorbed five heaven path dao marks, her immortal aperture started to change. The landscape became uneven, more and more sand dunes were created. Furthermore, there was a trench, as if a knife had come straight down across the center of the desert, splitting the entire desert, thousands of acres of sand farms were lost.

“I don’t have wisdom path methods to make deductions and restrain this kind of natural development. Unless I hire a wisdom path Gu Immortal to take action, but my assets are not enough, I can’t afford it. I might as well save this expense in case of future mishaps.” Plump Lady lamented in her heart.

Mo clan had Gu Immortals that cultivated wisdom path, but they were not close to Plump Lady. In fact, even if the relationship was close, the wisdom path deductions would still cost Immortal essence, they could not work for Plump Lady for nothing, right? Therefore, there had to be a reward.

“Furthermore, I recently absorbed heaven and earth qi, my immortal aperture is unstable.”

Right now, the five regional walls were gone, the five regions’ heaven and earth qi had no obstruction and started to fuse. Western Desert’s heaven and earth qi was changing gradually, this caused the foundation of Western Desert Gu Immortals’ immortal apertures to start differing from the heaven and earth qi of the outer world.

When Gu Immortals absorb this heaven and earth qi, their immortal aperture would be unstable, there would be tremors.

The best way to deal with it was to cooperate with the change and continue absorbing and releasing heaven and earth qi. If one keeps themselves in closed cultivation, after the heaven and earth qi changes drastically, when they open the immortal aperture entrance to absorb heaven and earth qi, the tremors would be huge, the immortal aperture would suffer even more damage.

“If I had qi path attainment, I would be able to reduce the losses caused by the heaven and earth qi to a great extent.”

Wisdom path was a difficult path while qi path had been declining for years, there were few qi path Gu Immortals left.

Plump Lady was only having dreams that were not realistic. In the end, she consoled herself: Even though she did not have wisdom path or qi path methods, other Gu Immortals were like her. Thus, she was not left behind in the dust by the majority of them.

But Plump Lady still felt intense danger in her heart.

This was something that all of the five regions' Gu Immortals were feeling.

The five regions were unified, everyone knew that life was no longer going to be peaceful anymore. Be they lone cultivators or super forces, they were making preparations for the huge battles in the future.

This time, Plump Lady was tasked to go to Sand Wolf City and bring back Gu Immortal seeds for Mo clan to nurture.

In fact, Mo clan or Western Desert were not the only ones, all of the forces in the five regions and two heavens were making preparations now.

In the past, the five regions and two heavens were quite peaceful, super forces nurtured Gu Immortals while considering the provision of resources and their storage.

But now, everyone was preparing for war, they were going to mobilize these resources!

Thus, all of the forces focused on nurturing Gu Immortals than keeping resources. There was a common view: If they did not nurture enough Gu Immortals, their enemies would get all of their resources if they were wiped out in the future. If they did not use up those resources beforehand, that would be too wasteful.

Plump Lady looked at her sand farms in the immortal aperture while feeling heartache. She could not discard these farms, they were her only sources of revenue, they were her biggest financial support pillar.

Plump Lady had to preserve them.

The future was uncertain, she did not know how long the qi tides would continue, but she had to salvage them regardless.

“In the current world, I’m afraid only Fang Yuan will know how long these qi tides would last, he has Spring Autumn Cicada and can rebirth from the future after all.” Plump Lady felt deep envy and admiration regarding this.

Plump Lady rebuilt the sand farms in her immortal aperture, fixing the Gu formations inside.

The area where the Earth Trench appeared could not be fixed. Thus, her six thousand acre sand farm was split into two.

“If only I had an immortal Gu formation.” Plump Lady felt a bit of regret, Mo clan also had formation path Gu Immortals, when she created the sand farm, Mo clan’s formation path Gu Immortal had asked her if she needed help.

But Plump Lady rejected him.

On one hand, she did not want to expose her immortal aperture, on the other hand, she wanted to save cost.

After all, creating an immortal formation would use one of her Immortal Gu as the core. Plump Lady only had two rank six Immortal Gu herself.

Also, the payment of hiring the formation path Gu Immortal was not cheap.

“If I had created an immortal formation back then, my losses would be much lower. Sigh, how can anyone expect their own immortal aperture to be unsafe?”

Plump Lady thought of this and felt some envy towards the formation path Gu Immortal. During this period of time, he had been extremely popular with everyone, they were looking for him to create immortal Gu formations around their immortal aperture’s resource points to protect them.

Plump Lady felt a little bitterness towards the earth path she cultivated, earth path was skilled at changing terrain, but Western Desert had the most number of earth path Gu Immortals. Plump Lady's earth path inheritance was also quite ordinary.

As for cultivating a second path?

Plump Lady did not even dare to think about such an absurd idea.

She was already facing problems cultivating just earth path in terms of time and finances.

Trying to juggle another path was courting death!

Moreover, only those rare and exceptional inheritances could allow one to dual cultivate. For example, an inheritance left by Thunder Ghost True Monarch or Duke Long.

After repairing her immortal aperture's sand farm, Plump Lady still had to buy some fertile sand.

Sand farms nurtured sand using sand, without enough sand-type immortal materials, the production would fall greatly.

Plump Lady took out her Gu worms and connected to treasure yellow heaven.

Treasure yellow heaven had all sorts of news, a large number of wills were conversing as they interacted.

Because of the huge change in the world, Gu Immortals could not move around now, on one hand, they had to absorb and release heaven and earth qi continuously to adapt to the main world, on the other hand, they also had to take care of their immortal apertures and repair them continuously like Plump Lady. Cases like Zhao Lian Yun who ignored the damage caused were quite rare.

Thus, Gu Immortals needed immortal materials or the help of Gu Immortals of other paths, treasure yellow heaven became a very popular destination for them.

"Another qi tide happened over here, a lot of deaths occurred."

“When are these qi tides going to end! Damn it, my fisheries have all been destroyed.”

“I hate the fact that we cannot move around, the stronger the immortal aperture foundation, the longer we need to adapt to the heaven and earth qi and keep up with the five regions’ transformation.”

The Gu Immortals sighed as they talked about the news of these qi tides.

Other than that, there was Fang Yuan’s arrest warrant!

A mysterious force described Fang Yuan’s circumstances, they were willing to pay a huge sum for his latest information.

Fang Yuan had the sovereign immortal aperture, his sovereign immortal body had non-conflicting dao marks. More terrifyingly, he could annex people’s apertures to skip calamities and tribulations, increasing his cultivation level. But now, Fang Yuan obtained too many heaven path dao marks, his strength had hit an all-time low. Whoever discovered his location would get a huge reward!

The sovereign immortal fetus Gu’s secret was completely exposed, this was not Heavenly Court’s doing. Fairy Zi Wei and Old Man Zheng Yuan had released the arrest warrant due to Spectral Soul’s orders.

“Too strong! This sovereign immortal body is too terrifying, it can cultivate all paths.”

“I finally understand why Fang Yuan’s cultivation level rose so quickly! In the blink of an eye, he became a rank eight great expert.”

“Who can have such a great fortuitous encounter?”

“Why does heaven favor this otherworldly demon! If I had his fortuitous encounters, I could achieve such great accomplishments as well.”

The Gu Immortals were filled with jealousy and hatred.

“We cannot let him grow further, he can annex apertures, he is the enemy of all Gu Immortals.”

“Let those experts handle him. I am just a minor character, why would I ever encounter Fang Yuan?”

“The reward is a huge amount of immortal materials, I wonder which lucky person will get them.”

“Lucky person? Exposing the great demon Fang Yuan’s location would be offending him, you call that lucky? We have all seen Fang Yuan’s battle strength ourselves, even if he is at his weakest, how weak can that be? No matter how weak a person is, killing an ant is extremely easy regardless. Even if I find his location, I will not dare to expose him.”

Plump Lady heard these discussions, she felt conflicting emotions within her.

The information had been released in treasure yellow heaven several days ago. It had received huge attention, it was the hot topic currently, without showing signs of dying down.

Everyone in the world had seen the fate war. Fang Yuan’s performance was shockingly terrifying. The world knew about his pseudo venerable battle strength, the title of the number one demon in the world belonged to him, nobody dared to contest this!

“Hopefully, I never meet such a person in my life. No matter how fat I am, my size cannot compare to such a huge demon. If I get involved in his matters, I will die without doubt.”

Plump Lady was quite aware of her situation, she was only enjoying the show as a spectator.

But she did not know that she had once fought against Fang Yuan. In fact, the ancient desolate plant that was stolen earlier was taken by Fang Yuan!

While Plump Lady entered closed cultivation, two figures in sorry states supported each other as they moved towards Sand Wolf City step by step.

The city guards did not chase them away, they could tell that these two were Gu Masters.

The guard walked towards them and extended his hand: “Entry fee of one primeval stone per person.”

“There’s still an entry fee?” One of the downcast Gu Masters started with wide eyes, he was Peng Da.

The middle aged Gu Master that he was supporting was naturally Mo Li.

The two of them were saved by the air currents generated when Fang Yuan took the thousand wish tree, after exerting effort, they finally reached Sand Wolf City.

“I have them.” Mo Li was already prepared, he took out two primeval stones and handed them to the guard.

Peng Da took a look at these two primeval stones.

Along the way, he was taught by Mo Li, he could now inspect his aperture, he found that he had three Gu worms. He even understood the value of primeval stones, it was used as currency but also as a way to replenish a Gu Master’s precious primeval essence!

“Two primeval stones to enter a city.” Peng Da sighed: “Uncle Mo Li, I will return this sum to you.”

Mo Li patted his shoulder: “Let’s go kid. No matter how poor I am, I can still afford this fee. During this period, you should stay at my home, you are penniless and have no memory of this city, how can you live alone?”

Mo Li had guided Peng Da along the way, after finding that he knew nothing about Gu Master cultivation, he believed the words that he was amnesiac.

“Uncle, thank you so much. You saved my life and even helped me this much…”

“Don’t say that!” Mo Li interrupted Peng Da and brought him into the city.

Mo Li’s house was at the central area of Sand Wolf City, it was a huge house with a garden that had flowers growing in it.

“I am back!” Mo Li knocked on the door as his wife opened the door.

“You are finally back!” Mo Li’s wife was a rank two Gu Master, seeing her husband, she was happy and surprised: “I heard the qi tide appeared, I thought you…”

“I was lucky and lived, but my caravan is completely ruined, only the two of us survived. Sigh!” Mo Li sighed deeply.

“Being alive is the greatest blessing!” Mo Li’s wife turned her eyes.

“Auntie.” Peng Da greeted after their conversation.

Mo Li’s wife chuckled: “Little lad, thank you for taking care of my husband along the way.”

Peng Da’s face turned red as he said: “I am ashamed, it was uncle who took care of me during this journey, without his help, I would have died in the desert.”

“As travelers outside, helping each other is necessary. Quickly come in.” Mo Li’s wife was very welcoming.

Mo Li and Peng Da had a rough journey, but they were finally safe now.

After showering in Mo Li’s house, the two of them went to bed and fell sound asleep.

After sleeping from noon to night time, Peng Da was woken up by Mo Li for a scrumptious dinner.

After dinner, Mo Li said to his wife: “We still have some money left, even though my caravan was destroyed, as long as I am alive, I can rebuild a new caravan!”

But his wife had a hesitant look: “I haven’t told you this, I was hesitating, thankfully, you returned alive."

"What is it?" Mo Li was curious as he asked.

"After you left, the city lord sent orders that they would select Gu Masters that had A grade aptitude and were loyal to Mo clan. Supposedly, this is an order from the higher-ups, they want to nurture Gu Masters to become Gu Immortals."

"Oh? There is such a thing?" Mo Li hesitated: "The city lord put up a public notice? I went past the city gates quickly, I did not see it."

Mo Li's wife continued: "Our son heard the news and wanted to sign up."

Mo Li laughed unconsciously: "To think our son would have such aspirations, but he only has B grade aptitude."

Mo Li's wife laughed: "Aptitude is not too important, loyalty to Mo clan is most important. If we show enough loyalty, our son might be selected."

Mo Li realized at once, asking:" How much?"

Mo Li's wife said a number, Peng Da's mouth became wide open.

Mo Li's wife was very troubled: "Even if we use all our remaining savings, it will not be enough. Husband, the decision is up to you."

Mo Li was silent for a moment before he resolved himself: "I will borrow! It is rare that our son is no longer lazy and wants to improve himself, this is a good thing. I will go and borrow shamelessly, I am sure we will gather enough funds."

"Husband…" Mo Li's wife was touched but felt worried as well: "But our caravan was destroyed, I am afraid…"

Mo Li smiled as he patted his chest, feeling confident: "Don't worry, I am a rank three Gu Master, my body is strong and my strength is intact. Everyone knows that I only need time, as long as my luck is not bad, I can recover from this loss!"

Chapter 1974 - Creating An Opening

1974 Creating An Opening

The sky was light purple in color, gathered in mid-air was a large area of grey clouds resembling thick fog, making the view of Soul Pacifying grotto-heaven quite unclear.

But the layout of this place was good, even Spectral Soul could not help but praise it.

He had disguised as a soul beast, he successfully infiltrated the grotto-heaven, after many days, he finally found out a lot of information about Soul Pacifying grotto-heaven.

This was a soul path grotto-heaven, there were a lot of soul path cultivation resources here, it had at least ten giant resource points! In history, it had once produced two rank eight soul path immortals at the same point in time, it was a very rare situation.

The biggest trait of Soul Pacifying grotto-heaven was that it had a soul pacifying immortal killer move that influenced all lifeforms in this grotto-heaven. This killer move could pacify soul beasts and bring peace to Gu Immortals' souls, it had a huge supplementary effect in soul cultivation.

There were three aspects in soul path cultivation, strengthening, refining, and pacifying the soul.

The most effective method to pacify the soul was using the water of Bewitching Lake, it was known as pacifying soul soup, the most delicious wine in the world. This was recorded in u003cu003cThe Legends of Ren Zuu003eu003e.

The soul pacifying killer move in Soul Pacifying grotto-heaven was created by mimicking the pacifying soul soup. Even Spectral Soul thought that the effect of this move was good.

Within Soul Pacifying grotto-heaven, soul beasts were the most plentiful of beasts.

It had raised soul beasts to begin with, now that Fate was destroyed and the five regions unified, in order to prepare for war, the Gu Immortals of Soul Pacifying grotto-heaven went outside to hunt and store more soul beasts.

But the higher-ups with Lady Cold Ash as the leader still did not think this was enough, they sent even more Gu Immortals outside to search for even more soul beasts.

Thanks to the soul pacifying killer move, even if immemorial soul beasts went into Soul Pacifying grotto-heaven, they would remain peaceful and would not rampage.

After An Xun returned to the grotto-heaven to rest for a few days, he received orders to go out and hunt soul beasts again.

“I am letting you command three thousand soul beasts with one immemorial soul beast as the guardian, do your best.” Before leaving, Lady Cold Ash called for him.

An Xun was the tall and skinny Gu Immortal from earlier, he was the nephew of Lady Cold Ash, and also the Gu Immortal with the best prospects to go beyond rank seven in Soul Pacifying grotto-heaven.

“Thank you for the concern, aunt.” An Xun said with difficulty: “But such a huge soul beast group, I do not have the ability to command them.”

Lady Cold Ash waved her hand: “My killer move can allow you to command this soul beast group with ease for twenty days.”

An Xun was overjoyed, he quickly thanked her.

He understood that his aunt was helping in secret and taking care of him. Even though Soul Pacifying grotto-heaven did not lack resources and had deep foundation, when nurturing Gu Immortals, seniority mattered.

Lady Cold Ash helped An Xun secretly, hoping that he would emerge victorious in the contest against An Chong and become the rank seven Gu Immortal who received the most support.

She was his aunt after all!

An Xun led the soul beast army and left Soul Pacifying grotto-heaven, heading to black heaven for his hunt.

For the next few days, his gains were little, he became a little anxious.

“Logically speaking, after the qi tide passes, there would be many dead lifeforms, their souls would be left behind and form more soul beasts.” An Xun could not understand why this was not happening.

Along the way, he did not meet many soul beasts, but he gathered a lot of qi path immortal materials, he did not know whether to laugh or cry.

Soul Pacifying grotto-heaven was a soul path grotto-heaven, these qi path immortal materials were almost unusable, they could only be traded away.

An Xun could not understand why, but Spectral Soul knew: “It seems that after the qi tide passes, qi path dao marks flood the area, causing other paths to be suppressed. Soul path is no exception, it is hard to form new soul beasts. In contrast, qi path immortal materials are going to increase in numbers, they will be at an absurd number in the future.”

Spectral Soul saw the trend and felt a little strange internally: “To think that qi path would regain its former glory!”

Qi path had been declining, but with the current situation where qi path immortal materials get produced widely in the five regions and two heavens, the abundance of resources would lower the cost of cultivation. It would create a trend of numerous qi path cultivators.

Spectral Soul turned into an ancient soul beast and secretly followed An Xun, he left Soul Pacifying grotto-heaven for his own objectives.

He had already inspected Soul Pacifying grotto-heaven, but he could not take action inside. Outside, it was a different story.

However, Spectral Soul did not act immediately, he patiently waited for a chance.

As expected, after more than ten days, An Xun encountered a group of soul beasts that numbered to more than a thousand.

“I finally met some.” An Xun was overjoyed, he quickly manipulated the soul beast army to attack.

A huge battle began.

Initially, An Xun had the advantage, but soon, he found that an immemorial soul beast appeared in the enemy’s group.

He quickly let out his guardian, it was also an immemorial soul beast.

The two immemorial soul beasts fought intensely, creating a small battlefield for themselves.

The enemy immemorial soul beast was much stronger than An Xun had expected, his immemorial soul beast quickly fell into a disadvantage, about to be defeated.

An Xun was shocked, he quickly acted to help out his immemorial soul beast.

Eventually, An Xun paid a huge price of suffering injuries to exterminate the enemy immemorial soul beast.

An Xun felt regret that he could not capture the wild immemorial soul beast, he had tried many methods to subdue it but he failed, he had no choice but to kill it in the end.

After the battle, An Xun counted his gains and losses, despite his heavy injuries, he gained eight hundred soul beasts overall, among which were many ancient soul beasts.

“This should be enough.” An Xun let out a sigh of relief, these gains were sufficient, he did not let down Lady Cold Ash and her expectations.

But right when An Xun relaxed his mind, Spectral Soul struck at lightning speed, flying into An Xun’s body.

An Xun’s face distorted as he shook intensely, after a while, he returned to normal.

Spectral Soul came out of his body as An Xun knelt down: “I pay respects to master!”

“Mm.” Spectral Soul nodded with a tired expression.

He had an ability to enter a life form’s soul and forcefully modify it so that they would obey Spectral Soul from the depths of their soul with absolute loyalty.

But there were many limitations to this, he could not use it casually.

Back then, Spectral Soul subdued Fairy Zi Wei and Old Man Zheng Yuan when they were at their weakest. Fairy Zi Wei and Old Man Zheng Yuan were in poor conditions then, while she had also been subconsciously influenced by him over time.

Thus, in order to deal with An Xun, Spectral Soul had to wait until he was at his weakest.

The reason he caused this huge soul beast battle instead of directly attacking because he needed to deceive Soul Pacifying grotto-heaven. An Xun was a rank seven Gu Immortal, it was not easy for him to explore black heaven, there were investigative methods used on him. If anything happened to him, Soul Pacifying grotto-heaven would react to it rapidly.

“After subduing An Xun, I have an opening in Soul Pacifying grotto-heaven, is Lady Cold Ash still far from my grasp? Hehe.” Spectral Soul chuckled.

Soul Pacifying grotto-heaven had the most suitable cultivation resources for Spectral Soul, he could take control of it and use it to interfere in the world affairs to accomplish his goals.

“I have already created my opening here, it is far better than hunting soul beasts myself! I wonder what breakthrough Fairy Zi Wei has made already.”

At the same time, in a certain Central Continent valley.

“Fang Yuan, you cannot escape.” Fairy Zi Wei called out, using a purple meteor attack.

The purple meteor landed on Fang Yuan as it pierced his chest, creating a gaping hole.

Fang Yuan stared at Fairy Zi Wei, he fell with a loud sound and scattered into smoke.

“Another clone!” Even though Fairy Zi Wei was prepared for it, she still felt tired seeing this.

Fairy Zi Wei and Old Man Zheng Yuan had already killed hundreds of Fang Yuan’s clones.

She immediately captured and stored the smoke that the myriad self clone turned into.

Next, she took out a sealed clone of Fang Yuan from her aperture.

She instilled the smoke of the destroyed myriad self clone into the sealed clone.

Soon, the white smoke was absorbed by the clone, its cultivation level rose again.

These myriad self clones were summoned by Fang Yuan during the battle in Heavenly Court, Fairy Zi Wei had used the transportation formation to send them all over Central Continent.

Fairy Zi Wei was ordered by Spectral Soul to find Fang Yuan, after putting up the arrest warrant, all the information she received involved these clones.

Fairy Zi Wei had no choice but to pay them the reward as they had provided information. But she also went around laboriously to capture the Fang Yuan myriad self clones all over the continent.

If she left them unattended to, these clones would be the best concealment for Fang Yuan's main body. Fairy Zi Wei also had another idea, what if Fang Yuan was hiding among these clones?

This was not impossible.

"Thankfully, these myriad self clones can sense each other, when I capture one, I can use the connection to find the next clone."

"But…"

Fairy Zi Wei watched as the sealed clone of Fang Yuan rose in cultivation level, she felt worried: "Fang Yuan's human path attainment level is so high. These clones can actually devour each other and show such autonomy…"

"Fang Yuan's strength is low because because of two reasons. Firstly, the heaven and earth qi are converging and forming qi tides, immortal apertures are becoming unstable, secondly, the heaven path dao marks he absorbed are also like a seal."

"Among the different paths, human path is the most suitable for dealing with heaven path. Who knows how many heaven path dao marks Fang Yuan gained, how long can they suppress him for?"

Inside the sovereign immortal aperture.

The thousand wish tree was planted in Mini Central Continent.

An immortal formation with the thousand wish tree as the core was already set up, it started to activate now.

Due to the influence of the heaven path dao marks, Sovereign grotto-heaven had been encountering disasters and calamities endlessly, but even in this situation, Fang Yuan still spent effort to create and defend this formation.

“Good.” After observing for a while, Fang Yuan smiled as he saw the formation working normally.

This was a human path formation, the thousand wish tree was a human path ancient desolate plant, with his formation path and human path attainment levels, Fang Yuan finally made such progress.

The formation in Mini Central Continent was the main formation, there was going to be four more human path sub-formations created in the other mini regions.

“I am trying to use human path to restrict heaven path, let’s see how well it works!” Fang Yuan held high expectations for this plan.

Chapter 1975 - World Poetry Competition

1975 World Poetry Competition

Immemorial black heaven.

“They’re here!” An Xun shouted excitedly.

Under his silent supervision, a soul beast army of a thousand charged towards his ambush.

Once they entered his range, An Xun activated his ambushing soul beasts, attacking all of the wild soul beasts from all sides.

While An Xun controlled the soul beast army, he activated Immortal Gu and unleashed all sorts of immortal killer moves.

As his killer moves landed on them, the soul beasts on his side gained a boost in battle strength, speed, and defense to some degree.

This battle lasted for several minutes, An Xun successfully killed four hundred wild soul beasts while the rest were captured.

“Master!” An Xun gathered a pile of soul cores and offered them to Spectral Soul.

Spectral Soul opened his mouth and absorbed all of these soul cores into his body, starting to digest them.

After last time when he secretly followed An Xun and enslaved him, Spectral Soul managed to get his plan started.

He secretly passed the profundities of soul path cultivation to An Xun, according to the soul path Immortal Gu that An Xun had, he personally created soul path killer moves for him.

An Xun's strength continued to rise, he took many missions to capture soul beasts.

For this purpose, Spectral Soul created two methods, one could find out the location of wild soul beasts, the other was a simplified immortal formation that could lure soul beasts after it was set up.

With these two methods, An Xun captured wild soul beasts with much higher efficiency, each mission was completed to a high degree.

Lady Cold Ash saw that her nephew did not let down her expectations but even went beyond that and shined brightly, she was very happy about it.

Within Soul Pacifying grotto-heaven, Lady Cold Ash was the only rank eight, she was naturally their leader.

Below her were An Chong and An Xun. Last time, when Ice Crystal Immortal Monarch opened his grotto-heaven and invited them, Lady Cold Ash brought the two of them with her, she wanted to let them gain some experience, and also let them meet up with others to become acquainted with other Gu Immortals.

When Lady Cold Ash was in the meeting in the grotto-heaven, An Chong and An Xun stayed outside the grotto-heaven and talked with the other rank seven elites of other grotto-heavens.

But Lady Cold Ash did not know that An Xun was already turned into Spectral Soul's slave. In fact, the entire Soul Pacifying grotto-heaven, including herself, was currently targeted by Spectral Soul, their future was bleak.

The more missions he completed, and the higher the completion rate, the more advantage An Xun would have in this competition.

Lady Cold Ash could see this, the other Gu Immortals in the grotto-heaven also noticed this.

One day, Lady Cold Ash summoned An Chong as she instructed: "Since the last time Ice Crystal Immortal Monarch called for us to have a meeting, he was very active in asking the grotto-heavens to work together. But in Central Continent's black heaven, there are many variant humans but only two rank eight humans including me. Thankfully, I have already contacted Granny Skeleton, she is a rank eight Gu Immortal of Eastern Sea's black heaven. In this journey to Eastern Sea, you are representing Soul Pacifying grotto-heaven, you will meet with Granny Skeleton and show our sincerity to cooperate."

"Yes." An Chong replied, feeling bitter inside.

He knew Lady Cold Ash's intention.

By sending him on this mission, she was helping An Xun to claim victory, he was going to become the nurturing target of Soul Pacifying grotto-heaven.

If An Xun performed similarly to himself, An Chong would feel unresigned and angry. But An Xun did really well, far better than him, even An Chong felt that he had no chance to win.

He accepted this mission, he took some immortal materials from Soul Pacifying grotto-heaven's inventory as a meeting gift.

After leaving Soul Pacifying grotto-heaven, he passed the heavenly wind qi wall and arrived in the five regions.

He concealed his traces and went from Central Continent to Eastern Sea. Next, he went through the heavenly wind qi wall in Eastern Sea and to Granny Skeleton's area.

When the regional walls existed, Gu Immortals had a lot of trouble crossing regions. Many strong Gu Immortals would choose to travel using the two heavens.

But now that the regional walls had vanished, even a black heaven Gu Immortal like An Chong could travel through the five regions.

Black heaven had a dangerous environment, it would be troublesome if one met an immemorial desolate beast. Even though An Chong had an immemorial soul beast hiding in his immortal aperture, he only had rank seven cultivation level after all. Especially now when the qi tides were rampaging, the five regions Gu Immortals had to recuperate, they rarely moved around. Thus, it was easy for An Chong to travel.

Along the way, An Chong found that the five regions were facing huge disasters, the qi tides had caused much destruction.

Regardless, he did not meet with any unexpected mishaps, he successfully arrived in Eastern Sea and went up to immemorial black heaven. According to the communication method left by Lady Cold Ash, he successfully went into Shattered Bone grotto-heaven and met with Granny Skeleton.

“Fate has been destroyed, the qi tides are surging. With the current changing world, if we do not cooperate, the future will be uncertain. We are all humans, we should work together and stay united.” Granny Skeleton did not create problems for An Chong, she agreed immediately.

Granny Skeleton continued: “However, in Eastern Sea’s black heaven, variant human forces are more dominant. Lady Cold Ash wants us to cooperate, why would Ice Crystal Immortal Monarch do nothing? He must be gathering the variant human forces of the other regions’ black heaven as well.”

An Chong knew that Granny Skeleton would not say unimportant things, he quickly asked: “Senior, what insight might you have?”

Granny Skeleton said: “Since we are uniting the humans of immemorial black heaven, why don’t we include white heaven as well? I will not hide it from you, I have contacted many people already, the response is quite good. Among them, there is one key person, we need your help to persuade them.”

Granny Skeleton paused and continued: “This person is a rank eight Gu Immortal, he is known as Old Immortal Hua Yu, he controls Profound Literature grotto-heaven. He has quite the reputation in Eastern Sea’s white heaven, if we can ally with this person, it will definitely bring along a number of white heaven Gu Immortals, we will save a lot of effort.”

An Chong heard this and thought: Going to meet Old Immortal Hua Yu was not part of his mission, but if he could accomplish this feat, he would have a chance to compete with An Xun again.

Thinking of this, An Chong made his decision, saying to Granny Skeleton: “Since senior has already planned this, junior will set out for Profound Literature grotto-heaven.”

Granny Skeleton praised: “Good, as expected of a member of Soul Pacifying grotto-heaven. Old Immortal Hua Yu does not like to fight or kill, that is why he has little interest in an alliance. If you can succeed in this trip, I will reward you greatly!”

An Chong left Shattered Bone grotto-heaven and went to immemorial white heaven, meeting with Old Immortal Hua Yu.

Even though Old Immortal Hua Yu had little interest in an alliance, An Chong was representing Lady Cold Ash in this trip. The other party was also a rank eight Gu Immortal, Old Immortal Hua Yu did not dare to ignore them, he opened the door and invited An Chong in.

After seeing Old Immortal Hua Yu, An Chong gave the speech that he thought up along the way but Old Immortal Hua Yu was unmoved.

“My Profound Literature grotto-heaven does not involve itself in worldly affairs, we are a neutral party. Even though we do not want to make an alliance, the two of us can still exchange resources.”

Soul Pacifying grotto-heaven produced soul path resources, it was quite useful for Profound Literature grotto-heaven.

Seeing that he could not convince Old Immortal Hua Yu, An Chong thought that this transaction was at least better than nothing. This was the first time they were interacting, after several transactions, wouldn’t they get closer?

With a deeper relationship, requesting for an alliance would be much better hopes.

After saying goodbye to Old Immortal Hua Yu, An Chong was asked to stay by another Gu Immortal.

Gu Immortal Hua Song attended to him, he said: “You have traveled a long journey to come here, you should stay for a few days. During this period, the mortal imperial court is holding a world poetry competition, many beautiful poems will be created and recited then, it is quite interesting to watch.”

An Chong had already heard from Granny Skeleton about the poetry culture of Profound Literature grotto-heaven. All of their Gu Immortals were scholarly and preferred literature works over beautiful women or wine.

An Chong wanted to improve his relationship with Profound Literature grotto-heaven, even though he had no interest in poetry or recital, he could not refuse their kind invitation, he agreed to stay.

The world poetry competition commenced.

This was an unprecedented event, Profound Literature grotto-heaven had never held such a huge competition before. Thus, all sorts of talents gathered from all over Profound Literature grotto-heaven.

Other than the talented scholars who wanted to display their abilities in the poetry competition, many people came here to watch the grand event.

Thus, the capital city that was holding the world poetry competition became filled with people since a month ago.

People moved on the bustling streets, Li Xiao Bai and Teacher Jiang walked side by side.

“The world poetry competition has eighteen rounds, Xiao Bai, if you want to change your circumstances, this is the best chance. I understand your talent, you can pass the first ten rounds, but the latter eight will depend on your luck. Sigh, teacher cannot help you this time, we might even end up as opponents.” Teacher Jiang sighed.

This was a grand event, Teacher Jiang also wanted to participate and compete with the other talented scholars!

After Li Xiao Bai heard this, he held down the urge to roll his eyes as he thought: “I am almost certain now that you will end up as my opponent, dear teacher.”

Li Xiao Bai was Fang Yuan’s clone, he was sent into Profound Literature grotto-heaven as a pawn to take over this grotto-heaven.

Initially, Li Xiao Bai had a smooth sailing journey, he even received the affection of Su clan’s young miss, Su Qi Han. As a result, Li Xiao Bai became one of the ten great scholars, he had a chance to become Su clan’s son-in-law.

Next, while Li Xiao Bai was on his way to the capital city, the world shook as mountains collapsed and rivers flooded. The people in Li Xiao Bai’s group got injured while some died, they were trapped in the valley for months before Li Xiao Bai managed to escape for his life.

Because of this, he missed the opportunity and did not meet with the emperor. Without the emperor’s decree, his ten great scholar title was conferred to others.

Li Xiao Bai wanted to contact Su Qi Han but found that after hearing about his situation, she went to look for him and went missing as a result, even now, she had not returned yet.

After arriving in the capital city, Li Xiao Bai encountered many setbacks, people tried to target him secretly, he offended officials or royalty without knowing it, he had a tough time. If not for Teacher Jiang’s help, he would have ended up on the streets as a beggar.

But he knew why.

“Even though my main body destroyed fate Gu, our strong luck was almost completely expended in this battle. The result is that I as a clone also became really unlucky.”

“This world poetry competition is the event created by Profound Literature grotto-heaven to choose new Gu Immortal seeds. Even though teacher does not know the details, he still chose to join, he is going to become my obstacle.”

“I am so unlucky now, I will definitely face him. If I defeat him, this teacher might hate me for life. But this chance is too rare, if I do not use it to deal with the difficulties ahead, I will meet with more problems in the future!”

Chapter 1976 - Li Xiao Bai“s Spring Poem

1976 Li Xiao Bai“s Spring Poem

“Lord Gu Masters, please come in!” The waiter bent his back as he invited Hua Song and An Chong into the shop.

“This is a famous teahouse of the capital city, it is very crowded, I have come here many times in the past.” Hua Song transmitted as he explained to An Chong.

The two had disguised as Gu Masters as they came to the capital city of Profound Literature grotto-heaven.

An Chong was more willing to observe the capital city from above the clouds. But since Hua Song had such interests, he could only accompany the person who invited him.

“I want a table on the fifth floor.” Hua Song was very familiar with this place.

The two came to the fifth floor, they entered the room and saw through the windows that the streets were bustling with people outside, the street with the bronze gate where the first round of the competition was held was completely packed with people.

“These are the current generation scholars of my Profound Literature grotto-heaven, they are the hope of our future as well. Please observe.” Hua Song sighed as he handed a rank five investigative Gu worm to An Chong, it could observe the target’s talent qi.

An Chong took a look and used it immediately, his field of vision changing immediately. He could now see the talent qi above the heads of countless scholars. These talent qi had all sorts of colors, some were taller than others, they all had different forms, it was an eye-opener.

“Since you have such a Gu worm to observe talent qi, what is the point of holding this competition?” An Chong asked.

Hua Song chuckled: “You might not know, talent qi is like cultivation level, even if one possesses a larger talent qi, they might not be able to use it properly in actual competition. Furthermore, this competition requires them to make poems on the spot, they cannot cheat. We want to test the upbringing of these scholars, some who have abundant talent qi might not have sufficient inspiration to create the highest quality poems.”

An Chong nodded: “I see that the formations here are interlinked, they are able to amplify the creative thinking of the scholars?”

Hua Song nodded: “Indeed, you are very perceptive! Within the immortal formation, scholars are able to display greater abilities than usual, they will make full use of their talents.”

As they spoke, the door was knocked.

After getting Hua Song’s permission, the waiter brought over an array of dishes and wine.

“Eight treasure duck, golden thread crispy sparrow, panda crab meat, they are all signature dishes of our teahouse, please enjoy the food.” The waiter said.

Hua Song gave the waiter one primeval stone as a tip before he left the room.

Hua Song explained to An Chong: “Envoy, even though the tea here is mortal tea, it was created by Lord Hua Yu in his youth, when he was still a rank four Gu Master, he became the top scholar and thus this tea was named by him as the top scholar tea.”

“Oh?” An Chong became interested now, this was the creation of a rank eight Gu Immortal in his youth.

“Then I will have to savor this well.” An Chong drank it, he shut his eyes as he tasted the tea, in a daze, he felt a rush of excitement in his heart, it was as if he had attained success after decades of hard work, he finally gained the reputation and fame that he deserved, life was at its peak!

“Good tea, good tea.” An Chong praised sincerely: “Even though this is a mortal tea, it has a trace of human path ingenuity within it!”

During the fate war, Central Continent’s Heavenly Court used multiple human path killer moves with shocking power, the entire world knew about it. Thus, human path became renowned in the world, everyone knew about it.

While the two immortals were enjoying their tea, the bronze gate of the first competition ground opened slowly.

The crowd of people waiting before the gate erupted into a huge commotion.

“It’s opening, it’s opening!”

“Don’t squeeze.”

“Quickly let me in.”

The crowds charged through the gate.

Li Xiao Bai was among them, but he was at the back instead.

He moved along with the people as he analyzed the rules of this competition.

“The world poetry competition has eighteen rounds, each one has a question, everyone has to answer it, regardless of how many people, their final product will be assessed and only half will be able to pass.”

“Towards the later rounds, the numbers will continue being halved. Like this, once someone passes all eighteen rounds, they will fulfill the condition.”

"If someone fails once, they will have to return to the previous round. If they keep losing and fall out of the first round, they will be out."

"However, this poetry competition will last for seven days. Everyone has three opportunities to try even if they get kicked out of the first round."

"This way, Profound Literature grotto-heaven will be able to pick the most eligible Gu Immortal seeds. Even if someone makes a mistake, they will have a chance to try again. But if any scholar fails to perform throughout the seven days, it will mean that they are not up to standard, they are not qualified to receive the grotto-heaven's help to become an immortal."

Li Xiao Bai retracted his thoughts, he had already arrived at the first arena.

The arena was large but packed with scholars.

There were males and females, young and old, the number of people exceeded the thousands.

This was just the first day.

Li Xiao Bai waited for another fifteen minutes in the arena before all of the scholars had joined the first round.

There was truly a sea of people, the liveliness was overwhelming.

Thankfully, the first arena was an immortal formation space, it could expand casually and hold so many scholars without problems.

Bang… bang… bang!

As the drums rolled, a voice was transmitted into the scholars' minds: "World poetry competition, first question — Spring, the time limit is five minutes."

After saying that, the voice vanished.

"The first question is spring?"

Many scholars frowned while many scholars showed happy expressions.

Li Xiao Bai thought to himself: “There are simply too many spring poems in existence, this question seems really easy. After all, most scholars would have some sort of verses related to this theme. Even though the world poetry competition requires the creation of poems on the spot, a person can easily modify existing verses to create their own new poems.”

“But in reality, this question is quite the tough one.” Li Xiao Bai had an expression of deep thought.

He knew that his poem was going to compete against the surrounding people. As long as he was stronger than half of them, he would progress to the next stage.

Many scholars noticed this as well.

Many people started to think, some sat down on the ground while others paced around with their arms behind their backs, some lowered their heads, muttering softly to themselves.

Li Xiao Bai’s thought was: “Which poem do I use, or steal?”

There were many spring related poems in his memory, they were all amazing classics.

But using a legendary classic from the start was not good, this would not allow Li Xiao Bai to explain himself in the future. He did not have top tier talent qi, if he took out a shocking poem now, he would attract suspicion.

If his luck was good now, Li Xiao Bai might take slight risks. But now that he was having bad luck, Li Xiao Bai decided to play safe.

While Li Xiao Bai was thinking about it, many scholars already started to make their poems.

Thus, all kinds of lights shining in all colors, weak or strong, appeared. Whenever the light fades from a scholar’s body, they would have some gains.

Some gained Gu worms, some gained a rise in cultivation level, some recovered primeval essence, while others recovered from fatigue.

This was the killer move known as assisting literary talents.

Profound Literature grotto-heaven's creator, its original owner, had used this move before his death. Because of assisting literary talents, more and more scholars were encouraged to study, it eventually created the environment of Profound Literature grotto-heaven where most people were scholars.

Li Xiao Bai decided on his poem.

He coughed lightly before starting his recital.

"A moonlit night[1]."

"Deep into the night the moon shines on half a cottage, across the sky the Big Dipper lies, the Little Dipper tilts an incline."

"The warmth of spring is readily felt tonight, through the green window screen, insects buzz and hum."

After Li Xiao Bai finished his recital, a light buzzing noise could be heard around him, his entire body shined in an intense green light.

Whoosh.

The scholars around Li Xiao Bai felt an invisible pressure as the green light forced them to move aside, a huge empty space was created with Li Xiao Bai at the center.

"Such, such a strong light!"

"A famed poem has appeared!"

"To think that a famed poem would appear so quickly. I wonder who created it?"

Many scholars lost their train of thought, they all looked towards Li Xiao Bai with admiration and suspicion.

Li Xiao Bai had a calm expression but he was a little conflicted inside: "Sigh, I went overboard a little, the effect was so eye-catching, I gained too much attention."

He looked around, hoping someone would step up and take the attention away from him.

As the green light entered his aperture, his cultivation level rose.

"Oh! A famed poem has appeared, let me go read it." At the teahouse, Hua Song had a sensation.

After reading Li Xiao Bai's work, Hua Song nodded in satisfaction: "Brilliant, brilliant! This Li Xiao Bai is very young but his poems are very mature."

"Normally, spring poems would use verses involving greenery or peach blossoms. But this poem uses another train of thought, using the night scene to conceal the spring light, it is quite interesting."

"The final verse must be created using Li Xiao Bai's personal experiences. It has a refreshing, happy, and lively feeling."

"Poems take after the creator, this Li Xiao Bai has a superb mindset!"

Hua Song praised it for a while, as if he had just eaten a delicacy of the world. He looked at An Chong as he smiled: "I wonder what envoy thinks of this poem?"

An Chong felt a headache as he thought: "If you didn't tell me, I wouldn't know what's so good about this poem. Sigh, he wants me to critique it, what should I say?"

[1] Poem by Liu Fangping.

Chapter 1977 - Li Xiao Bai“s Inner Conflic

1977 Li Xiao Bai“s Inner Conflic

Li Xiao Bai’s expectations were not disappointed.

After his recital, three more people stepped up.

One was a strong man wearing a golden mask, he was shining in a glaring golden light.

There was an old man wearing a cone hat, he was holding a cane as a green light moved around him.

There was also a woman, she had a slim body and wore a pink dress, her face was covered by a veil, after her recital, butterflies flew around her, it was a beautiful sight.

These three had created famed poems on the same level as Li Xiao Bai’s moonlit night.

Li Xiao Bai let out a sigh of relief: “This world has Gu worms to assist with poem creation. Gu Masters are also able to extend their lifespan and gain more experience in life. Thus, famed poems are more likely to appear than on Earth.”

On Earth, moonlit night was a rare creation. But in Profound Literature grotto-heaven, it would not be unmatched.

Including Li Xiao Bai, the four of them had their own territory as they looked at each other.

The strong man, old man, and woman placed their gazes on Li Xiao Bai.

They knew each other, they had some sort of understanding towards their works, but Li Xiao Bai was a newcomer.

“Who is this young man?”

“His talent qi is not dense, how can he create such a famed poem?”

“Hehe, interesting guy.”

Li Xiao Bai’s teacher, Teacher Jiang, also saw his student’s performance. He nodded in satisfaction: “Very good, Li Xiao Bai, it seems you are performing well today. Continue working hard.”

In the end, no accidents happened, Li Xiao Bai moved to the next round and was teleported away.

After he regained his senses, he arrived in another arena.

“This is the fifth round, scholars, please wait patiently.” Li Xiao Bai heard a voice in his mind.

Li Xiao Bai understood at once: “So the advancement has differences as well. The poem I made is enough to pass three rounds and directly reach the fifth round.”

“This is quite a logical rule.”

“But this means that the Gu Masters who reached this round are all people who created famed poems. Only half of these people can pass, the pressure has intensified now.”

Li Xiao Bai looked around, he found two familiar faces.

It was the strong man and the woman from earlier.

After noticing Li Xiao Bai’s gaze, the woman nodded at him, she seemed to be smiling under the veil. Meanwhile, the strong man had an air of arrogance, after giving Li Xiao Bai a glance, he started to shut his eyes and meditate.

In the fifth round, there was only the three of them now.

“I wonder which round that old man went to.”

“I should pretend to rest now.”

When scholars made poems, they had to think with all their effort, but he only had to select a suitable poem for his use. This was too easy, he had to conceal the fact.

After waiting for several minutes in the fifth round arena, the second competition began.

He had more than twenty competitors, Li Xiao Bai felt a certain level of pressure in his heart.

The theme of the second competition was out — Travel, the time limit was the same as before.

“Travel? This question is the same as spring, it is so broad and easy to write, but creating a famed poem will be very hard!” The strong man sighed to himself.

The woman was thinking: “I am not well versed in this, what should I do?”

Li Xiao Bai was also contemplating: “Which poem do I copy?”

After thinking for a while, he felt that he could not use a classic poem, the effect would be too overwhelming, but he could not use a bad poem. Otherwise, he would fail to advance and be kicked back to the previous round.

Li Xiao Bai was a little troubled, it was not easy to gauge this situation.

He knew his own ability, but he did not know about others, he did not know what sort of poem to use to win but not gain too much attention.

“In the first round, I went overboard. I should not try for first place now.” Li Xiao Bai told himself.

He waited patiently.

After a few minutes, some scholars already created their poems. After that, a few more started to recite their poems, colorful lights appeared.

Li Xiao Bai sighed to himself, thinking: “It seems that famed poems are not easy to create, these people did well in the first round but currently, they are only performing at an average level.”

Li Xiao Bai soon had an idea of the situation but he did not start working, he was still waiting.

As the time limit was about to be up, he finally saw some famed poems.

One from the strong man.

He recited a poem with great battle intent, resembling the march of horses and spears, his entire body was flickering with golden light, one could hear the clash of spears and blades.

The second famed poem came from the woman.

She created a gentle poem, describing a young lady looking outside her room’s window, listening to the stories of travelers outside, imagining her own travel journey, it was quite impressive.

“Alright, it is my turn now.” Li Xiao Bai coughed as he recited:

Date flowers fall on the villagers’ clothes,

The sound of reeling carts heard from every household,

Old men dressed in simple clothes sell cucumbers under the willow tree.

Feeling drunk and drowsy from the long journey,

The bright sun makes my throat dry, I thirst for a refreshing drink,

I knock on the door of a mortal house, hoping to request for some tea.

He had copied Su Shi’s Silk-washing Stream.

After the recital, be it the strong man or the woman, they were evidently moved as they analyzed the poem.

“Good poem! This poem starts with description of the scenery and actions at the back, with the fusion of both, one can feel interested in the event.”

“Even though he is writing about a scenery, he uses his voice to create an image, compared to normal descriptions, this is very vivid. The emotional part is also very interesting. This kid might be a Gu Master but he is very polite and courteous, he does not barge into a mortal’s house, he is truly a gentleman and has incomparable elegance.”

“Reading his poem shows his nature. This young scholar is really promising!”

The surrounding scholars looked at Li Xiao Bai with a different gaze now.

Li Xiao Bai let out a breath of air, pretending that he was extremely exhausted.

“After this round, I should be able to advance. Not just that, my performance was really good, I did not gain too much attention but I also did not show inability.”

Li Xiao Bai was quite satisfied with himself, after waiting for a while, the time limit was up.

He became stunned.

Most scholars failed to create a poem.

“This is the world poetry competition, I need to display my best abilities. If I use any inferior work, it will be too shameful.”

“I did my best but could not create a satisfactory poem, even if I fail, I will not regret it!”

“This trip was worth my time, I got to hear three famed poems.”

“Haha, in the worst case scenario, I might fall to the first round, so what? Goodbye!”

Those scholars that did not create a poem left in a carefree manner, while those scholars who made inferior poems showed shameful expressions.

Li Xiao Bai was calm on the outside but internally flummoxed: “How can you guys act so graciously?”

Even though he advanced, he had gained too much attention again. Earlier, he was quite satisfied with the situation, but to think these scholars would be so useless.

“Hmph, I had overestimated them.” Li Xiao Bai thought.

There was nothing to say, he successfully advanced to the ninth round.

After patiently waiting for a while, the people gathered. This time, there was less than ten of them.

Many of them were famous scholars, they knew each other and greeted politely, they were calm and elegant on the outside, but were all feeling nervous internally.

At this point, the pressure of these competitors intensified again.

“I need to be stable, I cannot create a commotion again!” Li Xiao Bai clenched his fists, he kept reminding himself.

But this time, his opponents all performed well, more than half of the Gu Masters created famed poems.

Li Xiao Bai was the last one left.

Li Xiao Bai had a nervous expression but he was calm internally, he recited the poem that he had already prepared in advance.

With some flickering light, his cultivation level rose to rank four, he gained a new Gu worm.

This time, he planned meticulously, the poem he created was just borderline in the middle, he managed to advance successfully but he was at the bottom of the batch.

Right when Li Xiao Bai was feeling happy.

Cough!

Someone coughed out a mouthful of blood.

Ugh.

Someone fainted on the ground.

The strong man shook as he sat down with difficulty. The woman coughed for a long time with a pale expression.

Only Li Xiao Bai was left standing on the spot, unaffected.

At once, everyone's gazes were on him again.

"This young man is very strong! Currently speaking, he has already created three famed poems."

"He did not get injured at all, it seems that he had not gone all out when he made his poem earlier."

"Impressive! After this competition, I need to befriend him!"

Li Xiao Bai: "…"

He was speechless.

Oh heavens, why did everyone overexert themselves?!

Wasn't it just a poem competition, why were they risking their lives?

He wanted to pretend to cough blood too but it was too late now, he could not disguise himself anymore.

Li Xiao Bai had to continue moving to the next round with a plain expression.

Chapter 1978 - Human Path, Changing Luck

1978 Human Path, Changing Luck

Sovereign immortal aperture, Mini Central Continent.

Fang Yuan stood under the thousand wish tree, looking up only to see a blazing light in the sky, there were specks and lumps, fading and flickering, it was truly a dazzling sight.

Looking at the ground, sand and dust rumbled as wind was blowing wildly.

Fang Yuan's eyes flickered with cold light.

His heaven path dao marks were increasing in number!

He had originally gained three thousand or so dao marks from the Gu refinement, but now, he was approaching three thousand five hundred dao marks.

With the increase in heaven path dao marks, the number of other dao marks in Fang Yuan's immortal aperture was reducing in number.

This scene reminded Fang Yuan of his time in Crazed Demon Cave.

At the second lowest floor of Crazed Demon Cave, Fang Yuan saw the development of worlds. Countless worlds were destroyed as heaven path dao marks formed. The heaven path dao marks interlinked with each other or spread out themselves, forming new worlds.

At this moment, even though the sovereign immortal aperture was not destroyed and turned into heaven path dao marks, they were still modifying the various dao marks within this immortal aperture.

Of course, the heaven path dao marks were not just increasing. Sometimes, they fell in numbers, one heaven path dao mark turned into many dao marks of other paths, spreading throughout the world.

Using the transformation of these dao marks, in accordance with the Heavenly Dao, the environment of the entire sovereign immortal aperture was modified.

Like the scene that Fang Yuan was observing now, light was appearing in the sky, it meant that light path dao marks were increasing in numbers. There was also wind and rumbling sand on the ground, it meant that wind path and earth path dao marks were also increasing in numbers.

“If this goes on for a long time, the surroundings of the thousand wish tree would turn into a barren desert.” The trend was too obvious, Fang Yuan smiled coldly to himself.

He had originally thought that the thousand wish tree was meant to be planted in a desert, but now, even though he was not wrong, his understanding was distorted.

The thousand wish tree was a human path ancient desolate plant, it used human will to create fruits. It was most suited to be grown in a bustling environment like a large city or market filled with people, the more human will the better.

However, the Heavenly Dao did not want the thousand wish tree to grow properly, it changed the heaven path dao marks to create a blazing sun and a vast area of sand, to isolate it from the living people.

In order to survive, the thousand wish tree had to change its own traits to adapt to this difficult environment and live.

But now that it was placed in Fang Yuan’s sovereign immortal aperture, the immortal formation created its own desert environment for it to slowly adapt and change, it would not be destroyed because of an unsuitable environment.

But outside the immortal formation was a fertile land with lush greenery and warm sunlight.

The immortal formation was not isolated, the thousand wish tree's human path aura could be sensed by the Heavenly Dao. But these heaven path dao marks were not under Fang Yuan's control, they could not change according to the environment within the immortal formation, they modified the environment outside the formation to stop the thousand wish tree's growth.

Thus, Fang Yuan learned about some things.

"The thousand wish tree will finish growing in three hundred years, flower at its six hundredth year and bear fruit at the nine hundredth year. It will create exactly a thousand fruits at that time."

"This is something that everyone knows as a fact, but now it seems, this is not true."

"The thousand wish tree is restricted by the Heavenly Dao, its actual potential is much larger!"

"From now on, I will water it with human will, I will gradually change its habitat, its production will definitely rise greatly!"

This was a future plan, Fang Yuan came to the thousand wish tree today for another matter.

At his will, Cooking Luck Pot revealed itself above him.

Rank seven Cooking Luck Pot was large as a basin, it was shining in golden and white light, sacred and royal.

The pot had thick sides, about the thickness of a thumb, there were eight dragons at the base of the pot, coiling around each other and extending their claws to become the legs of this pot. At the top of the pot, one could see Fang Yuan's exposed luck, it looked grey and damaged.

Even though Cooking Luck Pot was only rank seven, unable to contain all of Fang Yuan's luck in this one pot, it was still possible to observe something from it.

Fang Yuan's colossal luck was almost fully consumed in the fate war, after the fight, his luck became very low. This was his third hidden threat, aside from the qi tide and heaven path dao marks.

Fate was constant while luck was variable.

When one's luck was poor, it meant that unfavorable developments might happen.

But now, Fang Yuan's main body had immense battle strength that was pseudo venerable level, no matter how bad his luck was, he had the power to resist problems.

This was not a big issue for the main body, but he was worried about the luck of his clones.

Outside of Cooking Luck Pot were the luck of his respective clones.

The time path clone's luck still resembled the River of Time, but the water was no longer flowing smoothly, it was chaotic and the front of the river was cut off, it looked quite worrying.

Zhan Bu Du's luck was originally a mature eagle spreading its wings and flying, but now the eagle had fallen into water, it was covered by flowing water that made things difficult for him.

Li Xiao Bai's luck was like a bright blooming flower. The flower was bright red and burning intensely in a red color. Within the flame, the petals bloomed, it might look like good luck but the hidden threat was huge. He was basically playing with fire, he would die if he could not control the flames.

Wu Shuai's luck was like a coiling dragon, three of its dragon claws were holding onto a dragon pearl each. One had the silhouette of Dragon Palace, one had countless ants in it, while the third pearl had the image of Di Zang Sheng. Wu Shuai had the strongest luck among them, but he was surrounded by blade and sword qi, approaching from all directions.

Fang Yuan's main body had poor luck, his clones were in even worse states.

Fang Yuan had sensed his clones' problem long ago, it was not that he did not try to resolve it but his methods failed.

The heaven path dao marks restricted him, whenever he tried to use a killer move, they would interfere and cause his killer move activation to fail. Even if he succeeded, the power of the move would be greatly lowered.

"But this time, it should be different." Bright light flashed in Fang Yuan's eyes.

Fang Yuan multitasked, manipulating the formation around the thousand wish tree while also activating Cooking Luck Pot.

The thousand wish tree's branches continued to shake, bright rainbow light shot out of the formation, entering Cooking Luck Pot.

Cooking Luck Pot started to modify the luck of his clones.

The surrounding world started to rage with intense winds and fierce lightning. Heaven path dao marks appeared one by one, some were all over the place while others appeared on Fang Yuan's body.

The way of heaven was to take away surpluses while replenishing deficits.

The way of humans was to take away deficits while magnifying surpluses!

With the help of the human path immortal formation, Fang Yuan forcefully made modifications of certain degrees to the luck of his clones.

The time path clone's river luck stabilized and became smoother.

Zhan Bu Du's eagle luck started to shed its feathers in the water, it seemed like it was turning into a fish, adapting to the environment.

Li Xiao Bai's flower luck started to crystallize under the intense flames, it no longer had a threat of turning to ashes.

Meanwhile, Wu Shuai's dragon luck still remained in a coiling state, there was no change to the luck. The surrounding blade and sword qi, however, became much weaker, turning from dense smoke to light smoke. This meant that there would still be a fight but the scale of the battle would be much smaller than before.

"The problem of the clones is settled. The truly troublesome thing is the heaven path dao marks." Fang Yuan could increasingly understand the deeper intentions of Red Lotus as time passed.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1979 - Merman Court“s Vicious Gues

1979 Merman Court“s Vicious Gues

Eastern Sea, Merman Imperial Court.

The sound of instruments was complemented with delicious wine and food.

At the grand banquet, the three female immortals leading the Merman Imperial Court sat on the main seats as they entertained an unexpected guest.

“Good wine, good music, and even better dance!” The guest drank his wine in one gulp as he slammed the cup on the table, laughing loudly.

He had a square face, he was muscular and strong, his skin was snow white, his eyes and hair were icy blue in color.

Rank eight aura permeated from his body.

He was a snowman Gu Immortal from black heaven’s Ice Crystal grotto-heaven, it was the current generation Ice Crystal Immortal Monarch.

Ever since the last meeting of the black heaven forces, Night Heavenly Wolf Lord secretly contacted Central Continent’s Heavenly Court, while Lady Cold Ash contacted the human experts like Granny

Skeleton. Ice Crystal Immortal Monarch did not stay motionless, his target was not white heaven or black heaven, but the five regions instead. Thus, he went to Eastern Sea and approached the merman force.

Eastern Sea's merman force had three leaders, they were all mermaid immortals, they were called Lian Ke Xin, Yu Zi, and Xie Ning Si.

Even though this was the first time the three female immortals were seeing Ice Crystal Immortal Monarch, seeing that he was a variant human rank eight Gu Immortal, they held this banquet to welcome him.

Upon hearing Ice Crystal Immortal Monarch's praise, Lian Ke Xin smiled and replied: "Thank you for the praise. These dancing Gu Masters all are the hope of our merman tribe, our Gu Immortal seeds. It is their honor to be praised by you, Immortal Monarch."

Ice Crystal Immortal Monarch laughed again: "Pardon my insolence, but if these merfolk are the hope of your tribe, I'm afraid you are going to be wiped from existence soon."

These words made many of the merfolk's expressions change.

The dancing merfolk even became disorganized for a moment.

Lian Ke Xin remained smiling: "We already understand your intention in coming here. We are not going to be provoked by your words. For countless years, mermen have lived in Eastern Sea peacefully and harmoniously, we have been neutral all along, we will not participate in any conflict outside."

Ice Crystal Immortal Monarch shook his head: "Preposterous! Who does not want to live in peace? But in history, such peace can only be gained through conflict and war. The merman race received the help of Paradise Earth Immortal Venerable back then, that is why you could live like this until now. In the entire five regions, only you are still a super force among the variant humans."

"But we have all seen the fate war already. Fate has been destroyed, the five regions have merged, the world is changing right in front of our very eyes. With disasters and calamities, conflict will ensue and last for a long time."

"Your Merman Imperial Court wants to stay out of this? Hehehe, how long has it been since Paradise Earth Immortal Venerable died? How much influence does he still have to protect you?"

Lian Ke Xin had a grim expression, she could not rebuke him.

Yu Zi snorted coldly beside her: "We have more than ten Gu Immortals and Immortal Gu House Floating Reputation Boat, how is it completely Paradise Earth Immortal Venerable's credit that we are able to develop to today's scale?"

Ice Crystal Immortal Monarch nodded: "I have heard of your Floating Reputation Boat long ago, but so what? It is just a rank seven Immortal Gu House. You have many Gu Immortals, but do you have a single rank eight Gu Immortal? Not a single one! Hehehe, forget about everything else, if I want to attack you now, can anyone stop me?"

The three mermaids had cold expressions, Xie Ning Si said: "Immortal Monarch, if you want to fight, you can attack now, we will show you the power of our merman race!"

Ice Crystal Immortal Monarch quickly waved his hand: "Don't misunderstand, I am not trying to become enemies with you. We are all variant humans, in the current world where humans dominate, I want us to cooperate. Variant humans are friends, not enemies. I am here to seek an alliance, how can I possibly fight you?"

"I understand why you do not want to cooperate. But think about this, as long as I spread the word that the three of you have invited me here and show signs of wanting to join up with black heaven's variant human forces to resist the humans, what will happen? Hehe."

The three mermaids looked at each other, they all had grim expressions.

Ice Crystal Immortal Monarch spoke gently but he had a tough tone, it was a forceful cooperation. If they rejected him, he would spread rumors and lie that the merfolk want to join him.

At this time, the fate war was known to everyone.

The things that Duke Long said to Fang Yuan exposed to the world that variant humans were going to rise up!

Once this news was spread out regarding the Merman Imperial Court and the variant humans, it would raise the paranoia of the humans, they would become a public enemy.

By then, with the usual behavior of humans, they would form into an allied army and eliminate the Merman Imperial Court first!

The human forces had been wanting to take down the Merman Imperial Court long ago, they were only restricted by Paradise Earth Immortal Venerable's influence. If the mermen wanted to harm the humans, regardless of whether anyone believed this lie, they would use it to deal with the Merman Imperial Court.

The Merman Imperial Court would be forced to resist, they would only be able to survive if they worked with Ice Crystal Immortal Monarch or other equally powerful alliances.

Thus, Ice Crystal Immortal Monarch's objective had already been fulfilled.

The three mermaids were troubled, they knew about the trend of the world, they were actively choosing Gu Immortal seeds and nurturing them.

They were mermen, they were variant humans, this status placed them in an awkward spot all along throughout the eras. During the five regions chaotic war, they would be in an even worse position when everyone was paranoid.

Thus, the merman tribe felt a strong sense of danger.

The three mermaids did not have much ambition, they only wanted to preserve their members during this new era. Thus, they did not want to antagonize Ice Crystal Immortal Monarch, but they did not want to side with this ambitious leader and wage war on the humans either.

Seeing that the mermaids were silent, Ice Crystal Immortal Monarch smiled again: “How about this, we are all variant humans, I do not want to force you. Let’s make a bet.”

The three mermaids looked at each other, Yu Zi asked: “What bet?”

“We will have a three round competition, no matter what methods your tribe uses, as long as you can defeat me in one round, I will forget about the suggestion to make an alliance, I will leave without exposing anything about your tribe or spreading any rumors. But if I win all three rounds, it will mean that your merman tribe is just too weak, unable to even defeat a rank eight Gu Immortal like me, you will be in great danger anyway, you should work with me to ensure that your tribe survives the tides of time.” Ice Crystal Immortal Monarch said slowly.

The three mermaids had no choice, they nodded and agreed to this bet.

In the first round, the three mermaids went all out, gathering the Gu Immortals of the tribe and creating the battle formation, merman wave sacred spiritual formation.

“Good formation, it can actually trap enemies.” Ice Crystal Immortal Monarch took a look and praised it.

“Immortal Monarch, do you dare to enter?”

Ice Crystal Immortal Monarch laughed loudly, he went into the formation and attacked several times, the tides turned into ice and shattered, allowing him to escape easily.

The merman Gu Immortals suffered backlash, they were either lightly or heavily injured, they all had grim expressions.

“It is a pity you do not have any rank eight expert controlling the formation.” Ice Crystal Immortal Monarch critiqued.

During the second round, the Merman Imperial Court used their Immortal Gu House Floating Reputation Boat.

After a hundred rounds of fighting, Ice Crystal Immortal Monarch claimed victory again.

The three female mermen went into anxious discussions.

“Only the third round is left, what do we do?”

“If we lose again, we will need to cooperate with Ice Crystal Immortal Monarch, what do we do?”

“Why don’t we use that?” Xie Ning Si suggested.

Lian Ke Xin and Yu Zi were stunned, they shook their heads: “No, we cannot use that, the influence is too large. Even without Ice Crystal Immortal Monarch’s rumor, we will become the target of everyone, our tribe will be exterminated!”

“If we do not use that, what will we do? Do we request help from Eastern Sea’s human forces?”

“No, we are all affected by the qi tides now, why would those humans come here to help us? Even if they come, the price will be too large.”

“Oh? I thought of someone. Why don’t we ask Gu tribe’s leader for help?” Xie Ning Si asked.

Lian Ke Xin sighed, denying this possibility: “He is Gu tribe’s leader, even though he has rank eight cultivation level, he is a beastman that is in seclusion. We have a good relationship with him but if we ask him for help, that will be making things difficult for him. Furthermore, he might not defeat this Ice Crystal Immortal Monarch.”

Yu Zi’s eyes suddenly brightened: “I thought of someone, this person might be able to help us, he might even win against Ice Crystal Immortal Monarch.”

“Who?”

“Indeed, at this point in time, who can help us?”

Yu Zi blinked as she said: “Did you forget, there is currently a great expert at Gu tribe’s headquarters.”

“Oh, him.” Lian Ke Xin suddenly realized.

“Brilliant, I will contact Gu tribe’s leader now, we will ask Lord Wu Shuai for help!” Xie Ning Si said that as she rapidly got to action.

Chapter 1980 - Admitting Defea

1980 Admitting Defea

Eastern Sea, Gu tribe's blessed land.

A grand palace was stationed here.

The whole palace shined with slight orange-gold light and was richly decorated, the pavilions and terraces were all grand and beautiful. It was the rank eight Immortal Gu House — Dragon Palace.

Within Dragon Palace, dream realms were spread out. In other Immortal Gu Houses, nobody would dare to do this. But although Dragon Palace was an enslavement path Immortal Gu House, it had dream path Immortal Gu and was not at risk of the dream realm corroding it.

In front of the dream realm, Fang Yuan's clone, Wu Shuai, had his eyes shut.

His body was here, but his soul was inside the dream realm, continuously exploring it.

Within the dream realm, Wu Shuai was the disciple of a medical clinic, he was trying to learn their skill.

A young man with broad shoulders and a thin waist stepped into the clinic with a valiant aura.

The young man had quite the status, the old doctor who owned the clinic had to attend to him personally.

"Doctor, ever since I won the fight last time, I have been feeling that my body has some lingering issues." The young man said.

The old doctor chuckled: "Come, I will check your pulse."

"Check my pulse?" The young man frowned, having a perplexed expression.

The old doctor said slowly: "This is a unique investigative method from my hometown, it can inspect illnesses. As a person's heart continues to beat, their blood will flow through their veins and create pulses. Through my specially created healing Gu worm, I can inspect your pulse and find out the cause of your illness."

The young man had a surge of admiration: "Worthy of an experienced doctor. I've heard that heaven has heaven veins, earth has earth veins, and humans have human veins. Does this method to inspect the pulse make use of a human vein to target the cause of the problem?"

"Hahaha, that is precisely so, extend your hand." The old doctor smiled.

The young man extended his hand, the old doctor placed his finger on his wrist, closing his eyes to inspect it.

A moment later, the old doctor opened his eyes: "This is indeed an illness but it is not obvious on the outside, this is quite vicious. You were hit by a phantom path method."

The young man nodded: "Senior is completely right, my opponent was a Gu Master specializing in phantom path. I was hit by his attack and although I did not suffer injuries, it still felt weird. Usually at night, I could undergo activities with more than ten of my concubines, but now, I get extremely tired after engaging with one. Also, my waist often aches and my body feels hot, I perspire a lot when I sleep, I even feel dizziness at times."

The old doctor nodded: "This phantom path method is quite wicked, it targets your kidney. In other words, you have kidney deficiency[1]."

"Phantom path is troublesome indeed, what should I do now?" The young man asked.

The old doctor replied: “I will prescribe you some medicine, take it for a month, during this month, you should not engage in bedroom activities.”

The young man had a difficult expression: “Senior, can you use Gu worms to heal me directly? If I have to hold it for a month, I’ll go crazy.”

The old doctor shook his head: “Phantom path methods alternate between reality and illusion, we need ample time to deal with it. Even though my medicine is not a healing Gu worm, it is not far from an actual Gu recipe, it can definitely treat your problem. Other than this method, it will be hard to cure you. Unless you can find a doctor who has greater skill than me, he might be able to resolve your issue.”

The young man sighed: “Senior is the greatest healer I know, I will follow your prescription.”

The dream faded away, the exploration was successful.

“Human vein…” Wu Shuai’s soul returned to his body, he was still savoring the true meaning in this dream.

This dream realm gave him the true meaning of two paths, phantom path and human path.

Fang Yuan’s human path attainment level was at grandmaster but phantom path was only at ordinary. His main body still had the corpses of many Heavenly Court Gu Immortals, they had phantom apertures. But earlier, his phantom path attainment level was too low, even with wisdom Gu, he could not deduce the profundity of phantom path.

After the fate war, all of the dream realms were given to Wu Shuai to explore.

These dreams were all obtained from Yi Tian Mountain by Fang Yuan, even though a portion were used in the fate war, a large amount was still left.

After Wu Shuai left Heavenly Court, he returned to Eastern Sea and stayed in Gu tribe's blessed land. Other than opening his immortal aperture's entrance to draw in heaven and earth qi, he kept in closed cultivation, exploring dream realms to gain more true meaning, to raise the attainment levels of his main body's many paths.

"Currently, my main body needs human path attainment level. After this exploration, even though we did not gain much human path attainment level and are still at grandmaster, it should be of some help to my main body."

Wu Shuai started to rest, preparing for his next dream realm exploration.

"Hmm?" He saw that there was an information path mortal Gu from Gu tribe's leader in the hall.

"Gu tribe's leader would not bother me with trivial matters, something important must have happened." Wu Shuai retrieved the information path mortal Gu and checked it.

"Oh, a rank eight snowman Gu Immortal called Ice Crystal Immortal Monarch is finding problems with the Merman Imperial Court?"

In the letter, the three mermaids promised that as long as Wu Shuai taught this evil visitor a lesson and forced him away, they would thank him with rewards. Gu tribe's leader also used a polite tone to subtly request for Wu Shuai's help.

"Of course I will help." Wu Shuai smiled lightly.

He had a portion of Fang Yuan's five hundred years of memories.

Wu Shuai learned that in the previous life, when the regional walls vanished and the five regions united, there were qi tides too.

The five regions' Gu Immortals were forced to recuperate, during this period, the forces in the two heavens came out and acted arrogantly for some time.

"To think that I would have a chance to interact with these grotto-heaven forces. This is a great opportunity! For my main body's plans, I should do my best.”

Bam.

The door of Dragon Palace opened, Wu Shuai came out of his closed cultivation.

At the banquet, the fragrance of wine spread but the atmosphere was very grim.

The three mermaids had cold expressions while Ice Crystal Immortal Monarch smiled at them.

The song and dance had ended, the hall was silent.

Ice Crystal Immortal Monarch drank a mouthful of wine as he asked: “I wonder if you have already decided on who to send for the final round?”

The three mermaids’ expressions turned darker but at this time, they received a letter, their faces glowed with joy.

Xie Ning Si said: “Since Immortal Monarch is eager, let’s start the third fight.”

“Good.” Ice Crystal Immortal Monarch placed down his wine cup: “How will we do this final fight, do tell me.”

“We have invited someone to go against Immortal Monarch.” Lian Ke Xin said.

“This lord has arrived already, prepare yourself, Immortal Monarch!” Yu Zi smiled coldly.

After a few breaths of time, following the mermaid immortals, Wu Shuai stepped into the hall.

“Who wants to fight me?” Wu Shuai asked, his voice reverberating in the hall.

Ice Crystal Immortal Monarch saw Wu Shuai and his expression changed, his casual and carefree attitude was no more, he said in shock: “You?”

Ice Crystal Immortal Monarch had gained a lot of information about the fate war, Wu Shuai was one of the stars that shined, everyone in the world knew about him now.

Ice Crystal Immortal Monarch understood at once why the three mermaids had such confidence.

Ice Crystal Immortal Monarch’s heart sank, he knew about Wu Shuai’s strength, there was little hope in beating him.

But in this situation, he had no choice but to ask: “Greetings, Wu Shuai, to think that you are in the Merman Imperial Court. I wonder where Fang Yuan is?”

Fang Yuan snorted coldly: “I gained Fang Yuan’s help to revive, we were merely working together to resist Heavenly Court earlier. You are my opponent? Go ahead and attack.”

Wu Shuai had a lofty expression, Ice Crystal Immortal Monarch was angry, his expression turned cold: “Wu Shuai, you have rank seven cultivation level, but your tone is very arrogant.”

Wu Shuai smiled: “Whose tone is more arrogant? In terms of seniority, I am someone from Red Lotus Demon Venerable’s era! When I died of old age, your grandfather was not even born yet.”

“You…” Ice Crystal Immortal Monarch stared with wide eyes.

“What? You came to look for problems with the mermen, let’s not waste time.” Wu Shuai stared: “Not attacking? Then I will make my move!”

Saying so, he waved his hand, an Immortal Gu House flew out.

“Dragon Palace!” Ice Crystal Immortal Monarch’s pupils shrunk, he watched as the Immortal Gu House came crashing towards him.

He was not a transformation path great expert, he could not resist this famous Immortal Gu House head-on, he quickly dodged.

The three mermaids did not expect Wu Shuai to act so quickly, he attacked with no warning.

Xie Ning Si quickly urged: “Senior Wu Shuai, this is the merman hall, if you are going to fight, it would be better to do it outside…”

Boom!

Dragon Palace expanded again, the entire merman hall was blown apart.

As dust clouds rumbled, the mermaids and Ice Crystal Immortal Monarch flew out pitifully.

Dragon Palace rose to the sky as Wu Shuai stood at the door, looking down at Ice Crystal Immortal Monarch: “Don’t run, little fellow.”

Ice Crystal Immortal Monarch’s heart was pounding from the sudden assault, his throat felt dry: “Wu Shuai, you are a senior! Don’t rely on the power of the Immortal Gu House if you have guts.”

“Oh, is that so?” Wu Shuai snickered.

The three mermaids felt something amiss, Yu Zi quickly shouted: “Senior Wu Shuai! These are the headquarters of merfolk, if you are going to fight, please do it outside…”

Before she ended her sentence, with a loud sound, Di Zang Sheng was released from Dragon Palace by Wu Shuai.

Roar——!

The Evil Dragon roared, creating colossal waves. Its body was like a huge mountain, squeezed within the blessed land. Its dragon tail waved as several mountains and valleys were flattened.

Countless merfolk scrambled and ran away, screaming in chaos.

The three mermaids were stunned, they did not know what to do.

“Come, fight.” Wu Shuai crossed his arms as he said to Ice Crystal Immortal Monarch with a plain tone.

Ice Crystal Immortal Monarch looked at the grand palace and the huge vicious Evil Dragon, he felt that he was very insignificant.

Even as a snowman who was extremely resistant to cold, at this moment, he felt a deep chill flowing down his spine.

After being quiet for some time, Ice Crystal Immortal Monarch cupped his fists and said: “Senior, you are very powerful, junior admits defeat. Senior has won this battle.”

The three mermaids were silent.

Wu Shuai only had rank seven cultivation level now, but nobody felt strange that Ice Crystal Immortal Monarch was admitting defeat to him.

Even without Dragon Palace, just the Evil Dragon alone could slaughter Heavenly Court’s two transformation path experts and survive the attack of countless Gu Immortals.

During the fate war, Di Zang Sheng had only lost to Feng Jiu Ge and Duke Long!

“Hmph, little fellow, you are quite smart.” Wu Shuai chuckled as he stored away Di Zang Sheng and Dragon Palace.

“Next, let’s talk about the alliance.” Wu Shuai descended and said this.

“Senior Wu Shuai!” The three mermaids were shocked.

“What? You still think you can isolate yourselves from everything?” Wu Shuai’s eyebrows were raised, he spoke in displeasure.

The three immortals did not dare to rebuke him.

Ice Crystal Immortal Monarch was overjoyed, to think that there would be a turn of events, he stammered: “Se… senior, you mean to say?”

Wu Shuai patted his shoulder: “Come, let’s talk in the hall.”

[1] The character for deficiency here is the same as phantom.

Chapter 1981 - I Will Be The Alliance Leader!

1981 I Will Be The Alliance Leader!

Because of Wu Shuai's interference, Ice Crystal Immortal Monarch had to admit defeat. He had originally thought that his plan to ally with the mermen had failed, but to think that Wu Shuai had the same intention as him.

Ice Crystal Immortal Monarch and the Merman Imperial Court made a bet, the loser won while the winner lost.

After the battle, Wu Shuai used the Merman Imperial Court to hold a talk with Ice Crystal Immortal Monarch, their discussion got more animated, the three mermaids' expressions turned grimmer.

Wu Shuai heard that Ice Crystal Immortal Monarch had already gathered the grotto-heavens for a meeting, he immediately requested to join them and even urged Ice Crystal Immortal Monarch to gather the remaining forces for a second meeting.

In Ice Crystal Immortal Monarch's plan, the second meeting was going to happen much later, but Wu Shuai was urging him, Ice Crystal Immortal Monarch thought: "With Wu Shuai's reputation, I can use it to my advantage, it is possible to push the meeting forward without issues."

Ice Crystal Immortal Monarch knew that even if they gathered the grotto-heaven forces in black and white heaven, there would still be a huge internal threat. Among these forces, there was a small group of human forces.

He wanted variant humans to lead the alliance, thus, he had been looking for allies aggressively during this period. He had already contacted all of the variant human forces that he knew. Even the Merman Imperial Court in Eastern Sea was visited after all.

If he knew that Gu tribe was at the bottom of the sea, he would visit them too.

“But with this dragonman great expert Wu Shuai that everyone knows, even if the human faction gathers more people, they cannot match his influence, right?”

Wu Shuai attacked Heavenly Court as a dragonman and ended up as the victor, this result gave him huge prestige and reputation.

Ice Crystal Immortal Monarch thus held the second meeting in Ice Crystal grotto-heaven, the group was even bigger now.

“Golden Fur Immortal Monarch has arrived!”

“Blitz Cloud Heavenly Immortal has arrived!”

“Great Wisdom Immortal Mother has arrived!”

“Green Forest Great Sage has arrived!”

Many rank eight great experts of the variant humans came.

Golden Fur Immortal Monarch was a hairy man, he was covered in thick golden fur. Blitz Cloud Heavenly Immortal was a featherman, he had the appearance of a handsome young man. Great Wisdom Immortal Mother was an old female inkman. Green Forest Great Sage was a miniman, his entire body was covered in a green light.

This was the first time these four variant human Gu Immortals had attended the meeting.

As for the human rank eight Gu Immortals, other than Night Heavenly Wolf Lord and Lady Cold Ash, there were also newcomers, light path cultivator Crossing Heaven Immortal Monarch, wood path cultivator Black Locust and earth path female immortal Rainbow Rock Immortal Concubine.

There were only five human rank eights but almost ten variant human rank eights. Even though Lady Cold Ash tried to get more people to join, they were still unable to match the variant humans, in fact this gap was widening.

After a long discussion, Ice Crystal Immortal Monarch announced: “We invited everyone here today, other than to discuss the matters of the world, there is also another important matter. Let me introduce you to a senior great expert!”

Everyone followed Ice Crystal Immortal Monarch’s hand gesture and looked towards the person.

Wu Shuai walked out from behind the veil, under everyone’s supervision, he sat down on the main seat.

“This is?” The immortals were shocked.

“So it is Wu Shuai.” A variant human rank eight who was close with Ice Crystal Immortal Monarch quickly said.

Ice Crystal Immortal Monarch showed a look of displeasure: “Call him Senior Wu Shuai!”

The variant human rank eight had an embarrassed expression, under Ice Crystal Immortal Monarch’s gaze, he changed his sentence: “Junior greets senior.”

With this adjustment, all the other immortals had to call Wu Shuai senior.

“Good.” Wu Shuai nodded in satisfaction: “Seniority is important, but I would rather everyone call me Alliance Leader instead!”

“Alliance Leader?” The immortals looked at each other.

Wu Shuai laughed: “Indeed, now that grotto-heavens are exposed, the five regions’ Gu Immortals will attack us. They have not done anything now because of the qi tide, they cannot move around yet. We need to strengthen and help ourselves, we can only form an alliance to have any hopes of resisting the five regions!"

"Since ancient times, the most capable person will become the alliance leader. I have observed that nobody here can match me, if anyone does not agree, you can challenge me."

Before anyone could respond to Wu Shuai's words, they heard a dragon roar.

Di Zang Sheng's colossal body was exposed to everyone, blocking out the sun.

Next, an Immortal Gu House flew out of Wu Shuai's immortal aperture, it was small and delicate, it floated in his palm while shining with radiance.

It was a miniature Dragon Palace!

Wu Shuai looked at the Dragon Palace in his palm before turning to the immortals, threat was clearly shown in his eyes.

The immortals' expressions turned ugly, some went silent, they were furious but did not dare to say anything.

Even though Wu Shuai had rank seven cultivation level, everyone knew about the might of Dragon Palace and Evil Dragon. If everyone cooperated, they might have a chance against him. But the grotto-heavens were not close with each other, this was unlike the five regions where super forces interacted and conflicted with each other, they were familiar with one another. The black and white heavens were huge and dangerous, forces rarely met with each other, not to mention any cooperation.

"Hahaha!" Seeing no objection, Wu Shuai laughed loudly as he called out: "You are still not accepting your alliance leader?"

The immortals were silent, the atmosphere was heavy.

A moment later, Ice Crystal Immortal Monarch stood up and cupped his fist at Wu Shuai: "Ice Crystal Immortal Monarch greets Alliance

Leader!”

“Good, good.” Wu Shuai pointed at him: “You will be the vice alliance leader.”

Next, he looked at the other Gu Immortals with a vicious gaze.

The Evil Dragon shook its body outside, causing winds to form and clouds to scatter.

Seeing this, and with Ice Crystal Immortal Monarch’s initiative, all the immortals had to acknowledge Wu Shuai’s status with a cold tone.

Wu Shuai sat at the main seat and looked at the Gu Immortals: “I know what you think, your acknowledge my alliance leader position because of the situation, but I am really not trying to force you.”

“This is a very rare opportunity for us all, it is likely our only chance to resist the five regions. If we do not use this chance, when the five regions go after us and our grotto-heavens get encircled, regret will do us no good.”

“However, at the rate your discussion is going, when can you take action? By the time you come to an agreement, the qi tides will be over already. Without a strong leader like myself to unify the grotto-heavens, how can we take action swiftly?”

Wu Shuai spoke with a harsh tone but he made good sense, the Gu Immortals’ expressions became less hostile.

“Alright, enough of the useless talk, let’s discuss our next target to attack.” Wu Shuai continued.

This time, even Ice Crystal Immortal Monarch felt surprised: “Lord Alliance Leader, isn’t it too early to attack now? Black and white heaven are too huge, there are still many grotto-heaven forces that we have not gathered yet.”

“We can’t wait anymore. As long as we succeed in our attack and create a commotion, these people will approach us themselves. This is how the hearts of the people work.” Wu Shuai waved his hand and said.

The immortals fell into silence.

Ice Crystal Immortal Monarch had to continue asking: “Then in Lord Alliance Leader’s opinion, which place is most suitable for us to attack?”

“Heavenly Court of course!” Wu Shuai answered without hesitation.

“Heavenly Court?!” The Gu Immortals shouted in astonishment.

“Heavenly Court is weak now, we did not retreat of our own accord earlier. As long as we take down Heavenly Court, the five regions will be shaken, who would dare to target us?” Wu Shuai laughed loudly.

“This is not wise!”

“Heavenly Court has immense foundations, it is not a place we can target.”

“Lord Alliance Leader, please reconsider.”

The immortals shook their heads, nobody agreed.

“Hmph, cowards!” Wu Shuai smiled coldly in displeasure: “Then we will go after Divine Emperor City.”

“This Immortal Gu House is known as the largest Immortal Gu House, it is made from combining Divine Bean Palace and Emperor City. It has a huge significance to Heavenly Court, it is the gathering spot of the human vein, it is the land-based Heavenly Court. If we can obtain it, it will be a huge blow to Central Continent, we can even gain a rank eight Immortal Gu House, and also Genesis Lotus Immortal Venerable’s true inheritance.”

Lady Cold Ash pondered: “Since Divine Emperor City is so important, if we attack it, we will infuriate Heavenly Court, the whole of Central Continent will resist and attack us. Since we are going after them as well, what difference is there compared to attacking Heavenly Court directly?”

"Of course there is a difference! If these people are all lured to Divine Emperor City, we can send another group to attack Heavenly Court." Wu Shuai raised his eyebrows.

The immortals heard this and broke out in cold sweat.

"He still wants to attack Heavenly Court after all."

"Doesn't this mean that the group attacking Divine Emperor City will end up as cannon fodder?"

"Senior Wu Shuai is too aggressive, he wants to go against Heavenly Court no matter what!"

Wu Shuai had a look of displeasure: "What? You do not dare to attack Divine Emperor City?"

Ice Crystal Immortal Monarch had an ugly expression, he spoke like he had constipation: "Please reconsider, Lord Alliance Leader, we…"

Wu Shuai waved his hand, saying unhappily: "Enough, I don't want to hear more excuses. How about this, let's get rid of Eastern Sea's Xia clan first."

Wu Shuai finally exposed his true motive.

Southern Border had Xia clan, Eastern Sea also had Xia clan, these Xia clans were not the same but they were similarly super forces.

Wu Shuai had a huge appetite, his first target was a super force.

If he mentioned this earlier, he would face the objection of the immortals. But his first two targets were Heavenly Court and Divine Emperor City, the immortals found that compared to them, they could accept this target, Eastern Sea's Xia clan, more easily!

Wu Shuai continued to analyze: "Eastern Sea's Xia clan has the weakest foundation of all the super forces, they are at the bottom of Eastern Sea's righteous path forces. Not just that, Xia clan is at the eastern most part of Eastern Sea, the location is remote, it suits our needs as a base."

"And even better, the territories of Xia clan and the Merman Imperial Court border each other, the Merman Imperial Court is our ally now, they can provide us a lot of help."

Saying this, Wu Shuai did not give anyone the chance to speak: "I have decided! Our target will be Xia clan."

Faced with such a domineering alliance leader, the immortals were quite displeased. But under the pressure of the Evil Dragon and Dragon Palace, they had no choice.

And most importantly, they were forced by the situation, they knew that if they did not use this opportunity well, if they did not gain an advantage now, the five regions would not let them off in the future.

"Ice Crystal Immortal Monarch, this alliance leader position should have been yours. Are you really going to let him have it?" After this meeting, some Gu Immortals were not satisfied, they hinted towards Ice Crystal Immortal Monarch.

Ice Crystal Immortal Monarch smiled coldly to himself, he replied: "The nail that sticks out gets hammered down, the winds howl around the highest peaks. This Lord Wu Shuai is helping us charge forward as the vanguard, so what if I give him the alliance leader position? We have now gained the help of both the Evil Dragon and Dragon Palace."

"If our plan fails in the future and the five regions' Gu Immortals come after us, we can put the blame on Wu Shuai and get away ourselves."

Chapter 1982 - Xia Clan“s Catastrophe

1982 Xia Clan“s Catastrophe

Eastern Sea.

Reflecting shadow sea area.

The surface of the sea was like a smooth mirror without waves. Even when winds howled, the seawater remained unmoving.

Xia clan Gu Immortal Xia Zheng Qing was stationed here.

Reflecting shadow sea area was a giant resource point, it produced dark path and rule path cultivation resources in large quantities. Even though Xia clan primarily cultivated water path, these resources could be traded for huge profits.

Xia Zheng Qing was in closed cultivation now, suddenly, alarms rang in the formation around him.

“Is there an ancient desolate fish attacking the territory again?” Xia Zheng Qing initially thought that the sea beasts were causing chaos, he flew out of the formation.

But next, his entire body shook as he realized: “Enemies are attacking!”

Three rank seven Gu Immortals charged towards him together.

Xia Zheng Qing quickly activated the defensive formation.

At this time, there was a loud explosion as the formation shattered, a hairy man Gu Immortal carrying a huge hammer was covered in golden light as he charged into the formation, causing destruction!

Xia Zheng Qing spat out a mouthful of blood, looking fearful.

He immediately realized that the three immortals earlier were a distraction, this person was their main force.

“A rank eight hairy man Gu Immortal?” Xia Zheng Qing knew that he was not their match, he quickly transmitted to the clan as he activated the inner immortal formation, teleporting himself away.

At the next moment, he was transported to somewhere a thousand li away from the formation.

“Hahaha, he was transported here after all. Great Wisdom, very impressive.” Ice Crystal Immortal Monarch praised.

Great Wisdom Immortal Mother shook her head: “If not for Lord Alliance Leader’s precise information, how could I have made such accurate deductions?”

Xia Zheng Qing took a look and felt despair!

There were two variant human Gu Immortals here, they both had rank eight cultivation level.

“Since when did rank eight Gu Immortals become so common?”

“Three variant human rank eights!”

Xia Zheng Qing could not believe it, he gritted his teeth: “Who are you people? Why are you going against our Eastern Sea’s Xia clan?”

Ice Crystal Immortal Monarch could not be bothered to talk with him, he waved his hand, his killer move was unleashed.

Xia Zheng Qing only had rank seven cultivation level, how could he resist a rank eight killer move, he was instantly frozen in ice.

Eastern Sea Xia clan’s headquarters, Hot Springs blessed land.

“Oh no! A strong group of enemies attacked, reflecting shadow sea is lost, even though Xia Zheng Qing used the immortal formation to escape, we have lost all contact with him!”

Xia Zheng Qing’s call for help had reached Xia clan.

Most of Xia clan’s Gu Immortals were gathered in the headquarters, they did not expect such bad news to appear out of nowhere.

“As the saying goes, while a person stays in their house, calamity descends from the sky!”

“Xia Zheng Qing sent information that there are both human and variant human Gu Immortals among the enemies, among them is a rank eight hairy man.”

“Where did these people come from?”

“I’m afraid they are forces from black and white heaven. During the qi tide rampage, grotto-heavens are all exposed. To think there are still so many variant humans left, they even came to create trouble for us!”

“This is somewhat understandable. If they do not grasp onto this chance, when the qi tides subside, the five regions will investigate the grotto-heavens of black and white heaven. If we find any variant human force with rank eight Gu Immortals, we will exterminate them.”

“Hehe, back then, even Primordial Origin Immortal Venerable and Star Constellation Immortal Venerable could not find all of the hidden variant human grotto-heavens. But now that the world has changed, these variant humans are forced to expose themselves.”

Xia clan’s Gu Immortals were not flustered, even though the information said that there was a rank eight variant human Gu Immortal, they still had an Immortal Gu Houses to resist the enemy.

But soon, more bad news came.

Light ripple sea and shooting fish sea were also taken down by these variant human Gu Immortals! The Xia clan Gu Immortals defending the two resource points were even weaker, they did not even manage to send any information over before losing contact.

Xia clan's Gu Immortals were furious.

"We need to teach these variant human Gu Immortals a lesson!"

"Mere variant humans dare to bully us human super forces."

"Hmph, Whom the heavens would destroy, they first make mad. These variant humans have gone insane."

"First supreme elder, let use mobilize both Immortal Gu Houses and kill them all!"

"Yes, our clan's three Gu Immortals have fallen into their hands. We need to save our clansmen and take revenge for this humiliation!!"

The Gu Immortals were filled with fighting spirit, they requested to fight.

Xia clan's first supreme elder was Xia Rui Zhi, hearing the Gu Immortals' words, his face was dark.

He shook his head: "It is not wise to attack now! We lost three resource points at once, these are all important places, we have powerful immortal formations protecting them. It is not normal that we lost them so quickly."

"Our clan does not have rank eight Gu Immortals defending us. If we mobilize both Immortal Gu Houses, our headquarters will be severely weakened. Right now, we are close to completing the Human Sea, we cannot be complacent!"

"In my opinion, we should defend ourselves fully until we complete Human Sea. By then, our foundation will rise greatly, we will be one of the top Eastern Sea forces. By then, dealing with the variant humans will have much greater effect."

Even though Xia Rui Zhi only had rank seven cultivation level, he had high reputation, after hearing his words, Xia clan's Gu Immortals felt that it was logical, they no longer had such a strong desire to fight.

But at the next moment, a thunderous sound erupted as an Immortal Gu House broke through the defensive barrier, entering Xia clan's public blessed land.

"Eastern Sea's Xia clan, today, you will face extermination!" The door of the Immortal Gu House opened as Wu Shuai and the other grotto-heaven Gu Immortals appeared.

Xia clan saw this group of enemies, fear and shock became plastered on their faces.

"Dragon Palace!"

"Wu Shuai!!"

"So many variant human rank eights, oh heavens!"

Xia clan's Gu Immortals turned pale, they were immensely fearful.

But Wu Shuai did not give them time to accept reality, he waved his hand: "Attack!"

Thus, at the next moment, the rank eights around him charged down and attacked.

Seeing this terrifying scene, Xia clan's Gu Immortals felt their vision turning dark, some almost fainted on the spot.

Such a group completely overwhelmed and dominated Xia clan's Gu Immortals.

Xia clan did not have a single rank eight while Wu Shuai had more than ten, how could they fight?

"My Xia clan's blessed land is not Heavenly Court, why are there so many rank eight Gu Immortals attacking us?!" Xia Rui Zhi mumbled, facing such a strong foe, he felt despair.

"The enemies are too strong, we must retreat!" At this time, female immortal Xia Ying shouted at the Xia clan immortals.

Xia Rui Zhi shook as he gritted his teeth: “Go, we will leave, let’s get into the Immortal Gu Houses!”

Xia clan had two Immortal Gu Houses, they were both rank seven.

One was Whale Fishing Boat, the other was Golden Star Tower.

“You want to leave? Not so easy!”

“None of you will escape.”

The variant human Gu Immortals attacked quickly, unleashing a myriad of attacks, the explosions resounded heaven and earth.

At the crucial moment, Xia Ying dodged an attack, managing to enter Golden Star Tower.

But she did not escape, she steered Golden Star Tower and went in front: “Everyone, leave, I will block them!”

Golden Star Tower charged relentlessly, using killer moves, golden stars shot out everywhere, the variant humans quickly dodged them.

The remaining Xia clan Gu Immortals found the chance and went into Whale Fishing Boat, escaping their headquarters.

Chapter 1983 - You Have A Problem With Me?

1983 You Have A Problem With Me?

“Even though these variant human Gu Immortals have rank eight cultivation level, their battle strength is not high. Only Ice Crystal Immortal Monarch is passable.”

“As for Eastern Sea’s Xia clan, even without a rank eight, they can rely on rank seven Immortal Gu Houses to put up a fight.”

Wu Shuai stood near the door of Dragon Palace, he looked at the battlefield and observed the fight, he did not make a move.

Earlier, when attacking the three resource points, due to the difference in cultivation level, he could not tell. But in the current deadlock, he sensed many details.

Wu Shuai analyzed, he quickly realized the reason.

The variant humans were able to survive until today and develop well because of the help of heaven’s will.

Heaven’s will was disrupted by Star Constellation’s will, it could not make fate Gu show the sign of variant human supremacy. But heaven’s will could still influence calamities and tribulations.

Tribulations were the biggest obstacles in the rise of a Gu Immortal’s cultivation level.

The more prosperous humanity was, the more help heaven's will would provide to the variant human grotto-heaven forces.

The difficulty of tribulations that these variant humans faced was many times simpler than normal human Gu Immortals! In fact, even for the human Gu Immortals in black and white heaven, because they were at odds with the five regions human forces, they were also given some special treatment. This was thanks to heaven's will.

There were clear historical records about this.

Back then, variant humans ruled the world as overlords. Heaven's will thus affected fate Gu and showed the revelation of humanity reigning supreme. On one hand, heaven's will aided Primordial Origin and helped him to become an Immortal Venerable, it also took care of the humans, helping humanity develop and grow. On the other hand, heaven's will also influenced the variant humans, dividing them and causing them to undergo intense internal conflict, they greatly weakened themselves.

"And because the two heavens are too huge, with each heaven having the total area of all five regions, there are so many rank eight Gu Immortals in black and white heaven. Other than the group I brought here, a small group are still left in the two heavens."

Wu Shuai thought about this as he started to move.

Dragon Palace slowly activated.

Xia Ying, who was inside Golden Star Tower, became anxious. It was very tough to deal with these rank eights now, she seemed to have the upper hand but she could not last long. Even if the battle tilted in the enemy's favor at the next second, it would not be surprising.

"Good, Lord Wu Shuai is making his move!"

"I'm looking forward to it."

"It is a pity that our grotto-heavens have no Immortal Gu Houses. Only after fighting can we see that they really are the foundation of a super force."

The rank eight Gu Immortals had excited expressions, they were anticipating his action.

But under everyone's gaze, Dragon Palace flew away from the battlefield.

The rank eight Gu Immortals were stunned.

What was going on?

At the next moment, Wu Shuai's icy voice could be heard: "If more than ten rank eights cannot deal with one rank seven immortal and a rank seven Immortal Gu House, what is the point of your existence?"

The rank eight Gu Immortals were tongue-tied, they could not respond.

Eventually, they could only watch as Dragon Palace flew away.

"Oh no, he is flying towards Human Sea!" Xia Ying saw this, her heart jumped.

Xia clan felt very suspicious: "How does Wu Shuai know that our Xia clan's base contains Human Sea? No, Human Sea is very deeply hidden, maybe he just wants to find some resources."

Wu Shuai left the battlefield, he went to the top of a certain lake, he stopped Dragon Palace's movement.

"Human Sea should be here." Wu Shuai's eyes shined with bright light, he activated his method.

A mystical light shot out from his palm, piercing hundreds of feet of lake water, reaching the bottom.

Next, the mystical light spread out towards the entire lake surface.

The water evaporated, turning into mist and dispersing, one could hear countless human voices from the dense white fog.

The voices of people became louder, the white fog turned into human silhouettes as they flew around in the sky.

At once, Dragon Palace was surrounded by white fog, countless silhouettes moved around Dragon Palace like ghost phantoms, there were tens of thousands of them.

“Come.” Wu Shuai willed, the fog quickly gathered and condensed into white lake water that flowed into Dragon Palace.

The commotion created was huge, the two parties fighting in the battlefield could see it clearly.

“Wu Shuai actually went to collect loot while we are fighting with our full effort!”

“The fog is very special, it emitted dense human path aura. It must be a great treasure for Wu Shuai to retrieve it personally!”

“Don’t fear, as the alliance leader, how can Wu Shuai not lead by example? How can he gain our acceptance otherwise? He will definitely give a portion of the white fog to us later.”

The rank eight Gu Immortals conversed with each other.

Xia Ying’s heart sank to rock bottom: “Wu Shuai actually knows about the existence of Human Sea! In fact, he has a method to take Human Sea away, how can this be possible?”

“The plan of constructing Human Sea was only known to us Xia clan Gu Immortals, we kept it as a secret all along. Even if Xia Zheng Qing and the rest were captured by Wu Shuai, only our first supreme elder knows how to retrieve Human Sea. How can he find an alternate method so quickly?”

“To think that the current Human Sea is still incomplete.” Wu Shuai looked at the white fog in Dragon Palace, it was still showing human figures and shadows from time to time, it was creepy but quite amazing as well. Two different types of images had fused together in a natural way.

Wu Shuai smiled, he did not mind it.

To replenish Human Sea, he only needed to kill enough humans.

Because of the main body's information, Wu Shuai knew that Human Sea was the work of Xia clan for many years, they were attempting to create a human path secluded domain in secret.

In the five hundred years of his previous life, during the five regions chaotic war, Human Sea was dazzling and impressive, it helped Eastern Sea's Xia clan to rise up to the top.

But it was still far from an actual secluded domain after all.

In the future, Southern Border's Chai clan gained some key comprehension from Human Sea, they started to create a similar artificial secluded domain — Human Mountain.

Wisdom path Gu Immortals of that time had deduced that if Human Sea and Human Mountain were fused together into one, they could form an actual secluded domain of heaven and earth!

"Human Mountain and Sea is too far away, but just Human Sea alone is sufficiently helpful to my main body." Wu Shuai was quite happy.

The most important thing was Fang Yuan's main body after all.

The current biggest obstacle of Fang Yuan's main body was the restriction of heaven path. This was Red Lotus' scheme, Fang Yuan was trying to find a way to break out of this predicament.

He found that human path was a countermeasure, even though the thousand wish tree was a human path ancient desolate plant, it could not match the numerous heaven path dao marks.

Thus, Fang Yuan placed his sight on the Human Sea of Eastern Sea's Xia clan.

Because of Ice Crystal Immortal Monarch, Fang Yuan did not need to go personally, his clone Wu Shuai was able to head there and retrieve Human Sea easily.

After Wu Shuai stored Human Sea away, the battle had also concluded at the other side.

Xia Ying was unable to escape in the end, but many of the rank eights were injured as well. The one who defeated Golden Star Tower was Ice Crystal Immortal Monarch.

“Lord Alliance Leader, you took the chance to take the human path treasure, that’s not fair, right?” As the immortals gathered at the door of Dragon Palace, an anxious rank eight Gu Immortal questioned.

Wu Shuai glanced at him as Dragon Palace used its killer move — Dreamy Light Smoke!

The rank eight Gu Immortal who spoke was unguarded, the smoke easily swept him away into Dragon Palace before he was even able to say another word.

The immortals were stunned and fearful.

“Who else has a problem with me?” Wu Shuai crossed his arms, looking at the immortals.

He only had rank seven cultivation level, he was surrounded by a group of rank eights.

But the rank eight Gu Immortals looked at each other, they were pale and chose to keep silent, they did not dare to say a thing.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1984 - Wu Shuai“s Political Skills

1984 Wu Shuai“s Political Skills

Facing Wu Shuai’s aggressive stance, the Gu Immortals of the two heavens lowered their heads, they did not dare to look at him directly.

Ice Crystal Immortal Monarch saw this, he cheered internally, Wu Shuai’s actions would cause him to lose the support of everyone. However, he also felt envious, when would he gain such huge battle strength to make everyone lower their heads in front of him?

After a while of silence, Ice Crystal Immortal Monarch stood up at an appropriate timing, saying respectfully: “Lord Alliance Leader, dear allies, the most important thing now is to go after the remaining Xia clan members. Most of Xia clan’s Gu Immortals have escaped using Whale Fishing Boat, if we do not chase them now, it will be too late.”

“Yes, yes.” The immortals nodded, they started discussing this topic.

Many people casted gazes of gratitude towards Ice Crystal Immortal Monarch, his words had undeniably given them a way to escape the embarrassment.

“Haha.” Wu Shuai laughed loudly: “Chase? Why must we chase them?”

Wu Shuai continued: “We were able to take down the headquarters of Eastern Sea’s Xia clan, it was because we acted quickly and caught them off guard. From now, it will be difficult if we want to expand our territory. The whole of Eastern Sea and even the righteous paths of the five regions will become very cautious now."

"But if we allow this group of Xia clan Gu Immortals to escape, they will invite members of Eastern Sea's righteous path to try to recover their territory."

"This way, those Eastern Sea righteous path members will need to leave their territories and come here to seek death. Isn't that great?"

The immortals were stunned, they nodded in unison, agreeing that Wu Shuai's analysis was sound.

"Lord Alliance Leader is very knowledgeable, it is natural that we cannot compare to him." Ice Crystal Immortal Monarch ingratiated.

But Wu Shuai had a grim expression: "I don't care about all of these Eastern Sea super forces! There is only one person I am wary about, Qi Sea Ancestor."

"This old man can fight evenly with Duke Long, he had once held the qi sea banquet, he also did not help Fang Yuan nor Heavenly Court during the fate war. His stance is very important now!"

"It is likely that the righteous path will convince him now to fight against us. Of course, it is not strange if he chooses to continue staying in seclusion and not face us."

"I let these Xia clan members go, I am also trying to probe Qi Sea Ancestor's intentions."

The Gu Immortals of the two heavens heard Wu Shuai's words, they nodded as their expressions turned dark.

Ice Crystal Immortal Monarch took a glance at Wu Shuai, he thought: "Wu Shuai is Wu Shuai after all, he cannot be underestimated. He has both wisdom and political skills, it is just that he does not feel the need to use tricks against us."

But he quickly thought: "Qi Sea Ancestor's attitude is very ambiguous. He had once worked with Fang Yuan and went against Duke Long, but later they reconciled. On the other hand, he also held the qi sea banquet, he welcomed Heavenly Court's Gu Immortal Jun Shen Guang, while also letting a demonic Gu Immortal sell blood path Immortal Gu in public."

"Alright." Wu Shuai waved his hand, breaking the immortals' train of thought: "We chased Xia clan away, it is time to split the loot."

Thus, the atmosphere changed instantly, everyone got excited.

Eastern Sea was the richest of the five regions, as an Eastern Sea super force, Xia clan had ownership of many resource points, their inventory was filled.

These assets of Xia clan were split up by Fang Yuan and given to the Gu Immortals, each of them gained a considerable sum of wealth.

The Gu Immortals of the two heavens smiled, they felt extremely happy.

"The five regions are so rich!"

"This is merely the foundation of one Eastern Sea super force, it is already so much."

"Xia clan is useless! If my grotto-heaven had such resources, we would be far stronger than now."

And what surprised the Gu Immortals of the two heavens was that Wu Shuai took a much smaller portion of the gains that they had expected.

Ice Crystal Immortal Monarch had a change of thought, he quickly said to the surrounding Gu Immortals: "Everyone, listen to me. We gained so much loot because of Lord Alliance Leader. He was the one who guided us towards victory. Without his information and plan, how could we take down Xia clan so easily? But currently, Lord Alliance Leader is taking the smallest portion of loot, this is not fair to him."

The Gu Immortals were stunned, they looked at Ice Crystal Immortal Monarch.

Ice Crystal Immortal Monarch had a look of sincerity and admiration.

Wu Shuai looked at Ice Crystal Immortal Monarch deeply in the eye: “I am a lone person, I do not need much in cultivation resources, nor do these resources suit me. If I need anything in the future, I will definitely take them. Since I have distributed this loot already, I will not take them back, but Ice Crystal Immortal Monarch, your words reminded me of something.”

“Ice Crystal Immortal Monarch.” Wu Shuai spoke.

“This subordinate is here.” Ice Crystal Immortal Monarch cupped his fists, showing a respectful attitude.

Wu Shuai smiled: “You are quite good.”

Ice Crystal Immortal Monarch quickly bowed: “To receive such compliments from Lord Alliance Leader, it is my greatest blessing!”

Wu Shuai nodded: “Of course, my leadership is the greatest blessing that all of you have. As for you, Ice Crystal Immortal Monarch, as the vice alliance leader, you should not get the same amount of loot as the rest of the allies. I will make the decision, shooting fish sea will belong to you now.”

“Lord Alliance Leader?” Ice Crystal Immortal Monarch quickly raised his head, feeling shocked.

Wu Shuai laughed: “I said you’ll get it, just take ownership of it. Don’t worry! I am here to back you up. If anyone dares to make problems for you, if you dislike anyone, just tell me, I will take care of them!”

Wu Shuai said this as he looked around, his dragon eyes emitting an aggressive light. The Gu Immortals all turned away, not daring to meet his gaze.

Ice Crystal Immortal Monarch obtained a giant resource point but he felt no joy internally.

He looked at Wu Shuai, seeing that seemingly smiling face, he could not help but shudder in a chill.

“As expected of the dragonman who once ruled his race, I underestimated him! This old monster must have realized my intentions.” Ice Crystal Immortal Monarch noticed this, his back was covered in cold sweat.

He wanted to cause Wu Shuai to lose even more support from the rest of the people. But Wu Shuai had made use of his action and acted this way, it made all the other Gu Immortals feel that Ice Crystal Immortal Monarch was not happy with his gains, he wanted to use his status and the alliance leader’s dominance to gain more benefits.

After all, if the alliance leader gets more benefits, wouldn’t it be logical if the vice alliance leader also got more loot?

“Hmm? Ice Crystal Immortal Monarch, you are not thanking me?” Wu Shuai stared at Ice Crystal Immortal Monarch, showing a smile filled with deep meaning.

Ice Crystal Immortal Monarch shuddered in his heart as he gritted his teeth and said with a hoarse voice: “This subordinate thanks Lord Alliance Leader.”

Seeing that he had submitted, Wu Shuai did not feel any happiness, he was actually quite disappointed.

The Gu Immortals of the two heavens had been in seclusion for too long, due to their identities, they did not dare to move around or compete against each other.

Without competition, they could not be trained well. Even if heaven’s will helped them, Gu Immortal elites could not be nurtured.

Wu Shuai looked at the Gu Immortals of the two heavens, Ice Crystal Immortal Monarch was the only one with passable battle strength and attitude. The rest of the rank eights were simply a disgrace to other rank eight Gu Immortals!

It was no wonder that in Fang Yuan’s previous life, these people did not manage to create any big commotions.

Chapter 1985 - Truly Incredible

1985 Truly Incredible

While Wu Shuai and the rest were splitting up the fortune of Xia clan, the atmosphere inside Whale Fishing Boat was grim and sad.

“First supreme elder, what do we do now?”

“The enemies are too powerful, there are more than ten rank eights, there was no way we could defend our headquarters!”

“Especially their leader Wu Shuai! If we retaliate, there is little hope of success.”

“Sigh, it is a pity that Xia Ying and the rest sacrificed themselves.”

Xia clan’s Gu Immortals were furious and helpless, they felt that the future was bleak.

Xia clan’s first supreme elder Xia Rui Zhi snorted coldly: “I don’t care who the enemy is, be it Wu Shuai or the rank eight Gu Immortals of the two heavens, they should not have taken our Xia clan’s territory. They will not stay arrogant for long! We are going to get help from Eastern Sea’s righteous path.”

“Hmph, so be it if they are human Gu Immortals. But they are mostly variant human Gu Immortals with Wu Shuai leading them, we have already kept a copy of the battle scene, it is the best evidence against them. Eastern Sea’s righteous path and even the five regions’ righteous path will not allow this group of variant humans to grow stronger and larger!”

Xia clan’s Gu Immortals heard this, they recovered a bit of their morale.

Seeking reinforcements was the only way out, but the important thing to consider was which clan to approach.

Xia clan was situated at the eastern most area of Eastern Sea, towards their west was the Merman Imperial Court, towards the southeast was Tang clan, and towards the northeast was Xie clan. These three were not good targets to request for help.

The three of them were directly connected to Xia clan in territory, Xia clan's relationship with the Merman Imperial Court was best but they were variant humans. Even though there were no mermen in the battle earlier, Xia clan did not dare to take the risk.

As for Tang clan and Xie clan, these two clans had conflict with Xia clan during normal times, if they went to ask these two clans for help, Xia clan's Gu Immortals would not want to face their mockery.

After a round of discussion, Xia clan's Gu Immortals moved in Whale Fishing Boat, they carefully went past the Merman Imperial Court, approaching Shen clan, which was further west, for help.

But because of this, their journey became much longer.

During Xia clan's journey to seek help, information that they were invaded by Gu Immortals of the two heavens spread like wildfire in treasure yellow heaven, it shook the world.

"There are so many rank eight Gu Immortals among the variant humans! Is this information reliable?"

"It is nothing strange. Be it black heaven or white heaven, each of them is as large as the five regions together."

"These damned variant humans are hidden too deeply!"

"They are too daring, they dared to wage war on our human forces, they are courting death!"

"The thing that makes me angrier is that among these people, there are human Gu Immortals. What are they thinking? They are betraying their own race!”

At once, all of the Gu Immortals in the world discussed this matter.

Shen clan was no exception.

The letter requesting help from Xia clan had already reached Shen clan.

This was an important matter, Shen clan’s first supreme elder, Shen Cong Sheng, called all the Gu Immortals for a meeting.

“The reason why Xia clan is asking our Shen clan for help is obvious, there is no need to explain it. But should our Shen clan help them? Everyone, tell me your view.” Shen Cong Sheng said.

“The enemy is too strong, why must our Shan clan face such a strong foe alone? Remember that Wu Shuai has Dragon Palace and Di Zang Sheng, he even possesses dream path methods, their battle strength is too overwhelming.”

“That’s right, and even more worrying is that Wu Shuai has a relationship with Fang Yuan. Nobody knows how good their relationship is, but we know that they are close. If we target Wu Shuai, we might cause the great demon Fang Yuan to come after us!”

Shen Cong Sheng nodded: “You are correct.”

He did not show any change of expression.

During the blue dragon whale trip, he had cooperated with Fang Yuan. But because they worked in secrecy, even Shen clan’s Gu Immortals did not know about it, Shen Cong Sheng could preserve his clan’s reputation as a result.

“I feel that we cannot refuse to help Xia clan! Xia clan is also a member of the righteous path, they came all this way to ask us for help, if we do not agree, what would Xia clan think of us? What would Eastern Sea think of us? What would the whole five regions think of us?”

“I agree, this is not just a conflict between us humans, this is the battle between humans and variant humans! If Shen clan does not show a clear stance, the people of the world will accuse us of our inaction."

Shen Cong Sheng nodded: "This is correct too. But the enemy is too strong, they have more than ten rank eights and even Wu Shuai leading them. Even if we have Ancestor Shen Shang here, we cannot resist such a group of enemies."

After the fate war, Shen Shang went missing after going insane. Even though Shen clan wanted to find their Ancestor Shen Shang, they did not succeed.

The entire world was watching now, it was likely that news in treasure yellow heaven had spread from Xia clan themselves.

Xia clan was using this method to force Eastern Sea's righteous path forces to help them.

With the entire world watching, Shen clan had to help Xia clan. But Wu Shuai's group was simply too powerful, they were too terrifying.

Even though Shen clan was a super force, against the allied forces of two heavens, it still felt very wary and unsure.

"Elders, I have a plan to resolve this problem." Ren Xiu Ping spoke.

After returning from the blue dragon whale trip, Ren Xiu Ping became Shen clan's external supreme elder. Ren Xiu Ping was a person who followed the rules and kept a low profile, but now that they were in this situation, if Shen clan falls and chaos descends, he would also be implicated.

Ren Xiu Ping continued: "Wu Shuai has very high strength, but in this current Eastern Sea, there is another ancestor capable of resisting the Evil Dragon."

"You mean to say that person in qi sea?" Someone's eyes brightened up.

"Indeed, Qi Sea Ancestor." Ren Xiu Ping nodded.

“Good plan, let’s do that.” Shen Cong Sheng laughed and clapped, deciding on the spot.

For the next few days, Xia clan arrived in Shen clan, they wanted to borrow strength to reclaim their territory. Shen Cong Sheng came out to speak to them, they attended to Xia clan’s members warmly.

But when asked to fight against Wu Shuai, Shen Cong Sheng said that he had too little strength, he suggested that they should gather more righteous path forces.

Currently, qi tides were surging everywhere, almost all the five regions’ Gu Immortals were recuperating and resting, they did not dare to move abruptly.

Thus, Eastern Sea’s righteous path could not use much of its strength now.

But Shen Cong Sheng suggested that Xia clan should inform Qi Sea Ancestor of this situation, they should request for the ancestor to uphold justice for them.

Shen Cong Sheng copied Xia clan, before they asked Qi Sea Ancestor for help, they already published the news in treasure yellow heaven.

Thus, the entire world’s attention went to qi sea.

Almost all the Gu Immortals were waiting to see Qi Sea Ancestor’s response.

All the human Gu Immortals were hoping that Qi Sea Ancestor would step up as the senior of the rank eights, the person who resisted Duke Long on equal footing, he had the responsibility to lead them.

But many people were pessimistic about it. Because Qi Sea Ancestor was a secluded cultivator, he had an ambiguous relationship with the righteous path and demonic path, he had even worked with Fang Yuan before. From this aspect, there was quite a chance that Qi Sea Ancestor would not entertain these worldly affairs.

Qi Sea Ancestor’s response was rapid.

He announced in treasure yellow heaven: “There are those of other races having such motives, first there was Primordial Origin, now there is Qi Sea, we will not let these variant humans with ulterior motives bear roots here on our soil!”

Once he said that, the world world resounded with praises.

Qi Sea Ancestor, you are truly incredible!

Chapter 1986 - Heavenly Court“s Tactic

1986 Heavenly Court“s Tactic

Heavenly Court.

The damage caused during the fate war was starting to recover. Having collated their losses, they really had suffered a huge setback.

Discussion hall.

Qin Ding Ling sat at the main seat as she looked around, observing the Gu Immortals and their wills.

Most of the Heavenly Court members had gone back to hibernating in the immortal graveyard. More than half of the immortal graveyard was destroyed by Fang Yuan, but Heavenly Court still had sufficient members left.

These members had little lifespan remaining, rather than dying of old age, they could display greater value by hibernating in the immortal graveyard.

What worried Qin Ding Ling was that even though these Gu Immortals went back into slumber, she did not receive any sort of message from Star Constellation’s will.

It was as if the fate war caused Star Constellation’s will to suffer a huge loss.

This made already become Qin Ding Ling’s greatest worry. Star Constellation’s will could interfere with heaven’s will but heaven’s will was also able to assimilate Star Constellation's will. If she lacked support and got assimilated by heaven's will, it would be a huge nightmare to humanity and Heavenly Court.

But Qin Ding Ling came here and gathered the immortals for a meeting, it was not because of Star Constellation's will.

"Qi tides are rampaging, the two heavens are making a move. Wu Shuai is leading an allied army of the two heavens and has already taken down Eastern Sea's Xia clan. Now, Xia clan has requested for Qi Sea Ancestor's help, the two sides are opposing each other. What do you think we should do at this key moment?"

Qin Ding Ling asked.

She was a luck path Gu Immortal, she did not cultivate wisdom path like Fairy Zi Wei. Thus, when faced with this matter, Qin Ding Ling could not make a resolute decision, she needed to discuss it with the other Gu Immortals.

"Undeniably, the allied army of the two heavens is made up of variant humans, enemies of our Heavenly Court, we need to exterminate them!"

"In this aspect, Qi Sea Ancestor is quite a responsible person."

"Right now, the conflict between Wu Shuai and Qi Sea Ancestor is akin to the conflict between humans and variant humans. But the truth is, whoever wins between them is not the key, the most important element is someone else — Fang Yuan!"

"Indeed, be it Wu Shuai or Qi Sea Ancestor, they are both related to Fang Yuan. Wu Shuai claims that he has only cooperated with Fang Yuan, he has revived after a million years, aspiring to grow the dragonman race once again. As for Qi Sea Ancestor, he had once made an agreement with Fang Yuan, he went against Heavenly Court but changed his mind later when Lord Duke Long gave him half of the qi path true inheritance. During the fate war, Qi Sea Ancestor did not show up at all, it showed that Lord Duke Long had made a wise decision."

"I have a different opinion! Qi Sea Ancestor can likely be Fang Yuan's disguise. In the past, we did not think of this because Fang Yuan only had rank seven cultivation level, but now that we know about the secret of the sovereign immortal body, it is likely that Fang Yuan had rank eight cultivation level then and disguised himself as Qi Sea Ancestor. Don't forget that during the fate war, Fang Yuan destroyed the qi wall with a qi path method."

"His qi path method is called unlimited qi sea, it is the signature method of Qi Xiang of the Heaven Surveying Five Xiangs in the past. But the qi path methods that Qi Sea Ancestor used against Duke Long were very different from unlimited qi sea. It is quite unlikely that the two of them are the same person."

"But we cannot rule out this possibility."

"Speaking of which, Wu Shuai is much more suspicious than Qi Sea Ancestor. He might not be a disguised Fang Yuan, he could simply be Fang Yuan's clone. As the leader of Shadow Sect, Fang Yuan definitely has a portion of Spectral Soul's foundation. And a method Spectral Soul excels in is creating split souls. That was how he created Shadow Sect singlehandedly."

The immortals discussed among themselves.

Qin Ding Ling was hesitant, she felt a huge headache.

The immortals had their own viewpoints, nobody could convince the other. In the end, Qin Ding Ling had to make the decision after all.

Qin Ding Ling thought about it for a while before sighing: "Everyone, listen to me. Fang Yuan has familiar face, he can disguise as different people. Even though we need to be wary of this, we cannot ignore other possibilities just because of our suspicions. Wu Shuai might be Fang Yuan's clone, Qi Sea Ancestor might be Fang Yuan's disguise, these are possible truths."

"But at the same time, there is also the possibility that they are not that closely related to Fang Yuan. We cannot create enemies everywhere just because of this, forget about Wu Shuai, but for Qi Sea Ancestor, we cannot give up on winning over Qi Sea Ancestor just because of this possibility, can't we try to make him an ally of Heavenly Court?"

Fang Zheng heard this as he hesitated and asked: "Senior Qin wants to recruit Qi Sea Ancestor?"

Qin Ding Ling nodded: "Lord Duke Long has passed away while Feng Jiu Ge betrayed us, our Heavenly Court desperately needs a pseudo venerable capable of holding the situation. In the past, Senior Duke Long used Primordial Origin's true inheritance to gain Qi Sea Ancestor's friendship. Even though he did not agree to join us, he had not shown up during the fate war either."

The immortals fell into silence.

Qin Ding Ling's current plan was Duke Long's former plan.

In the past, in order to repair fate Gu, Duke Long wanted Qi Sea Ancestor to stay out of the conflict. But now?

Heavenly Court needed someone with pseudo venerable battle strength to support them!

Currently, even though there was peace, the truth was that the rampaging qi tides and heaven path dao marks were forcing most Gu Immortals to stay inactive and recuperate from the damages caused, they could not take action.

But once the qi tides subside and Fang Yuan manages to refine the heaven path dao marks?

By then, the strongest person in Heavenly Court would be Qin Ding Ling, could she resist the Gu Immortals of the other four regions with ill intentions? Could she block Di Zang Sheng? Could she block Fang Yuan?

Heavenly Court knew about this threat, in history, they had also recruited Gu Immortals of the other four regions.

The obvious example was Wan Zi Hong, this female immortal was once a demoness of Western Desert, Heavenly Court had recruited her to join them. As long as one was a human, Heavenly Court could be magnanimous towards them.

“I am not against winning Qi Sea Ancestor over. But before that, we need to clarify his true relationship with Fang Yuan!”

“That’s what you say, but right now, Qi Sea Ancestor might not even feel any threat from our Heavenly Court.”

“Haha, I think that for him, the attraction of Primordial Origin’s true inheritance surpasses everything.”

Fang Zheng volunteered: “Currently, the conflict between Qi Sea Ancestor and Wu Shuai is our greatest opportunity. We can investigate and find out the truth from this. Of course, no matter the outcome, we cannot spare the Gu Immortals of the two heavens. Since we already have Night Heavenly Wolf Lord as our insider, I am willing to lead a group to Eastern Sea and exterminate these variant human Gu Immortals!”

Fang Zheng was the current owner of Demon Judgment Board, even though he had rank seven cultivation level, with this board, he could fight against most rank eight Gu Immortals.

Due to the influence of qi tides, the five regions’ Gu Immortals could not move around. But Heavenly Court’s Gu Immortals were different.

Most of them had phantom apertures, they were not restricted by this.

Right as Fang Zheng spoke, another Gu Immortal volunteered to join the group and head to Eastern Sea, in order to kill these variant human Gu Immortals.

Even though Heavenly Court lost, their motives and actions still followed the basis of defending humanity.

Qin Ding Ling smiled: “I got it! Why must we go to Eastern Sea? Wu Shuai is there right now, we can use him to probe Qi Sea Ancestor’s background. Let’s go to the two heavens and exterminate those grotto-heaven forces, we will uproot the allied army of the two heavens from their bases!”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1987 - Qi Harvest Frui

1987 Qi Harvest Frui

“Heavenly Court is Heavenly Court after all…” Night Heavenly Wolf Lord looked at the information path Gu worm in his hand as he sighed to himself.

As he had expected, Heavenly Court really went ahead to deal with the two heavens alliance.

Earlier, he had predicted that such a situation would occur.

Those who live in a society have to follow its rules, Night Heavenly Wolf Lord had to join the two heavens alliance. Otherwise, his grotto-heaven would be attacked until it was destroyed.

But joining this force only helped to delay their own destruction.

When the five regions counterattack, the two heavens alliance would break apart, there would be huge casualties. None of these allies would be spared, Night Wolf grotto-heaven would also face a calamity by then.

From the start, Night Heavenly Wolf Lord had made up his mind to defect to the five regions. This was for his own sake, and also the future of the entire Night Wolf grotto-heaven.

Thus, he took a risk and went to approach Heavenly Court.

As the situation progressed, Qi Sea Ancestor went against Wu Shuai and Heavenly Court sent a secret group to attack the headquarters of the two heavens’ variant humans!

Since Night Heavenly Wolf Lord decided to defect, Heavenly Court's Qin Ding Ling sent him a secret letter, asking him to be their spy and cooperate with Heavenly Court in this battle.

"Heavenly Court did not disappoint me after all!"

"Even though they lost in the fate war, despite everything, they still uphold the righteousness of humanity. They think for the whole of the human race without caring about sacrifices or benefits."

Such grandness resonated with Night Heavenly Wolf Lord.

Because he was a human Gu Immortal!

Compared to Heavenly Court's magnanimity, be they Qi Sea Ancestor or Wu Yong, they were simply too petty. Even Northern Plains' Longevity Heaven was the same.

What was the mindset that Giant Sun Immortal Venerable left behind?

Hereditary monarchy!

Even if Night Heavenly Wolf Lord and Longevity Heaven had no grudges, he would not go to and attempt to join them.

Night Heavenly Wolf Lord did not hesitate, he immediately replied that he was willing to cooperate with Heavenly Court.

According to their agreement, the moment Wu Shuai and Qi Sea Ancestor collide, Heavenly Court would use the chance to attack! If these two do not fight, then a month later, Heavenly Court would still take action.

"It will depend on Wu Shuai and Qi Sea Ancestor now." Night Heavenly Wolf Lord waited in anticipation.

Other than Night Heavenly Wolf Lord, countless forces and Gu Immortals were also paying attention to the situation in Eastern Sea.

Southern Border's Wu Yong was one of them.

"If Qi Sea Ancestor loses, the variant human forces will definitely expand their territory, they will develop rapidly like a growing snowball, they will become a huge threat to the five regions!"

"If Wu Shuai loses, the variant human forces will gather together in a defensive manner, this will be good news to the humans of the five regions. But that is not what I want to see."

Wu Yong was an ambitious person.

He wanted the world to be chaotic, the more conflicts there were, the more opportunities he had to try to reap benefits from the situation, to strengthen himself until he reached the top of the world!

Thus, he felt deep hatred towards the qi tides.

Because of the qi tides, the five regions' Gu Immortals had to forcefully recuperate, he lost the chance to completely take down Heavenly Court.

It was a real pity.

"Lord, Empress Wu Ji and the others have revived. What do we do now?" At this time, Wu Ba Chong came to report the news.

He was the second supreme elder of Wu clan, he was an old and experienced man.

After fate Gu was destroyed, the most evident change was that revival methods became very easy to use. Earlier, Gu Immortal seeds like Empress Wu Ji had died on Yi Tian Mountain. But now, Wu clan's Gu Immortals revived them all.

Wu Yong nodded: "These people are the hope of our future, they have experienced ample setbacks and training as Gu Masters. When they become Gu Immortals, they will definitely be elites among their peers. Impart them the method of immortal ascension and make ample preparations, ensure there are enough resources. I want Wu clan to gain more than ten Gu Immortals in the next few years!"

"Yes lord." Wu Ba Chong did not question this decision.

In the future, during the five regions chaotic war, there would be a long lasting struggle, it would not be settled quickly. By then, all of the different forces would need to compete using their foundation and long term planning.

“There is another matter regarding qi path.” Wu Ba Chong said as he handed Wu Yong an information path mortal Gu.

Wu Yong looked into it and quickly browsed through the content.

This information path mortal Gu contained the information of all sorts of qi path immortal materials, they had all appeared as a result of the qi tides.

“It seems that qi path is about to flourish again. Does this qi harvest fruit really have such great effects?” Wu Yong sighed as he asked at the end.

Wu Ba Chong nodded: “Currently, many Gu Immortals have used it already, it is precisely so. This fruit is the essence of qi path and the fusion of the five regions’ qi, it is not normal. By placing it into one’s immortal aperture, it can turn into turbulent qi flows that can hasten the transformation of the heaven and earth qi. Whoever can get more qi harvest fruits will be able to get through this period of inactivity more quickly.”

“Then collect more of this immortal material. Also, sort out and make a list of the clan’s inventory, collate a qi path inheritance. We are going to use it and try to cultivate qi path Gu Immortals.” Wu Yong instructed.

“Yes.” Wu Ba Chong answered.

Wu clan was specialized in wind path, they did not have much foundation in qi path. But such a huge force would naturally have accumulation in qi path to some extent, if they could put together many incomplete inheritances into a proper inheritance, they might be able to nurture one or two qi path Gu Immortals.

Of course, even if these Gu Masters became qi path Gu Immortals, they would not be promising in terms of future achievements.

But since Wu clan had to make up for their deficiency in this aspect, these Gu Masters could only sacrifice their future potential and become qi path Gu Immortals.

Southern Border, Luo clan.

Three Gu Immortals went deeply into Qi Jue grotto heaven.

“I broke through!” Luo Ran was excited.

His skin tone was white and he had a cold expression, he was a Luo clan general famous in Southern Border, having peak rank seven battle strength.

When the entire world was resting and recuperating, Luo Ran secretly brought two Gu Immortals from Luo clan and explored Qi Jue grotto heaven, he did not care about the changes in his own immortal aperture.

His hard work and efforts were not in vain, they finally broke through the difficulties and had a smooth journey ahead.

As they explored deeper, they arrived at the center of Qi Jue grotto heaven.

“To think that the qi tides would cause a change in Qi Jue grotto heaven, allowing us to progress more smoothly in here.” Luo Mu Zi felt deep emotions about this.

“Let’s hurry up, the qi tides are rampaging in the world now, Qi Jue grotto heaven will only stay concealed for a short period of time. We need to find Qi Jue’s true inheritance before anyone else finds us. With this true inheritance, our Luo clan will be able to adapt to this great era and obtain the initiative!” Luo Hao Ze’s eyes shined with bright light.

Several days later.

Eastern Sea.

Qi Sea Ancestor suddenly appeared, creating countless qi waves that moved towards the headquarters of Eastern Sea’s Xia clan openly.

“Come!” Wu Shuai sensed it from far away, he smiled as Dragon Palace moved, he controlled Di Zang Sheng and fought bravely against the enemy.

A huge battle that concerned the whole world erupted all of a sudden.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1988 - Wu Shuai Fights Qi Sea Ancestor

Chapter 1988 Wu Shuai Fights Qi Sea Ancestor

Rumble!

With a thunderous sound, intense tremors filled heaven and earth. Endless qi waves surged out, Dragon Palace shined with radiant lights as it retreated continuously.

Qi Sea Ancestor did not pursue it, many layers of qi waves stacked around his body, like an impenetrable fortress.

Both sides fought for an entire day and night, they exchanged blows but neither party could do anything to the other.

All around the battlefield, countless eyes were watching. Eastern Sea's righteous path, demonic path, and even lone immortals came here to watch the fight, naturally, there were also Gu Immortals of the two heavens.

"Senior Qi Sea Ancestor is truly powerful, his methods are grand and imposing, Wu Shuai's attacks all ended up useless." Hua clan first supreme elder Hua Cai Yun sighed to herself.

Beside her, Qing Yue An said: "But Wu Shuai is not to be underestimated, he merely has rank seven cultivation level but is able to evenly match Qi Sea Ancestor."

Hua Cai Yun sighed: "Wu Shuai was reborn, he is also an old monster. The Immortal Gu House Dragon Palace that he controls is really powerful, if not for it, he would not be Qi Sea Ancestor's match."

While the two conversed, a loud dragon roar resounded.

A huge demonic dragon that seemed like a mountain range appeared on the battlefield, it could be seen from a gigantic distance away.

"Oh heavens, such a terrifying giant dragon, this must be the number one immemorial desolate beast in the world?"

"This is Di Zang Sheng! I am shocked just by simply watching it fight, I cannot muster any battle intent against it. I can't imagine how the Gu Immortals fighting against it felt."

"Wu Shuai finally let out the Evil Dragon, this proves that Qi Sea Ancestor has forced him to his limit. The following fight is the crucial part."

All of the Gu Immortals watching this fight were shocked. Many of them had not participated in the fate war, they only watched it through the killer move everybody's vision. They saw the battle but did not experience it personally.

Their personal experience now was naturally creating a different feeling.

The Evil Dragon roared as it charged towards Qi Sea Ancestor.

Qi Sea Ancestor snorted coldly, his voice reverberating over the surroundings. He clapped both hands as an immortal killer move was unleashed, qi currents surged like a tsunami.

Di Zang Sheng charged forward but as it crashed into the qi currents, its movement halted.

Di Zang Sheng twisted its body and wanted to progress but the qi currents were endless, the great power could not be defied, it was forcefully suppressed on the ground!

Seeing this, the observing Gu Immortals gasped.

Qing Yue An, Hua Cai Yun, and Shen Cong Sheng cheered as expressions of joy appeared on their faces.

As for Zhou Xiong Xin and Jun Shen Guang who were sent here by Heavenly Court, they became stunned, quickly looking at each other.

“Thinking about the fate war, the two transformation path great experts of our Heavenly Court could not stop the rampaging Evil Dragon, they were suppressed by it. To think that Qi Sea Ancestor is able to stop it!” Jun Shen Guang was stunned.

Zhou Xiong Xin squinted, he assessed Qi Sea Ancestor from afar. His information path methods had been used already, seeking to collect information from the entire battlefield as the fight progressed.

Zhou Xiong Xin analyzed: “Qi Sea Ancestor is an expert who fought evenly with Lord Duke Long, it is not strange that he can resist Evil Dragon Di Zang Sheng. But his new killer move seems to have some elements of the primordial qi wall in it.”

“Lord Duke Long once gave half of Primordial Origin’s true inheritance to Qi Sea Ancestor. To think that he has already innovated upon it after the fate war had just ended to create a brand new qi wall killer move.”

Jun Shen Guang blinked: “Does this mean that during the fate war, Qi Sea Ancestor was in closed cultivation to comprehend this new killer move?”

Zhou Xiong Xin could not deny it: “We cannot be sure yet. But at least for now, Qi Sea Ancestor’s methods are very different from the qi path methods that Fang Yuan possesses.”

Saying this, Zhou Xiong Xin sighed: “Qi Sea Ancestor’s origin is too mysterious, he is too deeply concealed. We have not even found any past details about him. Beforehand, we could use the River of Time to trace his origin and find out his past identity. But after fate Gu’s destruction, the River of Time has become extremely dangerous, it is filled with vicious waves, even if a time path great expert enters, they will be in great danger, we cannot enter it anymore.”

Other than time path, there was still wisdom path.

But regrettably, Fang Yuan destroyed the majority of the immortal graveyard while Fairy Zi Wei defected to Spectral Soul, Heavenly Court faced an unprecedented lack of wisdom path experts.

Boom—!

An overwhelming amount of qi waves crashed down with heaven shaking might.

The Evil Dragon roared, it tried to move its mountain-like body, but Qi Sea Ancestor continued to suppress it from above.

Qi Sea Ancestor's moves gave an unrivaled atmosphere, his every action contained the power to overturn mountains and seas, the great Evil Dragon was not his match.

The human Gu Immortals cheered to themselves.

At this moment, Qi Sea Ancestor's reputation rose greatly in the five regions.

When the five regions' Gu Immortals could not fight, when humanity was at its weakest, Qi Sea Ancestor had emerged to resist and defeat the variant humans, this was really satisfying to all the human Gu Immortals.

"This is the action of a true man!" Even though Xi clan's first supreme elder did not come personally, he had sent a Xi clan Gu Immortal to witness this battle themselves.

Wu Yong was in Southern Border, upon seeing this, his heart sank as he pondered: "When we attack Eastern Sea in the future, this Qi Sea Ancestor will be a huge obstacle."

Qin Ding Ling was guarding Heavenly Court with a complex emotion. In the past, Heavenly Court would be the one standing up during such situations, fighting on the front lines, but this time, Qi Sea Ancestor took Heavenly Court's place and shouldered the expectations of the human race.

Even though Heavenly Court's Gu Immortals were still suspicious about Qi Sea Ancestor's identity and his connection to Fang Yuan, after this battle, their impression towards him had undoubtedly improved greatly.

While the human Gu Immortals were feeling happy, the two heavens alliance felt solemn, all the Gu Immortals were fearful.

"How can this be! Even after using Di Zang Sheng, we cannot turn the situation around?"

"The humans are really strong! This is the foundation of the five regions, we chose to invade them so abruptly, we were simply too hasty."

"Hmph, even if we do not take action, these humans will still go after us. For the last few million years, they have been treating us variant humans like so."

"Indeed, we can only have any hope of surviving by taking the initiative."

"We cannot interfere in a battle of such a level, sigh, we can only hope that Lord Wu Shuai can claim victory!"

The variant human Gu Immortals continued to converse, their expressions were grim as their gazes turned uncertain.

There were many rank eight Gu Immortals among them, they had high cultivation and generally were characters of ancestor level in their respective grotto-heavens. But after witnessing this terrifying battle, nobody dared to participate.

"Qi Sea Ancestor, you have been arrogant for too long!" Right at this moment, Dragon Palace rose up, Wu Shuai's voice came from within.

The immortals watched as Dragon Palace flew towards Qi Sea Ancestor like an orange-gold meteor.

Qi Sea Ancestor's qi currents surged and blocked it but the effect was mild.

Dragon Palace rode the waves and advanced further, charging with great momentum. A dream path killer move was used, a trace of smoke shot towards Qi Sea Ancestor.

“Be careful!” Seeing this, many human Gu Immortals shouted while feeling very anxious, despite knowing their voices could not reach the battlefield.

Right now, dream path was invincible in the world. Qi Sea Ancestor had to dodge the attack as he retreated.

This time, Wu Shuai gained the upper hand.

The variant humans quickly became overjoyed while the human Gu Immortals let out sighs of relief, Qi Sea Ancestor was not hit by the dream path killer move, that was an ideal outcome!

The battle between Qi Sea Ancestor and Wu Shuai concerned all of the Gu Immortals in the world. Each clash shook people’s souls, it would directly affect the future of the five regions.

As the two sides continued to fight, the immortals heard loud noises from the west.

The loud sound came imposingly, with an unstoppable aura like a torrential flood.

The Gu Immortals heard this and quickly shifted their gazes, they saw that qi tides were approaching the battlefield from far in the horizons.

“During this crucial battle, the qi tides actually came to wreak havoc!”

“Quickly retreat, if we get hit by the qi tides, our immortal apertures will tremor and result in lots of losses.”

“What about this battle?”

The Gu Immortals were stunned, this was an unexpected development.

Jun Shen Guang's expression sank: "Oh no! Qi Sea Ancestor is an Eastern Sea Gu Immortal, he is restricted by the qi tides, the situation will be severe. But Wu Shuai is a new dragonman Gu Immortal, after the refinement path modification, he is less affected."

This information came from Duke Long.

During the fate war, Duke Long secretly used dragonman extermination but could not end Wu Shuai's life. Back then, he specially told them about this.

Humans alike dragons was the Gu refinement method created by Duke Long, it could turn humans into dragonmen. The first generation dragonmen were created by this method.

Heavenly Court had Duke Long's information and also the method humans alike dragons, they could easily deduce a portion of Wu Shuai's foundation. Thus, when they learned that Wu Shuai was leading the two heavens alliance to invade Eastern Sea, they were not surprised that he could fight.

Zhou Xiong Xin gritted his teeth: "Qi tides are a qi tide catastrophe, Qi Sea Ancestor is a qi path great expert, he definitely has an advantage in dealing with it compared to us! Now, let's see how he deals with this change, it will be the turning point of this battle."

"Qi Sea Ancestor, even heaven is not helping you. Let's see how long you can last in the qi tide!" Wu Shuai shouted excitedly, he moved Dragon Palace to assist the Evil Dragon as they attacked ferociously.

This sight made the human Gu Immortals grit their teeth as they retreated, many prayed in their hearts: "Senior Qi Sea Ancestor, you must persevere."

At the next moment, Qi Sea Ancestor laughed loudly: "Wu Shuai, you fell for it, I was waiting for you to fall for the bait."

As he said that, the qi waves turned around, like a blossoming flower returning to a bud, they encased Qi Sea Ancestor and Dragon Palace before condensing into a dot, vanishing.

In the battlefield, only Evil Dragon Di Zang Sheng was left growling and roaring.

“What battlefield killer move is this?”

“At the crucial moment, Senior Qi Sea Ancestor actually trapped Wu Shuai in a battlefield killer move. This is too amazing!”

“So Qi Sea Ancestor had been plotting all along.”

“Wu Shuai is trapped in a qi path battlefield, isolated from the Evil Dragon, he is at a disadvantage now.”

“That might not be true, Qi Sea Ancestor’s qi path battlefield is going to face the rushing qi tides, if the battlefield is destroyed, Qi Sea Ancestor will suffer backlash, he might end up in a disadvantage too.”

“Now, it will depend on whether Qi Sea Ancestor is able to break into Dragon Palace first. If not, when his qi path battlefield is destroyed, Wu Shuai will gather with the Evil Dragon, Qi Sea Ancestor will be in huge danger.”

The Gu Immortals on both sides were very worried.

They could not personally watch such a crucial battle. Not only that, they had to retreat away from the qi tides, otherwise, their losses in the immortal aperture would be huge.

Right as everyone was thinking about the qi path battlefield and how intense the battle would be, Wu Shuai and Qi Sea Ancestor were relaxing and drinking wine in Dragon Palace.

Other than wine, there was also food.

Fang Yuan’s clone and his main body were in harmony, the atmosphere was relaxed.

Wu Shuai clone gave the incomplete Human Sea to Fang Yuan’s main body.

After receiving it, Fang Yuan’s main body and Wu Shuai clone started to discuss their plans for the future.

Chapter 1989 - Demon Judgment Board Lord

1989 Demon Judgment Board Lord

“To think that the qi tide would come at such a crucial moment.” Prince Feng Xian wore a golden cape, he sighed in pity.

Beside him was a female immortal of Heavenly Court, she was Bai Cang Shui, she said with deep meaning: “Isn’t that a good thing?”

Besides them, Gu Yue Fang Zheng was also here.

These three Gu Immortals were currently inside rank eight Immortal Gu House Demon Judgment Board, they were not in Central Continent, they had entered immemorial black heaven.

Gu Yue Fang Zheng’s expression changed slightly, he knew the deeper meaning that Bai Cang Shui was pointing out.

He could not help but think back to the instructions and arrangements that Qin Ding Ling gave him before leaving Heavenly Court.

“You and Gu Yue Fang Yuan were born together and counter each other, you are the arrangement of the Heavenly Dao. Even if Fang Yuan changes his body, this relationship will not change. Precisely so, you will lead the expedition this time, bring Prince Feng Xian and Bai Cang Shui to launch a sneak attack on the headquarters of the variant human grotto-heavens in the two heavens!”

Qin Ding Ling cultivated luck path, she placed great importance on

Gu Yue Fang Zheng, knowing that the lucks of Gu Yue Fang Zheng and Fang Yuan were tightly connected, she could sense that they countered each other.

And facts proved this.

Qin Ding Ling's awakening, the discovery of the dragonman blessed land, they were all variables that suppressed Fang Yuan.

Right now, Heavenly Court lost in the fate war, Duke Long died, Feng Jiu Ge betrayed them, the immortal graveyard was destroyed, while Star Constellation's will had no response. The great Heavenly Court was at its weakest moment for the last million years.

Qin Ding Ling temporarily led Heavenly Court, she naturally had to make use of all the available strength to defend themselves and resist enemies.

Thus, the stronger Fang Yuan was, the more focus Qin Ding Ling placed on Fang Zheng.

In order to nurture Fang Zheng, Qin Ding Ling spared no expense on immortal materials, she even let him lead this expedition to train his leadership skill.

Fang Zheng was not a youngster anymore, he knew that this was an unprecedented opportunity that was rarely seen in thousands of years. Even though Heavenly Court lost, their foundation was still unfathomable, with such a huge organization supporting him, he had to grasp it.

Fang Zheng still had rank seven cultivation level now, he had not reached the condition to join Heavenly Court, thus, his rank seven blessed land was not handed over to them. The truth was, Qin Ding Ling needed him to grow stronger, thus, even when he becomes a rank eight Gu Immortal in the future, as long as he still had room for improvement, Qin Ding Ling would not make him give up his immortal aperture. After all, the Gu Immortal's growth would almost completely halt after getting a phantom aperture.

"Senior Bai is right! Currently, with Qi Sea Ancestor and Wu Shuai stuck in battle, it is our best opportunity to launch an attack. Let’s go now.”

Gu Yue Fang Zheng spoke as he acted swiftly.

Rank eight Immortal Gu House Demon Judgment Board was immediately activated, it turned into a blood colored meteor that pierced through the grotto-heaven wall with a loud sound, entering Great Wisdom grotto-heaven directly!

The three immortals in Demon Judgment Board looked at Great Wisdom grotto-heaven, it had a beautiful scenery of lush mountains and flowing rivers. Inkmen lived here harmoniously, they had peaceful lives, there were many people here, it was a flourishing habitat.

A thick blood red light spread out rapidly from Demon Judgment Board, spreading throughout the world.

The essence of an Immortal Gu House was immortal killer moves, it was constructed using Immortal Gu and mortal Gu. According to the different Gu worms used, with different structures, Immortal Gu Houses had their own specialties.

Demon Judgment Board had great might, it showed a solid performance during the fate war. It was able to fight directly and managed to survive the war, this showed that Demon Judgment Board was one of the top rank eight Immortal Gu Houses in the world.

At this moment, Demon Judgment Board was unleashing an information path ability that had not been used in the fate war.

Wherever the blood red light went, all sorts of information gathered into Demon Judgment Board like a waterfall, before entering the minds of the three immortals.

Prince Feng Xian frowned, showing a look of hatred and disgust: “The inkmen here actually captured humans secretly and exploited them as slaves, they truly deserve death. These variant humans should all die! Let’s kill these ones here and soul search them first.”

But Bai Cang Shui shook her head: “These are just mortals, even if we soul search them, they would not know many secrets of the higher-ups. We should give them a taste of their own medicine, let’s enslave them all and sell them as slaves in treasure yellow heaven, not only can we replenish Heavenly Court’s reserves with this, it can also display the authority of our Heavenly Court.”

Fang Zheng frowned on the inside.

He had once lived for many years in Lang Ya blessed land with the hairy men due to Fang Yuan, he experienced the culture of the variant humans.

Even though these inkmen treated humans as slaves, he was still unwilling to kill the innocent.

But Fang Zheng did not rebuke the two immortals, instead he said: “These mortal inkmen are not important, the key now is to rapidly kill the inkman Gu Immortals here. Let’s take a look at this list of the Demon Judgment Board!”

A new list on the Demon Judgment Board appeared, the names of the inkman Gu Immortals inside Great Wisdom grotto-heaven were clearly written on it.

“Let’s go!” Fang Zheng shouted resolutely, activating Demon Judgment Board, they followed the connection to rapidly find the closest inkman Gu Immortal.

This inkman Gu Immortal had already sensed something amiss, he secretly went to gather with the other inkman Gu Immortals.

Seeing the approaching Demon Judgment Board, he flew desperately, but how could his speed match a rank eight Immortal Gu House?

“Ahhh!”

With a pitiful cry, this inkman Gu Immortal was directly killed by the charging Immortal Gu House. Blood red light captured his soul, it was brought to the three immortals.

The three immortals quickled used soul search to gain lots of precious information.

Within this Great Wisdom grotto-heaven, there were many inkmen and cities. The biggest city was at the center of the grotto-heaven, it had the largest number of inkman Gu Immortals gathered there.

Of course, at this moment, there were still a few inkman Gu Immortals scattered outside.

“Demon Judgment Board Lord, what do we do now?” Bai Cang Shui asked Fang Zheng.

Fang Zheng did not hesitate: “We will immediately attack that immortal city!”

Demon Judgment Board tore through the sky with outstanding speed, reaching the immortal city in a moment’s time.

During this period, the inkman Gu Immortals of the grotto-heaven had already gathered.

“Heavenly Court! We have no grudges with each other but you launched a sneak attack on us, can you still consider yourself righteous?” Within the immortal city, an inkman Gu Immortal shouted.

Prince Feng Xian laughed heartily: “Heavenly Court upholds the justice of humanity, your entire inkman group is full of evil demons, you deserve to be purged by everyone.”

“What’s the point of arguing with them?” Fang Zheng acted more directly than Prince Feng Xian, he sent Demon Judgment Board to crash down on them.

The inkman Gu Immortals gritted their teeth and shouted: “Then you will have a taste of our Great Wisdom grotto-heaven’s main formation!”

At once, fog appeared and dyed the sky pitch-black.

Demon Judgment Board entered the fog and could not find its directions, it was completely trapped.

Not only that, the dense black fog was seeking to infiltrate the Immortal Gu House Demon Judgment Board.

Fang Zheng did not fluster, he first tried to use killer moves to probe it.

Lumps and lumps of blood flames spread out, wherever they went, black fog dispersed, but soon, the black fog seemed to have adapted, it devoured the blood flames aggressively.

Fang Zheng tried to attack several times but he failed each time.

Demon Judgment Board flew around the place but could not find any opening, it could not fly out of the black fog.

After thinking for a while, Fang Zheng used the strongest method in Demon Judgment Board, causing wanton destruction everywhere.

After a few minutes, a large amount of immortal essence was expended, Fang Zheng saw the black fog dispersing as they saw daylight again.

But the immortal city was already blown to bits, the surrounding thousand li were in ruins, countless lifeforms died from Demon Judgment Board's attacks.

The defending inkman Gu Immortals were mostly dead, only one was still alive, holding his final breath.

He looked at Demon Judgment Board with a gaze of deep hatred, he gritted his teeth: "How laughable, the great Heavenly Court is actually using blood path methods! You slaughtered these innocent people with no sense of guilt in your heart, you are truly the most vile demons of the demonic path!"

Prince Feng Xian snorted coldly, replying in disdain: "Blood path is only a method, when used on you, it shows humanity's righteousness."

"The owner of our Great Wisdom grotto-heaven will not let you off!" The inkman Gu Immortal said before dying.

“It’s over?” The person who caused this situation and claimed victory, Fang Zheng, stared with wide eyes in disbelief.

Bai Cang Shui knew how he felt, she smiled: “Board Lord, you think this is the fate war, where intense fighting would happen that persists for months?”

Fang Zheng heard this and had a realization, he sighed: “So that’s it.”

The fate war was at the peak of the world in terms of battle strength. After Fang Zheng participated in it personally, his impression of fights between Gu Immortals was elevated to a great degree.

Right now, he was fighting against rank six and seven inkman Gu Immortals using the rank eight Immortal Gu House Demon Judgment Board, he realized it was so easy! It was too simple!

“Then, what do we do now, Board Lord?” Prince Feng Xian asked.

Fang Zheng pondered before answering: “Right now, the owners of these variant human grotto-heavens are with Wu Shuai in Eastern Sea. Since we already won this fight here, we still have time to attack the other grotto-heavens. This assault is a great chance, we need to make good use of it. Senior Bai Cang Shui, stay here, guard the place and collect our loot.”

For the sake of the ordinary inkmen, Fang Zheng did not let the more racist and violent Prince Feng Xian stay here, he chose Bai Cang Shui.

Bai Cang Shui and Prince Feng Xian looked at each other, seeing satisfaction in each other’s eyes.

Fang Zheng’s performance as the leader of this trip was quite commendable. Be it his decisions or mindset, he was dependable and had the aura of a great general.

“Then I will stay here. Please be careful yourselves.” Bai Cang Shui expressed.

Fang Zheng nodded with a solemn expression: “Senior, don’t worry, I will not underestimate the enemies. I have not forgotten the most important point, that is the actions of Wu Shuai’s force.”

Bai Cang Shui felt relieved upon hearing these words, they took their leave.

Eastern Sea.

The qi tide had just subsided, the Dragon Palace with a damaged appearance crashed into Xia clan's headquarters.

"Oh, Lord Wu Shuai is back!"

"What was the result of the battle?"

"Lord Alliance Leader, you got injured?!"

The variant human Gu Immortals entered Dragon Palace, they saw Wu Shuai, who had a pale expression and was covered in bloodstains.

"Qi Sea Ancestor is formidable! I need to recuperate in closed cultivation." Wu Shuai coughed out mouthfuls of blood.

The variant human Gu Immortals were pale, overwhelmed by fear and panic.

Wu Shuai snorted coldly: "Don't worry, I used up a major portion of Human Sea and unleashed human path methods, that Qi Sea Ancestor is also severely injured."

The variant human Gu Immortals let out sighs of relief, it turned out the battle had ended in a draw.

Right at this time, Great Wisdom Immortal Mother's expression changed as she cried out in alarm: "Oh no! My Great Wisdom grotto-heaven was attacked, it is in imminent peril!"

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1990 - Wu Shuai“s Healing

1990 Wu Shuai“s Healing

Great Wisdom Immortal Mother’s words shocked all of the present variant human Gu Immortals.

Soon, they reacted to the news.

“We need to save them, these are our headquarters.”

“Great Wisdom, do you know who invaded your grotto-heaven?”

“Heavenly Court!” Great Wisdom Immortal Mother had a dark expression, gritting her teeth in hatred: “The invading Gu Immortals used Demon Judgment Board, it is a Heavenly Court rank eight Immortal Gu House, this cannot be faked.”

“Hmph, so it is Heavenly Court!”

“Heavenly Court is simply too shameless, they actually attacked without a proper declaration of war.”

“Heavenly Court is an organization made by demons to begin with. The past Primordial Origin Immortal Venerable was the biggest demon in the world, far beyond Fang Yuan in fact. These are the records that our races have clearly left behind.”

While the immortals berated Heavenly Court, there was a sudden sound as Great Wisdom Immortal Mother directly knelt on the ground, kowtowing to Wu Shuai as she called: “Lord Alliance Leader, please help us uphold justice.”

Great Wisdom Immortal Mother knew in her heart that she had no ability to save it. Just that rank eight Immortal Gu House Demon Judgment Board alone was an obstacle. That was not including the hidden Heavenly Court rank eight Gu Immortals in Demon Judgment Board.

Wu Shuai acknowledged her words: “Great Wisdom, no need to worry, stand up first!”

He seemed to have a livid expression but he did not find this strange at all. Heavenly Court’s actions were within his expectations, during the five hundred years of his previous life, Heavenly Court had similarly done such an invasion.

Wu Shuai said resolutely and solemnly: “Great Wisdom is one of us, now that Great Wisdom grotto-heaven is attacked by Heavenly Court, we need to save it. Not only that, we need to take revenge for the damage that Heavenly Court has caused to Great Wisdom grotto-heaven, we will not let this go!”

“Thank you Lord Alliance Leader!” Great Wisdom Immortal Mother felt relieved, she stood up shakily, she already had the appearance of an old woman, at this moment, she looked even more pitiful as she asked: “When will we set off?”

Wu Shuai pondered: “This is a huge matter, we need to make plans first, we cannot panic and lose our rationality. We need to save Great Wisdom grotto-heaven, but we also need to defend our Eastern Sea Xia clan territory. Even though I fought evenly against Qi Sea Ancestor this time, Eastern Sea’s righteous path will not let this go, they will retaliate. We worked hard to gain this territory, we must defend the fruits of our labor. Thankfully, we did not use any mermen earlier, in the following battle, the Merman Imperial Court can support us secretly as spies.”

Ice Crystal Immortal Monarch stood up from the crowd at this moment: “Reporting to Lord Alliance Leader, I am willing to defend Xia clan’s headquarters. If the Eastern Sea righteous path attacks, I will do my best to defend this place, they will not pass until I die!”

Ice Crystal Immortal Monarch’s words were very heroic and grand, but in his heart, he was trying to avoid conflicting with Heavenly Court. There were many variant human Gu Immortals with similar thoughts, they all sighed now, they had been too slow, Ice Crystal Immortal Monarch made a move before them.

Among them, some of the variant human Gu Immortals who were close to Ice Crystal Immortal Monarch felt happy internally, if Ice Crystal Immortal Monarch defended the base, they would definitely be chosen to stay with him, after all, he could not defend the location alone.

“Very good.” Wu Shuai nodded, he looked at Ice Crystal Immortal Monarch with admiration: “Ice Crystal, you are very strong and have a vigilant nature, you are a powerful general in our alliance, I will be assured if you are defending it. After I recover from my injuries, you will defend Xia clan’s territory for me.”

Great Wisdom Immortal Mother heard this and became anxious, you all are talking so much but why is nobody talking about the departure timing?

She started to urge again: “Lord Alliance Leader, fellow allies, there is no time, Great Wisdom grotto-heaven’s crisis is at hand, we need to save it immediately!”

Wu Shuai sighed: “After this battle against Qi Sea Ancestor, not only are my injuries severe, the healing is very troublesome. I need a lot of immortal materials to heal my physical body. The reason is because my dragonman body is different from Duke Long, I modified it and innovated upon the original version. When refining this body, I used a lot of rare immortal materials and paid a huge price. My healing will also require the same cost, regrettably, I lack a lot of immortal materials now, I need to make purchases in treasure yellow heaven.”

Great Wisdom Immortal Mother had also heard rumors regarding the humans alike dragons method, she did not suspect his words as she asked: “May I ask Lord Alliance Leader how many immortal materials you require to heal your injuries? We can provide it.”

Wu Shuai listed out the materials for her.

After hearing his words, all the variant human Gu Immortals took in sharp breaths.

The price was too huge!

Great Wisdom Immortal Mother was tongue tied as she gasped: “To think that Lord Alliance Leader’s body is so valuable and expensive!”

Wu Shuai smiled but did not speak, he only glanced towards Gu tribe’s leader.

Gu tribe’s leader immediately said: “I can testify for this, many of my people have turned into dragonmen, we expended far more immortal materials than this!”

This was a lie, but Gu tribe’s leader and Wu Shuai were very close, because he was an Eastern Sea rank eight, his words carried huge trustworthiness.

Great Wisdom Immortal Mother had naturally suspected that Wu Shuai was extorting them, but she did not dare to question him, the situation was not within her control.

After hesitating for a while, Great Wisdom Immortal Mother gritted her teeth as she said with difficulty: “Lord Alliance Leader, I am willing to fund and contribute the immortal materials to help you recover quickly.”

The variant human Gu Immortals quickly took action, gathering the immortal materials.

Wu Shuai accepted the immortal materials but shook his head: “Even with all the immortal materials I need at least three days and two nights to heal.”

Great Wisdom Immortal Mother heard his words and almost fainted on the spot.

She was extremely anxious, she was about to speak but Wu Shuai waved his hand, she could not say anything.

Because at the next moment, Wu Shuai added: “As the alliance leader, no matter which of your headquarters get attacked, I will definitely save them. Heavenly Court is our common enemy! But the situation is indeed tough now, how about this… Ice Crystal Immortal Monarch, as the vice alliance leader, lead a group of people to save them in black heaven first. Try your best to preserve the foundation of Great Wisdom grotto-heaven.”

“What?” Ice Crystal Immortal Monarch stared with wide eyes, showing a difficult expression. to think that this matter still ended up being delegated to him, he quickly thought about it but found that he could not refuse, he gritted his teeth: “I… will go. But I am too weak and powerless, I do not want to ruin the expedition, I would like to borrow Lord Alliance Leader’s Dragon Palace. With it, I can definitely complete my mission!”

But Wu Shuai shook his head: “I cannot lend Dragon Palace, I need it to heal my injuries.”

“Is that so…” Ice Crystal Immortal Monarch wanted to speak.

But Wu Shuai’s expression changed as he said grimly: “Everyone, the situation is urgent now, we cannot talk about it further. Great Wisdom grotto-heaven is only the first target, will your grotto-heavens remain untouched? You need to save yourselves! Were I not the alliance leader, when faced with this situation, would you surrender to them? Ice Crystal Immortal Monarch, I order you to go save them immediately, you can choose five people here to go with you.”

Ice Crystal Immortal Monarch felt a strong pressure pressing down on him. He could only lower his head and accept the order.

He chose five Gu Immortals from among the people here, they were all rank eight Gu Immortals.

These were all leaders of forces close to him, there was no choice, resisting Heavenly Court to save Great Wisdom grotto-heaven was too dangerous, he did not want to get into trouble from internal strife.

However, right when they were about to move out, Great Wisdom

Immortal Mother suddenly froze as she said dejectedly: “It’s too late, my Great Wisdom grotto-heaven has been completely taken down by Heavenly Court!”

The Gu Immortals gasped in unison.

Great Wisdom Immortal Mother fell to the ground as she knelt before Wu Shuai, sobbing: “Please take revenge for me, Lord Alliance Leader. My tribe has been doing its best to collect the fragments of the Qian Kun Crystal Wall, we have more than fifty percent now! If we can find another ten percent, we will be able to excavate the racial inheritance of our inkman race!”

Great Wisdom Immortal Mother directly exposed the racial inheritance of her tribe, the intention was obvious, she was trying to use benefits to lure Wu Shuai!

After hearing about the racial inheritance, the other Gu Immortals’ eyes started to shine.

At this moment, another Gu Immortal shouted in panic: “Oh no, my grotto-heaven is being attacked by Heavenly Court. Quick, quick! Go and save it!”

Wu Shuai looked at Ice Crystal Immortal Monarch imposingly: “This is an urgent matter, aren’t you setting off?”

Ice Crystal Immortal Monarch gritted his teeth, he brought a number of Gu Immortals to return to immemorial black heaven.

Great Wisdom Immortal Mother and another pitiful Gu Immortal went back to reinforce the invaded grotto-heaven, Ice Crystal Immortal Monarch and the rest also went there, within Dragon Palace, less than half the Gu Immortals were left.

The remaining Gu Immortals had ugly expressions, most of them were shell shocked, after all, they could be the next target at any time.

Wu Shuai ignored them, he ordered them to defend Xia clan’s base as he shut the door of Dragon Palace, attending to his ‘injuries’.

"These variant human Gu Immortals are truly not our match, hehe." Night Heavenly Wolf Lord was among the Gu Immortals, he was the only person here who had peace of mind.

"All these grotto-heaven Gu Immortals don't have any interaction during normal times, they even guard against each other and think that they should keep more secrets to themselves! With such precaution against each other, how can they make any change? Even if they work together, they are still a disunited bunch! My decision to join Heavenly Court was right after all."

After this matter, Night Heavenly Wolf Lord was even more sure of his intention to work for Heavenly Court.

After parting with the immortals, he secretly informed Heavenly Court of this expedition.

Wu Shuai had created the two heavens alliance agreement, there were restrictions upon it naturally. But the information path dao marks on Night Heavenly Wolf Lord had already been removed by Zhou Xiong Xin and the others, thus, even though he was a traitor, no backlash had occurred.

In Heavenly Court's Central Great Hall, Qin Ding Ling soon received news of this.

She thought about it but did not inform Eastern Sea's righteous path, instead she told Fang Zheng.

Fang Zheng was already about to take down the second grotto-heaven, the remaining Gu Immortals in the grotto-heaven were still well hidden, Fang Zheng was anxious to find them.

After thinking about it, he decided to ask Prince Feng Xian to stay here and clean up the situation. He would bring Demon Judgment Board to the third grotto-heaven and assault it!

At the same time.

Eastern Sea, qi sea.

Qi Sea Ancestor had a pale expression, he sat at the main seat as he looked at Xia Rui Zhi and the rest.

The representatives of Eastern Sea’s righteous path forces were all here.

Qi Sea Ancestor looked at Xia Rui Zhi as he asked: “In this battle, I had the upper hand at first, but that Wu Shuai actually managed to use a human path method. This method was very powerful, it could create countless flying human figures. According to Wu Shuai, this is the foundation of your Xia clan, is it an artificial secluded domain of heaven and earth?”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1991 - Ancestor is Righteous and Mighty

1991 Ancestor is Righteous and Mighty

After Xia clan first supreme elder Xia Rui Zhi heard Qi Sea Ancestor's question, he became shocked.

After a while, he answered vigilantly: "Reporting to ancestor, my Xia clan was indeed creating an artificial human path secluded domain, it is called Human Sea. But this secluded domain does not have any offensive power. The reason why we created it was to deal with the future chaos and have a method to revive our Xia clan Gu Immortals."

Xia Rui Zhi spoke vaguely but he did not lie. The reason why Xia clan was creating Human Sea was to revive their Gu Immortals.

In the five hundred years of his previous life, Fang Yuan remembered that when Xia clan's Gu Immortals died outside, they were not truly dead, they could revive from Human Sea. Although their Immortal Gu and immortal aperture's accumulations would be lost, they would still retain their cultivation level and immortal aperture itself.

Eastern Sea's Xia clan gained a huge reputation because of this, for the following period of time, they invaded Southern Border. Southern Border's Gu Immortals fought against Xia clan, over time, they learned about Xia clan's background and foundation, eventually, Chai clan mimicked Human Sea and created their own Human Mountain secluded domain.

Qi Sea Ancestor stroked his beard: “It seems that the reason why Wu Shuai led the two heavens’ Gu Immortals to invade your Xia clan was because of this Human Sea secluded domain.”

All of the present Xia clan Gu Immortals looked at each other.

Xia Rui Zhi frowned as he muttered: “Was my Xia clan invaded because information got leaked and the allure of the Human Sea secluded domain caused enemies to attack? But this Human Sea secluded domain has not been completed yet.”

Qi Sea Ancestor had a grim expression: “If Wu Shuai did not have a complete Human Sea secluded domain, does that mean that after he completes it, he will have an actual Human Sea and his human path killer move will be even stronger?”

Xia Rui Zhi smiled: “Ancestor, don’t worry, the creation of Human Sea originated from an ancestor of my clan, it was refined by generations of descendants. Wu Shuai does not know of its profundity, if he tries to complete it, Human Sea will only dwindle and shrink.”

Qi Sea Ancestor shook his head: “Wu Shuai is an old monster of the past, he made use of Fang Yuan’s power to revive successfully, this person is too scheming and crafty, he takes action with certainty. Each time he strikes, he is resolute and will always make great gains. Since he knew about your Xia clan’s Human Sea secluded domain, he might also know a way to complete it.”

Xia Rui Zhi’s smile became more forced: “This possibility… is not likely. Only the top three supreme elders of my clan know about the creation method of Human Sea. Right now, they are all here, don’t tell me we have a traitor among us?”

Qi Sea Ancestor sighed: “It might not be a traitor. Don’t forget that Wu Shuai controls Dragon Palace which has dream path killer moves, he might have targeted you in your dreams.”

“This…” Xia Rui Zhi’s smiling expression froze entirely.

If it were any other path, Xia Rui Zhi would still feel some confidence. But against dream path methods, he could not be certain.

“Lord Xia Rui Zhi, friends from Xia clan.” At this time, a Tang clan Gu Immortal spoke: “Should you still be hiding it? You should tell us the creation method of Human Sea, let us refer to it and find out a weakness of Wu Shuai’s human path method.”

Xia clan’s Gu Immortals were stunned.

The creation method of Human Sea was the deepest foundation of Eastern Sea’s Xia clan, how could they expose it like this?

Tang clan’s Gu Immortal was merely after Human Sea himself.

Tang clan’s member chuckled: “Pardon my words, but friends from Xia clan, what are you still waiting for? Your territory has been lost, you want to create a brand new Human Sea secluded domain from scratch? Do you know what the most important thing is now? When ancestor and Wu Shuai fought, it ended in a draw because of that human path killer move. As long as we can deduce this human path killer move, would we have to fear Wu Shuai and his army? By then, wouldn’t you get back your homeland?”

Xia clan’s Gu Immortals gritted their teeth in anger.

Tang clan was an Eastern Sea super force, they bordered Xia clan and had much conflict in usual times. Thus, they decided to make things difficult for Xia clan at this moment.

However, even though they were causing problems intentionally, their words made sense.

This was something even Xia clan’s Gu Immortals had to admit.

Xia Rui Zhi thought about it before making up his mind: “The method to create Human Sea is our Xia clan’s secret, we will not announce it publicly. I am only willing to contribute this human path essence to ancestor alone!”

Qi Sea Ancestor got injured from fighting Wu Shuai, Xia clan’s hopes were all on Qi Sea Ancestor now. Because the two heavens were led by Wu Shuai, Eastern Sea only had Qi Sea Ancestor able to resist the

Evil Dragon and Dragon Palace collectively.

Xia Rui Zhi was trying to gain Qi Sea Ancestor's favor now, he was making plans for his own clan.

But Qi Sea Ancestor shook his head: "I am only asking this to confirm the situation. Your Xia clan can keep this Human Sea creation method. I have no foundation in human path, even if I get it, I cannot deduce Wu Shuai's methods."

Xia Rui Zhi became anxious and wanted to speak but Qi Sea Ancestor waved his hand to interrupt: "Xia clan does not have to worry. Wu Shuai is a dragonman, the two heavens alliance is also made up of mostly variant humans, they are public enemies of the five regions! If they invaded the other four regions, so be it, but they chose Eastern Sea after all, so as a human, I will resist these variant humans with all my effort."

"Ancestor is righteous and mighty!" The Gu Immortals present called out in unison.

Qi Sea Ancestor added: "But now, I have injuries from the battle, I need to recuperate in closed cultivation. As for Wu Shuai, his injuries are more severe, he will not take action during this period of time, there is no need to worry."

Qi Sea Ancestor paused before continuing: "When I recover, I will need you all to cooperate and gather an army to fight against the two heavens alliance."

"We will listen to ancestor."

"With ancestor leading us, Eastern Sea has nothing to worry!"

"Without ancestor, Eastern Sea would have suffered great losses already. It is truly Eastern Sea's blessing to have ancestor defending it, this is the blessing of the people."

The Eastern Sea Gu Immortals continued to flatter him without stopping.

But Xia Rui Zhi had a worried expression, he and Xia clan's members were currently homeless. During this period, they could not reclaim Xia clan's territory, where were they going to go now?

Qi Sea Ancestor smiled lightly: "Before we attack, friends from Xia clan, you may stay in qi sea as guests."

Xia clan's Gu Immortals instantly became overjoyed.

Xia Rui Zhi cupped his fists and thanked: "Xia clan will remember ancestor's warm hospitality, we will definitely repay you in the future."

The other clans' Gu Immortals looked at Xia clan's Gu Immortals with different expressions now. Other than disdain and sympathy, they also felt envious and jealous.

Was this Xia clan's fortune after a disaster? They were able to stay closely with Qi Sea Ancestor, as time passes, their relationship would deepen, they would be able to gain the backing of a great expert!

If they knew the truth, who knew what expression they would show.

After finishing their discussion, Qi Sea Ancestor went to recuperate in closed cultivation, the other Eastern Sea Gu Immortals also went back to their bases to make preparations for the upcoming battle.

Mermaid Lian Ke Xin was feeling nervous at the moment. The Merman Imperial Court had already joined the two heavens alliance, but Wu Shuai did not expose their identity, they were currently spies sent to gather information.

Feeling the cold breeze in the sky, Lian Ke Xin calmed down slowly as sorrow emerged in her heart: "Now it seems that Eastern Sea will be peaceful for this period of time without any fighting. But this is the calm before the storm, sigh, during the battle in the future, I wonder what action my Merman Imperial Court should take?"

Lian Ke Xin was one of the three immortals in charge of the Merman Imperial Court, she had high status and authority, but now she felt helpless and fearful.

The five regional walls vanished, everyone knew that the five regions were going to become chaotic and turbulent.

But the chaos had just started, Lian Ke Xin already felt like she was in treacherous waters, her future was bleak and dark, she could not see the light or hope of survival. If she was careless, then the entire Merman Imperial Court would even get completely devoured!

After hearing the report, Shen Cong Sheng learned of Qi Sea Ancestor's decision.

"It seems that Eastern Sea is currently led by Qi Sea Ancestor after all." Shen Cong Sheng sighed: "If Ancestor Shen Shang returned, it would be different. Letting a secluded cultivator lead the entire righteous path…"

Shen Cong Sheng shook his head.

He had ambition, he wanted Shen clan to be the overlord of Eastern Sea, as the number one force.

Different from the other righteous path clans, Shen clan had Shen Shang, he was someone who could compete with Qi Sea Ancestor.

But Shen Shang's whereabouts were unknown.

Shen clan had searched for him with full effort but they made no discoveries.

Shen Cong Sheng felt a huge headache regarding this: "Oh ancestor, where in the world are you?"

At the same time.

Divine Emperor City, painting path world.

Hong Yi and Ye Fan walked side by side on the bustling street.

At the corner of an alley, a group of muscular men surrounded a person as they kicked and punched.

"Stop!" Hong Yi could not watch anymore, he quickly stopped them.

After seeing the situation, Ye Fan was also furious: “Are you guys really hitting him? So many of you are bullying one beggar?”

The group of muscular men turned around: “Stupid kids, don’t meddle in others’ affairs! This lunatic is courting death, he scared my young master’s precious horse to death, my clan’s young master also fell to the ground. We will not rest until we beat him to death.”

Hong Yi sighed: “You went overboard.”

Boom boom boom.

Hong Yi and Ye Fan made their move, the group of muscular men were sent scrambling and escaping.

The beggar was curled up on the ground, he was covered in bruises, his body shivered as he muttered nonsensical phrases.

“He really is insane.” Hong Yi sighed.

“Sigh, even if he is crazy, he is still human. He did not mean to scare the horse, right?” Ye Fan also felt some pity: “Come, let’s help him, we can’t leave him here like this.”

The two brought the beggar into a secluded alley as they got him a few buns, placing it beside him.

After that, they left.

What they did not know was, after they left, the beggar regained his sanity.

“Where am I?”

“Damn it, the black fire wreaked havoc, I went mad again!”

This beggar was the person that Shen clan had been desperately trying to find, Shen Shang.

Chapter 1992 - Foundational Pillar of Human Path

1992 Foundational Pillar of Human Path

People on the streets moved continuously, shops on both sides had bright signs and attractive banners.

“Wow! This is the world inside the painting. It is incredible! Everything seems so real!” Sun Yao’s body shook as her vision widened, after entering the painting, she could not help but shout in amazement.

The surrounding people looked towards this young lady with perplexed gazes.

But Sun Yao did not notice it, her eyes were wide open and shining as she looked around, filled with curiosity and excitement.

Sun Yao was a Spirit Affinity House Gu Master, she was chosen as a Gu Immortal seed by the sect and was given much assistance.

Spirit Affinity House’s original nominee was Feng Jin Huang, but because of Feng Jiu Ge’s betrayal, Qin Ding Ling hesitated.

Spirit Affinity House thus changed their nominee, Sun Yao took over Feng Jin Huang’s position.

However, the sect’s nurturing was different from what she expected. Spirit Affinity House only told Sun Yao about the background of this painting before sending her in.

Sun Yao moved around the different shops on the streets, having a lot of fun.

She had grown up in Spirit Affinity House, she only had senior brothers or sisters around her, they were all cultivators and according to the rules of the sect, they did not interact with the outside world very much.

Everything that happened here was very exciting and interesting to her.

She spent primeval stones to buy many sticks of candy, she ate them as she looked around.

She saw paper-cutting artists in the alleys, where pieces of red paper were quickly transformed with scissors into life-like butterflies and flowers.

She went into the theater to enjoy the opera, she saw the people with their painted faces, their exaggerated dresses, and their long, high-pitched singing.

She stopped at a corner of the street and saw two strong men putting up a performance of smashing rocks on their chest.

Suddenly, she was tapped on the shoulder.

Sun Yao turned around and saw a young man, with a squarish face and an honest appearance.

Before Sun Yao could open her mouth, this young man with an honest and righteous air smiled sheepishly and said: “Are you from the ten great ancient sects?”

Sun Yao suddenly stared with wide eyes and exclaimed in surprise: “Senior brother, you too?”

The young man then nodded his head and introduced himself with cupped fists: “I am Chen Da Jiang of Wind Cloud Manor.”

“So it’s Senior Brother Chen!” Sun Yao was shocked, she returned the greeting in succession. Chen Da Jiang was the current generation number one disciple of Wind Cloud Manor, Sun Yao had already learned of his name before this.

Sun Yao had the feeling of seeing a celebrity. When Chen Da Jiang had first gained fame, she was nothing more than a follower of Feng Jin Huang.

Like Sun Yao, Chen Da Jiang was a recommended candidate from Wind Cloud Manor and was sent to the world of the painting.

The two of them met in a strange place, and even though it was only the first time they met, there was a natural closeness between them.

“Senior Brother Chen, I wonder what other arrangements the sect has made by sending us here for training.” Sun Yao inquired.

Chen Da Jiang shook his head: “I don’t know anything about that either. I originally thought that by entering here, I would be able to get guidance on the next step of my cultivation. I didn’t expect that the sect would not have any arrangements.”

The two of them had a fruitless conversation and decided to travel in companionship.

“Give me some food, please, our mother hasn’t eaten for three days.”

“Please give some money, please help us.”

“My father is gone, I am selling myself to raise money for his funeral, I beg for your help!”

The two wandered aimlessly into a street, but all they saw were starving people, there were many yellow-skinned people leaning on the corner wall. Many people were begging, cupping their hands or holding up broken bowls.

Pedestrians on the street, on the other hand, were in a hurry and avoided them, rarely stopping to give alms to anyone.

“How is this happening? They are just two streets apart.” Sun Yao was greatly surprised when she saw this scene.

Chen Da Jiang analyzed: “This is the painting world of Divine Emperor City. Every major scene that happened in the history of Emperor City is merged into one painting. It looks like this is what happened in Emperor City during one of the famine disasters of history.”

Sun Yao couldn’t help but overflow with sympathy: “Senior Brother Chen, even though they are only people in the painting and not real existences, they are so pitiful, I still want to help them.”

Chen Da Jiang was impressed by Sun Yao’s words, he smiled readily: “This might sound funny, but I also have the same idea. Why don’t the two of us act together?”

“Awesome!” Sun Yao jumped at the chance and agreed to do so.

The two of them contributed money and effort, not only giving out primeval stones, but also purchasing porridge, buns, and other food to deliver to these beggars.

“Kind people!”

“Thank you, benefactors, we will never forget your act of kindness.”

“Benefactors, please allow me to follow you two in return for your kindness!”

The people in distress were grateful and appreciative.

Just then, a shrill voice cut in: “What are you guys doing?”

When Sun Yao and Chen Da Jiang turned their heads, they saw a Gu Master wearing a white robe with a jade belt at his waist, his posture was as straight as a sword, an air of arrogance could be felt between his brows as he walked towards them.

“So it’s Brother Xiao Qi Xing of Spirit Butterfly Valley!” Chen Da Jiang greeted with cupped fists.

Sun Yao gasped, Xiao Qi Xing was also a well-known figure, she said in a panic: “Spirit Affinity House’s Sun Yao greets Brother Xiao.”

Xiao Qi Xing sized up Sun Yao: “Are you the candidate of Spirit Affinity House this time? It seems that Feng Jin Huang has indeed been suppressed, this is not surprising at all, her father has openly betrayed Heavenly Court, this outcome is only natural.”

As soon as this was said, Sun Yao frowned: “Senior Sister Feng wouldn’t care about these things.”

“Hehe, she is indeed arrogant. Pity, what a pity, a fallen phoenix is worse than a chicken.” Xiao Qi Xing revealed a mocking smile: “You guys are actually helping these beggars again? They’re not real people, why are you doing this for?”

“No reason, we just feel like helping them.” Chen Da Jiang smiled.

“Hehe, sympathy…” Xiao Qi Xing shook his head in disdain: “That means you don’t know the importance of this journey, you’re wasting your time here!”

“Oh?” Chen Da Jiang’s eyes lit up: “What does Brother Xiao know?”

Xiao Qi Xing looked at Chen Da Jiang: “There is no harm in telling you, this painting world is so vivid because it is the effect of Genesis Lotus Immortal Venerable’s contented lifestyle killer move. We were all nominated by our sects to be trained by Heavenly Court and sent here for further nurturing. As I’m sure you’ve noticed, there are also Gu Masters cultivating here, but they cultivate mainly human path.”

“What the sect wants is for us to cultivate human path. We will strive to ascend to become immortal using human path as our main path. Although this world is not real, the cultivation of human path is not fake. All the human path Gu worms we get from here can also be taken outside and used.”

“So that’s how it is!” Sun Yao’s eyes widened but soon she expressed some doubt: “But why didn’t the sect tell me?”

Chen Da Jiang, on the other hand, simply asked: “Where did Brother Xiao learn about this inside information?”

Xiao Qi Xing smiled slightly, he puffed out his chest and said proudly: “Even Spirit Butterfly Valley has not informed me of this inside information, I had gone to ask my great grandfather to find out.”

Chen Da Jiang nodded understandingly, seeing that Sun Yao was still puzzled, he explained: “Brother Xiao has a noble status and a wealth of knowledge, his great grandfather is Lord Gu Immortal Xiao Bai Hong.”

“Oh, so that’s how it is.” Sun Yao’s gaze towards Xiao Qi Xing changed again.

“Alright, I have to head to the military base now and join the city guards. I’ve already investigated it, only city guards can get soldier Gu, sergeant Gu, lieutenant Gu, captain Gu, and others. These human path Gu worms are very useful, they can build a strong foundation in our human path cultivation. We should go together, we can take care of each other.” Xiao Qi Xing suggested again.

But Chen Da Jiang shook his head, “Brother Xiao, go first, I’m not done helping the beggars here.”

Xiao Qi Xing looked at Chen Da Jiang and nodded: “You’re still the same as before, so what about you?”

He looked at Sun Yao.

Sun Yao hesitated and shook her head as well: “No, Senior Brother Xiao, I… I plan to help Senior Brother Chen.”

“Haha.” Xiao Qi Xing laughed as he showed a smile with deep meaning: “Then I will not disturb the two of you in your good work.”

He left straight away, laughing coldly in his heart: “These two idiots have no idea what kind of opportunities they are missing out on!”

Xiao Qi Xing could not help but recall the words that his great grandfather had instructed him: “Oh Qi Xing, this trip into the painting world is an unimaginably great opportunity. If possible, you can even inherit Genesis Lotus’ true inheritance and become the Lord of Divine Emperor City. You must do your best to grasp this opportunity! Remember, you must hurry up. You are only the first batch of candidates, Heavenly Court will also arrange for some rank six Gu Immortals to enter next. These people are also elites that Heavenly Court is focusing on nurturing, but the qi tides have not settled yet and they are all still resting and recuperating.”

“After you enter the painting world, you will have to race against time and try to establish an early advantage so that you can deal with those Gu Immortal opponents in the future. Don’t be afraid, these Gu Immortals can only follow the rules in the painting world. Inside it, immortals and mortals are basically equals.”

Xiao Qi Xing’s heart beat rapidly every time he recalled these words.

This was an unparalleled opportunity, of course he wanted to grasp it!

Sun Yao and Chen Da Jiang did not know the inside story, so Xiao Qi Xing wanted to coax them to help himself out. It was a pity that these two actually wanted to do good deeds, they were really not qualified to work with him. Xiao Qi Xing saw through this and was unwilling to waste precious time and energy on them.

“We brought steamed buns and porridge, eat slowly and don’t choke.” Sun Yao placed a bowl of porridge and steamed buns in front of Shen Shang.

Shen Shang was still covered in injuries and resembled a beggar, sitting in the shade at the corner like a stone statue.

Sun Yao also did not pay attention to it, after all, there were many such silent beggars. She did this to help others, not for the sake of listening to some words of gratitude and praise.

Shen Shang’s eyes contained bright light as he looked at Sun Yao who was close to him, and also at the back of Xiao Qi Xing, who was about to disappear in the distance of the street.

“These people are all Heavenly Court’s Gu Immortal seeds. In order to face the tides of the great era, Heavenly Court has made long-term plans.”

“Xiao Bai Hong is too shortsighted and doesn’t even know that he has harmed his own great-grandson. Sun Yao and Chen Da Jiang were previously kept in the dark, but now, although they learned some of the inside story, they still upheld their nature and acted according to their desires. These two will definitely benefit greatly if they continue."

Shen Shang thought to himself. Although these three people were transmitting their conversations, they could not hide it from a character like Shen Shang.

Shen Shang sighed in his heart.

"Genesis Lotus Immortal Venerable's arrangement is truly vast and grand, I really admire him."

"In history, the greatest human path true inheritance is u003cu003cThe Legends of Ren Zuu003eu003e. Even though this book seems shallow, it is profound to the limit, only a small group of people can actually comprehend its true essence and create human path killer moves."

"However, to establish a path, these killer moves are too few and rare, they are like the moon beyond the clouds, normal people cannot reach them. Even though human path has such great potential, it has no foundations set upon it, it is unable to develop until now."

"But Genesis Lotus Immortal Venerable created this painting world, he used the scenes of the mortal world for the past million years to derive the foundations of human path. He is making an immense contribution towards the development of human path! He is truly the foundational pillar of human path."

"The human path developments here are also very helpful to me. I wonder what happened when I was in a state of madness, how did I end up in here?"

"It is a pity I cannot contact Fang Yuan's Fang Di Chang clone. What is happening over on his end?"

Shen Shang was the one who had previously collaborated with Fang Di Chang and successfully unraveled the venerables' human path methods, adding a significant weight to tilt the balance of the battle in the fate war.

Shen Shang knew that Fang Di Chang had refined Divine Bean Palace before, he had a large level of authority over it. If they could collaborate once again, it would benefit both of them!

Chapter 1993 - Fang Yuan Within The Mis

1993 Fang Yuan Within The Mis

Sovereign immortal aperture, Mini Southern Border.

In a valley, Shi Shi Cheng leaned over to check out the stone mushrooms within the valley.

If these stone mushrooms were in good condition, they would be five feet tall, shaped like a small tree with a cover like an umbrella. However, these stone mushrooms were short, just like stumps left behind after a tree was cut down. And instead of a healthy gray stone color, their bodies were covered in a distorted multicolored color, and one could tell at a glance that they were not normal.

“These stone mushrooms are ruined!” After Shi Shi Cheng finished his inspection and confirmed this, his expression was quite ugly.

Although his cultivation was only rank six, he was valued by Fang Yuan and arranged to lead the rockman tribe in Mini Southern Border. Shi Shi Cheng held Fang Yuan in high esteem and was dedicated to developing the rockman tribe, in order to live up to Fang Yuan’s expectations.

This stone mushroom field was a medium-sized resource point that he had personally constructed for the sake of the rockman tribe. In order to build this resource point, Shi Shi Cheng had specifically requested many immortal materials from Fang Yuan’s time path clone as the initial investment. At that time, he even vowed and guaranteed that there would be desirable returns!

As a result, reality was like a slap in the face of Shi Shi Cheng.

“What is happening?”

“I clearly followed the records of the tribe to carefully cultivate the stone mushrooms without any mistakes.”

Shi Shi Cheng was very confused. A few days ago, these stone mushrooms were all growing normally and everything was fine. But after a few days had passed, these stone mushrooms had become like this.

“How can I explain this to Lord Fang Yuan?!” Shi Shi Cheng furrowed his brows and sighed.

At this moment, light flashed and Fang Yuan’s will was transmitted over in mid-air.

The will was solid and lifelike.

Shi Shi Cheng gasped and immediately bowed: “Subordinate pays respect to lord.”

“Mm.” Fang Yuan’s will waved his hand: “I already know about your situation here, the stone mushroom field was destroyed, no one can blame you, it was a natural disaster. You should go back for now, another batch of immortal materials will arrive in a while, and you can just build a second stone mushroom valley.”

Shi Shi Cheng was overjoyed and thanked him, but also wanted to say something.

Fang Yuan’s will revealed an understanding smile: “Are you thinking of asking what caused these stone mushrooms to be destroyed?”

Shi Shi Cheng nodded: “Lord is perceptive, I would like to ask if these stone mushrooms can still be recycled in some way? It would be a pity to just throw them away.”

The initial investment in building the stone mushroom valley was huge, it was certainly nothing in Fang Yuan’s eyes, but in Shi Shi Cheng’s opinion, it was an astronomical investment. Together with the effort and time he had invested in this place, he did not want to see all his efforts go up in smoke.

But Fang Yuan shook his head: “You don’t need to think about the details, if I can solve it, you will have no worries. If I can’t solve it, it’s useless for you to know. As for these stone mushrooms, none of them can be used, even if they are used as materials to refine Gu, they will only cause more harm instead. You can leave now.”

“Yes, my lord!” Shi Shi Cheng took his leave respectfully, he was worried in his heart: “Why do we have such a big problem? According to his tone, it may not be possible to resolve the matter?”

Shi Shi Cheng left, only Fang Yuan’s will remained in this valley.

Fang Yuan’s expression was grim.

He scanned the entire valley first, the countless stone mushrooms in the valley had become twisted objects, the originally smooth surface forming countless creases. The colors were bright, like a gathering of poisonous creatures, giving people a sense of terror.

This was of course just the appearance.

In Fang Yuan’s eyes, he could see that the original earth path dao marks in these stone mushrooms had been disrupted and washed away, many different dao marks from other paths, including wind path, lightning path, poison path, dark path, fire path, and so on, were added instead.

Because of this, these stone mushrooms could only be discarded as waste material. At least currently, Fang Yuan had no means to utilize them.

“Heaven’s will!” Fang Yuan’s will suddenly sneered and discovered heaven’s will lurking in the valley.

With a loud sound, he transformed into a field of clouds and mist that covered the entire valley, pursuing and intercepting heaven’s will.

A confrontation between wills soon came to an end. Fang Yuan was victorious, he had managed to completely clear the heaven’s will lurking in this place, but of course, the price paid was not small.

After his will had gathered again, it was no longer as lifelike as before, but illusory as a shadow, giving the impression like it was going to fade away at any moment.

Fang Yuan sighed.

This victory only resolved the problem but not its fundamental cause, a new problem would occur again!

The stone mushroom valley was not just an isolated case, recently, there had been heaven's will lurking all over the sovereign immortal aperture, many resource points had been destroyed.

Fang Yuan's main body had obtained more than three thousand heaven path dao marks as he was the person refining Gu, managing to destroy fate Gu for good.

These dao marks did not belong to him and were imposed on him. The heaven path dao marks transformed on their own, causing the various environments of the sovereign immortal aperture to change, becoming more and more balanced and stable.

In the long run, this change would naturally do more good than harm, greatly increasing the development potential of the sovereign immortal aperture. However, if one looked at the immediate future, it would cause Fang Yuan to suffer heavy losses.

Fang Yuan was not a super force, all his possessions were in the sovereign immortal aperture. A great loss in this foundation of his would definitely affect his battle performance. Fang Yuan did not want to fall into the trap of Red Lotus Demon Venerable, he had been working hard to command the humans and variant humans in the grotto-heaven, constantly fighting against natural disasters. At the same time, he had successively retrieved the thousand wish tree and the incomplete Human Sea, using human path to restrict the heaven path effects.

With such a two-pronged approach, the situation of sovereign immortal aperture was greatly improved. However, Fang Yuan did not expect that the natural development of the heaven path dao marks would produce heaven's will after some point.

The Heavenly Dao was impartial, it had no malicious intent against Fang Yuan, changing the environment was just a natural step of development. But this was not the case for heaven's will.

Heaven's will was produced from the Heavenly Dao, it was more flexible and resourceful. The Heavenly Dao was unable to eliminate Fang Yuan, the otherworldly demon that affected the balance of the world, so heaven's will went one step further and began deliberately destroying the various resource points in the sovereign immortal aperture.

Heaven path dao marks could transform into other paths, so heaven's will used this ability to completely disrupt the dao marks of the various resource points, turning them from orderly to a complete mess.

Stone mushroom valley was just one of them.

"I have the killer move heaven's will dissipation, but the sovereign immortal aperture is too huge, the Heavenly Dao is constantly deriving new changes, it can produce heaven's will anywhere in the entire grotto-heaven. It is too difficult for me to clear out all this heaven's will! Even if I do my best, the efficiency is low."

Fang Yuan was clear that the way to settle the fundamental cause was to directly refine these heaven path dao marks, so that they truly belonged to the sovereign immortal aperture and himself.

But what the method to go about it was, he had no idea.

He had never heard of anyone cultivating heaven path before! The only known way was to use human path methods to suppress heaven path.

Fang Yuan thought for a long time and found two possible ways out.

The first one was Emperor City.

"Emperor City was carefully arranged by Genesis Lotus Immortal

Venerable, it has now become the sacred land of human path. If I can obtain it, I will definitely be able to greatly restrain the Heavenly Dao."

The second way was in Crazed Demon Cave.

"Crazed Demon Cave was set up by Limitless Demon Venerable in his later years, the eighth layer contains the derivations of the Heavenly Dao. In Crazed Demon Cave, the demonic sounds are rampant, driving lifeforms mad, all kinds of immortal materials turn into trash as dao marks are messed up. The situation is exactly the same as the stone mushrooms and other resources. If I can grasp all the secrets of Crazed Demon Cave, I should be able to improve my situation."

But these were two dangerous options.

Emperor City was located in the center of Central Continent, if Fang Yuan were to go there, he would definitely have to fight Heavenly Court. With his current strength, he would be able to defeat Heavenly Court. However! Fang Yuan's fear was Genesis Lotus Immortal Venerable and Red Lotus Demon Venerable.

Genesis Lotus Immortal Venerable had schemed against him, causing him to lose his clone Fang Di Chang. When using luck inspection earlier, he did not find Fang Di Chang's luck, it was likely that he had perished, the likelihood of his death was great.

Red Lotus Demon Venerable also schemed against him, if not for the heaven path dao marks, how could heaven's will be produced in Fang Yuan's immortal aperture? Of course, Red Lotus was also plotting against Spectral Soul. The heaven path dao marks were both dangerous and also a fortuitous encounter for Fang Yuan, it was also his protection. At the least, Spectral Soul could not use his hidden methods because of these dao marks.

If Fang Yuan wanted to take Emperor City, he would have to face the methods of Genesis Lotus Immortal Venerable and Red Lotus Demon Venerable.

As for Crazed Demon Cave?

It was also filled with danger.

The Three Crazed Demon Eccentrics had promised to join the fate war to Fang Yuan, but during the battle, none of them had shown up. Fang Yuan had tried to contact them, but they had completely vanished.

What happened in Crazed Demon Cave that caused the Three Crazed Demon Eccentrics to mysteriously disappear?

Fang Yuan guessed that Longevity Heaven might have taken action. Fang Yuan realized that the consumption of wisdom Gu was part of Giant Sun Immortal Venerable's scheme. Giant Sun's single attack also made Fang Yuan realize that he was keeping some trump cards after all.

Now that fate Gu was destroyed, it was possible for venerables to revive. If Fang Yuan went to Crazed Demon Cave, it was likely that he would need to face the methods of Giant Sun Immortal Venerable and Limitless Demon Venerable.

There was one more thing that worried Fang Yuan, there were changes happening in the River of Time.

Ever since the destruction of fate Gu, the water of the River of Time had become extremely violent, vicious and dangerous. Even if Fang Yuan used Myriad Year Flying Warship, he could only barely enter the river and last for a moment before having to return to the five regions, he was unable to explore it for long.

Fang Yuan understood the reason.

In the past, the River of Time could move forward smoothly because everything was fixed, everything moved according to the path set by fate, no matter what existed, they had a specific trajectory of life experiences. This was why time path Gu Immortals could often "predict" things by watching the downstream segments. Red Lotus Demon Venerable was able to plot the destruction of fate Gu by observing the downstream events and learning many secrets of the future.

But now, once fate Gu was destroyed, everything no longer had a fixed path and could change at will. As a result, the River of Time has become extremely violent, everything has become turbid and chaotic.

With such a change in the River of Time, Spring Autumn Cicada could no longer be used for the time being.

Before, Spring Autumn Cicada could move through the river because the water was gentle. Now that the river had become violent and chaotic, once Spring Autumn Cicada was activated and entered the river, it would definitely be smashed to pieces by the river water. Unless Fang Yuan developed some other killer move that could use Spring Autumn Cicada.

“Although the river water is troublesome, it’s actually not a big problem. What I’m really worried about is still Red Lotus Demon Venerable. He’s the one who had built the stone lotus islands in the River of Time. I don’t know what other arrangements he has in the River of Time.”

Fate Gu was destroyed at long last, Fang Yuan had finally gotten free of the Sword of Damocles hanging above his head.

However, the journey ahead of him was filled with mist, he was walking in a dangerous valley. Within the mist, which area could be explored, which area would lead to a cliff?

Would his path to eternal life, his lifelong ambition, be hidden within the mist?

If it existed, where would it be?

Chapter 1994 - Ice Crystal Immortal Monarch Fights Fang Zheng In immemorial bla

1994 Ice Crystal Immortal Monarch Fights Fang Zheng

In immemorial black heaven, a group of Gu Immortals were traveling stealthily as they flew continuously.

These Gu Immortals had outstanding cultivation level, they were all rank eight variant human Gu Immortals. The leader was a Gu Immortal with pale skin and blue hair, he had a grim expression, it was Ice Crystal Immortal Monarch.

Ice Crystal Immortal Monarch had received orders from Wu Shuai to reinforce the headquarters of the grotto-heavens, to resist the invasion of Heavenly Court.

Along the way, Ice Crystal Immortal Monarch's heart was filled with worry: "This is not the same as my expectations… I made Wu Shuai the alliance leader so that he would be the vanguard. But in the end, to deal with Heavenly Court, I was the one sent out instead."

Ice Crystal Immortal Monarch had the intention to reject this order, but the situation back then did not allow him to use any excuses.

"Wu Shuai suffered injuries against Qi Sea Ancestor, in a way, he was indeed used by us to resist Qi Sea Ancestor."

“As the vice alliance leader, I need to put in some effort too. It makes logical sense for me to reinforce them in black heaven.”

Ice Crystal Immortal Monarch did not want to face Heavenly Court directly.

Regardless of win or loss, he would become an eyesore from Heavenly Court’s perspective.

Currently, he wanted Wu Shuai to attract the attention of the enemies. But the world was not as simple as he thought, society was vicious to everyone, right now, he was pushed forward as the vanguard.

“I am truly unable to go against the tides!” Ice Crystal Immortal Monarch sighed deeply to himself.

He definitely had to go save them, but the way to go about it was something that he could determine himself.

“Vice alliance leader, we found a large number of Gu Immortals ahead.” The investigative Gu Immortal suddenly spoke: “They are our allies.”

Ice Crystal Immortal Monarch nodded in response, unsurprised: “Go meet with them.”

Even though Ice Crystal Immortal Monarch regretted his vice alliance leader position, it was already too late now, he could only take full advantage of the authority he had.

Before setting off, he had already used his status as vice alliance leader to order the remaining grotto-heaven forces to help each other out, in order to chase away Heavenly Court, they had to contribute their strength.

The two groups of Gu Immortals gathered, Ice Crystal Immortal Monarch looked at the reinforcements, he felt rage building internally.

Chaotic Rock grotto-heaven sent an immemorial rock monster, Rotten Egg grotto-heaven sent six eggman Gu Immortals, they could form the ancient battle formation, Rotting Smell Vicious Cloud formation, while Strange Hair grotto-heaven brought an incomplete Immortal Gu House, Black Emperor Building. These three grotto-heaven forces that were close to Ice Crystal Immortal Monarch brought their trump cards along with them, but other than them, the other forces were simply not putting in effort. Especially those human forces, they only dispatched several rank seven Gu Immortals without much sincerity.

“The enemy is right ahead but these grotto-heaven forces are still trying to preserve their strength! Sigh, grotto-heavens are too far apart, we do not have much interaction normally, even if we cooperate, it is only due to external pressure.”

Ice Crystal Immortal Monarch’s anger soon turned into helplessness and dejectedness.

“In that case, I should conceal my own strength too, let’s just put up a superficial show. After all, the people I brought amount to quite a force already.”

Heavenly Court was powerful, if possible, Ice Crystal Immortal Monarch did not want to face them head-on. He knew his own limits, if he really charged forward fearlessly, he might not return alive.

While Ice Crystal Immortal Monarch was thinking about this, his expression changed as his eyes widened, almost spewing fires of rage!

The other Gu Immortals saw Ice Crystal Immortal Monarch’s expression and turned around.

Someone asked: “Vice alliance leader, what happened? Have Xia clan’s headquarters fallen?”

Ice Crystal Immortal Monarch gritted his teeth: “Xia clan’s headquarters have Lord Alliance Leader, how can they fall! My grotto-heaven has been invaded by Demon Judgment Board, my tribe’s Gu Immortals are currently fighting them to the death, we need to reinforce them now!”

“This…” Great Wisdom Immortal Mother was still thinking of saving her grotto-heaven, she was hesitant.

Ice Crystal Immortal Monarch stared at her: “Your grotto-heavens have already fallen into the enemy’s hands, the outcome has been decided. But my Ice Crystal grotto-heaven is still resisting them, there is hope. We need to return to reinforce them immediately, if anyone does not help, I will report it to Lord Alliance Leader Wu Shuai!”

Ice Crystal Immortal Monarch made use of Wu Shuai’s name, and because the variant human Gu Immortals close to Ice Crystal Immortal Monarch expressed their support, Great Wisdom Immortal Mother and the rest had to follow this order.

The immortals did not conceal their traces anymore, they flew towards Ice Crystal grotto-heaven with their fastest speed.

The grotto-heaven entrance opened as Ice Crystal Immortal Monarch flew in anxiously, while the rest followed.

Ice Crystal grotto-heaven was already in chaotic battle, Demon Judgment Board flew around like a meteor, slaughtering everything in its path, totally unstoppable.

The rank six and seven snowman Gu Immortals in Ice Crystal grotto-heaven were nowhere to be seen, they were controlling the formation to unleash a blizzard on Demon Judgment Board, but the effect was very minimal.

Suddenly, Demon Judgment Board shot out a sharp blood red light that landed on the control area of the formation.

The snowman Gu Immortals quickly put up their defenses, the blood red light seemed to be reflected by a mirror as it changed directions and shot elsewhere.

Boom!

There was a loud sound as heaven and earth shook, the blood red light exploded as the sky turned red. For the radius of several thousand li, the snowy and icy plain got completely obliterated.

“Ah, my blizzard icy plain!” Ice Crystal Immortal Monarch saw this and became overwhelmed with anger.

This icy plain was the largest gathering spot of the snowman race in Ice Crystal grotto-heaven, now that it was destroyed, nearly ten million ordinary snowmen died a terrible death.

The blizzard icy plain carried special significance to Ice Crystal Immortal Monarch personally.

His coming-of-age ceremony was held in this blizzard icy plain.

Back then, his father had brought the young Ice Crystal Immortal Monarch to the periphery of the icy plain.

“You are an adult now, my son. The icy plain you see here is the location of your trial. You need to survive seven days here to pass the trial, you will be qualified to become a Gu Master and awaken your aperture.”

The young Ice Crystal Immortal Monarch looked at this vast plain and felt lost, fear appeared in his eyes.

His father observed his expression and said: “Fear is normal because you might likely die here. The trial is fair, you need to experience the danger of death in order to be qualified to become a Gu Master. Even as a Gu Immortal, I cannot protect you from this, I can only give you a suggestion.”

“What is that?” The young Ice Crystal Immortal Monarch asked.

“It is too difficult to live alone in the icy plain for seven days, there is barely any hope.” His father shook his head: “But there are many snowman tribes in this icy plain, if you can follow the traces to find them, they will protect you.”

“But I don’t know these people.” The young Ice Crystal was worried.

His father explained meticulously: “Don’t worry, the snowman tribes will protect every person who is stranded, because these people will end up protecting the entire race in the end. They will definitely help you, my son, if you succeed the trial, regardless of your achievements, you will need to protect our entire race. This is how a snowman lives!”

As expected, the young Ice Crystal survived for three days and nights in the icy plain, chasing after the traces of snowmen tribes.

At the moment of life and death, he crawled his way to a hunter's tribe near the periphery and was discovered, managing to survive.

The tribe took him in and healed him for free, welcoming him to become a member of their tribe.

Even though the young Ice Crystal left in the end, his experiences in that tribe were deeply etched into his heart, it affected him for the rest of his life until now.

After he became rank eight and inherited the title of Ice Crystal Immortal Monarch, becoming the owner of the grotto-heaven, he developed the blizzard icy plain and made the sparse icy plain grow abundant with resources, the lives of the snowmen living in it improved greatly, their numbers increased gradually.

But now, it was all ruined!

All ruined.

By a killer move of a strong foe that affected the entire blizzard icy plain.

Not only were Ice Crystal Immortal Monarch's efforts ruined entirely, his memories also became just memories now, he could no longer find them in real life.

Anger and hatred rose in his heart, burning intensely.

For a moment, Ice Crystal Immortal Monarch became silent, he took in a deep breath.

The air in Ice Crystal grotto-heaven was always so cold, it was still extremely cold now.

Ice Crystal Immortal Monarch suddenly remembered his father's teachings: "The tribe will definitely help you, my son, if you succeed in the trial, regardless of your achievements, you will need to protect our entire race. This is how a snowman lives!" "

Indeed.

It is time for me to protect my race.

Rumble!

At the next moment, Ice Crystal Immortal Monarch’s aura erupted, creating an intense blizzard as he charged towards Demon Judgment Board.

All of the Gu Immortals behind him were shocked.

Ice Crystal Immortal Monarch was actually so courageous!

“Reinforcements from the two heavens are here.” Inside Demon Judgment Board, Gu Yue Fang Zheng took in a deep breath as his expression turned grim.

Many people had arrived, among which were various rank eight Gu Immortals.

Gu Yue Fang Zheng was only rank seven but he was not flustered, all of his battles before this had tempered his own confidence and determination.

But the bigger reason was also the fact that he had absolute confidence in the rank eight Immortal Gu House, Demon Judgment Board!

“You created a grand commotion, but can you fight Demon Judgment Board?” Gu Yue Fang Zheng smiled coldly, instead of using any killer move, he directly used Demon Judgment Board to charge ahead.

Ice Crystal Immortal Monarch gritted his teeth, he was forced to retreat.

He was an ice and snow path Gu Immortal, he did not cultivate transformation path or strength path, how could he resist an Immortal Gu House with his body?

“Let’s join the battle too!”

“Quick, work together and help vice alliance leader.”

The two heavens alliance shouted and attacked at once.

Seeing this, Gu Yue Fang Zheng moved Demon Judgment Board away to retreat from them, pulling some distance agilely.

Blood red light flickered in Demon Judgment Board, killer moves were unleashed. The immemorial rock monster became slower, the eggman Gu Immortals were covered in blood, they had to save themselves instead of assembling the ancient battle formation. The incomplete Black Emperor Building from Strange Hair grotto-heaven was also waiting at the back, not daring to contest Demon Judgment Board directly.

The other Gu Immortals were even less useful, even though there were many rank eight Gu Immortals, they were all scared about losing their lives, only using long ranged killer moves instead. Once the enemy got close, they would prioritize escaping first.

It was a disunited bunch!

This phrase appeared in Ice Crystal Immortal Monarch’s mind, he felt angry and anxious.

Ice Crystal grotto-heaven had nothing to do with them, they would not risk their lives for it. The only person that Ice Crystal Immortal Monarch could rely on now was himself.

“I can only use that move now!” Ice Crystal Immortal Monarch made up his mind.

“Master, Ice Crystal Immortal Monarch’s group is about to lose, should we help them?” Soul path Gu Immortal An Xun asked Spectral Soul secretly.

On this occasion, Soul Pacifying grotto-heaven sent him here, Spectral Soul came along and lurked in secret.

“Hehehe, they fought like this despite having so many rank eight Gu Immortals. The two heavens alliance is a joke.” Spectral Soul laughed: “No need to be anxious, that Ice Crystal Immortal Monarch has other tricks up his sleeve, let’s wait for now.”

Chapter 1995 - Extreme Ice Crystal Light Immortal Suppression Coffin

1995 Extreme Ice Crystal Light Immortal Suppression Coffin

Ice Crystal Immortal Monarch floated in the sky, his aura surged continuously as his clothes fluttered with the wind.

Around him, countless traces of frost energy gathered, whipping up a storm.

Such power surpassed ordinary rank eight killer moves, once Ice Crystal Immortal Monarch succeeded in activating it, the power would definitely shake heaven and earth. Fang Zheng sensed this, he wanted to use Demon Judgment Board to obstruct it.

“Let’s lend Ice Crystal a hand!”

“Stop Demon Judgment Board!”

The Gu Immortals of the two heavens were not that useless after all, they quickly went ahead to block Demon Judgment Board.

At once, all sorts of killer moves were unleashed, it was like a display of fireworks.

Demon Judgment Board was obstructed by the bombarding killer moves, but at the crucial moment, a flash of blood red light shot out, about to land on Ice Crystal Immortal Monarch.

Ice Crystal Immortal Monarch was still activating his killer move, he did not move.

At the crucial moment, An Xun opened his immortal aperture's entrance and let out an immemorial soul beast.

The immemorial soul beast moved quickly, standing in front of Ice Crystal Immortal Monarch and blocking the blood red light entirely.

With a loud sound, an explosion occurred.

The immemorial soul beast growled in pain, half of its body was destroyed, it fell towards the ground.

Ice Crystal Immortal Monarch immediately looked towards An Xun with gratitude. The aura on his body was calming down, he had evidently passed the most dangerous moment, his killer move preparation was already done.

"Immemorial soul beasts have no blood, Demon Judgment Board's blood path killer move had little effect." An Xun was very excited as he said: "Master, if not for your reminder, I would not have been able to block this blood red light, Ice Crystal Immortal Monarch would have been in trouble."

"No." Spectral Soul analyzed: "The killer move that Ice Crystal Immortal Monarch is using contains deep profundity, during the activation process, he gains an increased level of defense, even if he was hit, he would only be injured, the killer move activation would not fail."

"Heavenly Court! I'll let you have a taste of my race's unique killer move — Extreme Ice Crystal Light Immortal Suppression Coffin!" Ice Crystal Immortal Monarch shouted as all of the aura surging around him became completely concealed.

At the next moment, his entire body exploded and spread out into countless frost lights.

The frost lights shot out with extreme coldness! Everywhere they went, air would freeze into ice crystals before falling to the ground.

Fang Zheng felt something amiss, he wanted to activate Demon Judgment Board but how could his speed match the frost lights?

Almost at the same moment, Demon Judgment Board got hit by countless extreme ice crystal lights.

Crack crack.

Every crystal light that hit Demon Judgment Board turned into a small piece of ice attached to Demon Judgment Board.

Countless crystal lights shot towards it from all directions, Demon Judgment Board had nowhere to dodge, instantly, layers of ice started to form all over it.

Fang Zheng's heart sank, he activated Demon Judgment Board and used a killer move to melt the ice layers.

But his speed could not match the rate at which the freezing was occurring, very soon, ice that was five feet thick formed all over Demon Judgment Board.

“Oh no, the thicker this ice layer is, the greater the effect of the frost lights that land!” Discovering this, Fang Zheng turned pale with shock.

This move was unavoidable from the start, it was quite powerful, but its true strength came much later. The longer it dragged on, the stronger this move would be!

Fang Zheng quickly tried to move Demon Judgment Board, expending the remaining rank eight immortal essence to activate Demon Judgment Board's strongest killer move.

Blood red light spread out, a layer of ice quickly melted.

Next, the frost lights seemed to react, they quickly went towards the area that Fang Zheng was trying to break out from and made Demon Judgment Board's ability much weaker.

The Gu Immortals were all stunned.

“Ice Crystal Immortal Monarch is actually so powerful!”

“He actually sealed Heavenly Court’s rank eight Immortal Gu House Demon Judgment Board with his own strength!”

“This is incredible, what is the name of the move?”

“Extreme ice crystal light immortal suppression coffin!”

At once, all of the immortals muttered the name of this killer move, engraving it to their heart.

“This is the unique killer move of the snowmen from ancient times, hehe, to think that they have actually obtained a racial inheritance already.” Spectral Soul who was inside An Xun laughed lightly.

An Xun understood after hearing this: “So this is a move from the snowman racial inheritance, no wonder it is so strong! Wait, no, can ancient killer moves still be used in the current era? The world now is very different from the past, wouldn’t such antique moves be outdated already?”

“Hehehe.” Spectral Soul chuckled: “Back then when variant humans ruled the world, they had countless killer moves, those moves that were specially chosen to be kept in their racial inheritances are naturally more outstanding in many ways. Taking this extreme ice crystal light immortal suppression coffin for example, its core is not an Immortal Gu but the variant human using it.”

Spectral Soul’s depth of knowledge was not ordinary, he had once searched countless souls in the Door of Life and Death. Many of these souls came from the Olden Antiquity or Remote Antiquity Era, some were even from the Immemorial Antiquity Era.

Thus, Spectral Soul had a lot of information about these eras.

Even though his attainment levels had all fallen to rock bottom, his memories were still intact.

Like what Spectral Soul said, extreme ice crystal light immortal suppression coffin was somewhat similar to Wu Yong's unlimited wind killer move. When using unlimited wind, Wu Yong would expend his own wind path dao marks. As for extreme ice crystal light immortal suppression coffin, not only would it consume Ice Crystal Immortal Monarch's ice and snow path dao marks, it would also cost him his lifespan.

As the core killer move of the snowman Gu Immortals, extreme ice crystal light immortal suppression coffin was not very affected by the progression of eras. At the same time, any other races' Gu Immortals could not use this move even if they had it.

Fang Zheng's forehead was already covered in sweat.

Ice Crystal Immortal Monarch displayed battle strength that far surpassed Fang Zheng's expectations. The great Demon Judgment Board was actually sealed in ice, there was little hope of escaping.

Even if Fang Zheng wanted to fight Ice Crystal Immortal Monarch, he had no way to do so.

Because Ice Crystal Immortal Monarch had already turned into countless frost lights, this was the superiority of extreme ice crystal light immortal suppression coffin killer move.

Seeing as Demon Judgment Board was about to be completely sealed in ice, at this time, a phoenix cry could be heard.

Following a loud sound of crashing waves, Prince Feng Xian and Bai Cang Shui arrived.

It turned out that while fighting Ice Crystal Immortal Monarch, Fang Zheng had already informed Heavenly Court's Prince Feng Xian and Bai Cang Shui.

Bai Cang Shui was originally cleaning up the battlefield, she could leave immediately. As for Prince Feng Xian, he gave up some gains there and rapidly came to reinforce Fang Zheng.

The two rank eight Gu Immortals saw Demon Judgment Board which was trapped, they shouted as one unleashed torrents of golden flames, while the other sent out huge waves.

The ice was attacked from the inside and outside, it could not last any longer as the external layer of ice quickly cracked, Demon Judgment Board which was inside got ready to retaliate.

The two heavens' Gu Immortals saw this and wanted to attack but Prince Feng Xian and Bai Cang Shui suppressed them instead.

Even though they had many more rank eights than Heavenly Court, it did not matter.

In Gu Immortal battles, numbers were not the most crucial. Even though the two heavens had many people, they could not cooperate, their killer moves often interfered with each other. About half of their strength was limited because of this, even before they hit any enemies.

But if they were to fight alone, they would be fearful and cowardly, they would focus on preserving their own lives, unwilling to take any risk or get into danger.

Of course, the other reason was that Prince Feng Xian and Bai Cang Shui were elite rank eights with excellent battle strength. They were able to become Heavenly Court members, they naturally surpassed other rank eights.

The situation was in a deadlock, Spectral Soul acutely sensed that the ice layer was weakening, he instructed An Xun: “Quickly let out the soul beast army, lend your Immortal Gu to me now.”

“Yes master!” An Xun did not hesitate, he quickly followed the instructions.

The soul beast army came out and attacked.

Prince Feng Xian and Bai Cang Shui did not care about them at first, they used two killer moves in succession, but the soul beast army split up and moved fluidly like water, dodging most of the killer moves' effects.

Next, from the soul beast army, three immemorial soul beasts flew out to attack Prince Feng Xian and Bai Cang Shui.

As the two sides fought, the immemorial soul beasts were naturally unable to resist the two Heavenly Court immortals, but the immemorial soul beasts had the army to support them, at crucial moments, killer moves would help them out as well.

Even though Bai Cang Shui and Prince Feng Xian had the upper hand, the soul beast army successfully restrained them. They could not help Demon Judgment Board like before, Ice Crystal Immortal Monarch's frost lights began to regain their footing.

"This soul path rank seven immortal is quite talented!"

"I will go kill him!"

Prince Feng Xian and Bai Cang Shui communicated, the former moved as he spit fire, creating a path within the soul beast army as he charged towards An Xun.

An Xun 'turned pale with fright', shouting: "He is coming, protect me!"

The two heavens' Gu Immortals knew that enslavement Gu Immortals were most vulnerable to direct attack, they quickly responded.

Prince Feng Xian charged without stopping, he broke through all of the obstacles, but because of these obstruction, An Xun managed to pull some distance between them.

"You cannot escape." Prince Feng Xian smiled coldly as he charged again.

Spectral Soul would not personally take action in this public environment, he controlled An Xun's body to retreat while using the other Gu Immortals to obstruct Prince Feng Xian.

Prince Feng Xian's advancement was ferocious, the two heavens' immortals were all shocked by his aggressiveness.

But Bai Cang Shui shouted: "Feng Xian, quickly kill him."

Prince Feng Xian gritted his teeth, he did not expect An Xun to be so hard to catch.

At this time, the frost light successfully trapped Demon Judgment Board again, the thick ice coffin sealed the rank eight Immortal Gu House at its center.

“Oh no!” Seeing this, Bai Cang Shui and Prince Feng Xian’s hearts sank.

Seeing that Heavenly Court’s side was in danger, at this time, heaven and earth shook, qi currents surged as the world roared.

“Qi tide again!” Spectral Soul snorted coldly.

Ice Crystal grotto-heaven had already been broken through when Prince Feng Xian and Bai Cang Shui attacked, it was connected to the outside world.

At this moment, qi tides surged in the outside world, instilling into the grotto-heaven harshly.

The qi tides implicated the battlefield, wherever it reached, people fell to the ground.

Ice Crystal grotto-heaven’s defensive immortal formation could not last any longer, it shattered, many snowman Gu Immortals fell into mortal danger.

The frost light around Demon Judgment Board flickered as it hesitated for a moment. But immediately, the ice crystal lights shot towards the snowman Gu Immortals as they turned into countless ice tubes that protected them.

But this way, Demon Judgment Board’s pressure lifted greatly. Prince Feng Xian and Bai Cang Shui saw this and quickly made their move, breaking the remaining ice layers and saving Demon Judgment Board.

The two immortals went into the Immortal Gu House, Demon Judgment Board left the battlefield rapidly while resisting the turbulent qi tides.

possible.

Chapter 1996 - Big or Small, Qi Harvest Frui

Chapter 1996 Big or Small, Qi Harvest Frui

The grand qi tide soon filled up the whole of Ice Crystal grotto-heaven.

Spectral Soul sighed deeply, this was really a pity. he wanted the two sides to fight to their deaths before he reaped the rewards, devouring Gu Immortal souls was much more helpful than absorbing soul cores after all.

But his scheme was ruined by this qi tide.

“I do not have Dang Hun Mountain, I lack guts Gu, I can only devour soul beasts and soul cores. But this takes time to digest, it is not like guts Gu which can directly raise my soul foundation.”

“Why the coincidence? Not long ago, when Qi Sea Ancestor and Wu Shuai fought, a qi tide appeared. This time, another qi tide showed up.”

Thinking about this, Spectral Soul had a realization: “Don’t tell me that fighting between Gu Immortals will attract qi tides?”

Spectral Soul was only making a guess, he was not certain.

“It is a pity that my qi path attainment level is just ordinary. Otherwise, I will be able to come to a conclusion.”

He had soul search and soul devouring methods, but these methods could not directly raise attainment levels. The only way to instantly raise one's attainment level was through absorbing true meaning. The attainment levels that Spectral Soul had at his peak were all gained through actual cultivation from the memories he had soul searched, it was not easy to reach that level.

"Forget it."

"An Xun performed well this time, with such achievements, he might likely receive Wu Shuai's audience."

"By staying in his body, I can get closer to Wu Shuai. There might even be a chance to enslave Wu Shuai and take Dragon Palace!"

Spectral Soul's current plan failed, he quickly came up with a new plan.

He had a deep desire towards Dragon Palace which contained dream path Immortal Gu!

Amidst the surging qi tides, frost lights gathered into Ice Crystal Immortal Monarch.

Ice Crystal Immortal Monarch's aura was weak, his face was pale, the price to activate extreme ice crystal light immortal suppression coffin was very high.

But he had almost singlehandedly sealed Demon Judgment Board, he was the biggest contributor to this victory.

The two heavens' Gu Immortals came to visit him, their gaze was different from before.

Strength was the determining factor towards one's status. Undeniably, Ice Crystal Immortal Monarch who had extreme ice crystal light immortal suppression coffin killer move far surpassed the other rank eight Gu Immortals of the two heavens in battle strength.

"Even though I saved Ice Crystal grotto-heaven, our race's unique killer move was exposed." Even though he forced Heavenly Court to retreat, Ice Crystal Immortal Monarch was not happy.

Right now, he could only console himself that this move was very hard to counter, it could still be his trump card for the time being.

“Friends, I am not injured, I only need to rest. I hope everyone can help to protect my grotto-heaven.” Ice Crystal Immortal Monarch said.

“Sure, sure.”

“We are all part of the two heavens alliance, this is not a problem.”

“Everyone, we will do our best to defend Ice Crystal grotto-heaven!”

The Gu Immortals of the two heavens resisted the surging qi tides in the grotto-heaven while Ice Crystal Immortal Monarch focused on repairing the hole created in the grotto-heaven’s aperture wall.

Even though the qi tides were powerful, with the cooperation of all the Gu Immortals, they soon settled down.

Because they had taken action swiftly, the qi tides did not cause much losses to Ice Crystal grotto-heaven.

“Vice alliance leader, take a look, we found something!” Great Wisdom Immortal Mother flew over to Ice Crystal Immortal Monarch with some unexpected news.

A moment later, the immortals of the two heavens also arrived at the area.

They saw a fruit that was the size of a hill floating in the air. This fruit was translucent, it was completely formed from heaven and earth qi, it was shaped like a gourd, or a peanut.

“This is a qi harvest fruit?”

“After the qi tides appeared, people often found these qi harvest fruits produced. If Gu Immortals get them and use them in the immortal aperture, they can rapidly soothe the heaven and earth qi and hasten the progress of the heaven and earth qi fusion.”

“But ordinary qi harvest fruits are just as large as a horse carriage.

Why is this qi harvesting fruit so huge?"

The two heavens' immortals discussed but could not come up with an answer.

"Master, is this really a qi harvest fruit?" An Xun asked Spectral Soul: "If it is, isn't this Ice Crystal grotto-heaven benefiting from a disaster? As long as it absorbs this huge qi harvest fruit, will Ice Crystal Immortal Monarch's immortal aperture be modified completely, he will no longer be affected by the qi tides?"

"This is a qi harvest fruit indeed, but whether it is a blessing or a disaster is unknown for now." Spectral Soul chuckled to himself.

As expected, when Ice Crystal Immortal Monarch tried to take this qi harvest fruit, he was shocked to find a deeper secret.

"Oh no!" Ice Crystal Immortal Monarch's expression turned even more pale: "This qi harvest fruit is still growing, it is absorbing my grotto-heaven's heaven and earth qi to grow further. If I take it away now, it will cause a huge commotion in the grotto-heaven, living beings will die, and an even more turbulent qi tide will appear."

The immortals gasped, after getting Ice Crystal Immortal Monarch's permission, they quickly used investigative methods.

"We cannot let this qi harvest fruit continue to grow, who can help me get rid of this hidden threat? I will not be stingy on rewards." Ice Crystal Immortal Monarch had a solemn expression.

But the Gu Immortals looked at each other, they were all helpless.

Almost everyone could pull out the qi harvest fruit by force, but that was harmful to Ice Crystal grotto-heaven, its foundation would be affected.

And according to their deductions, directly destroying the qi harvest fruit would create a new qi tide that would create a second qi harvest fruit later.

This way, to get rid of this threat permanently without harming Ice Crystal grotto-heaven, the difficulty was very high.

Great Wisdom Immortal Mother suggested: “We can’t do it because we do not cultivate qi path, but what about Lord Alliance Leader?”

Ice Crystal Immortal Monarch had a look of worry, he sighed deeply: “Right now, we can only ask Lord Alliance Leader for help.”

Wu Shuai soon received Ice Crystal Immortal Monarch’s request for help.

“My memories are limited, I did not know that the qi harvest fruit would become like this. Maybe the main body knows more things.”

Wu Shuai quickly reported the information that Ice Crystal Immortal Monarch gave him to Fang Yuan’s main body.

“Oh? The hidden threat of the two heavens’ grotto-heavens have been found, this is much earlier than in my previous life.” Fang Yuan’s main body naturally knew about this.

In the five hundred years of his previous life, the two heavens’ Gu Immortals had also worked together, they attacked many places and caused a lot of trouble for the five regions.

Due to the qi tides, the five regions’ Gu Immortals were greatly restricted. But the two heavens’ Gu Immortals were able to move around, they were less affected by the qi tides.

Furthermore, when Gu Immortal battles reach a certain level, qi tides would occur.

Even though the two heavens’ Gu Immortals had low battle strength, with the help of the qi tides, they could defeat the five regions’ Gu Immortals.

But good times did not last long, soon, the two heaven’s Gu Immortals found that qi harvest fruits started to appear in their own grotto-heaven headquarters.

These qi harvest fruits used the grotto-heaven’s heaven and earth qi to grow, they were like stubborn pests, if left unattended, they would grow endlessly and eventually destroy the entire grotto-heaven world.

"Ice Crystal Immortal Monarch fought against Heavenly Court and caused the qi tides to appear in his grotto-heaven, that is the reason why qi harvest fruits appeared earlier than the previous life."

Fang Yuan sent the information to Wu Shuai, suddenly, he had a thought as he gained a burst of inspiration.

"Wait!"

"Maybe I can use these qi tides to deal with heaven's will."

His situation was really bad now.

The main problem was the heaven path dao marks, he could not refine them in the short time, while these dao marks generated heaven's will.

The heaven path dao marks had no ill intentions towards Fang Yuan but heaven's will wanted to kill him, it tried all sorts of ways to destroy his sovereign immortal aperture.

And worse was that if Fang Yuan did not get rid of the heaven's will, after accumulating to a certain level, even if the sovereign immortal aperture remained shut, the grotto-heaven's heaven's will could resonate with the five regions' heaven's will and expose his identity.

Once Fang Yuan's location was exposed, if he stayed in qi sea, his cover as Qi Sea Ancestor would be blown.

However, it was difficult for Fang Yuan to get rid of heaven's will.

The sovereign immortal aperture was too huge, Fang Yuan did not know where to start. He could not predict the natural developments of the Heavenly Dao, he could not know where heaven's will would be created.

"I should try to let the qi tides rampage in my sovereign immortal aperture. Like a washing machine, they might be able to cleanse all of the heaven's will away."

As Fang Yuan thought about it, he found that this was a very possible idea to execute.

It seemed dangerous but it was possible to use the two threats against each other, with his qi path and wisdom path foundation, it was a realistic solution.

Of course, whether this method could succeed or not, until it was used, Fang Yuan could not know for sure.

“If only I still had wisdom Gu, that would be great.”

Wisdom Gu provided unlimited inspiration, with the light of wisdom, Fang Yuan could quickly and efficiently develop a killer move that could make use of the qi tides.

At the same time, in Qi Jue grotto-heaven.

“This is the center of the grotto-heaven!” Luo clan’s three Gu Immortals were all injured, they reached this place after much difficulty.

“What… what an incredible qi harvest fruit…” Luo Mu Zi was lost for words, the other two immortals were filled with shock.

According to the three immortals’ deductions, the center of Qi Jue grotto-heaven should contain the most valuable thing in the entire grotto-heaven.

At this moment, the three immortals saw that there was a tiny and exquisite qi harvest fruit here, it was extremely vivid, the surface had flowing lights that flickered dazzlingly.

It was the size of a gourd but it contained genuine rank nine immortal material aura. It had surging waves of vitality resembling the ocean, it pressed down on the hearts of the Luo clan Gu Immortals.

“This qi harvest fruit is not ordinary at all, it contains deep secrets, we need to research upon it.”

“Strange, qi harvest fruits are produced by the qi tides, why is it hidden by Demon Immortal Qi Jue and kept here?”

“Unless he predicted that in the future, there would be disasters like the qi tides?”

“Take action!” Luo clan’s three immortals were talking when suddenly, they heard a shout, several variant human Gu Immortals showed up and attacked.

Luo clan’s three immortals were caught off guard, they were swept into a battlefield killer move instantly.

“Oh no, an ambush!”

“Someone else found Qi Jue grotto-heaven?”

“Who are you?”

Luo clan’s three immortals shouted.

The leader of the variant human Gu Immortals was about the size of a thumb, there were translucent wings behind him, this was a miniman Gu Immortal.

“Hmph, Luo clan immortals, I, Xiao He Jian, found this place twenty years before any of you.” The miniman Gu Immortal smiled coldly as he said: “Attack, kill them all!”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 1997 - Both Sides Seek Reinforcements

Chapter 1997 Both Sides Seek Reinforcements

Days later, in the headquarters of Southern Border's Wu clan.

Wu Yong stood at the peak of a mountain, he slowly opened his eyes.

In front of him were three mortals. They were all tied on a wooden pole, they were all unconscious.

Immortal killer move — Farewell Friend Wind!

Wu Yong breathed in deeply, his preparations were completed, he unleashed this peculiar killer move.

Without the emergence of any unique wind, the three mortals in front of him started to disintegrate, their skin, flesh, and bones scattered with the natural breeze. In an instant, even the clothes of these mortals vanished, nothing was left.

Wu Yong showed a satisfied smile at last.

During this period, he had modified farewell friend wind, the results were quite good.

Farewell friend wind was a wind path killer move with human path effect, it originally needed the user to touch the target's body and say some parting words.

But now, these limitations were all modified by Wu Yong and removed successfully.

Even though the current farewell friend wind still needed the user to become friends with the target before usage, the range had greatly increased, it was much more usable now.

Wu Yong had lost a lot of his wind path dao marks during the fate war from using the killer move unlimited wind and his foundation fell.

But during this period of recuperation, he made some gains instead in terms of comprehension, his wind path attainment level rose to a new level. Because of that, he could modify farewell friend wind.

Wu Yong was not just satisfied with modifying farewell friend wind, the rise in his attainment level also meant a comprehensive rise in power.

Farewell friend wind was just one of the aspects.

“Next, I will modify the other killer moves, and even Clear Jade Dripping Wind Tiny Bamboo Building! After modification, my battle strength will rise back to normal, it can even surpass my former level.”

Right when Wu Yong thought about his future, an information path Gu worm flew towards him.

Wu Yong took it and read the information, his brows rose as he showed a surprised expression.

He was originally going to stay in closed cultivation for some time, but after receiving this information, he halted his plan.

Returning to his guest hall, he met with the two Gu Immortals that were looking for him.

These two Gu Immortals had the same clothing, they wore deep green short sleeve shirts and long black pants, they also had jade colored leg bindings.

Any Gu Immortal familiar with Southern Border's Gu Immortal world would know that this was Luo clan's signature attire.

Of the two Luo clan Gu Immortals who came, one was an old man with a bitter expression, another was a middle aged Gu Immortal with a pale face, he was evidently injured.

"Luo Zu (Luo Ran) pays respects to Lord Alliance Leader." Luo clan's two Gu Immortals saw Wu Yong and immediately paid respects.

The Southern Alliance was created long ago, Wu Yong was the leader of this alliance.

Of the two Luo clan immortals, Luo Ran was a general of Luo clan, he was a space path expert with peak rank seven battle strength, he was an arrogant person. As for Luo Zu, he was a person of authority, he was the current first supreme elder of Luo clan. These two were so respectful to Wu Yong now, it was clear that they needed his help.

Wu Yong nodded: "We can sit and talk."

After the two Luo clan Gu Immortals sat down, Wu Yong asked directly: "What is the matter with Qi Jue grotto-heaven?"

Luo Zu breathed in deeply before explaining the entire situation. In summary, when a Gu Immortal of Luo clan explored white heaven using an Immortal Gu House, he discovered Qi Jue grotto-heaven by chance. Luo clan had been exploring it for many years, finally, with the help of the qi tides, they made a breakthrough and entered the central area of Qi Jue grotto-heaven.

But when they were about to obtain Qi Jue's true inheritance, they were ambushed by variant human Gu Immortals. The three Luo clan Gu Immortals exploring it were caught off guard, the situation did not look good.

Thankfully, their leader was the space path expert Luo Ran, he used his trump card and escaped with the other two immortals.

The variant human Gu Immortals did not let them go, they pursued these three Luo clan immortals.

After Luo clan was informed, they immediately sent their Immortal Gu House to reinforce them, the two sides fought intensely at the heavenly wind qi wall. Even though those variant human Gu Immortals did not have high battle strength, their leader, the miniman Gu Immortal Xiao He Jian, was very outstanding. At the same time, the variant human Gu Immortals had an Immortal Gu House too, Luo clan was forced to escape back to Southern Border pitifully.

After passing the heavenly wind qi wall, the variant human Gu Immortals were afraid that Southern Border's Gu Immortal world would gang up on them, they gave up on the pursuit.

Luo clan's immortals were defeated, they returned to recuperate in their headquarters, feeling angry and helpless. After discussing for some time, they felt that they could not obtain Qi Jue grotto-heaven themselves, they should get the help of other forces.

After hearing their explanation, Wu Yong understood the situation.

"Due to the rampant qi tides, the grotto-heavens in the two heavens are exposed, this created the two heavens alliance. The alliance mainly comprises variant humans, they have Wu Shuai as their leader."

"This group of variant human Gu Immortals that defeated Luo clan must have a close relationship with the two heavens alliance."

"The two heavens alliance first occupied an area in Eastern Sea, Wu Shuai fought with Qi Sea Ancestor. After that, Heavenly Court attacked them, their vice alliance leader Ice Crystal Immortal Monarch forced Demon Judgment Board to retreat, creating a huge commotion."

"If Luo clan looks for Hou clan or Yao clan, even though they are super forces, they cannot deal with the colossal two heavens alliance. When the situation aggravates, they will still have to look for me in the end. Thus, they came to me from the start."

Thinking so, Wu Yong smiled, promising them: "Our Southern Border's righteous path is united, now that Luo clan has faced a setback, as long as you are part of the Southern Alliance, we will help you out. As the leader of the Southern Alliance, I, Wu Yong, will lend my strength as well!"

Luo clan's immortals quickly responded: "Alliance Leader is righteous and mighty."

But there was no joy on their faces.

This concerned a huge treasure like Qi Jue's true inheritance, Wu Yong was sure to agree to help without doubt.

The important things were how to get true inheritance of Qi Jue, how would Luo clan and Wu clan cooperate, if they obtained the true inheritance, how would they split it?

Those were the true details to discuss.

While Luo clan's immortals and Wu Yong were negotiating, Wu Shuai also received the audience of a Gu Immortal.

"The one asking to see me is a miniman Gu Immortal named Xiao He Jian?" Wu Shuai squinted.

"Yes." The reporting Gu Immortal explained: "This immortal has extraordinary strength, his reputation is long established, even though the Gu Immortals of the two heavens do not interact much with each other, we have all heard of this Xiao He Jian. His strength is likely on par with vice alliance leader."

The vice alliance leader was naturally Ice Crystal Immortal Monarch.

This time, Ice Crystal Immortal Monarch used his immortal sealing coffin killer move to defeat Heavenly Court, his reputation surged, everyone in the two heavens alliance knew about it.

"What is the reason for his request to meet me?" Wu Shuai asked purposely.

"This subordinate… does not know." The reporting Gu Immortal lowered his head: "He says that he has a huge fortune to give to Lord Alliance Leader, he wants to join our two heavens alliance."

Wu Shuai smiled.

In the past, he did not know, but after the main body sent him some information of the previous life, he learned about this person.

This Xiao He Jian was quite a formidable figure in the five hundred years of his previous life, he was indeed an expert among the variant human rank eight Gu Immortals, he was able to contest Heavenly Court's members evenly.

Speaking of which, in the five hundred years of his previous life, Ice Crystal Immortal Monarch did not have much reputation.

In terms of battle strength, Xiao He Jian and Ice Crystal Immortal Monarch were on the same level. Even though the two heaven's Gu Immortals were not very outstanding, they still had several incredible experts. If not for this, they would not have caused problems to the five regions in the previous life.

"Xiao He Jian explored Qi Jue grotto-heaven, he probably got into a conflict with Luo clan. Now that the Southern Alliance was created in advance and Luo clan suffered a loss, they would definitely find their allies, they might approach Wu Yong."

"Xiao He Jian has several grotto-heaven forces allied with him, but how can he resist the great Southern Alliance? Thus, he came to me, by joining my two heavens alliance, not only can he protect himself, he can also use my strength to resist the Southern Alliance and obtain Qi Jue's true inheritance."

"But this Qi Jue grotto-heaven is a dangerous area, in my previous life, Qi Jue grotto-heaven self-detonated, killing countless Gu Immortals in the process. The two heavens alliance also suffered a huge setback from this, the losses were so severe they never recovered."

Wu Shuai guessed that Ice Crystal Immortal Monarch died during this Qi Jue grotto-heaven explosion, otherwise, with his strength, he would not have stayed so low profile the entire time.

Considering this, Wu Shuai smiled coldly, thinking: "This Xiao He

Jian is crafty, he wants to borrow our strength and use us to kill his enemies, since he wants my help, let's have a good negotiation with him."

"Go." Wu Shuai stopped thinking about it as he sat on his main seat, telling the Gu Immortal: "Tell Xiao He Jian to come in."

Chapter 1998 - Exploring Qi Jue Grotto-Heaven

1998 Exploring Qi Jue Grotto-Heaven

The sky had a unified color, it was a sight of bluish jade.

Great winds howled, killing intent gathered.

Two Immortal Gu Houses faced each other.

One was a majestic palace shining in golden light, it was elegant and grand, this was Dragon Palace. The other was a two storey bamboo building, it was filled with vitality and looked delicate but exquisite, this was Clear Jade Dripping Wind Tiny Bamboo Building.

The two rank eight Immortal Gu Houses contained many Gu Immortals inside them.

Wu Shuai sat at the main seat with two rows of Gu Immortals from the two heavens below him. On his left was Ice Crystal Immortal Monarch and others, while on his right was the recently joined wood path great expert, miniman Gu Immortal Xiao He Jian. As for Lady Cold Ash, Night Heavenly Wolf Lord, and others, they were mixed among these two groups.

Not long ago, Wu Shuai met with Xiao He Jian, after some negotiation, they set off for Qi Jue grotto-heaven.

On the other side, Southern Alliance's Wu Yong also knew the importance of speed, he quickly mobilized Clear Jade Dripping Wind Tiny Bamboo Building, bringing Wu clan's and Luo clan's immortals to immemorial white heaven.

Clear Jade Dripping Wind Tiny Bamboo Building was much faster than Dragon Palace, Wu Yong left later but arrived earlier, yet Qi Jue grotto-heaven could not be easily entered. While Wu Yong and the rest waited, Wu Shuai arrived with Dragon Palace.

The two sides met in white heaven, they immediately got into a deadlock.

"Wu Yong." Wu Shuai spoke within Dragon Palace, his voice resounding in the battlefield: "Qi Jue's true inheritance is in front of us, why don't we each send three people out to fight, the winner will be the side which has two victories, they will get the true inheritance, while the loser gets the grotto-heaven, how is that?"

"Wu Shuai, why are you being so cowardly now?" Wu Yong snickered from within Clear Jade Dripping Wind Tiny Bamboo Building: "Let the person fortunate enough under the circumstances get Qi Jue's true inheritance, let's fight for it using our respective abilities!"

As he said this, Clear Jade Dripping Wind Tiny Bamboo Building shot out like a rainbow, piercing into a certain opening within Qi Jue grotto-heaven.

Wu Yong had waited for a long time, he finally found an opportunity to get inside.

Even though Wu Yong brought Clear Jade Dripping Wind Tiny Bamboo Building with him, and had Wu clan's and Luo clan's elites around him, in terms of scale, he could not match Wu Shuai. Not just in quantity, but the quality of their high end battle strength also differed greatly.

If they really used the rules Wu Shuai set to determine a victor, in one-on-one combat, Wu Yong's side would be disadvantaged.

Furthermore, when Gu Immortals fight, heaven and earth qi would be disrupted, qi tides would appear. By then, the two heaven's Gu Immortals would be less affected, their advantage would rise again.

Wu Yong was a formidable leader, how could he let his side fall into a disadvantage from the start?

"Lord Alliance Leader, there is no time to waste, let's set out!" Xiao He Jian urged anxiously.

Wu Shuai looked at the openings in Qi Jue grotto-heaven, even though these openings varied in size, they were all milky white in color, formed from moving qi currents.

Earlier, Clear Jade Dripping Wind Tiny Bamboo Building had gone through the largest opening to get inside Qi Jue grotto-heaven.

After looking at it for a while, Wu Shuai understood some of its profundity.

"These openings vary in size, they are increasing in numbers, I'm afraid this is the immortal aperture entrance of Qi Jue grotto-heaven."

Fang Yuan's main body and clones had varying amounts of memories but they shared the same attainment levels. Wu Shuai also had the main body's qi path attainment level, he could see it more clearly than others.

Just these holes alone made Wu Shuai's eyes brighten as he felt some comprehension.

"Normally, immortal aperture entrances are closed, only used to connect the inside world and the outside. Qi Jue grotto-heaven's entrance is unique, it is the most efficient way of maximizing the effect of that connection between worlds using the immortal aperture's entrance. I wonder what gains I can make inside?"

Thinking so, Wu Shuai's curiosity rose as he moved Dragon Palace towards the openings.

In the five hundred years of his previous life, this Qi Jue grotto-heaven was destroyed by self-detonation, it greatly affected the two heavens alliance and caused it to falter in the future. Many rank eight Gu Immortals died during this event.

Qi Jue grotto-heaven was dangerous, this was also why Fang Yuan did not take the initiative to explore it before the fate war.

But now that Qi Jue grotto-heaven was exposed, with an alluring true inheritance of Qi Jue inside and Dragon Palace's protection, Wu Shuai also had nothing urgent to attend to, he could put effort into this now.

Dragon Palace got past the narrow opening, rapidly arriving inside Qi Jue grotto-heaven.

The immortals saw that all around them, there were white colored qi currents that surged and moved.

"Qi Jue grotto-heaven's structure is quite special, it is not like ordinary grotto-heavens, there are white qi currents everywhere. These qi currents form into tunnels and countless tunnels turn this grotto-heaven into a maze, it is like the intestines of a giant. We need to get through these tunnels quickly and find the correct path to the central area. Qi Jue's true inheritance is hidden there!" Xiao He Jian explained when they got in.

All the immortals inside the palace listened attentively.

Xiao He Jian did not say everything he knew earlier, to prevent Wu Shuai from leaving to snatch the true inheritance alone after getting the information, he had kept many secrets, he promised Wu Shuai that he would explain the situation after they arrived.

Dragon Palace moved around in the white qi current tunnels, quickly reaching a crossroad. On the left and right were two paths, they were identical in size and shape.

"How do we determine the correct route?" Ice Crystal Immortal Monarch asked.

Xiao He Jian replied: "I cannot be sure about it either, we need to test the paths. The only rule here is that the closer we get to the center, the more valuable the monsters and resources within the qi current tunnels. At the most central area, the qi harvest fruit has reached rank nine level!”

“What about Luo clan?” Ice Crystal Immortal Monarch asked another crucial question.

“Luo clan does not have a more accurate method either. In fact, their exploration speed was far slower than us. It was because of the qi tides that they gained an opportunity to get past many difficulties and reach the central area rapidly. Looking at our previous progress, my tribe was extremely close to Qi Jue’s true inheritance, we were just two obstacles away.” Xiao He Jian sighed, he felt somewhat of a pity regarding it.

The immortals heard this and relaxed slightly.

“In that case, even though they came inside first, in terms of advantage, we have the upper hand.” Great Wisdom Immortal Mother analyzed.

“Don’t be careless, Clear Jade Dripping Wind Tiny Bamboo Building is much faster than us.” Wu Shuai said plainly.

He chose a random path and moved Dragon Palace along it.

Along the way, the qi current tunnels became wider and taller, many qi path living beings were in them, creating special living environments that were isolated from each other.

Roar!

Suddenly, a group of qi monsters emerged from the thick tunnel walls, surrounding Dragon Palace.

These qi monsters had all sorts of strange forms, resembling bulls, goats, fish, or birds. However, their colors were similar, being close to orange-yellow.

“These are qi monsters created from luck qi.” Xiao He Jian said: “Even though there are no immemorial qi monsters, they are quite troublesome to deal with. Without luck path methods to protect us, if we kill them, our luck will fall.”

Immortal killer move — Dreamy Light Smoke!

At the next moment, a gush of smoke flew out from Dragon Palace, wherever it went, all of the luck qi monsters were swept away, suppressed within Dragon Palace.

“Uh.” Xiao He Jian was stunned but he soon reacted as he said respectfully: “A dream path killer move, truly worthy of Dragon Palace!”

As they continued, they saw an immemorial qi monster, it was pitch-black like a whale, its body was colossal.

Xiao He Jian had a grim expression: “Be careful, this is an immemorial qi monster created from hard qi, thankfully it is sleeping now. I’d suggest that we detour around it, let’s not…”

Boom!

At the next moment, Dragon Palace accelerated and crashed into the immemorial qi monster.

Dragon Palace shook intensely but the immemorial qi monster was pierced through, it retaliated in anger.

Dragon Palace charged and crashed into it again, and again!

The immemorial qi monster broke apart, turning into lumps of black hard qi. Next, Wu Shuai stored the hard qi in his palace.

“You can all split the spoils.” Wu Shuai kept most of the gains and passed the rest to the Gu Immortals.

“Alliance Leader is mighty!”

“All hail Dragon Palace!”

“Subordinate thanks Lord Alliance Leader.”

“With Lord Alliance Leader here, so what if they have Wu Yong?”

At once, the immortals expressed their gratitude as all sorts of praises erupted.

Ice Crystal Immortal Monarch smiled as he looked at Xiao He Jian, saying with deep meaning: “Try not to be shocked at these minor situations, it will cause us to lose face.”

Xiao He Jian had to nod in acknowledgment but he still felt deep shock internally: “Even though I saw the fate war, I can only see how powerful Dragon Palace is after witnessing it in action personally. If Dragon Palace is so strong, what about Duke Long, Fang Yuan, and Feng Jiu Ge?”

At once, Xiao He Jian’s emotions became rather complex.

On one hand, the stronger Dragon Palace was, the more hopeful he was. But on the other hand, as a great expert, seeing such a difference between them and seeing such a powerful existence made him feel some dejectedness.

Along the way, wherever they went, Wu Shuai took all of the loot that they could gather.

Qi Jue grotto-heaven was really the land of treasures for qi path, it was like the qi sea of ancient times. Not only were the qi path resources here in huge quantities, they also varied greatly in variety, there was basically anything one needed here.

Wu Shuai purposely displayed his might to intimidate Xiao He Jian. As a result, he exposed more secrets, according to him, when exploring this place, he found a Qi Breath Peak! Qi Jue grotto-heaven actually had such an extinct qi path resource, but regrettably, Xiao He Jian only took a glance at it, he did not have the ability to take it.

“This is the center of Qi Jue grotto-heaven?” Clear Jade Dripping Wind Tiny Bamboo Building had just arrived at the destination, before Wu Yong could rejoice, his pupils shrunk: “Hmph, they weren’t slow at all.”

Behind Clear Jade Dripping Wind Tiny Bamboo Building, Dragon Palace arrived.

At the center of Qi Jue grotto-heaven was a huge hollow sphere. The sphere had many qi pillars that interweaved with each other, creating countless tunnels.

Clear Jade Dripping Wind Tiny Bamboo Building and Dragon Palace entered this area, it was like two flies had entered a beehive.

The qi pillars continued to move around, some were fast while others were slow, they even affected each other. Under Wu Yong's control, Clear Jade Dripping Wind Tiny Bamboo Building moved carefully and avoided the qi pillars, taking sharp turns along the way.

"These qi pillars are special, they are at least rank eight immortal materials. We cannot touch them easily or unnecessary problems will occur." Xiao He Jian quickly said.

This place was not suited for fighting, thus, in order to kill the three Luo clan immortals, Xiao He Jian had arranged a battlefield killer move.

But in the end, Luo clan's Luo Ran was a space path Gu Immortal, he brought the other two immortals away by piercing through the battlefield, using this special terrain to get free from Xiao He Jian and the rest, escaping.

"No need for such trouble." Wu Shuai waved his hand.

At the next moment, a dragon roar was heard, the Evil Dragon descended.

Boom boom boom!

The Evil Dragon charged ferociously, wherever it went, qi pillars broke and shattered, it created a path for Dragon Palace to move along from behind it.

"Hmm?" Wu Yong frowned.

Xiao He Jian's mouth was open, he became dumbstruck.

Chapter 1999 - Qi Jue, Xi

1999 Qi Jue, Xi

“Great!”

“Lord Alliance Leader is so powerful!”

“This is the power of our two heavens alliance!”

The morale of the immortals within Dragon Palace surged, they quickly cheered.

Evil Dragon charged ahead with an unstoppable might, Dragon Palace followed behind it casually.

“This dragonman brute!” The eyelids of Luo clan’s first supreme elder Luo Zu were twitching as he gritted his teeth.

The two clans’ Gu Immortals within Clear Jade Dripping Wind Tiny Bamboo Building felt immense pressure. Evil Dragon was charging relentlessly like a mobile mountain range, in comparison, Clear Jade Dripping Wind Tiny Bamboo Building was very delicate and small.

And most importantly, Clear Jade Dripping Wind Tiny Bamboo Building had to dodge the qi pillars, its advancement route was long and winding. But Evil Dragon moved forward in a straight line without obstruction, the distance between them was shortening.

“What do we do now?” The Southern Alliance’s Gu Immortals turned pale.

Wu Yong smiled lightly: “Wu Shuai uses strength to suppress others, he is making full use of his advantage. If I were him, I would do the same. Everyone, after the fate war, not only was Clear Jade Dripping Wind Tiny Bamboo Building fully repaired, I even strengthened it further, we can block Di Zang Sheng for a period of time. Even though they are strong, we do not need to bother with them, we just need to get Qi Jue's true inheritance before them."

"Lord Alliance Leader is right!" The immortals nodded in agreement.

Any sort of conflict had its goal, Wu Yong could clearly see that their objective was Qi Jue's true inheritance. Whoever gets it would be the winner, even if they suffer some losses while competing, so what?

But the Evil Dragon was really too strong.

It was the immemorial desolate beast with the strongest battle strength!

In the five regions and two heavens, there were less than five people who could fight this Evil Dragon head-on!

While Wu Shuai and Wu Yong were chasing after their goals, a third rank eight Immortal Gu House stealthily arrived outside Qi Jue grotto-heaven.

It was Demon Judgment Board!

Demon Judgment Board was controlled by Fang Zheng, not only did Prince Feng Xian and Bai Cang Shui come along, even Che Wei, who had recovered from his injuries, and information path great expert Zhou Xiong Xin were here.

Fang Zheng took the initiative to attack the two heavens previously, even though Ice Crystal Immortal Monarch forced them away, their gains were still huge. Prince Feng Xian and Bai Cang Shui obtained abundant loot from plundering the two grotto-heavens.

Even though Fang Zheng lost in battle, he had only lost some reputation of Heavenly Court, they did not lose benefits.

Heavenly Court was originally not sure of Qi Jue grotto-heaven's event, after all, immemorial white heaven was huge, even during the qi tides when Qi Jue grotto-heaven exposed itself, Heavenly Court could not find it immediately.

But don’t forget that Night Heavenly Wolf Lord under Wu Shuai had submitted to Heavenly Court. The fact that Xiao He Jian joined the two heavens alliance was not concealable, Night Heavenly Wolf Lord learned of Qi Jue grotto-heaven’s secret and informed Heavenly Court as a result.

Demon Immortal Qi Jue was very famous in history, he was a terrifying great expert who opposed Limitless Demon Venerable!

Especially when he cultivated qi path, in the current environment where qi tide surged, all new qi path resources were emerging in huge quantities continuously. The five regions’ forces wanted to research more into qi path.

Heavenly Court was no exception!

Even though they had Primordial Origin’s true inheritance, if Heavenly Court could gain Qi Jue’s true inheritance, it would mean that other forces could not get it. With this difference, Heavenly Court would have a great advantage against others.

Thus, Fang Zheng did not rest for long, he received Qin Ding Ling’s orders and brought four rank eight Gu Immortals to move to white heaven using Demon Judgment Board, arriving at this place.

“This should be Qi Jue grotto-heaven, but what is going on?” Fang Zheng had just arrived but he saw a shocking change.

He saw countless holes appearing, milky white qi currents surged endlessly as they moved around, the many new openings started to connect the grotto-heaven to the outside world.

These openings increased in numbers and continued to surface, there were too many of them, this would be a fearsome sight to others.

After more than ten breaths, a huge silhouette of Qi Jue grotto-heaven appeared. On the surface, there were countless white qi currents surrounding it, within the qi currents, there were countless holes breathing in and out.

The surrounding air was sucked into the grotto-heaven by a terrifying formless force. As for the loud noise that it created, the Heavenly Court immortals felt deafened all of a sudden.

“A huge change is occurring in Qi Jue grotto-heaven!”

“Wu Shuai and Wu Yong might have fought in the grotto-heaven.”

“What to do?”

Prince Feng Xian and the rest looked towards Fang Zheng, he was still their leader in this expedition.

Fang Zheng felt pressured, the choice in front of him was a difficult one. At this moment, he fell into hesitation, what should he choose?

At the center of Qi Jue grotto-heaven.

Boom boom boom!

Qi pillars continued to break and shatter as noise erupted endlessly.

The Evil Dragon destroyed everything in its path, but such a sight did not last long, after the qi pillars were destroyed, they turned into strong qi currents that intertwined together, surrounding the body of the Evil Dragon as they pressured it, trying to attack and kill it from all directions.

The Evil Dragon roared but its speed continued to fall, it was facing an unprecedented pressure from ahead.

Clear Jade Dripping Wind Tiny Bamboo Building and Dragon Palace were not having an easy time either.

These qi currents were like tsunami waves that constantly attacked, these two rank eight Immortal Gu Houses were like small rafts trying to float in this treacherous storm.

Huge qi currents collided and caused the two Immortal Gu Houses to shake, sometimes, the Immortal Gu Houses even spun around on the spot.

There was a shot of deep blue qi current, Clear Jade Dripping Wind Tiny Bamboo Building quickly tried to dodge it. But the deep blue qi current was too large and fast, Clear Jade Dripping Wind Tiny Bamboo Building exerted all of its strength before leaving and escaping after three breaths of time.

“Lightning qi!” Southern Border’s Gu Immortal gasped: “I’ve never seen such colossal lightning qi, this quality is on par with rank eight immortal materials.”

Lightning qi could only be collected during stormy weather.

It was not hard to collect lightning qi, but high ranked lightning qi immortal materials were very rare.

Rank eight lightning qi was even rarer.

If the situation were not so urgent, Southern Border’s Gu Immortals would want to collect the lightning qi.

“This is all Wu Shuai’s fault! By causing rampant destruction, Qi Jue grotto-heaven has gone into a berserk state.” Luo Zu gritted his teeth.

Wu Yong’s expression turned dark: “Qi Jue’s true inheritance is our primary goal!”

The lightning qi from earlier caused Clear Jade Dripping Wind Tiny Bamboo Building to lose some Gu worms, Wu Yong quickly replenished them.

These immortal materials had incredible dense dao marks, this environment was very dangerous. If there were wind path qi current immortal materials, Clear Jade Dripping Wind Tiny Bamboo Building would have an incredibly good time here.

The change in Qi Jue grotto-heaven’s situation made the environment much more dangerous, but on the whole, Wu Yong’s situation had actually improved.

Because Clear Jade Dripping Wind Tiny Bamboo Building suffered much less obstruction compared to Wu Shuai’s side.

Dragon Palace was much slower than Clear Jade Dripping Wind Tiny Bamboo Building.

There were sharp blade qi, black hard qi, dark death qi… all sorts of qi currents were all at rank eight level. Wu Shuai gritted his teeth as he drove Dragon Palace forward, resisting them by force.

The Evil Dragon was left in the dust already.

Its body was too big, it was resisted by at least ten air currents or more, it could no longer be of use here.

“This is the foundation of Qi Jue grotto-heaven…” Wu Shuai had a solemn expression, his gaze flickered with uncertainty.

He had the disadvantage now but the situation had not been decided.

The two heaven’s Gu Immortals were also speechless at the moment. If not for Dragon Palace’s protection, who would dare to travel in this dangerous place? Many rank eight Gu Immortals felt their own weakness and insignificance at this moment.

“Demon Immortal Qi Jue is truly worthy of being the person who rivaled Limitless Demon Venerable in the past!”

The two rank eight Immortal Gu Houses did not give up, they moved towards the center with much difficulty, trying to obtain Qi Jue’s true inheritance.

But outside the grotto-heaven, Fang Zheng no longer had to hesitate.

“Let’s retreat first and observe the situation.” Fang Zheng ordered, Demon Judgment Board quickly retreated.

Prince Feng Xian and the rest were silent, they agreed with this decision.

Because right now, a change occurred again, raging qi currents appeared all over the place, a new qi tide had begun!

Fighting during a qi tide would cause the Gu Immortals to suffer backlash, even Heavenly Court’s Gu Immortals were no exception.

“It seems our earlier deduction was right.”

“The heaven and earth qi in our immortal apertures differ from the outside world, thus be it opening the immortal aperture entrance or fighting intensely, when it hits a certain level, a new qi tide will occur.”

“Demon Immortal Qi Jue is a five regions Gu Immortal, because of his foundation, now that his immortal aperture’s entrance is basically wide open, along with the fight between Wu Shuai and the Southern Alliance inside, they created a gigantic qi tide.”

“Let’s watch by the side and try to reap some benefits from the outcome.”

Heavenly Court’s Gu Immortals conversed as they kept a close eye on Qi Jue grotto-heaven.

The powerful qi tide went through the openings and rapidly entered Qi Jue grotto-heaven.

Wu Shuai and Wu Yong instantly felt huge pressure as the wild qi currents became even stronger. Even though the rank eight Immortal Gu Houses were powerful, these qi currents made them helpless, they were often blown away to random places.

Bang… bang… bang!

As the two Immortal Gu Houses approached the center, they started to hear loud thumping sounds.

“What is going on?”

“What qi currents are causing these sounds?”

“No, this is someone’s heartbeat! Quickly look!”

The two Immortal Gu Houses arrived at the center of Qi Jue grotto-heaven, all of the Gu Immortals saw this sight —

At the point where all the countless qi currents merged was the eye of the storm, this place was completely tranquil and safe.

In this tranquil environment, there was a tiny and delicate qi harvest fruit, it continued to absorb the surrounding qi currents.

Countless qi currents of all types got absorbed into the qi harvest fruit and their traits were assimilated, becoming a part of the fruit.

Different from the previous situation, there was the form of a baby inside the qi harvest fruit!

The qi harvest fruit was like a woman's womb, a human baby was curled up inside, growing and getting larger by the second.

"What is happening?"

"What in the world is going on?"

"This is a monster! It is actually absorbing rank eight immortal materials endlessly to strengthen itself!"

"It is about to be born, quickly stop it!"

The immortals' expressions changed, Wu Shuai wanted to unleash the killer move dreamy light smoke, but the qi harvest fruit seemed to have sensed it, it shook and self-detonated.

The baby was successfully born, he had tiny arms and legs like he was malnourished.

At this time, the silhouette of a concave land appeared above his head. This concave land contained deep profundities, it gave off a rank nine aura. But this aura was far more perfect and refined than the incomplete Human Sea that Wu Shuai had previously.

This was a secluded domain of heaven and earth!

The baby raised his arms, he seemed to be using both arms to carry the silhouette of this secluded domain of heaven and earth.

"Xi—" He shouted out in a long tone.

At the next moment, all of the surrounding qi currents moved into the silhouette of the secluded domain of heaven and earth like river tributaries returning to the ocean.

The qi currents moved with incredibly shocking speed, within a few breaths of time, all of them went into the mysterious secluded domain of heaven and earth. Wu Shuai and Wu Yong could not even sense a single qi current around them anymore.

In the sky, only the baby and the two rank eight Immortal Gu Houses were left.

“We’re outside again.” Luo Zu found himself in the outside world.

“No, the whole of Qi Jue grotto-heaven turned into qi currents and got absorbed by him.” Wu Yong was unable to conceal his shock, everything was unexpected in this situation, he felt like he was used.

This was someone’s scheme!

“Who are you?” Wu Shuai shouted from within Dragon Palace.

The baby had grown into a boy, he breathed in deeply, the silhouette of the secluded domain of heaven and earth above his head went into his nose.

Next, he looked around and saw Dragon Palace and Clear Jade Dripping Wind Tiny Bamboo Building, he also found the hidden Demon Judgment Board.

The boy smiled as he started to recite: (Chapter 1319)

“Climbed mountains to seek immortality, danger present in every step.

Dust specks float like light, dark Gu lurk in heart.

A dream like golden jade, thousands of years of loneliness.

Five regions and nine heavens, everything is in one breath[1].”

As he recited, his voice was young but his tone was aged: “Who else can I be? Yours truly, Demon Immortal Qi Jue.”

“Demon Immortal Qi Jue?!” The immortals were all shaken.

“Wait, if he is Demon Immortal Qi Jue, then the secluded domain of heaven and earth from earlier, it is ‘Xi’ from u003cu003cThe Legends of Ren Zuu003eu003e?” Within Demon Judgment Board, Zhou Xiong Xin suddenly had a thought.

u003cu003cThe Legends of Ren Zuu003eu003e had two very mysterious secluded domains of heaven and earth, there was little description regarding them.

One was ‘Hu’, the other was ‘Xi’.

[1] Breath written as qi in Chinese.

Chapter 2000 - Might of the Demon Immortal

2000 Might of the Demon Immortal

Demon Immortal Qi Jue!

The mysterious Gu Immortal stated his own identity, the entire place went silent.

The three sides' Gu Immortals were shaken. According to history, Demon Immortal Qi Jue was someone who had been evenly matched with Limitless Demon Venerable in battle at some point!

Wu Shuai, who was inside Dragon Palace, frowned, he realized many things: “It seems that in my previous life, Demon Immortal Qi Jue failed to revive. Otherwise, there would not have been zero information about Demon Immortal Qi Jue's revival. There are two possible reasons, one is that fate Gu was not destroyed then, the second is that Spectral Soul succeeded in refining sovereign immortal fetus Gu, from all the signs known, he had already infiltrated Heavenly Court and gained complete control of the situation. He would not allow someone like Demon Immortal Qi Jue to revive.”

Thinking of this, Wu Shuai snorted coldly as he willed.

Roar—!

At the next moment, the Evil Dragon moved.

Earlier, because of the countless qi currents obstructing it, the Evil Dragon was covered in injuries. But now that the whole of Qi Jue grotto-heaven was absorbed by Demon Immortal Qi Jue using an unthinkable method, the Evil Dragon regained freedom, it charged towards Demon Immortal Qi Jue with imposing aura again.

Once it moved, wild winds started blowing.

The Evil Dragon's colossal body was like a moving mountain range, engulfing heaven and earth.

Forget about Demon Immortal Qi Jue's tiny child body, even the great Dragon Palace could not match the Evil Dragon's body.

"Hehehe, come." Demon Immortal Qi Jue's vision was filled by Di Zang Sheng.

He was not flustered, instead he smiled calmly.

He did not dodge, he directly extended his small hand towards Di Zang Sheng.

Immortal killer move — Great Qi Grasp!

With a loud sound, endless white qi currents shot out of Demon Immortal Qi Jue's body, forming a giant hand with five fingers.

The hand was only the size of an Immortal Gu House at first, but it slowly inflated to the size of a hill. Three breaths of time later, the entire qi current hand had expanded to the size of the Evil Dragon's head.

But the milky white qi current hand continued to grow!

Di Zang Sheng had already reached it.

Bam.

The two sides collided, but out of everyone's expectations, Demon Immortal Qi Jue's qi current hand was easily destroyed in one move.

Di Zang Sheng did not slow down, continuing to pursue Demon

Immortal Qi Jue.

Demon Immortal Qi Jue did not dodge, he continued to face Di Zang Sheng casually.

Di Zang Sheng only charged for a few seconds before slowing down, it growled loudly like it was in great pain.

“My great qi grasp can form and scatter at will. It can grab mountains and seas if it takes form, but it can also invade organs when it scatters. How will you deal with it?” Demon Immortal Qi Jue stood arrogantly and said.

The immortals were shocked.

Demon Immortal Qi Jue used one move to subdue Di Zang Sheng, he had true pseudo venerable battle strength!

“Another demonic path expert!”

“Sigh, with the destruction of fate Gu, the world will go into chaos.”

“Demon Immortal Qi Jue had died more than a million years ago, that source of chaos Fang Yuan gave him the chance to revive!”

Inside Demon Judgment Board, Heavenly Court’s immortals gritted their teeth, they had ugly expressions.

After the fate war, the righteous path fell while the demonic path surged!

Duke Long, who was the pillar that held up Heavenly Court, died, Feng Jiu Ge, whom they entrusted their hopes to, betrayed them, while Fang Yuan, who was the culprit behind the destruction of Fate, still remained scot-free!

And now, there was this Demon Immortal Qi Jue.

There were sad cries as Heavenly Court’s Gu Immortals realized that the future of the five regions and two heavens became much bleaker now.

They did not even think of recruiting Demon Immortal Qi Jue.

Although in history, he had opposed Limitless Demon Venerable, there was also no possibility that he would ever join the righteous path.

Demon Immortal Qi Jue, just the demon in his name stated the obvious. After all, the saying goes: There are only wrong names, not wrong titles.

“Xiao He Jian, what are you really up to? You created such a huge enemy for our two heavens alliance!” Within Dragon Palace, Ice Crystal Immortal Monarch suddenly shouted.

Xiao He Jian could not rebuke him, his face turned pale.

He felt a lot of lingering fear but also relief. He was relieved that he joined the two heavens alliance, otherwise, with just himself, he would have become the sacrificial lamb of Demon Immortal Qi Jue’s revival already.

“This is a scheme, I am a victim too.” Xiao He Jian voiced his innocence.

“This is a scheme, Demon Immortal Qi Jue’s scheme.” At the same time, Wu Yong sighed within Clear Jade Dripping Wind Tiny Bamboo Building.

Luo Zu sighed deeply: “Demon Immortal Qi Jue is a qi path cultivator, but he actually predicted the events a million years into the future? What sort of level did he reach?!”

Wu Yong frowned slightly, he looked through Clear Jade Dripping Wind Tiny Bamboo Building towards Dragon Palace.

He could understand Demon Immortal Qi Jue’s arrangements, but he had some doubt in his mind, did Wu Shuai know about this secret?

Now that Wu Yong recalled it, Wu Shuai had been controlling the Evil Dragon to create destruction all over the place, was it because he was straightforward and wanted to use brute force, or was he purposely trying to destroy Demon Immortal Qi Jue’s arrangements?

Evidently, it was because of the Evil Dragon’s rampant destruction that Demon Immortal Qi Jue was revived ahead of time.

Wu Yong was a formidable person with a sharp mind, the more he thought about it, the more he suspected Wu Shuai’s actions.

“It is possible that Wu Shuai knows about Demon Immortal Qi Jue’s existence. After all, he has some sort of relationship with Fang Yuan, and Fang Yuan possesses Spring Autumn Cicada, it is not strange that he knows some secrets.” Wu Yong thought of Fang Yuan.

“Did Fang Yuan come here?” Inside Demon Judgment Board, Heavenly Court’s Gu Immortals were guessing.

Fang Yuan was a person who had been reborn, if he knew about the secret of Demon Immortal Qi Jue’s revival, he might likely hide somewhere to make his move!

Precisely because of this concern, Demon Judgment Board did not take action. Clear Jade Dripping Wind Tiny Bamboo Building was also waiting for something to happen.

But Demon Immortal Qi Jue did not want to let them off.

“Today is the wonderful day I revived, come, come, let me see what methods the Gu Immortals of this current era have!”

Demon Immortal Qi Jue had the appearance of a boy but his tone was that of a man proud of his experience, he actually attacked again.

At once, milky white qi currents gushed out, filling the world with a tsunami, Heavenly Court, the Southern Alliance, and Wu Shuai’s side were all enveloped.

“Hmph! Old scoundrel Qi Jue, don’t be too arrogant, we are not afraid of you, we are just wary that Fang Yuan might be hiding somewhere.” Wu Yong spoke, using Clear Jade Dripping Wind Tiny Bamboo Building to retreat immediately.

Fang Zheng’s voice resounded from Demon Judgment Board: “Precisely! Demonic path senior, even though you are famous in history, you cannot compare to the number one demon in the current world, Gu Yue Fang Yuan! This person destroyed my Heavenly Court's fate Gu, without him, you would not have revived."

"Fang Yuan? I will remember this name." Demon Immortal Qi Jue stretched his arms, qi currents shooting out rapidly: "But none of you will escape!"

He was like a bottomless hole, constantly shooting out milky white qi currents.

These qi currents were unique, ordinary immortal killer moves could not destroy them. At once, three rank eight Immortal Gu Houses fell into a predicament, their speeds fell drastically.

Wu Shuai snorted, he controlled Dragon Palace to advance instead of retreating, attacking Demon Immortal Qi Jue.

Demon Immortal Qi Jue laughed loudly: "Good, someone with actual guts."

A trace of smoke flew out of Dragon Palace.

Immortal killer move — Dreamy Light Smoke!

Demon Immortal Qi Jue did not dodge it, he was hit by the smoke, instantly disappearing.

Wu Shuai had a perplexed expression, he was like a fisherman spreading his web, he used all his strength to cast the web but in the end, he only caught some bubbles without any fish.

Demon Immortal Qi Jue's body appeared again, this time, he was far away.

He looked at Dragon Palace deeply with an expression of wariness: "Good, I'll remember this."

He gave up on Dragon Palace, he went to attack Clear Jade Dripping Wind Tiny Bamboo Building and Demon Judgment Board instead.

Clear Jade Dripping Wind Tiny Bamboo Building emitted wild winds while Demon Judgment Board shot out powerful blood red lights, they both displayed their might.

Demon Immortal Qi Jue's moves were mostly grand and wide ranged, he managed to suppress the two Immortal Gu Houses.

After more than ten rounds, bright light shined in his eyes as he shouted: "Good, good, good, to think that people have already created wind path and blood path, this is truly exciting. I did not waste my effort in arranging for my revival in this great era!"

"Other than you people, who else is there in this world?" Demon Immortal Qi Jue asked.

Wu Yong smiled coldly: "Ignoring anyone else, Eastern Sea has quite the formidable person. He also cultivates qi path, his battle strength is definitely higher than yours. He stays in qi sea, he calls himself Qi Sea Ancestor, he is the undisputed leader of the current Eastern Sea righteous path!"

"Oh? There is a qi path cultivator? Back in my day, qi path was already declining, to think that it would still linger until today! Very good, it seems I will need to meet him." Demon Immortal Qi Jue laughed loudly in joy.

Wu Yong continued: "Other than Qi Sea Ancestor, there is also a sound path demonic immortal named Feng Jiu Ge. He has also defeated the Evil Dragon in one move with much greater ease than you. In the battle earlier, he betrayed Heavenly Court openly and now his whereabouts are unknown, but Heavenly Court does not dare to release an arrest warrant for him."

"Feng Jiu Ge? Good, I'll remember him. Anyone else?" Demon Immortal Qi Jue's eyes shined.

Wu Shuai interrupted at this moment: "Get past us first, old man."

As he said that, Dragon Palace flew over again.

Demon Immortal Qi Jue smiled lightly as he pointed: "Lower qi."

Milky white qi currents gushed out and caused Dragon Palace to fall in altitude.

At this time, Clear Jade Dripping Wind Tiny Bamboo Building carried a storm with it as it charged towards Demon Immortal Qi Jue.

Demon Immortal Qi Jue pointed another finger: “Upper qi.”

Clear Jade Dripping Wind Tiny Bamboo Building was swept away by the qi currents, flying upwards uncontrollably.

Demon Judgment Board arrived in front of him.

Demon Immortal Qi Jue stretched out two fingers as he pointed at this house: “Upper-lower breathless qi.”

Demon Judgment Board erupted with a loud sound as it stayed stationary in midair. The Gu Immortals inside had changes of expressions, the immortal essence that they tried to instill became choppy, this rank eight Immortal Gu House was like a dying old man who could not take proper breaths at this moment.

“Juniors, I’m not going to play with you anymore. Go and spread the word, tell Fang Yuan, Qi Sea Ancestor, and Feng Jiu Ge that I will visit them soon. They can’t hide from me.”

Demon Immortal Qi Jue had just said this when his figure vanished, he did not appear anymore.

All of the immortals were wary now, after getting rid of the remaining milky white qi currents, they confirmed that Demon Immortal Qi Jue had truly left the scene.

“Do we pursue him?” Someone within Dragon Palace asked.

Wu Shuai snorted coldly: “Where did he go? Why don’t you tell me?”

The Gu Immortal who asked turned pale, he lowered his head, not daring to say another word.

“Let’s retreat.” Wu Yong smiled, not forgetting to salvage the morale: “Even though we did not have much gains this time, fighting against someone like Demon Immortal Qi Jue is worth the trip after all.”

“Sigh! After Fang Yuan comes Demon Immortal Qi Jue, I really do not know which great expert will revive next!” Fang Zheng was filled with worries, he mobilized Demon Judgment Board to quickly leave the battlefield.

Chapter 2001 - Recruiting Qi Sea Ancestor

2001 Recruiting Qi Sea Ancestor

Demon Immortal Qi Jue revived, he suppressed Heavenly Court, Southern Border, and the two heavens. News of this battle soon spread in the entire Gu Immortal world, everyone in the world was shocked.

“To think that Demon Immortal Qi Jue revived!”

“The world is really going into chaos, I wonder how many great experts will revive next?”

“Demon Immortal Qi Jue was able to revive, there’s no reason the venerables cannot, right? Oh heavens!”

“No wonder they said Great Dream Immortal Venerable would be the strongest venerable in history. Being able to emerge as a venerable in this terrifying era means they have to be incredibly strong.”

While countless Gu Immortals made their guesses, the three parties involved were actively recuperating.

Dragon Palace.

“Sigh, I thought that I would be able to obtain Qi Jue’s true inheritance, to think that it was a trap!”

“Now that Demon Immortal Qi Jue has revived and we actually offended him, what do we do now?”

“It is all Xiao He Jian’s fault, he caused our two heavens alliance to fall into this awkward position.”

Most of the variant human Gu Immortals looked towards Xiao He Jian with animosity.

Xiao He Jian smiled coldly, he knew that this was the act of Ice Crystal Immortal Monarch, attempting to suppress him.

He had just joined the two heavens alliance but because of his great strength and reputation, he was already threatening Ice Crystal Immortal Monarch’s status, this was the cause of the animosity from the opposing faction.

“Have you all said enough?” At the main seat, Wu Shuai snorted coldly in displeasure.

Instantly, Dragon Palace became silent, all the immortals shut up.

At this point, Xiao He Jian showed a shameful expression, he bowed to Wu Shuai, saying in a tone of sincerity: “Lord Alliance Leader, I am at fault…”

But before he continued, Wu Shuai interrupted: “Enough, keep quiet. Even if Demon Immortal Qi Jue comes, we have the Evil Dragon and Dragon Palace, what is there to fear? The most urgent matter now is the qi harvest fruits in your grotto-heavens.”

“Demon Immortal Qi Jue revived using a qi harvest fruit, this thing clearly contains secrets and profundities, we have not explored it sufficiently. How are we going to get rid of the qi harvest fruits in your grotto-heavens? If we do not act quickly, your grotto-heavens will be in danger.”

“Indeed, indeed.”

“Lord Alliance Leader is right!”

“My grotto-heaven has already started producing a qi harvest fruit, this fruit is absorbing the heaven and earth qi of my grotto-heaven, it cannot be removed by force.”

“The same situation is happening in my grotto-heaven.”

“Right now is not the time to take revenge on Heavenly Court or defend against Demon Immortal Qi Jue, the most important thing is to get rid of the qi harvest fruits in our grotto-heavens.”

At once, all the immortals in the palace changed expressions as the topic was shifted to the qi harvest fruit.

However, this talk bore no fruit, the palace soon became shrouded in an atmosphere of panic and fear.

Even Xiao He Jian was the same.

Even though his grotto-heaven had not produced any qi harvest fruits yet, at this rate of development, it was only a matter of time.

Even Ice Crystal Immortal Monarch did not have the mood to compete with Xiao He Jian.

His Ice Crystal grotto-heaven’s qi harvest fruit was the largest, he was in the greatest danger.

Night Heavenly Wolf Lord also showed a bitter expression.

His grotto-heaven was not spared either, a qi harvest fruit was growing in it. Even though it was still small now, it was growing at a terrifying speed.

But Night Heavenly Wolf Lord was much less anxious than the rest.

“If the two heavens alliance cannot resolve it, I can get help from Heavenly Court.”

At this crucial juncture, Night Heavenly Wolf Lord felt that his decision to join Heavenly Court was extremely wise!

Night Heavenly Wolf Lord had a lot of expectations towards Heavenly Court.

After all, the first generation Heavenly Court Immortal King was Primordial Origin Immortal Venerable, he was a qi path cultivator.

Night Heavenly Wolf Lord secretly informed Heavenly Court about this as he sought help from them.

Heavenly Court had sent Fang Zheng and the rest to Qi Jue grotto-heaven but Demon Judgment Board did not enter it at all, he did not know what happened inside.

After getting Night Heavenly Wolf Lord's information, Heavenly Court learned the truth.

Qin Ding Ling placed huge emphasis on Demon Immortal Qi Jue's revival using the qi harvest fruit, as well as the disaster occurring in the two heavens' grotto-heavens! This was because Heavenly Court was not exempted, a qi harvest fruit was also growing in it.

She immediately summoned the immortals to research and think of countermeasures.

Heavenly Court had deep foundations, even after the fate war, it was still the number one super force in the world.

Especially when they had Primordial Origin's qi path true inheritance, they had a huge advantage in qi path, they were at the peak compared to all others.

And most importantly, Heavenly Court's research into heaven path was quite extensive, they had great results. Back then, even Limitless Demon Venerable was after their heaven path findings, he made the bet with Star Constellation.

"Heaven, earth, and humans all have veins, humans have human veins, the earth has earth veins, and heaven has heaven veins."

"The two heavens' grotto-heavens are all situated on the heaven veins, thus they benefit greatly and the grotto-heavens are nourished by the heaven veins, producing even more resources."

"However, the world is changing now as qi tides are produced. Qi tides appeared because of the unification of the five regions, the earth veins are becoming one. But the truth is, heaven veins are also merging into one, although the change is not very apparent now."

Heavenly Court's immortals found that the whole of heaven and earth was fusing into one. The five regions were just the start, the two immemorial heavens would start fusing together later as well. The five regions and two heavens were all separated originally, their heaven and earth qi were not the same. But with the fusing of the heaven and earth qi across all regions, qi tides would emerge as the places where they merge.

Wherever the qi tides go, abundant qi path immortal materials would be produced, qi harvest fruits were the quintessence of them.

The reason why the two heavens' grotto-heavens produced qi harvest fruits was because they were situated on the heaven veins, they were facing the brunt of the initial impact.

"That is to say, as long as these grotto-heavens relocate away from the heaven veins, they will resolve the problem of the qi harvest fruit?" Qin Ding Ling asked.

"Theoretically yes, or at least, once they move away from the heaven veins, the growth of the qi harvest fruits in the grotto-heavens will stop." Heavenly Court's immortals answered.

Qin Ding Ling frowned: "Once grotto-heavens are placed, they are hard to relocate, unless one has some special method to move them around. Our Heavenly Court is too big, it has the foundation of Primordial Origin Immortal Venerable's immortal aperture along with the future generations of venerables, and countless immortal apertures of Heavenly Court members, how can we relocate Heavenly Court?"

Heavenly Court became silent, they fell into deathly silence.

"Maybe… Demon Immortal Qi Jue has a method?" Breaking the silence, Fang Zheng spoke.

Qin Ding Ling's eyes shined with bright light.

That was true, the possibility of this was high!

Since Demon Immortal Qi Jue was able to revive using a qi harvest fruit, his understanding regarding qi harvest fruits should surpass everyone else. But to get him to cooperate with Heavenly Court, how hard would it be?!

“According to historical records, Demon Immortal Qi Jue will definitely not cooperate with Heavenly Court. Rather than him, we have a higher chance of getting Qi Sea Ancestor’s cooperation.”

“Indeed, we cannot resolve Heavenly Court’s crisis alone. To get rid of this qi harvest fruit calamity, we need a qi path great expert.”

“Duke Long had once given Qi Sea Ancestor half a portion of Primordial Origin’s true inheritance. During the fate war, Qi Sea Ancestor did not show up, he kept his promise. There is still hope of our cooperation now.”

“But Qi Sea Ancestor has some relationship with Fang Yuan…”

“In my opinion, this is a small matter. Ever since Qi Sea Ancestor appeared, all his actions state one motive. He wants to be the leader of Eastern Sea’s righteous path, be it the qi sea banquet or the resistance of the two heavens alliance, they show it clearly. His actions do not align with Fang Yuan’s interests, even if they cooperated before, it is not our problem.”

“Can’t our Heavenly Court settle this ourselves?”

“It will be too difficult, ever since the immortal graveyard was destroyed, Star Constellation’s will has not shown up once…”

“If we can cooperate with Qi Sea Ancestor, we might even be able to get him to join Heavenly Court. We really lack someone with pseudo venerable battle strength now.”

Qin Ding Ling sighed as she made her decision: “Let’s try it then.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2002 - Fragment of Xi

2002 Fragment of Xi

Immemorial white heaven.

Aurora lights moved in the air dazzlingly.

Eastern Sea rank seven Gu Immortal Qing Hui Zi flew around in the sky of aurora lights, unleashing immortal killer moves to continuously retrieve these aurora lights.

After gathering the rainbow lights in his hands, he turned them into balls.

The balls were then sent into his immortal aperture and buried in cloud soil. After some time, these aurora light balls would grow and sprout, becoming seedlings. By using lightning water and magnetic sound to water them, flowing light fruits would grow on them.

Flowing light fruits were a rank six immortal material, formed from extremely dense lights, having all kinds of color like red, brown, yellow, green, black, blue, purple.

Qing Hui Zi did not only pluck the flowing light fruits, he had his unique plantation methods. Precisely so, he was one of the three main sellers of flowing light fruits in treasure yellow heaven.

“With the qi tides weakening the heavenly wind qi wall, I can also get past them and explore immemorial white heaven for immortal materials. This is my fortuitous encounter.”

Qing Hui Zi sighed to himself.

Aurora lights were very common in the two heavens, they were produced abundantly.

Qing Hui Zi collected these aurora lights personally, it caused the cost of producing flowing light fruits to fall greatly, he could earn a huge profit.

As Qing Hui Zi collected the aurora lights, he paid attention to the heavenly wind qi wall below him.

He did not have the strength to survive long in immemorial white heaven, he could not even break the heavenly wind qi wall. Thus, he needed to pay attention to it constantly, once the hole created by the qi tides start to close up, he would need to return to Eastern Sea.

It was no joke.

If Qing Hui Zi got distracted and got trapped in immemorial white heaven, with his strength, he would not last until the next qi tide, he would die in this dangerous immemorial white heaven.

One could say that Qing Hui Zi was risking his life to get these aurora lights.

But Gu Immortal cultivation was not easy, even as a rank seven Gu Immortal, Qing Hui Zi needed to take risks to support his livelihood.

"Xi—!"

Right at this time, Qing Hui Zi heard a voice.

Next, winds blew and clouds shook, Qing Hui Zi was shocked to find out that the heavenly wind qi wall below him was being pulled away by a terrifying formless force.

In a few breaths of time, the surrounding tens of li of heavenly wind qi wall got sucked into the whirlpool at the center.

"What is going on?!" Qing Hui Zi was overwhelmed by fear and shock: "Is that an immemorial desolate beast? But I've never heard of any immemorial desolate beast with such strength!"

The heavenly wind qi wall vanished entirely, a secluded domain of heaven and earth that had a concave appearance could be seen.

Next, this silhouette of the secluded domain of heaven and earth went into the nose of a Gu Immortal who resembled a boy.

Qing Hui Zi saw this boyish Gu Immortal, his entire body and mind shook, he felt like cold water was poured on him, into the depths of his despairing heart.

“Ah, Demon Immortal Qi Jue!” Qing Hui Zi fell into deep despair: “Why am I so unlucky? I only wanted to collect aurora lights but I ended up encountering Demon Immortal Qi Jue!!”

The battle of Qi Jue grotto-heaven had happened recently but it could not be hidden, the world knew about it already.

Even though the killer move everybody’s vision wasn’t around for all the Gu Immortals to witness the battle themselves, Demon Immortal Qi Jue’s appearance and methods were widely spread already.

In the Gu Immortal world, there were a few people publicly recognized as terrifying beings that had to be avoided at all costs.

The number one person was Fang Yuan.

This demon had countless methods and outstanding strength, he did things without any regard or concern, he was ruthless and cruel, even Heavenly Court had no choice against him.

Wu Shuai was also on the list, he was the leader of the dragonmen, owner of Dragon Palace which enslaved Di Zang Sheng, he bore deep grudges towards humanity.

Demon Immortal Qi Jue was a newly added person.

As for Heavenly Court and Qi Sea Ancestor, because of their factions, they would not bully the weak, thus they were not on this list.

After Qing Hui Zi saw Demon Immortal Qi Jue, he recognized the demon, he stared in shock, frozen on the spot like a statue.

Demon Immortal Qi Jue frowned as he looked at his palm.

His palm was tiny and smooth, his body was still small like a boy.

Thinking about his revival, Demon Immortal Qi Jue felt angry and annoyed.

If he had some more time, he would revive perfectly and have the body of an adult. But the Evil Dragon caused great destruction in its movement, he had to revive in advance, it caused his body's growth to be halted, his potential was limited.

After absorbing this heavenly wind qi wall, he finally recovered some losses from the intense battle earlier.

After resting, he was going to set off again.

"Junior, come here." Demon Immortal Qi Jue looked towards Qing Hui Zi and called out.

Qing Hui Zi shivered, he went towards Demon Immortal Qi Jue with a bitter expression, fearing for his life.

Demon Immortal Qi Jue smiled lightly, he stretched out his finger as an eerie qi current flew out.

The qi current quickly surrounded Qing Hui Zi's body, he wanted to resist subconsciously but Demon Immortal Qi Jue shouted: "Don't move!"

Qing Hui Zi gritted his teeth, not daring to move at all.

He gave up on struggling, he let the qi currents enter his body and move around his soul.

After some time, Demon Immortal Qi Jue absorbed all of the qi currents that entered Qing Hui Zi back into his own body.

Instantly, he received a vast amount of information, he gained a much deeper understanding of the current era.

"This is truly a wonderful era filled with great excitement, interesting!” Demon Immortal Qi Jue’s eyes shined as he spoke in amazement.

Next, he instructed Qing Hui Zi: “Hand over your Gu worms.”

Qing Hui Zi’s lips twitched, for an instance, he wanted to resist but soon, logic took over his mind, he obediently handed over all of his Gu worms to Demon Immortal Qi Jue.

This action made Demon Immortal Qi Jue reassess him.

After taking away these Gu worms, Demon Immortal Qi Jue inspected all of them, he only took a few glances at Qing Hui Zi’s light path Immortal Gu before he placed his focus on those exceptional mortal Gu.

Especially Gu worms like soul search Gu, Demon Immortal Qi Jue was very interested in them.

At the end, he even returned the light path Immortal Gu to Qing Hui Zi.

Qing Hui Zi was very surprised.

Demon Immortal Qi Jue smiled: “Junior, you are not stupid enough to resist me. Who do you think I am? Why would I be greedy and take your trifling Immortal Gu? Scram now.”

Qing Hui Zi was in disbelief before it turned into deep joy: “Junior will never forget Senior Qi Jue’s magnanimity.”

“Hahaha, I searched your soul, why is there a need to thank me?” Demon Immortal Qi Jue laughed: “Go ahead and hate me, I don’t care. Even though this era is great, in the entire world, in the absence of the venerables, there are few people who I can take interest in. Even though I lack Immortal Gu, I have not sunk down to the level of snatching light path Immortal Gu. I want to take some qi path Immortal Gu!”

Qing Hui Zi instantly had a thought: “Senior, you want to go to qi sea?”

But at the next moment, Demon Immortal Qi Jue waved his sleeves impatiently.

Qing Hui Zi was surrounded by qi currents and could not move, he was sent flying by the movement of the qi currents.

Demon Immortal Qi Jue snorted, he did not look at Qing Hui Zi, he flew towards the direction of qi sea instead.

“I wonder how powerful this Qi Sea Ancestor is, hehe, I hope his qi path Immortal Gu will not disappoint me.” Demon Immortal Qi Jue carried great confidence as he went towards qi sea.

He flew in the sky of Eastern Sea, he was surrounded by qi currents as he moved rapidly across various sea areas.

He did not conceal his traces, causing huge waves along the way, the commotion shook the surroundings, his demonic might was exposed in full view. Along the way, he met several Eastern Sea Gu Immortals, these people scrambled in panic as they escaped.

“Oh?” Halfway through his journey, Demon Immortal Qi Jue’s expression turned to shock as he stopped his movement.

He felt a movement in his secluded domain of heaven and earth.

“Don’t tell me?” Demon Immortal Qi Jue was slightly stunned, he thought of something as joy appeared on his face.

He temporarily put aside the plan to head to qi sea, he changed directions and went southwest instead.

After some time, he arrived at a sea area.

The sky here had many white clouds, shrouding his vision, he could not see any starlight. Even when the sun was blazing, the sunlight could not penetrate the cloud layers, it only made the place brighter.

The surface of the sea was calm but inside it were countless currents. These currents were of all types and forms. They interlinked with one another, they moved in this sea area with absolutely no rhythm or pattern. Without the defensive methods of a Gu Immortal, mortal corpses would be torn to shreds in the currents instantly.

It was the turbulent flow sea area.

After inspecting it closely, Demon Immortal Qi Jue became quite happy: “Wonderful, wonderful. This sea area must have a fragment of Xi, that is the reason why it can create such turbulent currents.”

“To think that my luck would be strong after reviving.”

“I’ll retrieve this fragment first and absorb it before going to find that Qi Sea Ancestor.”

Thinking of this, Demon Immortal Qi Jue plunged into the sea, vanishing from plain sight.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2003 - Qi Jue Suppresses Qi Sea

2003 Qi Jue Suppresses Qi Sea

Inside the sovereign immortal aperture.

The disasters were still ongoing, the situation was slowly moving towards the abyss of doom.

Fang Yuan's losses were severe. In order to save his resource points, he had already deployed the variant human and human Gu Immortals in his immortal aperture to different areas, they were tasked to take care of the resources and they were even given mortal Gu that could be used to detect heaven's will.

Along with Fang Yuan's time path clone and main body working together to get rid of the newly created heaven's will, he managed to save all the large resource points in the sovereign immortal aperture.

However, as long as the heaven path dao marks were not refined by Fang Yuan, they would continue to produce endless heaven's will in increasing quantity.

Even though Fang Yuan was using his full strength, he could not stop the situation from aggravating further.

He could only barely protect his resource points now, but the sovereign immortal aperture was too huge, resource points were only a small part of it. In most areas, heaven's will was produced, moving towards the respective resource points like a huge army.

Fang Yuan knew that this situation was at its most crucial point now!

He could no longer cleanse all the heaven's will, in order to prevent the grotto-heaven's heaven's will from linking with the five regions, he had to create an isolated secret space in qi sea, to prevent heaven's will from detecting him.

As for the external situation, Demon Immortal Qi Jue's revival was out of Fang Yuan's expectations, Demon Immortal Qi Jue said that he would go and meet Qi Sea Ancestor, he was not joking.

There were both internal and external problems!

"Now, it will depend on the effectiveness of this immortal formation." Fang Yuan's concentration was invested into this rule path formation.

This formation was situated in Mini Blue Heaven, it floated on its own, it was a modified version of the five regional limit formation.

Fang Yuan had wisdom path attainment, he knew long ago that the situation would progress like this, he made preparations in advance and tried to come up with countermeasures early.

Not long ago, he gained some inspiration and decided to mimic the qi tides to deal with the heaven's will in his immortal aperture.

And this rule path formation was the fruit of his research.

Rank eight immortal essence was already piled up at the side, stored into the immortal formation. With Fang Yuan's thought, this huge formation that covered the range of more than ten li started to activate.

Whoosh whoosh whoosh…

The formation created huge winds, as the sounds of the wind resounded in heaven and earth, countless qi currents appeared from the formation, as if the entire sky was covered in steam, it was completely white, one could not see anything.

The formation suddenly emitted profound light. The profound light landed on the white qi and pushed it like a giant hand.

At the next moment, thirty percent of the white steam qi moved forward like a gushing fountain.

The profound light entered the white qi and modified it, causing the scattered white qi to become more concentrated.

Finally, the white qi that was pushed out turned into a qi tide as it swept towards the southeast direction firmly. Along the way, the qi tide was like a brush that cleaned up the surrounding heaven and earth qi in its path.

In terms of strength, the qi tide that Fang Yuan created could not compare to a true one. But its strength was quite amazing already, it could easily take the lives of mortal Gu Masters.

This was also why Fang Yuan set up the formation in Mini Blue Heaven, it was to prevent an accident from slaughtering countless lifeforms, it would cause him a huge loss.

After moving for an hour, this qi tide almost reached the aperture wall boundary of Mini Blue Heaven.

Fang Yuan inspected the results, he found that the heaven's will that he had specially arranged here was all cleanly removed, not a trace was left. Furthermore, along the path that the qi tide moved, heaven and earth qi were well blended, it was peaceful and calm.

Fang Yuan let out a breath of air, this was good news.

With this formation, he could finally get rid of the huge problem of heaven's will.

This carried huge significance to him!

If he could not get rid of heaven's will, he would be trapped inside qi sea's formation to prevent his location and identity from being exposed to heaven's will.

The pressure that was weighing down on Fang Yuan dissipated to some extent.

Now that he looked at the qi tide again, he felt that he had a deeper understanding of it.

“Qi tides are created because of the differences in heaven and earth qi. It is like how water flows down a cliff to create a waterfall. The qi tides are similar, because of the disappearance of the regional walls, with the unification of earth veins, the different heaven and earth qi of the five regions merge and cause qi tides to appear.”

“In the future, when heaven and earth qi becomes the same in all five regions, there will no longer be any qi tides.”

“As for the five regional walls? The truth is, they are all qi tides in essence.”

The heaven and earth qi of the five regions were different, thus at the intersection points of these regions, there would be disparity in the heaven and earth qi. But because the earth veins were different back then, the heaven and earth qi could not fuse together like now, they eventually gathered and formed into dense regional walls.

Gu Immortals suffer backlash when using killer moves in the five regional walls, it was similar to being in the qi tides. The reason was that their own heaven and earth qi differed from those in the regional walls.

As for the five regional walls that Tao Zhu researched on for his entire life, they were simply just qi tides!

However, his research was focused on the aspect of rule path. His main result was five restriction profound light qi, from this name alone, it showed a connection to qi path.

Fang Yuan had Tao Zhu’s true inheritance, he had half a portion of Primordial Origin’s true inheritance, along with Qi Xiang’s foundation and his own qi path attainment level, he had immense foundation, Fang Yuan quickly made some progress and obtained gains.

“Next, I will need to modify this formation slightly and scatter the sub-formations all over the aperture, I will send out qi tides to eliminate heaven's will."

"The problem of heaven's will has been settled, but the refinement of heaven path dao marks is still a huge problem."

But Fang Yuan had to put this problem aside for now, because he had to guard against Demon Immortal Qi Jue, who was coming for him.

The identity of Qi Sea Ancestor was very valuable. During the fate war, Fang Yuan tried his best to conceal it, he did not expose any clues that they were the same person.

In order to preserve his Qi Sea Ancestor identity, Fang Yuan's main obstacle now was Demon Immortal Qi Jue.

On one hand, Fang Yuan used the formation to settle his internal threat, on the other hand, he waited patiently for Demon Immortal Qi Jue to arrive.

According to Fang Yuan's deductions, Demon Immortal Qi Jue was going to come here for a fight during this period of time.

After waiting for some time, one day, a change occurred above qi sea.

White qi waves surged in the sky, they were grand and unceasing, pressing down on qi sea with immense force.

Within the qi waves, Demon Immortal Qi Jue's boyish figure could be vaguely seen, filled with demonic aura.

Soon, his young but confident voice resounded: "Junior Qi Sea, I, Demon Immortal Qi Jue, have come here for you."

"Qi Jue, what is the matter?" Fang Yuan appeared, activating qi sea's formation as he stood on the surface of the sea, looking up and speaking.

Demon Immortal Qi Jue chuckled: "I have just revived, I do not have my Immortal Gu now. I heard that you are the sole qi path great expert at the peak of rank eight, I have come here to borrow some Gu."

“Hahaha, borrow Gu indeed.” Fang Yuan laughed loudly, he could feel the arrogance in Demon Immortal Qi Jue’s words: “The Immortal Gu are with me, whether you can get them will depend on your abilities.”

Demon Immortal Qi Jue laughed as his young face showed deep battle intent: “Good! Junior, I like your personality, face this move of mine.”

Immortal killer move — Great Qi Grasp!

Instantly, a milky white qi current hand flew out like a small mountain, pressing down on Fang Yuan.

This was the move that made Di Zang Sheng cry out in pain, it was incredibly profound, able to scatter or take form, Gu Immortals could not deal with it easily.

Fang Yuan breathed in deeply, he had a calm expression that showed no anxiety. He extended his hand and he pushed forward.

Rumble!

A qi wall that was a hundred li long soared up into the sky, it was grand and magnificent.

The qi wall collided into the hand, the hand was forced to retreat, it could not stop the qi wall from flying up.

Demon Immortal Qi Jue smiled lightly, he pointed his finger as the qi current hand scattered, attempting to infiltrate the qi wall in the form of countless currents.

But the attempt failed to do anything.

Fang Yuan’s qi wall was not only huge, it was densely packed, Demon Immortal Qi Jue had no way to penetrate it.

Demon Immortal Qi Jue’s expression changed at this moment: “This is a powerful qi wall, what is the name of your move?”

Fang Yuan said frankly: “I created this move specially for you, Qi

Jue, I have not named it yet. Do you have any good suggestions?”

Demon Immortal Qi Jue squinted uncontrollably as bright light shined in his eyes.

The fact that Qi Sea Ancestor had just created this move was scarier than him having this move for a long time. This meant that Qi Sea Ancestor had very high qi path attainment level, he could observe the battle situation and modify his own qi path killer move successfully to deal with his enemies!

Demon Immortal Qi Jue did not know that Fang Yuan was focused on modifying the five regional limit formation, this qi wall killer move was merely a small part of his effort.

Even though Fang Yuan lost wisdom Gu, he still had abundant wisdom path methods.

As the qi wall continued to rise into the sky, the milky white qi currents that filled the sky had to retreat further upwards.

By the time it reached Demon Immortal Qi Jue, the qi wall suddenly transformed, it turned into two hands, one black and one white, clapping together from the right and left directions.

Demon Immortal Qi Jue did not dodge, he allowed the black and white hands to grab him.

As the hands started to exert pressure, at the next moment, there was a loud voice coming from within the hands: “Xi—!”

Both hands were instantly absorbed into the silhouette of a concave secluded domain.

This time, it was Fang Yuan’s turn to be shocked, he keenly sensed that the secluded domain of heaven and earth above Demon Immortal Qi Jue’s head was more complete than the last time he saw it.

Demon Immortal Qi Jue knew that ordinary methods could not work against Qi Sea Ancestor, he directly used his trump card.

Secluded domain of heaven and earth — Xi.

Fang Yuan tried to use his methods, all sorts of qi path killer moves attacked Demon Immortal Qi Jue, but Xi Land would absorb them all. It was like a bottomless hole, Fang Yuan could not fill it up no matter what.

With Xi Land above his head, Demon Immortal Qi Jue had the advantage, he could not lose.

He even started to critique Fang Yuan's qi path killer moves casually.

"This pair of black and white hands is a nice concept, by including yin and yang qi, you can use the attraction force of the two to amplify the power of this move."

"Your qi path defenses are also quite impressive. Every single thread of your clothes is made of wind qi, are you trying to mimic the heavenly wind qi wall?"

"It is a true pity. If it were before, you would still be a threat to me. But regrettably, I have recently dismantled the turbulent flow sea area and also completely fixed Xi Land. With this, I can counter all qi path methods in the world, Junior Qi Sea, you are no exception!"

"How is it? May I borrow your Immortal Gu now?"

The reason why Demon Immortal Qi Jue gained his reputation was because of this, it countered all qi path methods in the world.

All qi path killer moves would be absorbed by Xi Land, unless the killer move could surpass the limits of Xi Land. But the problem was that Demon Immortal Qi Jue had already fully repaired Xi Land, it experienced a qualitative change in battle strength.

In a way, it was easier for him to deal with Qi Sea Ancestor than Wu Shuai, who controlled Dragon Palace.

Chapter 2004 - Heavenly Court“s Reinforcements

2004 Heavenly Court“s Reinforcements

Turbulent white qi covered the sky above qi sea in a chaotic fashion.

Demon Immortal Qi Jue stared down at Qi Sea Ancestor while emitting a grand demonic aura. The phantom image of Xi Land appeared in its full glory above his head, placing him in a highly advantageous position.

“Junior Qi Sea, is my cultivation enough to borrow Gu from you?” Demon Immortal Qi Jue said again.

Fang Yuan felt heaviness.

The previous exchange of moves had already allowed him to understand many details about Demon Immortal Qi Jue.

There was no need to mention the various killer moves possessed by Demon Immortal Qi Jue, his trump card was clearly the secluded domain of heaven and earth, Xi Land. With this secluded domain of heaven and earth, he could counter all qi path Gu Immortals in the world.

If it were other paths, Demon Immortal Qi Jue would not have such huge dominance. But Qi Sea Ancestor’s main cultivation happened to be qi path and was thus suppressed heavily.

This showed Demon Immortal Qi Jue's nature.

He might be domineering in his actions, but he was not stupid, he knew how to play to his advantage. Thus, after he revived, he did not continue fighting with the three sides and chose to retreat wisely. He then completed his Xi Land along the way and increased his battle strength. Now, he appeared in front of Qi Sea Ancestor and demanded to borrow Immortal Gu.

The moment he gains rank eight qi path Immortal Gu, his strength would definitely soar and firmly hold its position at the peak of the present age.

With just Qi Sea Ancestor's methods, Fang Yuan was indeed not Demon Immortal Qi Jue's match, but he was not panicked.

Fang Yuan always took action after planning first.

He had already known of Demon Immortal Qi Jue's threat and modified qi sea's formation. As long as he retreated into the formation, he would be able to resist for some time.

If Demon Immortal Qi Jue charged into the formation, Fang Yuan could detonate this large formation and create an opportunity to retreat.

Speaking of it, Fang Yuan had obtained this detonation method from Fang Di Chang. Back then, Fang Di Chang set a trap for Fang Yuan in Divine Bean Palace, he wanted to sacrifice wisdom path Gu Immortal Suan Bu Jin by detonating the Immortal Gu House inside Divine Bean Palace and thus break through the impasse and refine Divine Bean Palace in one move.

Fang Yuan saw through the scheme and captured Fang Di Chang. After soul searching, he obtained the method of Immortal Gu House self-detonation. He then modified the method and arranged it in qi sea's formation.

The self-detonation would be extremely powerful, even if it did not threaten Demon Immortal Qi Jue's life, it could obstruct him for a period of time.

Fang Yuan was very confident about this.

But…

If Fang Yuan used the formation's self-detonation to retreat, the value of this Qi Sea Ancestor identity would fall sharply.

To preserve this identity, Fang Yuan intentionally restrained himself from using many qi path methods during the fate war. Even unlimited qi sea was used just once.

Were Fang Yuan to retreat, it would mean Qi Sea Ancestor was defeated by Demon Immortal Qi Jue. From then on, Qi Sea Ancestor's reputation would fall greatly and his appeal to Eastern Sea would lower sharply.

Demon Immortal Qi Jue frowned slightly, he had spoken twice but Qi Sea Ancestor did not respond. His patience reached the limits.

He snorted and was about to continue attacking when a blood red ray of light suddenly pierced through the skies and shot right towards his face.

Demon Immortal Qi Jue dodged quickly and turned around to see Demon Judgment Board appear in the horizon.

"Heavenly Court, you again!" Demon Immortal Qi Jue sneered: "I am not looking for trouble with you but you are instead trying to provoke me. After such a heavy defeat in the fate war, what confidence do you have to act like this?"

"Heavenly Court defends humanity's righteous path, our actions are not because of confidence but because of our beliefs!" A reply came from inside Demon Judgment Board.

This was not Gu Yue Fang Zheng's voice, it was a female voice.

Fang Yuan's heart shook slightly when he heard the voice: "Qin Ding Ling came personally? So the reinforcement shown by my luck actually refers to her!"

Demon Immortal Qi Jue pointed his finger towards Demon Judgment

Board.

Qi currents surged and transformed, rapidly gathering into a lump. In an instant, hundreds of milky white qi spheres shot towards Demon Judgment Board like meteors, creating a series of explosions.

Demon Judgment Board's momentum stopped and shook violently from the explosions.

Demon Immortal Qi Jue was about to say something when his expression changed suddenly. He quickly withdrew and moved away from his spot like lightning.

The previous blood red ray of light shot by Demon Judgment Board actually turned around to attack him.

Demon Immortal Qi Jue evaded the blood red light but he did not expect golden light to shoot out from this blood red light.

The golden light condensed rapidly into a huge golden scissors above Demon Immortal Qi Jue's head.

Crack, crack.

The golden scissors cut Demon Immortal Qi Jue's head repeatedly, but the attacks seemed to be in vain.

Demon Immortal Qi Jue, however, paled suddenly.

"This is a luck path method!"

He quickly activated investigative killer moves and immediately felt a loss: "Damn it, these golden scissors are cutting my luck!"

Demon Immortal Qi Jue put great emphasis on maintaining his luck, after his revival and later dismantling turbulent flow sea area to replenish Xi Land, he had already consumed a lot of his luck. The attacks of the giant scissors were making things worse.

"Qi Sea, Heavenly Court, I will remember this. If there is a chance in the future, I will settle it with both of you properly." Demon Immortal Qi Jue's voice resonated throughout the area.

After this sentence, he immediately entered milky white qi currents that filled the sky and left the battlefield rapidly.

“Retreating again?” Gu Yue Fang Zheng, who was inside Demon Judgment Board, was somewhat stunned.

On the contrary, other Heavenly Court members looked solemn.

Qin Ding Ling sighed and explained to Fang Zheng: “This is the terrifying thing about Demon Immortal Qi Jue. He always maintains his calm and has a clear judgment of the situation. We can only give him some trouble, but in the current situation, Qi Sea Ancestor would not just stay on the sidelines. With Demon Immortal Qi Jue’s battle strength, it won’t be difficult for him to oppose our joint attacks. But the battle will be intense and his plan to borrow qi path Immortal Gu has no chance to succeed. So he directly chose to retreat to preserve his strength.”

Fang Zheng immediately realized: “I understand. Demon Immortal Qi Jue is a person from a million years ago after all, he has just revived and doesn’t have much contact with new paths. Against Demon Judgment Board’s blood path attack and your luck path golden scissors, he prioritized on dodging them. When he gets familiar with these paths and modifies his killer moves, it will be much more difficult for us to confront him.”

“That is correct.” Qin Ding Ling nodded: “Let’s get out and have a talk with Qi Sea Ancestor.”

Heavenly Court Gu Immortals filed out with Qin Ding Ling taking the lead and Gu Yue Fang Zheng following closely behind.

They put away Demon Judgment Board of their own initiative, demonstrating Heavenly Court’s sincerity.

“Thank you for helping this old man get through this danger.” Fang Yuan heaved a long sigh.

Qin Ding Ling was wearing a golden armor and a cape, and in combination with her tall body, wide shoulders and long legs, she emitted heroic aura. But this heroic aura was different from Feng Jin

Huang's, it had a natural nobleness to it that felt like it was innately above others.

But right now, Qin Ding Ling had a smile on her face as she showed the initiative to get close to Fang Yuan.

She spoke: "Ancestor, if not for your injuries, how could Demon Immortal Qi Jue be so rampant? Moreover, I saw that you were calm throughout the battle, you definitely have some trump cards up your sleeves. We might even have to ask for your understanding and to not blame us for interfering."

These words were so polite that Fang Yuan felt like it was similar to a warm spring breeze.

Heavenly Court's attitude was different compared to his previous life. At that time, Heavenly Court was oppressive and gave no way out for others. But in this life, Heavenly Court's leader took the initiative to treat others warmly.

After the fate war, Heavenly Court's Gu Immortals' attitude was completely different from before the war. Before the fate war, Heavenly Court had fate Gu and possessed huge advantages. But now that fate Gu was destroyed, Heavenly Court's strength had diminished sharply, on one hand, they were actively recuperating, while on the other hand, they took the initiative to make alliances.

Qi Sea Ancestor became a goal in Heavenly Court's eyes and was the best ally for them.

Demon Immortal Qi Jue wanted to find an expert to spar with, naturally, he would first look for Qi Sea Ancestor. After all, be they Fang Yuan or Feng Jiu Ge, their traces were vague and hard to find. However, Qi Sea Ancestor stayed in qi sea and could be found easily.

Since Heavenly Court wanted to ally with Qi Sea Ancestor, they naturally wanted to use Demon Immortal Qi Jue.

After all, adding icing on the cake cannot compare to offering help in times of need.

Heavenly Court helped Qi Sea Ancestor ward off Demon Immortal Qi

Jue, it was not a casual action but was planned for a long time.

It was not only Fang Yuan who had been waiting patiently for Demon Immortal Qi Jue, Heavenly Court was also the same.

“Friends, please come in. Let this old man prepare a simple feast to express some gratitude.” Fang Yuan led the Heavenly Court immortals into qi sea’s formation.

He prepared a feast and hosted the Heavenly Court immortals.

During the banquet, the Xia clan immortals who were staying as guests were also invited to join.

The Xia clan immortals were grateful towards the Heavenly Court immortals, they had a very enthusiastic attitude.

They had seen Demon Immortal Qi Jue’s fight with Qi Sea Ancestor, they felt very worried.

Their territory was already seized by Wu Shuai, so they could only put the hope of regaining their territory in Qi Sea Ancestor. If Qi Sea Ancestor was defeated or died, it would be a cruel blow to all the Xia clan members.

Thus, Heavenly Court helping Qi Sea Ancestor was like helping them.

When Qin Ding Ling saw the Xia clan immortals, she immediately expressed her sympathy and condemned the two heavens alliance. She even promised she would certainly fight against this large variant human alliance.

This attitude made Xia clan have an even better impression of them.

The face of Xia clan’s first supreme elder even reddened with joy.

This was different from the empty words of the other Eastern Sea super forces, Heavenly Court had truly taken actions. Previously, Demon Judgment Board carried three immortals and attacked the two heavens’ grotto-heavens, every Gu Immortal in the world knew of this.

Qin Ding Ling inquired about Xia clan's recent situation.

All the Xia clan Gu Immortals replied: They were hosted well by Qi Sea Ancestor and would always be grateful, it was just that they had a worry about when they could return to their home.

Qin Ding Ling realized Qi Sea Ancestor's intention.

"He is raising his reputation! His ambition is truly big."

Qin Ding Ling was happy to see this. As long as Qi Sea Ancestor had greed and ambition, they would have the foundation to cooperate.

Fang Yuan naturally did not invite the Xia clan Gu Immortals to join the banquet for no reason.

Through Qin Ding Ling's attitude towards the Xia clan Gu Immortals, Fang Yuan was even more certain of Heavenly Court's purpose in coming here. At the same time, he was also making this native force, Xia clan, serve as a witness. After all, as an Eastern Sea Gu Immortal, having close ties with Heavenly Court would lower Qi Sea Ancestor's authority in Eastern Sea.

After a few rounds of wine, Fang Yuan took the initiative to speak: "Friends from Heavenly Court, you helped me today, this old man shall remember this favor. If Heavenly Court has any trouble in the future, I am willing to contribute my strength to Heavenly Court."

This was a clear gesture.

Heavenly Court's immortals were spirited when they heard it.

Qin Ding Ling put down her cup slowly and looked at Qi Sea Ancestor with a smile as she finally got to the main topic: "To tell the truth, Heavenly Court is indeed facing some issues currently. We came to ask for Ancestor's help."

"Oh? Please explain." Fang Yuan asked straightforwardly.

Qin Ding Ling did not mention the matter of the qi harvest fruit emerging in Heavenly Court, instead she handed over an information path mortal Gu to Qi Sea Ancestor.

Fang Yuan probed with his consciousness and was immediately moved.

The content of this information path mortal Gu was the remaining half of Primordial Origin’s true inheritance!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2005 - Cooperating with Heavenly Cour

2005 Cooperating with Heavenly Cour

The moment Fang Yuan saw this remaining half of Primordial Origin’s true inheritance, he had a thought, it was not related to the true inheritance.

“Should I use this chance to capture these Heavenly Court Gu Immortals in one fell swoop?”

This thought was very attractive.

Qin Ding Ling was currently the temporary leader of Heavenly Court, Heavenly Court would definitely receive a huge blow if they lost her. Gu Yue Fang Zheng was arranged by heaven’s will and was a crucial character to restrain the otherworldly demon Fang Yuan. If Fang Yuan killed him, he would be free from this shackle. The accompanying Prince Feng Xian, Bai Cang Shui, and the rest were also pillars of Heavenly Court currently. If they were gone, it would be a great disaster to Heavenly Court and the whole of Central Continent’s righteous path.

But thinking about it, Fang Yuan gave up on this idea.

His current strength was not complete and he could not maintain his battle strength because of the heaven path dao marks.

On the surface, the Heavenly Court immortals were conversing happily and looked relaxed, but how could they not be on guard in Qi Sea Ancestor's domain?

It was just that they pretended to be relaxed to show their sincerity and friendliness.

Even if Fang Yuan activated qi sea's formation, the Heavenly Court immortals would definitely take out Immortal Gu Houses immediately and defend.

Were he to attack the Heavenly Court immortals right now, whether it resulted in victory or defeat, Fang Yuan's Qi Sea Ancestor identity would be met with heavy scrutiny.

In truth, Fang Yuan was willing to cooperate with Heavenly Court.

Even though Heavenly Court tried all methods to create difficulties for Fang Yuan and attempted to kill him, even forcing him into near death situations, as long as there were enough benefits that were useful for him in pursuing eternal life, Fang Yuan was not conflicted over cooperating with Heavenly Court.

Heavenly Court wanted to cooperate with Qi Sea Ancestor for their own benefits.

Fang Yuan would also similarly receive huge gains from cooperating with Heavenly Court.

There was no need to mention the long term benefits, merely Fang Yuan forcing back Demon Immortal Qi Jue with the help of Heavenly Court was enough to guarantee the value of this Qi Sea Ancestor identity. At the same time, Heavenly Court also took the initiative to give the remaining half of Primordial Origin's true inheritance to him!

Fang Yuan was rather moved as he held the information path mortal Gu.

Back then, he had spent much thought and effort to scheme for this qi path true inheritance. Duke Long was shrewd, Thieving Heaven's method could reduce his lifespan but he pretended it did not work and used half of Primordial Origin's true inheritance to successfully stabilize Qi Sea Ancestor.

The remaining half was held firmly by Duke Long and Fang Yuan was unable to get it.

Fang Yuan did not hold any hope but who could have thought that after the fate war, he would actually obtain the remaining half of Primordial Origin's true inheritance through Qin Ding Ling.

In the remaining half of Primordial Origin's true inheritance, the triple qi retraction Fang Yuan coveted was recorded.

"Qin Ding Ling cannot be underestimated." Fang Yuan sighed in his head.

Without even mentioning any requests, Qin Ding Ling directly handed the remaining half of Primordial Origin's true inheritance to Qi Sea Ancestor, the courage needed for this move was truly immense. Qin Ding Ling's and Heavenly Court's sincerity was shown fully.

"If Qin Ding Ling knew I was Fang Yuan, I wonder what expression she would show?"

Duke Long helped the enemy previously and now Qin Ding Ling continued this trend. Were Qin Ding Ling to know the person in front of her was the greatest culprit of the fate war and she had personally handed the true inheritance to him, she might cough blood from anger.

"I genuinely feel your sincerity. What troubles do you have, I will use all my strength to help Heavenly Court!" Fang Yuan stored the information path mortal Gu in his aperture, he already guessed Heavenly Court's troubles.

Qin Ding Ling let out a sigh of relief as she saw Qi Sea Ancestor putting away the information path mortal Gu.

What she had been worried about was that possibility of Qi Sea Ancestor not agreeing to help. After all, Qi Sea Ancestor had been a secluded cultivator who did not care about things that did not concern him. Maybe the information given by the reborn Fang Yuan made Qi Sea Ancestor realize that if he were to continue his secluded cultivation, Heavenly Court would look for trouble with him, so he changed his way of doing things.

Qin Ding Ling did not know how Heavenly Court became enemies with Qi Sea Ancestor. But since Qi Sea Ancestor believed Fang Yuan's words, it was clear Fang Yuan had provided enough evidence.

This was a mess that they were not responsible for, with the destruction of fate Gu, the future had changed, Heavenly Court was unable to find out anything about it. Qin Ding Ling could only rely on the current situation to infer and deduce.

It was normal for Qin Ding Ling to have some worries.

After all, Qi Sea Ancestor had a hostile relationship with Heavenly Court before and had only turned neutral because of Duke Long's mediation. Right now, to recruit Qi Sea Ancestor, Qin Ding Ling had to take out something that Qi Sea Ancestor would not be able to refuse.

Qi Sea Ancestor accepted Primordial Origin's true inheritance and immediately showed a firm attitude of helping Heavenly Court.

Qin Ding Ling was very relieved. Her scheme did not end here. Primordial Origin's true inheritance was only bait, Qi Sea Ancestor would require suitable qi path Immortal Gu to activate the killer moves recorded in it.

And these qi path Immortal Gu were all in Heavenly Court's treasuries.

These were the chips to tempt Qi Sea Ancestor later on.

"Perhaps we can still use Demon Immortal Qi Jue's pressure to push Qi Sea Ancestor to join Heavenly Court." This inspiration emerged in Qin Ding Ling's mind but was temporarily suppressed.

She began to explain the issues Heavenly Court was facing.

Fang Yuan stroked his beard as he ascertained his guesses. Just like he predicted, the qi harvest fruit appeared in Heavenly Court as well.

With Duke Long's sacrifice and the immortal graveyard's destruction, Heavenly Court no longer had a qi path expert to stabilize the situation, thus it was very difficult for them to resolve the issue of the qi harvest fruit.

Qin Ding Ling handed Primordial Origin's true inheritance straightforwardly and also hoped this true inheritance could help Qi Sea Ancestor in dealing with the issue of the qi harvest fruit much more quickly.

Fang Yuan thought for a bit and nodded: "I will handle this matter of the qi harvest fruit. But I have no methods to deal with it now and need to be in closed cultivation for some time to research Primordial Origin's true inheritance."

At this moment, Xia clan's first supreme elder suddenly said: "Lord Ancestor, you are injured and have to recuperate first. Your safety not only concerns Eastern Sea but is also related to maintaining the overall situation of humanity and the variant humans."

He was worried and afraid that if Qi Sea Ancestor were to collaborate with Heavenly Court, Xia clan's matters would be pushed aside.

Qin Ding Ling smiled: "You don't have to worry, I am going to talk about the two heavens alliance now. Wu Shuai is currently a huge demon and also a sinner who invaded Heavenly Court, we absolutely won't let him develop. We came here to ask for Ancestor's help as well as to deal with this variant human force."

After a slight pause, she continued: "Heavenly Court is willing to take out immortal materials to finance Ancestor and Xia clan, to help you reclaim your lost land. In the future battles, if necessary, Heavenly Court will send reinforcements to lend a hand in fighting against the variant human races."

"Ah!" Xia clan's first supreme elder exclaimed in shock and bowed: "Heavenly Court is righteous and worthy of being the number one force of humanity. I am extremely grateful, the whole of Xia clan is immeasurably grateful!"

Qin Ding Ling chatted with Xia clan's first supreme elder for a while, deepening their relationship quickly.

Heavenly Court lost the fate war but it did not lack resources, it only lacked manpower.

In this trip to Eastern Sea, Heavenly Court wanted to entice Qi Sea Ancestor while also targeting Xia clan's Gu Immortals. Roping in a native force of Eastern Sea would establish their foundation in the future five regions chaotic war.

This was a long-term plan.

The unfortunate thing was that Heavenly Court and Xia clan's immortals did not know Wu Shuai and Qi Sea Ancestor were the same person in essence. This was truly a huge secret that would shock the world.

Fang Yuan nodded without hesitating: "I will never let the two heavens alliance exist in Eastern Sea, I will certainly drive them out and exterminate them thoroughly!"

Qin Ding Ling raised her hand: "In my view, the two heavens alliance has human forces as well, it is just that the two heavens alliance is being firmly controlled by variant humans currently. These human forces are not different from us, we are all humans. We should stick together and unite. So, there is no harm in splitting them first before we take action."

Fang Yuan immediately understood the meaning: "Could it be that some human forces in the two heavens alliance have already surrendered to you?"

Qin Ding Ling shook her head: "It is not like that. We were able to capture a rank eight Gu Immortal. She is called Granny Skeleton, the current owner of Shattered Bone grotto-heaven in the two heavens."

Granny Skeleton was persuaded by An Chong's words and wanted to join the two heavens alliance. But halfway in her journey, she was ambushed and captured by Heavenly Court.

Naturally, it was Night Heavenly Wolf Lord who provided this information.

Lady Cold Ash wanted to unite the human forces in the two heavens and fight for authority in the two heavens alliance. She had already made Night Heavenly Wolf Lord one of her helpers, but she could have never expected Night Heavenly Wolf Lord to have already sided with Heavenly Court.

“Granny Skeleton?” Fang Yuan paused a bit before asking: “Is this person here right now?”

Qin Ding Ling shook her head: “My Heavenly Court uses virtuous means, we let her go after persuading her for some time.”

The eyes of Xia clan’s first supreme elder opened wide at these words, he felt some worries regarding Heavenly Court’s ‘naivety’ but did not speak up.

Fang Yuan, however, looked at Qin Ding Ling with deep meaning and smiled: “Looks like Granny Skeleton is a crucial character and the key to tempt her to join us should lie on the qi harvest fruit’s matter.”

Qin Ding Ling laughed and raised her cup in praise: “Ancestor, you have discerning vision. The issue of the qi harvest fruit appeared in Shattered Bone grotto-heaven as well, if we can solve this issue, we can rope in Granny Skeleton and other human forces.”

“Good plan!”

“If we can rope in these human forces, it would be their loss and our gain, this will be a great blow to the two heavens alliance, and there is even a chance they will disintegrate.”

“Those of other races have different motives, the human Gu Immortals in the two heavens are of the same race as us. As long as we show enthusiasm and sincerity, it should not be difficult to recruit them.”

Xia clan’s immortals smiled and conversed, some clapped and laughed, the atmosphere of the banquet became increasingly lively.

Fang Yuan had a smile as he observed the Gu Immortals’ expressions from his seat.

If they knew their enemy had already known of their plan before they even implemented it, how would they feel?

Fang Yuan's gaze moved around before finally stopping on Qin Ding Ling's face.

"Although she only cultivates luck path, her leadership is up to standard."

"At her level, she should have reached the level of being proficient in mimicking other paths too. Ordinary wisdom path rank eights are also not superior to this."

'Of course, there is still a large gap between her and Fairy Zi Wei.'

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2006 - Shadow Sect“s True Members

2006 Shadow Sect“s True Members

Central Continent.

“This qi harvest fruit is mine!”

“Get lost.”

“You wish.”

The qi tide had just passed, a group of Central Continent lone immortals was fighting fiercely for around ten qi harvest fruits.

To grotto-heavens, the qi harvest fruits that emerged inside them were a huge calamity. But the qi harvest fruits that were left behind after the qi tides were precious treasures coveted by every Gu Immortal.

It had already been a while since qi tides appeared, the five regions’ Gu Immortals were fully aware of the excellent effect of the qi harvest fruit.

Gu Immortals did not need any qi path attainment, as long as they obtained qi harvest fruits and crushed them in their aperture, they could greatly improve the harmonization of heaven and earth qi. Thereby, gaining freedom of action earlier than other Gu Immortals.

Just as the immortals were fighting, a snowy ray of light pierced through the skies, shooting towards them.

The ray of light was sharp and fierce, shooting right towards a Gu Immortal.

This Central Continent Gu Immortal was only rank six, he sneered when he saw that the ray of light looked fierce but only had rank six aura, he activated his defensive killer moves.

Bam.

The ray of light struck the Gu Immortal and pierced through him.

“How?!” The struck Gu Immortal’s eyes were wide open, his expression filled with disbelief.

Both sides were rank six, so why was there such a huge gap!

“Who is it?”

“Ah, could it be Snow Demon!”

The remaining two Central Continent Gu Immortals were also rank six. They were pale with fright when they saw the Gu Immortal whom they had been fighting at a deadlock with die immediately.

The two immediately thought of a mysterious demonic immortal who had emerged recently, this person appeared often to fight for qi harvest fruits and was very vicious.

The two retreated quickly, not daring to fight.

That snow ray of light ignored them and moved straight towards its goal, looting the qi harvest fruits.

After the snow ray obtained them, it left immediately with extreme vigilance.

After moving for a few minutes and using various concealment methods, this snow ray of light stopped in a nameless valley.

The snow dissipated and the Gu Immortal’s appearance was revealed, who else could it be but Bai Ning Bing?

After the fate war, Bai Ning Bing was left outside and was not recalled by Fang Yuan.

Bai Ning Bing temporarily obtained freedom and did not want to return to Fang Yuan's side, choosing to cultivate alone. Over this period of time, she was extremely active and had seized many qi harvest fruits, using them in her immortal aperture.

These qi harvest fruits she obtained would have negligible effects on Fang Yuan's rank eight grotto-heaven. But to Bai Ning Bing's rank six blessed land, the effects were conspicuous.

Bai Ning Bing originally possessed future self and could achieve peak rank seven battle strength. But after the fate war, the lower streams of the River of Time became violent, future self thus lost its effect, Bai Ning Bing's battle strength returned to its original rank six level.

"After I get a few hundred more qi harvest fruits, I can battle with all my strength for two hours." Bai Ning Bing used the seized qi harvest fruits while estimating inwardly.

Suddenly, her heart jolted as she sensed something wrong, she immediately shot out of the valley.

But it was already late.

A purple light barrier trapped her rapidly, directly creating an independent space that was isolated from the outside world.

"This is an immortal battlefield killer move!" Bai Ning Bing frowned: "Who is it, come out!"

Clap clap clap.

Following resounding claps, Fairy Zi Wei revealed herself.

She looked at Bai Ning Bing with a smile: "You actually sensed me activating this battlefield killer move. Worthy of a genius chosen by Fang Yuan."

"It's you!" Bai Ning Bing immediately recognized Fairy Zi Wei and her heart sank.

The enemy was a rank eight Gu Immortal, while her strength was only at rank six. She might still have some hope to resist if she had future self, but the current difference in strength was too big, it made her helpless.

Fairy Zi Wei fixed her eyes on Bai Ning Bing, asking with interest: "How did you sense it? I did not see you using any special investigative methods."

Bai Ning Bing's expression was cold as ice as she replied: "It was only an instinct. You already put an ambush beforehand and waited for me to take the bait?"

Fairy Zi Wei chuckled: "You took action too many times recently, the clues are all with me, so it is not a difficult thing to deduce when you will make a move and where you will retreat to. Did you actually discover the danger with only your intuition? My immortal battlefield killer move did not leak any aura when it was activated."

At this time, another figure appeared not far behind Bai Ning Bing, it was Old Man Zheng Yuan.

Old Man Zheng Yuan coughed: "Lady Zi Wei, this is caused by human qi. Although Bai Ning Bing did not use any special investigative method, she has robust human qi. We must have agitated her human qi when we tried to trap her, which made her sense it intuitively."

Bai Ning Bing snorted and took on a combat stance: "You talk too much, let's fight, Heavenly Court!"

Fairy Zi Wei's smile became even brighter: "You are wrong, Bai Ning Bing, we are not representing Heavenly Court, but Shadow Sect. We did not come to kill you."

"What?" Bai Ning Bing was astonished: "You sided with Fang Yuan?!"

Old Man Zheng Yuan chuckled: "This junior Fang Yuan stole the position of Shadow Sect's leader. We are representing the true Shadow Sect!"

Bai Ning Bing's mind shook as she guessed the truth: "Spectral Soul has revived? You want to find trouble with Fang Yuan through me!"

"What do you think? Join us, don't you want to get rid of Fang Yuan and free yourself from all the shackles?" Fairy Zi Wei enticed.

Bai Ning Bing sneered and stared deeply at Fairy Zi Wei: "Of course I want freedom. But what is the difference between joining you and siding with Fang Yuan? I will be even more restricted with you people than with Fang Yuan!"

She noticed what was wrong with Fairy Zi Wei and Old Man Zheng Yuan, they were clearly enslaved by Spectral Soul.

Standing with Fang Yuan, Bai Ning Bing had the feeling of being an ally at least. But if she joined the Shadow Sect in front of her, then she would only be Spectral Soul's slave.

Fairy Zi Wei nodded: "But you don't have a choice, do you?"

Old Man Zheng Yuan added: "Surrender or die, choose."

Bai Ning Bing's silence did not last long, after a few breaths of time, she nodded: "I will join you."

Old Man Zheng Yuan approached and patted Bai Ning Bing's shoulder: "This is a wise choice. Relax, we will deal with your information path alliance agreements. But your dragonman status is somewhat troublesome, it was Fang Yuan who helped you change that. The dragonman method he used probably went through many changes, it will be very difficult to get rid of this within a short period of time."

"No worries, I am already used to it." Bai Ning Bing said indifferently.

She was restricted by Fang Yuan first, then she entered Shadow Sect and was controlled by Old Man Yan Shi; later, she returned to Fang Yuan's side again, transforming into the new dragonman. Now, she was clamped down by Fairy Zi Wei.

Bai Ning Bing was right, she was already used to it.

Almost at the same time, Soul Pacifying grotto-heaven.

“Aunt, this is the soul core I obtained recently, it is extremely strange, please appraise it.” An Xun respectfully bowed and handed over a soul core.

Lady Cold Ash took this soul core and observed it carefully, her expression becoming increasingly strange.

She had seen countless soul cores, but this soul core gave her a feeling which she had never felt before. Just the dark light circulating on the soul core’s surface was beyond ordinary.

Suddenly!

The soul core transformed into dark lightning that struck Lady Cold Ash’s face, it quickly infiltrated her body and imprisoned her soul.

Lady Cold Ash’s body was tense, and when she reacted, she had already fallen to her own relative’s trap.

“An Xun, you!” Lady Cold Ash had been concerned with her nephew An Xun and nurtured him wholeheartedly, she had never expected to be betrayed.

Lady Cold Ash struggled before she stood up abruptly.

An Xun was given a great fright as he stepped back quickly.

But at the next moment, Lady Cold Ash’s energy dissipated and sat down again.

She groaned as dark light filled her eyes.

Soon, she could not struggle anymore and stood up silently.

An Xun prostrated on the ground: “Subordinate pays respect to master.”

Spectral Soul’s voice came out from Lady Cold Ash’s mouth: “This body is quite good, I shall use this for now to get close to Wu Shuai.”

Spectral Soul did not have guts Gu, so he could only devour soul cores and digest them slowly.

Over this period of time, he had already recovered some strength and immediately made a move on Lady Cold Ash.

After he had succeeded, it meant the whole of Soul Pacifying grotto-heaven had fallen into his hands!

Chapter 2007 - Target — Profound Literature Grotto-heaven

2007 Target — Profound Literature Grotto-heaven

Roar—!

A huge, mountain-like immemorial soul beast with two horns on its head was howling.

But it was not showing its might and dominance, but madly struggling to flee.

Its tail was grabbed by an ordinary hand.

Then, an extremely terrifying absorption force spread out from the palm. There was a whirring sound resembling a wild hurricane as the immemorial soul beast was absorbed completely by the hand within a few breaths of time.

The owner of that hand let out a burp.

It was the rank eight soul path expert, owner of Soul Pacifying grotto-heaven — Lady Cold Ash.

Her eyes were pitch-black and threads of black smoke coiled around her body. After a while, she stopped the killer move, the black smoke around her whole body were restrained, and nothing looked out of place from the outside.

But in fact, her body was already possessed by Spectral Soul and her soul had been devoured.

Spectral Soul sighed: “I am full again.”

He got much more freedom with Lady Cold Ash’s identity. Over these days, he was actively devouring immemorial soul beasts, increasing and recovering his strength rapidly.

But Spectral Soul was not satisfied.

Devouring immemorial soul beasts was not like consuming guts Gu after all, Spectral Soul needed to digest them. Otherwise, the immemorial soul beasts would corrode his soul, make him lose his rationality and finally turn into a deformed soul monster.

The first choice in strengthening the soul was of course the guts Gu from Dang Hun Mountain, there was no need to digest them and they could be absorbed almost instantly.

The more Spectral Soul yearned for Dang Hun Mountain, the more he wanted to find Fang Yuan and kill him!

“Where exactly did this rascal Fang Yuan go to?” Spectral Soul thought of Fang Yuan and could not help but narrow his eyes.

Fairy Zi Wei had already informed Spectral Soul of the information she had gained from Bai Ning Bing.

This was great news to Spectral Soul.

Fairy Zi Wei had found clues of Ying Wu Xie, as long as they got hold of Fang Yuan’s subordinates, they would have enough clues to deduce Fang Yuan’s location.

“Fang Yuan obtained so many heaven path dao marks and has been missing since the fate war, his situation must be dismal. This is the best chance to capture him.”

Spectral Soul had been a venerable, he queried himself and got the conclusion that even when he was at his peak, it would have been a difficult task to refine so many heaven path dao marks. Let alone the current Fang Yuan.

Fang Yuan was strong, but he was not a venerable after all and had a limited understanding of the heaven path dao marks.

“But I can no longer count on the arrangements I left in the sovereign immortal aperture.”

Spectral Soul understood that heaven path dao marks developed naturally, the hidden arrangements he left behind were essentially dao marks and were certain to be transformed by the heaven path dao marks.

His methods would not be effective after they were transformed.

If they were effective, why would Spectral Soul have to go through such trouble to search and capture Fang Yuan’s subordinates, he would have already gone to kill Fang Yuan.

“After half a month, I can devour an immemorial soul beast again to recover my strength… hmm?” Just as Spectral Soul was planning, he suddenly received a message.

Spectral Soul immediately revealed joy: “Wu Shuai is convening rank eight Gu Immortals of the two heavens alliance to discuss an important event, Lady Cold Ash is also summoned. Great, Wu Shuai is acquainted with Fang Yuan, he might even be Fang Yuan’s clone. I might be able to lure out Fang Yuan’s main body if I enslave him.”

Spectral Soul immediately moved out of Soul Pacifying grotto-heaven under Lady Cold Ash’s identity and rushed towards the headquarters of Eastern Sea’s Xia clan.

In the public blessed land, he smoothly entered Dragon Palace and saw Wu Shuai.

Wu Shuai was sitting on the main seat while the other people were divided into two rows. On his immediate left was vice alliance leader Ice Crystal Immortal Monarch; on his right was the recent addition, rank eight expert Xiao He Jian.

Below them were leaders of various variant human forces.

The human grotto-heaven owners were arranged further back. For instance, Lady Cold Ash's position was almost close to Dragon Palace's door.

The political state of the two heavens alliance was clear from these seating arrangements. Variant humans were dominant and had most of the authority, while human Gu Immortals were firmly at a disadvantage. It was not that they did not resist, but they were helpless. After all, Wu Shuai had a dragonman identity and it was natural for him to be closer to other variant humans.

'If I kill all of them, how much of my strength can I recover?' Spectral Soul looked around with killing intent surging in his heart.

Sensing her gaze, Night Heavenly Wolf Lord who was standing opposite her nodded slightly, showing goodwill.

Spectral Soul had already obtained all of Lady Cold Ash's memories: "This Night Heavenly Wolf Lord, maybe I can make a move against him first. This human rank eight Gu Immortal's soul is much more suitable for my recovery."

Night Heavenly Wolf Lord thought: "This Lady Cold Ash can be used. My contribution regarding Granny Skeleton came from her. After this discussion, I should find her to drink tea and probe her intention. If I can rope her into Heavenly Court's side, my contribution will be even bigger."

Night Heavenly Wolf Lord's thoughts were normal.

In his opinion, the previous Lady Cold Ash did not lose hope and wanted to unite other human forces to counter the current alliance situation, raising the human forces' position in the alliance. But right now, her plan was already useless, Granny Skeleton did not come at all. And with Heavenly Court already proceeding to the next plan, that was, to split up the whole two heavens alliance, Night Heavenly Wolf Lord saw his chance to make much more contributions!

Just as Night Heavenly Wolf Lord and Lady Cold Ash were scheming, Wu Shuai spoke: “I think you should all know why I convened everyone this time. That’s right, it is about the qi harvest fruit disaster.”

“Qi harvest fruits have appeared in most of your grotto-heavens. These qi harvest fruits absorb the heaven and earth qi in the grotto-heaven to strengthen themselves, directly harming the grotto-heaven’s foundation. But ordinary methods cannot get rid of these qi harvest fruits, a rash move will only harm the grotto-heaven’s foundation.”

“Today, I gathered everyone to try to collectively think of a good solution.”

After Wu Shuai spoke, the immortals began to offer their suggestions.

Over this period of time, most of them had racked their minds and were completely focused on this problem.

These immortals might lack combat proficiency, but their foundations were instead stable and solid. Thus, they suggested many methods.

However, although there were many methods suggested, which were truly effective?

No one could guarantee or be certain!

None of them cultivated qi path as their main path, there were a few who cultivated qi path on the side but their attainment was low and could not be counted upon.

“There are many methods, let’s try them one by one, there should be a way to resolve this issue. So, what we need to do is to try these methods continuously. Who is willing to try it first?” Wu Shuai summarized and asked.

Dragon Palace immediately fell into silence.

No one wanted to be the guinea pig!

It was extremely crucial to clear up the qi harvest fruits. It was like a heart surgery, a slight mistake and it would be the end of the grotto-heaven. Even if they were fortunate and the grotto-heaven survived, its foundation would be heavily damaged and there would be massive losses.

“These Gu Immortals are really pitiful, fortunately I have already sided with Heavenly Court.” Although Night Heavenly Wolf Lord showed a worried expression, he was calm.

He had been informed by Heavenly Court that they had already found the solution to the qi harvest fruit issue. So he was not the least bit worried.

But in fact, Qin Ding Ling only said that to stabilize Night Heavenly Wolf Lord and make him more loyal.

“It is both hard and easy to resolve the qi harvest fruit.” Spectral Soul naturally knew some methods but he did not mention them.

His current thoughts were filled with how to attack Wu Shuai.

He could not make a move now with so many people present.

But how could he find a chance to be alone with Wu Shuai?

“The biggest obstacle is still this Dragon Palace.” Spectral Soul was somewhat wary. Dragon Palace, in essence, was an enslavement path Immortal Gu House, Spectral Soul was not afraid about this. What he was worried about were the dream path methods of Dragon Palace.

Even Spectral Soul had to be vigilant regarding this, once he was captured by dreamy light smoke, he would immediately be defeated.

Wu Shuai saw the immortals becoming silent for a long while, he already knew their thoughts.

He smiled: “Since no one is willing to give it a try, we should find other people to try. There are many grotto-heavens in the two heavens, there are still people who have not joined us and are harboring unfathomable thoughts.”

The Gu Immortals’ eyes brightened, they felt the alliance leader’s idea was simply too great!

Thereupon, the immortals resounded in agreement, Ice Crystal Immortal Monarch and others even boot-licked Wu Shuai.

“Which grotto-heaven do you think is suitable?” Wu Shuai asked.

At the next moment, various opinions emerged and a large number of targets were mentioned.

The one which was mentioned the most was Profound Literature grotto-heaven!

Old Immortal Hua Yu was a human with powerful strength as well as high prestige that allowed him to influence many of the surrounding grotto-heaven forces. If Wu Shuai could get rid of him and incorporate Profound Literature grotto-heaven into the two heavens alliance, there would be countless benefits.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2008 - All Destroyed!

2008 All Destroyed!

Profound Literature grotto-heaven.

“Xiao Bai, here will do.” In the small path between mountains, Teacher Jiang stopped and spoke to Li Xiao Bai.

Li Xiao Bai showed sadness and reluctance: “I was able to survive in the capital city all thanks to teacher’s guidance and help. I will engrave this kindness in my heart and never forget it. But after this separation, I wonder when I can see teacher again!”

“You.” Teacher Jiang sighed and patted Li Xiao Bai’s shoulder, encouraging him: “Although you lost in this world poetry competition, your poems have already spread far and wide. Everyone knows your talent is worthy of the title of a great scholar. Moreover, Su Qi Han has already returned, the capital city is the arena for you to display your talents. Go back, teacher will look forward to your performance.”

Li Xiao Bai bid farewell to Teacher Jiang with eyes full of tears.

Li Xiao Bai rode a horse through the mountain path that was covered with trees while pondering about his future.

He lost in the world poetry competition, although his earlier performances were exceptional.

Like he had expected, he ran into Teacher Jiang in the later stage. This made Li Xiao Bai fall into an awkward situation — if he won against his teacher, his morals and character would be criticized and there would definitely be a tide of hateful remarks.

Li Xiao Bai had wanted to use his next chance to continue passing through the stages. But he kept on running into his teacher again and again.

Teacher Jiang was also helpless, in fact, he also did not want to succeed by stepping on his own student. But he had to grab onto every chance because he had also probed the biggest meaning behind the world poetry competition.

Li Xiao Bai ran into Teacher Jiang time and again, his hands were tied and he eventually lost the competition.

Although he felt pity about this, Li Xiao Bai felt thankful as well: “My previous performances were too exceptional and even excessive. If I were to succeed like this, there would definitely be a detailed investigation done on me. Even if I passed the investigation, because I don’t have a good background and am not a renowned person, I am very likely to be schemed against. Many people are coveting this opportunity to become an immortal, how could they let it fall into a minor character’s hand?”

The world poetry competition’s selections looked extremely fair, but in fact, where there were people, there would be conflicts of interests and many deals going on behind the scenes.

Just look at the list of candidates that passed the world poetry competition’s selection, they were either influential officials or renowned people, even the so-called dark horses have extraordinary roots and background.

“It doesn’t matter that I am not selected in this world poetry competition, there will be a second selection in the future.”

“Even if there is no second world poetry competition, don’t tell me I cannot become an immortal by relying on myself?”

“Hmm, what smell is this, it is so fragrant!”

Just as Li Xiao Bai was thinking, a delicate fragrance broke his train of thoughts.

This fragrance was really pleasing and smelled like the inky fragrance of a book.

Li Xiao Bai was immediately curious, how could there be such a fragrance in this mountain's forest?

He rode the horse and followed the fragrance to its source.

After riding for a while, dense bush blocked the path ahead, Li Xiao Bai had no choice but to get off the horse and continue on his feet.

The fragrance became increasingly strong as Li Xiao Bai moved deep into the forest, he knew he was going in the right direction and was getting closer to the source of the fragrance.

Finally, he brushed aside some leaves and found a pine tree.

This pine tree was covered with pine cones and these pine cones were releasing the dense book fragrance. And on the branch of the tree, there was an exquisite and unique brown tree-house.

"Is someone living here? A mountain hermit?" Li Xiao Bai carefully approached and called out: "I am Student Li Xiao Bai, I accidentally passed through here and took the liberty to pay a visit. Please don't blame me, sage in the mountain."

But there was no sound from the treehouse.

Li Xiao Bai called out several times but there was still no reply. Seeing that there seemed to be no one in the treehouse, he walked towards the pine tree.

When he reached the pine tree, Li Xiao Bai made another discovery. The treehouse was not constructed on the tree, but was integrated into the tree, like it had directly grown from the tree.

Li Xiao Bai wanted to enter the treehouse to probe, but after circling around the tree, he found that the treehouse was completely integrated, with only windows but no doors.

"What do I do?" Li Xiao Bai thought and subconsciously placed his hand on the tree trunk.

Suddenly, the bark let out crisp sounds as it transformed. In an instant, a spiral staircase appeared around the tree trunk that moved towards the treehouse.

And a door appeared on the treehouse as well.

Li Xiao Bai only hesitated for a bit before stepping on the stairs and walking to the treehouse.

There were three rows of bookcases in the treehouse that were standing against the three walls. In the compartments of the bookcases were many Gu worms.

“Book fragrance spreads, talented scholars smell. Book house inheritance shall be left to the fated.” At this time, information was transmitted to Li Xiao Bai’s mind.

Li Xiao Bai inspected it and felt joyous.

“So this is an information path inheritance.”

“Although it is only a Gu Master inheritance with no Immortal Gu, there are various rank four and many rank five Gu worms. There is also detailed cultivation instruction, forming a complete system which suits me.”

“Speaking of which, my luck has been improving recently. Looks like my main body has already stabilized the situation.”

This inheritance was a peak level Gu Master inheritance, not only did it have many Gu worms, the pine tree itself was an exceptional mortal Gu House — Book House.

Li Xiao Bai stored Book House and returned back the way he came. He smoothly found his horse and hurried back to the capital city.

At the peak of the mountain, two figures were standing.

One immortal and one mortal.

The immortal was Hua Song, the mortal was rank five Gu Master Teacher Jiang.

Teacher Jiang had witnessed the whole process of Li Xiao Bai obtaining the inheritance and was extremely grateful: “Teacher, many thanks for helping my student.”

It turned out that Teacher Jiang’s teacher was Hua Song.

Hua Song smiled: “He is your student, according to the relationship, he is my grand-disciple. He belongs to our faction, how can I ignore him? When the world poetry competition started, I already noticed him. He clearly had the strength to pass the stages, but because he ran into you, he chose to limit himself. I had been hoping for you two, teacher and disciple, to succeed in passing the competition, but his luck seems to be quite bad, he ran into you again and again during the crucial rounds and was finally eliminated.”

“I am at fault.” Teacher Jiang lowered his head.

“Hahaha.” Hua Song patted Teacher Jiang’s shoulder: “You are really outstanding for being able to teach such a superb student. If this Li Xiao Bai had disregarded his teacher for fame and defeated you in front of everyone, I would have punished this kid severely. But he prioritizes this teacher and student relationship, his character is excellent. Although he failed this time, there is no harm in it.”

“It is this child’s fortune to be noticed by teacher. Just that, teacher, why didn’t you….” Teacher Jiang hesitated.

Hua Song sighed: “Although I am the host of the world poetry competition, if I were to act in favor of my personal gain, I would be criticized by other Gu Immortals and lose my reputation in front of Old Lord Hua Yu.”

“Moreover, Li Xiao Bai is still too young, he lacks tempering. If he suddenly became an immortal, it might lead to misfortune because of this good fortune. He should still continue to accumulate experience in the mortal world, a jade stone is useless if it is not polished.”

“Teacher is right, I was thinking too simplistically.” Teacher Jiang wholeheartedly admired his teacher and said excitedly: “I understand teacher’s effort. Teacher, you don’t want me to bear the feeling of guilt, so you gave Li Xiao Bai such a great inheritance, right?”

“It is good that you know that.” Hua Song smiled: “You are my student, you were selected this time and will be nurtured to become an immortal. You must concentrate wholeheartedly and not split your attention because of other matters. Concentrate on cultivation, don’t ruin my reputation.”

“Yes, teacher, I will definitely use all my strength!” Teacher Jiang cupped his hands and bowed solemnly.

Although Profound Literature grotto-heaven maintained neutrality and was not willing to participate in any fights, they understood chaotic times were coming so they did not hold back in cultivating Gu Immortals.

Teacher Jiang and others were handled and given plenty of resources with many Gu Immortals guiding them personally.

Teacher Jiang studied and practised hard everyday, using his time to the fullest.

Despite him using all his strength to study, his performance was still at low to mid level. This showed the talents of this batch’s Gu Masters.

Even the teaching Gu Immortals were secretly pleased. This batch was indeed full of the elites of Profound Literature grotto-heaven and everyone was an excellent Gu Immortal seed.

Over half a month passed, Teacher Jiang and the rest welcomed the most crucial moment of their lives — immortal ascension.

“With several teachers protecting us, the success rate of immortal ascension is high. Once I become an immortal, my future will undergo a complete transformation and elevation!”

Teacher Jiang was looking forward to it and studied with even more effort.

However, just as the first among them was about to undergo tribulation, there was an explosion and the whole of Profound Literature grotto-heaven shook fiercely.

Following the explosion, an Evil Dragon with the length of mountain ranges descended, filling the sky of Profound Literature grotto-heaven.

Large numbers of enemy Gu Immortals appeared in all areas of Profound Literature grotto-heaven and attacked at the same time. The flames of war burned everywhere.

The place where Teacher Jiang's group was in was given considerable attention.

"Die!" Wu Shuai controlled Dragon Palace and slammed down.

"It is Immortal Gu House Dragon Palace, we can't block it! Retreat!" The Gu Immortals who were guarding this place were pale with fright as they retreated.

Rumble!

Earth quaked and mountains shook, dust and stones flew everywhere.

This learning palace that was arranged meticulously was completely destroyed. Teacher Jiang and the rest could not even dodge and were squashed into pulp, dying miserably.

The Gu Immortals who taught them felt their hearts bleeding at this scene. Their weeks of guidance were just about to show results, the greatest future potential of Profound Literature grotto-heaven was destroyed all at once by this attack.

Completely destroyed!

"Wu Shuai, my Profound Literature grotto-heaven has remained neutral and never created any difficulties for you. But you actually attacked my land and slaughtered innocents, you are too overbearing and sinful!" Old Immortal Hua Yu was alarmed and shouted in fury.

Wu Shuai laughed heartily inside Dragon Palace, suddenly, his laughter stopped: "Old Immortal Hua Yu, you don't know when to advance or retreat, you don't know what's good for you! I sent messages for you to join time and time again, but you actually made excuses to ignore them, you simply show no regard for me. Today, I will make you and the entire world realize what the outcome of defying my will is! Attack!”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2009 - Following Willingly

2009 Following Willingly

Attack—!

Wu Shuai's shout triggered boundless wind and clouds, resounding throughout the grotto-heaven.

Many Gu Immortals in Profound Literature grotto-heaven had a change in their expressions, feeling panicked and worried when they sensed Wu Shuai's ferocious might.

Profound Literature grotto-heaven had lived in peace for too long and had never experienced such an ordeal. Even the current grotto-heaven owner, Old Immortal Hua Yu, was extremely surprised.

Because Profound Literature grotto-heaven was an information path grotto-heaven and was most specialized in gathering all kinds of information and clues. They would definitely detect any invasion in advance.

However, Old Immortal Hua Yu and the rest were completely unaware of this invasion, and Wu Shuai's surprise invasion could even be considered a masterpiece, he was able to teleport his Gu Immortals to various areas of the grotto-heaven, launching violent attacks at the various important areas and Profound Literature grotto-heaven's Gu Immortals.

This ambush could be said to be extremely successful.

Profound Literature grotto-heaven suffered disastrous losses, not only did the meticulously selected future potentials like Teacher Jiang perish, even most of the Gu Immortals of Profound Literature grotto-heaven were killed.

“Persevere, this is our home, we cannot lose it. I have already requested for reinforcements, we cannot let these despicable thugs succeed!” Old Immortal Hua Yu shouted, slightly stabilizing the morale of the soldiers.

He then opened his mouth and moved his tongue, spitting out text characters.

These characters were like a storm as they shrouded Dragon Palace with dense frost energy.

Immortal killer move — Cold Words!

The moment Dragon Palace was struck by this move, layers of frost solidified on its surface which greatly slowed its speed. The frost continued to condense and spread, and in a blink of an eye, was already as tall as an adult’s calf. If this went on, the whole of Dragon Palace would be sealed in ice.

Wu Shuai snorted as he activated his defensive killer move.

The frost on Dragon Palace’s surface began to melt gradually, and Dragon Palace’s power continued to rise, letting out rays of orange light.

The orange light shot towards Old Immortal Hua Yu, who immediately changed the words he recited and used a movement method.

Immortal killer move — Quick Words!

At the next moment, his speed surged and he perfectly dodged the orange light.

Immortal killer move — Vicious Words!

Old Immortal Hua Yu spat out tides of characters from his mouth, these purplish black words were like poison arrows that shot and detonated on Dragon Palace.

Rumble…

The series of explosions forced Dragon Palace to retreat constantly, at the same time, large amounts of toxic smoke infiltrated Dragon Palace.

Wu Shuai was seated on the main seat, he did not panic upon seeing this and immediately activated defensive methods to resolve this danger.

Old Immortal Hua Yu's reputation was not undeserving, he truly had some skills, to be able to confront Dragon Palace without losing his ground.

Naturally, this was because Dragon Palace was an enslavement path Immortal Gu House and was most proficient in the enslavement aspect. Moreover, Wu Shuai did not reveal the Four Dragon Generals although he had already gathered them. What he used normally was the Evil Dragon, which had already become a trump card of Dragon Palace.

The Evil Dragon was rampaging!

The two heavens alliance's Gu Immortals were killing and looting!

Wu Shuai was not in a hurry at all, because the situation was extremely favorable to him.

Old Immortal Hua Yu became increasingly anxious as the battle continued, he knew he was already tangled up with Dragon Palace and would have to rely on external force to save Profound Literature grotto-heaven from the danger.

But could the reinforcements arrive in time?

Old Immortal Hua Yu was awaiting the reinforcements, but he knew there was not much hope. Although he had a high reputation, and Profound Literature grotto-heaven's relationship with the surrounding grotto-heaven forces was also quite close, but asking these people to reinforce him in fighting against such strong enemies?

Old Immortal Hua Yu placed himself in their position and thought: if a surrounding grotto-heaven was attacked and asked him for reinforcements, and the enemy was the two heavens alliance, he would also hesitate.

The two heavens alliance’s Gu Immortals continued to wreak havoc.

Flames of battle rose everywhere as living beings were exterminated.

“Old Immortal Hua Yu, use your trump cards if you have any left, if you don’t use them now, you won’t be able to save your grotto-heaven. Hahaha.” Wu Shuai laughed wildly.

Old Immortal Hua Yu was silent, his expression grim.

The aftereffects of their fight harmed everything around them, causing holes to appear in the grotto-heaven aperture walls, linking the inside to the outside world.

Suddenly, Wu Shuai’s laughter stopped as he shouted in fury: “Old geezer Qi Sea!”

The moment he finished speaking, boundless qi currents surged in from outside and gathered into a giant hand.

The hand was as large as a mountain as it slammed into Dragon Palace and sent it flying far away.

Following which, a tall and sturdy figure appeared in the grotto-heaven’s sky, looking down at Dragon Palace.

“Qi Sea Ancestor!” Old Immortal Hua Yu looked up and said with surprise and joy.

Qi Sea Ancestor’s appearance surprised him, but thinking about it carefully, he felt it was natural. Qi Sea Ancestor was the biggest enemy of Wu Shuai, he would not sit by and watch Wu Shuai leading the two heavens’ forces to do whatever he pleased.

Roar—!

Dragon Palace moved back while the Evil Dragon took its place.

Qi Sea Ancestor, however, held his hands behind his back with no intention to attack: “Wu Shuai, stop now, I can let all of you retreat. If we truly fight, your two heavens alliance will cease to exist.”

“You….” Wu Shuai’s furious voice came from Dragon Palace: “Qi Sea Ancestor!”

The Evil Dragon stopped, Wu Shuai seemed to be thinking.

Old Immortal Hua Yu let out a sigh of relief, looking towards Qi Sea Ancestor with an extremely grateful look.

Qi Sea Ancestor did this to preserve Profound Literature grotto-heaven and not let it turn into ruins. This was not easy! The two heavens alliance’s Gu Immortals were scattered everywhere, Qi Sea Ancestor could take the chance to attack them and deal heavy damage to the two heavens alliance.

But Qi Sea Ancestor did not do this, instead, he considered Profound Literature grotto-heaven. Moreover, prior to this, Old Immortal Hua Yu had never come into contact with Qi Sea Ancestor.

“Qi Sea Ancestor took such protective action for an outsider like me. He is truly worthy of being a famed expert and the leader of Eastern Sea’s righteous path!” Old Immortal Hua Yu was extremely moved.

However, at the next moment, the Evil Dragon attacked and Dragon Palace followed closely behind.

“Qi Sea Ancestor, it has been too long since the battle that day. Face my move again!” Wu Shuai shouted.

“Despicable!” Old Immortal Hua Yu cursed when he saw Wu Shuai sneak attacking.

But Qi Sea Ancestor was smiling as if he was already prepared: “Come.”

Boom!

At the next moment, the Evil Dragon and Dragon Palace crashed into a firm and solid qi wall.

The qi wall broke down but the Evil Dragon and Dragon Palace's momentum was also completely exhausted.

"Old geezer Qi Sea, I am relieved that you are so energetic. We shall battle later!" Wu Shuai saw he was unable to gain any progress and started to retreat slowly.

Dragon Palace and Evil Dragon left the battlefield and moved out of the grotto-heaven.

The two heavens alliance's Gu Immortals did not dare to stay any longer and started retreating, they were afraid of Dragon Palace leaving them behind in this dangerous place.

Wu Shuai's group arrived fast and left just as quickly, leaving behind flames of war and ruin.

Old Immortal Hua Yu did not rush to provide disaster relief and stabilize the situation, instead, he flew towards Qi Sea Ancestor and bowed deeply: "Ancestor, you helped us in repelling the enemies. Everyone in Profound Literature grotto-heaven is grateful for your kindness."

Qi Sea Ancestor smiled brightly as he held Old Immortal Hua Yu's hands and pulled him up: "We are both humans, it is natural for us to band together and help each other against the variant humans."

Old Immortal Hua Yu said with hatred: "Wu Shuai is trying to overturn humanity's rule, he is a lunatic and a despicable fellow. He is an enemy of everyone in Profound Literature grotto-heaven, we won't rest until he dies!"

Qi Sea Ancestor nodded: "In the current era, chaotic times are coming, who can stay out of it? It is good that you realize this!"

Old Immortal Hua Yu cupped his fists and bowed again: "Looking at the immortals in this world, only Ancestor's might and prestige has spread everywhere, your moral conduct is worthy of being respected. From today onwards, Profound Literature grotto-heaven will be at your command, we will listen to your arrangements.”

Qi Sea Ancestor smiled: “Brother Hua Yu, let’s join hands in fighting the variant humans, we will protect our homelands and fight for a beautiful future.”

Chapter 2010 - Influencing The Five Regions

Chapter 2010 Influencing The Five Regions

Profound Literature grotto-heaven.A tea ceremony was in session.

Old Immortal Hua Yu sat on the lower seat while he let Fang Yuan have the main seat.

Fang Yuan used Qi Sea Ancestor’s identity to talk with the Gu Immortals, obtaining first hand information regarding the part of white heaven above Eastern Sea.

There were not just Profound Literature grotto-heaven’s Gu Immortals who participated in the tea ceremony. After Qi Sea Ancestor repelled the enemies, Gu Immortals continued to arrive to reinforce them.

These Gu Immortals were from the surrounding forces and were late in reinforcing Profound Literature grotto-heaven, but Old Immortal Hua Yu asked them to stay and join this tea ceremony regardless.

Qi Sea Ancestor said frankly: He had already allied with Heavenly Court and wanted to recruit the human forces in the two heavens, to fight against Wu Shuai’s variant human alliance and defend the righteous path of humanity.

Old Immortal Hua Yu was naturally the first to support it, the other forces also responded quite passionately. Many of the Gu Immortals even express their willingness to join Qi Sea Ancestor’s faction to fight Wu Shuai’s violent and lawless alliance.

Some Gu Immortals hesitated while many others had to report to their superiors to come to a decision.

The tea ceremony ended. Fang Yuan was quite satisfied with the result.

The first step was important if he wanted to interfere in the two heavens' grotto-heavens. With Wu Shuai's active cooperation, almost all the two heaven's Gu Immortals recognized Wu Shuai's might and felt insecure. Everyone realized they could not evade this calamity because even a powerful force like Profound Literature grotto-heaven was almost exterminated. If not for Qi Sea Ancestor lending a hand, Profound Literature grotto-heaven would have ceased to exist.

Chaotic times were coming and no one could stay out of it. Only by stepping on the waves of chaos could they survive and grow stronger.

Qi Sea Ancestor needed only slight effort to persuade five grotto-heaven forces. Of course, it would take some more effort to integrate them. And important details like profit distribution and other rules had yet to be finalized.

Even so, Qi Sea Ancestor's action had already caused a huge change in the two heavens' forces, even affecting the overall situation of the conflict between humanity and the variant human races.

Fang Yuan naturally would not conceal this news, the moment the tea ceremony ended, he spread this news in treasure yellow heaven.

In an instant, the Gu Immortal world of the five regions was shaken.

Some sighed at the changing state of the world and the impending chaos, some praised Qi Sea Ancestor's righteous move and felt he could shoulder the responsibility to lead humanity, some were guessing Wu Shuai's next move, and some were thinking of Eastern Sea's political situation. Qi Sea Ancestor was publicly recognized as the most powerful expert in Eastern Sea, now that he was so close with Heavenly Court, how would Eastern Sea's righteous path forces face this relationship?

The five regional walls were gone, the independent five regions merged into one, changes in any one side could change the whole situation of the five regions. Every move of an expert with an identity and status like Qi Sea Ancestor could deeply influence the whole world.

Eastern Sea, Shen clan.

“Are there still no clues on Ancestor Shen Shang’s whereabouts?” Shen Cong Sheng sighed: “I don’t blame you, qi tides are appearing everywhere, Divine Emperor City is a very tightly protected area.”

A Shen clan Gu Immortal asked: “First supreme elder, Qi Sea Ancestor has already allied with Heavenly Court now, they even handed over the latter half of Primordial Origin’s true inheritance. What should we do?”

Shen Cong Sheng replied: “I have already discussed this with Song Qi Yuan, Hua Cai Yun, and other first supreme elders. Qi Sea Ancestor is our Eastern Sea’s expert, he cannot be recruited by Heavenly Court. Every clan will take out a portion of cultivation resources from their treasuries and gather them into a big gift to build a good relationship with Ancestor.”

Shen clan’s Gu Immortal nodded, not objecting to it.

Qi Sea Ancestor was the most valuable existence to rope in, besides his battle strength, it was also because he cultivated qi path.

Currently, Eastern Sea’s super forces were thinking of developing qi path and they would have double the results if they could get Qi Sea Ancestor’s help in this aspect.

Fang Yuan put on a great show before, everyone in Gu Immortal world thought Qi Sea Ancestor liked to give guidance and support the younger generation. This made Eastern Sea’s super forces feel there was a high possibility in this matter.

Western Desert, Fang clan’s headquarters.

Fang Gong’s expression was dark: “We are willing to pay such a huge price but Heavenly Court still doesn’t want to release Fang Di Chang?”

One of the gathered Fang clan Gu Immortals said: “First supreme elder, in my opinion, Heavenly Court is not sincere at all, they are just stalling for time and fooling us.”

“Hmph!” Fang Gong slammed his right fist on the table.

He was furious but helpless.

In the fate war, Fang clan’s losses were the largest. Not only did they lose Divine Bean Palace, even their strategist Fang Di Chang was captured by the enemy and there was no news of him until now.

Fang clan naturally thought Fang Di Chang was captured by Heavenly Court. Thereupon, they secretly contacted Heavenly Court and wanted to pay a huge price to redeem Fang Di Chang.

But Heavenly Court had all along been stalling their request.

Fang Di Chang was extremely important to Fang clan, without him, Fang clan would be without a strategist.

After Fang clan refined Divine Bean Palace, they had the possibility of raising their status and becoming the leader of Western Desert’s righteous path. But Divine Bean Palace and Fang Di Chang were gone, destroying Fang clan’s dream of becoming the leader.

Fang Gong was in a very bad mood, especially after hearing of Qi Sea Ancestor’s actions.

“Qi Sea Ancestor has already begun to lead Eastern Sea, but me? Fang clan? We are just stagnating at the same spot! Sigh…” Fang Gong felt helpless.

The only thing that gave him some joy was that Fang Di Chang had already prepared for the future and had passed on Fang clan’s wisdom path inheritance to Fang Yun.

“Since Heavenly Court is not willing to release Fang Di Chang, we can only prioritize on cultivating Fang Yun.” Fang Gong made the decision.

They could not wait any longer.

Time waits for no one!

Cultivating a Gu Immortal, especially a competent wisdom path Gu Immortal, required a long time.

Central Continent, Heavenly Court.

Qin Ding Ling looked at the intel and smiled, muttering to herself: "Fang clan is actually willing to pay such a huge price to buy back Fang Di Chang. If they knew Fang Di Chang was already replaced and is now Fang Yuan's clone, what would they feel?"

Heavenly Court already knew of Fang Di Chang's identity.

The current Divine Emperor City was guarded by Genesis Lotus Immortal Venerable's will. He had already informed Qin Ding Ling of this.

Although Fang Di Chang was sealed in Divine Bean Palace's painting, he had a portion of the authority and was resisting stubbornly, even Genesis Lotus' will could do nothing about it.

"But it will be over soon." Qin Ding Ling smiled: "That earlier batch of Gu Immortal seeds we sent in are developing extremely well, they already possess strength to defeat Fang Di Chang. As long as we capture him, we can use the close connection between him and Fang Yuan to search for the location of Fang Yuan's main body."

Spectral Soul was secretly searching for Fang Yuan's main body, Heavenly Court was doing the same as well.

Qin Ding Ling knew Fang Yuan was in a poor state currently and it was the best time to kill Fang Yuan. If they could kill Fang Yuan, not only would it restore Heavenly Court's reputation, there would even be enormous spoils of war. Be it the various inheritances on Fang Yuan, his Gu worms, his sovereign immortal aperture, secluded domains of heaven and earth, and so on, they were all things Heavenly Court wanted.

Qin Ding Ling was taking control of Heavenly Court in place of Fairy Zi Wei, although she was only a luck path Gu Immortal, she tried her best and was busy everyday, her hard work was showing results.

Internally, Heavenly Court was leading the ten great ancient sects, actively cultivating talents and recovering their strength.

Externally, Heavenly Court was allying with Eastern Sea, they roped in Qi Sea Ancestor first but the price was half of Primordial Origin's true inheritance. They would soon capture Fang Di Chang, and their hopes of capturing Fang Yuan's main body were even higher than Spectral Soul!

"Everything will get better."

"My Heavenly Court is and will continue to be the supreme leader of humanity!"

Chapter 2011 - Divine Bean Soldier Calamity

Chapter 2011 Divine Bean Soldier Calamity

Divine Emperor City.Inside the painting, Fang Di Chang waved his hand, immediately, a large amount of white sand flew out and scattered around.

The white sand fell on the ground and immediately melted into puddles of milk that seeped into the ground.

Blop blop….

Air bubbles rose from the ground, the beans buried under the ground devoured the milk and grew rapidly.

In three minutes, Fang Di Chang expended the small amount of rank eight immortal material milk sand he had. The barren land became extremely fertile and green bean sprouts broke out of the ground surface.

“Again.” Fang Di Chang took out a snow path immortal material.

The immortal material was thrown to the air and was digested by Divine Emperor City, turning into broken lightning rays that covered the whole bean field.

The broken lightning slightly touched the tender bean sprouts and agitated their growth potential, the bean sprouts began growing with a visible speed.

“Continue.” After the lightning rays dissipated, Fang Di Chang took out the third immortal material.

Time continued to pass, about three days and three nights later, Fang Di Chang slowly stopped his actions.

He looked at the field, the beans had already grown into divine bean soldiers. They were standing in rows, silent and still like statues as they waited for Fang Di Chang's orders.

Fang Di Chang sighed, thinking: "This is the last batch of divine bean soldiers. My immortal materials are basically all spent."

As a clone of Fang Yuan, after Fang Di Chang was schemed by Genesis Lotus' will, he had been trapped in the painting.

Over this period of time after the fate war, he had been waiting for his main body to rescue him while using all his strength to accumulate troops.

But even by now, the main body had not come to save him, Fang Di Chang could only prepare to save himself.

He was now trapped in the painting, unable to contact the main body and even unable to access treasure yellow heaven. But he had refined Divine Bean Palace, so he still held a portion of the authority. This was the reason Genesis Lotus' will was unable to do anything to him in a short period of time.

Fang Di Chang used this authority to borrow Divine Bean Palace's strength in cultivating divine bean soldiers.

He was constantly accumulating divine bean soldiers, and now, their size had already reached an enormous scale.

"It is time, move out, invade and seize control of all the paintings!" Fang Di Chang gave a command without any hesitation. The divine bean soldier army began to set out.

They split into countless divisions as they moved towards the edge of the painting and invaded other painting worlds.

Outside Emperor City was a large farmland, wheat billowed in the autumn wind and many farmers were harvesting them.

“This year is an abundant year!”

“Yes, every family has made good harvests.”

“What is this noise?”

The farmers were talking happily when they suddenly heard strange sounds and were bewildered.

A group of over three hundred divine bean soldiers charged into this painting world.

They discovered these farmers and behaved like sharks that smelled blood, they moved extremely quickly and killed anyone they saw.

“Run!”

“There are monsters, run!”

“Spare me. Spare….”

Guh.

Blood splattered everywhere, the last farmer’s head and body were separated, falling into a pool of blood.

Divine bean soldiers killed all the humans and occupied this painting world.

At another painting outside of Emperor City.

It was spring and the scenery was beautiful.

A large group of scholars, students and young ladies went for an outing.

In the midst of their joyful talks, several divine bean soldiers appeared suddenly, causing the girls to scream.

“They dare to offend our young ladies!”

“What are these things?”

The scholars and students looked curiously as the guards surrounded the divine bean soldiers.

The divine bean soldiers began to attack, the guards were already on guard so the battle went to a standstill.

“These strange things have bad intentions!”

“Where did these things come out from?”

“Forget that, let’s talk after killing them first.”

The scholars and the students cooperated with the Gu Master guards and attacked, killing these divine bean soldiers without wasting much energy.

But soon, an army of a thousand divine bean soldiers arrived in this painting world.

This time, the guards, scholars and students were unable to resist, after a bitter struggle, most of them were killed and stepped on mercilessly by the divine bean soldiers, while a small portion retreated from this painting world and managed to survive.

Each divine bean soldier had extraordinary strength and was at least of desolate beast level, but in the painting world, they had to follow its rules, where the gap between immortal and mortal was minuscule.

Moreover, divine bean soldiers were transported to other painting worlds randomly, so their scales were not equal.

Fang Di Chang made a heavy attack but the divine bean soldier army was scattered everywhere and engaged in their respective invasions. Thus, some divine bean soldiers made good progress, some met strong resistance, while some were directly annihilated by the Gu Masters in the painting world.

Even so, Fang Di Chang soon revealed a satisfied smile.

“My guess was right.”

“Divine Bean Palace’s paintings are connected with Emperor City’s paintings. Although I am sealed here, my divine bean soldiers originated from Divine Bean Palace and are of the same origin as the whole of Divine Emperor City, so they can move out.”

“The more painting worlds these divine bean soldiers occupy, the more control I will have over Divine Emperor City. After gaining a certain amount of control, I can even go a step further and suppress Genesis Lotus’ will, becoming the owner of Divine Emperor City!”

Fang Di Chang’s huge move this time made the Gu Immortal seeds, sent by Heavenly Court into Divine Emperor City’s painting world, gather and discuss a plan.

“What is going on with these divine bean soldiers?” Chen Da Jiang frowned.

Sun Yao’s eyes were red: “I also don’t know, these monsters appeared and began killing wantonly, they are extremely vicious. Those pitiful beggars and homeless people were all killed by these monsters.”

“Maybe this is our fortuitous encounter or maybe it is a test?” Tang Ru Qi guessed.

Ying Sheng Ji frowned: “I killed many divine bean soldiers, but I have not made any gains until now.”

Wei Wu Shang analyzed calmly: “Divine bean soldiers are a product of Divine Bean Palace, according to rumors, Gu Immortals can raise these wood path soldiers in a large scale in Divine Bean Palace. When it is time to battle, the Gu Immortal can release them to fight the enemies. Previously, when Divine Bean Palace was with Western Desert, they scattered a large number of divine bean soldiers to fight our Central Continent’s ten great ancient sects.”

“So what is the reason behind these divine bean soldiers’ sudden appearance?” Zhao Shu Ye asked.

Wei Wu Shang shook his head: “I don’t know, it has been some time since we arrived here but the painting world here is too vast and profound, we don’t know a lot of its secrets.”

“What is the point of trying to figure out the reason?” Right at this time, Xiao Qi Xing walked over.

“Ah, it is Brother Xiao.”

“What information do you have? Or do you know the truth of the matter?”

These Gu Immortal seeds asked one after the other, they thought highly of Xiao Qi Xing because he had the best progress among them.

He mixed into the military faction and continued to advance in ranks and was already a junior officer now.

Xiao Qi Xing said: “I don’t care about the reason behind these divine bean soldiers’ appearance, I only know the higher-ups have sent the order to mobilize the army to exterminate these divine bean soldiers. This time, I am leading my troops alone and need assistance. We will cooperate and kill these divine bean soldiers. There will definitely be rewards after the battle.”

“It is fine with me. These monsters should be killed!” Chen Da Jiang said.

Sun Yao nodded: “These divine bean soldiers are too vicious, they are simply disregarding human lives. I will take revenge for those pitiful beggars and homeless people.”

“Count me in too.” Zhao Shu Ye also expressed her stance.

Soon, all of these Gu Immortals agreed and temporarily joined Xiao Qi Xing as his subordinates.

Xiao Qi Xing laughed heartily, he was pleased and proud with this huge increase in strength and manpower: “Move out! Let us kill these divine bean soldiers.”

Chapter 2012 - Fang Di Chang“s Death

2012 Fang Di Chang“s Death

Divine Emperor City, painting world.

In the vast plaza, Xiao Qi Xing led a large group of troops and was facing a group of divine bean soldiers.

The scale of this group of divine bean soldiers was bigger than Xiao Qi Xing’s side.

“How do we fight them?” Sun Yuan Hua had just asked when the divine bean soldiers charged.

Xiao Qi Xing stopped his side from attacking and smiled: “Everyone, please stay put for now and look at how I fight them.”

Saying this, Xiao Qi Xing flicked his fingers repeatedly, a large amount of Gu worms flew out of his aperture.

These Gu worms fell to the ground and turned into human shapes. Most of them were ordinary soldiers, a few clearly looked like elites, and an extremely small number of them looked much more brave and valiant.

“These are soldier Gu, sergeant Gu, lieutenant Gu?” Gu Ting narrowed his eyes.

“They should be.” Wei Wu Shang counted roughly: “There are over five hundred of them, looks like Xiao Qi Xing progressed really well in the military camp to be able to accumulate so many human path

Gu worms.”

“Formation!” Xiao Qi Xing shouted while activating arrow formation Gu.

These soldiers immediately gathered, captains led lieutenants, lieutenants led sergeants, and sergeants led soldiers.

And the entire army formed a giant arrow that rushed head on towards the incoming divine bean soldiers.

“Charge—!”

Xiao Qi Xing’s army roared loudly, on the contrary, the divine bean soldiers were silent like there was no life.

The two sides were like colliding waves which began to mix into each other.

Xiao Qi Xing’s gaze was like lightning as he put all his attention on controlling his troops.

In the chaotic battle, his troops were further divided but they always maintained the most basic military formation.

On the contrary, the divine bean soldiers were a messy and disordered group.

After the initial stalemate, the situation began to slowly fall into Xiao Qi Xing’s grasp. Once he occupied the upper hand, this advantage snowballed and soon, it turned into absolute dominance.

Finally, Xiao Qi Xing’s side won a complete victory with all divine bean soldiers killed off.

“How is it?” Xiao Qi Xing returned with victory and showed off to the other Gu Immortal seeds.

Zhao Shu Ye rolled his eyes, not bothering to reply.

“Brother Xiao is truly amazing!” Chen Da Jiang raised his thumb.

“Hahaha.” Xiao Qi Xing laughed heartily and said to Chen Da Jiang: “If you had walked the same path as me back then, you would also have such accomplishments today.”

“We should continue. We have only cleared up one painting.” Wei Wu Shang said.

“Don’t be careless. These soldiers are only yellow bean divine soldiers, they are the most basic type of divine bean soldier.” Gu Ting said.

They continued to march forward and fight divine bean soldiers.

After a while, they arrived at the most flourishing street of Divine Emperor City.

Divine bean soldiers were wantonly killing the people in the city and it was a scene of chaos.

Sun Yao’s eyes turned red with fury. The first time she entered here, she had arrived at this street and enjoyed its flourishing scenes. She had never expected such a beautiful scene to be completely destroyed by the divine bean soldiers, everywhere was littered with corpses and blood flowed into a river.

“This will need everyone’s assistance.” Xiao Qi Xing was modest for once: “The paths are narrow and vision is not clear, my troops won’t be able to move properly.”

The other Gu Immortal seeds had no objections as they charged to the front lines and attacked.

Xiao Qi Xing stayed at the rear, observing the situation while controlling the soldiers to move forward.

He was deeply aware that he came to compete for Genesis Lotus’ true inheritance, these Gu Masters beside him were his greatest competitors. Know yourself and your enemy, and you will never be defeated, this was the best opportunity to gain information about these people.

These Gu Master elites of Central Continent’s ten great ancient sects were indeed extraordinary.

Xiao Qi Xing had made a lot of progress, these Gu Masters were also not any inferior.

Ying Sheng Ji continuously took out doctor Gu, which took human forms and saved people everywhere.

Chen Da Jiang went through the outer gate, a group of officers moved around him as he joined the front lines with a long sword and a steel chain.

Sun Yao gave a bigger surprise to Xiao Qi Xing, three female dancers moved around her, their long sleeves fluttered in the wind and weakened the divine bean soldiers. Moreover, Sun Yao also held a human path killer move — Joy in Helping People; this move strengthened her allies.

As for Wei Wu Shang, he appeared and disappeared as he moved in the chaotic battle like a fish in water.

“This guy has already mastered thief Gu.” Xiao Qi Xing realized.

These elites immediately shone brightly the moment they made their moves. Xiao Qi Xing also felt heavy pressure as he warned himself: “I really cannot underestimate these people!”

This chaotic battle lasted for five minutes before the whole street was cleared.

Without staying any longer, Xiao Qi Xing’s group marched towards other paintings once again.

The divine bean soldiers in their path were all annihilated.

Naturally, they were not the only group who were counterattacking. The warriors in the painting worlds also organized many groups and participated in the battle, killing the divine bean soldiers.

Ye Fan and Hong Yi were also mixed among other groups, they were secretly conversing.

“These divine bean soldiers are really odd, there are so many types of them.”

“The ten great ancient sects’ members have also grown, we need to conceal ourselves and not be discovered by them.”

They were the earliest people to enter the painting world.

At this moment, their accumulation far surpassed the Central Continent elites, but Ye Fan and Hong Yi could only move secretly. After all, the five regions world was the main world, once they were discovered by Heavenly Court, the situation would become a mess.

The counterattacking groups became faster the more they killed, their efficiency was increasing continuously and casualties were reducing.

After they had sufficient experience, they completely saw through the types of divine bean soldiers. Yellow bean divine soldiers were only cannon fodder, green bean soldiers could shoot flying arrows, red bean soldiers could self-detonate, black bean soldiers had the greatest defense.

After understanding the characteristics of the different divine bean soldiers, they began to launch targeted attacks. These divine bean soldiers were far weaker than their external appearance.

The counterattacking groups continued to gain victories and seized back more territories.

Finally, they gathered on the city walls of Divine Emperor City.

There was an ocean of divine bean soldiers outside the city walls, Xiao Qi Xing could not help taking in a sharp breath when he saw this.

The enemy force was overwhelming, it was not something their group could handle. They could only have a chance of defending the city by allying with other groups.

Divine bean soldiers rushed forward without any formation.

Xiao Qi Xing’s group attacked with long range skills from top of the city walls.

Divine bean soldiers were like ants as they began climbing the city walls.

The ones guarding the city staked their lives to counterattack, not retreating a step.

The whole battlefield was like a huge meat grinder, large amounts of lives were lost every second.

This battle lasted three days and three nights.

Xiao Qi Xing collapsed and sat weakly on the ground. His snowy-white military robe was already dyed red with blood.

Cheers spread continuously in the surroundings, they had won. This largest group of divine bean soldiers was completely exterminated by them.

Victory was assured!

Next would be to clear up the remaining small groups of divine bean soldiers in every painting.

“Wait a second, we seem to be able to walk out of Divine Emperor City.”

“We can follow the path the divine bean soldiers took and attack their base!”

When they were clearing up the battlefield, many made a big discovery.

The troops began to gather once again and battled their way to Fang Di Chang.

In this painting world, Fang Di Chang’s strength was greatly reduced but he still had a group of divine bean soldiers around him.

“So you are the main culprit behind all these!”

“You are going to pay for your sins!”

“Why, why do you need to kill these innocent people, what grudge do you have against them?”

Emotions surged, but Xiao Qi Xing’s group glanced at each other and moved towards the rear silently.

“So the cause of the divine bean soldier calamity was him.”

“He is a Gu Immortal of Fang clan, Fang Di Chang, who had once refined Divine Bean Palace.”

“I did not expect him to still be alive, and he is creating chaos in the painting world!”

“Don’t tell me, did our sects send us here to get rid of him?”

“Strange, why didn’t Heavenly Court attack and kill Fang Di Chang directly? Maybe this is a test for us, or maybe we can only deal with him while following the rules of the painting world?”

Xiao Qi Xing’s group conversed quickly, their expressions were extremely serious. They were the ones chosen and nurtured by their respective sects, thus they had a lot of information about the Gu Immortal world, they had detailed information about the participants of the fate war.

“Kill!”

“Take revenge for our friends and family!”

“I will cut him into a thousand pieces!!”

The Gu Masters of the painting world attacked Fang Di Chang.

“A bunch of trash.” Fang Di Chang stood at the center and commanded his troops calmly. The divine bean soldiers beside him changed their formation and moved smoothly like water. The cooperation between the various types of soldiers was extremely smooth and fluid.

Instantly, the warriors of the painting world suffered heavy casualties.

Xiao Qi Xing’s group was also shocked.

“The scale of these divine bean soldiers is quite small, how could they have such results?”

“With a Gu Immortal commanding them, they are completely different from before.”

“What should we do? Battle or retreat?”

“Fight! We have numbers on our side, Fang Di Chang might be strong, but the gap between us is not the gap between immortal and mortal. We have a high chance of success!”

“Slaughter the immortal!!”

Someone shouted the slogan which made Xiao Qi Xing’s group extremely excited.

The moment they joined in the battle, the Gu Masters in the front lines felt like they had received strong reinforcements.

In fact, not only them, even Ye Fan and Hong Yi were also mixed in the battle, helping out secretly.

Fang Di Chang snorted coldly. Under his command, the divine bean soldiers’ formation kept on changing while being extremely stable.

Xiao Qi Xing’s group battled hard for a long time, but to their horror, they discovered that the casualty difference between the enemy and their side had reached a terrifying level. There were only negligible losses to the divine bean soldiers.

“What should we do?”

“An immortal is still an immortal in the end!”

“Let alone when Fang Di Chang is a wisdom path Gu Immortal.”

Xiao Qi Xing's group's morale fell sharply and they had the thought of retreating, not daring to fight with Fang Di Chang.

But at this time, Fang Di Chang's body shook suddenly as he coughed a mouthful of blood. He snorted coldly and looked up at the sky, laughing coldly: "Genesis Lotus' will, you couldn't endure it and took action after all."

Fang Di Chang was suppressed by Genesis Lotus' will, his control over the divine bean soldiers was no longer as smooth as before.

Xiao Qi Xing's group immediately felt the pressure on them reducing sharply, they were surprised and happy as they attacked once again.

Fang Di Chang's divine bean soldiers continued to fall till they were all annihilated.

Fang Di Chang had no choice but to attack personally, he rampaged through the army, killing everyone in his path with no one being able to rival him.

This did not last long, his condition continued to deteriorate as he began to receive injuries.

After some more time, Fang Di Chang was soaked in blood and started to stagger.

"To think that I, Fang Di Chang, would actually die in such a place!" Fang Di Chang shouted in sadness as he self-detonated resolutely.

Boom!

The Gu Masters surrounding him were wiped out with no intact corpses.

After a short period of shock, the surviving Gu Masters shouted in joy.

"We won!"

"We finally killed the demon."

“Sob… father, mother, I have avenged you.”

Xiao Qi Xing’s group was also excited and their faces were flushed red: “We killed an immortal! We succeeded in slaughtering the immortal!”

Chapter 2013 - Survival Through Death

2013 Survival Through Death

Xiao Qi Xing's group strolled along the streets.

The huge battle had just ended, the flourishing and bustling street had turned into a scene of desolation, with no pedestrians moving around. Even if there were, they were mostly injured ones.

"Fang Di Chang is not worthy of being in Western Desert's righteous path! He slaughtered innocents and caused many deaths. Letting him die like this is really letting him go easy." Chen Da Jiang said hatefully.

Ying Sheng Ji sighed as he added: "Yes, this was once a place filled with rich vitality."

"Hehehe. You guys are truly funny." Wei Wu Shang laughed: "This is only a painting world, it is Genesis Lotus Immortal Venerable's killer move. The people here are not real existences. No matter how many are dead or injured, after a few years, it will be restored back to normal."

"Yes. Compared to these things, I am more curious about the rewards the sects will give us!" Gu Ting said.

Xiao Qi Xing's eyes brightened: "We killed an immortal as mortals, and even got rid of the hidden disaster in Divine Emperor City. With such a huge contribution, not only our sects, even Heavenly Court should personally reward us, right? Hahaha!"

Xiao Qi Xing laughed heartily and was inwardly pleased.

He had the best performance and had contributed the most in putting down the divine bean soldiers and eliminating Fang Di Chang.

In terms of rewards based on contribution, he would be at the top!

In an alley which the group passed by, two beggars were sitting at a corner, looking at everything with indifference.

The behaviors of these ten great ancient sects' Gu Immortal seeds naturally fell into these two beggars' view.

"I owe my thanks to you, Brother Shen." One beggar transmitted his voice.

The other beggar laughed: "Should I address you as Fang Yuan, or Fang Di Chang?"

The other beggar replied: "I am only a clone, and strictly speaking, I can't even be considered a clone now, I am only a remnant will. So, you don't need to address me as Fang Yuan. As for Fang Di Chang, he is already dead, having died by self-detonation. I am a nameless person now, just a lowly beggar remains."

Shen Shang's eyes shone: "You are too modest. Even without me, you were already prepared to use death to escape."

The other beggar nodded, not denying it: "In my previous plan, if I could occupy and seize the painting worlds with the divine bean soldiers, it would have been the best result. But the chance for this was not high. By preempting the actions to take after defeat, I was naturally prepared for everything. Self-detonation destroyed my body and soul, but this will was secretly left behind."

Pausing for a moment, Fang Yuan's will continued: "I have to thank you for your help regardless. If I relied on just my methods, there is a high probability of Genesis Lotus' will discovering me. But with you shielding me, it is a completely different case. Shen Shang, your human path attainment continues to grow by the day."

Shen Shang chuckled: "That is true. Since the fate war, after I deciphered the venerable human path killer moves, my human path attainment rose quite a bit. And after I arrived in this painting world, I acted as a beggar, observing and experiencing life which gave me a lot of insight. A beggar has a beggar's advantage; beggars stand at the lowest level of society, they can observe the attitudes of people, experience kindness and harshness, feel hunger and fullness, warmth and cold."

Shen Shang then changed the topic, asking: "What do you plan to do now? Leave here or continue to stay?"

Fang Yuan's will did not hesitate: "I am unable to leave here. Even if only a will remains of me now, it has only temporarily escaped the observation of Genesis Lotus' will and has not grasped a way to leave. What about you?"

Shen Shang also shook his head: "I also haven't found the method to leave. I have already secretly checked those Gu Immortal seeds of the ten great ancient sects. They are able to enter and exit here because they have obtained the approval of Genesis Lotus' will. But I believe that as long as I continue to stay in hiding and research, my human path attainment will continue to accumulate and attain a qualitative change. By that time, I can find a method to leave this place."

Fang Yuan's will looked deeply at Shen Shang, he could see Shen Shang was happy to stay in here.

However, when Fang Yuan thought of it, it was also not strange.

Genesis Lotus Immortal Venerable had made this huge move, he created a special small world to develop human path.

Over here, human path was supreme and other paths were secondary. Human path had the greatest development while other paths had little progress.

At the same time, this world followed the rules of the mortal world, there was an insignificant gap between immortals and mortals, which was more beneficial for the development of human path.

Moreover, the inside and outside were separated, when outsiders came here, they would be isolated from the five regions and could not even connect to treasure yellow heaven. This stopped information from spreading outside or entering and corrupting the people here. Thus, it created an isolated sacred land of human path.

Shen Shang primarily cultivated human path. In here, he was like a gluttonous monster that saw absolutely rare delicacies, he was like a fish in water and even felt deeply attached to this place.

Fang Yuan's will was currently possessing a body, it was created from Shen Shang's beggar Gu.

He had two choices in front of him now. One was to wait for the main body to rescue him, the other was to cultivate alongside Shen Shang and use Shen Shang's strength to get free.

All the information concerning the divine bean soldier calamity was gathered in Qin Ding Ling's hands.

“Fang Di Chang died by self-detonation?” Qin Ding Ling frowned.

This result somewhat disappointed Qin Ding Ling, she had been hoping to capture this clone of Fang Yuan alive. And through him, deduce the location of Fang Yuan's main body.

“I did not expect Fang Yuan's clone to resolutely kill himself, but this also conforms to Fang Yuan's vicious personality.” Qin Ding Ling did not hold much doubts.

“If we could capture him alive, that would have been better. In the painting world, the gap between immortals and mortals is not big. Unfortunately, these Gu Immortal seeds have not grown enough and were unable to grasp the opportunity.” Qin Ding Ling sighed inwardly.

Xiao Qi Xing's group thought they made important contributions by slaughtering an immortal, but in her mind, Qin Ding Ling reviewed it poorly.

However, even so, Qin Ding Ling decided to reward these Gu Immortal seeds heavily. They were important cultivation targets after all.

After dealing with the matter of rewards, Qin Ding Ling put her attention on Eastern Sea's conflict once again.

Eastern Sea's conflict was the clash between humans and variant humans.

One side was led by Qi Sea Ancestor while the other was led by Wu Shuai. They had fought several times in the immemorial two heavens as well as sea areas of Eastern Sea, and the battles were becoming increasingly fierce.

After Qi Sea Ancestor saved Profound Literature grotto-heaven, he united several grotto-heaven forces in the two heavens.

Although Wu Shuai was defeated, he was not willing to show any weakness. On one hand, he gathered the forces of the two heavens that joined him, on the other hand, he ambushed and invaded those grotto-heaven forces that wanted to wait and see.

Wu Shuai's direction was extremely clear and blunt.

Before attacking the five regions, he must clean up the two heavens to stabilize their base.

On one hand, this was because the distance between the two heavens' grotto-heavens was short and they could dispatch troops easily. If Wu Shuai ignored this, when the main army was outside in the future, the grotto-heavens only needed to pose an attack and it could cause Wu Shuai's army to end up losing their home ground.

On the other hand, qi harvest fruits of various sizes had appeared in grotto-heavens of Wu Shuai's subordinates. Every time Wu Shuai attacked another grotto-heaven, he would test the variant human Gu Immortals' suggestions to get rid of the qi harvest fruits. Wu Shuai's side was in dire need of such trial and error.

Because of Wu Shuai's violent strategy, more and more human forces in the two heavens sought Qi Sea Ancestor's protection.

Qi Sea Ancestor defended the grotto-heavens while integrating various forces. But on the whole, they were still at a disadvantage.

Wu Shuai's two heavens alliance was strengthening at a much faster speed than Qi Sea Ancestor's.

He was actively protecting the variant humans' benefits, which caused increasingly more variant human grotto-heavens to join him. In the two heavens, variant human grotto-heavens were much larger in numbers than human grotto-heavens.

The final batch of variant human forces who adopted the thought of waiting and seeing took the initiative to side with Wu Shuai. On one hand, they were forced to because of the situation, on the other hand, if they did not surrender, there was no hope in resolving the hidden danger of the qi harvest fruits in their grotto-heavens.

Wu Shuai's prestige soared but the qi harvest fruit's issue was still troubling him. The two heavens alliance tested many methods but they had all failed in eliminating qi harvest fruits.

Over at Qi Sea Ancestor's side, the progress in researching the mysteries of qi harvest fruit was also quite slow.

Wu Shuai's and Qi Sea Ancestor's sides fought frequently, but there were not many casualties. It was because both sides were not focused on eliminating the other side, but on clearing up the danger of the qi harvest fruits.

"The one who knows the most about the mysteries of the qi harvest fruit is probably Demon Immortal Qi Jue. Unfortunately my strength is restrained at present and unable to deal with him." Fang Yuan sighed in pity.

He had already resolved the huge problem of heaven's will, but he still had no clue as to how to refine heaven path dao marks.

Demon Immortal Qi Jue, who Fang Yuan was thinking about, had currently arrived at Western Desert.

"It should be nearby." Demon Immortal Qi Jue flew low and searched everywhere.

He did not succeed in borrowing Gu from Qi Sea Ancestor, so he used qi path investigative methods to search for other qi path Immortal

Gu.

And on this search, he found several qi path Immortal Gu.

These qi path Immortal Gu were mostly wild Immortal Gu, they were naturally born after enormous qi tides, as for the rest, they were looted from other Gu Immortals.

Demon Immortal Qi Jue did not go overboard, he only looted qi path Immortal Gu and spared the Gu Immortals.

Moving and stopping along the way, Demon Immortal Qi Jue gradually left Eastern Sea and arrived at Western Desert.

“I deduced that a qi path Immortal Gu is near here.” Just as Demon Immortal Qi Jue was mumbling, a Gu Immortal suddenly appeared within his investigative range.

Rank eight Gu Immortal, Red Heart Traveler!

Chapter 2014 - Qi Jue Takes Blood Qi

2014 Qi Jue Takes Blood Qi

Seeing this Gu Immortal, who was wearing a headband and a green robe, having a tall and powerful stance and handsome appearance, Demon Immortal Qi Jue's mind shook: "That qi path Immortal Gu I deduced, could it be on this person?"

The moment this thought emerged, Demon Immortal Qi Jue attacked!

With a loud sound, a giant white qi hand moved to catch Red Heart Traveler.

Almost at the same time that Demon Immortal Qi Jue discovered Red Heart Traveler, Red Heart Traveler also discovered Demon Immortal Qi Jue.

Demon Immortal Qi Jue did not recognize Red Heart Traveler, but Red Heart Traveler already had Heavenly Court's first hand information on Demon Immortal Qi Jue.

Seeing the white qi hand fly towards him, Red Heart Traveler's heart jumped and he quickly evaded.

Red Heart Traveler was a Heavenly Court Gu Immortal and the previous Demon Judgment Board leader, he was very strong. During the fate war, he came to Western Desert and disguised as a blood path demonic immortal, attracting the attention of many super forces of Western Desert's righteous path, thus restraining a large number of hostile forces for Central Continent.

Looking at the whole of Western Desert's Gu Immortal world, Red Heart Traveler had the confidence to fight against almost any Western Desert Gu Immortal. But right now, his opponent was Demon Immortal Qi Jue, one of the strongest Gu Immortals in the present age.

Red Heart Traveler was well aware that he was not Demon Immortal Qi Jue's match. The gap was too large, and the loser of this battle was certain to be him.

So Red Heart Traveler retreated without any hesitation.

At the next moment, Demon Immortal Qi Jue saw a lump of blood red light emerge behind Red Heart Traveler's head, after which the latter's speed increased sharply and was able to dodge his qi hand.

Demon Immortal Qi Jue exclaimed slightly, mumbling inwardly: "Blood path again? It seems like blood path is very prolific in this age."

Demon Immortal Qi Jue was naturally not willing to let go of Red Heart Traveler so easily, so he gave chase.

One chased and one fled, they had soon traveled over ten thousand li.

To his surprise, Demon Immortal Qi Jue discovered his main movement method was actually unable to catch up to Red Heart Traveler. Naturally, he was not left behind in the dust either.

"I have already modified my movement method but I am still unable to catch up to this person. Who is this person? A rank eight blood path Gu Immortal…."

Demon Immortal Qi Jue searched his memories and gradually found some clues.

He had previously soul searched Qing Hui Zi and obtained a lot of information. Red Heart Traveler's true identity was not exposed but he created havoc in Western Desert, and with the sensitive identity of a rank eight blood path expert, information regarding him was already spread in treasure yellow heaven and every Gu Immortal in the world had learned of it.

After chasing for some more time, Demon Immortal Qi Jue suddenly shouted: “Where exactly are you running to?”

His preparation was finished, he activated a killer move.

Red Heart Traveler immediately felt the surrounding qi currents engulf him, severely affecting his speed.

He sighed inwardly, he could only turn around and fight Demon Immortal Qi Jue.

Demon Immortal Qi Jue’s moves were majestic and powerful, milky white qi currents surged like a tsunami with unstoppable might.

When they truly fought, there was no surprise, Red Heart Traveler fell into a disadvantage. But his methods also were not weak, blood red light spread and blood red flowers bloomed, there was no evil feeling, on the contrary, they were warm and righteous as they defended him.

Red Heart Traveler struggled with all his might, but in just several rounds, his whole body was soaked with sweat. He sighed internally: “As expected of a monster that was recorded in history, he is too strong!”

Red Heart Traveler felt he was like a small boat that was using all its strength to dodge and delay for time under the tidal wave-like attacks of Demon Immortal Qi Jue.

After several more rounds, Red Heart Traveler was already in a perilous situation.

At this time, there was suddenly a beast roar. An immemorial desolate beast drilled out from the desert and went for a surprise attack on Demon Immortal Qi Jue from behind.

Demon Immortal Qi Jue was caught off-guard but he did not panic, he waved his hand and a mountain-like giant qi hand slammed into the immemorial desolate beast.

But just as this immemorial desolate beast was about to be struck by the giant hand, it suddenly let out bright light and transformed into an immemorial swallow that shot towards Demon Immortal Qi Jue like a black arrow.

“So it is a transformation path Gu Immortal! Haha, interesting.” Demon Immortal Qi Jue was slightly surprised, he praised while he fought against this immortal.

The aid was from Nine Spiritual Fairy.

She and Red Heart Traveler had come to Western Desert together to help each other out.

With her reinforcement, Red Heart Traveler’s situation immediately turned better, he managed to escape from the horrible outcome of death.

“We can’t fight for long! This old demon is truly terrifying, we are not his match. We are only able to resist him now because he is not familiar with our methods yet.” Red Heart Traveler hurriedly transmitted his voice.

He had fought Demon Immortal Qi Jue and felt the terror of an expert at the peak of the present age. Demon Immortal Qi Jue was unable to get rid of him because he had resurrected not long ago and had yet to completely adapt to the changes. If they truly fought, it was only a matter of time before Heavenly Court’s two immortals were killed by Demon Immortal Qi Jue.

“I have an idea, follow me!” Nine Spiritual Fairy transmitted her voice, retreating while fighting.

Demon Immortal Qi Jue chased after the two immortals all the way to a desert.

Nine Spiritual Fairy suddenly transformed into an immemorial desolate beast and held Red Heart Traveler in her mouth before plunging into the desert.

Demon Immortal Qi Jue snorted coldly: “Foolish action!”

With a clap of his hands, heaven and earth shook. Milky white qi current slammed the desert surface like a tsunami, the surrounding hundred li of desert was forcibly pressed down to over ten feet deep!

Nine Spiritual Fairy let out a muffled groan as she suffered heavy injuries.

Red Heart Traveler quickly used healing methods on her.

Nine Spiritual Fairy did not dare to return to fighting and concentrated only on moving deeper into the ground.

Demon Immortal Qi Jue was just about to plunge into the desert and continue chasing when he suddenly heard a beast roar. At the next moment, a huge immemorial soul beast flew out of the nearby desert ground.

Demon Immortal Qi Jue's pupils shrunk slightly when he saw this immemorial soul beast.

This immemorial soul beast had a strange shape and looked quite furious. It had a tortoise shell, four tiger paws, dragon tail, snake neck, and a human head. Its head was full of disheveled hair and its eyes were letting out ominous light and fury.

This was a legendary immemorial desolate beast with many Immortal Gu!

"Oh, you found Qing Chou." Seeing Demon Immortal Qi Jue tangled with the immemorial soul beast, Red Heart Traveler exclaimed in shock.

This immemorial soul beast was Qing Chou.

After Divine Bean Palace was seized by Fang clan, Qing Chou left Divine Bean Palace and hid itself in some areas.

But in the fate war, Divine Bean Palace and Emperor City had merged into one and Genesis Lotus' was in control of it. After the fate war, Genesis Lotus' will naturally handed all kinds of information to Heavenly Court.

Not only did Qin Ding Ling know of Fang Di Chang's true identity, she also obtained information on Qing Chou. Divine Bean Palace had imprisoned Qing Chou for so many years, Genesis Lotus' will had an extremely high understanding of it and knew of a secret method to find it.

Qin Ding Ling obtained this secret method and secretly commanded Nine Spiritual Fairy to search for Qing Chou and subdue it.

Qing Chou was a legendary immemorial beast, not only did it have outstanding battle strength, it also had a natural ability to recognize everything related to Spectral Soul. If Heavenly Court obtained it, not only could they deal with Fang Yuan, they could even deal with Spectral Soul, it could be considered as killing two birds with one stone.

Nine Spiritual Fairy had found Qing Chou's location not long ago, but her strength was insufficient and she had no confidence in succeeding. When Red Heart Traveler ran into Demon Immortal Qi Jue, she thought of a plan to lure Demon Immortal Qi Jue into fighting with Qing Chou.

"Amazing, like this, we can watch from the sidelines and even possibly benefit from their conflict." Red Heart Traveler smiled.

"Qing Chou is not Demon Immortal Qi Jue's match, we need to observe the situation before making a decision." Nine Spiritual Fairy talked while moving deeper into the ground, the further away they were from the battlefield, the better.

However, beyond the expectations of Heavenly Court's two immortals, Demon Immortal Qi Jue felt something amiss and breathed out boundless qi currents that filled the sky.

He entered them and quickly disappeared.

Without an opponent, Qing Chou also chose to leave the battlefield, escaping to the horizons.

Deep underground, Heavenly Court's two immortals looked at each other. Red Heart Traveler suddenly said: "Damn it! That Blood Sea true inheritance is going to be taken!"

Nine Spiritual Fairy was stunned for a moment before reacting: "You really found that blood path true inheritance?”

Red Heart Traveler nodded, sighing: “Heavenly Court’s clues were not wrong, the crucial key was the qi tide that exposed the Blood Sea true inheritance. I searched for over half a month before finally arriving at the location. But I ran into Demon Immortal Qi Jue over there.”

Nine Spiritual Fairy was silent.

Meanwhile, Demon Immortal Qi Jue returned back to the original spot.

“It is really here!” He inspected for a while, discovering the target was still here and had not moved.

After trying for a while more, he successfully obtained this Blood Sea true inheritance.

Back then, Blood Sea Ancestor had set up hundreds of thousands of inheritance sites that spread over Central Continent, Southern Border, Northern Plains, Western Desert and Eastern Sea. Among them, there were nine true inheritances.

One of the true inheritances had now fallen into Demon Immortal Qi Jue’s hands.

“Blood path true inheritance… amazing, with this true inheritance, it will be several times easier for me to deal with blood path Gu Immortals.”

“And this blood qi Immortal Gu is really suitable for me. Hahaha.”

Demon Immortal Qi Jue laughed heartily.

Almost all the killer moves he activated before consumed qi path immortal materials. Now that he obtained a qi path Immortal Gu, his strength was raised further.

Although there was still some difference from his peak condition in history, he was already much stronger than when he fought Fang Yuan.

Chapter 2015 - Sand Wolf City“s Huge Change

2015 Sand Wolf City“s Huge Change

Western Desert.

Wind blew hard and sand flew everywhere. A merchant caravan pulled by camels was moving with difficulty through the barren desert.

“Oh heavens, we finally returned to Sand Wolf City.” Inside the caravan, Peng Da spoke with deep emotions as he showed an exhausted expression.

Gu Master Mo Li was sitting on a camel to the side, he looked at Peng Da and laughed: “Kid, your words are quite different from when we moved out the first time.”

Peng Da’s face flushed a little. When Mo Li had just organized the merchant caravan, Peng Da had been extremely excited and thought the adventure would be amazing and fun.

But after a few caravan trips, Peng Da had already fully realized his former naivety. In this world, peddling was not only difficult and extremely dangerous, it was also extremely tiring. With even some slight carelessness, his fragile life would be lost in the vast and merciless desert.

However, Peng Da’s emotions resonated with other Gu Masters in the merchant caravan.

“Yes, we are back home again.”

“We did not encounter any danger in this journey, but it was truly exhausting. I am going to take a good bath after returning.”

“I am already unable to control myself, I’ll go drink my fill at the tavern, hahaha.”

Mo Li smiled, he thought of his wife as well as his son, who had changed a lot recently. His son was selected and was heavily cultivated, his prodigal son had truly turned over a new leaf.

These beautiful wonders of life gave Mo Li brand new hope and motivation. Being a caravan merchant was difficult, but he found joy in his own way.

“Wait, something is going on!” The investigative Gu Master who was at the forefront of the caravan suddenly shouted.

Peng Da immediately tensed up while also feeling somewhat strange. According to common sense, this was near Sand Wolf City and there should be no danger here. So why was there the sudden warning?

Mo Li immediately activated his investigative Gu worm, his body slightly stiffened as he shouted: “The situation is strange, rush forward with full speed!”

Peng Da and the rest did not know the reason but seeing Mo Li take the lead, they naturally believed in the merchant caravan leader and followed quickly.

When they got close to Sand Wolf City, they did not even need to use Gu worms to discover the abnormalities.

Puffs of gray smoke curled upwards, there was also fire and a burnt smell in the air that all came from Sand Wolf City.

Everyone in the merchant caravan had a bad feeling as they moved even faster.

Finally, they arrived in front of Sand Wolf City's gate.

"Impossible!"

"What exactly is going on?!"

"Oh heavens, this is a dream, right? It must be a dream."

Some of the merchant caravan members simply knelt on the ground, some broke down and started crying, even the most stable, leader Mo Li, was standing in a daze.

Peng Da's eyes were wide open as he looked at the scene in front of him in disbelief.

The flouring Sand Wolf City had now become ruins. There were corpses everywhere, rubble and wreckage littered the roads, fire burned and smoke was everywhere, the scene was too horrible to look at.

Mo Li mumbled when he suddenly jolted, running towards the inner city.

His movement jolted many people, Gu Masters began rushing to their homes.

Peng Da did not have a home so he rode a camel and followed Mo Li.

Mo Li was fast, and with anxiety burning his heart, he directly left Peng Da far behind. Fortunately, Peng Da had returned to Sand Wolf City several times and knew the path to Mo Li's home.

When Peng Da reached Mo Li's home, he saw ruins. Mo Li was kneeling on the ground, silently looking at his wife's corpse that he had dug out.

Peng Da, however, sensed deep sadness from Mo Li's silence.

"How could this be? What exactly happened here?" While Peng Da was sad, even more so, he was bewildered.

As far as he was concerned, Sand Wolf City was a large city with many Gu Masters stationed here, but it was actually destroyed and turned into a city devoid of life!

What kind of strength could have the power to destroy the whole of Sand Wolf City?

Was it a qi tide disaster?

But it did not look like that at all from the traces.

“This world is truly too dangerous. People are living in danger, even Gu Masters are the same. There is simply no safe place.” Peng Da felt his insignificance growing increasingly.

He looked at Mo Li who was kneeling like a statue and opened his mouth several times before finally saying: “Uncle, we need to pull ourselves together. Don’t forget you still have a son.”

These words shook Mo Li, his eyes lit up with some hope once again.

“Peng Da, thank you for your reminder! My son is still in the inner city area, he is a Gu Immortal seed and is heavily nurtured. He must be okay, he has to be guarded properly! Let’s go find him!”

Mo Li carried his wife’s corpse and rushed towards the inner city area with Peng Da.

The whole inner city area had turned into a huge crater.

The inner city area — was gone!

Several caravan members were standing at the edge of the crater, watching it blankly.

Mo Li walked towards them and looked at the huge crater in front of him, his face turned extremely pale and his lips trembled, unable to say anything.

Peng Da took in a sharp breath of air, he could see this huge crater was a beast’s footprint. Such a large footprint meant this beast was unimaginably huge!

“This is not man-made.”

“A beast calamity!”

“A mountain sized beast attacked Sand Wolf City and killed everyone!”

The caravan members analyzed and started weeping again.

Mo Li fell into deathly silence and Peng Da did not know how to console him. Mo Li once had a beautiful home and now it was all gone, only he himself was remaining.

As far as Mo Li was concerned, as far as the surviving caravan members were concerned, fate was simply too cruel!

Boom—!

Just at this time, there was a sonic boom in the sky above everyone.

This sound immediately attracted everyone’s attention.

“Could it be that the giant beast did not leave?” Peng Da quickly raised his head and saw two figures floating in the sky.

“Gu Immortals!” The other Gu Masters shouted.

“Disaster befell this place as well.” The Gu Immortals in the sky talked, their voices echoing and spreading below, they did not conceal it.

“This damned beast, it has caused my Mo clan to suffer such disastrous losses. Wait until I capture it, I will pull out its tendons and flay its skin to ease my anger.” Another Gu Immortal said in fury.

“Let’s go, we will catch up to it soon.” The two Gu Immortals quickly flew away.

The Gu Masters on the ground were silent for a while when someone suddenly started to cry out loud.

“Father, mother, you died so miserably. I, your son, cannot avenge you, but the immortals will uphold justice for you!"

Peng Da was silent, his mood was extremely heavy. At this moment, he suddenly had a realization: Even if one becomes a Gu Master, even if they are a rank five Gu Master, what use is it? Only by becoming a Gu Immortal could they have some sort of control over their own fate in this world.

"I want to follow them to take a look." Mo Li suddenly said with a resolute expression.

"Leader, are you crazy?" The surrounding Gu Masters quickly persuaded.

Mo Li's attitude was firm: "I am incompetent! I cannot avenge my wife and child, but I will stake all my strength to see the death of the culprit with my own two eyes! If I can't even grasp this chance, even if I live on, I will feel regret for the rest of my life!"

These words resonated with the remaining Gu Masters, they agreed and expressed that they wanted to move alongside Mo Li to see justice being upheld.

"Uncle, I also want to follow you." Peng Da said.

"You should stay behind, kid." Mo Li's expression softened somewhat as he looked at Peng Da.

Peng Da smiled bitterly: "Uncle, you have saved me time and time again, you are my closest person in this world. Since I followed you, I will definitely not separate with you at this crucial moment. Let me continue to follow you, uncle!"

Mo Li looked deeply at Peng Da for a good while before nodding and saying with a hoarse voice: "Then follow me, rascal."

The group of Gu Masters followed the direction the Gu Immortals flew towards and left the ruins of Sand Wolf City.

On the way, the footprints of the giant beast was exceptionally obvious, which kept them on the correct path.

They rushed like this for a day and a night when they suddenly heard thunder in the horizon.

“This is not thunder, it is the fight between the Gu Immortals and the giant beast!”

“Listen closely, you can vaguely hear a beast’s howl.”

The Gu Masters were excited as they sped up, wanting to get closer.

But at this time, a dark qi current sprayed out like a rainbow crossing the sky.

A thread of the qi current fell near the Gu Masters. A trace of the dark qi brushed past a Gu Master’s shoulder.

That Gu Master suddenly cried out in terror, his skin and muscles started rotting and he soon melted into a white skeleton!

Everyone was horrified at this shocking change and quickly escaped in all directions.

Fortunately, the dark qi dispersed with the wind and did not linger.

“It is too dangerous to go closer!”

“This is only the aftereffect of the fight between the Gu Immortals and the giant beast, we have no strength to resist it.”

“If we move in any closer, we will lose our lives.”

Most of the Gu Masters stopped and turned back.

“I still want to try it. You can leave.” Mo Li was the only remaining Gu Master.

Peng Da still wanted to follow him, but this time, Mo Li’s attitude was firm, he drove him away.

Alone, Mo Li moved some distance with difficulty, when he climbed up a sand dune and looked, he could not help taking in a sharp breath at what he saw.

Far away in the horizon, dark fog covered everywhere.

The fog was clearly the dark qi current from earlier. In the dark fog, Mo Li could vaguely see a figure of a mountain-sized beast as well as the occasional lightning flashes.

Mo Li breathed in deeply and was about to continue moving forward when he was suddenly hugged from behind.

“Uncle, do you want to die? Don’t go any forward, you will lose your life!” Peng Da shouted.

“Brat, why haven’t you left yet?” Mo Li was furious.

Peng Da said with sincerity: “Uncle, you are my benefactor, how can I forget your kindness and watch you send yourself to death’s door? I know you want to die, your condition is not right, I have been following you all the way but you were unable to discover me! Uncle, live on, don’t kill yourself!”

But Mo Li was not persuaded: “Brat, get lost!”

“I won’t!”

“Screw off——! This has nothing to do with you. You are still young and have a long life ahead of you, don’t come here to die.”

“Uncle, I will save you!”

“I don’t need you to save me, even if I die, I will stake my life to take revenge. Even if it is an insignificant attack, as long as it lands on that damned beast, I will be satisfied!!”

Boom——!

Just as the two were bickering, a hurricane flew over from the battle on the horizon.

The hurricane was like a pillar that connected heaven and earth, it moved quickly towards the two.

“Damn it!” Peng Da and Mo Li simply did not have the time to dodge and were swept away by the hurricane.

The two insignificant figures disappeared into the violent hurricane in an instant.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2016 - Dazzling Smile

2016 Dazzling Smile

Western Desert.

Dark clouds covered the sky and thunder rumbled as the fierce fight of the Mo clan Gu Immortals with the mysterious giant beast continued.

“Die, beast!”

“I will tear out your bones and tendons as resources to compensate for the losses my Mo clan suffered.”

The two Mo clan Gu Immortals were furious, the giant beast brought disaster to Mo clan, causing heavy losses. The areas these two were responsible for suffered even more severe damage.

“You want to kill me?” During the battle, the mysterious giant beast suddenly spoke human words.

Mo clan’s two immortals were shocked and their hearts jumped wildly.

At the same moment, the giant beast opened its mouth and shot out its long purple-red tongue.

The long tongue moved with astonishing speed and pierced through a Mo clan Gu Immortal’s body. Almost instantaneously, this Mo clan Gu Immortal was corroded by the strong poison and turned into nothingness.

Only the immortal aperture turned into an indistinct light speck and fell to the ground.

“You are a legendary immemorial beast!?” The remaining Mo clan Gu Immortal was horrified and retreated in panic.

But it was already late.

The mysterious giant beast was Qing Chou. It laughed coldly as ghost qi started surging around it. The dense layers of ghost qi turned into ghostly figures which blocked the Mo clan Gu Immortal.

Qing Chou closed in slowly: “Didn’t you want to kill me and pull out my bones and tendons?”

Mo clan’s Gu Immortal shouted in fear: “Spare me, I belong to Mo clan. Spare me and Mo clan won’t pursue you any further.”

“Pursue me?” Hearing this, a trace of anger flashed past Qing Chou’s face: “You two idiots do not even know you are being used by others. Go and die!”

“Ahhh—!” The Mo clan Gu Immortal let out a painful shriek as ghostly figures pounced on and killed them.

After killing these two Gu Immortals, Qing Chou looked towards the desert.

Sand flew wildly on the ground, turning into a giant monster, it was an immemorial sand monster. This was the assistance brought by the Mo clan Gu Immortals, they were able to restrain Qing Chou by using it.

But the Mo clan Gu Immortals had not expected Qing Chou to be a legendary immemorial desolate beast with wisdom that surpassed ordinary humans. Qing Chou took advantage of this point, pretending to be an ordinary immemorial desolate beast, which made the Mo clan immortals complacent and relax their guard. Then with Qing Chou’s fierce counterattack, the immortals died.

With the death of the Mo clan immortals, this immemorial sand monster was no longer controlled; its movement began to slow down and it stood on the ground while looking at Qing Chou.

Qing Chou stared at the immemorial sand monster: “Get lost!”

The immemorial sand monster shook with fear and immediately turned around, plunging into the desert and escaping.

Qing Chou scared away the monster but the surrounding ghost qi intensified further, it looked at a certain area in the sky and sneered: “Two despicable worms, are you still not coming out?”

The moment its words came out, Heavenly Court’s two immortals, Nine Spiritual Fairy and Red Heart Traveler, slowly showed themselves. They were floating in the sky side by side and were looking down at Qing Chou.

Previously, when Red Heart Traveler was searching for the Blood Sea true inheritance, he was obstructed by Demon Immortal Qi Jue. After realizing Demon Immortal Qi Jue’s goal, Red Heart Traveler resolutely gave up on the Blood Sea true inheritance and continued to chase Qing Chou with Nine Spiritual Fairy.

After all, Qing Chou’s matter concerned Heavenly Court’s plan. And, even if he got the Blood Sea true inheritance, it would only raise Red Heart Traveler’s strength. The more important thing was clear with one glance.

Nine Spiritual Fairy and Red Heart Traveler possessed Heavenly Court’s secret method, so they continued to trace and soon discovered Qing Chou.

But the two did not dare to make a move rashly.

This was Western Desert, enemies were all around them, and it was not the territory of these two immortals. If they rashly started a fight, with the other being a legendary immemorial desolate beast, once the fight entered a stalemate, Western Desert’s native Gu Immortals would interfere and the situation would become too unstable.

After some discussion, Nine Spiritual Fairy transformed into an immemorial desolate beast and destroyed the surrounding resource points, attracting some Mo clan Gu Immortals.

The two Mo clan immortals brought an immemorial sand monster but they were not even able to make Qing Chou expend its energy, instead, Qing Chou discovered traces of the two Heavenly Court immortals.

With their plan failing and Qing Chou exposing their position, the two Heavenly Court immortals showed themselves and attacked.

Boom boom boom!

The two immortals were both rank eight and were extraordinary indeed. Their moves were violent and their attacks were like unceasing waves.

Qing Chou immediately fell into a disadvantage.

But Qing Chou was an immemorial desolate beast, its body was extremely tough and thick, there was no injury even after getting hit by several rank eight killer moves.

After dozens of exchanges, it became familiar with the techniques of the Heavenly Court immortals and began to slowly turn around the situation.

However, this did not last long, a qi tide began to appear.

It was because the immortal apertures of the dead Mo clan immortals had opened the entrance and started to absorb heaven and earth qi to stabilize themselves.

There was a difference in the heaven and earth qi in these two immortal apertures and the outside world, and along with the accumulated impact from the fights between the Gu Immortals and Qing Chou, a giant qi tide was formed.

Qing Chou suffered heavy restriction in the qi tide, its strength fell sharply. On the contrary, the two Heavenly Court immortals had offered their immortal apertures and only had phantom apertures, thus they were not affected too much in the qi tide.

Qing Chou roared and struggled but it was all in vain.

It then realized that the two Heavenly Court immortals still had another layer of planning. They did not just use the two Western Desert immortals, they even calculated their immortal apertures in their plan!

Just as Qing Chou was fighting bitterly, Peng Da shook his head and opened his eyes.

“Where am I?” After a moment of daze, he discovered he was being carried by Mo Li and they were moving on a huge sand dune.

“Uncle, you saved me again.” Peng Da sighed.

“You are awake.” Mo Li smiled.

“Uncle, you can put me down.”

But Mo Li shook his head: “Your injuries are severe, although I healed you, you should not move within a short period of time.”

Peng Da smiled bitterly: “I have troubled uncle again. Where is this?”

Mo Li replied: “Sigh, we were swept away for over ten thousand li by the hurricane, we are now going back.”

Mo Li had lived many years in the desert, he naturally had a method to distinguish the directions.

Peng Da was immediately worried after hearing Mo Li’s words: “Uncle, you still want to return? You want to go back and die?!”

Mo Li was silent for a while, his voice was low and deep, containing resolution: “I also know returning is risky, but if I don’t even see the appearance of the killer of my wife and son, I will never be able to rest easy!”

“Uncle…” Peng Da did not know what to say. He understood the sadness and hatred Mo Li was feeling right now, and it was because of this, he was unable to persuade him further.

Mo Li continued: “Brat, I am thankful for your concern. After we travel a bit further, I will drop you off with enough water and food. It won’t be an issue for you to cross the desert and get to the nearest city.”

“Uncle, I won’t leave, I can’t leave you alone.”

“Don’t make a scene!”

“I am not making a scene, you are the one who is irrational!”

Just as the two were quarreling, the sand below Mo Li began to move and formed a huge whirlpool that sucked both of them inside.

Mo Li quickly used his Gu worms but it was of no use.

He was pale with shock: “What is going on? My Gu worms actually have no effect!”

Peng Da also tried with no result, his face was extremely pale: “Is this quicksand? We are going to be sucked in!”

This quicksand was too strange, their methods were useless on it.

The two were getting closer and closer to the center of the quicksand, their bodies were slowly buried under the sand and their faces were ashen.

“Am I going to die?” Peng Da mumbled.

Mo Li heaved a deep sigh: “I implicated you, Peng Da.”

“I, I don’t blame you uncle. It was all my choice.” Peng Da felt his heart beating wildly and his throat parched, he did not know what to express.

The feeling before impending death was really the worst!

But soon, Peng Da’s attention was caught by another thing.

He found that uncle Mo Li who usually had great mental fortitude was actually crying.

Mo Li sobbed: “I am going to die but my revenge has yet to be done! I did not even see the killer’s true appearance. I am too weak, too weak! I don’t even have the qualifications to approach the enemy.

The gap between immortals and mortals is too big, I am only a mortal, I am like an ant!"

Peng Da opened his mouth to console Mo Li, but he did not know what to say.

At the next moment, the hot sand poured into his mouth as Peng Da quickly closed it. His whole body was buried and his sight was filled with darkness.

"Am I going to die?"

"I am dying like this?!"

"Hehehehe, I am truly pitiful, to think that my journey in this new world is going to end like this."

"I really don't want to die, I really don't want to die!"

Suddenly, in his dark vision, there were specks of starlight.

"Huh? I didn't die?" Peng Da sat up and looked at the scene in front of him in disbelief.

He was now at the bottom of a dry well, the quicksand whirlpool continued to rotate in the entrance of the well, but the strange thing was that the sand did not fall down.

There was a mysterious force here that stopped the quicksand whirlpool and only allowed Peng Da and Mo Li to enter it.

"Uncle, uncle?" Peng Da immediately saw Mo Li and shouted twice before he got a reaction.

"Kid, you are awake? This is an immortal opportunity, we have struck gold!" Mo Li turned around, saying with excitement and shock: "This is very likely an inheritance left by a Gu Immortal."

"Uncle, you are certain?" Peng Da's eyes opened in incredulity, this was too dreamlike, the ups and downs of life came too suddenly.

He was not a greenhorn who had just transmigrated, the current Peng

Da had traveled with Mo Li's caravan many times and knew about the Gu world. Gu Immortals and Gu Immortal inheritances were always a topic of discussion among Gu Masters in their idle time, he did not expect the unreachable thing to appear in front of him now.

"Damn it, damn it!"

"Why is there no reaction?"

Mo Li attempted many things and was getting restless but the starlight showed no reaction.

"Uncle, this might not be a Gu Immortal inheritance, right? I feel like you are thinking too much." At this time, Peng Da finally stood up and walked towards Mo Li.

Mo Li did not retort, he also began to doubt his previous judgment.

But right at this time, the starlight suddenly made a movement. Like tidal waves, they passed by Mo Li and entered Peng Da's body.

The two were shocked.

This happened so fast that when they reacted the starlight had already entered Peng Da's body.

Without the starlight, the well fell into darkness.

Mo Li activated his Gu worm, creating a lump of fire in his hand that brightened the well once again.

Peng Da was standing on the spot in daze like a statue with his eye eyes wide open.

Mo Li quickly neared him: "Peng Da, Peng Da! Are you alright?"

Only then did Peng Da react: "Un… uncle, you were correct, this is truly a Gu Immortal inheritance and it is Thieving Heaven Demon Venerable's inheritance!"

"What, Thieving Heaven Demon Venerable?!" Mo Li was shaken, they had a lot of understanding regarding venerable existences as well.

Due to the current time and situation, the Gu Immortal world's knowledge was no longer secret among mortals.

Mo Li's gaze turned slightly complicated: "This means to say, Peng Da, you are an otherworldly demon? No wonder the inheritance did not respond to me."

Peng Da felt ashamed: "Uncle, I didn't intentionally conceal it from you. It was just that…"

"Alright." Mo Li waved his hand: "So what if you are an otherworldly demon? You are still Peng Da, the person I know, isn't that so?"

Peng Da was extremely moved and nodded his head quickly: "Yes! Thank you for understanding, uncle."

Mo Li shook his hand: "Alright, alright, you really struck it big this time. Since you inherited the Demon Venerable's inheritance, then use the method to leave here quickly. Ordinary methods are useless here."

Peng Da felt ashamed: "The situation is like this, uncle, although I have many Gu worms, I cannot use them. This is the first time I am seeing these Gu worms and need a lot of practice. Moreover, according to the inheritance, I must use one of the killer moves to leave here."

"Then practise it quickly, ask anything you don't understand, uncle will guide you!"

"Yes, thank you uncle."

"Is there still a need for thanks between us?" Mo Li smiled: "Practise quickly, we don't have much water and food."

As the inheritor, it did not matter if Peng Da ate or drank in the well, but Mo Li could not share the same benefit.

Over the next few days, Peng Da practised without resting. He was only a mortal so the Gu worms he practised with were all mortal Gu.

This was the first time he was coming in contact with these Gu worms, although there were detailed explanations in the inheritance, he still needed to practise and master these Gu worms.

Mo Li helped Peng Da to study and learn, once they had some progress, Peng Da would hand the Gu worms to Mo Li for demonstration and guidance.

Mo Li was an experienced Gu Master, although he did not have the qualifications to inherit the Thieving Heaven true inheritance, he had much more efficient ways to probe these Gu worms.

Finally, Peng Da was barely able to master the usage of several Gu worms and found a way to use a killer move.

“Go on Peng Da, try to succeed in one attempt!” Mo Li encouraged Peng Da.

“Watch this, uncle.” Peng Da used the killer move for the first time but it did not succeed.

The killer move activation failed and he suffered backlash, he coughed blood and fell on the ground.

“Peng Da, are you okay?” Mo Li quickly inspected Peng Da’s body.

Peng Da squeezed words out through his mouth: “I have disappointed you, uncle. But rest assured, I will definitely… ah!”

Suddenly, his eyes opened wide.

He then looked at his chest with an incredulous expression.

His chest was pierced through by Mo Li’s hand, his heart was destroyed because of this sneak attack!

“Un… uncle…” Even more blood started flowing out of Peng Da’s mouth.

Mo Li raised his head slowly, his eyes were filled with tears and his expression was extremely twisted, unfamiliarity and fear filled Peng Da’s mind.

Mo Li’s voice was extremely hoarse: “I want revenge, I want revenge! But the true inheritance chose you, uncle had no other options, Peng Da! You are too young, you practised for so long but you could not even master a killer move. Uncle cannot wait any longer, uncle cannot depend on you.”

Mo Li then took out his hand.

Peng Da powerlessly fell onto the ground, his eyes helplessly looking at the entrance of the well.

He was dead.

But Mo Li did not stop, he activated his Gu worms and captured Peng Da’s soul.

“Alright, the Thieving Heaven true inheritance is mine now.” Mo Li laughed. Peng Da’s blood was splattered on his face, his bloodstained face had a dazzling smile.

Chapter 2017 - Bai Ning Bing Versus Hei Lou Lan

2017 Bai Ning Bing Versus Hei Lou Lan

Central Continent, on a certain nameless and ordinary peak.

Four Gu Immortals arrived at the base of the mountain while concealing themselves.

“Hei Lou Lan is on this mountain.” Ying Wu Xie looked at the peak and spoke.

At his sides were Fairy Zi Wei, Old Man Zheng Yuan, and Bai Ning Bing.

After Fairy Zi Wei and Old Man Zheng Yuan forced Bai Ning Bing to surrender, they obtained Ying Wu Xie’s whereabouts. Ying Wu Xie was a split soul of Spectral Soul and his mission had always been to rescue his main body.

But due to his strength and Fang Yuan’s arrangements, Ying Wu Xie could not enter Heavenly Court. After the fate war, fate Gu was destroyed and Fang Yuan escaped, while Ying Wu Xie wandered around Central Continent, resenting Fang Yuan for not saving Spectral Soul’s main body.

After Fairy Zi Wei provided enough evidence, Ying Wu Xie learned his main body was no longer in Heavenly Court and had gotten free by himself.

Ying Wu Xie was exulted, he directly abandoned Fang Yuan and joined Fairy Zi Wei's group.

Through Ying Wu Xie, Fairy Zi Wei's group learned that he had just recently separated from Hei Lou Lan. Thus, the four immortals quietly arrived at this place.

Ying Wu Xie said softly: "Hei Lou Lan is a formidable person, although her cultivation is low and her battle strength is not high because future self has lost its effect, she has great endurance and knows how to wait patiently, she is ambitious and cannot be looked down upon."

Ying Wu Xie did not doubt his side's strength, but what he was most worried was if Hei Lou Lan would side with them and betray Fang Yuan or not.

In this aspect, Fairy Zi Wei was confident, she said with a smile: "I have full confidence in making Hei Lou Lan surrender. She has a complex relationship with Fang Yuan, but it is not firm. Hei Lou Lan wants to kill her own father for revenge, this is her greatest wish. Fang Yuan has captured Hei Cheng and because his strength is higher than Hei Lou Lan's, she has always been controlled by him. We can use this to make her surrender."

Know yourself and your enemy, and you will never be defeated.

Back then, Fairy Zi Wei tried all sorts of methods to deduce Fang Yuan's position, but could not do anything because Fang Yuan was slippery like an eel and his most skilled wisdom path aspect was in blocking deductions.

Fairy Zi Wei could not do anything against Fang Yuan, but she investigated everything about Fang Yuan's subordinates. But at that time, even if she wanted to use these indirect ways to find Fang Yuan's location, they all ended up in failure.

But now, Fairy Zi Wei was going against Hei Lou Lan. Those past failures had now become her source of confidence.

Immediately, Fairy Zi Wei made arrangements: "This time, Ying Wu

Xie, you stay behind. Bai Ning Bing, you will approach Hei Lou Lan. You can say you obtained news from Ying Wu Xie and came to visit. When you near her, sneak attack and seal her in ice. After you get her under control, I will persuade her."

"How about I go with her?" Ying Wu Xie did not feel assured.

Bai Ning Bing glanced at him and flew away.

Ying Wu Xie quickly looked at Fairy Zi Wei, Fairy Zi Wei, however, shook her head: "We will watch it from here."

Bai Ning Bing flew across the sky like a flash of white light, she looked down at the peak and shouted: "Hei Lou Lan, are you here?"

After a while, Hei Lou Lan came out from a mountain cave and frowned slightly as she looked towards Bai Ning Bing: "Why are you here?"

Bai Ning Bing laughed and pointed at Hei Lou Lan: "I have joined Spectral Soul now and have come to capture you. Hei Lou Lan, if you are smart, then just let yourself be captured."

Hei Lou Lan's eyes opened wide: "Are you for real?"

At the base of the mountain, Ying Wu Xie almost stomped his foot in anger: "I knew that Bai Ning Bing would spoil the matter. Her nature is eccentric and she prioritizes fun. She did this on purpose, she definitely felt this way would be more interesting!"

Sure enough, Bai Ning Bing's laughter was heard: "Of course I am for real!"

Saying so, she turned into white light and charged at Hei Lou Lan.

Hei Lou Lan had already been preparing and with a shout, she raised her hands and sent out a large amount of flames to counter the white light.

Bai Ning Bing was caught off-guard and was forced back to the sky.

But she looked even more excited: "Fire path method? You actually changed to this path? Haha, interesting, I already wanted to fight you! But how long can you block me for?”

Immortal killer move — Bai Xiang!

Bai Ning Bing directly activated her trump card method, her body was no longer a flesh and blood body, and was covered in overflowing frost qi that even shrouded the mountain peak.

Hei Lou Lan entered the mountain cave and Bai Ning Bing gave chase without being afraid of any traps.

The two fought inside the cave, causing explosions that cracked and shattered the mountain rocks.

After several exchanges, Hei Lou Lan fell into a disadvantage and her situation did not look good.

Hei Lou Lan’s aptitude, temperament, and natural talents were at top level, but her fortune was not good and she ran into Fang Yuan too early. Fang Yuan dominated her and used Hei Cheng to control her, which greatly influenced her cultivation.

Hei Lou Lan’s strength qi Immortal Gu, flying bear strength Immortal Gu, and self strength Immortal Gu became Fang Yuan’s possessions. Slavery Immortal Gu was also borrowed by Fang Yuan and consumed. Divert disaster Immortal Gu was destroyed when she underwent tribulation.

During the period of the fate war, Hei Lou Lan almost always relied on the killer move future self. Once the future self was broken, Hei Lou Lan returned to her previous self.

Fang Yuan did not summon her back, Hei Lou Lan also held ambitions and did not want to be controlled by Fang Yuan, so she actively searched for a way to be free.

She possessed her aunts’ true inheritances, and after enough pondering, she resolutely changed to cultivating Blazing Heaven Demoness’ fire path.

But unfortunately, before she had good progress, she was discovered by Fairy Zi Wei and was now chased by Bai Ning Bing.

Hei Lou Lan felt bitter inside, she wanted to retreat but was chased closely by Bai Ning Bing.

When she slowly lost the strength to attack and was about to be captured by Bai Ning Bing, a white light flew over from the horizon.

This white light appeared slow but was extremely fast, Bai Ning Bing's Bai Xiang form actually could not dodge it and was struck.

In an instant, Bai Xiang froze in the air, no longer moving.

"Hei Lou Lan has reinforcements?!" Ying Wu Xie was shocked.

"Not reinforcements, this should be Longevity Heaven's members." Fairy Zi Wei said with a smile.

Ying Wu Xie realized, Fairy Zi Wei had already taken Bai Ning Bing's nature into her calculations, her main goal had been to use Bai Ning Bing to trigger Longevity Heaven's ambush. The reason she did not send Ying Wu Xie was in fact because she wanted to protect him, Ying Wu Xie was Spectral Soul's clone after all, he was truly one of them. And Bai Ning Bing, who possessed Bai Xiang, was the perfect candidate to probe the ambush!

"This is a time path killer move, is it Fang Yuan?" Hei Lou Lan had a complex expression as she looked towards the horizon through the gaps in the cave.

Rank eight Immortal Gu House Calamity Luck Altar appeared in the horizons, and in almost an instant, arrived at the center of the battlefield.

Calamity Luck Altar sent out a strong light that shone on the unmoving Bai Ning Bing.

Although the killer move Bai Xiang was amazing, Calamity Luck Altar was a rank eight Immortal Gu House that was personally created by Giant Sun Immortal Venerable. If Bai Ning Bing was struck head-on, her death was certain.

Fairy Zi Wei quickly made a move, sending out a purple aurora to cover Bai Ning Bing while blocking Calamity Luck Altar's powerful light.

"I was wondering who it was, so it turns out to be the leader of the defeated Heavenly Court!" Bing Sai Chuan's voice came from Calamity Luck Altar.

Fairy Zi Wei shook her head slightly and flew to the sky with Old Man Zheng Yuan: "We have already joined Lord Spectral Soul, we are no longer in Heavenly Court's faction."

Bing Sai Chuan sneered: "Like I care about which side you are on! Hei Lou Lan is my Longevity Heaven's descendant, she is a member of Northern Plains. Don't even dream of harming her!"

Fairy Zi Wei retorted: "The five regions have merged, all the regional walls have disappeared, what do you mean by Northern Plains? We will need to fight to decide where Hei Lou Lan goes."

Bing Sai Chuan did not speak any nonsense, he directly controlled Calamity Luck Altar to collide into Fairy Zi Wei.

A huge battle erupted!

Hei Lou Lan and Bai Ning Bing were put under control, unable to budge.

Hei Lou Lan's face was ashen, she was fully aware that be it Heavenly Court or Longevity Heaven, they were trying to use her to search for clues about Fang Yuan!

This was the result of having low cultivation level, she had become an object for the two sides to fight over. No one asked her if she was willing or not.

This battle did not last long, both sides were holding back.

It was Fairy Zi Wei who took the initiative to stop: "No need to fight anymore, there is no harm in giving Hei Lou Lan to you."

Bing Sai Chuan had Immortal Gu House Calamity Luck Altar while

Fairy Zi Wei was without Star Constellation Chessboard and was in a weakened state. The reason she attacked was because she wanted to trigger a qi tide and use it to claim victory.

But Bing Sai Chuan clearly knew of Fairy Zi Wei's plan and made Calamity Luck Altar use all its might. Fairy Zi Wei saw the battle turning increasingly fierce and knew her side would have to use their full strength if they wanted to hold on until the qi tide arrived, so she directly chose to stop.

"We have a common objective, it doesn't matter where Hei Lou Lan ends up in. Fang Yuan is at his weakest state currently, if we miss this rare chance and let him recover, it will be too late. We can even work together, what do you think, Bing Sai Chuan?" Fairy Zi Wei made a proposal.

Then, she showed evidence to prove her current faction.

"Who could have thought that there would be a day when we cooperate!" Bing Sai Chuan was silent for a while before sighing.

Both sides had their own venerable as their backer and they both wanted to kill Fang Yuan, they had the qualifications to cooperate as well as a common goal, so working together was indeed a wise choice.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2018 - Impending Fatal Calamity

Chapter 2018 Impending Fatal Calamity

Central Continent, deep beneath a certain Earth Trench.Calamity Luck Altar was floating in the air, there were tall cliffs on both sides, while below it was unfathomable darkness.

It was emitting soft light and did not conceal its aura, scaring away any beast that tried to approach it.

At the middle of the cliff was a giant cave that was dug by Fairy Zi Wei and the rest.

Purple light flickered in the cave and a wisdom path formation was already set up, Fairy Zi Wei sat at the center and Old Man Zheng Yuan sat at the assistant's position, on one hand, he was using human path methods to cooperate with Fairy Zi Wei, on the other hand, he was using a portion of the immortal formation to guard against Bing Sai Chuan.

After all, it was the first time these two sides were collaborating, they had to err on the side of caution.

There were several formation cores at the edges of the formation as well. Bai Ning Bing, Hei Lou Lan, and Ying Wu Xie were sitting in these formation cores as the crucial clues.

Purple light swayed, rising and falling at times like tides.

After a long while, Fairy Zi Wei opened her eyes slowly and stopped this wisdom path immortal formation, the overflowing purple light dissipated slowly.

“How is it?” Bing Sai Chuan’s question came from Calamity Luck Altar.

Fairy Zi Wei sighed and shook her head: “It is still not enough. But this method is absolutely effective. These three have set alliance agreements with Fang Yuan, their connections are extremely tight. As long as we capture even more Gu Immortals, we can deduce Fang Yuan’s exact location.”

The large formation was dismantled and the Gu worms flew back to Fairy Zi Wei’s immortal aperture.

Ying Wu Xie and the others stood up.

Bai Ning Bing smiled: “This is not difficult. During the fate war, Fang Yuan had dispatched not only us but also a large number of transformation path Gu Immortals.”

Hei Lou Lan added: “From what I know, these transformation path Gu Immortals were incorporated after Fang Yuan annexed an immemorial grotto-heaven. After the fate war, Fang Yuan disappeared without leaving behind any traces, these people should still be scattered around Central Continent.”

Ying Wu Xie shook his head: “But these transformation path Gu Immortals don’t have a close connection with Fang Yuan, it is better if we look for Lady White Rabbit and Fairy Miao Yin, these two are crucial characters that are only second to us.”

Fairy Zi Wei had stored all the Gu worms by now, she did not have formation flag Gu or similar methods, it was rather time-consuming every time she dismantled the formation.

She looked towards Calamity Luck Altar which had been guarding from the side: “It is better if we split our forces to search for White Rabbit and Miao Yin. If we encounter Fang Yuan’s transformation path Gu Immortal subordinates along the way, we can make the decision to make a move at our own discretion."

Shortly after, Bing Sai Chuan's response came from Calamity Luck Altar: "Of course. For our following plans, we will need more communication between us."

Fairy Zi Wei nodded: "Indeed."

Although the scale of this cooperation was small and duration was short, it had huge significance and both sides had begun to trust each other.

Calamity Luck Altar picked up Hei Lou Lan while Bai Ning Bing and Ying Wu Xie stayed with Fairy Zi Wei, both sides separated and departed on their own.

Immemorial two heavens.

Crescent Moon grotto-heaven.

"Fairy Crescent Moon, you won't surrender even if the alternative is death?" Xiao He Jian, Lady Cold Ash and the rest were looking down from high above, looking at the dying Gu Immortal in the ruins.

Fairy Crescent Moon had rank eight cultivation and was the owner of Crescent Moon grotto-heaven. She had the terrain advantage but she was completely outnumbered, she was only hanging on her last breath now.

She spat and said with hatred: "You bandits, my Crescent Moon grotto-heaven has no conflicts with the outside world and has never provoked you nor had any ambitious plans. I will never surrender to you!"

"Then die!" Lady Cold Ash was already impatient, she pointed her finger, a grey light shot out and struck Fairy Crescent Moon.

Lady Cold Ash put her hand inside her sleeve, Fairy Crescent Moon's soul was carried by the grey light and brought to her.

"This is a rank eight Gu Immortal's soul, devouring her soul will be much more effective and also much easier to absorb." Lady Cold Ash was Spectral Soul, but he was able to conceal it from the whole of Wu Shuai's alliance.

Xiao He Jian looked at her: "Lady Cold Ash, you battled in the front lines and slaughtered countless enemies, collecting a vast number of mortal souls and many Gu Immortal souls. Those are your battle spoils, but Lord Alliance Leader specially asked for this rank eight soul. You cannot take it."

Spectral Soul was slightly stunned before smiling and handing this rank eight soul to Xiao He Jian: "Since our alliance leader wants it, why would I dare to take it."

Inside her heart, however, she was snorting coldly: "I shall hand this to you for the time being, in the future, I will settle both our old and new grudges together!"

Xiao He Jian nodded with approval and took Fairy Crescent Moon's soul while consoling Lady Cold Ash: "Let's go, let the others clean up here. Follow me to see the alliance leader and report the battle."

"I can finally get close to Wu Shuai. This is a good chance!" Spectral Soul's mood lifted upon hearing that.

However, when the two arrived in Dragon Palace's hall, they only saw Wu Shuai's will sitting on the main seat.

Wu Shuai's will heard the report and praised: "Lady Cold Ash, you made the most contributions in this invasion of Crescent Moon grotto-heaven, well done."

"It is our duty to work for alliance leader." Lady Cold Ash was extremely disappointed but showed a smile on her face.

"Alright, you can leave. When we hand out the rewards based on contribution later, you will not be disappointed." Wu Shuai's will waved his hand.

The two left Dragon Palace, Spectral Soul, however, felt discontent inwardly: "It is really a pity that we were not able to see alliance leader."

Xiao He Jian glanced at her, feeling some disdain towards Lady Cold Ash's conduct in trying to flatter the alliance leader when they were not even in front of him: "How can Lord Alliance Leader be available whenever you want? He has been in closed cultivation to resolve the danger of the qi harvest fruits. We only need to follow his orders."

"Yes."

Xiao He Jian's expression softened as he patted Lady Cold Ash's shoulder: "Work well and follow me, you will be able to play a key role in the alliance one day!"

"Then I will depend on lord's guidance." Spectral Soul put up a performance while internally scheming on when to capture Xiao He Jian!

"It is good that you understand." Xiao He Jian smiled and walked forward.

He had joined the alliance because of Qi Jue's true inheritance, as a lone force, he was suppressed by Ice Crystal Immortal Monarch and others. But Xiao He Jian's strength surpassed ordinary rank eights, he was slowly stabilizing his footing in the alliance and had won over some Gu Immortals under him.

Lady Cold Ash's performance had been extremely outstanding in the latest battle and she had displayed extraordinary battle strength, so despite her being a pure human, Xiao He Jian wanted to rope her in to his side.

On the other side.

"Granny Skeleton has arrived—!" The doorman shouted.

Granny Skeleton entered the hall and saw Qi Sea Ancestor on the main seat, she quickly cupped her hands and bowed, getting straight to the point: "Skeleton grotto-heaven is willing to come under Qi Sea Ancestor."

Qi Sea Ancestor nodded: "Hahaha, Granny Skeleton, you are wise. You will not regret joining my side."

Granny Skeleton sighed and asked: “I wonder when Lord Ancestor can get rid of the qi harvest fruit’s problem?”

“I have already made good progress in this, you can rest assured.” Fang Yuan changed the topic, “Skeleton grotto-heaven is the nearest to Crescent Moon grotto-heaven. Crescent Moon grotto-heaven has now already fallen to Wu Shuai’s side, I am willing to send troops and station some Gu Immortals in Skeleton grotto-heaven, I hope you can cooperate.”

Granny Skeleton sighed, although Fang Yuan did not show the ability to resolve the danger of qi harvest fruits, due to the outside world’s condition, Granny Skeleton could only lower her head and join him.

“With the current situation, there is really nothing else I can do. Currently, there are almost no unaffiliated grotto-heavens left in the immemorial two heavens. They have either joined Wu Shuai or have been recruited by Qi Sea Ancestor. Sigh, I wonder what the future will be like.” Granny Skeleton did not obtain the answer she wanted and left worriedly.

The pressure on Fang Yuan was also increasing.

“A wisdom path great expert was deducing about me just now, the strength is also quite high! It seems like Fairy Zi Wei.”

Fairy Zi Wei was deducing the whereabouts of Fang Yuan, Fang Yuan naturally sensed it. This was the same as a contest of the two’s wisdom path methods across space.

“According to my luck, this situation is not looking good. The fatal calamity is impending, danger is lurking everywhere, and there is only a trace of hope.”

Fang Yuan’s Cooking Luck Pot might only be at rank seven, but he could glance at a portion of his luck and deduce the entirety from it.

Fang Yuan had already made positive progress regarding the qi harvest fruits. But he was still at his wits’ end on how to refine heaven path dao marks.

He was aware that this trace of hope fell on the heaven path dao marks. Only be refining the heaven path dao marks and recovering his strength could he get free from the incoming calamity. If he could not refine them or did not refine them in time, it would be dangerous.

“But where is this breakthrough point that I seek?”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2019 - Rank Eight Hatred Gu

Chapter 2019 Rank Eight Hatred Gu

Western Desert.The intense rank eight level battle was still continuing.

Qing Chou roared, its tongue shot out with lightning speed.

Bam bam bam…

The blood red figures that surrounded Qing Chou were easily pierced and destroyed by its tongue.

Every time the blood red figures exploded, Red Heart Traveler’s face would turn a shade paler. His brows were furrowed and his teeth were clenched shut, but his fighting spirit did not diminish as he used all his strength to maintain the battlefield killer move.

“Red Heart Traveler won’t be able to hold on for long like this.” Nine Spiritual Fairy, who was fighting Qing Chou, had been paying attention to Red Heart Traveler’s condition.

They had tied down Qing Chou with a lot of difficulty, Red Heart Traveler had used a battlefield killer move and was able to temporarily entrap this legendary immemorial desolate beast.

However, Qing Chou had intelligence comparable to a human’s, after it discovered it was unable to break free from this battlefield killer move, it concentrated its attacks on Red Heart Traveler in order to break through.

Once Red Heart Traveler was unable to hold on, the battlefield would dissipate and Qing Chou could walk out free. With this experience, it would definitely be extremely vigilant and it would be almost impossible to capture it again in a short period of time.

“Fine! I can only use that move.” Nine Spiritual Fairy gritted her teeth and made a huge decision.

Immortal killer move — Nine Spiritual Transformations!

Her body suddenly shook as she transformed back to her human form. She was a transformation path great expert and should be much stronger after transformation to another form. But right now, even though she returned to her human form, her aura was surging and she was even stronger than her previous self. Nine spiritual lights shot out one after another from her immortal aperture and formed an enormous nine-colored barrier of light, the barrier had nine layers with distinct colors.

Qing Chou had been concentrating on Red Heart Traveler, so it felt a great shock from Nine Spiritual Fairy’s sudden outburst and quickly split some of its attacks towards her.

But at this stage, the killer move nine spiritual transformations was already completed and had no flaws.

Nine Spiritual Fairy gave a clear roar, the nine-colored barrier shook and the nine layers of light mixed together, becoming extremely dazzling.

The mixed light sphere then transformed into a rhinoceros with a large head and small body, and was shining with various colors. It charged towards Qing Chou.

Qing Chou roared and gave up on Red Heart Traveler for the moment, and without dodging, it charged towards this rhinoceros.

With a loud explosion, the surroundings shook intensely.

After the two enormous monsters collided, it was actually Qing Chou who had to take a small step back while the huge rhino only stopped in its spot.

Qing Chou was shocked and furious, it had not expected this rhino to be so strong. As far as it was concerned, this multi-colored rhino was translucent and it could even see Nine Spiritual Fairy who was in the center, there was no feeling of it being a solid transformation. But the collision made Qing Chou realize: this multi-colored rhino was stronger than the previous solid transformations!

"Qing Chou fell into a disadvantage in the collision, this is the first time since the battle started! Nine spiritual transformations is indeed worthy of being a legendary transformation path killer move." Red Heart Traveler was happy and worried at this sight. The price of using nine spiritual transformations was very high, after a Gu Immortal cultivates the killer move nine spiritual transformations, they can only use it nine times in their life.

Nine Spiritual Fairy had chosen to expend one usage of such a valuable killer move on Qing Chou, it showed her determined will!

Qing Chou roared, its bestial nature was agitated, it charged at Nine Spiritual Fairy again.

But the multi-colored light sphere that Nine Spiritual Fairy was in changed suddenly, from a large rhino to a southern fire sparrow.

The fire sparrow spread its wings and flew to the sky.

Qing Chou charged at empty space, without even looking up, it activated its defensive methods.

Sure enough, at the next moment, Qing Chou heard the sharp cry of the fire sparrow, then the sparrow collided onto its back. Whoosh, blazing flames engulfed it.

Qing Chou's hurriedly activated defensive methods only lasted for a few breaths of time before they broke.

Qing Chou counterattacked fiercely, beast roars and bird cries mixed together, the two sides were at a deadlock.

Red Heart Traveler finally had a brief respite and quickly used the time to adjust his condition. While regulating his breath and observing the battle, he started to feel worried.

“Qing Chou is too sturdy, although it is being suppressed and the battle tempo is firmly held by Nine Spiritual Fairy, it has sufficient stamina.”

“On the contrary, Nine Spiritual Fairy might hold the upper hand and have control over the battle, but she cannot last for long. If there is no external help and this goes on, she will definitely run out of stamina and die.”

Red Heart Traveler decided to take a risk.

He accumulated his strength while waiting patiently. After waiting for two hours, he finally saw a chance.

The chance was momentary, Red Heart Traveler immediately made his move!

He spat out a mouthful of blood. The fragrant blood flew to the air and started rotating. Like a miniature blood sun, it emitted endless blood red light, rushing to Qing Chou.

Although Qing Chou was in a fierce battle with Nine Spiritual Fairy, it had never let go of its vigilance against Red Heart Traveler.

However, when it used its killer move to block this tiny blood sphere, it was of no use. The blood sphere seemed to be illusory, it passed through the obstruction and struck Qing Chou’s chest, turning into a red sun insignia.

Qing Chou’s expression changed immediately, it could feel that its every movement was being tied down by the red sun insignia.

This was an extremely powerful seal, it quickly showed its might, it slowed down movement, interfered with killer moves, and lowered fighting spirit.

“Damn it, damn it!!!” Qing Chou roared and started attacking wildly.

Nine Spiritual Fairy used all her strength to hold Qing Chou back, but was being beaten back little by little.

With a loud explosion, Qing Chou finally broke through Red Heart Traveler's battlefield killer move.

However, Red Heart Traveler had a smile of victory on his face.

Qing Chou's whole body was bound by blood threads, the source of the countless blood threads was the blood sun insignia at the center of its chest.

"Success. Cough cough cough!" Red Heart Traveler coughed out large mouthfuls of blood, his face pale like paper.

Nine Spiritual Fairy quickly suppressed the increasingly slower Qing Chou while transmitting her voice: "Red Heart, do you need my help?"

Red Heart Traveler shook his head slowly and used a killer move with difficulty, healing his wounds while enduring the intense pain.

Nine Spiritual Fairy spent much effort before finally suppressing Qing Chou.

Looking at Qing Chou, who was bound by the blood threads like a mummy, Nine Spiritual Fairy praised: "What method is this, it could actually capture Qing Chou!"

Red Heart Traveler was barely able to reply: "This is a temporary move I created, I have not named it yet."

Nine Spiritual Fairy looked towards Red Heart, slightly widening her eyes: "I am truly amazed!"

Red Heart Traveler shook his head, smiling bitterly: "Don't overestimate me. I detected that Qing Chou's vital Gu was rank eight hatred Gu, so I made this move. If it were other legendary immemorial beasts, this move would be a joke. I could have the chance to use this move because you did not hesitate to activate nine spiritual transformations."

Nine Spiritual Fairy also shook her head: “Capturing Qing Chou concerns the plan of capturing Fang Yuan, this is an important matter for Heavenly Court and for the people of the world, how could I refuse to pay such a small price. But is this hatred Gu the one recorded in u003cu003cThe Legends of Ren Zuu003eu003e?”

“Yes.” Red Heart Traveler nodded.

Nine Spiritual Fairy sighed: “This explains why Qing Chou can distinguish its enemies. Unfortunately, it did not have a killer move to make full use of it. Now that we have captured it, we can take out the hatred Gu and use Heavenly Court’s killer move to find the location of Fang Yuan, Spectral Soul, and other demons!”

Red Heart Traveler restrained his aura: “Let’s go, we cannot stay here for long.”

They had engaged in a fierce battle for a long while, although the battlefield killer move saved a lot of time and also concealed most of the traces of battle, there were bound to be Gu Immortals who would come to check this place.

Not to mention other forces, Mo clan’s assembled troops might already be rushing on their way.

Nine Spiritual Fairy and Red Heart Traveler had battled for a long while, their conditions were not perfect. They detained Qing Chou and moved towards Central Continent.

Sure enough, just a short while after they left, several Gu Immortals of Mo clan arrived with surging momentum in an Immortal Gu House.

“There was a fierce battle here!”

“Although there are few traces, it can be seen that it was a rank eight level fight.”

“No wonder my clan’s Gu Immortals perished so quickly.”

“Give chase, we have an Immortal Gu House with us, they won’t be able to run far!”

Mo clan's group followed the traces and chased the two Heavenly Court immortals.

Several days went by again.

A sandstorm blew and a Gu Master was struggling to move in the desert.

He reached the center of the battlefield and saw the deep craters that were mostly buried by the sandstorm. He raised his head and roared.

This person was Mo Li, who killed Peng Da and seized Thieving Heaven's true inheritance!

He went through all kinds of troubles to get here as soon as possible, thinking of seeing the true appearance of the culprit that killed his wife and son, but he was too late.

"I am going to find you and cut you to pieces!"

"No matter who you are or what monster you are, I will kill you!!"

Mo Li knelt on the desert and roared towards the sky.

Peng Da's soul was floating beside him. Peng Da gave a cold laugh: "Hehehe, you, a mere mortal, wants to take revenge against an immortal beast?"

"So what if it is an immortal beast?" Mo Li's eyes were red as he stared at Peng Da's soul, his expression was malevolent: "I have Thieving Heaven's true inheritance, I have Thieving Heaven's true inheritance! I can definitely become a Gu Immortal and succeed in taking revenge!"

Peng Da laughed again: "There is another possibility as well, this immortal beast was already killed by the Gu Immortals. You have no target to take revenge against already."

Mo Li was stunned and was silent like a statue.

After a long while, he suddenly moved his hand and grabbed the throat of Peng Da's soul, he seemed to be in a state of insanity: "No!

It won't die, I won't allow it to die! It must die by my hands!!"

Mo Li continued to shout: "I will become a Gu Immortal, I have Thieving Heaven's true inheritance, I can definitely take revenge! I can definitely take revenge! Tell me, tell me how to use the next Gu worm!"

While grabbing Peng Da's soul, Mo Li activated his Gu worms, wisps of white smoke and sizzling sounds came from the area where Mo Li's hand touched Peng Da.

Peng Da's soul immediately let out a sharp screech from the unbearable pain: "I will speak, I will speak, this is called electric circuit Gu."

"Electric circuit Gu? What is this thing?"

Peng Da's soul hesitated for a bit: "How can I explain this? You are not an otherworldly demon, you won't be able to understand what an electric circuit is. Simply speaking, it is the path that electric currents move along."

Mo Li sneered: "What is so hard to understand about it? It is not like I have not read u003cu003cThe Legends of Ren Zuu003eu003e! u003cu003cThe Legends of Ren Zuu003eu003e has recorded that lightning Gu chose to cooperate with Blazing Glory Lightning Brilliance to find a way out, they eventually managed to leave immemorial blue heaven. This should be the true meaning behind electric circuit[1]!"

Peng Da's soul was stunned.

Mo Li kept on praising: "Thieving Heaven Demon Venerable is truly worthy of being a venerable. He actually has such creative thoughts, he must have obtained the inspiration from u003cu003cThe Legends of Ren Zuu003eu003e, thus creating electric circuit Gu!"

Peng Da's soul: "…"

[1] It can be read as 'Lightning Path/Road' which is how these Gu world people interpret the Gu.

Chapter 2020 - Rank Nine Lightning Gu

2020 Rank Nine Lightning Gu

Forest Lightning grotto-heaven.

“Forest Lightning Grotto Lord, you betrayed the two heavens alliance and actually colluded with Qi Sea Ancestor, this is an unforgivable sin and you will be executed for it.” Xiao He Jian looked down from above.

Behind him were a large number of Gu Immortals from the two heavens alliance. They were all standing silently and expressionlessly, showing the numerical superiority.

On the contrary, Forest Lightning Grotto Lord was facing the enemies alone, his strength paled in comparison.

Forest Lightning Grotto Lord gave a bitter smile: “Since you found out, I don’t have anything to say. But do you think I am willing to collude with the enemy? The alliance wants to experiment on the qi harvest fruit in my Forest Lightning grotto-heaven. None of the alliance’s previous attempts have succeeded and all the grotto-heavens they have tested on have detonated. I sided with the two heavens alliance for self-protection. But now, you want to sacrifice my home? Since that is the case, it is better to surrender to the enemy, I might even have some new hope.”

Xiao He Jian frowned, snorting coldly: “You have no confidence in our two heavens alliance and Lord Alliance Leader Wu Shuai. Perhaps this time will succeed.”

Forest Lightning Grotto Lord chuckled: “If alliance leader Wu Shuai had a fair disposition, I would have nothing to say. But he is clearly protecting variant humans while sacrificing humans. The grotto-heavens the alliance has experimented on are all human grotto-heavens. Wu Shuai is a dragonman after all, I have seen through this alliance’s farce! Human Gu Immortals present here, watch carefully, this will be your outcome in the future. After me, it will be your turn.”

Hearing this, the human Gu Immortals clearly had a slight change in expressions. Forest Lightning Grotto Lord had no doubt spoken of what they were worried about.

Wu Shuai and Qi Sea Ancestor were the same person, they naturally had a tacit agreement. They looked to be confronting each other on the surface, but were secretly dividing the two heavens’ forces. By now, there were no neutral grotto-heavens in the two heavens. The grotto-heavens in the two heavens were either destroyed or had joined Wu Shuai or Qi Sea Ancestor.

After the two sides divided the two heavens, they ceased fighting and began to find a way to solve the qi harvest fruit problem.

Compared to Qi Sea Ancestor who was researching in closed cultivation, Wu Shuai’s qi path attainment was clearly much weaker. So, Wu Shuai’s two heavens alliance had no choice but to experiment and be very rough with their actions to pursue efficiency. The experiments to eliminate the qi harvest fruits had failed many times and destroyed many grotto-heavens as a result.

When it was Forest Lightning grotto-heaven’s turn, Forest Lightning Grotto Lord was not willing to bet his home, so for self-protection and survival, he secretly contacted Qi Sea Ancestor.

He was truly an unfortunate guy, Qi Sea Ancestor and Wu Shuai were in essence the same person.

Qi Sea Ancestor was Fang Yuan’s main body and he informed Wu Shuai directly.

Wu Shuai thus sent the command to Xiao He Jian to gather some Gu

Immortals to punish the traitor.

Looking at Forest Lightning Grotto Lord, Xiao He Jian sneered silently and said with impatience: “Who is going to get this criminal?”

Lady Cold Ash stepped forward like she wanted to be the vanguard: “Let me.”

Xiao He Jian nodded: “Good.”

Lady Cold Ash directly charged towards Forest Lightning Grotto Lord, Xiao He Jian was inwardly happy and thought: “Cold Ash is perceptive and has a lot of capability. My efforts to win her over were not a waste.”

Lady Cold Ash fought with Forest Lightning Grotto Lord, both were at rank eight and went at each other, neither yielding a step.

The other Gu Immortals of the two heavens alliance were watching the battle from atop the clouds. In a fight between Gu Immortals, for a group attack to work, they would have paid attention to cooperation. Different paths would cause conflicts between dao marks, if there was no skillful cooperation, it might instead waste their efforts.

Naturally, this did not hinder the observing Gu Immortals from accumulating their energy and attacking when there was a chance.

But the two heavens alliance’s Gu Immortals did not find any opportunity to sneak attack.

Lady Cold Ash gradually gained the upper hand and control of the battle. Forest Lightning Grotto Lord saw the situation was bad and immediately escaped below ground.

Lady Cold Ash was Spectral Soul’s disguise after all, how could Forest Lightning Grotto Lord be her match? The deadlock earlier was only a deception, it was nothing more than Spectral Soul’s act.

Xiao He Jian saw Forest Lightning Grotto Lord fleeing and laughed heartily: “Chase!”

The immortals gave chase.

They did not care about the large Forest Lightning grotto-heaven and only targeted Forest Lightning Grotto Lord. As long as they got rid of this sole rank eight, other resistances would not be an issue.

They even took the initiative to maintain the safety of Forest Lightning grotto-heaven, after all, this grotto-heaven needed to be tested on and they would have a share in the distribution of the resources inside it.

Forest Lightning Grotto Lord kept on moving deep underground.

Lady Cold Ash did not give chase and stayed beside Xiao He Jian.

Soon, the first group of Gu Immortals who had entered deep underground returned with soot covering them.

When he obtained their report, Xiao He Jian was slightly stunned: “There is such a thing? There is a lightning forest deep underground?”

The returning Gu Immortals naturally brought evidence.

Through methods similar to shadow image Gu, the two heavens alliance’s immortals saw a vast lightning forest.

In the pitch-black underground, lightning flashed and thunder rumbled every moment.

The flashes of lightning formed a tall silver tree. The tall tree only lasted for a moment, but it had large thunder leaves, many silver lightning branches and so on, they were materialized and tempted all the immortals.

“Heaven, these are all priceless lightning path rank eight immortal materials!”

“This is only the superficial wealth of the lightning forest. According to the records in u003cu003cThe Legends of Ren Zuu003eu003e, the source of lightning forest is lightning Gu. The size of this lightning forest is enough to prove there is a rank eight lightning Gu here!”

“Forest Lightning Grotto Lord wants to resist by relying on lightning Gu?”

“Hmph, wishful thinking. How could a mere rank eight Immortal Gu oppose our two heavens alliance?”

The immortals discussed but no one was willing to enter the forest.

After all, the lightning forest was a dangerous area and Forest Lightning Grotto Lord possessed an enormous terrain advantage here. If they rashly invaded, it was very likely to be an unrewarding venture.

Xiao He Jian frowned: “Who will go capture Forest Lightning Grotto Lord?”

Lady Cold Ash stood up once again without hesitation.

Xiao He Jian showed a pleased smile: “Cold Ash, if you win, your contribution will be at the top for this battle.”

“Thank you.” Lady Cold Ash was about to move.

“Wait.” Night Heavenly Wolf Lord also walked out: “The Lightning forest is a dangerous region, let me accompany Cold Ash. If there is any unexpected mishap, I can be of some assistance.”

“Let’s do it that way then.” Xiao He Jian agreed to Night Heavenly Wolf Lord’s request.

Thereupon, the two immortals charged towards the depths of the underground. Other Gu Immortals along with Xiao He Jian were floating in the air, watching the battle as well as waiting patiently.

Lady Cold Ash charged to the bottom and arrived in front of the lightning forest. She directly opened her immortal aperture and let out countless soul beasts.

The soul beasts charged towards the lightning forest like a violent tide.

Rumble…

Lightning struck continuously and explosions resounded unendingly. There were severe losses to the soul beasts, they used their lives to forcibly pave open a path.

Lady Cold Ash and Night Heavenly Wolf Lord smoothly entered the depths of the lightning forest.

“I didn’t think Lady Cold Ash would actually deal with the lightning forest like this.”

“She is really resolved to suck up to Xiao He Jian regardless of the cost.”

“There have been many rumors recently about the alliance leader wanting to make Xiao He Jian a vice alliance leader?”

“The alliance only has one vice alliance leader, Ice Crystal Immortal Monarch, currently. It is not strange for Lord Wu Shuai to make this arrangement to keep the balance between his subordinates.”

“Lady Cold Ash might be a human Gu Immortal but she doesn’t want to have the same outcome as Forest Lightning Grotto Lord’s. So she wholeheartedly wants to climb ranks in the alliance, she is doing her best to protect her grotto-heaven.”

Gu Immortals observed the battle while conversing secretly.

After a while of effort, Lady Cold Ash and Night Heavenly Wolf Lord fought their way to the center of the lightning forest and saw Forest Lightning Grotto Lord once again.

Forest Lightning Grotto Lord was refining rank eight lightning Gu and quickly stopped the refinement when he saw the two immortals. He shouted in anger: “Stop! If you take one more stop, I will destroy this lightning Gu!”

The immortals were surprised.

“So this lightning Gu is still a wild Immortal Gu and Forest Lightning Grotto Lord has not actually refined it?”

“What is going on?”

“Haha, I understand! Forest Lightning Grotto Lord’s ambition is not small.”

“Oh, please explain.”

“If I am not wrong, this lightning forest should have been just an ordinary lightning path resource point at the start. But at a certain point, it gave birth to a wild lightning Gu. Because of this lightning Gu, the lightning path resource point gradually transformed into a small lightning forest. Forest Lightning Grotto Lord did not refine this wild lightning Gu, instead he added resources to grow this lightning forest. The larger the scale of the lightning forest, the lightning Gu, which is the source, will also keep on advancing further. Forest Lightning Grotto Lord kept on investing resources and finally advanced this wild lightning Gu to rank eight!”

The two heavens alliance’s Gu Immortals saw through the ambitions of Forest Lightning Grotto Lord.

Forest Lightning Grotto Lord was a lightning path Gu Immortal and was not proficient in refinement path. But this lightning forest was created naturally, it was simply nature refining Gu itself!

Forest Lightning Grotto Lord cleverly borrowed the power of nature and added momentum to the original foundation, his goal was to advance lightning Gu to rank nine level!

And during this process, if he refined this wild Immortal Gu, the process of nature refining Gu would be interrupted and could not be recovered.

Thus, Forest Lightning Grotto Lord had left this wild lightning Gu in its state and did not refine it.

It was extremely difficult to seize other’s Gu worms. But wild Immortal Gu were different.

A rank eight wild Immortal Gu, the crucial thing was that it even had the possibility of advancing to rank nine! This discovery was extremely huge, Xiao He Jian and the rest opened their eyes wide, revealing greed and wariness.

“This is of vital importance, we cannot be rash.” Xiao He Jian quickly transmitted his voice to Lady Cold Ash and Night Heavenly Wolf Lord.

Lady Cold Ash and Night Heavenly Wolf Lord paused their attacks.

Forest Lightning Grotto Lord spoke conditions: “As long as you spare me and my Forest Lightning grotto-heaven, I will offer this lightning Gu to you.”

Xiao He Jian quickly contacted Wu Shuai and reported this matter.

The matter concerned a future rank nine lightning Gu, Xiao He Jian did not dare to decide by himself.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2021 - Blue Heaven Shatters

2021 Blue Heaven Shatters

Soon, Xiao He Jian received the reply. He personally flew underground and faced Forest Lightning Grotto Lord: “Alliance Leader has said that he can let you go, but Forest Lightning grotto-heaven must belong to the alliance. Of course, the alliance will not carry out any risky attempts on the qi harvest fruit in the grotto-heaven.”

“No!” Forest Lightning Grotto Lord’s attitude was extremely firm: “This grotto-heaven is my home, I will not give it up! It won’t change owners, this is my territory, what qualifications does the alliance have to seize it? I will look after the lightning Gu for the moment, retreat and don’t try to invade again from now on. I can set an agreement with the alliance to never seek lightning Gu. If the alliance wants rank nine lightning Gu, you can provide the resources to raise it in the lightning forest here.”

Xiao He Jian did not respond and only reported Forest Lightning Grotto Lord’s request to Wu Shuai.

Wu Shuai mumbled for a while, unable to come to a decision.

He then sent this information to the main body through secret methods and let the main body decide.

Fang Yuan fell into deep thought.

“Rank nine Immortal Gu have supreme might, it is indeed worth yielding a step. But this lightning Gu is only rank eight currently. To raise it to rank nine, who knows how many resources and how big of a price we have to pay. And there could be many unexpected mishaps during this process!”

“Another crucial point is that lightning Gu’s information cannot be concealed, this news will definitely lead to chaos. Be they Heavenly Court, Longevity Heaven, or other forces, they will all interfere. Wu Shuai’s and Qi Sea Ancestor’s forces must have an all-out battle in the end.”

Fang Yuan’s wisdom path attainment was deep and immediately deduced the future changes.

Forest Lightning Grotto Lord concealed the secret of lightning Gu because he wanted to keep it for himself. But now that he could not keep it, he could only use this chip to negotiate.

Since he could secretly contact the enemy, he would not just negotiate with Wu Shuai’s alliance, he was sure to contact Qi Sea Ancestor.

Fang Yuan’s Qi Sea Ancestor disguise protected humanity and had allied with Heavenly Court, he could never let a variant human force like Wu Shuai’s alliance obtain rank nine lightning Gu!

Thus, Qi Sea Ancestor would have to send troops.

At that time, Forest Lightning Grotto Lord would surely curry favor with both sides and strive to win some respite. This Forest Lightning Grotto Lord truly had high astuteness and was deeply aware of the way of survival of the weak.

But like this, it was bound to increase the friction between Qi Sea Ancestor and Wu Shuai. This was exactly what Fang Yuan had been trying to avoid.

And at that time, Heavenly Court would definitely add fuel to the fire, even Longevity Heaven, Demon Immortal Qi Jue, and the five regions’ forces would stir up the situation from the dark.

Although Fang Yuan was the leader of both sides, he was unable to restrict every subordinate. In the fight between these subordinates, if anyone died, Wu Shuai and Qi Sea Ancestor would need to take some action to preserve their side's benefit and prestige. The situation would escalate and continue being irremediable until it finally leads to an all-out battle.

But if Fang Yuan suppressed the situation, this would not fit the attitudes of Wu Shuai and Qi Sea Ancestor. It would definitely be filled with giant loopholes in the eyes of wisdom path Gu Immortals. Heavenly Court would start to have doubts and the whole situation would turn even more dangerous.

Thus, this situation was not as simple as just a lightning Gu.

This would implicate many things, it would involve variant humans, humans, and even the overall situation of the two heavens and five regions!

Fang Yuan was unable to come to a decision immediately for such a huge matter.

After all, he had to think of many factors, the important thing was that his current strength had fallen. He was at his weakest state and now was the time when he needed to rest and recuperate.

"I remember lightning Gu is recorded in u003cu003cThe Legends of Ren Zuu003eu003e, the power it showed was quite strong..."

Fang Yuan browsed through u003cu003cThe Legends of Ren Zuu003eu003e.

u003cu003cThe Legends of Ren Zuu003eu003e, chapter four, section thirty —

Blazing Glory Lightning Brilliance and Myriad Gold Wondrous Essence were sent flying away by fate Gu and were forced to leave Ren Zu, arriving at immemorial blue heaven.

Rumble!

Thunder rumbled unceasingly here. Lightning flashed, imprinting the sky and forming a forest of lightning.

"I am angry! I am angry!" The source of this lightning forest was a lightning Gu, it was roaring continuously.

Blazing Glory Lightning Brilliance and Myriad Gold Wondrous Essence were extremely afraid. The lightning was too strong, so long as a lightning bolt struck them, they would be heavily injured or even die.

They did not move at all, afraid of lightning Gu discovering them and bombarding them to death.

They waited patiently for lightning Gu's anger to dissipate. They would move once it calmed down.

But lightning Gu was extremely angry and its anger did not show any signs of decreasing. The lightning forest kept on growing in size.

"What should we do?" Myriad Gold Wondrous Essence was worried: "How can we return to father? Brother, do you have any good suggestions?"

Blazing Glory Lightning Brilliance shook his head, his brows furrowed: "It is all fate Gu's fault! It forcefully separated us from father, I am definitely going to take revenge in the future. Argh, my heart hurts every time I think of fate Gu."

Blazing Glory Lightning Brilliance held his chest, he found his heart aching more and more.

How could this be?

He quickly opened up his chest and looked at the depths of his heart.

"Oh, why is there a Gu in my heart?" Blazing Glory Lightning Brilliance was astonished: "It is no wonder my heart is in constant pain, this Gu was biting on my heart."

Myriad Gold Wondrous Essence also saw this Gu worm: "Isn't this love Gu? I heard father mentioning it before."

"No, I am hatred Gu." The Gu worm spoke: "Although I look similar to love Gu on the surface."

Myriad Gold Wondrous Essence urged: “Hatred Gu, why are you gnawing on my brother’s heart, please stop quickly.”

But hatred Gu said: “I won’t! I am building my home here, I am changing your brother’s heart into a heart of hatred.”

Blazing Glory Lightning Brilliance was furious: “Who allowed you to build your home in my heart? Get out quickly, I don’t welcome you. If you don’t get out, I will crush you to death!”

Hatred Gu laughed loudly: “I was attracted by lightning Gu’s anger, but unexpectedly discovered that your heart is more suitable for my home. I won’t leave.”

Blazing Glory Lightning Brilliance was furious, he actually put his hand inside his heart and grabbed hatred Gu.

Hatred Gu was like a curved blade without a handle, Blazing Glory Lightning Brilliance’s hand was pierced and bled as he grabbed it.

He clenched his teeth and exerted strength, crushing hatred Gu to death.

But at the next moment, hatred Gu resurrected from the blood and became even bigger.

Blazing Glory Lightning Brilliance crushed it to death again, hatred Gu revived once again, its size becoming slightly bigger again.

“It is useless.” Hatred Gu said: “Hatred cannot be killed, vengeance only breeds more hatred and grudges, the more you treat me like this, the more your hatred will increase.”

Myriad Gold Wondrous Essence was somewhat stunned and helpless against hatred Gu.

“It hurts, it hurts, it hurts!” Blazing Glory Lightning Brilliance covered his chest, his face pale from the pain.

Hatred Gu was drilling in and out of his heart, creating holes after holes, transforming his heart into a heart of hatred.

The current Blazing Glory Lightning Brilliance hated fate Gu even more.

“If I was not sent flying here by fate Gu, how could I have encountered hatred Gu? How could my heart be pierced by hatred Gu?”

“I will definitely destroy fate Gu, I will definitely take revenge.”

The more Blazing Glory Lightning Brilliance thought, the more he hated. He was no longer afraid of angering lightning Gu, he stood up suddenly.

“Sister, let’s go, I don’t want to stay here.” Blazing Glory Lightning Brilliance held Myriad Gold Wondrous Essence’s hand.

But Myriad Gold Wondrous Essence hesitated: “Brother, there is lightning all around us, we don’t know when it will strike, it is too dangerous.”

Blazing Glory Lightning Brilliance said: “Sister, don’t be afraid. The hatred in my heart has shown me a path, that is the path of revenge. There is no lightning on this path, as long as I follow it, I can find fate Gu and take revenge against it. Quick, follow me!”

Blazing Glory Lightning Brilliance dragged Myriad Gold Wondrous Essence.

The strange thing was that despite lightning bolts crackling around them, not a single one struck Blazing Glory Lightning Brilliance and Myriad Gold Wondrous Essence.

The two ran and ran when they suddenly collided into something.

“What is ahead?” Myriad Gold Wondrous Essence touched the air in front of her and found it was like a transparent wall.

“This is the heavenly wind qi wall, the border of the immemorial nine heavens.” Hatred Gu explained.

“Brother, there is a wall ahead, we cannot leave.” Myriad Gold Wondrous Essence said helplessly.

But Blazing Glory Lightning Brilliance had a different perspective: “Where is the wall? I only see the path ahead, as long as we follow along this trail, we can definitely leave and find fate Gu!”

Time and again, Blazing Glory Lightning Brilliance got up and rushed forward before colliding into the heavenly wind qi wall, his head bled as he fell to the ground. Then, he climbed up and charged forward again.

Myriad Gold Wondrous Essence wanted to stop him, but Blazing Glory Lightning Brilliance did not listen.

Hatred Gu laughed: “It is useless. I have already built my home in his heart, although his eyes are open, he can only see the path that I point towards, he cannot see any other thing. Hahaha.”

Right at this time, lightning Gu sensed Blazing Glory Lightning Brilliance and Myriad Gold Wondrous Essence, the terrifying lightning forest began to quickly spread towards them.

There was no road to advance or retreat, Myriad Gold Wondrous Essence was extremely anxious but did not have any ideas: “It would have been great if we still had wealth Gu!”

Blazing Glory Lightning Brilliance did not listen to her, he continued to collide into the heavenly wind qi wall. Blood filled the ground.

Lightning Gu finally reached closer, Myriad Gold Wondrous Essence cried: “Am I going to die here?”

But Lightning Gu restrained its power and approached slowly, it let out a rumbling sound: “Don’t worry, oh humans, I won’t harm you or injure you. On the contrary, I want your help.”

Myriad Gold Wondrous Essence stopped crying and asked curiously: “Lightning Gu, you are so strong, how can we possibly help you?”

Lightning Gu: “I have been trapped here all along, immemorial blue heaven is large but I am already sick of it. I want to go out but I am unable to find a path that leads to the outside, thus I am angry. Anger often leads to hatred, so hatred Gu was attracted here.”

“But from your brother, I can see the path to exit. Therefore, humans, let us cooperate. I will help you break the heavenly wind qi wall and you will bring me out of here, alright?” Lightning Gu proposed.

Myriad Gold Wondrous Essence and Blazing Glory Lightning Brilliance were very happy at this suggestion.

“I agree to it. Your help will be great.” Blazing Glory Lightning Brilliance replied.

Thereupon, lightning Gu landed on Blazing Glory Lightning Brilliance’s hand and started to emit a terrifying radiance.

Hatred Gu laughed loudly: “Let me lend you a hand.”

Lightning Gu obtained hatred Gu’s strength and became extremely powerful.

Rumble rumble…

Lightning Gu erupted with fierce strength, not only destroying the heavenly wind qi wall but even shattering the whole of immemorial blue heaven!

“Quickly leave!” Blazing Glory Lightning Brilliance was greatly shocked and knew that they had created a huge disaster, he quickly grabbed his sister and left with lightning Gu and hatred Gu.

Chapter 2022 - Heavenly Court Seeks To Figh

2022 Heavenly Court Seeks To Figh

“According to u003cu003cThe Legends of Ren Zuu003eu003e, hatred Gu and lightning Gu can cooperate and amplify each other’s power to form a terrifying killer move that directly destroyed immemorial blue heaven?”

Fang Yuan read it carefully again as he wondered, did this mean that these two Gu worms could counter heaven path?

Where were heaven path dao marks most gathered in?

Undoubtedly, the immemorial nine heavens.

Besides them, there was Fang Yuan’s body.

“This seems to be an avenue to resolve my current predicament.” Fang Yuan pondered: “But only lightning Gu is here, it won’t work without hatred Gu. Where is this Gu worm? Is there currently such an Immortal Gu in existence? If not, how do I refine it? If it exists, the situation is even more troublesome as I will need to scheme and plan to seize it.”

“In fact, even if I have these two core Immortal Gu, it is still a mystery on how to form them into that killer move. u003cu003cThe Legends of Ren Zuu003eu003e is too vague about it.”

Just at this time, Qin Ding Ling personally sent a letter through treasure yellow heaven.

Fang Yuan opened and read it, the letter Gu directly talked about Forest Lightning grotto-heaven's matter. Qin Ding Ling was very eager about lightning Gu, and even wanted Qi Sea Ancestor to stop researching the qi harvest fruits for the time being and lead his subordinates to cooperate with Heavenly Court in fighting for lightning Gu.

"Why is Heavenly Court so anxious?" Fang Yuan's eyes shined with bright light: "Also, they obtained the information too quickly. Looks like they have arranged some spies on Wu Shuai's side."

Qin Ding Ling was not Fairy Zi Wei after all, she was slightly hurried in doing things, which allowed Fang Yuan, who had deep wisdom path attainment to deduce some possibilities.

"Since that is the case…" Fang Yuan smiled bitterly, Heavenly Court's urgent letter made him come to a decision.

Forest Lightning grotto-heaven.

Xiao He Jian's expression changed slightly, he had received Wu Shuai's command.

His gaze turned cold as he shouted: "Alliance Leader sent the command to kill Forest Lightning Grotto Lord without worrying about lightning Gu. It is nothing to lose a mere rank eight Immortal Gu. We must execute all the Gu Immortals of Forest Lightning grotto-heaven and then attempt to get rid of the qi harvest fruit. Don't worry about the grotto-heaven's resources, use all your strength to complete the task in the shortest time possible!"

"What?!" Hearing these words, not only Forest Lightning Grotto Lord, even Lady Cold Ash and Night Heavenly Wolf Lord were astonished.

This was a future rank nine Immortal Gu, Wu Shuai gave up on it so resolutely?

For an instant, none of the three immortals made a move due to the shock.

Night Heavenly Wolf Lord was Heavenly Court's mole, he naturally thought of helping to preserve Forest Lightning Grotto Lord to harm Wu Shuai's alliance.

And Lady Cold Ash was basically Spectral Soul, he also thought of preserving this point of conflict that would incite a fierce battle between Wu Shuai and Qi Sea Ancestor. As long as there was chaos, he could gain many chances to act.

Forest Lightning Grotto Lord suddenly shouted: "Xiao He Jian, such audacity, you actually gave a false command. Wu Shuai is expanding his strength, how can he give up on the future rank nine Immortal Gu? As someone who joined recently, you truly have ill intentions!"

Xiao He Jian's expression turned cold from Forest Lightning Grotto Lord's incrimination.

He did not retort, instead glaring at Lady Cold Ash and Night Heavenly Wolf Lord: "This is our alliance leader's command! Are you going to believe a traitor or me? Attack!"

Saying so, Xiao He Jian did not wait for the two and charged in by himself.

Bam bam bam…

Killer moves were let out, destroying a large portion of the lightning forest.

"Charge!" The alliance immortals who were above ground also received Xiao He Jian's order and came over, besieging this lightning forest.

Since the situation became like this, Lady Cold Ash and Night Heavenly Wolf Lord could not care about their own schemes, they sighed and joined the group in attacking.

"Wu Shuai, you are really cruel! You are so narrow-minded, you will definitely die miserably!" Forest Lightning Grotto Lord knew he was going to die and let out a vicious curse while exerting strength to destroy lightning Gu.

"In your dreams." At the next moment, Lady Cold Ash suddenly appeared behind him.

Forest Lightning Grotto Lord stiffened, Lady Cold Ash took the chance and actually seized lightning Gu from his hands!

"What method is this?" The immortals were astonished.

Although Spectral Soul's attainment levels had fallen to a miserable level, he still had plenty of methods. The accumulation of a venerable could not be estimated by ordinary rank eight Gu Immortals.

"Great job!" Xiao He Jian was exulted. He had held no hope in taking lightning Gu, but who could have thought it would truly be seized. This was Lady Cold Ash's merit and his as well. By now, his vice alliance leader position was already half confirmed. The remaining half would be by completing the task given by Wu Shuai!

Forest Lightning Grotto Lord counterattacked madly.

To preserve lightning Gu, Lady Cold Ash had forcibly endured his attacks and got injured.

"Retreat and guard lightning Gu!" Xiao He Jian quickly came to help, he blocked Forest Lightning Grotto Lord for Lady Cold Ash.

To prevent interference, other immortals began to plunder resources while watching Xiao He Jian fight Forest Lightning Grotto Lord alone.

Forest Lightning Grotto Lord had already fought with Lady Cold Ash before, his condition was not optimal and almost all of his methods were exposed.

Based on the superficial strength shown, Xiao He Jian was stronger than Lady Cold Ash as well.

This battle held no suspense, and soon, Xiao He Jian defeated Forest Lightning Grotto Lord.

Forest Lightning Grotto Lord was not resigned to being defeated and was still thinking of escaping.

But the surrounding Gu Immortals had been observing the battle and encircled Forest Lightning Grotto Lord with no way for him to flee.

Forest Lightning Grotto Lord was beheaded and Forest Lightning grotto-heaven was destroyed. The alliance's experiment on the qi harvest fruit failed this time as well.

Moreover, because Wu Shuai asked for the battle to be finished as quickly as possible, most of the resources in Forest Lightning grotto-heaven were destroyed. The participating Gu Immortals could only collect very few resources.

The greatest gain was that wild rank eight lightning Gu. But it was clear this was going to be handed to Alliance Leader Wu Shuai.

Fang Yuan thought for a good while before finally deciding to deal with the problem directly, getting rid of Forest Lightning grotto-heaven so that the conflict could not grow.

Wu Shuai's fast decision not only astonished the alliance members, it even destroyed Heavenly Court's plan.

Qin Ding Ling had obtained first hand information from Night Heavenly Wolf Lord and immediately contacted Qi Sea Ancestor.

Fang Yuan received the letter; in the letter, Qin Ding Ling was still insisting on seizing lightning Gu even though it had already fallen into Wu Shuai's hands. Even if they could not seize lightning Gu, they had to destroy it!

“Looks like Heavenly Court is determined to get lightning Gu. Heavenly Court should have lightning Gu's Immortal Gu recipe, they can refine it themselves if this Gu is destroyed.”

Fang Yuan was even more curious, why was Heavenly Court so anxious to get lightning Gu? Why did such the powerful Heavenly Court have such pressing needs for this Immortal Gu? Lightning Gu was not fate Gu after all!

Fang Yuan did not understand Heavenly Court's scheme, but Qin Ding Ling's attitude made Fang Yuan's previous plan fall through.

Fang Yuan made Wu Shuai destroy Forest Lightning grotto-heaven without any regards for the safety of lightning Gu to strangle the possible conflict to death and prevent a war between the two sides.

But Heavenly Court held an attitude akin to asking for battle, Fang Yuan also could not refuse it easily.

After all, Qi Sea Ancestor was allied with Heavenly Court.

How should he deal with this?

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2023 - Inviting Qi Sea

2023 Inviting Qi Sea

Profound Literature grotto-heaven.

Capital city, Su clan.

There was a book house erected inside a certain guest room's courtyard.

This book house was a mortal Gu House, it had the form of a tree house, covered with green leaves and branches.

Right now, Li Xiao Bai was sitting cross-legged inside the book house.

A beautiful girl was standing in front of him, she was Su Qi Han. Su Qi Han's expression was somewhat serious: "Xiao Bai, have you really thought it through? A vital Gu cannot be changed easily."

Li Xiao Bai nodded with a smile: "Qi Han, don't be too worried. I have thought it through properly, I am most interested in composing poems. So to me, poetry Gu is the most suitable vital Gu. It was just that I was not qualified to change my vital Gu before. But since this book house has extraordinary might and has the function of assisting me in changing vital Gu, how can I let go of such a chance?"

Su Qi Han sighed: "Since you have decided, I won't urge you anymore. I will guard you from outside."

"Mm." Li Xiao Bai did not stand on ceremony, directly closing his eyes.

After he obtained this Book House inheritance, he returned to the capital city and reunited with Su Qi Han. Although he lost in the poetry competition, he had already proven himself. Su Qi Han invited him to stay temporarily in Su clan, no one opposed to it, instead, this became a beautiful story.

Li Xiao Bai was not stingy, after staying in Su clan, he shared this Book House inheritance with Su Qi Han. The two spent almost every day in the book house, continuously cultivating, researching, and communicating intimately with each other.

Although the two had undergone intimate activities because of a coincidence, they did not have close feelings for each other. Su Qi Han's previous actions came from her own high moral character.

But over these days of contact, Su Qi Han increasingly appreciated Li Xiao Bai's talents and started to feel an attraction to him.

Li Xiao Bai obtained this fortuitous encounter but did not conceal it from Su Qi Han and shared it with her. From this, Su Qi Han saw that Li Xiao Bai's character was pure and kind, willing to give her anything, he was definitely not a heartless scholar.

Although the two had not been officially engaged, Su Qi Han had already treated Li Xiao Bai as her sole lifelong partner.

Su Qi Han walked out of the book house with worry: "This book house has high value and contains many branches of information path like verses, ditties, odes and songs. However, these branches are limited to Gu Master cultivation and there are no ways to advance to Gu Immortal. I have already hinted Xiao Bai many times that as long as he marries into and lives in my Su clan, he can obtain Su clan's Calligraphy Immortal cultivation technique. Unfortunately, he has no interest in calligraphy and is wholeheartedly focused on poems. Oh, since he likes it, I have no way to persuade him otherwise. If he accomplishes nothing in the future and stays as a Gu Master, I will work hard to become a Gu Immortal and an official of the Imperial Court. I will protect and take care of him for the rest of my life. I will watch him compose and recite poems, as long as he is happy, I am also happy."

Profound Literature grotto-heaven had an Imperial Court.

The high ranking officials of the Imperial Court were all Gu Immortals. Su Qi Han was Su clan's most beloved daughter and the apple of their eye, her aptitude and talents were astonishing as well, so it was natural for her to come in contact with Su clan's immortal cultivation technique.

"Young miss, you should take a rest, you will be tired if you keep on standing. With us here, Great Scholar Li's safety is guaranteed." The guards and the maids urged Su Qi Han.

Su Qi Han shook her head: "Stand guard outside the courtyard. I will personally guard him here."

The book house started shaking, gentle light spread from the inside to the outside through the windows.

A few minutes later, the book house turned silent, the leaves and the branches were no longer shaking.

Inside the book house, Li Xiao Bai opened his eyes slowly.

The process of changing vital Gu went smoothly, Li Xiao Bai looked inside his aperture and saw a Gu worm that looked like a heart; it had a red jade-like texture and was covered by a layer of light gold radiance.

It was his new vital Gu, rank five Gu worm — Poetry.

Poetry Gu was classified in information path and belonged to a side-branch of information path cultivation. The most common form of information path cultivation were oaths and vows, like sea oath Gu, mountain pledge Gu, promise Gu, black and white paper Gu. Second was transmitting information like goose Gu, paper crane Gu, butterfly letter Gu, flying sword letter Gu, messenger dove Gu, and so on. Thirdly was watching, listening, reading, and writing, for example, water text Gu belonged to the writing category. Beast language Gu was related to reading and speaking.

Verses, ditties, odes, songs, and so on were simply not mainstream.

Li Xiao Bai had made such a decision, it was no wonder Su Qi Han was worried about his future prospects.

But she did not know Li Xiao Bai's true intention.

"This grotto-heaven's environment is special as it is under the effect of the killer move, assisting literary talents. As long as I create great poems, I can obtain rewards and advance quickly. The five regions chaotic war is drawing close, such a way that can quickly increase one's strength with no side-effect is priceless. Although Su Qi Han can get in contact with Gu Immortal cultivation methods, she does not know the outside world's situation."

"I have changed my vital gu to poetry Gu, next, I will practice poetic Gu and emotion poetry Gu, use gather poem Gu to gather poems externally and advance poem wall Gu. Additionally, I should also practice poem boundary Gu, this is an extremely outstanding Gu worm which effect is similar to a battlefield killer move."

Just as Li Xiao Bai was thinking, the door was opened slowly and Su Qi Han entered with a concerned look.

"Xiao Bai." Su Qi Han spoke softly.

Li Xiao Bai gave a light smile and nodded towards her: "Everything went smoothly."

Su Qi Han smiled, her beautiful watery eyes revealed delicate concern: "That's good."

Boom—!

Suddenly, the sky shook and an explosion resounded throughout the grotto heaven.

"What's going on?" Li Xiao Bai and Su Qi Han were alarmed and rushed out of the room, they looked at the sky but it was clear and blue. A gust of wind blew past them.

The wind only lasted for a very short period of time, and after it passed by, there was no other abnormality.

The mortals, Gu Masters, and even Gu Immortals living in the capital city sensed this suddenly appearing and disappearing abnormality. Most of the people were baffled, but a few Gu Immortal officials who knew the inside details were joyous.

“Success!” In a certain area of Profound Literature grotto-heaven, Old Immortal Hua Yu bowed deeply towards Qi Sea Ancestor in excitement: “Congratulations to Ancestor for successfully handling the qi harvest fruit calamity. Ancestor has saved the whole of Profound Literature grotto-heaven, this favor is the same as giving us new life! From now on, if you have any orders for me, I will undoubtedly use all my strength without question!”

Qi Sea Ancestor laughed heartily, lifting Old Immortal Hua Yu up: “No need to be so courteous.”

The immortals standing at the side were extremely happy.

“Ancestor has divine might!”

“Wu Shuai’s side tested repeatedly and destroyed so many grotto-heavens. Ancestor tried for the first time and succeeded, Wu Shuai can never match you.”

“I wonder when Ancestor can resolve our qi harvest fruit problem?”

“Yes, our grotto-heavens’ qi harvest fruits have already become extremely large and are getting closer to self-detonation.”

Gu Immortals praised loudly while also urging Fang Yuan to continue his work.

Fang Yuan waved his hand: “This test was a success but I sensed some flaws in it. I need to be in closed cultivation for three days to solve this issue. At that time, I will clear up the danger for everyone, wouldn’t that be even better?”

The immortals were exulted: “We shall listen to Ancestor’s arrangements!”

Fang Yuan smiled, a sharp light flashing across his eyes.

Heavenly Court.

Soon, Qin Ding Ling received this news and immediately showed joy:

“Good, good! My choice to cooperate with Qi Sea Ancestor was indeed correct.”

Qi Sea Ancestor did not let down their expectations, not only creating a method to resolve the qi harvest fruit problem, but even succeeding after using it once. According to the information, Profound Literature grotto-heaven’s qi harvest fruit was not only safely removed, the fruit also burst and formed a harmless qi tide that swept past the whole grotto-heaven and raised the grotto-heaven’s foundation by a good amount.

Qin Ding Ling was in a great mood.

Over this period of time, Heavenly Court had already walked out of the shadow of defeat in the fate war. With Qin Ding Ling and the other Heavenly Court immortals’ schemes and efforts, good news came one after another.

Firstly, the variant human forces were restrained, secondly, Qing Chou was captured, and now, the qi harvest fruit’s danger was eliminated.

“But now, should we get rid of the qi harvest fruit in Heavenly Court first or try to fight for lightning Gu?”

Qin Ding Ling could not come to a decision by herself and gathered the Heavenly Court immortals for a meeting.

“Qi Sea Ancestor is worthy of being a qi path great expert, with this method, his force will be stable and in an impregnable position.”

“Wu Shuai’s alliance is still experimenting with various methods, their qi path attainment is too shallow.”

“As long as Qi Sea Ancestor defers for some time, there might not even be a need to start a fight and Wu Shuai’s alliance will break apart by itself.”

Qin Ding Ling shook her head at this optimistic plan: “Wu Shuai is a formidable person. Even a rabbit will bite if it is forced to a corner, let alone this dragonman. Once he obtains this news, he might immediately lead his troops to fight Qi Sea Ancestor.”

"That's right. Qi Sea Ancestor can safely remove the qi harvest fruits, but Wu Shuai cannot. The longer their fight is delayed, the more unfavorable it is to Wu Shuai. It is very likely for Wu Shuai to send his troops."

"In that case, we have to move ahead of time and ask Qi Sea Ancestor to resolve the qi harvest fruit in Heavenly Court."

"You are right. Once the battle starts, Qi Sea Ancestor will not be able to deal with too many matters, he will definitely have to bear the full force attack from Wu Shuai. The situation is already like a conflict between fire and water, the fight won't be stopped easily once it starts, and it might really be a life and death battle."

Qin Ding Ling looked at Nine Spiritual Fairy: "How is the refinement of hatred Gu going?"

Nine Spiritual Fairy shook her head: "There has been a breakthrough just recently. Hatred Gu's condition is extremely strange, it has already merged into Qing Chou. We found a method to refine hatred Gu just recently. It will take quite long to refine hatred Gu. But the good news is that if we succeed, we can manipulate Qing Chou as well."

Qin Ding Ling nodded: "Since hatred Gu has yet to be obtained completely, there is no need to hurry in seizing lightning Gu. We will conceal this news as much as possible and invite Qi Sea Ancestor to come to Heavenly Court secretly and deal with the qi harvest fruit. After finishing this matter, we will then fight with Wu Shuai."

The immortals did not have any objections.

"But how should we reward Qi Sea Ancestor?" A Gu Immortal asked.

"This is not difficult. Qi Sea Ancestor is very interested in the qi path Immortal Gu in my Heavenly Court's treasury. In the previous letters, he had repeatedly asked to borrow these qi path Immortal Gu, but I did not agree and kept on making excuses." Qin Ding Ling smiled.

Another Gu Immortal added: "We also need to be on guard against another person, Demon Immortal Qi Jue!"

Qin Ding Ling nodded: “I have also considered it. This demon is also a qi path great expert, if he collaborates with Wu Shuai, it will balance the situation of both sides again, he is a huge threat.”

“It is difficult to track Demon Immortal Qi Jue, who knows where he has gone now. He has just revived and is not familiar with the various paths of the present age. He is currently purchasing qi path immortal materials in treasure yellow heaven and exchanging for inheritances of every path, he is taking even Gu Master inheritances. Wu Shuai has chips to transact with him!”

Qin Ding Ling stressed once again: “So the current plan is to immediately invite Qi Sea Ancestor to Heavenly Court while hiding the information and striving for every second we can get!”

Chapter 2024 - Strategies of the Three Parties

2024 Strategies of the Three Parties

Within Dragon Palace, the atmosphere was heavy.

“The situation has become like this, what do you all think about it?” Wu Shuai was the only person seated, he had already gathered the alliance’s immortals and explained to them the actions that Qi Sea Ancestor took inside Profound Literature grotto-heaven.

Heavenly Court tried all ways to conceal the information but at the same time, Wu Shuai informed all of the Gu Immortals within the two heavens alliance.

After hearing this nightmarish news, the response was huge as all of the immortals’ expressions changed.

“Is this for real?” Ice Crystal Immortal Monarch asked immediately before reacting to what he had said, his face turned pale: “I am not questioning Lord Alliance Leader, but this is truly too sudden and surprising.”

Wu Shuai snorted coldly: “Do I need to lie to you?”

“This is not good!” Xiao He Jian’s expression was solemn: “Qi Sea Ancestor is a qi path great expert, since Demon Immortal Qi Jue was able to use a qi harvest fruit to revive, then there is also a high chance that Qi Sea Ancestor can get rid of the threatening qi harvest fruits. If the enemy has a method to get rid of the qi harvest fruits, they will have a complete upper hand in this situation."

"Indeed, indeed."

"What do we do now?"

"My tribe's grotto-heaven's qi harvest fruit has already grown to a huge size, if we do not get rid of it, it will explode soon."

"But our experiments have not succeeded once, we already ruined many grotto-heavens."

"It is impossible for us to come to a peaceful truce with Qi Sea Ancestor, we should be wary of them using this chance to attack us!"

The immortals discussed as their tone contained fear and panic.

Spectral Soul who was acting as Lady Cold Ash stood among them, cheering secretly. He wanted the war to start as soon as possible, if there was chaos, he would gain a great opportunity to take action.

Night Heavenly Wolf Lord showed the same attitude as the rest but he was happy on the inside. He had already joined Heavenly Court, this situation was very advantageous to him.

"Panicking to this degree, what a disgrace!" Gu tribe's leader suddenly shouted.

Everyone looked towards him.

Even though Gu tribe's leader joined the two heavens alliance, he had always been silent. But everyone knew that he was the closest person to Wu Shuai. In terms of Wu Shuai's trust, he surpassed Ice Crystal Immortal Monarch and Xiao He Jian, who were both vice alliance leaders!

Gu tribe's leader suddenly spoke, Xiao He Jian shook internally as he realized something. Before he spoke, Ice Crystal Immortal Monarch had already taken the initiative: "With Lord Alliance Leader here, we have nothing to fear. At this crucial juncture of life and death, I am willing to follow Lord Alliance Leader and listen to your commands."

Xiao He Jian cursed internally but he quickly followed: “I will listen to Lord Alliance Leader’s decision!”

Wu Shuai nodded slightly, snorting: “The current situation is critical, if we sit and wait here, we will definitely perish, there is no exception. We have to fight with all our strength now for a hope of survival. They are able to eliminate the qi harvest fruit because of Qi Sea Ancestor’s method. As long as we do our best and kill Qi Sea Ancestor, we will gain complete victory. Even if we cannot kill him, as long as we gravely injure him, the situation will also be alleviated.”

After Wu Shuai said that, Gu tribe’s leader immediately shouted: “Alliance Leader is wise!”

Wu Shuai looked at Ice Crystal Immortal Monarch and Xiao He Jian, these two vice alliance leaders immediately shouted: “Alliance Leader is wise, this plan is superb!”

“What ideas do you all have? If anyone has a better suggestion, you can tell us now.” Wu Shuai purposely asked the other Gu Immortals.

But what ideas could these people have?

In fact, Wu Shuai said he was going to attack the enemies because he had no other choice now, this was their only hope. Other than this, could they surrender to Qi Sea Ancestor?

It was not that they did not know this, but nobody had the guts to say it. Forest Lightning grotto-heaven was the best example, everyone saw that pitiful end, who would still dare to follow in its footsteps?

“Since everyone agrees, we will discuss about the way we will send our troops, we will use our time efficiently and catch the enemy off guard.” Wu Shuai said as he decided with lightning speed.

Gu tribe’s leader added: “Lord Alliance Leader is right, every second we waste now will mean the enemy gets an additional second of advantage.”

Immediately, the immortals started to discuss their offensive strategy.

This discussion lasted nearly an hour before they came up with a refined plan.

Wu Shuai opened the door of Dragon Palace, ordering the immortals to make preparations, they would move out in seven days.

Night Heavenly Wolf Lord returned to Night Wolf grotto-heaven, he mobilized his forces and gathered more troops while quickly informing Heavenly Court of this new development.

After Qin Ding Ling received the information, she summoned the Heavenly Court immortals for a meeting.

“The situation has changed, it seems that Wu Shuai has some spies around Qi Sea Ancestor.”

“Like I said before, we cannot underestimate Wu Shuai.”

“Since Wu Shuai is going to take the initiative to attack, let’s use this chance to take him down!”

“That will be hard, they have Dragon Palace and Di Zang Sheng to defend them. Unless we can awaken some immortals from the graveyard, we will not have sufficient strength to deal with the enemies.”

“Time is too pressing, we have seven days and the situation will occur far away in Eastern Sea.”

“We can only inform Qi Sea Ancestor now and ask him to make preparations while pretending to be ignorant. When Wu Shuai attacks, he will definitely suffer a setback.”

“Did you forget that Wu Shuai has spies around Qi Sea Ancestor? If Qi Sea Ancestor learns this information from us, it will also likely alert Wu Shuai.”

Prince Feng Xian suddenly spoke at this time: “Why must we inform Qi Sea Ancestor?”

The discussions suddenly stopped.

"Qi Sea Ancestor is our ally, if we do not tell him about this, it will not benefit our alliance."

Prince Feng Xian shook his head slowly as he smiled: "As long as we keep quiet, why would Qi Sea Ancestor find out that we know this? Our spy in the two heavens alliance has always been kept as a secret, if we tell him now, the spy might get exposed."

"We ally with Qi Sea Ancestor because we need his strength to resolve Heavenly Court's problem of the qi harvest fruit, we also want to use him as our pawn to gather an external force that can resist the variant human forces from getting stronger."

Prince Feng Xian continued to speak: "And thirdly, if possible, we want to recruit Qi Sea Ancestor into becoming a Heavenly Court member."

Qin Ding Ling looked at Prince Feng Xian: "Then in your opinion, what should we do?"

Prince Feng Xian breathed in deeply: "In my humble opinion, we should pretend that we do not know this and act according to our original plan. Now that Qi Sea Ancestor has already secretly moved out, he will arrive in Heavenly Court in three days. By then, we can get him to solve our problem of the qi harvest fruit."

"Heavenly Court is huge and has immense foundation, the qi harvest fruit here is the largest in the world. Qi Sea Ancestor suggested us to create a qi path immortal formation, it will take at least six days to get rid of the qi harvest fruit. We can purposely delay the formation creation time, if Wu Shuai's invasion succeeds, Qi Sea Ancestor's force will suffer a huge loss."

"Qi Sea Ancestor will become anxious and want to return to help them but as the person controlling the formation, how can he leave? Qi Sea Ancestor's force will be without a leader, they will not be able to defeat Wu Shuai. In fact, even if they get wiped out, so what?"

"Our strength will not fall while Qi Sea Ancestor will become a loner. By coming to Heavenly Court secretly and failing to protect his force, causing its destruction, his reputation will fall to rock bottom.

Eastern Sea's Gu Immortal world will also look down on him. Who would respect someone who goes missing in battle while helping forces of other regions?"

"At that point, Qi Sea Ancestor will understand that his status in Eastern Sea will never recover. By then, we will have no worries anymore, we can send people to take revenge for him. During the process, we can move him with logic and emotion, by tempting him with future gains, I am sure there is a high chance we can get him to join Heavenly Court."

The immortals were silent, they looked at each other before looking towards Prince Feng Xian.

At this moment, all of the immortals' gazes became different from before.

After hearing Prince Feng Xian's strategy, their impression towards him changed completely!

Prince Feng Xian's arms were behind his back, he stopped speaking as he smiled.

This scheme was vicious, none of the Gu Immortals here thought of it except him, the reason was because of his own life experiences.

Prince Feng Xian came from Spirit Affinity House, he was used as a spy initially to develop in Northern Plains. After many years, he became rank eight and also married into Gong tribe, he was the strongest spy in Northern Plains that came from Central Continent.

Heavenly Court's Gu Immortals have been too used to being overlords, their mindsets were also too fixed in place. But all of the immortals here were rank eight elites, they soon understood that Prince Feng Xian's plan was the most advantageous to Heavenly Court.

Even if Wu Shuai claims victory, so what?

Only the grotto-heavens in the two heavens would suffer. Even if Eastern Sea gets involved in the fight, its foundation would not be affected.

Even if Eastern Sea’s righteous path was toppled, that would only be one region. Humanity would still be the ruler of the world!

“Alright.” Qin Ding Ling looked at everyone’s expressions as she said, making a decision: “We will act according to Prince Feng Xian’s proposal.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2025 - Three Qi Immortal Gu

2025 Three Qi Immortal Gu

Heavenly Court was constantly filled with bright light.

Fang Yuan, who was disguised as Qi Sea Ancestor, had already arrived in Heavenly Court.

He floated in the air as he observed the qi harvest fruit in front of him.

The qi harvest fruit in Heavenly Court was large beyond common sense, it was like a towering mountain range, vast and colossal.

“Such a huge qi harvest fruit cannot even fit in an ordinary rank eight grotto-heaven, it will destroy the aperture walls from its sheer size. Only Heavenly Court has such a deep foundation and because of the use of Cang Xuan Zi’s space path fruits, the space inside is large enough to accommodate this qi harvest fruit.”

Fang Yuan sighed internally.

The last time he came to Heavenly Court, he had participated in the fate war with his original appearance and caused Heavenly Court to lose badly. This time, he was acting as Heavenly Court’s friend, he was here to resolve their problem of the qi harvest fruit.

Changes in situations and circumstances were often hard to predict.

“How is it?” Qin Ding Ling stood beside Fang Yuan, asking.

Fang Yuan nodded: “This is the first time I’ve seen such a huge qi harvest fruit, it shows that your foundation is truly unfathomable, this is truly the number one force in the world.”

After pausing for a while, Fang Yuan continued: “After my inspection earlier, even though my method is effective, this qi harvest fruit is too big. We need to set up the immortal formation first, the larger the qi path immortal formation, the more time we can save.”

Qin Ding Ling was slightly surprised: “Ancestor, to think that you have already come up with the immortal formation’s design.”

Fang Yuan shook his head: “No, the qi path immortal formation that we will set up is only going to amplify my qi path killer moves. The actual way to get rid of the qi harvest fruit is still through the qi path killer moves that I will use.”

Qin Ding Ling nodded upon hearing this, the explanation was logical.

She smiled as she took out a qi path rank eight Immortal Gu: “Heavenly Court does not lack qi path Immortal Gu, to resolve the problem of the qi harvest fruit, Heavenly Court is willing to use up our qi path resources. Ancestor, look at this Immortal Gu.”

Fang Yuan’s attention was drawn to this Immortal Gu.

“Don’t tell me this is… human qi Immortal Gu?” Fang Yuan’s pupils expanded as his expression changed.

Human qi Immortal Gu resembled a bee, it was thumb-sized and constantly moved its wings, floating above Qin Ding Ling’s palm, it emitted a cloud-like qi.

Qin Ding Ling handed human qi Immortal Gu to Fang Yuan.

Fang Yuan extended his hand and held the Gu, he looked at it fixedly and praised: “Good Gu, good Gu. This Gu is related to human path, it has immense potential for development!”

Qin Ding Ling smiled as she took out a second Immortal Gu, handing it to Fang Yuan.

This was earth qi Immortal Gu, it resembled a butterfly, brown in color, it also gave off a cloud-like qi.

Fang Yuan's left hand held human qi Immortal Gu while his right hand held earth qi Immortal Gu, he looked at them with great interest: "Wonderful, wonderful."

"And this is heaven qi Immortal Gu." Qin Ding Ling said as she passed Fang Yuan a third rank eight Immortal Gu.

Heaven qi Immortal Gu resembled a dragonfly, it was green in color and had eight pairs of thin bluish wings, when it moved its wings, its entire body would emit a translucent qi current.

Fang Yuan had a solemn expression: "This heaven qi Immortal Gu is tightly connected with heaven path. Truthfully speaking, the method that I created to get rid of the qi harvest fruit only succeeded after I comprehended a trace of heaven path's profundity. If I had this Gu, I would have succeeded much earlier."

"Gu Immortals cultivate all sorts of paths, human path and heaven path are the most unique. Ancestor, you have already reached the peak of qi path, thus you are able to mimic other paths easily and comprehend the true meaning of various paths." Qin Ding Ling praised before changing her words: "These three qi Immortal Gu are the core of triple qi retraction killer move, they are priceless treasures of Heavenly Court. Only Heavenly Court members can have them."

Qin Ding Ling saw Fang Yuan's expression and felt internally happy, she hinted to him that these Gu worms would be available if he joined Heavenly Court.

After hearing this, Fang Yuan showed a hesitant expression, but he was smiling to himself internally.

All of the expressions he showed were just an act.

If he really cultivated qi path solely, these three qi Immortal Gu would be incredibly alluring. Fang Yuan had tried many times already, these three qi path Immortal Gu were the cores of triple qi retraction, they could not be replaced. If he used other qi path

Immortal Gu in place of them, even if he manages to create a triple qi retraction killer move, its value in battle would fall drastically.

Thus, even though Fang Yuan had the complete Primordial Origin qi path true inheritance now, he did not benefit much from it.

Furthermore, Qi Sea Ancestor was just one of Fang Yuan's identities. He also had no lack of rank eight Immortal Gu. Attitude, Mutation, Wisdom Sword, Years Flow Like Water, Soul Beast Token, Regret, Spring, Summer, Big Qi, Region, Addition, Steal Life, Water Refinement, Advance Refinement, Dream Token, he simply had too many of them.

In Fang Yuan's eyes, only rank nine Immortal Gu could truly excite him.

But rank nine Immortal Gu were too rare.

He originally had one, which was wisdom Gu. But this Immortal Gu was tampered by Giant Sun Immortal Venerable long ago, he had no choice but to sacrifice it in the fate war.

Qin Ding Ling lent all three qi Immortal Gu and let Qi Sea Ancestor familiarize himself with them, she also arranged several Gu Immortals to modify the qi path immortal Gu formation with Qi Sea Ancestor.

Having everyone's help, the qi path immortal formation was finalized in a few days.

Fang Yuan and the Heavenly Court immortals started to set up the formation.

This qi path formation's main owner was naturally Fang Yuan.

But in the other formation cores, there would be Heavenly Court's Gu Immortals stationed, they could help him out while also supervising his actions.

Qi Sea Ancestor was an outsider after all, even though he underwent an alliance agreement, he was still not a Heavenly Court member. How could Heavenly Court not guard against him?

The truth was, the assisting Gu Immortals were not the only ones guarding against him.

The core Immortal Gu of this qi path formation, Heaven Qi, Earth Qi, and Human Qi, were temporarily lent to Fang Yuan by Qin Ding Ling. If any situation occurs, Heavenly Court could immediately take them back and make Fang Yuan lose control of the entire qi path formation.

This qi path formation was modified along with several Heavenly Court Gu Immortals. Even if they had low qi path attainment, they still had general knowledge, it was hard to deceive them. Also, Fang Yuan did not conceal anything inside this qi path formation.

The formation was definitely not an issue.

“Earth qi Gu, go!” Fang Yuan first tossed earth qi Immortal Gu as he instilled immortal essence.

Earth qi Immortal Gu quickly flew out, it went into the ground below the qi harvest fruit.

Boom!

Suddenly, with a loud explosion, the ground below the qi harvest fruit started to shake, earth qi started to rise up continuously.

Fang Yuan started to collect the earth qi, the Heavenly Court Gu Immortals around him also took action, some helped with the gathering while others set up small formations around the small holes that the earth qi emerged from.

While Fang Yuan was setting up his formation, deep underground at another area of Heavenly Court, there was a huge underground square.

Qing Chou’s mountain-like body was deep within this underground square, unmoving like a statue.

Bam…

Suddenly, a loud sound could be heard from afar.

The underground square shook slightly, several cracks appeared on the ground.

But Red Heart Traveler, who was defending this place, was not flustered, he immediately acted to stabilize the situation. The cracks on the ground could be seen disappearing at an observable rate.

“What’s the commotion?” Qing Chou suddenly spoke, but strangely, its voice was actually Nine Spiritual Fairy’s.

Nine Spiritual Fairy was actually inside Qing Chou’s body, trying to forcefully refine hatred Gu.

“From this commotion, Qi Sea Ancestor must have started to create his formation. He used earth qi Immortal Gu as the first foundation of the formation, it involved the earth vein. Meanwhile, we are at one of the main earth veins, thus we could feel the influence.” Red Heart Traveler spoke: “Earlier, you were at a crucial moment, so I did not inform you of this. But don’t worry, this cannot interrupt our plan.”

“Mm.” Nine Spiritual Fairy stopped worrying as she said: “Then let’s hurry up, if we can refine hatred Gu at the same time as the elimination of the qi harvest fruit, Heavenly Court will have a double celebration.”

Heavenly Court’s Gu Immortals had already recovered from the trauma of the fate war, they became braver after the humiliation, they worked harder and had greater morale now.

Days later, the qi path formation was created, Fang Yuan was the main user and activated his method to eliminate the qi harvest fruit.

The qi harvest fruit was continuously shaved off from Fang Yuan’s killer move, but this qi harvest fruit in Heavenly Court was just too big, some time was needed to completely destroy it.

Days passed, the qi harvest fruit was removed by over ten percent.

Qin Ding Ling hurried to Fang Yuan as she showed a solemn expression: “Ancestor, the situation in Eastern Sea has changed, this is not good.”

Fang Yuan looked shocked: “What happened?”

“Wu Shuai suddenly led his alliance to launch an invasion, they have split into three groups, they are attacking the grotto-heaven forces that have submitted to our side. Because we were caught off guard, our losses are quite severe.” Qin Ding Ling said.

“News that I came here should have been kept a secret. How did this happen? How did Wu Shuai find out so quickly?” Fang Yuan’s expression changed, there was anxiety in his tone.

“Ancestor, you want to return to help Eastern Sea?” Qin Ding Ling purposely asked.

“That is so.” Fang Yuan frowned: “But this method needs my full attention, if I stop halfway, there might be problematic consequences.”

Qin Ding Ling cupped her fists at Fang Yuan: “Ancestor, please consider the big picture! It is unexpected that Wu Shuai attacked so soon, but if you return now, that will be what Wu Shuai wants to see. Only after eliminating the qi harvest fruit can we have a safe territory to count on. By then, you can lead our Heavenly Court’s immortals to return to Eastern Sea and retaliate, you can say that you went to seek reinforcement from Heavenly Court, but Wu Shuai attacked and trapped you temporarily. By gathering our strength, we will kill Wu Shuai and get rid of the two heavens alliance. That is the true way to seek victory.”

Fang Yuan did not speak, he only looked at Qin Ding Ling deeply.

Long after, he spoke in a grim tone: “Wu Shuai attacked with his full force, he must have been prepared for this. Does Heavenly Court know of their plans in advance?”

“Definitely not.” Qin Ding Ling shook her head, showing a firm expression.

Fang Yuan snorted coldly, he showed a struggling expression as he sighed helplessly: “Forget it, I will stay here and control the formation until we get rid of the qi harvest fruit. But during this time, I need Heavenly Court to send people to assist Eastern Sea!"

Qin Ding Ling sighed as well: "We will do our best."

Fang Yuan gritted his teeth as he said: "Once I get rid of the qi harvest fruit, I will need to return and help them. But these days of unceasingly controlling the formation will cause my battle strength to fall. I need Heavenly Court to give me the three qi Immortal Gu to kill the enemies and claim victory."

Qin Ding Ling's expression changed, even though Fang Yuan spoke politely, his request for reward was really absurd, it far exceeded Qin Ding Ling's bottom line.

She rejected as she shook her head: "The three qi Immortal Gu are the treasures of Heavenly Court, only our members can…"

Before she finished, Fang Yuan interrupted: "Eastern Sea's immortals are all my subordinates."

Qin Ding Ling still shook her head: "We will remember ancestor's sacrifice, but even as Heavenly Court's leader, I cannot give you three rank eight Immortal Gu. At most, we can give you one as compensation."

"How can one Gu compensate for the people in the grotto-heavens?" Fang Yuan showed slight anger.

Boom!

While the two were negotiating, a loud sound could be heard in the sky.

A rank eight Immortal Gu House directly charged in with a fierce aura!

Heavenly Court's immortals were all shocked.

The Immortal Gu House that invaded Heavenly Court was Dragon Palace!

"How can this be?!" Qin Ding Ling could not waste time with Fang

Yuan anymore, she immediately flew out of the formation to face the enemies.

Dragon Palace’s door opened as Wu Shuai sat on his throne, speaking from deep within Dragon Palace: “Qin Ding Ling, we meet again.”

“Wu Shuai, why are you here?” Qin Ding Ling shouted as several Gu Immortals gathered behind her.

Wu Shuai smiled coldly as he kicked a head that was near his feet.

This head fell from the stairs of the dragon throne, rolling into Central Great Hall. The person had died with his eyes wide open, it was Night Heavenly Wolf Lord.

“Old scoundrel Qi Sea can get rid of qi harvest fruits, your Heavenly Court wants to conceal this information and secretly eliminate your internal threat? Hehe, wishful thinking! I am here to destroy your Heavenly Court and also kill that old scoundrel Qi Sea, let’s see who in this world can stop my rise to supremacy!”

Wu Shuai said that as he stood upright, he waved his hand and shouted: “Kill!”

At the next moment, immortals rushed out of Dragon Palace, attacking with ferocious expressions.

Chapter 2026 - Fang Yuan Appears

2026 Fang Yuan Appears

Central Continent, deep beneath a certain Earth Trench.

Fairy Zi Wei controlled the wisdom path formation, purple light flickered within it without spreading out.

Within the formation, other than Bai Ning Bing, Hei Lou Lan, and Ying Wu Xie, there was Fairy Miao Yin and Lady White Rabbit, as well as several other Gu Immortals.

After the fate war, these Gu Immortals were all left outside by Fang Yuan.

Fairy Zi Wei and the rest worked together with Bing Sai Chuan's group, capturing all of these people.

As the purple light faded, the formation stopped working, Fairy Miao Yin's expression was uncertain while Lady White Rabbit had anger in her eyes, they were both unable to move.

"Aren't you surrendering?" Ying Wu Xie laughed coldly.

"Hmph, you traitor!" Lady White Rabbit shouted angrily.

Bai Ning Bing also came over with a cold and indifferent expression: "I would advise you to reconsider, after all, you have just lost your greatest value."

Fairy Miao Yin heard this, she became more uncertain.

At this moment, Fairy Zi Wei stored away the formation as she stood up. She was very weak now after using her full strength to make the deduction, the cost was high. But joy was apparent on her face.

“It looks like she succeeded.” Bing Sai Chuan was waiting outside the formation, he smiled upon seeing this.

Hei Lou Lan walked towards Bing Sai Chuan from Fairy Zi Wei’s position, stopping behind him.

Fairy Zi Wei smiled lightly: “We have enough clues, we achieved success! I have already deduced Fang Yuan’s location, guess where this crafty demon is hiding?”

Bing Sai Chuan frowned: “Your question is an obvious hint in itself. Don’t tell me that this scoundrel Fang Yuan has been hiding in Heavenly Court?”

Fairy Zi Wei nodded: “According to my deductions, he is indeed in Heavenly Court now!”

The immortals heard this and showed varying expressions.

Ying Wu Xie gritted his teeth: “He is crafty indeed, his departure from Heavenly Court earlier was just a smokescreen, he must have been hiding in Heavenly Court all along.”

Old Man Zheng Yuan sighed: “No wonder we could not find his main body!”

Bai Ning Bing laughed loudly, praising: “Exciting! This is truly Fang Yuan’s attitude.”

Bing Sai Chuan frowned: “But how could he possibly hide until now without getting detected by Heavenly Court’s Gu Immortals?”

Fairy Zi Wei’s eyes flickered with bright light: “I can only deduce that he is in Heavenly Court now, he might not have been there the entire time. But in terms of ability, this demon is unfathomable. His growth is too fast, every time he fights, his enemies will see an explosive growth in his strength.”

Bing Sai Chuan sighed: “Now that Fang Yuan is hiding in Heavenly Court, what can we do? Do we go and attack Heavenly Court? Should we inform Heavenly Court about this and let them kill him, but wouldn’t that allow them to get all of his inheritances?”

Bing Sai Chuan represented Giant Sun Immortal Venerable, they cared about the benefits of Northern Plains’ Longevity Heaven. Furthermore, they had spent a lot of effort to deduce Fang Yuan’s location, telling Heavenly Court about it was quite a loss for them.

Old Man Zheng Yuan reminded: “No matter what, we need to tell our master about this important information!”

Fairy Zi Wei replied: “I have already reported it to master when I stored the formation away.”

Heavenly Court.

Intense battle erupted.

Boom!

Lady Cold Ash dodged with rapid speed, avoiding the explosion of a killer move.

She was the disguise of Spectral Soul, he had just received Fairy Zi Wei’s information, he was not in a good mood.

“Fang Yuan is in Heavenly Court now? Of course he is, I knew about that long ago!”

Memories surfaced in Spectral Soul’s mind regarding the event that happened days ago.

The Gu Immortals were called to assemble in Dragon Palace, Wu Shuai used the excuse that they were going to discuss the matter about attacking Qi Sea Ancestor.

But halfway through the meeting, Wu Shuai suddenly took action.

Dragon Palace roared, Night Heavenly Wolf Lord was caught off guard, he was hit by the killer move dreamy light smoke and was taken down without putting up a fight.

“Everyone, don’t panic, this person is a spy in our alliance, he is the informant of Heavenly Court.” Wu Shuai pacified the immortals while taking out evidence.

Looking at the concrete evidence, the immortals were shocked and furious, they wanted Night Wolf grotto-heaven to pay the price for this betrayal.

Wu Shuai shook his head: “We definitely need to punish Night Heavenly Wolf Lord, but the urgent matter is not this. We need to look at the big picture!”

Gu tribe’s leader frowned: “Lord Alliance Leader, because of this traitor Night Heavenly Wolf Lord, our plan to attack has been exposed. If we go ahead with it, we will no longer hit our enemies by surprise.”

Wu Shuai smiled grimly: “There is important information I have yet to tell you. Qi Sea Ancestor is not in Eastern Sea now, he has already gone to Central Continent’s Heavenly Court many days ago.”

“This is good news!” Many Gu Immortals heard this and rejoiced.

But Ice Crystal Immortal Monarch’s expression was grim: “What’s good about this? The reason why we are attacking Qi Sea Ancestor is because of his ability to get rid of the qi harvest fruits for others. Now that he is not around, what is the point of our assault?”

The Gu Immortals who cheered became stunned, after realizing the situation, the atmosphere in Dragon Palace became much grimmer.

“Don’t worry, everyone.” Wu Shuai spoke as everyone’s gazes landed on him.

He continued: “It is quite simple to resolve this problem. Since Qi Sea Ancestor has gone to Central Continent’s Heavenly Court, we will also head to Heavenly Court and kill Qi Sea Ancestor who is over there!”

“…What?”

"This…"

The Gu Immortals in the palace hesitated.

"It is not easy to attack Heavenly Court."

"Heavenly Court is the number one human force in the world, even though it lost in the fate war, we cannot possibly defeat it."

Many Gu Immortals wanted to give up.

But Wu Shuai snorted coldly: "You fools."

He scolded them in public, the loud noises in the palace became silent, all of the Gu Immortals did not dare to speak anymore.

"Why aren't you thinking about the reason why Heavenly Court invited Qi Sea Ancestor to visit them in secret?" Wu Shuai purposely asked with a stiff expression.

Xiao He Jian, who reacted quickly, said instantly: "Does this mean that Heavenly Court also has the problem of the qi harvest fruit?"

Wu Shuai chuckled: "Your grotto-heavens have the problem of the qi harvest fruit, Heavenly Court is also a grotto-heaven situated in white heaven, why wouldn't they have the same problem?"

After hearing this, the immortals realized at once.

This was actually just their own mentality. In their mind, Heavenly Court was the supreme organization, even though it lost the fate war, they still displayed terrifying might and foundation. They had only lost because of enemies like Fang Yuan and Red Lotus Demon Venerable. From the variant human Gu Immortals' perspective, this was not an illogical loss, it did not undermine Heavenly Court's terrifying strength.

And because of this, the variant human Gu Immortals subconsciously thought that even if Heavenly Court had the problem of the qi harvest fruit, they could resolve it themselves, after all, Heavenly Court was created by Primordial Origin Immortal Venerable, who became venerable through qi path.

“Lord Alliance Leader is wise!” Ice Crystal Immortal Monarch patted his forehead: “Heavenly Court invited Qi Sea Ancestor to resolve their threat of the qi harvest fruit, because even though they have their qi path inheritance, they lack a qi path Gu Immortal.”

“Also, why did Heavenly Court choose to ally with Qi Sea Ancestor? Other than wanting to resist us, they also want to alleviate their own problems.”

“Precisely.” Wu Shuai looked at Ice Crystal Immortal Monarch with an expression of praise: “You guys are not too stupid after all. Heavenly Court is at its weakest state now, while Qi Sea Ancestor has gone to resolve the qi harvest fruit problem. As long as we attack them during this period, the result will be shocking when we catch them unguarded!”

“If we attack Heavenly Court before Qi Sea Ancestor starts working on the qi harvest fruit, we will attack the qi harvest fruit and force them to go on the defensive. This way, we will hold the initiative and be able to retreat or advance at will.”

“If Qi Sea Ancestor is using his killer move to eliminate the qi harvest fruit while we attack Heavenly Court, that will be even better! We can disrupt him with our full strength and cause Qi Sea Ancestor’s killer move to fail and suffer a backlash. If we work harder, we might be able to kill him on the spot.”

Wu Shuai said calmly.

“But what if Qi Sea Ancestor has already gotten rid of the qi harvest fruit by the time we attack Heavenly Court?” A Gu Immortal asked with caution.

Wu Shuai snorted coldly: “Heavenly Court’s foundation is too deep, their qi harvest fruit is also very extraordinary, if Qi Sea Ancestor spends effort to get rid of it, his own condition will definitely slip. Of course, this is just the worst case scenario, but we are in an urgent situation in the first place, we will need to take risks for any hope. Other than this, do you have other ideas?”

Facing Wu Shuai’s question, everyone was silent.

In this situation, they had no choice but to follow Wu Shuai and attack Heavenly Court.

But…

Many of the Gu Immortals were still hesitant, including their vice alliance leaders, Ice Crystal Immortal Monarch and Xiao He Jian.

“Or perhaps, we can try to experiment and find a way to get rid of the qi harvest fruit?” A Gu Immortal asked softly.

Wu Shuai’s expression sank a little, he scolded in his head: “These variant human Gu Immortals have been cowards for too long, they have absolutely no courage to take risks.”

But Wu Shuai predicted this earlier, he started to laugh.

“Why is Lord Alliance Leader laughing?” Gu tribe’s leader asked.

Wu Shuai stopped his laughter as he said: “The truth is, I am also worried about bringing you fools to attack Heavenly Court. But I have invited a strong reinforcement to help us, because of him, I learned about Night Heavenly Wolf Lord’s betrayal.”

“Oh? Who?” The immortals were curious.

Lady Cold Ash’s gaze flickered, having a guess.

At this moment, from behind Wu Shuai, a Gu Immortal walked out. He wore a white robe, his black hair extended to his waist, he had a peerless face with divine brilliance, cold light oozed out of his abyss-like eyes.

“Ahhh!”

“Fang Yuan…”

“It’s him, it really is him.”

The immortals’ pupils shrunk as their expressions changed, all of them were shocked.

Under everyone's gaze, Fang Yuan spoke slowly in a cold tone: "Heavenly Court has gone too far, now that I have regained my strength, I am about to attack them. Without Duke Long, who can stop me?"

His voice resounded in the palace, nobody dared to retort to him. Ice Crystal Immortal Monarch and the rest had palpitating hearts, with a monster like Fang Yuan leading them, they gained a huge boost in morale and confidence!

Fang Yuan was someone who had defeated Heavenly Court, his battle strength was apparent to the whole world!

Undeniably, he was the number one demon in the current world.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2027 - Heavenly Court“s Crisis

2027 Heavenly Court“s Crisis

Roar—!

The Evil Dragon’s roar shook heaven and earth, whipping up storms and clouds. Its mountain range-like body moved at the front, followed by the immortals of the two heavens alliance, and finally, Dragon Palace at the end.

Primordial qi wall!

This was the method left by Primordial Origin Immortal Venerable, it appeared once again when Heavenly Court was attacked, but it could not stop Di Zang Sheng’s advancement!

“The five regions became one, this Evil Dragon has gotten much stronger! Furthermore… ever since the fate war, after Fang Yuan broke the primordial qi wall, even though it recovered a little, it is much weaker than before.” Qin Ding Ling frowned, she quickly analyzed the situation, with just the primordial qi wall, they could stall for some time but they could not stop this Evil Dragon!

“Lady Qin, do you need me to battle?” At this moment, Nine Spiritual Fairy transmitted and asked.

Heavenly Court once had transformation path great experts, Zhang Fei Xiong and Flesh Whip Immortal, but now they were dead, Nine Spiritual Fairy was the only transformation path great expert left.

“No, we are only one step away from subduing Qing Chou, continue to refine hatred Gu.” Qin Ding Ling transmitted before shouting: “Shabi Ninety-five, Ruan Dan, aren’t you going to fight yet?!”

Hearing a tiger roar and crane cry at once, two legendary immemorial desolate beasts appeared in front of Di Zang Sheng.

The three legendary immemorial desolate beasts fought intensely, causing the entire place to rumble.

After just a few rounds, Ruan Dan and Shabi Ninety-five started to retreat. They were in pitiful states, with just physical brawling, they were not Di Zang Sheng’s match.

Thus, they started to use killer moves, instantly, grey light shot out like blades, pill light exploded.

Di Zang Sheng roared, purple-gold light appeared on its body, blocking all of the offensive killer moves.

Next, the golden light faded away. Di Zang Sheng’s whiskers grew out rapidly, each of them shot out like countless snakes, the commotion was huge.

Facing this attack, Shabi Ninety-five and Ruan Dan had to retreat.

“This Evil Dragon actually has Immortal Gu now, it can use killer moves!” Qin Ding Ling’s heart sank, she took a look at Dragon Palace.

Di Zang Sheng was a legendary immemorial beast to begin with, it had superior intelligence and could use Gu worms to activate killer moves. But before the fate war, it was enslaved by Dragon Palace and had no time to obtain Gu worms. Thus, during the fate war, it could only fight using its physical body. That was why it could not resist Feng Jiu Ge’s destiny song, it was handled very quickly, even against other killer moves, it could only resist using its body.

But after the fate war, Wu Shuai made considerations to prepare Gu worms for Di Zang Sheng.

At that time, Wu Shuai was quite poor, he did not have excessive Immortal Gu.

Even though the main body had many Immortal Gu, Fang Yuan was moving around in Western Desert, he did not meet with Wu Shuai initially, also, even though he had Immortal Gu, they were not suitable for Di Zang Sheng.

But Wu Shuai had great luck, he grasped onto his opportunity and became the leader of the two heavens alliance.

With sufficient resources, Wu Shuai started to equip Di Zang Sheng. By now, Wu Shuai and his main body had taken over the two heavens alliance, by using the excuse of eliminating the qi harvest fruit, he destroyed several grotto-heavens and made forceful transactions with the Gu Immortals of the two heavens alliance, Di Zang Sheng finally gathered enough Gu worms to form some basic killer moves.

Di Zang Sheng suppressed Ruan Dan and Shabi Ninety-five, forcing them to retreat as it charged forward ferociously.

Qin Ding Ling yelled as she flew up into an Immortal Gu House. Several Immortal Gu Houses flew towards Di Zang Sheng, they formed a defensive line.

Di Zang Sheng's advancement was halted, Shabi Ninety-five and Ruan Dan also joined the encirclement.

"We finally stopped it!" Qin Ding Ling calmed down slightly, but at this moment, she saw Dragon Palace flying around, towards the qi harvest fruit.

Heavenly Court's qi harvest fruit was too huge and too eye-catching!

Wu Shuai was too vicious, he attacked the enemy's weakness, Qin Ding Ling's expression changed as she quickly moved a portion of the Immortal Gu Houses to block Dragon Palace.

"The situation is critical, if the qi harvest fruit is destroyed, the whole of Heavenly Court will face destruction! Quickly awaken the people sleeping in the immortal graveyard!" Zhou Xiong Xin urged.

"Or we can let Nine Spiritual Fairy and Red Heart Traveler join the fight!" Bai Cang Shui suggested.

Qin Ding Ling gritted her teeth, deciding: “Awaken those in our immortal graveyard!”

More than half of Heavenly Court’s immortal graveyard was destroyed, there were only a small number of Gu Immortals left sleeping in it. But with the awakening of these people, they formed sufficient force to handle the pressure, their defensive line that was precarious became stable now.

“Go and attack the qi harvest fruit!” Wu Shuai gave an order to the alliance army.

These Gu Immortals had dispersed earlier, they were like scattered sand, trying to make their way through the qi wall and towards the qi harvest fruit.

Seeing this, Qin Ding Ling felt enraged, she gritted her teeth, she was furious: “I will grind the bones of these variant humans into ash, I will kill them all!”

The two heavens alliance’s Gu Immortals were not very strong but they had the numbers, and right now, Heavenly Court’s weakness was their lack of manpower.

“Don’t worry, there are many variant human Gu Immortals but they are all cowards. As long as we send one person to kill several of these invaders, they will lose their morale and not dare to progress further!” Prince Feng Xian suggested.

“Who can take on the task?” Qin Ding Ling quickly asked.

Che Wei replied with his actions, he turned into a flash of light and flew out of the Immortal Gu House, towards the qi harvest fruit.

“Die!” He flew like a great eagle, unleashing killer moves that were extremely powerful, his might could not be resisted.

“Ahh—!”

“What killer move is this?”

Out of two variant human Gu Immortals, one was heavily injured, the other was killed on the spot.

At the crucial moment, Che Wei displayed outstanding battle strength, both sides were similarly shocked.

After all, he had just defeated two variant human Gu Immortals with rank eight cultivation level.

“That killer move seems to be from a whole new path?”

“Too terrifying. Before we can understand its background, if I charge towards him, I will definitely be split into two by his blade.”

“Let’s wait for Fang Yuan to attack instead!”

The Gu Immortals of the two heavens alliance were hesitant, they stopped moving forward.

“These useless trash!” In the depth of Dragon Palace, Wu Shuai frowned with anger showing on his face.

At the crucial moment, these variant human Gu Immortals were completely useless, they were not even qualified to be cannon fodder.

But Wu Shuai was prepared for this, he waved his hand: “Your turn to fight!”

Four figures flew out of Dragon Palace, they were the Four Dragon Generals, Zhang Yin, Granny Rong, Yang Zi He, and Old Man Bei Feng, who took the place of Shi Miao.

These four rank eight Gu Immortals were enslaved by Dragon Palace, they had absolute loyalty and did not fear death, they split up into four different directions and advanced.

Even though Che Wei was strong, he could only block one person.

“Protect me!” Qi Sea Ancestor transmitted to Qin Ding Ling: “Now is a crucial moment, if we stop here, the consequences will be unthinkable.”

Qin Ding Ling almost wanted to grit her teeth till they shattered, the three dragon generals were very close to the qi harvest fruit, she had to take a risk and mobilize Immortal Gu Houses to block them.

At the same time, two Gu Immortals flew out of the Immortal Gu Houses to resist the dragon generals.

Roar—!

Right when Heavenly Court managed to block the Four Dragon Generals, over on Dragon Palace's end, it exerted force to stop Ruan Dan. Using this chance, Di Zang Sheng rammed Shabi Ninety-five away as it charged forward, managing to reach the qi harvest fruit.

Di Zang Sheng opened its mouth and spat out a torrent of green qi.

The green qi shattered the immortal formation and hit the qi harvest fruit.

The qi harvest fruit shook intensely, Qi Sea Ancestor's expression changed, he spat out a mouthful of blood, the killer move was halted, he seemed to have suffered great backlash.

"Oh no!" The expressions of Heavenly Court's immortals changed.

"We succeeded!" The subordinates of Wu Shuai started to cheer, their morale rose.

The qi harvest fruit was damaged, it implicated Heavenly Court. The land of Heavenly Court cracked, Earth Trenches appeared, earth qi rumbled, heaven qi shook, the sky became chaotic as countless clouds and gusts of wind stirred.

Crack, crack.

The aperture wall of Heavenly Court started to crack, large pieces of the wall fragments fell off and created huge holes that connected to the outside world.

Even the fate war did not deal such great damage to Heavenly Court!

The appearance of the qi harvest fruit created a fatal weakness in Heavenly Court.

“Die!” Che Wei was enraged, his left hand was like a blade, his right hand was like a spear, both hands pushed forward as two golden-silver lights pierced Yang Zi He.

Yang Zi He died!

Wu Shuai laughed loudly, shouting: “Today is the day Heavenly Court faces destruction.”

Qin Ding Ling’s eyelids twitched, even though Wu Shuai’s side suffered more losses, he was not wrong about it. With their greatest weakness, the qi harvest fruit, Wu Shuai had the initiative in this battle!

“Heavenly Court is facing a crisis, what should we do?” Even someone like Qin Ding Ling felt lost at this moment.

Amidst her feeling of loss, she also felt fear: “Don’t tell me Heavenly Court is going to be destroyed in my hands?”

Right at this moment, Qi Sea Ancestor transmitted to her: “The situation is quite critical, we need to take a risk.”

Qin Ding Ling responded subconsciously: “What risk?”

“Earlier, my qi path Immortal Gu were destroyed, I can no longer use the previous method to eliminate the qi harvest fruit. But I had created a killer move that is incomplete, it can cause the qi harvest fruit to shrink temporarily.” Qi Sea Ancestor said.

Qin Ding Ling’s eyes shined, she saw hope in this desperate situation, she quickly said: “Ancestor, please use it! As long as we get through this crisis, Heavenly Court will not disappoint you.”

Heavenly Court’s greatest problem was the qi harvest fruit now. It was too big, like a mountain range, it was the biggest target for killer moves. But if it shrunk, it would be much easier to protect.

“We need to be fast, this killer move is not complete, I can only hold on for some time.” Qi Sea Ancestor said as he flew towards the qi harvest fruit.

When he was about to crash into it, he turned into a human-shaped qi current that fused into the qi harvest fruit.

The qi harvest fruit shook, as expected, it started to shrink.

After a few breaths of time, it went from a mountain range-like size into the size of a horse carriage.

This change made the Heavenly Court Gu Immortals surprised but also happy.

An Immortal Gu House flew down and floated above the qi harvest fruit, it shot out a grand pillar of light that enveloped the entire qi harvest fruit.

Wu Shuai's side rained down a torrent of killer moves but they could not affect the pillar of light at all.

Di Zang Sheng and Dragon Palace arrived again.

"Stop them!" Qin Ding Ling shouted, but their situation was too passive, they had no choice but to retreat.

The qi harvest fruit shrank again, it went from a horse carriage to the size of a normal gourd.

Seeing that they were about to lose again, Qin Ding Ling quickly asked: "Ancestor, can you move the qi harvest fruit away?"

Qi Sea Ancestor replied weakly: "This is already my limit! I researched on Demon Immortal Qi Jue's revival method, I can only shrink the fruit but I cannot move it. This method has only been created haphazardly, it is not complete, you need to quickly think of a solution!"

Qin Ding Ling was out of ideas already, she originally wanted to send the members of the ten great ancient sects here to fight. But Central Heaven Gate of Heavenly Court, which could deploy members, was destroyed by Fairy Zi Wei during the fate war.

But at the next moment, the primordial qi wall shattered, countless qi currents landed on Di Zang Sheng's body.

Di Zang Sheng's battle strength fell rapidly, its threat level was lowered.

This was the backup method of Primordial Origin Immortal Venerable, it was used on Fang Yuan during the fate war. At that time, Fang Yuan could not break away from it, Limitless Demon Venerable had to take action to help him block these qi currents.

But now, the chess game had ended, the two venerables' silhouettes were gone, there was nothing that could help Di Zang Sheng.

In an instant, Di Zang Sheng was suppressed by Shabi Ninety-five.

Heavenly Court's crisis was temporarily alleviated.

On Wu Shuai's side, they lost their most important battle strength, Dragon Palace had to step up and use the killer move dreamy light smoke, as Heavenly Court had no way of countering it, Dragon Palace's demonic might surged.

“This cannot go on, our Heavenly Court lacks people with peak battle strength after all!” Qin Ding Ling gritted her teeth.

If Duke Long was here, how could these enemies act so ferociously?

“Qi Sea Ancestor has peak battle strength too but he faced backlash from the failure of the killer move. He is also not a member of Heavenly Court, why would he fight to the death for us?”

While Qin Ding Ling was thinking of this, Qi Sea Ancestor transmitted again.

“The biggest key now is to get rid of the qi harvest fruit. As long as it is removed, we can go on the offensive without worries. There is still hope now, my killer move only lacks the final part for completion! There is a high chance of success.”

Qin Ding Ling's heart shook: “What do you need?”

Qi Sea Ancestor replied: “I need Heavenly Court's heaven path true meaning, I need to raise my heaven path attainment level and conceptualize the complete killer move rapidly to get rid of the qi harvest fruit!”

Chapter 2028 - Heaven Path Research Results

2028 Heaven Path Research Results

After hearing that Qi Sea Ancestor wanted heaven path true meaning, Qin Ding Ling smiled bitterly: “Even though Heavenly Court has deep foundations, we have never seen nor heard of heaven path true meaning.”

“Oh? Why is that so?” Qi Sea Ancestor asked.

“Because nobody can cultivate heaven path. If it can be cultivated, why would our Heavenly Court create Heaven Overseeing Tower to make use of fate Gu?” Qin Ding Ling’s words were filled with deep emotions.

No Gu Immortal could cultivate heaven path, therefore, heaven path true meaning had never existed!

It was not easy for a Gu Immortal to leave behind true meaning.

To leave behind true meaning, wisdom path and rule path had the greatest ease. As for other paths, they had to reach a certain level of mimicking these paths to leave their true meaning behind. For example, Long Hair Ancestor’s refinement path true meaning or Reckless Savage’s transformation path true meaning.

After hearing Qin Ding Ling’s reply, Fang Yuan did not feel dejected.

He came prepared, his request was actually his probing towards Heavenly Court's foundation, what if they had it after all?

Heavenly Court not having heaven path true meaning was not unexpected.

Qi Sea Ancestor (Fang Yuan) sighed deeply as he transmitted to Qin Ding Ling: "Then there is no hope. I can only come out and fight alongside Heavenly Court to kill these variant humans."

Qin Ding Ling instantly became anxious.

The qi harvest fruit was Heavenly Court's fatal weakness, the reason why they could still maintain a deadlock was because Qi Sea Ancestor made the fruit smaller. Once he lets go and it returns to being mountain size, Heavenly Court would be in a difficult spot, the situation would be hard to turn around.

Qin Ding Ling was facing immense pressure now.

Some of her pressure came from the enemies, but a portion came from within her.

After the fate war, the immortal graveyard was heavily damaged, Heavenly Court's foundation was reduced, Qin Ding Ling had to take on this responsibility and manage all the affairs of Heavenly Court, which was on the brink of destruction.

She worked hard over these days, she had given it her all, she exerted her body and mind for Heavenly Court, trying to restore its former glory.

Similar to the other Heavenly Court members, Qin Ding Ling had an intense feeling of belonging to Heavenly Court.

But now, the enemies were attacking suddenly, they even had the fatal weakness of the qi harvest fruit, Qin Ding Ling sensed a huge danger: "Was Heavenly Court going to be destroyed in this fight? Was it because of her failure to defend it, would she be the biggest sinner of Heavenly Court's history?"

Rumble!

The intense battle continued, Dragon Palace rampaged unhindered.

Qin Ding Ling took charge of the situation, observing the battlefield, while mobilizing the people and communicating with Qi Sea Ancestor.

With both internal and external threats, the pressure was pushing her to make a gamble.

“Qi Sea, do not give up. Even though Heavenly Court does not have heaven path true meaning, we have abundant heaven path research results. I will hand them to you!”

Qin Ding Ling passed an information path Immortal Gu to Qi Sea Ancestor without hesitation.

“My plan succeeded!” Fang Yuan received this information path Immortal Gu, he sighed deeply in his heart as he looked into it immediately.

“Brilliant! Wonderful! Astounding!” Fang Yuan only saw a small portion but his eyes shined with bright light, he praised it continuously in his heart.

For the last three million years, Heavenly Court rose to become the number one human force in the world. These years, they initially followed the will of heaven, before trying to resist it later, followed by altering heaven’s will and interfering with the Heavenly Dao.

Their heaven path research results were abundant, they undeniably had the most progress in the world!

Fate Gu was a heaven path Immortal Gu, it could not be used by anyone. But Heavenly Court forcibly created Heaven Overseeing Tower and unleashed a portion of fate Gu’s might.

In the five hundred years of his previous life, why did Spectral Soul infiltrate Heavenly Court? A large portion of the reasons were to try obtaining the heaven path research results!

As for why Limitless Demon Venerable decided to make a bet with Star Constellation’s will and set up a game of chess, wasn’t it because he wanted to use Heavenly Court's heaven path research results to help in his plan within Crazed Demon Cave?

And now, they ended up in Fang Yuan's hands.

Fang Yuan looked into them, his heart shook.

He saw two killer moves.

One was named heaven-human sensation, the other was called human executing heaven's work, they were both created by Star Constellation Immortal Venerable.

Heaven-human sensation allowed a Gu Immortal's will to interact and fuse with heaven's will. Human executing heaven's work was built on the foundation of heaven-human sensation, it allowed a Gu Immortal to replace heaven's will to a certain degree.

Precisely because of these two killer moves, Star Constellation's will could interfere and affect heaven's will, she could even replace heaven's will to control fate Gu and allow Heavenly Court to have a decisive rule for three million years!

"The solution lies in this!" Fang Yuan acutely sensed that these two killer moves were the key to breaking out of his current predicament.

He took a risk to come to Heavenly Court now and deceive Qin Ding Ling, it was to achieve his goals, which were finally reached.

"Qi Sea, I wonder if these research results can help you complete the killer move?" Qin Ding Ling asked while in intense battle.

Fang Yuan coughed: "Your heaven path research results are quite helpful to me. But modifying a killer move right now carries risk, I need you to fight and stall for time, get me as much time as possible."

Qin Ding Ling gritted her teeth: "Ancestor, you need to be fast, we can only do our best. In the worst case, we have to give up Heavenly Court and save the Gu Immortals instead."

She had already made plans for the worst case scenario.

Fang Yuan continued to read.

Following the two killer moves were the concepts that Star Constellation Immortal Venerable came up with, Fang Yuan looked at them and gained deep enlightenment.

"My will represents heaven's will, heaven's will represents my will… so that's it, so that's it."

Fang Yuan remained stationary as he focused on comprehending this information, he allowed his clone, Wu Shuai, to continue leading the two heavens alliance to fight against Heavenly Court.

Because of Primordial Origin's method, Di Zang Sheng was no longer as strong, Ruan Dan suppressed it. As for Shabi Ninety-five, it had already rejoined the defensive line, to become part of the force that resisted Dragon Palace.

Under Wu Shuai's control, Dragon Palace charged around the battlefield unhindered, Heavenly Court was greatly troubled by its power.

But on the other hand, the Gu Immortals of the two heavens alliance were suppressed, they were not as powerful as each Heavenly Court Gu Immortal.

Compared to the Heavenly Court members, they were lacking in strength. Only two people had equivalent battle strength, they were the two vice alliance leaders, Ice Crystal Immortal Monarch and Xiao He Jian.

As for Spectral Soul, who was pretending to be Lady Cold Ash, he continued to conceal himself, on the surface, he was desperately fighting and unable to put up strong resistance.

"This is a prime opportunity! Fairy Zi Wei, bring everyone and participate in the battle in Heavenly Court!" Spectral Soul gave instructions: "Fang Yuan is in Heavenly Court, I will kill him, the members of Heavenly Court, and Qi Sea Ancestor."

Fairy Zi Wei received the instructions and asked: "Do we include Longevity Heaven's group? Do we tell them about the situation in

Heavenly Court?”

Fairy Zi Wei had only deduced Fang Yuan’s location, Bing Sai Chuan knew about it too. But he did not know about Heavenly Court’s current situation, he just thought that they were being cautious.

In that case, Bing Sai Chuan would need to conceal the information of Fang Yuan’s location. Even though he wanted to let them fight each other as well, if Heavenly Court captures or kills Fang Yuan, they would gain all of his inheritances and Immortal Gu, wouldn’t that be benefiting them?

Thus, Bing Sai Chuan’s plan was to continue working with Spectral Soul’s side and try to attack Heavenly Court together next time.

Spectral Soul recalled the attack from Giant Sun during the fate war and snorted coldly, he did not hesitate: “No need to tell them, hide this from them, your group will come alone!”

Thus, Fairy Zi Wei did not say anything, after leaving Bing Sai Chuan’s group, her group headed towards Heavenly Court.

Heavenly Court was damaged and the aperture wall was cracked, it became connected to the outside world. Fairy Zi Wei and the rest could get in very quickly.

“Fairy Zi Wei’s group cannot turn the situation around, we need to wait until both sides suffer mutual loss before we can exert the maximum impact.” Spectral Soul considered.

For him, the best case was for Wu Shuai and Heavenly Court to cripple each other’s battle strength. By then, if he took action, he would reap huge gains.

“But why hasn’t that scoundrel Fang Yuan done anything?” Spectral Soul observed Dragon Palace while at the same time, an Immortal Gu House from Heavenly Court attacked him.

Spectral Soul withheld his killing intent, he abandoned a group of soul beasts, retreating continuously.

In order to lay low, he decided to wait and endure.

But this Immortal Gu House came for him and used a killer move, a ray of profound light shot out towards Spectral Soul.

Spectral Soul's heart shook as he hesitated. He had the ability to dodge this but Lady Cold Ash did not. There was no choice, he abandoned another group of soul beasts to block the Immortal Gu House and stall for time.

"Die!" Che Wei suddenly appeared behind Lady Cold Ash, his body shined in golden light, his aura was sharp as a blade.

"Do you really think I'm easy to bully?" Spectral Soul was deeply enraged but he decided to keep up the act.

Boom!

Che Wei's attack landed on Lady Cold Ash, she fell towards the ground as she coughed out mouthfuls of blood.

Lady Cold Ash's aura weakened continuously until it was completely still.

"Dead!"

"I killed another one."

Che Wei did not sense Spectral Soul, he flew away in the Immortal Gu House, towards the other areas of the battlefield.

Spectral Soul remained on the ground like a corpse, not moving and pretending to be dead.

Boom boom boom!

A while after he landed on the ground, a series of immortal killer moves turned into lightning as they shot down, erupting around Spectral Soul's body.

Lady Cold Ash was turned into char, half of her flesh was cooked and emitted the fragrance of meat.

"I'll endure!" Spectral Soul gritted his teeth.

Bam.

With a loud sound, Di Zang Sheng also fell, it landed on top of Spectral Soul.

Next, Ruan Dan flew towards Di Zang Sheng and shouted excitedly: “Attack, attack, attack, attack, attack!”

Bam bam bam…

The ground shook intensely, Spectral Soul’s bones were almost all crushed: “I’ll endure!”

Di Zang Sheng and Ruan Dan flew away, soon, an Immortal Gu House came.

It was Dragon Palace.

Immortal killer move — Dreamy Light Smoke!

Wu Shuai used a dream path killer move and chased after Qin Ding Ling relentlessly.

Qin Ding Ling dodged the attack rapidly, the dreamy smoke killer move could not turn around in time, it was about to land on Spectral Soul.

Spectral Soul: “…”

“Enough is enough!” At the next moment, he rose up abruptly, waving his hand, black qi permeated throughout the entire battlefield.

Whoosh, the ground shook, mountains rumbled, all of the Gu Immortals present were blown away by the impact.

Chapter 2029 - What“s The Situation?

2029 What“s The Situation?

“What… what’s the situation?” As black qi surged, Xiao He Jian was forced to retreat with shock on his face.

He saw the moment when Lady Cold Ash was killed by Che Wei, he felt a little pity for her. To think that soon after, she would actually revive!

“Was she pretending to be dead earlier, but because of bad luck, the dream path killer move almost hit her, so she had to retaliate? But… why does Lady Cold Ash have such battle strength?”

Not only was Xiao He Jian shocked, the other Gu Immortals had the same doubts.

But compared to Heavenly Court, the two heavens alliance was also filled with joy. After all, even though Lady Cold Ash was deeply concealing her strength, she was still one of them.

“That hit earlier has power similar to Duke Long. Is Lady Cold Ash someone on Duke Long’s level? Hmph, I refuse to believe it!” A Gu Immortal on Heavenly Court’s side flew out again, it was none other than Che Wei, who was displaying great might in this battle.

Che Wei flew towards Lady Cold Ash, all sorts of signs showed that the move earlier was Lady Cold Ash’s trump card, it could not be used often.

“Die!” Che Wei’s body radiated with golden light as he flew towards Lady Cold Ash like a crashing meteor.

At the same time, somewhere underground far from the battlefield.

Two Heavenly Court members were still trying to forcefully refine hatred Gu.

Red Heart Traveler controlled the formation while Qing Chou remained unmoving like a statue.

Nine Spiritual Fairy’s voice came from within the statue: “We are almost done, in just a few more minutes, we will thoroughly refine hatred Gu!”

Once she said that, Qing Chou’s dim eyes burst open, endless blood red light shot out of its eyes!

“What is going on?” Nine Spiritual Fairy shouted in shock.

“What happened?” Red Heart Traveler asked while instilling immortal essence, raising the power of the immortal formation.

But Qing Chou’s body started to shake with greater intensity.

“It’s hatred Gu… oh no!” Nine Spiritual Fairy suddenly shouted, she flew out of Qing Chou’s body like a flash of light.

Roar—!

Qing Chou regained freedom, it roared towards the sky, its voice resounded throughout the area, exploding with thunderous impact.

Boom!

At the next moment, Qing Chou charged out of the formation, flying towards the surface, leaving behind a damaged formation and two immensely shocked Heavenly Court rank eight Gu Immortals.

Red Heart Traveler, who was controlling the formation, suffered a considerable backlash, he quickly assisted the falling Nine Spiritual Fairy as he asked: “Qing Chou has flown to the battlefield, what in the world happened?”

Nine Spiritual Fairy was still in a daze, she said in uncertainty: “Maybe I saw wrongly, but at that moment, rank eight hatred Immortal Gu burst out with terrifying power, it… it had a trace of a rank nine Immortal Gu’s aura!”

At this time, the battlefield had already shifted its attention from Dragon Palace and the qi harvest fruit to Lady Cold Ash.

Lady Cold Ash’s attack was too powerful, it shocked all of the Gu Immortals.

Che Wei arrived before her, Lady Cold Ash only snorted coldly as her body flew up, turning into black light as she charged towards Dragon Palace!

At the same time, Lady Cold Ash shouted in a loud voice: “Fang Yuan, it is time for us to settle the score!”

Spectral Soul had a straightforward idea, since Fang Yuan was not showing up, he would force him out.

Times were different now.

During the fate war, Spectral Soul was very weak, he could only escape and recuperate using Fairy Zi Wei and Old Man Zheng Yuan’s strength. But now, he had already gained much of his strength, he was no longer weak.

“What is going on?” The immortals were truly stunned.

Lady Cold Ash actually ignored Che Wei, she went straight for Dragon Palace!

“Internal strife?” Che Wei’s movement halted for a moment.

“Wait and see first, this might be their scheme!” Qin Ding Ling wanted to play safe, she got the immortals to gather.

Wu Shuai frowned, he moved Dragon Palace to retreat.

But Lady Cold Ash was faster!

She placed her palm at the top of Dragon Palace.

It seemed like a weak action but it made the entire Dragon Palace fly out like a cannonball.

At the same time, the silhouettes of immemorial soul beasts appeared on the surface of Dragon Palace.

Roar roar roar…

Each immemorial soul beast silhouette that flickered would deal a huge attack to Dragon Palace. After more than ten immemorial soul beasts appeared, there was already a huge hole at the top of Dragon Palace, the pillars broke and tiles cracked, it was a terrifying sight.

Che Wei watched with sweat on his forehead, he knew the power of Dragon Palace, but Lady Cold Ash had dealt such damage to it with just one palm strike.

“So Lady Cold Ash is actually so strong! I was simply courting death earlier by attacking her.” Che Wei immediately changed directions as he retreated.

“Lady Cold Ash, what are you doing?!” Xiao He Jian shouted.

“What soul path killer move is this, it has such power…” Even though Ice Crystal Immortal Monarch showed an angry expression, he was enveloped in cold sweat.

Dragon Palace was still retreating.

“Can you escape?” Lady Cold Ash smiled coldly, she was about to attack again when a huge shadow enshrouded her body.

Lady Cold Ash turned back to take a look, she saw Qing Chou, having the size of a mountain, it had gotten close to her at some point, opening its bloodthirsty mouth as it tried to devour her.

“Hmm?” Seeing this, even Lady Cold Ash’s gaze froze for a second.

Spectral Soul was aware of Qing Chou's existence. But he did not expect to meet Qing Chou at this place and time.

Seeing that Lady Cold Ash was about to die, suddenly, her body turned into black smoke as she drifted away, dodging Qing Chou's attack.

"Beast, scram!" Lady Cold Ash shouted, she stretched out her hand and placed it on Qing Chou's head.

The scene from earlier was seen again, immemorial soul beast silhouettes appeared around Qing Chou as they flickered.

Bam bam bam…

Each time a silhouette appeared, an explosive sound would follow.

Qing Chou was soon covered in injuries but it did not retreat even in the danger of death!

Spectral Soul was just about to chase after Dragon Palace when Qing Chou blocked his path again.

"Spectral Soul, I will kill you, I will kill you!" Qing Chou shouted as it pounced at Lady Cold Ash.

Spectral Soul was enraged: "I have no time to waste with you."

He controlled Lady Cold Ash's body as he prepared a terrifying killer move. Black smoke started to come out of Lady Cold Ash's seven orifices, her aura was growing at a terrifying manner.

Black smoke gathered and moved towards Qing Chou.

Qing Chou's offensive killer move went into the black smoke.

After a breath's time, the black smoke scattered, Qing Chou's killer move landed on Lady Cold Ash without becoming weaker at all.

Lady Cold Ash's expression turned to shock, she was sent flying after being caught off guard.

“Rank nine Immortal Gu? No, just an incomplete product.” Lady Cold Ash swallowed a mouthful of blood, she squinted her eyes and looked at Qing Chou, her expression was stern.

Nine Spiritual Fairy had just arrived in the battlefield, her pupils shrunk: “I did not sense wrongly, rank eight hatred Gu is going to become rank nine!”

“Qing Chou originated from the souls that Spectral Soul slaughtered. The core Immortal Gu that created Qing Chou was hatred Gu, but hatred Gu and Qing Chou had an extraordinary connection. Not only did hatred Gu create Qing Chou, Qing Chou is also nourishing and nurturing hatred Gu.”

“Maybe hatred Gu was just rank six, or even four or five at the start. But as Qing Chou grew, its endless hatred allowed hatred Gu to continuously grow until now. It is already moving from rank eight to rank nine!”

Rank nine hatred Gu!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2030 - Spectral Soul“s Demonic Migh

2030 Spectral Soul“s Demonic Migh

What was this situation?

Seeing that Lady Cold Ash got sent flying by Qing Chou, the immortals present were stunned.

The rank nine Immortal Gu aura was not fake, but it was too weak, the main part of the aura was still at the level of rank eight Immortal Gu. This was something that was unheard of.

An incomplete rank nine Immortal Gu?

All the immortals were bewildered.

Gu refinement had always been a strict process, be they human or hairy man refinement methods, they had their specifications.

This was true for both Fang Yuan and Long Hair Ancestor. There had never been a case where a Gu worm could still be used in battle during refinement.

But the truth was in front of them, the immortals had to admit the fact.

“What refinement method is this?” Many Gu Immortals became quite excited: “This will start a new trend of refinement path!”

“Spectral Soul? Qing Chou possesses hatred Gu, it should not be wrong. To think that Lady Cold Ash’s body was actually taken over by Spectral Soul.”

“Seeing what Spectral Soul said, it seems that Fang Yuan is here too, hiding in Dragon Palace?”

The Gu Immortals were startled and puzzled.

Too many unexpected incidents had happened in this battle. Heavenly Court, the two heavens, Spectral Soul, and Fang Yuan all had their own plans, nobody knew the entire situation clearly. Even though Fang Yuan was reborn, he was the same.

Spectral Soul’s identity was exposed, Fang Yuan felt quite relieved about it.

Dragon Palace retreated even more quickly. Wu Shuai recalled the three dragon generals, at the same time, the Gu Immortals of the two heavens alliance guarded Dragon Palace against Spectral Soul.

Wu Shuai did not dare to risk letting the immortals of the two heavens alliance into his Dragon Palace, the appearance of Spectral Soul made everyone else suspicious as well.

“I can’t wait anymore…” Qi Sea Ancestor (Fang Yuan) gritted his teeth before activating his hidden method. He was originally intending to wait some more, but with Spectral Soul’s appearance and Qing Chou’s assault, he understood that the situation was out of his control, he needed to act quickly!

Fang Yuan immediately contacted Qin Ding Ling: “The modification has some results, protect me well, we will go into the critical period now!”

“Understood!” Joy flashed on Qin Ding Ling’s face, this was the best news she had heard since the battle started.

Heavenly Court’s Gu Immortals shrunk back to form a tight defensive circle, they defended against Spectral Soul and Wu Shuai’s Dragon Palace.

Roar—!

Qing Chou charged towards Lady Cold Ash.

Hatred Gu's rank nine aura was getting stronger, it seemed like Spectral Soul's appearance had summoned the deepest hatred in Qing Chou's heart, this intense feeling of hatred was rapidly helping to refine hatred Gu.

Hatred Gu activated, amplifying Qing Chou's strength comprehensively. Especially offensive killer moves, their might was increased to a terrifying level.

Spectral Soul and Qing Chou fought, he actually got suppressed for some time.

The killing intent on his face became denser, after a few rounds, he spat out a mouthful of black qi.

The black qi was small and insignificant, but once it flew towards Qing Chou, it made Qing Chou's movements slow, its attacks were no longer rapid.

Spectral Soul's body shook, turning into countless phantoms and surrounded Qing Chou tightly.

Qing Chou possessed hatred Gu, it should be able to find out the real Spectral Soul. But against the countless Spectral Souls, it showed a confused expression, having lost its target.

Spectral Soul's main body suddenly appeared on the back of Qing Chou, he stretched out his palm and his entire forearm was stabbed into Qing Chou's body.

Qing Chou's body started to shiver, it felt extreme pain as it raised its head and roared!

Qing Chou unleashed immortal killer moves consecutively, ignoring its own state as it assaulted Spectral Soul who was on its back.

Spectral Soul endured the endless assault but continued to sustain his current method.

Qing Chou fell on the ground, with a loud sound, the earth rumbled, a huge pit was created.

Qing Chou rolled on the ground, it was unable to shrug off Spectral Soul.

“Oh no, he is trying to refine Qing Chou!” Qin Ding Ling saw what was happening, her heart jumped, she wanted to order the Gu Immortals to disrupt Spectral Soul.

But Wu Shuai moved one step earlier.

Dragon Palace unleashed dreamy light smoke as a cloud of pink smoke flew towards Spectral Soul.

Spectral Soul was not afraid of other methods but dream path methods were still threatening.

He had no choice but to stop and retreat for now.

Qing Chou regained freedom as a result but it was very weak, it almost fell to the ground.

In contrast, Spectral Soul flew to the sky with an increased aura. Evidently, the method used against Qing Chou earlier was not just enslavement, it also had a special ability to extract its strength.

Seeing this, almost all the Gu Immortals’ hearts sank.

Qing Chou has a quasi-rank nine hatred Gu, its battle strength rose drastically, reaching the levels of Fang Yuan, Duke Long, and Feng Jiu Ge during the fate war, but it was ineffective against Spectral Soul.

Other than catching Spectral Soul off guard initially, once he was prepared, Qing Chou got easily countered afterwards.

In the end, Qing Chou was still an immemorial soul beast, it was against Spectral Soul, who was primarily a soul path cultivator and had the deepest knowledge of this. Spectral Soul had a bunch of methods to counter immemorial soul beasts, in fact, the reason for the creation of soul beasts was Spectral Soul himself.

“What a pity, I was so close to enslaving this legendary desolate beast. Hmph! Fang Yuan, you are courting death.” Spectral Soul’s plan was foiled, he emanated killing intent with a cold expression, attacking Dragon Palace again.

The two sides fought again, Wu Shuai put in all his effort but he could not resist Spectral Soul’s methods, he was forced to retreat.

Spectral Soul’s demonic might was overwhelming, he dominated the entire battlefield without difficulty. Dragon Palace, which was showing great performance earlier, could not defend against his unparalleled power.

His killer moves were endless, they either had great strength or peculiar effects, they were all hard to defend against.

Spectral Soul had already recovered, even though he was not at the level when he refined sovereign immortal fetus Gu on Yi Tian Mountain, he had mostly regained his strength.

Wu Shuai controlled Dragon Palace to fight against Spectral Soul, during this time, Qing Chou and the rest also interfered, but they were all suppressed, the situation was getting increasingly dangerous.

After more than ten rounds of fighting, Dragon Palace was heavily damaged, the three dragon generals all died at Spectral Soul’s hands. Thankfully, there was the killer move dreamy light smoke that Spectral Soul was worried about.

The Gu Immortals of the two heavens alliance could not be depended on, they all hid at one side. Spectral Soul’s might was too terrifying, whoever got close would die.

“The time is about ripe.” Wu Shuai finally received the instructions from his main body.

He let out a breath of air, driving Dragon Palace towards the qi harvest fruit.

Qin Ding Ling and the rest had formed into a defensive line, they became alarmed, they shot out endless profound lights.

Wu Shuai shouted: “Heavenly Court, if you still refuse to take action, after Spectral Soul kills me, you will all die as well.”

Qin Ding Ling retorted: “Stop right now, whoever comes here will face our full-on assault!”

During the fight between Spectral Soul and Dragon Palace, Heavenly Court had been watching at the side, not doing anything. Qin Ding Ling and the rest were waiting for Fang Yuan, as long as he stayed motionless, they would not attack. Nobody knew what vile schemes this demon Fang Yuan was preparing after all!

Wu Shuai did not care, he steered Dragon Palace to get close to Heavenly Court’s defensive line.

Behind him, Spectral Soul chased relentlessly.

Qin Ding Ling’s expression was grim, she ordered: “Attack Dragon Palace, force it back!”

Rumble…

All sorts of killer moves landed on Dragon Palace, creating beautiful ripples of various colors in the sky. Dragon Palace was like a crumbling boat, riding against the dangerous waves.

Large numbers of Gu worms died, including Immortal Gu.

This battle caused severe losses to Dragon Palace, the price to repair it would be extremely high.

“Oh no, it is getting close!”

They watched as Dragon Palace almost went past Heavenly Court’s defensive line, at the crucial moment, Shabi Ninety-five and Ruan Dan came out to block Dragon Palace despite the danger.

But soon, Spectral Soul also arrived, chaos ensued.

“Die!” Spectral Soul’s killing intent surged, he soon gained the upper hand.

Heavenly Court's defensive line was collapsing.

Right at this moment, Qi Sea Ancestor's laughter could be heard.

Swish swish swish!

The originally condensed qi harvest fruit exploded into a tsunami, engulfing heaven and earth, clouds and winds raged, at once, the entire battlefield was filled with qi currents over a massive range.

At once, all the Gu Immortals lost their sense of direction, they could only see white qi in front of them, they could not even see their own fingers.

At the center of the qi currents, there was a baby shape gathering, it devoured the white qi.

In a few breaths of time, the baby grew rapidly, turning old as it became Qi Sea Ancestor's appearance, having rank eight cultivation level!

Fang Yuan's main body flickered, he waved his sleeves, a split soul that was prepared in advance flew out, carrying Gu worms and immortal essence into Qi Sea Ancestor's body.

After the split soul arrived, the Qi Sea clone opened his eyes.

While Fang Yuan's main body used the opportunity to enter Dragon Palace.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2031 - Chasing, Escaping

2031 Chasing, Escaping

Fang Yuan had always taken action after planning, even though this venture to Heavenly Court was dangerous, he had made ample preparations.

He refined Heavenly Court's qi harvest fruit into his qi path clone, while the main body went into Dragon Palace at this very moment. Even though there were many Gu Immortals in the battlefield, nobody found out the truth.

Fang Yuan's qi path clone breathed in deeply, all of the white qi got absorbed into his body.

Next, he pushed with both arms as a thunderous sound occurred, a dense qi wall formed and pushed towards Dragon Palace and Spectral Soul with overwhelming might.

Spectral Soul's eyes shined with bright light, black qi burst out of his body and crashed into the qi wall, emitting a loud sound.

The qi wall was corroded but the surrounding qi wall came to fill it up again. Spectral Soul made use of this timing to turn into black light and penetrate through it like a flash of lightning.

A portion of Spectral Soul's focus was kept on Qi Sea Ancestor, while most of his attention remained on Dragon Palace.

Dragon Palace was huge, it would not be easy to pass the qi wall.

Once Dragon Palace exposed a weakness while resisting the qi wall, Spectral Soul would take action and make use of Qi Sea Ancestor's killer move to deal a huge blow to Dragon Palace.

Right when the qi wall was about to crash into Dragon Palace, its door opened, Fang Yuan stood upright, appearing in front of everyone.

Immortal killer move — Unlimited Qi Sea!

Fang Yuan was already well prepared, he raised his right arm now as he grabbed towards the qi wall with his five fingers.

The colossal qi wall shook as it collapsed, countless qi currents were drawn by a formless force, going into Fang Yuan's immortal aperture.

"Fang Yuan!"

"He was here after all."

"This move again! During the fate war, he used this move to unravel primordial qi wall!"

The immortals saw Fang Yuan's appearance as all of them shook.

Heavenly Court's Gu Immortals were all ashen, after they lost the fate war, Fang Yuan had turned into a nightmare that shrouded over their minds.

The two heavens alliance's Gu Immortals were joyful instead. Seeing Fang Yuan's action, it was clear that he was on their side.

Spectral Soul's pupils shrunk, Fang Yuan's performance was quite shocking. He was troubled by the heaven path dao marks after all, how could he still display such immense battle strength?

The entire battlefield fell into peculiar silence.

Fang Yuan and Qi Sea Ancestor appeared at the same time, the entire battlefield's situation was turned around in an instant.

Heavenly Court protected Qi Sea Ancestor, Spectral Soul was alone, while Fang Yuan was standing in front of Dragon Palace, the three strongest Gu Immortals prepared to face off against each other.

In the Gu world, strength reigned supreme, the following battle would depend on these three people.

“To think that this day would come when Heavenly Court fails to be the leader of this confrontation.” Qin Ding Ling sighed in her heart as she transmitted to Qi Sea Ancestor, asking about his condition.

Qi Sea Ancestor immediately replied: “Even though I got rid of the qi harvest fruit, I suffered considerable injuries. I will need everyone from Heavenly Court to work together to survive this crisis.”

Qin Ding Ling said again: “Heavenly Court’s greatest threat was resolved thanks to you, ancestor. After we survive this, Heavenly Court will definitely reward you satisfactorily!”

Qin Ding Ling was trying very hard to gain Qi Sea Ancestor’s help, at this moment, Dragon Palace flew out like an orange meteor towards the sky!

After this catastrophic battle, Heavenly Court was completely covered in holes. Dragon Palace escaped along one of these loopholes, easily leaving Heavenly Court and entering immemorial white heaven.

The remaining immortals looked at Dragon Palace’s figure with stunned expressions.

Even though Fang Yuan appeared and cooperated with Wu Shuai, the two of them had actually escaped.

Was this the showing of the number one demon?

“It seems that Fang Yuan has not recovered.”

“Even though that move was ferocious and broke Qi Sea Ancestor’s qi wall killer move earlier, he was likely at his limit!”

“Do we chase them? This demon Fang Yuan is too crafty, I am afraid that this is just his plan to lure us out. He might have an immortal formation outside lying in ambush, waiting for us to head into his trap.”

The Heavenly Court Gu Immortals hesitated while the two heavens alliance Gu Immortals cursed in their hearts.

The expert and leader that they placed their hopes and morale on had actually escaped, they fled so quickly!

All of these two heavens alliance Gu Immortals were left in Heavenly Court, they were abandoned.

“Fang Yuan, where are you running to? Die here and now.” Spectral Soul snickered as he used Lady Cold Ash’s body to rush out of Heavenly Court, chasing after Dragon Palace.

Roar—!

Qing Chou roared, it was gradually recovering the strength that it lost, even though the rank nine aura of its hatred Gu was not complete, it was already much denser than before.

“Spectral Soul, I want you to die!” Qing Chou, who had unresolvable hatred, did not hesitate, it chased after Spectral Soul.

Thus, in the battlefield, only Heavenly Court’s immortals, Qi Sea Ancestor, and the two heavens alliance’s Gu Immortals were left.

Ice Crystal Immortal Monarch and Xiao He Jian looked at each other.

They were in an awkward situation now!

“We will chase them!”

“Protect Dragon Palace!!”

Ice Crystal Immortal Monarch and Xiao He Jian worked together for the first time, they shouted something that they did not believe in as they charged out of Heavenly Court.

The remaining two heavens alliance Gu Immortals followed after them, shouting and jeering as they also went out of Heavenly Court along with the two vice alliance leaders.

“Are we going to kill these variant human Gu Immortals?” Prince Feng Xian asked Qin Ding Ling.

Qin Ding Ling looked towards Qi Sea Ancestor, she thought about it before saying resolutely: “No! These variant human Gu Immortals are just minor problems, the most important thing is Fang Yuan. Two people will stay behind to take care of the place, the rest will follow me to pursue and kill Fang Yuan!!”

Fang Yuan was not in good condition now, it was the best time to kill him.

If they manage to kill Fang Yuan, the loot they could gain would be extremely favorable to Heavenly Court. Fang Yuan had too many good things, he had countless Immortal Gu and exceptional inheritances. Even without them, as long as they could capture his soul and extract the memories of his previous life, it would be incredibly precious to Heavenly Court!

In fact, even if Heavenly Court gets nothing from killing Fang Yuan, just the fact that he died at their hands would allow Heavenly Court to regain their morale, they would break free of the trauma of the fate war, they would be at the top of the world again.

“Even if we cannot kill Fang Yuan, we cannot let Spectral Soul kill Fang Yuan!” Furthermore, Qin Ding Ling was also wary of that old monster Spectral Soul.

“Ancestor…” Qin Ding Ling was about to speak when Qi Sea Ancestor interrupted her.

“No need to say anything, be it Spectral Soul or Fang Yuan, they are both demons, us righteous path members should execute them all. Time is pressing, our opportunity is slipping, we need to chase them now!” At the crucial moment, Qi Sea Ancestor displayed the demeanor of a heroic leader of the righteous path!

The Heavenly Court immortals felt much closer to him after hearing that.

Qin Ding Ling nodded gravely, without Qi Sea Ancestor’s help, they would not be able to chase Fang Yuan safely.

“The main body’s situation is strange, I need to look after him. These Heavenly Court Gu Immortals are much better cannon fodder than those two heavens alliance immortals!” Qi Sea Ancestor made his plan internally, leading the Heavenly Court immortals as they chased.

This way, Dragon Palace was at the front, followed by Spectral Soul, who was getting closer.

Followed by Qing Chou.

Followed by Qi Sea Ancestor and the Heavenly Court immortals.

As for the two vice alliance leaders of the two heavens alliance, they had already escaped from Heavenly Court with the other immortals, they scattered all over the place thinking only of escaping, nobody dared to join this battle anymore.

At this moment, Dragon Palace was still tightly shut.

Fang Yuan sat on the ground, modifying the two killer moves, heaven-human sensation and human executing heaven’s work.

Fang Yuan lacked more than half of the Gu worms needed for these killer moves. He had to modify the moves and swap out the Gu worms so that he could use these moves.

Immortal Gu were unique, these two killer moves were newly obtained, Fang Yuan had quite a bit of difficulty in the modification.

After attempting it for some time, Fang Yuan changed his tactic, he gave up on the Immortal Gu level and targeted the aspect of a mortal killer move.

Fang Yuan connected to treasure yellow heaven and soon gathered the relevant mortal Gu worms. With the necessary Gu worms and after modifying the move from an immortal killer move to a mortal killer move, the difficult became nearly nonexistent.

With these two mortal killer moves, Fang Yuan stopped the formation in the sovereign immortal aperture, no longer using qi tides to cleanse the immortal aperture’s nine heavens and five regions.

Soon, heaven’s will was produced.

Fang Yuan sent a portion of his will towards the heaven’s will.

Next, he activated the killer move heaven-human sensation, Fang Yuan fused into the heaven’s will.

After that, he activated human executing heaven’s work.

After a while.

Fang Yuan’s eyes shined with bright light: “I sensed… a certain group of heaven path dao marks!”

If he had to replace the word ‘sensed’, Fang Yuan would choose another word, caught.

Originally, Fang Yuan knew about the heaven path dao marks in his body, but he could only let them be. But now, when he could sense them, it meant that these heaven path dao marks were under his control temporarily.

With this crucial breakthrough and Fang Yuan’s expertise in Gu refinement, it was only a matter of time until he refined all of these heaven path dao marks into his own.

Chapter 2032 - Target, Crazed Demon Cave

2032 Target, Crazed Demon Cave

Rumble!

With a loud sound, Dragon Palace shook intensely from the impact, a large portion of its roof cracked and fell. While falling, these fragments turned into Gu worm corpses, scattered by the intense winds in the sky.

Spectral Soul had caught up!

He was extremely fast, even though Wu Shuai was moving Dragon Palace at top speed, he could not reach Spectral Soul's speed.

Spectral Soul's body was covered in pitch black smoke, each time he attacked, Dragon Palace suffered great damage.

Wu Shuai had to put in his effort to repair it, thankfully, he had many Gu worms in his storage, he was amply prepared.

Fang Yuan frowned tightly, his expression was slightly grim.

He came to Heavenly Court using Qi Sea Ancestor's identity to find a way to resolve his heaven path dao mark problem. Once his goal was achieved, he chose to retreat, Fang Yuan had never cared about the title of the number one demon.

However, even though Fang Yuan got what he wanted, he needed time now, what he lacked was sufficient time to execute his plan.

“Now, Spectral Soul is chasing after me, Heavenly Court will do the same, these people will not let me retreat easily. It is very difficult to escape from this situation!”

Fang Yuan’s movement ability had always been improving. Long ago, his strongest movement method was the killer move sword escape after transforming into an ancient sword dragon. After that was Omni-directional Travel, followed by Fixed Immortal Travel and the killer move comprising Fixed Immortal Travel as the core.

But among these methods, even Omni-directional Travel could not match Spectral Soul’s speed. Fixed Immortal Travel’s killer move might be usable but Fang Yuan was very weak now from the disturbance of the heaven path dao marks.

There was still some time until Fang Yuan could resolve this disturbance and fully refine the heaven path dao marks.

Fang Yuan tried to think about it from another perspective, be they Spectral Soul or Heavenly Court, they wanted him dead. The former used all of his accumulations to refine sovereign immortal fetus Gu but Fang Yuan snatched it away. The latter’s headquarters were ravaged by Fang Yuan, their biggest pillar of support, fate Gu, was also destroyed by him. Heavenly Court was the leader of the righteous path, they cared about reputation, but in the fate war, Fang Yuan destroyed their reputation.

Before now, Heavenly Court could not find Fang Yuan so they did not do anything to him. In the future, when he recovered his strength, they would also be unable to deal with him.

Now that Heavenly Court found Fang Yuan, they would definitely try their best to kill him!

Such opportunities seldom knock twice, they could not let this chance slip by.

Fang Yuan knew about his circumstances clearly, thoughts collided in his mind continuously as he tried to find a solution for this problem.

But soon, his expression changed.

The heaven path dao marks on his body started to transform again, causing problems, their disturbance became stronger by several times.

When dealing with the qi wall earlier, even though Fang Yuan caused a huge scene, he was actually cooperating with Qi Sea Ancestor secretly, his true battle strength was not as it appeared.

But just this much, with Fang Yuan secretly using human path methods to counter the interruption of the heaven path dao marks, was already the greatest limit.

Externally, Spectral Soul was attacking Dragon Palace furiously, the walls were cracking, tiles were sent flying all over the place. Internally, the heaven path dao marks were wreaking havoc in his body, preventing Fang Yuan from doing anything.

The situation was dangerous, even surpassing the fate war. After all, Fang Yuan could still use Spring Autumn Cicada then, but now, this greatest trump card was unusable.

Fang Yuan could not rebirth, if he made a mistake now, he would die a pitiful death.

Spectral Soul emanated deep killing intent, it pierced through Dragon Palace, Fang Yuan's hair stood on ends.

Fang Yuan's lips curled up, he had already made a decision —

Head to Crazed Demon Cave!

The heaven path dao marks were interfering with Fang Yuan, preventing him from using many killer moves. Even if he could use them, the effect would be very low.

Fang Yuan had to borrow external help to alleviate this crisis.

Any other location would not be very helpful to Fang Yuan. After all, Dragon Palace was the one escaping and moving at the front, if he entered a dangerous place, Dragon Palace would face the brunt of the danger. The pursuer would benefit instead, Spectral Soul would have an easier time.

But Crazed Demon Cave was different. At the lower levels of Crazed Demon Cave, Fang Yuan could use the sovereign immortal body to travel to the next layer quickly, the rest would all be stopped in their tracks.

As for whether Spectral Soul could pass through, Fang Yuan did not know, but it was worth a gamble. Spectral Soul was not in perfect condition after all, he also did not have the sovereign immortal body!

“Even if Spectral Soul can forcefully make his way through, his battle strength would suffer. The lower layers are also extremely huge and mysterious, I can definitely stall for time against Spectral Soul in there.”

Fang Yuan made up his mind, he immediately moved Dragon Palace in another direction, towards the north.

As for Wu Shuai, he focused on repairing Dragon Palace.

Spectral Soul saw that Dragon Palace was escaping, he breathed in deeply before rapidly approaching it.

He extended his hand and landed on Dragon Palace. Next, countless immemorial soul beast silhouettes flickered, each time they attacked, a piece of Dragon Palace’s walls shattered.

After an entire round of attacks, several pillars holding up Dragon Palace had cracks emerging.

Wu Shuai had a solemn expression: “Oh no, this killer move is extremely powerful, it can attack the Immortal Gu House both internally and externally. The core Immortal Gu of Dragon Palace are quite damaged!”

Fang Yuan’s main body squinted his eyes, Dragon Palace’s door was shut but his vision was unobstructed, he could see the situation outside.

Fang Yuan said calmly: “Spectral Soul used this soul path killer move earlier, but it is much stronger now. Evidently, he has modified it during this bit of time!”

This was truly terrifying.

Spectral Soul had great strength, even though he was no longer rank nine, he was definitely at Duke Long’s level of battle strength.

Even though he lost most of his attainment levels, it seemed that soul path did not fall by too much.

Even though Spectral Soul had only fought Dragon Palace for a short while, he had already comprehended the weaknesses of Dragon Palace, he could modify his killer moves to show much greater effect.

Furthermore, Spectral Soul had abundant battle experience, far deeper than Fang Yuan, during his era, he was renowned for killing everything in his way in the entire world!

After several more rounds, Dragon Palace could not resist Spectral Soul anymore, Fang Yuan sighed as he sent out another Immortal Gu House.

It was a silver-white ship with a long and thin body, it flew like a flying sword with silver light shining around it, stabbing towards Spectral Soul.

It was Myriad Year Flying Warship.

Spectral Soul moved in a flicker and dodged it easily.

Myriad Year Flying Warship turned around and used a killer move, targeting Spectral Soul.

At once, Dragon Palace tried to escape while Myriad Year Flying Warship helped to defend it. Spectral Soul chased after them with immense demonic might, the winds and clouds were raging around him.

Fang Yuan’s main body was disrupted by the heaven path dao marks, but because Immortal Gu Houses were individual structures, they were not restricted by this problem.

As long as the Immortal Gu House had Fang Yuan's will and immortal essence, Myriad Year Flying Warship could still continue to fight.

However, Spectral Soul had formidable strength and all sorts of killer moves, not only were they strong and hard to defend against, they mostly had peculiar effects and easily overwhelmed Fang Yuan's efforts, allowing Spectral Soul to firmly control this situation.

Even with the power of two rank eight Immortal Gu Houses, he was not Spectral Soul's match.

"Most importantly, the Twelve Zodiac battle formation was completely destroyed during the fate war. Otherwise, with the combination of Twelve Zodiac battle formation and Myriad Year Flying Warship, even Spectral Soul would have some problems against them."

Fang Yuan considered the situation and did not change his plan, he still focused on escaping.

After getting the heaven path research results, Fang Yuan just needed time to gather his advantage. As long as he survives this problem, after he resolved the problem of the heaven path dao marks, it would be Fang Yuan's turn to shine.

Spectral Soul was going all-out on offense. In his opinion, this was the best opportunity to kill Fang Yuan and reclaim the sovereign immortal body. Not just the sovereign immortal body, he could also get the dream realms that Fang Yuan obtained. Spectral Soul would be able to regain all of his attainment levels as a result.

In this world, what could allow Spectral Soul to rapidly regain his strength? Undoubtedly, it was Fang Yuan! Fang Yuan was simply a moving treasure chest in Spectral Soul's eyes.

"Spectral Soul, die! I want you to die!!" Qing Chou approached him with wind and lightning surrounding it.

Myriad Year Flying Warship and Dragon Palace fought against Spectral Soul while moving, they could not travel quickly. Thus, Qing Chou caught up to them.

Qing Chou's eyes were blood red, its face was distorted in a terrifying manner, it only cared about Spectral Soul!

In just this period of time, the rank nine aura of the hatred Gu within it got denser again, it was quite shocking to see.

Qing Chou got stronger again!

It growled, a human-faced lightning ball flew out of its throat.

The lightning ball was extremely fast, green-black in color, it was eerie and icy, moving without a sound.

Spectral Soul waved his hand, a giant whip made of black fog appeared, seeking to send the lightning ball flying.

But the face on the lightning ball snickered as it raised its speed, avoiding the whip as it approached Spectral Soul.

Spectral Soul was about to use another killer move when the lightning ball self-detonated.

Rumble!

The might of the explosion was terrifying, Spectral Soul was sent flying far away.

The range of the explosion was wide, even Dragon Palace and Myriad Year Flying Warship were not spared, they both suffered some damage.

Qing Chou endured the aftermath of the explosion as it approached Spectral Soul relentlessly.

"This senseless beast!" After being disrupted for multiple times, Spectral Soul felt deeply enraged.

Fang Yuan used the chance to flee.

Spectral Soul saw Dragon Palace's movement and became even more angry: "Little scoundrel, don't think of escaping!"

Dragon Palace's speed fell instantly.

At the areas where Dragon Palace was damaged, black smoke appeared and lowered its speed severely.

"What killer move is this? When did Spectral Soul use it?" Fang Yuan was shocked, at once, he had an idea of moving into Myriad Year Flying Warship instead.

But regrettably, black smoke also appeared on Myriad Year Flying Warship, it moved slowly too.

The black smoke faded away very quickly but Spectral Soul also regained his momentum, after forcing Qing Chou away, he approached Dragon Palace again.

At once, the three parties engaged in a chaotic battle.

Fang Yuan wanted to shrug off Spectral Soul but Qing Chou was overwhelmed with rage, it did not have any intention to cooperate with him.

Qing Chou only wanted to take revenge on Spectral Soul, it did not care about Fang Yuan, almost all of its moves also implicated Dragon Palace. At times, to protect himself, Fang Yuan had to fight Qing Chou as well.

After some time, Spectral Soul regained the upper hand again.

Even though he was just the soul of Spectral Soul Demon Venerable, his battle strength was extremely high, he also fought differently from Duke Long's dominance, he was more skilled at using ruthless attacks with piercing killing intent, he was vicious and maniacal.

But he had a terrifyingly clear understanding of the situation, he often made use of his opponent's methods to make them cancel out each other's moves.

Spectral Soul slowly attacked less and less, but in this chaotic fight, his advantage was rising bit by bit.

After noticing this, even Fang Yuan's heart was turning cold.

Chapter 2033 - Chaotic Battle

2033 Chaotic Battle

“In terms of battle experience, I cannot compare to Spectral Soul!” During the three way chaotic battle, Fang Yuan sensed the difference between him and his enemy. Even though he had been reborn many times, in terms of total battle experience, Fang Yuan could not compare to a venerable.

“The main problem is that Qing Chou is not being logical, even though it attacks ferociously, it ignores its own condition, Spectral Soul made use of it many times. If this were a conscious Qing Chou, the battle would not be like this.”

Fang Yuan felt the situation was unfortunate in his heart. Even though hatred Gu was progressing towards rank nine and Qing Chou was getting stronger, without any wisdom, no matter how strong it was, it was still toyed around by Spectral Soul.

Even after using Dragon Palace and Myriad Year Flying Warship, Fang Yuan still felt helpless. This was something that had never happened before.

Fang Yuan was still focusing on retreating, he fought while escaping.

Even though he was the weaker side now, as long as Spectral Soul could not activate a battlefield killer move to trap him, Fang Yuan was still free to escape.

Dragon Palace was the first to break through the heavenly wind qi wall, heading towards Central Continent. Myriad Year Flying Warship did its best to protect it.

Spectral Soul moved behind like a trail of black smoke, following after them closely.

Behind them were Qing Chou's colossal body, crashing through the qi wall and leaving immemorial white heaven, reaching Central Continent.

Qi Sea Ancestor, Qin Ding Ling, and the rest had all left Heavenly Court, they were chasing behind.

When they found that Fang Yuan and the rest had entered Central Continent, Heavenly Court's immortals became anxious.

"This scoundrel Fang Yuan could've traveled through the vast immemorial white heaven but he chose to go to Central Continent. Since he is in trouble, he wants to implicate the innocent people as well, he truly deserves a pitiful death!"

Qi Sea Ancestor snorted coldly: "Fang Yuan has been a problem for too long, if we can kill him this time, it would be the fortune of the people in the world."

As he said that, he used a secret method to tell the main body about their movement.

Fang Yuan immediately understood that Heavenly Court's pursuers were arriving soon. But he had no solution, his speed was greatly dragged down by Spectral Soul.

When Heavenly Court's group arrived, they found that Spectral Soul was suppressing Fang Yuan and Qing Chou.

Qin Ding Ling frowned as she hesitated, telling Qi Sea Ancestor: "Ancestor, please deal with Fang Yuan, kill him with your full strength."

But how could Qi Sea Ancestor attack the main body, he pondered and said: "In this situation, Fang Yuan is weak while Spectral Soul is strong. They are both demonic path overlords, if we deal with Fang Yuan and get hit by his final trump cards, Spectral Soul will be the eventual winner."

Qin Ding Ling shook her head: “Ancestor, you are not familiar with Fang Yuan, he is too crafty, he definitely has methods left unused. Maybe this situation is only a layer of his concealment, we need to kill him now, we cannot give him any opportunities.”

Qi Sea Ancestor: “…”

Heavenly Court had suffered too much at Fang Yuan’s hands, Qin Ding Ling’s wariness and fear towards Fang Yuan surpassed even Spectral Soul!

But thinking about it, when Spectral Soul Demon Venerable was invincible in the world, he did not deal so much damage to Heavenly Court compared to the current Fang Yuan. It was quite easy to understand how Qin Ding Ling and the others felt like this.

Qi Sea Ancestor could only ask the main body secretly, what were they going to do?

If there was no choice, Qi Sea Ancestor would have to expose himself and fight Spectral Soul so that the main body could escape.

Fang Yuan replied: “Don’t worry, let me try something first.”

Dragon Palace’s door opened, a Pure Dream Reality Seeker Physique body flew out.

Pure Dream Reality Seeker Physique flew towards Spectral Soul, the latter’s pupils shrank as he retreated immediately.

Bam.

The Pure Dream Reality Seeker Physique body self-detonated, turning into a large lump of dream realm that floated in the sky, turning into a barrier.

Dragon Palace and Myriad Year Flying Warship used this chance to pull some distance away from them.

Spectral Soul got around the dream realm as he chased again.

But Qing Chou could not think properly, it got trapped in the dream realm.

Roar—!

The aura of hatred Gu burst out of Qing Chou's body as it broke free from the dream realm, it chased after them again.

"This is?!"

"Qing Chou actually broke away from the dream realm, it was not trapped?"

"It's hatred Gu! u003cu003cThe Legends of Ren Zuu003eu003e has a vague description about it — hatred has no dreams!"

Fang Yuan was also quite shocked about this.

Qing Chou did not have any dream path methods but it used hatred Gu to break free. Dream path was ahead of the current era, it was unstoppable, but it could not stop Qing Chou's hatred Gu?

"Hatred has no dreams… or rather, against rank nine hatred Gu, the dream realm was not big enough?" Fang Yuan had a thought.

It was like the killer move dreamy light smoke, if it landed on Spectral Soul, it would only trap him for some time before he got free, Dragon Palace would shatter from the internal impact.

Dreamy light smoke was too weak against Spectral Soul, but if it rose to rank nine level, the situation would be different.

Even so, when Spectral Soul was attacked with dreamy light smoke, he would still dodge it without hesitation.

He was very fast, moving like a specter, in close distance, it was almost the same as teleportation, it was too hard for dreamy light smoke to hit him.

However, the good thing for Fang Yuan was that Spectral Soul could not deal with dream realms currently.

"I obtained the Pure Dream Reality Seeker Physique method from

Shadow Sect, Spectral Soul definitely knows about it. However, he lacks the crucial Immortal Gu, he cannot use relevant killer moves."

After sensing this, Fang Yuan immediately created many Pure Dream Reality Seeker Physique bodies and self-detonated them.

Bang bang bang bang.

In the blink of an eye, Dragon Palace and Myriad Year Flying Warship were surrounded by dream realms, there was no gap between them.

Spectral Soul snorted coldly, stopping his attacks.

"This Fang Yuan…" Qin Ding Ling gritted her teeth, Fang Yuan's method was too shameless, Heavenly Court had no way to deal with it.

"Be careful of Spectral Soul!" Qi Sea Ancestor reminded them.

Fang Yuan suddenly enclosed himself, Heavenly Court's members were in an awkward spot.

Spectral Soul looked at them coldly, Qi Sea Ancestor stood in front of them steadfastly.

Qing Chou growled angrily, it attacked Spectral Soul again without fear.

Spectral Soul said in displeasure: "Lowly beast! Since you want to die, I will grant you your wish."

His body vanished on the spot, at the next moment, he appeared on Qing Chou's back. But right when Spectral Soul was about to attack Qing Chou, a qi path killer move shot towards him.

Spectral Soul had no choice but to resist it, Qing Chou used the chance to move away, it spat out a human-faced lightning ball again, escaping danger.

Spectral Soul looked at Qi Sea Ancestor with a cold gaze. Earlier, Qi Sea Ancestor was the one who attacked him.

Qi Sea Ancestor looked at Spectral Soul warily, at the same time, he explained to Qin Ding Ling: “We cannot let Spectral Soul succeed. He seems to be able to absorb the power of the immemorial soul beast, is it possible for Heavenly Court to capture Qing Chou again?”

Qin Ding Ling sighed: “We have already lost the best opportunity. Qing Chou’s strength rose greatly, we need to find another opportunity in order to forcefully refine hatred Gu.”

Heavenly Court’s Gu Immortals did not blame Qi Sea Ancestor for making a move on his own, after all, what he did was very logical. From the Heavenly Court Gu Immortals’ perspective, Fang Yuan was trapped in the dream realm now, Qi Sea Ancestor was helping Qing Chou to attack Spectral Soul for the sake of Heavenly Court.

At the next moment, Spectral Soul attacked the Heavenly Court immortals.

Qing Chou followed closely behind him.

The three sided chaotic battle started again, but this time, Heavenly Court took the role of Fang Yuan.

Fang Yuan was temporarily safe, he only had to take note of the moving dream realms. To form a tight defense, he needed to self-detonate Pure Dream Reality Seeker Physique bodies to fix any gaps in his defensive line.

Immortal killer move — Yin-yang Great Killer Hands!

Rumble!

With a loud explosion, two huge hands, one black and one white, appeared out of nowhere.

The two hands were so large they could loom over heaven and earth, they had an intrinsic pattern, at this moment, they grabbed at Spectral Soul.

Spectral Soul suddenly shouted shrilly, when he appeared again, he was already right in front of Qi Sea Ancestor. At the center of the yin-yang hands where Spectral Soul was originally at, there was an immemorial soul beast.

Spectral Soul shot out a wave of black smoke that landed on Qi Sea Ancestor.

Immortal killer move — Heavenly Combat Cloak!

Qi Sea Ancestor retreated, heavenly combat cloak melted from the effect of the black smoke, but this strange move was blocked after all.

Even though Qi Sea Ancestor was a newly created clone of Fang Yuan's, he had incredible strength from originally being Heavenly Court's qi harvest fruit. With sufficient qi path Immortal Gu, his battle strength was not any lower than before.

Even so, Qi Sea Ancestor was suppressed by Spectral Soul, the situation was getting increasingly passive.

Qin Ding Ling led the Heavenly Court immortals to help Qi Sea Ancestor, she also ordered Spirit Affinity House to send Feng Jin Huang over to the fight.

Feng Jin Huang had dream path Immortal Gu, she could use pure dream reality seeker transformation to break Fang Yuan's defensive line.

Qin Ding Ling's target had always been Fang Yuan!

Fang Yuan's main body hid inside Dragon Palace as he watched the battle, using all of his time to refine as many heaven path dao marks as possible.

"Master, we have arrived!" During the chaotic battle, Fairy Zi Wei and Old Man Zheng Yuan led their group as they entered the battlefield.

Before Heavenly Court's Gu Immortals could react to it, far away, someone flew over as well.

"Let this old man join in the fun as well."

It was Demon Immortal Qi Jue!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2034 - Everyone Wants to Kill Fang Yuan

2034 Everyone Wants to Kill Fang Yuan

In this three sided chaotic battle, the appearance of Fairy Zi Wei's group and Demon Immortal Qi Jue made the situation increasingly complex.

"Go and block Heavenly Court." Spectral Soul ordered.

Fairy Zi Wei and Old Man Zheng Yuan quickly attacked with killer moves, the shining wave of attacks assaulted Qin Ding Ling and the rest with ferocity.

Other than Qi Sea Ancestor, Qin Ding Ling and the rest were all inside their Immortal Gu Houses, they were not afraid of Spectral Soul's reinforcements.

Heavenly Court's immortals were only furious, they were not angry about Fairy Zi Wei and Old Man Zheng Yuan's betrayal but the fact that he used a vicious method to enslave them.

Heavenly Court believed in Fairy Zi Wei's and Old Man Zheng Yuan's loyalty. They knew that it was because of Spectral Soul that they betrayed Heavenly Court.

Spectral Soul snickered: "How does it feel to fight against your former allies? It will be up to you to save them, if you miss this opportunity, you will likely never have another chance in the future."

Heavenly Court's immortals heard this, their attacks halted for a moment.

Qin Ding Ling had sharp brows, she frowned as she ordered: "Spectral Soul wants to make us unwilling to attack, he is stalling for time. Forget about Zi Wei's and Zheng Yuan's lives, killing them is the same as releasing them from this predicament!"

At the crucial moment, Qin Ding Ling displayed the foresight of a leader, she showed her resolute nature.

Spectral Soul heard this, he frowned lightly.

He started to act more quickly, attacking Qing Chou again.

Fighting against him, Qing Chou soon got suppressed.

"Stop him!" Seeing that Spectral Soul was trying the same thing again to extract Qing Chou's strength, Qin Ding Ling shouted: "Ancestor, please stop him!"

Even without her reminder, Qi Sea Ancestor had already flown towards Spectral Soul.

But at the next moment, a gush of qi currents flew out like a heavenly river, obstructing Qi Sea Ancestor.

Qi Sea Ancestor stopped his movement, he looked at the attacker: "Qi Jue!"

Demon Immortal Qi Jue smiled lightly, blocking his path: "Qi Sea, our previous battle was interrupted by Heavenly Court, that was not satisfying. Let us fight fairly this time."

The hearts of Heavenly Court's immortals sank.

At the crucial moment, Demon Immortal Qi Jue actually came to help Spectral Soul!

What sort of agreement did they make?

Fairy Zi Wei was surprised too, Demon Immortal Qi Jue was definitely an unexpectedly strong reinforcement!

Purple light flickered in her eyes as she realized: “Long ago, Demon Immortal Qi Jue had already started buying all sorts of inheritances in treasure yellow heaven of various paths. He is from the Olden Antiquity Era, he revived after the destruction of fate Gu. Using these inheritances, he can catch up to the current great era!”

“The reason why Qi Jue is helping us is likely because master made a deal with him, he sold a large number of inheritances.”

Fairy Zi Wei made an accurate guess.

Even though Demon Immortal Qi Jue did not expose his identity in treasure yellow heaven, he did not conceal himself either, his intentions were clearly known to everyone.

Since Heavenly Court could notice Demon Immortal Qi Jue’s actions, why wouldn’t Spectral Soul?

Because of historical reasons, Demon Immortal Qi Jue would not cooperate with Heavenly Court. But Spectral Soul was also in the demonic path, he had a vast number of inheritances, he was the most ideal person to transact with Qi Jue.

“Fang Yuan, you cannot escape today.” Spectral Soul smiled coldly, he arrived at Qing Chou’s back again.

At the next moment, he attacked!

Qing Chou growled angrily but its strength was being absorbed by Spectral Soul. As an immemorial soul beast, even with the quasi-rank nine hatred Gu, Qing Chou was completely countered by Spectral Soul.

Qing Chou’s aura fell greatly while Spectral Soul became more energized and lively.

After he finished his absorption, he kicked, Qing Chou fell towards the ground.

Next, he charged towards Fang Yuan at lightning speed.

Immortal killer move — Pure Dream Reality Seeker Transformation!

The dream realms surrounding Dragon Palace had a huge chunk missing, they turned into Pure Dream Reality Seeker Physique bodies as they flew into Spectral Soul's immortal aperture.

Spectral Soul actually had enough Immortal Gu to unleash the killer move, pure dream reality seeker transformation!

He had purposely let Fang Yuan go earlier without using this move, now that he got rid of Qing Chou, he let his reinforcements block Heavenly Court and Qi Sea Ancestor while he finally went after Fang Yuan!

All the immortals were shaken.

The battle had been in Spectral Soul's grasp since the start.

In history, Spectral Soul was renowned for his killing intent, but that did not mean that he could only kill to solve his problems. He was aloof, crafty, and vicious, but when he was alive, he had no need to use any of these methods, his own strength was sufficient to kill all problems.

But now that Spectral Soul's strength was not much higher than his enemies, he started to use various methods to complement his battle strength.

At once, a large number of dream realms were reclaimed by Spectral Soul.

Fairy Zi Wei and the rest fought against Heavenly Court while Qi Sea Ancestor battled Demon Immortal Qi Jue, facing a disadvantage.

Demon Immortal Qi Jue had the secluded domain of heaven and earth, 'Xi', he resisted Qi Sea Ancestor, who cultivated qi path.

The situation was critical, Fang Yuan could not use the dream realms to stop his enemies anymore.

The door of Dragon Palace suddenly opened, several Pure Dream Reality Seeker Physique bodies flew out of his dream realm defensive line, directly heading for Spectral Soul.

Boom boom boom.

The Pure Dream Reality Seeker Physique bodies self-detonated, creating dream realms in the air.

Spectral Soul quickly dodged them, he managed to avoid being trapped by the dream realms.

But using this chance, Wu Shuai moved Dragon Palace out of the dream realm circle through one of the gaps, with Myriad Year Flying Warship following behind closely.

The intent of the two Immortal Gu Houses was obvious.

“Where are you trying to go?!” Spectral Soul shouted as he got past the dream realms, approaching them again.

Fang Yuan was his main target, he needed to be killed.

This was a prime opportunity, Spectral Soul was going to follow Fang Yuan no matter where he went.

Spectral Soul stared at Dragon Palace and Myriad Year Flying Warship, his eyes flickering with killing intent and determination!

At the next moment, Dragon Palace and Myriad Year Flying Warship split up, they escaped in two directions.

Spectral Soul was dazed.

What should he do?

When Myriad Year Flying Warship and Dragon Palace were inside the ring of dream realms, they were isolated from the outside, Spectral Soul had no idea which one Fang Yuan was hiding in.

There was only one Spectral Soul, he could not chase after both Immortal Gu Houses.

But Spectral Soul made his decision almost instantly, he shouted:

“Demon Immortal Qi Jue, chase after Myriad Year Flying Warship! After we succeed, I will not stint on your reward.”

Demon Immortal Qi Jue chuckled as he used Xi Land to absorb one of Qi Sea Ancestor’s killer moves, he easily moved away and chased after Myriad Year Flying Warship.

Spectral Soul went after Dragon Palace instead.

After receiving his orders, Fairy Zi Wei started to retreat.

“What do we do?” Heavenly Court’s Gu Immortals asked Qin Ding Ling.

Qin Ding Ling looked at Fairy Zi Wei and the rest, saying without hesitation: “Kill Fang Yuan first!”

But the problem that Spectral Soul faced earlier was also happening to Heavenly Court, which Immortal Gu House was Fang Yuan in?

“Do we just pick one and gamble on our luck?” Qin Ding Ling frowned, even though she was not willing to do that, Heavenly Court lacked wisdom path Gu Immortals, they could only do this.

“I can help you people.” Fairy Zi Wei suddenly stopped her movement as she said: “I have a way to deduce Fang Yuan’s location.”

Heavenly Court’s immortals were dazed.

“What method? How long will it take?” Qi Sea Ancestor asked.

“With our help, it will only take a moment.” Bing Sai Chuan’s voice resounded, everyone turned around, seeing that Calamity Luck Altar had arrived.

“They finally arrived.” Fairy Zi Wei let out a breath of air.

She was obviously the one who asked the Longevity Heaven members to come. Earlier, Fairy Zi Wei and the rest received orders from Spectral Soul to deceive Longevity Heaven and assault Heavenly Court on their own. But the situation changed too quickly, on the way here, Fairy Zi Wei analyzed the situation and made the plan to use Longevity Heaven's strength.

After getting Spectral Soul's permission, Fairy Zi Wei contacted Longevity Heaven immediately.

As Calamity Luck Altar approached, Bing Sai Chuan said: "Our lord said that this world does not need too many chess players."

The immortals' hearts shook.

Bing Sai Chuan's lord was obviously Giant Sun Immortal Venerable.

All the signs showed that this venerable had deep aspirations, he still had abundant will and strength left in the world.

In the current situation, Fang Yuan was the most likely person to become venerable. Immortal zombie Giant Sun did not want this to happen, thus, he changed his plan and decided to kill Fang Yuan before he could grow fully!

Qin Ding Ling gritted her teeth, she was stuck at a difficult contemplation.

Cooperate with Spectral Soul and Longevity Heaven?

The former was a demonic path venerable, the latter was a strong foe during the fate war, they were all responsible for the destruction of fate!

Ally with them?

Qin Ding Ling only thought about it for a few breaths of time before she squeezed out a word: "Alright."

Like what Bing Sai Chuan said earlier, there was no need for too many chess players in the world. Fang Yuan was destined to be their enemy, he was a walking treasure chest, everyone wanted to kill him first, after that, Heavenly Court would deal with Spectral Soul and Giant Sun!

Chapter 2035 - Qing Clan“s Revenge

2035 Qing Clan“s Revenge

Rough winds howled in the desert, while the oasis carried a warm breeze.

Sandstones piled into a mountain as hot steam rose. There was a calm lake beneath the sandstones, green trees were growing as their leaves rustled under the evening wind, creating the scene of a paradise in Western Desert.

Western Desert’s Qing clan’s base was situated at this oasis that was called the ‘Qing oasis’.

Qing clan’s Gu Immortals were all gathered in a hall. On the icy cold floor of the hall, there were several fragments of Gu worms, all of the Qing clan Gu Immortals were fixing their gazes on these fragments.

“Qing Heng’s life tablet Gu shattered?!”

“What is happening?”

“Qing Heng died, he had left to hunt the Southern Border Gu Immortal Ming You. Did he really die at Ming You’s hands?”

Qing Heng was a rank seven expert of Qing clan, even though he was sent by the clan to kill Ming You, the clan was very confident in him. Recently for some reason, news that Qing clan obtained Divine Bean Palace had spread, all the other super forces were probing them. With Qing Heng’s death, Qing clan became suspicious about the truth, was this a test by the Western Desert forces?

“Report—! We have accurate information, Ming You was the one who killed Qing Heng, he has great strength and acts ruthlessly.”

Qing clan flew into a rage.

“This Gu Immortal from another region has gone too far!”

“We need to kill this Ming You, we will grind his bones to dust, we will show the other Western Desert super forces the consequences of offending our Qing clan!”

“Before killing him, we should capture this Ming You and invite the other Western Desert Gu Immortals to watch. Only by pulling out his tendons and ripping his skin in public, to humiliate and torture him to death, can I feel satisfied from this revenge.”

“Kill!”

“Kill him!”

“He is merely a Gu Immortal from another region, he came to Western Desert alone, he actually dared to kill our Gu Immortal, he truly has no fear of heaven and earth.”

“Even though Ming You was able to kill Qing Heng, he only has rank seven cultivation level, if first supreme elder takes action, it would be too excessive, rumors would also spread that our Qing clan is bullying the weak. In my opinion, we should send out Qing Jing and Qing Hua Lan.”

“No, to play safe, we should send Qing Chen as well. With three immortals, they will definitely be able to capture that Ming You alive!”

“Let him experience regret and pain.”

“Hurry! Don’t let that scoundrel escape.”

“Kill Ming You, display the might of Qing clan!”

"Ming You must die, when our clan refines Divine Bean Palace in the future, our Qing clan will stand at the top of Western Desert's Gu Immortal world!!"

…

These sentences echoed in Qing Chou's ears, the scenes of the past flashed in Qing Chou's mind.

Different from its usual fragmented memories, this time, its memory was very clear and complete. At the same time, the hatred in its heart surged in a tsunami, rampaging in Qing Chou's entire body and mind.

Hatred!

Deep hatred!

Feeling increasingly intense hatred, Qing Chou opened its eyes.

Time flew by quickly, countless years had passed since then.

Qing Chou's eyes were bloodshot.

It found that it was still lying on the ground, recalling that when fighting Spectral Soul earlier, it was sent flying to the ground, crashing and falling unconscious.

"Roar!"

Qing Chou roared as it stood up within the deep pit.

The rank nine aura of hatred Gu became even denser, the power of hatred surged throughout Qing Chou's body.

"Ming You, Ming You!"

"Spectral Soul, Spectral Soul!"

Qing Chou roared towards the sky, its eyes were covered in rage, its hair was disheveled, even though Spectral Soul had already gone after Dragon Palace, the power of hatred Gu allowed Qing Chou to locate Spectral Soul easily without a problem.

Rumble!

Qing Chou had a mountain-like tortoise shell, tiger claws and dragon tail, as well as a snake neck and human head, it flew up rapidly as winds surrounded it, charging towards the direction of Spectral Soul. As for Fairy Zi Wei and the rest who were creating a formation in the sky, it ignored them.

Among these Gu Immortals in the sky, there was one elderly Gu Immortal, he had wide sleeves and fluttering white hair, he was Fang Yuan's clone, Qi Sea Ancestor.

Seeing that Qing Chou was flying away, Qi Sea Ancestor let out a breath of air, no longer worried.

Earlier in Western Desert, even though Fang Yuan used familiar face to transform, he was still chased by Qing Chou.

Qing Chou possessed hatred Gu, because of the influence of karma divine tree, it had an intense connection to Spectral Soul and everyone related to him.

Fang Yuan's main body could not deceive Qing Chou while Qi Sea Ancestor was Fang Yuan's clone, he would definitely be sensed by Qing Chou as well.

But now, Spectral Soul and Fang Yuan were enemies, they wanted each other to die, thus, because of their changed relationship, Qing Chou no longer went after him.

"Even though Qing Chou's threat is gone, Fairy Zi Wei is still a big problem." Qi Sea Ancestor cast his gaze at Fairy Zi Wei.

Fairy Zi Wei wore a purple-gold dress, she had a graceful figure with hair that extended to her waist. She moved mysteriously as she flew in the sky, her fingers fluttering like butterflies in the sky, countless Gu worms were sent out and used together, in the sky, an amazing wisdom path immortal formation was already taking shape, one could see its form already.

Old Man Zheng Yuan assisted at the side.

Qin Ding Ling, Che Wei, and the other Heavenly Court Gu Immortals looked at Fairy Zi Wei, they had complex emotions, there was hatred, anger, pity, and sadness.

There was a round altar that was almost in contact with the wisdom path formation, floating in the sky. It had white jade railings and shining aurora, this was rank eight Immortal Gu House Calamity Luck Altar.

Calamity Luck Altar was controlled by Bing Sai Chuan, he had a sharp gaze as he looked at Heavenly Court's Gu Immortals and Qi Sea Ancestor, not daring to relax his mind.

Calamity Luck Altar protected Fairy Zi Wei and the rest, as well as the wisdom path formation.

Longevity Heaven, who represented Giant Sun Immortal Venerable, had already cooperated with Spectral Soul's Shadow Sect long ago.

"Fang Yuan has the potential to become a venerable, we cannot let him do as he pleases. If such a person becomes a venerable, it will not benefit any of us." Bing Sai Chuan transmitted, he tried to convince Qi Sea Ancestor, Qin Ding Ling, and the rest, not knowing that Fang Yuan's clone was right here.

Qin Ding Ling only listened to him, she did not reply.

The winds howled around her, causing her cape to flutter, she wore a tight golden armor and was tall and grand, she had a valiant demeanor.

She stared at the wisdom path formation at times, looking at the dream realms occasionally.

This dream realm was left behind by Fang Yuan. He had originally tried to use the dream realms to stop his enemies, but Spectral Soul plotted against him instead. Fang Yuan had to escape from this battlefield, this dream realm was left behind, shining and moving on its own continuously.

"Where is Fang Yuan now? I only saw that Dragon Palace and Myriad Year Flying Warship flew out of the dream realm and escaped the battlefield. There is a third possibility, he is still hiding in this dream realm!” Qin Ding Ling thought to herself.

Precisely because of this reason, she stayed behind to guard this dream realm.

Fang Yuan was too crafty, even though staying in the dream realm seemed stupid, there was a chance that Fang Yuan might do this purposely.

Seeing that the wisdom path formation was completing, Qi Sea Ancestor felt increasing pressure.

“I can’t wait anymore!” Thoughts collided in Qi Sea Ancestor’s mind, he thought: “Looking at Fairy Zi Wei’s attitude, with Bai Ning Bing and Ying Wu Xie at the lead, this formation might likely deduce the main body’s location. The main body does not have much foundation in information path, otherwise, if we could break our connection with Bai Ning Bing and Hei Lou Lan, even three of Fairy Zi Wei combined would not be able to do anything.”

“Fairy Zi Wei and the rest have great strength, with Calamity Luck Altar’s defense and Bing Sai Chuan’s wariness towards Heavenly Court, if I attack now, I will not be able to destroy the formation, Heavenly Court would instead get suspicious of me.”

The Qi Sea clone was powerful, but he could not turn this situation around alone and suppress everyone, the key person now was still Qin Ding Ling!

Qi Sea Ancestor listened to Bing Sai Chuan’s words while asking Qin Ding Ling in secret: “Looking at this situation, Shadow Sect and Longevity Heaven think highly of this formation. But can we trust them? Regardless of whether Fairy Zi Wei can deduce a result successfully, the formation is still under her control. If she tells us a location, how do we ensure that it is right? Will Fairy Zi Wei hide anything from us?”

The Qi Sea clone started to sow discord, he could not let Bing Sai Chuan ally with the Heavenly Court Gu Immortals too. Otherwise, the main body would face the pressure of Shadow Sect, Longevity

Heaven, and Heavenly Court, it would be too much!

If this was the Heavenly Court from Fang Yuan's previous life, they would definitely have no inclination to work with other forces.

But fate Gu was destroyed by Fang Yuan, Heavenly Court lost their greatest spiritual banner, they also suffered many setbacks and lost a lot of reputation. One could say that their title of the number one human force was already undeserved, they faced a lot of criticism.

Heavenly Court's Gu Immortals were all elites, they learned from this lesson and started to change. Qin Ding Ling was the leader of Heavenly Court, she started to gather help and put down her pride, earlier, when Qin Ding Ling took the initiative to help Qi Sea Ancestor chase away Demon Immortal Qi Jue, it was the best proof of this.

Thus, the probability that Heavenly Court, Shadow Sect, and Longevity Heaven would work together was not low.

The Qi Sea clone's words were very effective, Heavenly Court and Fairy Zi Wei could not trust each other. This way, even if Fairy Zi Wei's deduction succeeded, it would not have any meaning.

Qin Ding Ling was silent for a while before transmitting to Qi Sea Ancestor: "I would like ancestor to go and chase after Dragon Palace and Spectral Soul."

Qi Sea Ancestor was slightly dazed: "Do you know the location of Fang Yuan already?"

"I don't." Qin Ding Ling smiled at Qi Sea Ancestor.

The Qi Sea clone looked at Qin Ding Ling deeply in the eye, he realized that Qin Ding Ling knew what she was doing, she had never trusted Shadow Sect's Fairy Zi Wei or Longevity Heaven, trusting them was stupid. The reason she stayed behind was to guard the dream realm and also rest and recover.

Heavenly Court lacked a peak rank eight battle strength, after leaving Heavenly Court, they also lost their territorial advantage. They seemed powerful and had great morale but if they were careless, they would suffer huge losses.

Heavenly Court could not afford to lose anymore!

Qin Ding Ling had to be vigilant and careful.

Right now, Spectral Soul was chasing Dragon Palace, Qing Chou was chasing Spectral Soul, while Demon Immortal Qi Jue was chasing Myriad Year Flying Warship.

Qin Ding Ling knew that Demon Immortal Qi Jue, who had Xi Land, was Qi Sea Ancestor's greatest counter, even if Fang Yuan was inside Myriad Year Flying Warship, Qi Sea Ancestor would not be able to do anything to Demon Immortal Qi Jue even if he went there.

Instead, if Qi Sea Ancestor chased after Spectral Soul, he would be able to influence the situation.

From Heavenly Court's perspective, Fang Yuan was someone who needed to die, Shadow Sect or Longevity Heaven were enemies as well. But Heavenly Court's strength was not like before, they were very weak, even though Qi Sea Ancestor was on their side, he was still not their member after all.

Qin Ding Ling sighed deeply: "Fang Yuan is too crafty, even though him splitting up seemed simple, it allowed the pressure on him to decrease greatly, we have no choice but to stay behind and temporarily stop chasing him."

"Spectral Soul is stronger than Demon Immortal Qi Jue, if he kills Fang Yuan and gets everything, this former Demon Venerable will rise up again!"

"Qi Sea Ancestor, we hope you can think for the sake of everyone in the world, let these two demons fight it out while our righteous path remains victorious in the end."

Qin Ding Ling was a talented leader after all! Even though she was leading a weaker Heavenly Court, she had never given up, she made plans to try and raise their chances of victory as much as possible.

Chapter 2036 - Strong, Weak

2036 Strong, Weak

“Go.” Fairy Zi Wei called out as her fingers moved rapidly, producing countless shadows. The killer move activated, a thousand Gu worms flew out and turned into a vague purple shadow that filled up the final blank area of the wisdom path formation.

The Gu Immortals watched were all first rate Gu Immortals in the entire five regions, seeing this, they could not help but admit that Fairy Zi Wei was very skilled at setting up formations.

Fairy Zi Wei let out a breath of air, perspiration gathering on her forehead.

Her eyes stared at the formation before her, at this point, it was time to add in the core Immortal Gu.

This situation was quite peculiar, Fairy Zi Wei was setting up the formation in front of many strong foes. There was a chance that these Gu Immortals might attack her during the process, thus, Fairy Zi Wei used a rare method for this arrangement, she first placed the mortal Gu and set up a bare framework first, before filling it up with Immortal Gu at the end.

Fairy Zi Wei temporarily stopped her actions to catch a breather, she looked at Qin Ding Ling and Calamity Luck Altar.

Calamity Luck Altar was shining in brilliant light, the Gu Immortal controlling the Immortal Gu House, Bing Sai Chuan, knew about her worries, he transmitted: “With my protection, you can rest assured, quickly set up the formation.”

Fairy Zi Wei did not have Fang Yuan's formation flag Gu, otherwise, she would not need to set up this formation each time.

She knew that time was running out, after hearing Bing Sai Chuan's words, she started to put Immortal Gu into the formation.

Each time an Immortal Gu was placed, the formation would shake once and shine in a beautiful purple light, the scene was incredibly beautiful, it was a pity that none of the Gu Immortals had the mood to appreciate it.

Inside Calamity Luck Altar, Bing Sai Chuan stared at the formation, guarding against any potential threats that would attack, he broke the silence as he said: "Hei Lou Lan, you have been with Fang Yuan for a long time, what do you think he would do in this situation?"

Hei Lou Lan was standing right beside Bing Sai Chuan, even though she was a woman, her face had strong contours, she possessed sharp and long brows, bright eyes and a heroic aura.

Hei Lou Lan heard the question, she thought about it and said: "Fang Yuan only has three options, Dragon Palace, Myriad Year Flying Warship, or to stay in the dream realm.

"Hiding in the dream realm is too risky for Fang Yuan. Not only can Spectral Soul take the dream realm away, Heavenly Court also has ways to deal with the dream realm. If I were Fang Yuan, I would not stay here and wait for death."

"Of course…" Hei Lou Lan smiled helplessly: "This is not guaranteed to be the case, thus, Heavenly Court chose to stay by the dream realm. Fairy Zi Wei has also stayed behind to make deductions using the formation, she is also observing the dream realm. She is a wisdom path great expert, she knows that she cannot interfere with the two Immortal Gu Houses, she is most needed here."

"Myriad Year Flying Warship is faster than Dragon Palace, this can deceive the enemy, but I do not think that Fang Yuan would hide inside it. This is because Myriad Year Flying Warship is still slower than Spectral Soul, but its defense is lower than Dragon Palace. If Spectral Soul chooses to chase Myriad Year Flying Warship and attack it, Myriad Year Flying Warship would not last as long as Dragon Palace.”

Hei Lou Lan smiled coldly: “During the fate war, Fang Yuan lost his Twelve Zodiac battle formation, if it were still around, he would likely escape in Myriad Year Flying Warship. Thus, I think that Fang Yuan is most likely hiding inside Dragon Palace!”

Hei Lou Lan had an eerie gaze: “Spectral Soul likely thinks the same too, that is why he chased Dragon Palace while asking Demon Immortal Qi Jue to go after Myriad Year Flying Warship, he made precautions for both situations. Fang Yuan’s sovereign immortal body originated from Spectral Soul, he also has all of Spectral Soul’s dream realms. If Spectral Soul can kill him and reclaim the sovereign immortal body and the dream realms, he will rise up once again!”

“Even though we want to kill Fang Yuan, we cannot let Spectral Soul succeed. Even though Shadow Sect is working with us now, they have ill intentions. After all, Fairy Zi Wei managed to deduce the fact Fang Yuan was in Heavenly Court but they kept it from us, allowing Spectral Soul to attack Heavenly Court alone. Only when they needed our reinforcement did they call for us.”

“Thus, in my opinion, we should just watch from the side and exert influence on the situation. If possible, it will be best if we can take down Spectral Soul, Fang Yuan, and Heavenly Court in one move!”

“Hahaha.” Bing Sai Chuan laughed loudly, praising: “Good analysis! Quite impressive. Northern Plains’ Hei tribe was too disappointing, but you live up to Giant Sun’s bloodline. I’ll tell you the truth, after I woke up, I received information about you. After observing you for some time, I can say that you are a genius! It was just that your life was quite tough, you were schemed against by your father and suppressed by Fang Yuan, you merely lacked an opportunity to develop, otherwise, you would not be in this state.”

Hei Lou Lan heard the praise, her gaze focused on Bing Sai Chuan’s face.

Bing Sai Chuan had a tall body, his face was gentle but there was an ugly scar extending from his right ear to his left cheek. He originally had a cold expression but now, he looked at Hei Lou Lan with admiration and satisfaction.

Hei Lou Lan's heart jumped, an intense feeling appeared in her heart. Bing Sai Chuan's appreciation towards her ability was probably the most valuable fortuitous encounter in her life!

After realizing that, Hei Lou Lan did not hesitate anymore, she stood straight and cupped her fists: "I will listen to lord's orders!"

Bing Sai Chuan laughed loudly, before stopping as he looked at Hei Lou Lan with a solemn and serious gaze: "Good, Hei Lou Lan, are you willing to rebuild Northern Plains' Hei tribe?"

Northern Plains' Hei tribe had been taken down long ago, it was now occupied by Heavenly Lord Bai Zu to develop his tribe. Hei tribe's Gu Immortals even became members of Bai Zu tribe, they were simply the disgrace of the Huang Jin bloodline.

Hei Lou Lan expressed her willingness to do so no matter what.

"But I am currently too weak…" Hei Lou Lan purposely showed a hesitant expression filled with difficulty.

Bing Sai Chuan waved his hand as he tossed her a Gu worm.

Hei Lou Lan quickly received it, she saw that this rank seven Immortal Gu looked like a black and gold beetle, it was very heavy, Hei Lou Lan did not recognize it at once.

Bing Sai Chuan explained: "Hei Lou Lan, you have the Great Strength True Martial Physique, you should cultivate solely strength path, your future will be very bright. You have our Huang Jin bloodline, you are a Northern Plainsman from birth, I am sure you will not disappoint me, we will not stint on your strength path resources from now on. Take this strong Gu first, even though it is rule path, it suits you very well."

"Strong Gu?!" Hei Lou Lan's body shook.

"Alright, Fairy Zi Wei's formation is ready, go inside first." Bing Sai Chuan instructed.

Hei Lou Lan left Calamity Luck Altar and went into the formation.

She had a plain expression but her heart was filled with deep emotions and turbulence. Strong Gu was recorded in u003cu003cThe Legends of Ren Zuu003eu003e, it had a close connection to the Great Strength True Martial Physique. Bing Sai Chuan gave this legendary Immortal Gu to Hei Lou Lan, it showed how much he wanted to nurture her.

Hei Lou Lan realized in her heart: “It seems that my life is going to undergo a huge change now!”

u003cu003cThe Legends of Ren Zuu003eu003e, chapter five, section thirty-one states —

Ren Zu lost freedom Gu, he was anguished and only recovered after a long time.

Ren Zu was troubled, he asked cognition Gu: “Oh cognition Gu, how can I obtain freedom Gu again? After what happened last time, freedom Gu will not approach me anymore.”

Cognition Gu answered: “Oh human, why do you desire freedom Gu so much?”

Ren Zu replied irritably: “Don’t you know the reason already? I am searching for freedom in order to break free of the restraints of fate.”

Cognition Gu answered once again: “Then I have nothing much to tell you. Haven’t you told fate Gu the answer to this question already?”

Ren Zu was dazed before he recalled.

Before he went insane, he met fate Gu. When he was harmed by fate Gu, he shouted at it that he would use his own strength and wisdom to obtain freedom, he would eventually break free from fate’s control!

Ren Zu’s eyes brightened: “Oh Gu, I remember now, thank you for the reminder. I need to rely on myself to break free of fate. I already have my own strength, what I lack is my own wisdom. I need to let self Gu eat a mouthful of wisdom Gu, just like how it ate a part of strength Gu in the past.”

“But where is wisdom Gu?” Ren Zu asked cognition Gu.

Cognition Gu: “I do not know. Wisdom Gu has been to many places, its location is not fixed. You can find wisdom in countless places, so human, you need to find it yourself.”

Ren Zu nodded as he set off on his journey again.

He walked and walked and walked, one day, he saw two Gu worms chasing each other along the road.

One Gu worm was white and tiny, it escaped ahead as it begged for mercy: “Stop chasing me, stop chasing me, I do not want to be eaten by you.”

The other Gu was clearly larger in size, it had thick armor and said in a deep tone: “I want to eat you, I want to eat you! No matter where you escape to, I will eat you!”

The tiny white Gu was about to be caught by the larger Gu behind, it suddenly saw Ren Zu and hid behind him: “Oh human, I beg of you, quickly save me.”

Ren Zu saw that this Gu worm was so pitiful, it was chased by another Gu worm, unable to fend for itself, he felt like he was seeing himself.

At this instance, a new heart grew in his chest — the heart of sympathy.

Ren Zu stretched out both arms as he stopped the larger Gu: “Stop, stop chasing it.”

The armored Gu shouted: “Hey human, are you obstructing me? No, you cannot stop me, you are unable to stop me.”

“Why is that so?” Ren Zu was curious.

The armored Gu explained: “I am strong Gu, that is weak Gu. Since time immemorial, the rule of nature is that the strong prey on the weak. Thus, strong must eat weak, weaklings are the food of the strong."

Ren Zu sighed as he tried to convince the Gu: "Then why don't you let it off just this once, look at how pitiful it is."

Strong Gu sneered: "Not even once! In the eyes of the strong, weaklings have no stature, there is no sympathy for the weak. This is because heaven and earth will never pity the weak, it will only marvel at the incredible feats of the strong. Weaklings are born to be subdued, controlled, and devoured by the strong."

Ren Zu saw that his words fell on deaf ears, he could only deny strong Gu forcefully: "I have already saved this Gu, go and eat others."

Strong Gu knew that it could not beat Ren Zu alone, it could only fly away in dissatisfaction: "I will be back."

Chapter 2037 - Myriad Destruction Lightning Fores

2037 Myriad Destruction Lightning Fores

Bai Ning Bing, Ying Wu Xie, and the rest went into the formation one by one, finally, Fairy Zi Wei also went to the center of the formation, activating it.

The deduction was beginning.

Qi Sea Ancestor did not move, he stayed at the original spot.

“If I take action now to destroy the formation, will it help my main body?” Qi Sea Ancestor analyzed, he estimated his chances.

Once the formation was damaged or even destroyed, the Gu Immortals inside would suffer backlash, but Qi Sea Ancestor could not be certain of the exact effect.

Furthermore, if Qi Sea Ancestor struck now, the secret that he was Fang Yuan’s clone would be exposed for sure.

“If only I could convince Qin Ding Ling and the rest to strike together.” Qi Sea Ancestor sighed internally.

Even though Qin Ding Ling was not a wisdom path great expert, she was not so easy to deceive. Qi Sea Ancestor did not even dare to say anything odd now, otherwise, Heavenly Court might find out the truth instead.

"Ancestor, time is pressing, you need to consider the big picture!" Qin Ding Ling was secretly sending transmissions to him, trying to convince Qi Sea Ancestor. She wanted him to chase after Dragon Palace and Spectral Soul, but Qi Sea Ancestor started to talk about payment instead.

Qi Sea Ancestor sighed: "Fairy Qin, precisely because of the big picture, I am being shameless in asking you for the three qi Immortal Gu. My methods are all known by the enemies, only with these Immortal Gu can I gain a boost in strength and catch the enemies by surprise. For the sake of the people, for the righteousness of humanity, I hope you will consider the big picture and give those three Immortal Gu to me."

Qin Ding Ling mentally rolled her eyes, this Qi Sea Ancestor was not just shameless, he was incomparably so, using this opportunity to ask for huge compensation. He wanted three rank eight Immortal Gu at once, the cores of Primordial Origin's true inheritance! He was simply too greedy.

But Qin Ding Ling had many worries now, if she fell out with Qi Sea Ancestor, Heavenly Court would not have any peak rank eight battle strength, they would likely be targeted by Shadow Sect and Longevity Heaven.

Qi Sea clone purposely chose this current situation to exert pressure on Qin Ding Ling.

Qin Ding Ling sighed: "Qi Sea Ancestor, why must you force us now? Back then, in Eastern Sea, who helped you to resist Demon Immortal Qi Jue?"

Qi Sea Ancestor replied: "If we want to talk about favors, I am sure you all owe me more. I have already gotten rid of Heavenly Court's biggest threat, the qi harvest fruit is gone now. Also, in this battle, I have never slacked off, I took risks alongside all of you."

Qin Ding Ling was silent for a while before she replied solemnly: "I can give heaven qi and earth qi Immortal Gu to you, but human qi Immortal Gu is out of the question. This is the bottom line of Heavenly Court, please understand our circumstances, ancestor."

Qi Sea Ancestor accepted the result.

The truth was, the Qi Sea clone did not think he would get all three qi Immortal Gu to begin with. They were all rank eight Immortal Gu connected to Primordial Origin true inheritance, they were too valuable, far beyond the value of the supposed payment. Heavenly Court could have used other resources to pay him, but because the situation was really urgent now, the Qi Sea clone fought for the greatest benefit.

Of course, the fact that Qin Ding Ling gave the two qi path rank eight Immortal Gu to Qi Sea Ancestor on the spot caused all of the Gu Immortals to gasp in amazement.

Qi Sea Ancestor obtained two Immortal Gu, he said his goodbyes to the Heavenly Court immortals as he chased after Dragon Palace immediately.

“I finally got him to work.” Qin Ding Ling felt very tired, but this outcome was not too bad. She would not give all three qi Immortal Gu to Qi Sea Ancestor, she had to keep at least one to use as bait against him.

Furthermore, Qi Sea Ancestor obtained two qi Immortal Gu, he only needed human qi Immortal Gu to be able to use the killer move triple qi retraction, this temptation was probably even greater now that he had two of them.

Dragon Palace flew rapidly in the wild winds.

In the dream realm earlier, Wu Shuai got sufficient time to put all his effort into repairing Dragon Palace, at least from the outside, it looked restored.

“The damage to the core Immortal Gu cannot be resolved quickly, this is already my limit!” Wu Shuai was very worried.

Behind Dragon Palace, a female rank eight soul path immortal was chasing it relentlessly.

It was Spectral Soul who was inside Lady Cold Ash’s body. He emanated black qi as he surged with killing intent, he locked onto

Dragon Palace without any signs of hesitation or giving up.

“You cannot escape, Fang Yuan! Even if you escape to the ends of the world, I will definitely kill you.” Spectral Soul had just said that when his pupils expanded.

Wherever Spectral Soul’s gaze landed, smoke that was pitch black appeared, quickly reaching Dragon Palace.

The smoke expanded rapidly, with a soft sound, it turned into a round spiral that had an immense suction force.

Wu Shuai was controlling Dragon Palace, he was caught by surprise as Dragon Palace’s speed fell, it fell towards the black smoke spiral.

“What move is this?!” Wu Shuai gritted his teeth, veins bulged on his forehead as he tried to move Dragon Palace to the sky.

Ever since they fought, Spectral Soul’s soul path methods had been endless, it was hard to guard against them. Especially when Spectral Soul was such an expert with abundant experiences, he could use these soul path killer moves beyond their usual limits.

Dragon Palace turned around with difficulty, attempting to fly away from the black smoke spiral from above.

Spectral Soul sneered, he pointed his finger. Black light quickly gathered on his finger, it shot out, instantly hitting the area around Dragon Palace.

The tiny black light expanded rapidly, turning into an immemorial soul beast.

Seeing that the immemorial soul beast was about to pounce on Dragon Palace, Wu Shuai was shocked, his pupils expanded rapidly.

If Dragon Palace got hit, its movement would be obstructed, it would fall into the black spiral along with the immemorial soul beast. In that case, the precious time that Fang Yuan obtained through this tactic would be completely wasted.

At the crucial moment, Wu Shuai shouted, his eyes shined with mysterious dazzling light.

Dragon Palace reacted to it, golden light erupted, a wave of pink smoke rapidly gathered, easily dragging the immemorial soul beast away, into the depths of Dragon Palace. The powerful immemorial soul beast could not resist it at all!

Spectral Soul was not surprised.

This was the dream path killer move — Dreamy Light Smoke.

Wu Shuai got rid of the immemorial soul beast, Dragon Palace managed to fly far above the spiral.

At this time, Spectral Soul's body suddenly appeared near Dragon Palace, his eyes shined with cold light: "I have been waiting for this!"

At the same time, 'Spectral Soul', who was far away, faded into nothingness.

Spectral Soul slammed with his palm, the silhouette of a soul mountain appeared and pressed down on Dragon Palace.

This soul mountain was huge, the top was beyond the clouds, looking from below, Wu Shuai's entire vision was obstructed.

It covered the entire sky!

But the soul mountain's appearance was very familiar to Wu Shuai.

"Isn't this Dang Hun Mountain?" Wu Shuai was shocked and uncertain.

Bam!

With a loud sound, Dang Hun Mountain crashed down on Dragon Palace.

Dragon Palace's beautiful roof met with a devastating blow. Countless tiles shattered, many Gu worms died at once.

And even worse was that due to the impact, even though Dragon

Palace struggled, it was slammed into the black smoke spiral by the giant soul mountain.

The spiral surrounded the entirety of Dragon Palace, an immeasurable suction force started acting on it.

Dragon Palace spun around along with the spiral, losing its sense of direction. Wu Shuai had to leave his throne as he tried to think of a way to break out of this situation, but it was hopeless in the short term.

“Don’t tell me this is Spectral Soul’s truth strength?” Wu Shuai gritted his teeth.

Spectral Soul unleashed several killer moves in succession, Wu Shuai was very tired in trying to deal with them. The great rank eight Immortal Gu House Dragon Palace could not put up a resistance, with Spectral Soul’s array of killer moves, he managed to suppress Dragon Palace forcefully.

Wu Shuai stared with furious eyes, he had to try and delay for time, he instilled immortal essence to try and fix the Immortal Gu House, wanting to maintain his defensive position.

“In this situation, the main body’s safety is in my hands! But how long can I last?” Wu Shuai was completely unsure at this point.

Fang Yuan’s main body was deep inside Dragon Palace.

The heaven path dao marks prevented him from doing anything now. The unlimited qi sea killer move he used earlier against the primordial qi wall was also prepared for a long time, he used human path methods to find a gap in the restriction of the heaven path dao marks, allowing him to make one move.

But with just that action, after breaking the qi wall, the heaven path dao marks reacted and started to obstruct Fang Yuan in another way.

Thankfully, Fang Yuan did not get greedy and quickly stopped using his killer move. Otherwise, the strong interference would cause his killer move to fail, he would suffer intense backlash.

Fang Yuan only found that human path could resist heaven path. Dream path might be effective but his attainment in dream path was not high enough.

Ever since he obtained Heavenly Court's heaven path research results, Fang Yuan had been researching on them.

He was fighting against time!

It was possible that a minute's or even a second's difference would lead to either surviving or dying.

Immortal killer move — Heaven-human Sensation!

Immortal killer move — Human Executing Heaven's Work!

Within the sovereign immortal aperture, Fang Yuan's will mixed with heaven's will, he sensed various heaven path dao marks.

Refine them!

Immortal killer move — Unrestrained Heavenly Mark!

This killer move was meant to deal with heaven path dao marks, Fang Yuan did not care about the cost, he expended rank eight immortal essence rapidly, he quickly refined three heaven path dao marks successfully.

"Wu Shuai, persevere, I have already made a huge breakthrough!" The moment Fang Yuan transmitted to Wu Shuai, a change occurred in the immortal aperture.

Fang Yuan's success infuriated heaven's will.

The heaven path dao marks were like angry beasts, they were originally scattered all over the place, but now they gathered together.

Rumble!

Thunder rumbled as lightning roared, dark clouds formed as wild winds blew.

The heaven path dao marks triggered a huge change, in just a few breaths of time, a tribulation was formed!

At that instant, earth shook as mountains rumbled, lightning flashed and shattered rocks, the earth was crying out in sorrow.

Fang Yuan's heart jumped: "Don't tell me that forcefully refining heaven path dao marks will anger the Heavenly Dao and cause a tribulation to occur? Or maybe the killer move I used has a problem?"

Lightning clouds continued to form and spread out. Soon, they spread over a hundred li, several thousand li, tens of thousands of li, and over a hundred thousand li!

Millions of lightning bolts flickered continuously, this was like a huge forest made of lightning bolts!

Myriad tribulation — Myriad Destruction Lightning Forest!

It was not an earthly calamity, a heavenly tribulation, or a grand tribulation, it was actually a myriad tribulation.

Only a rank eight Gu Immortal could face such a tribulation.

It was a myriad tribulation, they put fear into most rank eight Gu Immortals!

Chapter 2038 - Internal and External Problems

2038 Internal and External Problems

Fang Yuan immediately frowned, as if a huge rock was weighing on his mind, his expression turned grim.

He did not think that a myriad tribulation would occur.

Rank eight Gu Immortals stood at the peak of the Gu Immortal world, but for each one of them, every myriad tribulation was a troublesome hurdle.

In the current Gu Immortal world, most rank eight Gu Immortals have not gone through one myriad tribulation. For example, Heavenly Lord Bai Zu and Yao Huang were like this, even Prince Feng Xian was the same.

Back then, why did Old Ancestor Xue Hu try all means possible to refine fortune rivalling heaven Gu? It was to deal with his first ever myriad tribulation in this life! It was a pity that he created a huge commotion and ended up with a huge loss, not only did Old Ancestor Xue Hu fail to refine fortune rivalling heaven Gu, he even lost the whole of Snowy Mountain blessed land.

Western Desert's Thousand Transformations Ancestor had gone through one myriad tribulation. He survived it by a hairsbreadth, he was forced to recuperate for a long time. During the period, his beloved Fairy Cui Bo was killed by Fang Yuan, yet he could only send

Dancer Hong Yun to investigate it.

Beast Calamity Immortal died after suffering heavy injuries from his first myriad tribulation, leaving behind Beast Calamity grotto-heaven.

Bo Qing was a rank eight Gu Immortal who had passed two myriad tribulations, Duke Long was too. Throughout history, both of them were top tier experts merely below venerable level.

Even though Fang Yuan possessed over a million dao marks after becoming a rank eight Gu Immortal, the truth was that he used the sovereign immortal aperture's specialty to annex grotto-heavens, he skipped all his myriad tribulations.

Thus, Fang Yuan had not gone through a single myriad tribulation.

In his case, myriad tribulations were still huge problems. And the biggest issue now was that this current situation was really inappropriate to undergo tribulation. Fang Yuan could not estimate how long Wu Shuai could last, after all, Spectral Soul was a terrifying foe that they could not assess!

“I need to refine these heaven path dao marks as soon as possible, only after that can I face Spectral Soul!”

“But to refine heaven path dao marks, I need to undergo myriad tribulation?”

Fang Yuan felt like there was a tsunami now, he went up the mountain to avoid the flood but found out that this was actually a volcano! And now, this volcano was about to erupt.

Externally was Spectral Soul, internally was the myriad tribulation, at this moment, Fang Yuan fell into the greatest predicament of his life so far.

“No, I still have a chance!” Even in this situation, Fang Yuan remained calm, he was not flustered.

At the same time, at another area.

Myriad Year Flying Warship and Demon Immortal Qi Jue were escaping and chasing respectively.

Suddenly, ‘Fang Yuan’ flew out of Myriad Year Flying Warship, using his killer move with ferocity as he forced back Demon Immortal Qi Jue temporarily.

Demon Immortal Qi Jue immediately used his investigative method, after confirming this, he transmitted to Spectral Soul: “Fang Yuan is here with me, I can’t deal with him alone. Come quickly! Otherwise, he might escape.”

Spectral Soul heard the news and got stunned for a moment.

“Is Fang Yuan really not in Dragon Palace?” Spectral Soul thought rapidly, his attacks also slowed down as a result.

Right now, even though Dragon Palace was trapped, it was still a rank eight Immortal Gu House, it could last for a while.

Fang Yuan was rushing against time, Spectral Soul was the same. If he wasted time with Dragon Palace, even if he destroyed it, Fang Yuan would escape, then this entire pursuit would fail because he could not meet his goal.

Victory in battle was never important, only the benefits behind it mattered. Combat was just one of the ways to gain benefits, the glory of victory was completely irrelevant to Spectral Soul.

“Fang Yuan has familiar face, he can create a will and give it immortal essence and Immortal Gu to create a false impression of being the main body.” Spectral Soul knew about this information, thus he was quite troubled now.

Even though he was strong, far beyond other Gu Immortals, he could be called the number one in the world, but Fang Yuan was crafty and hard to catch, this situation was quite vexing.

Spectral Soul knew he had to be vigilant, otherwise, he would follow in Heavenly Court’s footsteps. This Fang Yuan was just too good at escaping!

The sovereign immortal aperture was facing countless lightning bolts, ever since the myriad tribulation formed, it had been attacking non-stop.

Mini Southern Border suffered severe damage!

The Heavenly Dao sought to balance deficit and surplus, which area in the sovereign immortal aperture was the most developed? It was undoubtedly Mini Southern Border. Thus, the Heavenly Dao created this myriad tribulation that targeted Mini Southern Border.

“Myriad tribulation — Myriad Destruction Lightning Forest!” Fang Yuan gritted his teeth, doing his best to make arrangements. He ignored Spectral Soul who was outside now, he let Wu Shuai try to stall for time.

Rumble…

Cloud Bamboo Mountain was completely broken apart into countless pieces by the lightning bolts.

There were eight desolate beast cloud foxes living on the mountain, and eleven desolate plant spear tip bamboos, they were completely wiped from existence by the lightning bolts. Cloud qi roots, white hair ginseng and a vast number of ordinary spear tip bamboos were all destroyed too.

The seven colored cloud soil inside the mountain were also affected, they were scattered all over the place, after the damage from the lightning, their value fell drastically.

Cloud Bamboo Mountain was originally taken from Southern Border’s Chi clan by Fang Yuan, it had the weakest defensive formation, thus at this moment, it was completely decimated beyond recognition.

Soon, the other resource points started to face problems too.

“I need to solve this internal threat as soon as possible!” Fang Yuan thought to himself, but the power of the myriad destruction lightning forest was terrifying, he could not do anything about it, each of his actions were still restricted by the heaven path dao marks.

Thankfully, there was a bunch of Gu Immortals in the sovereign

immortal aperture.

Among them, Xue Er, Shi Shi Cheng, and Mo Tan Sang were nurtured by Fang Yuan to become the new leaders of their variant human tribes. Their cultivation level was too weak, asking them to help out was simply sending them to death's doors.

"I will help!" At the moment of crisis, an elderly Gu Immortal stepped up, emanating rank eight aura.

Since when did Fang Yuan's sovereign immortal aperture gain such a powerful expert?

This elderly man was none other than the sole rank eight in Beast Calamity grotto-heaven, the current generation Combat Beast King.

Ever since Fang Yuan's plan succeeded and he annexed Beast Calamity grotto-heaven, all of the Gu Immortals inside were turned into his subordinates. After that, Fang Yuan gave them the true method of Gu cultivation.

During the fate war, most of the rank seven Gu Immortals were sent out to fight, until now, Fang Yuan did not have any time to recall them, they were still wandering around in the five regions.

Combat Beast King was a different case, because he had been cultivating inside Star Collection City, his strength rose greatly.

This was Fang Yuan's backup plan during the fate war to guard against people trying to invade his immortal aperture.

During the fate war, this situation did not occur, and now that the sovereign immortal aperture had a myriad tribulation, with Fang Yuan unable to make a move, he could only send out the Combat Beast King.

Winds blew, starlight shot out.

The rank eight star sea snail corpse was taken out by Fang Yuan, handed to Combat Beast King. The Combat Beast King did not hesitate, he immediately used his killer move and turned into a giant covered in starlight armor.

The giant roared as his body flew up towards the sky of lightning clouds.

Crack!

When the giant reached half the distance, several lightning bolts combined into one, the pillar-like bolt shot down on the star armored giant.

If this were in the past, Combat Beast King would definitely die from getting hit by this. But after this period of cultivation, he had already learned how to use immortal killer moves.

Thus, the defensive killer move was used by Combat Beast King before he moved, it managed to resist the lightning bolts.

But the giant's advancement was also halted at this moment.

The giant landed back on the ground, its majestic body shivering as sparks remained on its body, Combat Beast King's limbs were going numb, his movements were greatly affected.

"Myriad tribulations are truly terrifying!" Combat Beast King was tongue-tied, he spoke with deep shock.

Fang Yuan frowned tightly.

Earlier, the lightning bolts combined to target Combat Beast King, that was the work of heaven's will. The heaven path dao marks were too densely gathered now, heaven's will was naturally being produced.

With the manipulation of heaven's will, the terrifying myriad tribulation became even more adaptive, it led to despair.

"I have the killer move heaven's will dissipation, I can even get rid of heaven's will in dream realms. Unfortunately, I cannot use it now!" Fang Yuan sighed to himself, he needed to refine the heaven path dao marks, he had to mingle with heaven's will and use both heaven-human sensation and human executing heaven's work to capture the location of the heaven path dao marks. After that, he would use unrestrained heavenly mark to refine the relevant heaven path dao marks.

Thus, heaven's will was necessary.

Once Fang Yuan gets rid of the heaven's will, he would also not be able to refine these heaven path dao marks.

"But the heaven path dao marks gathered and created a myriad tribulation, this greatly affected my refinement of the heaven path dao marks, my efficiency is less than one percent of before!"

Originally, the heaven path dao marks were scattered all over the sovereign immortal aperture, they were like divided troops, Fang Yuan could refine them group by group, the refinement was very effective. But now that the heaven path dao marks gathered into one tight group, Fang Yuan would have huge problems in trying to target them, his refinement also started to have no progress.

With this speed of refining the heaven path dao marks, how long would it take?

Fang Yuan's circumstances were really precarious!

"Oh no, I can't hold on anymore!" When it rains, it pours, at this moment, Wu Shuai shouted loudly as he requested for Fang Yuan's help.

This dragonman clone was also in a bind now.

Veins were bulging on his forehead, he was sweating profusely, Dragon Palace was trapped in the black smoke spiral, it was taking huge damage at all times. With cracking tiles and pillars, the whole of Dragon Palace was visibly shrinking.

Wu Shuai could only do his best to repair it, but his speed could not match Spectral Soul's destruction.

Seeing that a crucial area was about to be destroyed, Wu Shuai had no choice but to ask for help.

Fang Yuan knew that his clone would not ask unless he was desperate. He sighed to himself as he switched his attention to the outside world.

After inspecting the situation, Fang Yuan immediately took action to help Wu Shuai with the repair of the Gu House.

They managed to alleviate the situation, but it was not enough!

Suddenly, Wu Shuai gasped: “Why are Spectral Soul’s attacks getting slower?”

Fang Yuan realized at once, he said: “I created a fake main body over in Myriad Year Flying Warship, it seems to have worked. Spectral Soul is hesitating now, he has always been worried that I would escape. He has no idea that Dragon Palace is about to collapse, he thinks the rank eight Immortal Gu House can still last for some time. If my ‘main body’ in Myriad Year Flying Warship escapes during this period, even if he manages to take down Dragon Palace and kill you, his plan will fail regardless.”

Wu Shuai’s eyes shined: “It will be great if we can deceive him now!”

Chapter 2039 - Sorrowful Wind Mountain Range, Wang Xiao Er

2039 Sorrowful Wind Mountain Range, Wang Xiao Er

“It’ll be difficult.” Fang Yuan sighed deeply.

Almost the same time as he said that, Spectral Soul, who was outside, attacked even quicker than before!

Spectral Soul shouted coldly: “Fang Yuan, you are truly a disappointment. How long are you going to hide? I’ll tell you the truth, Fairy Zi Wei has already deduced your location earlier.”

“Entrusting your hope to deceit, this is the way of the weak. I gave you sovereign immortal fetus Gu, it was truly a waste!”

“Come out and fight me, in this case, even if you die, people of the world will not say that you were cowardly, being afraid of the strong while bullying the weak.”

“Damn it!” Wu Shuai’s hope was dashed, he could not help but grit his teeth.

Fang Yuan snorted coldly, frowning and not answering. From his perspective, what was the point of reputation? What he cared about was whether Fairy Zi Wei really succeeded in her deduction, was Spectral Soul trying to deceive him now, was it all an act just to bait out Fang Yuan?

The Qi Sea clone had already left, so Fang Yuan did not know about the situation over there.

“Even now, the wisdom path formation is still working, we cannot forget another possibility, that is Fairy Zi Wei trying to delay Heavenly Court and Longevity Heaven’s action by telling Spectral Soul about the result secretly in advance. Sigh, I can’t care about it now.” Fang Yuan sighed as he quickly tossed away this question.

It was not that he found out the truth, but Dragon Palace’s current condition was too dangerous, he had no choice but to take action.

Fang Yuan opened the door of his immortal aperture slightly, letting out the immemorial year beasts that he had prepared!

Several immemorial year beasts roared as they charged out of Dragon Palace, attempting to destroy the black smoke spiral, while a few of them charged towards Spectral Soul.

“Your efforts are futile.” Spectral Soul made his move, black smoke spread out from his body and whipped up a dark storm, shrouding the surrounding over an immense range.

He pointed repeatedly with his finger, each attack only carried a trace of smoke but it was incredibly fast, the power was overwhelming. When the black smoke hit the immemorial year beasts, it immediately expanded into countless dense smoke chains that binded the immemorial year beasts.

The immemorial year beasts struggled but the black smoke chains were boosted by the black smoke spiral, they became thicker and tighter. The immemorial year beasts could struggle at first but soon they became unable to move, they were swept away by the spiral without resistance.

“These are just petty tricks, you are truly a disappointment, Fang Yuan.” Spectral Soul flew up into the sky as he looked down at the black smoke spiral.

The great rank eight Immortal Gu House Dragon Palace was like a toy, once its details were exposed, it was completely toyed around with like a harmless object.

Wu Shuai gritted his teeth, activating the killer move dreamy light smoke.

Spectral Soul chuckled, spitting out several soul balls. The tadpole-like soul balls had tails, they moved rapidly in the air, quickly entering the immemorial year beasts.

Thin black qi appeared around the immemorial year beasts' bodies, the black smoke chains fused into the black qi and caused it to become much thicker.

The three immemorial year beasts regained freedom, they growled angrily as they attacked Dragon Palace!

One of the immemorial year beasts directly jumped into the range of dreamy light smoke.

Their control was actually taken over by Spectral Soul.

Dreamy light smoke swept away one immemorial year beast, Wu Shuai felt powerless. With Spectral Soul controlling the situation now, he had ample time and initiative, dreamy light smoke could no longer pose a threat, it was just a small problem.

The soul path killer moves that Spectral Soul was using now were all unheard of by Fang Yuan and Wu Shuai, they had never seen any moves like these.

The foundation of a rank nine venerable was truly unfathomable!

High in the sky, the wisdom path formation continued to operate.

Fairy Zi Wei stayed at the central control area, she showed an appearance of working her hardest to make deductions.

Longevity Heaven's and Heavenly Court's immortals surrounded the wisdom path formation.

Qin Ding Ling silently looked at the wisdom path formation, just earlier, Heavenly Court transmitted news that the few Gu Immortals staying back successfully suppressed Di Zang Sheng.

Di Zang Sheng was hit by Primordial Origin's qi path killer move, its condition was slipping rapidly. When Fang Yuan escaped, he abandoned it to its own demise. Now, it was not strange that Heavenly Court's Gu Immortals suppressed it.

This point alone showed how anxious Fang Yuan was, he even gave up something like Di Zang Sheng, it showed that he was at his weakest point.

And this fact amplified Qin Ding Ling's killing intent towards Fang Yuan.

This was a rare opportunity that could not be lost!

After suppressing the Evil Dragon, the remaining Gu Immortals started to repair Heavenly Court grotto-heaven. They quickly fixed the holes, Heavenly Court's crisis was finally alleviated.

This also allowed Qin Ding Ling to let out a sigh of relief, but she still had other worries.

"Qi Sea Ancestor has just left recently, with Dragon Palace's speed and direction, it should have already reached Intestinal Gorge, right?" Qin Ding Ling thought to herself.

Fang Yuan escaped in Dragon Palace, moving out of immemorial white heaven and into Central Continent. This enraged Heavenly Court and also caused them to be worried that the aftermath of the battle might cause severe losses.

Intestinal Gorge was the northern entrance of Sorrowful Wind Mountain Range, it was created during the Olden Antiquity Era when a beastman expert died and fused with the surrounding mountains. It was under the control of one of Central Continent's ten great ancient sects, Black Heaven Temple.

Qin Ding Ling had already transmitted the details to Black Heaven Temple, asking them to send out their Immortal Gu House and move along Intestinal Gorge. If there was a chance they would strike, if the enemies were too strong, they would abandon Intestinal Gorge and preserve their strength as the main goal.

After receiving Heavenly Court's orders, Black Heaven Temple went into an alert state, they mobilized all of their strength and started to move out.

But after waiting for a long time, they did not see Dragon Palace nor Spectral Soul.

Qin Ding Ling did not know that Spectral Soul had already intercepted Dragon Palace along the way, they were still above the sky of Sorrowful Wind Mountain Range.

Sorrowful Wind Mountain Range was huge, extending over hundreds of thousands of li, compared to other mountain ranges, it was relatively gentle, the resources here were not abundant, most of the mountains were barren. Thus, even though it was in Black Heaven Temple's territory, they did not care much about it.

This place mostly produced wind path resources, in the past, a rank seven Gu Immortal of Wind Cloud Manor came here to cultivate in seclusion, he managed to breakthrough to rank eight, it was Old Man Bei Feng. It was a pity that his life was filled with hardship, he first got captured by Fang Yuan during the fate war and became enslaved by Dragon Palace. In the intense battle earlier, Old Man Bei Feng died already.

He was not the only one, all of the Four Dragon Generals died in this battle. Even the strongest of the enslaved, Di Zang Sheng, was now suppressed by Heavenly Court.

On a certain mountain of Sorrowful Wind Mountain Range.

Several youngsters were herding sheep, they got into an argument.

A youngster was being bullied, he was the weakest and thinnest person here, he took several steps back amidst the argument.

"Wang Xiao Er, this mountain is occupied by us, there is no place for you here."

"Scram now, get lost from our sight."

Several youngsters wore thick leather jackets, they had muscular bodies and vicious expressions.

Wang Xiao Er's clothes were patched up with many tattered areas, he looked like a beggar.

He resisted weakly: "But my sheep need to eat, if I do not feed them sufficiently, uncle and aunt will beat me up when I return."

The youngsters laughed loudly, the strongest one struck and pushed Wang Xiao Er to the ground.

"Go to the other mountain to herd your sheep, there is still some grass there. Scram now! Otherwise, I will break your leg!" The muscular young man threatened viciously.

Wang Xiao Er struggled to get up, he did not resist, he only moved his small group of sheep and left the mountain.

He walked with his thin legs, crossing rivers and steep paths. There was no road on the mountain, Wang Xiao Er often fell down and suffered bruises from the hard rocks on the ground, only the sheep behind him were traveling without any problems.

Wang Xiao Er finally found a small patch of grass, the sheep got tired and thirsty after running around, even without his command, they went forward and competed to eat the food.

Wang Xiao Er was so tired he laid down on the rock and watched the sheep fighting to eat, he sighed to himself: "Recently, the sorrowful winds in the mountains are getting more violent, there is less and less grass available. That is why they chased my sheep away from that grassland."

The patch of grass was tiny, it was completely gobbled up by the sheep after some time. The stronger sheep ate the most food while the remaining sheep growled in hunger.

Wang Xiao Er shook his head, this mountain had little grass, it was scattered all over the place. If he wanted to feed all the sheep, he would need to head to another mountain. It would not only waste time but energy as well.

“Oh sheep, oh sheep, at least you guys have food. In order to feed you all, I will definitely have to return late. I will definitely be beaten up by uncle and aunt, I will have to eat leftover rotten food.”

Even though Central Continent was the most developed among the five regions, most of the mortals still lived difficult lives, it was common to starve.

Right at this time, there were suddenly rumbling noises heard.

Wang Xiao Er raised his head, this was a strange situation, why was there thunder rumbling in this bright sky?

After that, he slowly opened his mouth and saw a shooting star falling from the sky.

The shooting star became larger and larger in his vision, winds became stronger, the rumbling sounds were deafening, even the temperature of the air rose.

Wang Xiao Er was completely stunned, he froze on the spot, the surrounding sheep sensed the danger, they started crying out and running around.

Not just the sheep, the wild beasts on the mountains were also scrambling, the originally quiet mountain suddenly became very lively.

As the shooting star got closer, Wang Xiao Er finally got a good glimpse of it.

This shooting star was actually a mountain-sized beast!

The wild beast crashed down with a loud sound, coincidentally, it was the mountain that Wang Xiao Er lived on!

The mountains collapsed as rocks flew, earth shook as the mountain trembled, dust clouds rose up rapidly.

The village on the mountain was instantly destroyed, there were anguished cries of people mixed with the growls of beasts, Wang Xiao Er could hear these sounds spreading through the air currents produced.

Rumble rumble rumble…

As Wang Xiao Er stared with a frightened gaze, terrifying cracks were spreading on the ground, soon, the surroundings of the mountain peak also cracked, they fell apart piece by piece.

The youngsters who chased Wang Xiao Er away earlier all met with a disaster!

“Am I going to die?” Wang Xiao Er sat on the ground helplessly.

He seemed to have lost all of his strength, he could only watch as the dust clouds devoured him like a hungry beast that ate everything in its path.

Inside the dust clouds were countless rock shards carried by the wind.

One of them hit Wang Xiao Er’s forehead.

Before he fainted, his final thought was that of confusion, why did a giant beast fall from the sky?

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2040 - Qing Mouth

2040 Qing Mouth

Above the clouds, in the sky.

Dragon Palace barely managed to create a golden light to shield itself, but it was trapped inside the black smoke spiral, resisting against the ferocious attacks from the outside.

Only three immemorial year beasts that Spectral Soul took control of were left.

The rest were all defeated by Wu Shuai using Dragon Palace. As for their falling corpses and what mountains they destroyed, how many people they killed, nobody in this battle cared, they could not afford to bother with the devastating disaster that a mortal boy like Wang Xiao Er experienced.

The remaining three immemorial year beasts regained their senses after the black smoke dissipated, they fought against Spectral Soul once again.

But Wu Shuai had a heavy mood.

These immemorial year beasts were collected by Fang Yuan in an attempt to restore his Twelve Zodiac battle formation, at this crucial moment, he had to use them for battle.

The result was that due to Spectral Soul's methods, they became used by him instead.

After the fight earlier, the remaining three immemorial year beasts were all injured, they could not be used to break out of this situation.

Spectral Soul easily managed to resolve Fang Yuan's method, he dealt with the situation without breaking a sweat.

Not only could Spectral Soul control soul beasts, ordinary enslavement path methods were also useless against him, he could use it against the enemy instead!

Wu Shuai was deeply worried: "At this rate, how long can we last?"

Fang Yuan frowned tightly, his opponent was Spectral Soul now, he was trying hard to maintain his defense, but inside sovereign immortal aperture, the myriad tribulation was rampaging and causing destruction. After this short while, Mini Southern Border lost many resource points, his losses were rapidly increasing.

The bigger problem was that even if Fang Yuan gave up a portion of his immortal aperture, he could not break free from the myriad tribulation. This was because the heaven path dao marks that created the tribulation were very special, they could move around. He had to endure the myriad tribulation forcefully to get past this biggest hurdle.

Spectral Soul's eyes shined with cold light, he did not chase after his enemies and attack Dragon Palace again, instead, he looked away.

In his vision, a black dot appeared.

Soon, this dot expanded as a legendary immemorial beast showed its appearance, it had a tortoise shell, four tiger paws, dragon tail, snake neck, and a human head. Its hair was disheveled and it had a twisted expression filled with insanity.

It was Qing Chou who had caught up!

Spectral Soul did not avoid Qing Chou's pursuit, instead, he started to smile coldly: "Since you are here to court death, that will be the best outcome."

However, when Qing Chou reached Spectral Soul, the corner of its tortoise shell split open as a pair of bat wings formed instantly! This was very similar to the wings of the green claw ghost winged lion.

Immortal killer move — Qing Mouth!

Qing Chou opened its mouth, as it had a human face, its mouth was not big, but right now, its mouth opened to form a huge green-black hole.

The hole expanded rapidly, it shot out and devoured Spectral Soul in one mouthful.

The hole rapidly shrunk as it entered Qing Chou's mouth. Qing Chou swallowed as it gulped, a ball could be seen flowing down its snake neck, into its stomach.

"Good chance!" At this moment, brilliance flashed in Wu Shuai's eyes.

"This move was left behind to deal with you, scumbag!" Qing Chou roared loudly in joy after devouring Spectral Soul, memories surfaced in its mind again…

"What, all three Gu Immortals we sent were killed by Ming You?"

"Impossible!"

"But that is the truth. Ming You first pretended to be weak and got injured on purpose, causing our three immortals to split up to look for him. He ambushed them at a corner and found the opportunity to launch a shameless sneak attack on them. Out of carelessness, all three immortals met with their demise."

Qing clan's hall turned silent.

They wanted to restore their reputation but they ended up suffering even greater losses. A rank seven Gu Immortal was not easy to nurture, especially when they were elite rank seven Gu Immortals of Qing clan.

The losses were really huge for Qing clan, their foundation was definitely shook.

"Ming You deserves death! We were too careless… this lesson is very important, we need to remember it and pass it down to the future generations. I am going to deal with him personally.” Qing clan first supreme elder said.

The immortals were silent, nobody expressed their objection.

Sending a rank eight Gu Immortal against the rank seven Ming You was really not something to be proud of. But Qing clan could not afford to lose anymore, all of the super forces in Western Desert were watching them like a joke!

However, when Qing clan’s first supreme elder was about to set off, he received a challenge letter.

This letter came from another Western Desert super force which had deep enmity with Qing clan, they requested a battle with Qing clan first supreme elder, wanting to use the result of this battle to decide their territorial boundary.

“Damn it, at this juncture!” Qing clan’s Gu Immortals shouted immediately.

“They are doing this on purpose. But the territorial boundary determines the ownership of a resource point, the benefits involved are too much. What do you think?” Qing clan first supreme elder hesitated at this moment.

“I will go and end Ming You’s life.” Qing clan’s second supreme elder stood up.

“You?” The first supreme elder hesitated.

Second supreme elder smiled: “I only have rank seven cultivation level but Ming You is heavily injured, he needs to recuperate. We have already learned of his details, even though his methods are innovative and peculiar, they are mostly soul related. My immemorial desolate beast green claw ghost winged lion is his nemesis. Not just that, I created an immortal move called Qing mouth, I gained inspiration from the green claw ghost winged lion and created it. Once used, it can devour souls. Don’t worry everyone, I can definitely take this Southern Border Gu Immortal’s life.”

“Alright, go ahead. Be careful on this trip.” Eventually, first supreme elder nodded and agreed.

“With second supreme elder taking action, we will definitely succeed!”

“Ming You is as good as dead, he is not a threat, our problem now is still this challenge letter.”

“Second supreme elder, you must avenge Qing Hua Lan and the rest!”

…

“I finally took revenge for all of you!” As his memories faded away, Qing Chou could not help become choked with tears, hot tears started to flow out of its red eyes.

Revenge was finally taken, it felt relieved and free.

“Such a familiar sight…” Spectral Soul spoke in a casual tone from within Qing Chou’s stomach.

Qing Chou’s body instantly froze.

Next, it felt bitterness.

Deep bitterness.

Intense bitterness!

An indescribable and unendurable bitterness!

Bitter, it was too bitter.

“Ugh…” Qing Chou’s expression turned pale, it gagged as it almost wanted to vomit.

It quickly gritted its teeth, enduring desperately.

The taste of bitterness surged like a huge tsunami, it crashed towards the limits of its endurance.

Qing Chou growled in pain, its entire body was shivering from the bitterness, it could no longer fly as it fell towards the ground.

While descending, it started to feel hungry!

It was as if there was an empty space in its stomach.

No, it was not just hunger, it was a sort of loss. It was as if its entire body was experiencing a loss.

“Now, you should know how Qing clan’s second supreme elder died in my hands? Indeed, I purposely got hit by Qing mouth killer move. Do you know why I am so confident? Hehe.” Spectral Soul chuckled from inside Qing Chou’s stomach.

Long ago, when Spectral Soul was still young, before he went up against Western Desert’s Qing clan…

Ming You who was extremely successful in life met with a wild green claw ghost winged lion and suffered a terrible defeat.

“Impossible! The soul path I created actually failed to beat a beast. Even though it is an immemorial desolate beast, my soul path… how can my soul path be so pathetic and weak?!”

Ming You who was tired after a long fight fell to the ground, he stared at the green claw ghost winged lion with a crazed expression of disbelief and indignance.

The green claw ghost winged lion stood on four legs, it looked at Ming You who was on the sandy ground, its entire body was casting the shadow of death down on him.

Next, the green claw ghost winged lion lowered its head as it opened its bloodthirsty mouth.

Plop.

With a soft sound, the green claw ghost winged lion bit off Ming You’s leg.

Ah——!

Ming You cried out in pain, after losing his entire right leg, blood poured out of the wound.

The intense pain caused him to curl his body, twisting around on the ground. Soon, the surroundings were dyed red from blood.

After biting off his right leg, the green claw ghost winged lion swallowed it and felt annoyed by the moving Ming You, it stretched out its right claw and pressed him firmly on the ground.

No matter how Ming You struggled, he could not resist the strength of this beast.

The green claw ghost winged lion lowered its head and bit off Ming You's left arm this time, swallowing it.

Ming You cried out in pain again, his eyes turned white as he almost fainted from pain.

The pain was even more severe this time, earlier when his right leg was bitten off by the green claw ghost winged lion, it was a quick action, but this time, his left arm was torn off forcefully. There was still a small chunk of flesh left on his shoulder, the white arm bone could be seen with the naked eye.

Ming You resisted, he used a soul path killer move with his full strength, but all his attack only impacted the green claw ghost winged lion slightly, it did not move back at all.

Because of the attack, the green claw ghost winged lion lost its patience, it opened its mouth for the third time and ate Ming You entirely.

It started to move its teeth and chew.

Ming You's body was pierced and minced, his bones were all shattered. His brain was not spared either, blood matter and brain matter mixed together, along with his minced flesh, they were all swallowed by the green claw ghost winged lion.

Only Ming You's soul was left.

However, the green claw ghost winged lion could not digest human bodies, it only ate souls as food.

Ming You's soul could not escape from the green claw ghost winged lion's stomach, he was rapidly broken down by the gastric acid.

The shadow of death loomed over him.

Ming You's soul shook intensely, he realized that death was approaching him.

"Am I going to die…"

"Dying in the mouth of a mere beast?"

Damn it!

Indignance!

"I am still too weak. I can do much more!"

"I can definitely do more things, I have just created soul path…"

But his soul path methods were countered by the green claw ghost winged lion. This immemorial desolate beast was simply the natural nemesis of Ming You!

"I cannot die here. I will not accept this outcome."

"There must be a way, there has to be a way!"

"My immortal aperture is still inside my flesh body, it is still with me. My Gu worms are around too… but soul path is useless here. I, I still have food path!"

But the food path killer moves he had could not resist the green claw ghost winged lion, otherwise, he would have used them already, he would not end up like this.

"If existing food path killer moves are useless, I will create new food path killer moves!"

This was wishful thinking, but for Ming You, it was his only hope, even though the hope was extremely slim.

Ming You did not think about the unlikeliness of this action, he only focused on thinking, doing his best to create his concept.

Never before was he so concentrated on something!

His soul was still eroding, it became smaller and smaller.

His thoughts were producing at an increasing slower speed.

Soon, even his thoughts could not move anymore.

“I… cannot… give up…”

“I have to think… I got it… u003cu003cThe Legends of Ren Zuu003eu003e…”

“That’s right, didn’t Ren Zu get eaten as well?”

Chapter 2041 - Bitter Taste, Swallow Loss

2041 Bitter Taste, Swallow Loss

u003cu003cThe Legends of Ren Zuu003eu003e, chapter five, section thirty-two.

Ren Zu continued on his journey, after a while, a huge Predicament entered Ren Zu’s vision.

Strong Gu was inside this Predicament’s body, it laughed: “Oh human, I am back again. This time, I have help, let’s see what you can do!”

Ren Zu had to stop walking, even though the Predicament before him was huge, he did not fluster.

Long long ago, Ren Zu had been chased by a group of Predicaments as he escaped, but after he gave his heart to hope Gu, those Predicaments which feared hope escaped in panic.

“Oh hope Gu, I need your help.”

Ren Zu summoned hope Gu but the light of hope did not scare away this Predicament.

What was going on?

“Haha!” Strong Gu laughed: “Oh human, this Predicament has gained my help, it will definitely be the greatest Predicament you have ever met in your life. With just hope, how can you possibly defeat it?”

Ren Zu could not think of a way.

At this moment, weak Gu that was shielded by Ren Zu spoke in a soft voice: “Oh human, thank you for protecting me. Don’t worry, I have an idea, let’s scare this Predicament away!”

“You can scare it away?”

Weak Gu shook its head: “Oh human, even something as weak as me has a method to survive in life. Against those that want to eat or bully me, I will often put up a deceiving disguise, to make others think that I am very strong.”

“This world favors the strong. Even if we are weak, we need to disguise ourselves as strong beings or we will be bullied everywhere.”

“Oh human, you can do it. Don’t you have fear Gu? Isn’t attitude Gu on your face?”

Ren Zu heard weak Gu’s suggestion and decided to try it.

He first twisted his appearance using attitude Gu, revealing his teeth and showing a fierce expression. Next, he used fear Gu to scare the Predicament as it bore its teeth, sprawling on the ground and staring at Ren Zu vigilantly.

Ren Zu was dazed: “Why didn’t we scare it away?”

Weak Gu urged: “Didn’t it jump earlier? This means that my method works, but we need to put in more effort. Oh human, why don’t you put attitude Gu on top of self Gu? What is the best form of deceit or disguise? It is to deceive even yourself. By doing that, we should be able to deceive the Predicament.”

Weak Gu continued: “As long as the Predicament thinks that you are strong, it will definitely let you pass. That is because Predicaments often take the initiative to give way to the strong.”

Ren Zu took off the mask on his face as he placed attitude Gu on self Gu.

However, it was pointless.

The Predicament did not run off in fear.

Ren Zu realized at once: “I understand now, when a person faces a huge predicament, putting up a facade will never solve the real problem.”

Strong Gu laughed: “Oh human, stop wasting your effort. With me here to remind the Predicament, how can you guys possibly deceive it? You should not have saved weak Gu, weak people often like to jeer and taunt others, showing a ruthless demeanor to conceal their own weakness inside.”

Ren Zu was helpless, he could only stall for time temporarily.

Suddenly, he had a flash of inspiration as he said to strong Gu: “You said that the law of survival is for the strong to eat the weak, I agree with that. But how do you prove that you are strong while we are weak? If you cannot prove this, on what basis are you allowed to eat us?”

Strong Gu was dazed: “It is because I am strong Gu and that is weak Gu.”

Ren Zu shook his head: “Just your names alone cannot prove anything. Moreover, other than both of you Gu worms, myself and this Predicament are also here.”

Strong Gu smiled coldly: “Then I have a good method to prove it! We will eat a portion of each other, whoever fails to persevere to the end will lose, whoever is weak deserves to be eaten.”

Ren Zu saw that he could not stall for any more time, he had to take a risk: “Then we will do that. Don’t regret it! However, which of us will eat first?”

Strong Gu was confident in its strength, it chuckled: “So what if I let you go first?”

Ren Zu assessed the Predicament with his gaze, the truth was he had never eaten any Predicaments before.

Ren Zu thought about it before he had an idea: “Then I will eat the head of the Predicament first.”

Thus, Predicament took off its head and gave it to Ren Zu.

Ren Zu only took a bite when his face became distorted, he almost vomited on the spot: “So bitter!”

It turned out that this was a huge bitter head[1].

Not just that, even though the Predicament lost its head, it was still standing, the neck that was missing a head did not bleed at all, there were no issues at all.

“Haha!” Strong Gu laughed: “Oh human, you chose wrongly, by just eating bitter heads, you cannot resolve any predicaments. Moreover, whether you are capable of eating this huge bitter head is another question altogether! If you cannot eat it, it means that you are a weakling, you deserve to be eaten by us.”

Compared to the Predicament’s head, Ren Zu’s body was very small.

Ren Zu knew that strong Gu was right, he could not afford to lose. If he lost, not only would he fail to protect weak Gu, he would even lose his life and become the food of the Predicament.

Ren Zu could only frown as he opened his mouth, continuing to eat the bitter head.

After taking dozens of mouthfuls, Ren Zu suddenly stopped, he opened his mouth and almost vomited.

Hope Gu encouraged him: “Oh human, don’t vomit. If you grit your teeth, you can devour any hardship that comes your way. Humans do not just need to eat food, they also need to taste bitterness.”

Ren Zu nodded as he continued to eat.

Halfway through, the fear Gu on his body started to shout: “Oh heaven, when will we ever finish eating it?”

Ren Zu also felt a trace of despair.

Courage Gu quickly said: “Oh human, you cannot be afraid of tasting bitterness. Don’t fear bitterness, suffering is only temporary, if you start to fear suffering, you will suffer for life.”

With the help of courage Gu, Ren Zu finally managed to eat all of the bitter heads after great hardship.

Ren Zu wiped his mouth as he looked at strong Gu with difficulty: “You can choose now.”

Strong Gu smiled: “Then we will eat your skin first.”

Ren Zu had to pull off the skin on his body as he threw it to the Predicament.

The Predicament had no head, it stuffed Ren Zu’s skin down its neck. Ren Zu’s skin was completely eaten but its huge belly did not expand at all.

Strong Gu asked again: “Oh human, what are you going to eat next?”

Ren Zu was troubled now, he had just eaten the Predicament’s head, it was too bitter, even though he endured the process, his stomach was almost full now.

As for the Predicament, even though it had no head, it was still alive and standing.

“What should I eat now? I ate too much earlier, my stomach is reaching its limit, if I have to eat a lot, my stomach might burst and I’ll die.” Ren Zu thought to himself, he had to eat the most important and fatal part of the Predicament’s body!

But which part of the Predicament’s body was the most important?

After thinking for a long time, Ren Zu finally had an idea, he said to strong Gu: “Then I will eat the part that you absolutely do not want me to eat.”

Strong Gu snorted coldly: “Then you can eat some losses[2].”

It took out all of the losses from the Predicament’s body and gave it to Ren Zu for consumption.

These losses were not big, the quantity was not large either.

Ren Zu was quite surprised, because after these losses were taken out, the originally huge Predicament shrunk by a lot.

Rules and regulation Gu started to explain for Ren Zu: “Oh human, this is not strange. Predicaments vary according to people, since you ate such a huge bitter head earlier, you will have less losses to eat, thus, it became smaller.”

Ren Zu became happy: “This is great. Even if I eat all of these losses, I will not reach my limit, it will not fill my stomach completely.”

Ren Zu opened his mouth and ate a small loss.

It was so spicy!

Ren Zu could not even speak at this moment.

Continuing to eat.

Ren Zu opened his mouth as he breathed heavily, his empty eye sockets also started to tear up uncontrollably.

Eating again.

Ren Zu’s entire body was covered in sweat that merged with the tears flowing out of his eye sockets.

The most uncomfortable thing for Ren Zu was that budding flames started to appear in his heart. These yellowish flames resembled chicks, they gathered together in groups.

The more losses one ate, the more flames of resentment they would feel in their heart.

The more flames of resentment they had, the more uncomfortable it felt, even Ren Zu’s several hearts could not take it, they were going to be incinerated soon!

Right at this moment, the heart of nobleness grew in Ren Zu's chest.

Compared to the other hearts, the heart of nobleness was able to endure the most flames of resentment. With this heart to bear the burden, Ren Zu finally managed to endure it.

Ren Zu ate all of the losses.

Strong Gu looked at Ren Zu's bulging belly as he smiled coldly: "Oh human, you are almost at your limit, it is time for us to eat."

Ren Zu breathed roughly as he asked: "What do you want to eat?"

Strong Gu said: "I want to eat your flesh."

Ren Zu was helpless about it, he could only let it eat his flesh.

Ren Zu's skin and flesh were inside Predicament's stomach, he only had his bones, organs, and hair left.

…

In this deep and eerie darkness, only Ming You's thoughts were flickering with much difficulty, radiating the light of hope near the end of his life.

"I… can do it…"

"Come on… come on…"

Food path killer move — Bitter Taste!

Food path killer move — Swallow Loss!

The green claw ghost winged lion was flying in the air, suddenly, its body shook as it fell towards the ground with a pitiful cry.

With a loud sound, it crashed into the desert, creating a deep pit.

The green claw ghost winged lion struggled intensely, causing the sand on the ground to turn into a huge sand wave.

It could not endure the immense feelings of bitterness, the flames of resentment burned intensely in its heart.

It knew that Ming You was the one causing problems in its stomach, it stabbed its claw into its stomach without hesitation!

After spending a long time struggling, it slowly came to a halt as its life force dissipated.

Using the hole that its claw created, Ming You's soul flew out like a trace of smoke, bringing along his immortal essence and Gu worms, escaping from the stomach of the beast.

"I actually survived." Even he did not think that this would be the outcome!

His soul was dim, after floating and moving for some time, he collapsed onto the ground.

Only after resting for a long time did he recover slightly.

Looking at the dark sky, Spectral Soul who was still a young adult snorted coldly before laughing to himself: "Pathetic, truly pathetic. However, in this world, in this world… who does not struggle at death's doors?"

"I swear!" Spectral Soul's figure was blur and vague, he seemed to be pointing at heaven.

He used an extremely firm and determined, yet incomparably weak voice to shout with all his strength: "This is the last time I will struggle before death in my life! From today onwards, only I can cause others to struggle in the face of death, the five regions and two heavens can bear testament to my words!"

Heaven and earth was silent.

Going back to the present, his memories faded away as the battlefield reappeared.

Qing Chou was rolling around in the air, finally, it could not take it anymore as it vomited out Spectral Soul.

Spectral Soul's body was like a phantom, moving rapidly and reaching Qing Chou's back.

He raised his right arm as his five fingers turned black like ink, it was quite peculiar. His five fingernails were longer than his fingers, they were white and sharp, emitting an icy and terrifying aura.

"Go ahead and struggle to death. Don't worry, I will not let any of you feel even the slightest hope of survival!"

Spectral Soul's eyes shined with a dark light, his five fingers stabbed at lightning speed.

Roar—!

Qing Chou's body shook, all of its strength surged again as Spectral Soul quickly absorbed everything.

[1] The Chinese phrase for suffering/hardship is written as bitter head literally.

[2] Eat loss is the literal meaning of the phrase that means suffering a loss, being disadvantaged, or ending up in an unfavorable situation.

Chapter 2042 - Venerable Spectral Soul

2042 Venerable Spectral Soul

Lightning flashed and thunder roared, causing destruction to sovereign immortal aperture.

Mini Southern Border was ravaged by the myriad destruction lightning forest to a pitiful level, countless mountains collapsed, the earth cracked as deep crevices formed. Combat Beast King was bathed in blood as he fought, his injuries were getting more severe, the situation was getting tougher now.

He was using his life to forcefully hold on and maintain the situation.

“Compared to the might of heaven and earth, even if I am a rank eight Gu Immortal, so what?” Combat Beast King had been cultivating in sovereign immortal aperture, he gained a lot of knowledge and his strength rose greatly, giving him a boost of confidence. But now, facing the myriad tribulation, he could feel how tiny and insignificant he was.

The range of the myriad destruction lightning forest expanded again, because Fang Yuan’s main body had to deal with the fight outside, he was at a disadvantage. Against this myriad tribulation, even if Fang Yuan put in all his effort, it would still be a dangerous process, and yet half of his attention was drawn away to deal with Spectral Soul.

This was a myriad tribulation, countless rank eights had faltered at this hurdle!

Fang Yuan's situation was quite unique, this was not his first myriad tribulation. He had not just skipped two myriad tribulations, this current one was created by the three thousand heaven path dao marks in his body.

A myriad tribulation created this way was extremely rare even in the long history of humanity.

Forced by the situation, Fang Yuan had to multitask, he dealt with the situation outside while simultaneously observing sovereign immortal aperture.

He looked at the heaven path dao marks that transformed into lightning path and cloud path to create this myriad tribulation, he suddenly comprehended something.

"I think I understand something now." At that instance, he realized the origin of the calamities and tribulations!

In the past, he knew that calamities and tribulations were controlled by the Heavenly Dao, it cared about balance, to take away surpluses while replenishing deficits. Every Gu Immortal and immortal aperture was a mass congregation of dao marks, thus, the Heavenly Dao had to take measures to maintain the balance.

Every once in a while, the Heavenly Dao would unleash its might, creating calamities and tribulations for Gu Immortals. But how could it create these calamities and tribulations? Fang Yuan did not know.

Right now, this question in Fang Yuan's heart got answered by the scene before him.

It turned out that matter what kind of tribulation, it was actually created using heaven path dao marks. The heaven path dao marks could transform into any path, thus, there were the flying frost jumping lightning tribulation, four inferno cloud tribulation, dragon roar tribulation, heavenly drum thunder tribulation, wind flower calamity, snow moon calamity, profound white flying salt calamity…

These tribulations were of the various paths, there were many types of them, Gu Immortals could not guess what would come, thus they faced huge difficulties. The Heavenly Dao would even mimic venerable methods, for example, Thieving Heaven Demon Venerable's formless hand.

All these different tribulations were merely the manifestation, in essence, they were all heaven path dao marks!

The higher the Gu Immortal's cultivation level, the more dao marks they would have, and the bigger the difference between them and the natural environment. The more imbalanced it was, the more heaven path dao marks would be drawn to them, and the stronger the tribulations they would face.

Nobody in the world could cultivate heaven path, even if a Gu Immortal passed a tribulation successfully, they would not gain heaven path dao marks. These heaven path dao marks would transform into the dao marks of other paths and fuse with the Gu Immortal's immortal aperture.

Thinking about it, back in Crazed Demon Cave, the heaven path dao marks derived many strange and peculiar small worlds, after these worlds were destroyed, they transformed back into heaven path dao marks.

As for the immortal tribulation tempering aperture killer move that Fang Yuan obtained from Lang Ya Sect, it used the same logic.

Immortal tribulation tempering aperture killer move used the blessed land and grotto-heaven as the refinement target, using the killer move to connect the immortal aperture with the five regions world outside, influencing the calamities and tribulations and using it to temper the immortal aperture itself.

Lang Ya blessed land was once located at Northern Plains' crescent lake. Around the vicinity of crescent lake were water path and refinement path dao marks, immortal tribulation tempering aperture killer move was often used to deal with the calamities and tribulations. Most often, water path and refinement path calamities would occur. After passing it, the immortal aperture would gain water path and refinement path dao marks.

The true effect of this move was to affect the transformation of the heaven path dao marks.

In Giant Sun Immortal Venerable's true inheritance, there were also luck path methods to weaken tribulations. For example, Dog Shit Luck and Fortune Rivalling Heaven. He was using luck path dao marks to interfere with the creation of tribulations by the heaven path dao marks, causing a favorable change to occur and weakening the might of the tribulations.

In Beast Calamity grotto-heaven, there was myriad beings assimilation transformation killer move, it limited the transformation of the heaven path dao marks, thus each tribulation turned into a transformation path beast calamity instead.

The exposing heavenly secret killer move that Fang Yuan obtained from Shadow Sect could precisely deduce the content of the following tribulation. Exposing heavenly secret killer move used heavenly secret Immortal Gu as the core, very evidently, it also targeted the root source, the heaven path dao marks, to make its deductions. Thus, each deduction was extremely precise about the content.

Immortal tribulation tempering aperture, luck path methods, myriad beings assimilation transformation, exposing heavenly secret… Fang Yuan had all of these methods, it was a pity that he could not use them now.

The heaven path dao marks restricted his actions, he could not activate any of these moves.

Only by using human path methods to resist heaven path could Fang Yuan gain some time and opportunity to activate other killer moves. Like earlier in Heavenly Court when he used unlimited qi sea killer move to deal with primordial qi wall.

Fang Yuan had a human path formation in sovereign immortal aperture that used the thousand wish tree as the core. But heaven's will was not stupid, it knew about Fang Yuan's information. Myriad destruction lightning forest also appeared in Mini Central Continent, it was attacking the human path formation, making Fang Yuan trapped in a tighter spot.

Roar—!

Beast growls resounded, a large group of soul beasts moved out towards the lightning clouds in the sky.

They charged relentlessly without any concern about their own lives.

These were all soul beasts, most were desolate beasts, there were some ancient soul beasts and four immemorial soul beasts.

These soul beasts were all captured by Fang Yuan in green ghost desert. Among them, the immemorial soul beasts were enslaved when Fang Yuan helped Fang clan to obtain Divine Bean Palace.

These soul beasts were usually kept in Mini Black Heaven.

Right now, Fang Yuan was facing a crisis, he had to make use of them.

The soul beasts were extremely fragile under the myriad tribulation, they were completely defenseless. In just a while, a hundred desolate level soul beasts perished from the lightning bolts, more than ten ancient soul beasts died as well.

Fang Yuan's heart was cold as ice, he did not waver.

The soul beast group had already served its purpose, it drew the firepower away and took away the pressure, allowing Fang Yuan to gain some time.

This included the immemorial soul beasts, without Immortal Gu, they were just high tier cannon fodder against the myriad tribulation, but they were still useful as meat shields after all.

Fang Yuan did not dare to use the soul beasts against Spectral Soul.

The truth was, after Spectral Soul took control of the year beasts, Fang Yuan gave up on this aspect.

A huge amount of strength flowed like a tidal wave into Spectral Soul's body.

Qing Chou struggled intensely, using killer moves to attack itself manically. However, Spectral Soul endured Qing Chou's attacks forcefully as he continued to drain its strength.

Soul beasts existed in this world because Spectral Soul created soul path.

Spectral Soul understood soul beasts too well, not only could he make them loyal to him, he also has methods to extract strength from them to replenish himself.

Qing Chou's struggles became weaker and weaker.

Spectral Soul looked at Qing Chou with great satisfaction, the hatred Gu within its body was already reaching completion, this fool was simply sending itself to death while contributing treasures as well.

Spectral Soul suppressed Qing Chou while keeping his attention on Dragon Palace, all along, he did not relax, he stared at Fang Yuan's main body without looking away.

The entire situation was still under his control!

Whoosh!

Suddenly, winds blew as the air rumbled, two giant hands slammed towards Spectral Soul from the left and right.

One hand was black while the other was white, they were grand and majestic, containing deep profundities, it was the qi path killer move — Yin-yang Great Killer Hands!

At the crucial moment, Fang Yuan's qi path clone arrived.

Spectral Soul smiled coldly, black smoke spewing out of his body, from the smoke, two immemorial soul beasts flew out and slammed into the two qi path giant hands.

The qi path hands grabbed as the two immemorial soul beasts growled in pain, but they did not die just yet.

Qi Sea Ancestor could neither let go of them nor continue grabbing them at this moment.

If he grabbed onto them, his offensive momentum would be halted. If he let go, these two immemorial soul beasts would still attack him later.

Qi Sea Ancestor shouted as he waved both hands, letting them fly far away, bringing the immemorial soul beasts away from the battlefield.

Spectral Soul's goal was achieved, he used two immemorial soul beasts to restrain Qi Sea Ancestor while also wasting his energy. After all, Qi Sea Ancestor had to sustain the two qi path hands to trap the immemorial soul beasts.

Qi Sea and Spectral Soul's first round of fighting ended up as a simple exchange.

Spectral Soul used two immemorial soul beasts while Qi Sea Ancestor wasted some mental energy, immortal essence, timing. Both sides were evenly matched, in fact Spectral Soul lost a bit more, after all, the immemorial soul beasts had rank eight battle strength!

But looking at the big picture, Spectral Soul's gains were slightly higher, he still continued to control the situation.

Because he controlled Soul Pacifying grotto-heaven secretly, it had many immemorial soul beasts, losing two was no issue. In contrast, Qi Sea failed to use this opportunity well, he originally wanted to disrupt Spectral Soul but was interrupted, this chance was wasted.

Spectral Soul made use of his advantage well, he continued to absorb Qing Chou's strength to strengthen himself while weakening Qing Chou. On the whole, he had gained a lot from this first round of combat.

This round was just a tiny projection of their fight, yet it showed Spectral Soul's abundant and rich battle experience, his vision loomed over the entire battlefield. His control of combat was so precise and flawless, even someone like Fang Yuan felt stifled.

Fang Yuan was not giving up obviously, he focused on repairing Dragon Palace while asking Qi Sea Ancestor to attack again.

Spectral Soul focused on three things at once, he suppressed Dragon Palace and used the black smoke spiral to damage it, he absorbed Qing Chou's soul beast strength, he also used killer moves to resist Qi Sea Ancestor's attacks.

Dragon Palace, Qing Chou, and Qi Sea Ancestor, these were three entities with top tier battle strength in the world, yet they could not turn the situation around even by being on the same side!

To speak the truth, Spectral Soul's current strength was not too impressive, but he had the complete dominance over Dragon Palace, he countered Qing Chou's abilities, and he even knew about Qi Sea Ancestor's information.

"His soul path methods are used in succession, the moves complement each other and are tightly connected, this is an exceptional combat system. In contrast, my Qi Sea clone has only existed for a short period of time, he has too few methods that are all easily countered." Fang Yuan's main body understood the reason.

Qi Sea clone's most common offensive method was yin-yang great killer hands and his main defensive method was heavenly astral cloth robe. His foundation was too low, when observed by Spectral Soul, after just a few exchanges of moves, he would be able to create a countermeasure easily.

Be it battle strength, knowledge, or experience, Spectral Soul stood at the peak of the world. After all, he was once the invincible Demon Venerable that dominated the world!

Among the generations of venerables, Spectral Soul was publicly recognized as the one with the deepest killing intent.

He had gone through intense battles, he fought his way to the top, he was an expert that carved out his own bloody path through countless hurdles!

Under his venerable throne, there was a mountain of skeletons and sea of corpses.

Chapter 2043 - Dragon Palace Escapes

2043 Dragon Palace Escapes

"Qi Sea Ancestor, how is the situation over there?" Amidst intense battle, Fang Yuan's clone Qi Sea received Qin Ding Ling's transmission.

Qi Sea Ancestor did not speak, he recorded the scene of the battle using an information path Gu worm and sold it to Qin Ding Ling in treasure yellow heaven.

Heavenly Court soon gained an understanding of the battle situation.

Qin Ding Ling was slightly shocked internally, Spectral Soul's strength far surpassed her initial estimations, it seemed like Qi Sea Ancestor could not restrain Spectral Soul, at this rate, Spectral Soul might likely kill Fang Yuan and defeat Qi Sea, he would also absorb Qing Chou, he would be the greatest winner in this clash!

This was something Qin Ding Ling did not want to see.

Fang Yuan and Spectral Soul were supreme demons, it would be great if they both perished, the best scenario would be Longevity Heaven going down with them! That was the result Qin Ding Ling most wanted to see.

"We have our Immortal Gu House, if we join the fight, we can cause some changes to it. Even though Qing Chou is strong, it is a mistake to use it against Spectral Soul. Looking at Spectral Soul's actions, it seems that he is sure that Fang Yuan is inside Dragon Palace. Then has Fairy Zi Wei already succeeded in her deductions and informed Spectral Soul?"

Qin Ding Ling guessed the truth but she was not certain.

She looked at the operating wisdom path formation and Calamity Luck Altar beside it.

If Heavenly Court could exterminate Fairy Zi Wei and the rest, that would be the best. Clipping Spectral Soul's wings prematurely would result in fewer variables in this battle. It was a pity that Calamity Luck Altar was here, most of Longevity Heaven's experts came along with it, Qin Ding Ling was not confident of taking down Fairy Zi Wei at this moment.

"Longevity Heaven…" Qin Ding Ling gritted her teeth.

Among the Heavenly Court Gu Immortals present, she hated Longevity Heaven most deeply. Back then, she was forced to become Giant Sun's immortal concubine. She endured this humiliation and successfully switched to cultivating luck path, she eventually participated in the fate war. But at the crucial moment, Giant Sun immortal zombie's attack tilted the balance of the final battle in his favor.

"Longevity Heaven, I will settle the scores with you one day!" Qin Ding Ling swore in her heart.

Right when Qin Ding Ling was thinking, a rank seven Immortal Gu House flew over.

This Immortal Gu House was owned by Spirit Affinity House, the first supreme elder and second supreme elder were inside it as they brought along an important person, Feng Jin Huang.

"Feng Jin Huang, quickly retrieve the dream realms before us." Qin Ding Ling ordered.

"Yes." The door of the Immortal Gu House opened as Feng Jin Huang stood on the steps, quickly using her method with a solemn expression.

She had dream wings Immortal Gu and the modified pure dream reality seeker transformation. In fact, this killer move was created by Fairy Zi Wei's deductions.

As dream realms turned into human form, they flew into Spirit Affinity House's Immortal Gu House.

Shadow Sect and Longevity Heaven were stirred.

Fairy Zi Wei's eyes shined with brilliance.

Old Man Zheng Yuan quickly asked: "Fairy, do we take action?"

After all, these dream realms belonged by Spectral Soul, his attainment levels were inside them.

Fairy Zi Wei shook her head: "We will wait for now, these dream realms are just a small portion, they are not important. Fang Yuan is our main priority!"

At the moment, Spectral Soul's side had a clear advantage. At this rate of development, Shadow Sect was greatly favored. Fairy Zi Wei did not want to upset the balance now and disrupt the overall situation.

Feng Jin Huang was just a rank five Gu Master, she was not even a rank six Gu Immortal. But her status was quite unique, she was Feng Jiu Ge's daughter!

If anyone attacked her, it might cause Feng Jiu Ge to come.

Feng Jiu Ge's future self had likely disappeared, similar to Hei Lou Lan and Bai Ning Bing. But even so, with Feng Jiu Ge's own strength, he could participate in this fight, he was an uncertain variable.

Especially when this variable was not favorable for Shadow Sect, Fairy Zi Wei wanted to have less problems if possible.

Calamity Luck Altar's Bing Sai Chuan had the same thought, he did not make a move in the end.

Feng Jin Huang was heavily protected by Heavenly Court's immortals as she gradually collected the dream realms.

Qin Ding Ling had a complex emotion.

She eventually made this move, using Feng Jin Huang and thus, Feng Jiu Ge indirectly to intimidate their opponents. Since when did the great Heavenly Court fall to such a level?

The pride in Qin Ding Ling's heart pressured her, but the logic in her mind told her to use all of the resources and influences they could gather!

Qi Sea Ancestor transmitted information again, requesting for Heavenly Court's reinforcement.

Qin Ding Ling rejected his request politely, asking him to persevere some more time.

Thus, Qi Sea Ancestor changed his request: "Sorrowful Wind Mountain Range is closest to Black Heaven Temple, why don't you ask them to send an Immortal Gu House to patrol the periphery of the battlefield. If I am unable to stop Spectral Soul from killing Fang Yuan, we can still rely on Black Heaven Temple."

Qin Ding Ling thought about it but did not tell Qi Sea Ancestor about her orders to Black Heaven Temple, she rejected: "Black Heaven Temple is not strong enough to participate in this battle."

Qi Sea Ancestor replied angrily: "This is a prime opportunity! If Heavenly Court hesitates and loses the chance, either one of these two demons getting stronger will be a problem for the righteous path."

Qin Ding Ling sighed: "Why wouldn't I know that? But Heavenly Court is not as before, we need to act cautiously. If we send Black Heaven Temple's Gu Immortals there, they would only die in vain. Please understand our plight!"

Qi Sea Ancestor felt a little dejected. Since Heavenly Court's leader openly spoke of their weakness, they were really not the Heavenly Court of before, their style of action changed, Fang Yuan could not make use of them easily anymore.

While Qin Ding Ling and Qi Sea Ancestor spoke secretly, Demon Immortal Qi Jue was also asking Spectral Soul: “Fang Yuan’s main body is here, why aren’t you coming here?”

Fang Yuan placed his will in Myriad Year Flying Warship, he also left behind Immortal Gu and immortal essence, under the effect of familiar face killer move, he could disguise his will very well.

Demon Immortal Qi Jue told Spectral Soul about this but the latter continued to fight Dragon Palace, not showing signs of leaving. This made Demon Immortal Qi Jue quite suspicious.

Spectral Soul directly replied: “Don’t forget about Fang Yuan’s familiar face. We cannot be sure of his location.”

Demon Immortal Qi Jue became increasingly suspicious: “Spectral Soul, are you hiding something from me?”

Spectral Soul replied: “Don’t worry, just continue restraining Myriad Year Flying Warship, you will get your due remuneration.”

But Demon Immortal Qi Jue did not fall for it, he smiled coldly: “Don’t worry indeed, I have a brilliant plan to find out which is Fang Yuan’s main body.”

Saying so, he suddenly stopped dealing with Myriad Year Flying Warship as he flew towards Spectral Soul’s direction.

Myriad Year Flying Warship was stunned for a moment before quickly pulling away from Demon Immortal Qi Jue.

Spectral Soul sensed something amiss, he quickly transmitted: “Qi Jue, don’t do anything foolish.”

But Demon Immortal Qi Jue was firm: “Sometimes, we need to take a chance right? Or maybe, you can tell me the information that you just obtained?”

Spectral Soul snorted but did not reply.

Demon Immortal Qi Jue turned silent as he flew into the sky with an increased speed.

In a few breaths of time, Myriad Year Flying Warship appeared behind him again.

Seeing this, Demon Immortal Qi Jue laughed loudly: “Oh Spectral Soul, look, I found out the truth already. I can be certain that Fang Yuan’s main body is inside Dragon Palace now!”

If Fang Yuan’s main body was inside Myriad Year Flying Warship, he would have flown away already. But now, Myriad Year Flying Warship returned to stall Demon Immortal Qi Jue, it showed that Fang Yuan’s main body was unwilling to see Spectral Soul gain reinforcements, he had to stop Demon Immortal Qi Jue from leaving.

At this moment, Fang Yuan’s plan to deceive his enemies by splitting up has failed completely.

Demon Immortal Qi Jue was a famous demon in history, his seniority was higher than everyone here, including Spectral Soul.

After sensing something wrong, he quickly tested his method to find out the truth.

Spectral Soul snorted coldly, showing displeasure. With Demon Immortal Qi Jue’s move, the situation got out of Spectral Soul’s control.

Spectral Soul was just using Qi Jue by promising benefits, they were wary of each other in essence, their relationship was merely because of mutual gains. The reason why Spectral Soul did not want Demon Immortal Qi Jue to come over was because this uncertain variable could possibly get greedy and fight with him over the immense benefits of killing Fang Yuan!

Right now, from Demon Immortal Qi Jue’s actions, it showed that Spectral Soul’s worries were well justified. Demon Immortal Qi Jue definitely had his own ideas.

But Spectral Soul did not fluster.

Back when he lured Demon Immortal Qi Jue to join the battle, he had already thought of this. But there was no helping it, Spectral Soul had just regained his strength, Shadow Sect was still very weak.

Because of the many variables in this battle, Spectral Soul had to increase the strength of his side, it was thanks to Fairy Zi Wei communicating with Longevity Heaven earlier, to rope them in with Shadow Sect temporarily, otherwise the situation would have been even more chaotic.

Did Bing Sai Chuan had no such intentions either? Was he really going to watch Spectral Soul kill Fang Yuan like that?

Of course not.

Fairy Zi Wei was a wisdom path great expert, she had deep considerations. She created the formation in front of Heavenly Court, it was to restrain them as well as Longevity Heaven.

This battle to kill Fang Yuan was not as grand as the fate war but it involved four parties, tens of Gu Immortals, and almost all of the peak experts in the current world.

These people plotted against each other and schemed deeply, Spectral Soul could sense acutely that his control over the situation was slipping.

Immortal killer move — Qi Wall!

During the intense battle, Qi Sea Ancestor pushed with both hands as a colossal qi wall formed instantly.

The qi wall was like a mountain as it pressed towards Spectral Soul.

Spectral Soul pointed with his fingers as several immemorial soul beasts appeared, growling as they blocked the qi wall.

But Qi Sea Ancestor shouted suddenly as he raised his right fist, he spread out his fingers as his palm targeted Spectral Soul from afar.

Spectral Soul seemed to have sensed something as black smoke appeared around him in a ball shape, shielding him.

The moment Qi Sea Ancestor's killer move was ready, he moved his palm away and targeted the black smoke spiral instead.

Immortal killer move — Great Qi Hand Explosion!

Bam.

Following an intense explosion, the black smoke spiral was completely torn apart as black qi flew all over the place. Dragon Palace which was greatly damaged moved quickly as it drew a golden trail of light in the sky, rapidly escaping!

At this point in the battle, Dragon Palace finally broke free.

Spectral Soul's attention was drawn by Demon Immortal Qi Jue, Qi Sea Ancestor found this small loophole and quickly made use of his opportunity with some luck.

Spectral Soul looked at Qi Sea Ancestor deeply, other than intense anger and killing intent, there was also praise and admiration in his gaze.

Qi Sea Ancestor had made a brilliant move!

Now that Dragon Palace had escaped, Spectral Soul had to keep up with it, he had to abandon the heavy Qing Chou.

It was such a pity! Spectral Soul was only a bit of time away from completely subduing Qing Chou.

Chapter 2044 - Leaving Stealthily

2044 Leaving Stealthily

“Fang Yuan, where are you trying to escape to?” Spectral Soul smiled coldly, black smoke oozing out of his body.

An immemorial soul beast as large as a giant python flew out of the black smoke, it pounced at Dragon Palace with strong winds around it.

The orange-golden light flickered on Dragon Palace as a trace of pink smoke flew out.

With the movement of the smoke, the immemorial soul beast easily got suppressed inside Dragon Palace without putting up a resistance.

It was immortal killer move — Dreamy Light Smoke!

Spectral Soul was only afraid of this method from Dragon Palace, but now that it was used, he immediately used the opportunity to move with increased speed, approaching Dragon Palace like a specter.

Immortal killer move — Qi Wall!

Qi Sea Ancestor pushed with both hands as winds blew wildly, a giant qi wall appeared out of nowhere and blocked Spectral Soul.

Spectral Soul snorted coldly, breaking the qi wall but losing his battle opportunity.

Dragon Palace changed directions, the aura of dreamy light smoke became denser again.

Behind it, Qing Chou roared and wanted to chase them but it was powerless, in a few breaths of time, it was left in the dust.

Dragon Palace, Spectral Soul, and Qi Sea Ancestor fought while they traveled rapidly in the sky.

Qi Sea Ancestor played the role of a nuisance perfectly, he prevented Spectral Soul from succeeding multiple times.

Spectral Soul became annoyed, he started to attack Qi Sea Ancestor aggressively.

But at this time, Dragon Palace suddenly retaliated as it shielded Qi Sea Ancestor. Especially with the killer move dreamy light smoke ready to strike at any moment, Spectral Soul could not act too aggressively.

Thus, the situation went into a deadlock!

Spectral Soul had not returned to his peak condition, thus, when fighting against Dragon Palace and Qi Sea Ancestor, his battle strength was not much higher. Once they cooperated and assisted each other, even Spectral Soul felt a sense of helplessness, he could not fight against both enemies, targeting one of them would allow the other to act, it was hard to take action now.

At this time, Spectral Soul could not help but think of Qing Chou.

“I should not have weakened Qing Chou to this extent. If it still had some battle strength left, it would disrupt their cooperation!” Spectral Soul felt a little regret.

He was all alone and did not need cooperation, but Fang Yuan and Qi Sea Ancestor were different, they had to work together intrinsically to resist Spectral Soul.

Qing Chou was overwhelmed by rage, once it joined the battle, it would ruin Fang Yuan and Qi Sea Ancestor’s cooperation, Spectral Soul would have a lot of opportunities to strike.

But what Spectral Soul did earlier was not wrong either. If he could subdue Qing Chou completely, Spectral Soul's advantage would rise, he would almost certainly claim victory.

It was a pity Qi Sea Ancestor ruined it!

He was merely a step away from completely subduing Qing Chou, but just that bit of time would allow Fang Yuan to escape from them, Spectral Soul could not take the risk.

This time, Spectral Soul had the advantage of being undercover, but what about next time?

Once Fang Yuan becomes cautious against him, would he have another chance?

Even Spectral Soul could not be sure.

Despite Fairy Zi Wei's deduction method, would Fang Yuan be unable to counter it?

Heavenly Court was the best example, they could not capture Fang Yuan despite countless efforts.

What was the outcome?

Fang Yuan got stronger and stronger, he fought his way to Heavenly Court and destroyed fate Gu!

Even though Fang Yuan was backed by many individuals who paved the way for him, what made all of these people invest in him?

Were there no better candidates?

Even for otherworldly demons, there were many of them in the world.

Fang Yuan was used by heaven's will and all these people, he was obviously someone who was unique and had great value.

Forget about the rest, just his ability to escape was something even Spectral Soul felt admiration towards.

Fang Yuan's attainment in escaping was very deep, he had a scheming and crafty mind! He was most skilled by borrowing others' strength, he could escape under the thumbs of many powerful forces, quickly raising his strength over time.

Spectral Soul had such rich battle experience, he knew deeply that someone like Fang Yuan had to be dealt with seriously. Once he struck, it had to be a fatal blow, he could not give Fang Yuan any time to rest or recuperate. This enemy was too good at making use of opportunity, he could easily gain a new lease on life and turn the situation around.

Fang Yuan was the type of person who could shine with a bit of sunlight, sprout with a bit of water, or create great problems with just a bit of time.

Indeed, Spectral Soul was wary against Fang Yuan.

Even he had to admit this truth.

Because he saw a trace of himself in Fang Yuan!

"Fang Yuan, defending will lead to your eventual loss, how long can you last? I will definitely kill you!" Spectral Soul said coldly, not forgetting to exert mental pressure on Fang Yuan.

"Qi Sea, after this battle, even if you hide, I will find you in Eastern Sea. I will destroy your qi sea and kill all of your subordinates!" Spectral Soul turned around and threatened Qi Sea Ancestor.

Qi Sea clone replied calmly: "The so-called Demon Venerable is actually resorting to trash talking."

Spectral Soul smiled coldly.

Qi Sea Ancestor's expression quickly changed, black smoke appeared around him as it started to invade his body.

Spectral Soul used words to distract Qi Sea Ancestor, even though this was not a weakness, in Spectral Soul's eyes, it was enough to create an opportunity for himself!

Qi Sea Ancestor quickly evaded it as Spectral Soul wanted to pursue him, Dragon Palace flew over and blocked Spectral Soul, bearing some of Qi Sea Ancestor's burden.

Qi Sea Ancestor exerted all his strength to alleviate the problem on him, after regaining his footing, he went back into the battle.

It was a deadlock once again.

But this time, no matter how Spectral Soul provoked him, Qi Sea Ancestor showed no carelessness.

Like this, the three sides fought and whipped up countless storms, the impact of their clash spreading towards the northern direction.

They flew past Sorrowful Wind Mountain Range, entering Intestinal Gorge.

Black Heaven Temple's immortals were hiding in Intestinal Gorge.

Several Immortal Gu Houses were concealed around Intestinal Gorge, leaking no aura at all.

Seeing that the battle far away was approaching them, Black Heaven Temple's immortals immediately turned excited.

"Coming, they're coming!"

"They're finally here."

"The battle is so intense, is that female immortal Spectral Soul who is using the body temporarily?"

"Dragon Palace has been heavily damaged, Fang Yuan has no battle strength left, I've never seen him in a more pathetic state."

"He deserves it! If not for him, fate Gu would not have been destroyed. Be it Spectral Soul or Fang Yuan, they deserve to die!"

Black Heaven Temple's immortals gritted their teeth, they had a different tone when speaking of Qi Sea Ancestor.

"When we take action later, we should avoid Qi Sea Ancestor."

"It was all thanks to him that Heavenly Court's qi harvest fruit was completely removed."

"He is our alliance mate, he does not know that we are here in ambush, we cannot harm him."

Even though Qi Sea Ancestor and Dragon Palace were working together, Black Heaven Temple's Gu Immortals did not feel surprised. Spectral Soul was too strong, they had to work together to resist him. Precisely because of Qi Sea Ancestor's hard work, Fang Yuan and Spectral Soul were still opposing each other, expending their energy.

"Close, they are close."

"Let's do it!"

Black Heaven Temple's Gu Immortals were ready to strike.

Pew!

Right at this moment, Spectral Soul unleashed an aggressive killer move, black smoke rumbled as dark winds howled, several mountains were affected by the winds and instantly got disintegrated into dust.

Bam.

Qi Sea Ancestor had to unleash qi wall killer move to resist the dark winds.

Dragon Palace released intense golden light, shooting out a grand light pillar to fight offense with offense, attacking Spectral Soul.

Right when the pillar was about to hit, Spectral Soul's body flickered as he vanished on the spot, evading the light pillar easily.

The light pillar tore through the sky, it was over a thousand feet long, creating a huge trench on the ground. At that instance, smoke rose as countless mountains collapsed.

A brand new artificially created Earth Trench appeared before the eyes of the Black Heaven Temple immortals!

After this eruption of attacks, Spectral Soul no longer had a chance to attack, he quickly stopped and continued to fight against Qi Sea and Dragon Palace as they flew away.

The Black Heaven Temple immortals hiding in the Immortal Gu Houses were silent.

The battle they saw earlier shook their minds and bodies!

“So this is their real battle strength!” Many people understood this and broke out in cold sweat.

Nobody spoke about attacking anymore.

The atmosphere was quite awkward.

Eventually, Black Heaven Temple’s first supreme elder coughed and broke the silence.

He purposely mumbled to himself: “No wonder Heavenly Court’s Lady Qin asked us to wait here and observe the situation.”

“Indeed, indeed, Lady Qin is very wise.”

“What do we do now?”

“Let’s continue waiting in ambush, they did not discover us. Maybe we will get a chance again?”

“That is right, even if we do not gain any opportunities, we can’t come here and do nothing right? We must collect information about this battle and inform Lady Qin at least.”

Rumble!

Right when the Black Heaven Temple immortals were discussing, the intense battle in the sky erupted again.

At once, the sky turned dark, earth shook as mountains rumbled.

The aftermath of their collision created huge air currents that surged out. Trees were uprooted as mountain rocks flew, wild beasts cried out in pain, it was the sight of an apocalypse.

Black Heaven Temple’s immortals watched with wide eyes as Spectral Soul unleashed a black soul ball but Dragon Palace evaded it.

The soul ball fell into a nearby valley.

There was no sound, at the instance, with the valley as the core, the surrounding thousand li of mountains and valleys turned into black dust that flew away with the wind. The originally lively mountains vanished soundlessly, only a huge crater was left.

Gulp.

Someone swallowed their saliva, it was clearly heard by the Gu Immortals.

“What was that killer move earlier? It is so strange!”

“There are no records of it in history.”

“It is not strange that Spectral Soul is able to use such powerful methods, but if it landed on us…”

“Not just us, even our sect’s Immortal Gu Houses might not be able to survive such an attack.”

“Let’s… leave? Lady Qin asked us to act according to the situation, we are allowed to retreat if needed.”

Black Heaven Temple’s immortals looked at each other before turning to the first supreme elder.

First supreme elder’s expression was extremely dark, he said with a solemn tone: “We need to preserve our strength, we cannot waste it here. If we die now, who will look after Black Heaven Temple? Lady Qin will not blame us, we are planning for the future.”

The result was, Black Heaven Temple’s immortals came stealthily and watched as the battle in the sky flew away, after that, they stealthily retreated without a sound.

Chapter 2045 - Myriad Tribulation“s Transformation

2045 Myriad Tribulation“s Transformation

“Fang Yuan, this is as far as you go!” Spectral Soul chased for some time before attacking again, he was very confident this time.

At once, dark winds howled, black clouds filled the sky, it was like an immensely thick wall appeared before Dragon Palace.

“This is… quickly retreat!” At this moment, Wu Shuai’s expression turned nervous, he noticed that this was a soul path battlefield killer move!

Black clouds spread out as Dragon Palace and Qi Sea Ancestor quickly retreated.

Immortal killer move — Soul Taker Battlefield!

This was Spectral Soul’s famous battlefield killer move.

Spectral Soul had used this move to kill countless enemies. Once the battlefield was activated, dark blue soul beasts would be formed within the dense fog, there would be countless soul beasts that appeared unceasingly. Living beings who died in this battlefield would have their souls taken and transformed into soul beasts, under the control of the killer move’s user.

When Dragon Palace was trapped by the black smoke spiral, there was still hope of escaping. But if it got trapped by soul taker battlefield, the chances of escaping would be close to zero.

Fang Yuan had Shadow Sect's true inheritance, soul taker battlefield was included in this inheritance, he knew a lot about the move.

But now, Spectral Soul used this move openly, it was likely that he had already modified and improved upon it. In fact, Fang Yuan's knowledge might be a trap from Spectral Soul.

At this moment, Fang Yuan and Qi Sea Ancestor did not dare to continue fighting, they quickly focused on escaping.

Spectral Soul rode on the endless black smoke as he chased after them.

When ordinary Gu Immortals used battlefield killer moves, they would need to cancel it if it could not trap the enemy.

But was Spectral Soul ordinary?

He used the split move technique to split soul taker battlefield into many parts. The first part was the black smoke, Spectral Soul could sustain it and move it around without any problem or weakness.

"Soul taker battlefield was created by Spectral Soul in his early days, he used it until the later part of his life. By then, he created an even stronger battlefield killer move — Hundred Million Slaughterfield. Why isn't he using the stronger killer move? Unless, he does not have the necessary Gu worms?" Fang Yuan guessed.

Spectral Soul was also guessing: "After escaping from Heavenly Court, Fang Yuan has been going north. Where is he trying to go? Northern Plains? If it is Northern Plains, which location is he going to? Crazed Demon Cave?"

Now that the five regions were united and the regional walls vanished, Spectral Soul had a huge advantage. Without the regional walls, Fang Yuan only has several ways to shrug off these pursuers.

Spectral Soul was very familiar with the five regions, he guessed Crazed Demon Cave at the first try.

Even if Spectral Soul could not be certain, he knew that stopping Fang Yuan from going to the north was a wise decision. Thus, Spectral Soul moved his black smoke to spread out across the surroundings, forcing Fang Yuan to change directions as he flew back to Sorrowful Wind Mountain Range.

At the same time, in another battlefield.

“I’m done.” Feng Jin Huang panted heavily as she stopped her killer move. Her forehead was covered in sweat. Using pure dream reality seeker transformation killer move like this placed a huge pressure on her.

But it was done now.

Under the supervision of Heavenly Court, Shadow Sect, and Longevity Heaven, more than ten rank eight Gu Immortals watched as Feng Jin Huang kept all of the dream realms away.

Fang Yuan was nowhere in sight!

“Fang Yuan was not hiding here after all.” The Gu Immortals were disappointed but also sighed in relief secretly.

Qin Ding Ling immediately asked as she moved her Immortal Gu House closer to the wisdom path formation: “Fairy Zi Wei, I’ve given you so much time. Right now, tell me, where is Fang Yuan’s main body?”

Calamity Luck Altar quickly moved ahead as it blocked Qin Ding Ling, Bing Sai Chuan’s voice resounded from within: “Slow down, immortal concubine from Heavenly Court!”

He called Qin Ding Ling an immortal concubine, he was referring to her past as Giant Sun Immortal Venerable’s woman.

But soon, Bing Sai Chuan changed the subject to Fairy Zi Wei: “But I hold the same suspicions as Immortal Concubine Qin. Fairy Zi Wei, I hope you can give us a satisfactory answer.”

Bing Sai Chuan could not wait either.

Because after such a long time, Fairy Zi Wei still had not given them an answer, it was not like what she said to them earlier.

Fairy Zi Wei stopped using the wisdom path formation as she collected the Gu worms.

She made up an excuse on the spot: “The situation is different from last time, Fang Yuan is prepared against us. However, I found his location after all.”

“Where?” Qin Ding Ling asked immediately.

Fairy Zi Wei had already kept away her core Immortal Gu, she answered: “Fang Yuan is in Dragon Palace.”

She spoke the truth.

Trying to keep Fang Yuan’s location a secret now was pointless.

Demon Immortal Qi Jue had his own plan, he was already heading towards Spectral Soul’s location, Myriad Year Flying Warship followed closely behind it.

From one glance, it was obvious where Fang Yuan’s main body was.

“We will pursue them!” Qin Ding Ling ordered.

Heavenly Court’s Immortal Gu Houses started to fly together as they guarded each other.

Shadow Sect and Longevity Heaven also followed suit.

But the three parties were quite spaced apart, the atmosphere was a little tense.

Fairy Zi Wei’s side was quite helpless here, she wanted to stop Heavenly Court here but the alliance with Longevity Heaven was not reliable, they were only allied in name.

As for Heavenly Court?

Qin Ding Ling could not confirm the truth behind Fairy Zi Wei’s words, but since Fang Yuan was not inside the dream realms, he had to be in Dragon Palace or Myriad Year Flying Warship. Looking at Spectral Soul’s actions, it was more likely that Fang Yuan was inside

Dragon Palace.

Before they found Fang Yuan's main body, Qin Ding Ling did not want to target Fairy Zi Wei. It was too much of a waste of time now, and in this period, if either Spectral Soul or Fang Yuan claims victory while Heavenly Court was not around, it would be a huge loss.

For Longevity Heaven, Bing Sai Chuan also wanted to see how things progressed. He did not want to act rashly, because their strength was not enough to suppress everyone, he needed to use his timing well and target Fang Yuan. If he managed to kill Fang Yuan, the gains would be immense.

All three groups targeted Fang Yuan.

It was really a rare chance to kill Fang Yuan, the opportunity would not present itself twice.

Boom!

With a loud sound, Dragon Palace crashed into a mountain like a shooting star.

But Dragon Palace did not stop there, it went deep into the mountain's interior as a result of the huge force that sent it flying.

Qi Sea Ancestor quickly used qi wall to obstruct Spectral Soul from chasing after it.

But Spectral Soul smiled coldly, he moved around Qing Chou.

Instantly, Qing Chou's eyes turned red as it attacked furiously.

Qi Sea Ancestor's attacks were stopped by Qing Chou, using this chance, Spectral Soul flew downwards.

At the moment of crisis, a heavily damaged Dragon Palace flew out of the smoke, dodging Spectral Soul's assault.

Not long ago, Qing Chou joined in the battle against Spectral Soul, but it was made use of instead.

Fang Yuan fell into danger again, Dragon Palace suffered a heavy blow, it was about to break, it could only escape and stall for some time.

The outside battle was tense, but inside Fang Yuan's sovereign immortal aperture, a change had occurred even though the myriad tribulation was still rampaging.

Fang Yuan sacrificed his soul beast group resolutely, not only did they bear the brunt of the tribulation, heaven's will's attention was also drawn away.

The pressure on Fang Yuan lifted by a bit, there was finally a chance for him to activate the human path formation again.

The human path formation erupted with great might as a grand white light pillar shot into the sky, into the depths of the lightning clouds.

At once, the myriad tribulation's lightning clouds froze.

Using this chance, Combat Beast King attacked, scattering countless Gu worms in the sky.

Fang Yuan's divine sense enveloped them as he set up a formation rapidly.

In order to make this counterattack, he had made ample preparations. With his deep formation path attainment, he quickly created a formation in the sky.

Heaven's will reacted after that, sending lightning bolts to attack together.

Combat Beast King roared as he intercepted the lightning bolts without dodging.

After over ten breaths of time, his star armor shattered, he fell to the ground while bathed in blood.

With a loud sound, he created a pit on the ground as he fell unconscious, either dead or alive.

Lightning bolts shot towards the formation again.

At the critical moment, the formation's set up finally succeeded as it turned into a huge basin.

The basin shot out profound light that had a mysterious attractive force, it absorbed all of the lightning bolts that shot out.

The myriad tribulation was very fierce but the basin successfully absorbed and turned it into a pool of lightning plasma.

The lightning bolts continued to attack while the lightning pool grew in volume.

The lightning pool was not special, it was a common resource point for lightning path cultivators, almost all lightning path Gu Immortals would create one in their immortal aperture. It was like how light path Gu Immortals would create a Five Light Mountain.

But this lightning pool's appearance was a huge help to Fang Yuan, it bore the brunt of this myriad destruction lightning forest tribulation. It was even more effective than the old Combat Beast King.

This was because this lightning pool's core was not ordinary, it was a rank eight Immortal Gu that Fang Yuan had — Lightning Gu!

But good times did not last, heaven's will controlled the myriad tribulation to target the newly formed lightning pool. As the water level of this pool rose gradually, it was about to overflow.

Immortal killer move — Unrestrained Heavenly Mark!

Fang Yuan directly used this killer move on the deep blue plasma in the lightning pool.

The plasma seemed to be made of lightning path dao marks, but it was actually formed from a small portion of those three thousand heaven path dao marks.

These dao marks were restrained by the lightning pool, they were sitting ducks. Due to Fang Yuan's killer move, they were quickly refined, the efficiency was much higher than before!

One, two, five… ten dao marks!

The water level of the lightning pool stabilized before falling rapidly.

The lightning in the sky suddenly ceased.

Heaven's will was not stupid, it knew that continuing with this would lead to failure, Fang Yuan would gain much more instead.

It started to transform the myriad tribulation.

Heaven path was inclusive of everything, it contained lightning path, it could turn into countless lighting bolts. It also contained other paths, it naturally had all sorts of forms to take.

Since Fang Yuan made a countermeasure, heaven's will immediately stopped and changed its method to cause destruction to sovereign immortal aperture.

For ordinary myriad tribulations, the content would be fixed once it appeared.

But Fang Yuan's myriad tribulation was special, it was made of over three thousand heaven path dao marks, heaven's will controlled it personally, it could change forms at will.

This undoubtedly raised the difficulty of Fang Yuan's tribulation by many times!

"This is too much…" As the old Combat Beast King woke up gradually, he had already separated from the star sea snail. Deep within the pit, his old body was buried in the fragments of the star sea snail, he looked at the changing myriad tribulation as this old rank eight Gu Immortal showed a deep expression of despair.

At the same time, in the external battlefield.

"Spectral Soul, I will lend you a hand!" Demon Immortal Qi Jue had finally arrived.

Spectral Soul gained reinforcements but he had an unhappy expression, he only snorted in reply.

He knew about Demon Immortal Qi Jue’s true intentions, but now was not the time for internal conflict.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2046 - Falling for a Trap

2046 Falling for a Trap

Demon Immortal Qi Jue arrived and immediately attacked Qi Sea Ancestor. The secluded domain of heaven and earth above his head, Xi Land, was too powerful against qi path.

Qi Sea Ancestor was Dragon Palace’s greatest help, now that he was restrained, Dragon Palace’s situation became more dangerous.

But soon, Myriad Year Flying Warship arrived too and started to join the fight. Even though Fang Yuan faced much difficulty, he managed to drag this fight on.

Spectral Soul yelled, his body moved like a specter, his palm landed on Dragon Palace again.

Countless soul beast silhouettes appeared on the surface of Dragon Palace like a series of still images, a portion of Dragon Palace shattered, it was damaged both internally and externally.

Dragon Palace unleashed dreamy light smoke, Spectral Soul quickly retreated.

At the next moment, Demon Immortal Qi Jue pointed at Dragon Palace suddenly.

Qi currents gathered, they exploded instantly.

The exterior of Dragon Palace had already been blown to bits, only the main hall was left. Now that it suffered this powerful attack from

Demon Immortal Qi Jue, a huge hole appeared on the roof of this main hall, it could be seen from the outside.

Spectral Soul saw this and smiled coldly, not holding back his praise: “Qi Jue, well done!”

At this stage, everyone knew that Dragon Palace was in grave danger, if they worked harder, they would be able to shatter it entirely.

Fang Yuan and Qi Sea Ancestor could cooperate, Demon Immortal Qi Jue and Spectral Soul could do the same as well!

After Demon Immortal Qi Jue joined the fight, he suppressed Qi Sea Ancestor and cooperated with Spectral Soul. Even though they did not have close coordination, these two had abundant battle experience, they could find ways to work together.

And this cooperation pushed Dragon Palace beyond the brink of destruction.

When Fairy Zi Wei, Qin Ding Ling, and Bing Sai Chuan arrived, they saw that Dragon Palace shattered into countless fragments as they scattered everywhere.

Fang Yuan and Wu Shuai, who were inside Dragon Palace were exposed, but they quickly went inside Myriad Year Flying Warship, which came to pick them up.

Myriad Year Flying Warship was significantly faster than Dragon Palace, it immediately moved away and escaped.

The three groups of immortals were stunned before feeling great joy.

“Quick, Fang Yuan is done for!”

“Dragon Palace was actually destroyed!!”

“Even though Myriad Year Flying Warship is fast, in terms of defense, it is inferior to Dragon Palace.”

“We must kill Fang Yuan, we must restore Heavenly Court’s reputation.”

"Fang Yuan destroyed our Imperial Court blessed land, there is deep hatred between him and Longevity Heaven. We will kill him and take all of his true inheritances and Gu worms. We will pull out his soul and torture him for all eternity!"

"Fang Yuan, it is finally time for Shadow Sect to take care of you."

"We will kill Fang Yuan first before we compete among ourselves. We must not let him have any chance of getting away during our conflict!"

The immortals rushed up, they pursued Fang Yuan with great enthusiasm.

This was the greatest predicament that Fang Yuan had ever been in since his rebirth. He was currently chased by the top three super forces in the world, most of the world's strongest experts had gathered behind him. Qin Ding Ling, Fairy Zi Wei, and Bing Sai Chuan were Gu Immortals that left a name for themselves in history, there was even a fearsome being like Spectral Soul.

"Fang Yuan, you cannot escape." Spectral Soul smiled coldly to himself, when he saw that everyone's target was Fang Yuan, he did not chase them away, he allowed everyone to pursue him.

"Stay attentive, defend against Spectral Soul and Longevity Heaven." Qin Ding Ling instructed.

This was truly an amazing sight.

Heavenly Court, Longevity Heaven, and Shadow Sect joined forces to pursue Fang Yuan, but because of their mutual wariness, they did not go all out.

Fang Yuan did not create a situation where the three sides clashed because they all were not simple characters. At the same time, Fang Yuan's grudges with them were too deep, the wealth that he held was also too alluring.

Even if they held back, they were still sufficiently strong, their killer moves were all strange and unpredictable.

Not long afterwards, Myriad Year Flying Warship became covered in damages, many Gu worm corpses fell off it while it flew and escaped.

“At this rate, there is no way out!” Wu Shuai shouted: “Main body, our road to the north has been blocked, we can only go southwest now, this is hopeless. We cannot last much longer, Myriad Year Flying Warship is much frailer than Dragon Palace.”

Fang Yuan’s main body was sitting down and dealing with the myriad tribulation, he instructed: “Go underground, see if there’s any hope underground.”

Myriad Year Flying Warship was maneuvering in the sky, dodging Spectral Soul’s black soul ball, but a large number of killer moves still landed on it.

The white ship defended against the barrage of killer moves, soon, a portion of the ship turned dim as the white color turned to grey, it floated in the sky. Next, it vanished into thin air after intense winds swept it away.

Myriad Year Flying Warship was like an injured flying fish, it dived downwards, almost crashing to the ground.

“Follow it!”

“This ship will break with three more rounds of attacks.”

“Fang Yuan must die!”

“If we cannot obtain it, we will destroy the sovereign immortal aperture along with him, we cannot let others benefit from this.”

The three forces made similar decisions as they ordered.

Boom!

Myriad Year Flying Warship dived down underground like a white meteor.

As dust clouds rumbled, earth shook but it could not scare off the pursuers, they followed the hole that Myriad Year Flying Warship created as they dived in.

Bam bam bam…

Many killer moves continued to land on Myriad Year Flying Warship.

Myriad Year Flying Warship was starting to break apart, it was in a critical state.

“Hahaha, Fang Yuan made a foolish move, this is the underground, Myriad Year Flying Warship can’t move easily while we can hit it with great precision.”

“He can neither go up or down now! Fang Yuan, you demon, you slaughtered innocents and harmed the world, today you will face retribution, this is all just desserts!”

“Offending us will lead to your pitiful end!”

The immortals roared in anger.

Seeing that Fang Yuan was escaping in distress, all of the immortals’ morale surged to a peak level.

They just needed to put in a bit more effort to see Fang Yuan die right in front of them.

Within Myriad Year Flying Warship, Wu Shuai was covered in blood. With such intense attacks, Myriad Year Flying Warship could not be repaired in time.

Rumble…

After the immortals made their preparation, they started to attack again with a new wave of moves.

Countless killer moves were unleashed with some distance between them, trying to avoid nullifying each other, the terrifying wave of attacks swept towards Myriad Year Flying Warship layer by layer.

“Die!”

Bam.

At the moment of life and death, Myriad Year Flying Warship crashed into the rock in front and barged into a huge underground space.

Myriad Year Flying Warship had room to maneuver, it dodged most of the killer moves and escaped destruction. It was like a drowning person suddenly breathing in some air.

“What happened?”

“We entered Earth Abyss!”

“Is this Fang Yuan’s intention?”

“Chase him, we cannot let him escape.”

The immortals were stunned before charging through the rocks, arriving in the underground space.

It turned out that while Spectral Soul chased Fang Yuan, they went towards the southeast from Sorrowful Wind Mountain Range. Demon Immortal Qi Jue came from the east, he cooperated with Spectral Soul to force Fang Yuan to go southwest. Finally, because Fairy Zi Wei and the rest came from the south, Fang Yuan had to go west in the end.

After traveling west for some time, they arrived in Ancient Soul Sect’s territory.

Ancient Soul Sect was one of the ten great ancient sects, it had a long history, one of Ancient Soul Sect’s territories was a huge underground abyss.

The underground abyss was at least hundreds of thousands of square kilometers in size. The space was extremely large and the underground world was deep and secluded. There were all sorts of caves and tunnels, some were like labyrinths, some had giant underground lakes while some had flat ground.

Countless lifeforms lived here, in Fang Yuan’s previous life, endless beast tides emerged from Earth Abyss, attacking the surface and bringing disaster to Central Continent.

Central Continent’s ten great ancient sects spent several years before they were finally able to eradicate the beast tide from the surface. Afterwards, both righteous and demonic path Gu Masters and Gu Immortals moved together to explore Earth Abyss.

In the end, they found that this Earth Abyss was unfathomably deep, it had layers after layers, by the time Fang Yuan used Spring Autumn Cicada, they had already discovered a hundred and seven underground layers. It was impossible to estimate how many layers were still left.

“The environment here is complex, there are many lifeforms, the lower we go, the more immemorial desolate beasts there are, this is the best place to escape to.” Wu Shuai who was within Myriad Year Flying Warship realized at once.

Using Earth Abyss, Myriad Year Flying Warship’s situation started to improve.

But Spectral Soul and the rest also understood Fang Yuan’s scheme.

Many Gu Immortals stopped attacking with their full strength, they were wary against each other, but after getting so far, nobody wanted to give up.

Fang Yuan’s circumstances were dangerous, even though Myriad Year Flying Warship was not taking as much damage as before, it was still slipping towards the abyss of destruction.

Fang Yuan and Wu Shuai cooperated, they planned to the best of their ability, using the terrain, but still could not shrug off these pursuers.

The only difference was that these pursuers were now grouped into different categories.

The first and closest person to Myriad Year Flying Warship was Spectral Soul.

Followed by Qi Sea Ancestor, Demon Immortal Qi Jue, and Qing

Chou.

The final group was Heavenly Court, Longevity Heaven, Shadow Sect's Fairy Zi Wei, and the rest.

Boom!

Myriad Year Flying Warship, which was about to be destroyed, charged through the rocks again as it went to a lower layer.

Countless bats flew and escaped in panic.

In this layer, there were countless bats living around, it was like a huge black tide that had no end in sight.

Ordinary bats were turned into pulp by Myriad Year Flying Warship, while alerted immemorial black bats attacked while moving against the tide.

In this layer, black bats were the absolute rulers, because Myriad Year Flying Warship disturbed them, they were going to punish this daring invader.

"Oh?" Spectral Soul followed closely behind.

He saw the endless black bats, he became joyful and surprised.

"Fang Yuan, even heaven is not helping you, it seems that this layer will be the place you die." Spectral Soul suddenly howled.

As the howling sound spread out, innumerable black bats died, even ancient black bats were not spared. Only immemorial black bats survived, they tried to move with difficulty in the air.

Once Spectral Soul's howling ended, countless bat souls appeared from these bat corpses.

These souls quickly fused with his voice as black smoke enveloped Myriad Year Flying Warship from all directions.

Myriad Year Flying Warship quickly disintegrated from the invasion of the black smoke, it could not hold on anymore.

“Retrieve the core Immortal Gu, we will abandon ship!” Fang Yuan’s main body ordered.

Like how they sacrificed Dragon Palace earlier, they took back the core Immortal Gu with all their effort at the end. Dragon Palace’s core Immortal Gu Dream Token was already successfully retrieved.

But this was a dangerous move, when Immortal Gu Houses face destruction, the Gu Immortal retrieving the core Immortal Gu could only do their best and leave the rest to chance. There could even be times when they were too hasty to take out the core Immortal Gu, causing it to be severely damaged instead, eventually resulting in the Immortal Gu’s destruction.

At the next moment, Myriad Year Flying Warship broke apart entirely, Fang Yuan and Wu Shuai got exposed to the black smoke.

“He’s here! I will block him.” Wu Shuai stood before Fang Yuan.

“I said this before, your struggles are futile.” Spectral Soul approached as he spoke in an icy tone.

Qi Sea Ancestor and the rest had just arrived with the rest, he saw the overwhelming black smoke that shattered the silver-white light, Spectral Soul was attacking Fang Yuan’s main body.

“No!” Qi Sea Ancestor could not help them from this distance, he could only shout out in his mind.

At the moment before death, Fang Yuan suddenly smiled: “You fell for my trap, Spectral Soul.”

Chapter 2047 - Carelessness

2047 Carelessness

When Fairy Zi Wei and the rest arrived, they could only see an endless stream of black bats.

In this layer of the underground abyss, black bats were the sole rulers of all the living beings, right now, they felt provoked, they went into madness and rage.

Immemorial black bats commanded ancient black bats while ancient black bats commanded desolate beast black bats, these desolate beast black bats controlled the countless ordinary bats. When Shadow Sect, Longevity Heaven, and Heavenly Court arrived, the furious black bats poured their anger that had nowhere to be vented at these three parties.

Even though the three parties contained the strongest Gu Immortals in the current world, they could not help but freeze in their steps.

“Why are there so many black bats!”

“We need to kill the immemorial black bats to get rid of these beasts.”

“There are too many of them, these black bats are simply endless, we cannot waste time here, our primary goal is still Fang Yuan!”

The three groups charged into the black bat groups, they tried to move in this dangerous environment.

All of the Gu Immortals were top tier rank eight Gu Immortals in the current world, even though there were countless bats, they were still unable to match the immortals in actual combat.

But by the time the immortals got out of the bat groups, they could not see Myriad Year Flying Warship, Spectral Soul, Qing Chou, or others.

“What happened?”

“Where are they? There are no clues left behind at all!”

“This is impossible, we chased them according to the traces left behind from their fight.”

The immortals were shocked and uncertain.

Calamity Luck Altar burst out with golden radiance, melting the surrounding bats, a huge space was created immediately.

From within Calamity Luck Altar, Bing Sai Chuan’s impatient voice resounded: “Fairy Zi Wei, tell me, where is Fang Yuan?”

Old Man Zheng Yuan snorted coldly: “Why would we know?”

Qin Ding Ling sneered: “Shadow Sect, do you really think we are ignorant of your tricks? You waited and did not chase them, wasn’t it because you were trying to disrupt us?”

Qin Ding Ling spoke in a sharp tone, it seemed like she was sowing discord but it sounded like the truth, Shadow Sect got into a predicament immediately.

Fang Yuan, Spectral Soul, Qing Chou, Qi Sea, and Qi Jue all vanished, it was just too strange. The three forces chasing them became extremely anxious.

Fairy Zi Wei was also frowning deeply as she said: “We have lost contact with our master. I believe that other forces have interfered, the important thing is to find them now, if we fight among ourselves, this external force will succeed in their goal.”

Bing Sai Chuan spoke in an icy tone, not concealing his killing intent: “Then show me the capabilities of a wisdom path great expert.”

“Hmph, just you watch.” Fairy Zi Wei said as she started to activate her killer move, making deductions rapidly.

Qin Ding Ling did not speak but her killing intent was not concealed either. If she found any tricks from Shadow Sect, Heavenly Court would definitely attack them immediately.

Creak creak…

The surrounding black bats approached again, the Gu Immortals hesitated for a moment before quickly attacking and resisting the black bats for Fairy Zi Wei.

Fairy Zi Wei’s body was shining in a purple-gold light, aurora spread out constantly.

Fairy Zi Wei’s expression turned increasingly pale, immortal essence was expended rapidly until her body started shivering. Afterwards, she opened her eyes, purple light filling her pupils.

As the purple-gold light faded away, Fairy Zi Wei’s pupils returned to normal.

Her aura was significantly weaker now, it was clear that she had done her best in the deduction.

Under everyone’s supervision, she let out a breath of air: “I deduced it, a battlefield killer move enveloped all of them, causing us to not sense them anywhere.”

“Battlefield killer move?”

“Who is ambushing them here?”

“Hmph, do you have evidence?”

Fairy Zi Wei sneered, as a wisdom path great expert, she would naturally not end up empty-handed, she immediately split the bat groups apart as she directed the immortals to a trace of earth path aura that was about to dissipate.

After sensing the aura, the immortals started to analyze it.

"It is an earth path killer move indeed!"

"It really seems like a battlefield killer move."

"Watch me, I will find it!"

A certain Gu Immortal of Heavenly Court made his move, he was very confident at the start but soon, he returned without any progress.

Soon, this trace of earth path aura dissipated, only the bat groups remained to fight against the three groups of immortals.

The immortals' expressions were very ugly.

Some were still suspicious about Shadow Sect, some were thinking about ways to find the enclosed immortal battlefield, some were forced to fight against the black bats.

Longevity Heaven's Bing Sai Chuan still held some suspicions.

Fairy Zi Wei had the heaviest mood, she dealt with the black bats as she asked Heavenly Court: "You should be most familiar with this earth path aura! Heavenly Court, what do you think?"

Qin Ding Ling was silent for a moment before she said: "Indeed, this resembles Paradise Earth Immortal Venerable's method. We have the same idea now, to find this immortal battlefield and destroy it!"

"So it is Paradise Earth Immortal Venerable's force, no wonder…" Bing Sai Chuan realized at once.

In history, among the ten venerables, Paradise Earth Immortal Venerable was the most skilled at using immortal battlefield killer moves. His capability in this aspect was publicly known as the number one among venerables! Right now, the Reincarnation Battlefield that he created was still existing in Central Continent, owned by the ten great ancient sects.

Why did Paradise Earth Immortal Venerable's force take action?

None of the immortals here were surprised.

Paradise Earth Immortal Venerable and Spectral Soul Demon Venerable were on opposite sides, everyone knew that. Back then, Spectral Soul slaughtered everyone in his way, causing great terror and chaos, all of the people in the five regions lived in fear, the righteous path was weak while the demonic path surged. Ever since Paradise Earth Immortal Venerable started cultivation, he worked hard to turn this trend around, he restored peace to the world and suppressed the demonic path, he brought fortune to the world.

Because of the ideologies of Paradise Earth Immortal Venerable and Spectral Soul Demon Venerable, they had always conflicted.

“To find Paradise Earth’s battlefield and destroy it, the difficulty is just…” Bing Sai Chuan shook his head, even an expert like him hesitated and felt troubled.

“Why would Paradise Earth Immortal Venerable’s force take action? And why would they wait here in ambush?” A Gu Immortal asked.

This question made Fairy Zi Wei’s mood even heavier, a dark cloud loomed over her, shrouding her face.

“It must be Fang Yuan!” Even though there was no evidence, Fairy Zi Wei still said that with great confidence.

She had fought against Fang Yuan too many times, she was basically the loser each time. This feeling of defeat was too common to Fairy Zi Wei, she had experienced it countless times.

Each time she thought that victory was close, Fang Yuan would turn the situation around.

This current situation was also the same, Fairy Zi Wei felt very familiar with it.

Qin Ding Ling agreed with Fairy Zi Wei’s deduction: “We chased after Fang Yuan, but from another perspective, he was leading us here. While chasing and escaping, this route was planned by Fang Yuan. If he cooperated with Paradise Earth’s force and created this situation, it is indeed the easiest way. But why would Paradise Earth’s force cooperate with a demon like Fang Yuan? We have not seen it ourselves, is this really Paradise Earth's force? Or rather, which force under Paradise Earth is it?"

Paradise Earth Immortal Venerable was the closest venerable to the current era, he naturally left behind the highest number of forces.

Different from other venerables, Paradise Earth Immortal Venerable had never intentionally focused on developing any single force.

Heavenly Court had Primordial Origin Immortal Venerable, Star Constellation Immortal Venerable, and Genesis Lotus Immortal Venerable, it was developed by the three of them through painstaking effort. Longevity Heaven was Giant Sun Immortal Venerable's grotto-heaven, it was the foundation that he had left behind. Shadow Sect was operated by Spectral Soul's split souls for many years, it used Zombie Alliance as the front to slowly accumulate influence and strength.

Paradise Earth Immortal Venerable was different, he helped and assisted many different forces. For example, the Merman Imperial Court in Eastern Sea, it was because he did not want to see the merfolk get bullied. There was also Southern Border's Mushroomman Paradise, it was made because he did not want to see the mushroommen get slaughtered mercilessly.

Paradise Earth Immortal Venerable had the ability to turn an immortal aperture into a paradise, he helped many Gu Immortals in his life, he altered many grotto-heavens and blessed lands.

He even helped to enlighten many legendary immemorial beasts, for example, the blue dragon whale.

Paradise Earth Immortal Venerable did not just help humans, he also helped variant humans, or even other living beings that were in need.

Thus, he was the most loved venerable and also the most merciful. Even though Heavenly Court's Genesis Lotus Immortal Venerable also helped out countless living beings, he was mostly focused on helping nature and repairing habitats.

The other venerables all had offensive methods but only Paradise

Earth Immortal Venerable did not.

Paradise Earth Immortal Venerable had also left behind his true inheritances in various places. Southern Border's Mushroomman Paradise was one of them, thus, their leader, Southern Border's Gu Immortal Lu Wei Yin, was also called Paradise Earth's inheritor, nobody could refute it. Before the fate war, Fairy Zi Wei even went to the Mushroomman Paradise and borrowed benevolence Gu.

All the immortals could not think of an answer now.

Because of Paradise Earth's actions, many forces and Gu Immortals were related to him in some way. There was no way of knowing which force it was exactly.

"Paradise Earth Immortal Venerable focused on removing Spectral Soul's influence his entire life, he was a merciful and benevolent person who brought peace. Would his force cooperate with a demon like Fang Yuan? It is not impossible. Didn't Heavenly Court cooperate with me temporarily as well?" Fairy Zi Wei's heart was filled with a solemn emotion.

The more she thought, the worse she found the situation.

The reason why Heavenly Court worked with Shadow Sect was so that Fang Yuan and Spectral Soul would fight each other, it would be great if these two demons were killed at the same time!

If Paradise Earth's force and Fang Yuan cooperated while having such thoughts, why would it be impossible?

With Paradise Earth Immortal Venerable's status and nature, he would not do something like laying an ambush. But the Immortal Venerable had died already, nobody knew the temperament of the force that he left behind, or even his inheritor!

"This situation must have surpassed master's expectations."

"But there can be a worse situation, that is, Fang Yuan planned all of this. He gave up on Dragon Palace and Myriad Year Flying Warship just so he could lure master into this battlefield."

"No matter what the truth is, I need to do my best to save master!!"

Fairy Zi Wei sensed something amiss, she was very anxious. As a wisdom path great expert, any changes in her emotions needed to be assigned great importance.

Spectral Soul had an advantage against Fang Yuan of course, but against another venerable's force, it would not be so certain. And most importantly, this was the venerable who purposely went against Spectral Soul in history, Paradise Earth!

At the same time, in the earth path battlefield.

Spectral Soul looked at the surrounding sand, his expression turned cold as ice: "Good, very good. So you are Lu Wei Yin, the current generation inheritor of Paradise Earth?"

A Gu Immortal stepped on a yellow cloud, he cupped his fists at Spectral Soul: "Lord Demon Venerable is very perceptive, I have been waiting here for a long time."

At the side, Fang Yuan urged: "Lu Wei Yin, I lured him here already. Don't expect me to take action now, show me your sincerity… urgh!"

Fang Yuan suddenly stopped speaking as he retreated rapidly.

It was too late!

In an instant, Spectral Soul suddenly arrived in front of him using an unknown method.

"Fang Yuan, you are too careless. It is a pity you got this far, but go and die now!" Spectral Soul stretched out his hand as he grabbed Fang Yuan's neck.

Fang Yuan stared with eyes wide open, he could not break free!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2048 - Illusory Sand Shifting Shadow

2048 Illusory Sand Shifting Shadow

Spectral Soul was indeed the Demon Venerable who killed his way to the top!

Any other person would be wary at the first moment and defend against an assault. But he had abundant battle experience, after falling into a trap, he made perfect use of an opportunity to attack instantly!

Undoubtedly, he chose a great timing.

Fang Yuan was pursued by three parties, the pressure was huge, after getting into this safe area, it was not strange that he would relax his mind.

Spectral Soul distracted him with words while preparing his killer move. This move had no aura or commotion, only Wu Yong in the current five regions could match him in this aspect. Once used, Spectral Soul turned the situation around, he grabbed Fang Yuan's neck tightly.

Spectral Soul's move was also extraordinary, it was called soul shattering hand. This move could only be used at an extremely close range, it was a close combat method.

In Gu Immortal battles, close combat was rare. Most engaged in long distance combat, only few paths like transformation path or strength path would focus on hand-to-hand combat. Soul shattering hand had an extremely close range, it was very limited in usage but Spectral

Soul still held onto it without discarding it, the reason was because this move had incredible power, once it struck the enemy, it could easily decide the victor of the battle.

At the next moment, soul shattering hand activated!

A smile appeared on Fang Yuan's face again, while Spectral Soul's expression turned grim.

The 'Fang Yuan' in his hand quickly turned into sand and scattered with the wind, it was actually a puppet made of sand!

As yellow sand flew in the air, Fang Yuan's voice could be heard as he praised: "Spectacular indeed! Lu Wei Yin, your effort and time spent to specially create this illusory sand shifting shadow battlefield was not in vain."

Fang Yuan did not conceal his voice, Spectral Soul snorted coldly as he looked for traces, flying past the sand and arriving in front of Fang Yuan.

Spectral Soul attacked again while Fang Yuan did not dodge.

At the next moment, Fang Yuan scattered into countless sand specks again.

It was a rare sight as Spectral Soul finally frowned this time.

Lu Wei Yin's voice was transmitted: "Fang Yuan, you are too kind. The truth is, Friend Spectral Soul is too strong, I had to set up my strongest battlefield killer move. I won't hide it, even though this battlefield originated from Paradise Earth's true inheritance, it has been modified by many generations, it has many changes done to it. The sand puppet double earlier can deceive the enemy's senses and lure away firepower."

"Lu Wei Yin, do you want to lose your Southern Border Mushroomman Paradise? To think my Shadow Sect let you off purposely back then." Spectral Soul called out coldly, he stared at Lu Wei Yin's sand puppet fixedly. He knew that Lu Wei Yin purposely spoke to target his morale, to exert mental pressure on him.

In a battle between experts, every word was a contest. Especially against information path Gu Immortals, every word they said was sharp like a blade or spear, the enemies could not be lax against them.

Fang Yuan ignored Spectral Soul and continued to speak with Lu Wei Yin: "Even though I used up two Immortal Gu Houses to lower this old monster's wariness, this battlefield killer move has such power, it was not a waste. Now, it will depend on you."

Lu Wei Yin knew about Fang Yuan's tribulation, in fact, the heavenly mark killer move that Fang Yuan had was also given to him by Lu Wei Yin!

As a matter of fact, Fang Yuan did not trust Lu Wei Yin. His original destination was not Earth Abyss but Crazed Demon Cave instead. Fang Yuan did not know a lot about Lu Wei Yin's background, there was nothing much about him in the five hundred years of memories either.

Right now, not only was Spectral Soul stuck in the illusory sand shifting shadow battlefield, Fang Yuan was the same.

Fang Yuan's two Immortal Gu Houses, Dragon Palace and Myriad Year Flying Warship, were also destroyed, he lost many Gu worms, even the few core Immortal Gu that he retrieved were all injured.

Spectral Soul snickered: "Fang Yuan, hide well. Maybe Lu Wei Yin will let you out? Hehehe, but it is not a problem, Paradise Earth died long ago, his earth path battlefield cannot trap me for long. Once I decipher this place, it will be your time to die!"

Lu Wei Yin did not answer, he activated the battlefield.

From the yellow sand flying around Spectral Soul, a figure flew out, it was Fang Yuan's Qi Sea clone.

Qi Sea Ancestor saw Spectral Soul and got stunned, it was as if he had just charged through the sandstorm and did not expect to see Spectral Soul here.

But at the next moment, Qi Sea Ancestor made his move, unleashing qi path methods on Spectral Soul.

Spectral Soul snorted coldly, he blocked the attacks and wanted to retaliate but saw that Qi Sea Ancestor got enveloped by the sandstorm, vanishing into thin air.

Spectral Soul immediately chased, he went into the yellow sand, but he could not see any sign of Qi Sea Ancestor.

Another figure approached, it was Demon Immortal Qi Jue.

Spectral Soul was about to speak when he saw that Demon Immortal Qi Jue's expression was strange, he became wary.

As expected, Demon Immortal Qi Jue attacked him at the next moment.

Spectral Soul resisted as he called out: "Qi Jue, what are you doing?"

Demon Immortal Qi Jue snickered: "Qi Sea Ancestor, since you provoked me, I will show you the true power of qi path!"

After hearing this, Spectral Soul became stunned, he thought: "Don't tell me this earth path battlefield has another ability to confuse enemies?"

Since Spectral Soul could perceive the sand puppet as Fang Yuan without realizing so, it was not strange that Demon Immortal Qi Jue would get deceived and mistake him for Qi Sea Ancestor.

Spectral Soul and Demon Immortal Qi Jue fought for over ten rounds, Demon Immortal Qi Jue suffered injuries as he got devoured by the sandstorm again.

Next was Qing Chou.

"Spectral Soul, I want you dead! I want you dead!" Qing Chou was still insane, the rank nine aura on its body was extremely dense, Spectral Soul's heart jumped upon sensing it.

Like this, at times he fought Qi Sea Ancestor, at times he fought Demon Immortal Qi Jue, sometimes, he even faced the legendary immemorial desolate beast Qing Chou.

They started to appear and disappear in the sandstorm, engaging with Spectral Soul while taking turns!

Spectral Soul had outstanding battle strength, far beyond them individually, but whenever he gained some advantage, Lu Wei Yin, who controlled the battlefield, would swap opponents and leave Spectral Soul helpless.

Even after several rounds of attacks, Spectral Soul could not break free from the yellow sand, he could only fight them.

Faraway in the battlefield, Fang Yuan was focusing on his tribulation. Wu Shuai guarded him with a vigilant expression, all around him, countless army ants gathered into a hollow ball, shielding him and Fang Yuan from the outside.

Within the sovereign immortal aperture, the myriad tribulation had already turned into a torrential flood!

Water levels rose, engulfing ten thousand li of land.

Fang Yuan's five regions were all affected, a large number of small sized resource points were completely destroyed, Mini Central Continent's spirit spring forest, Mini Northern Plains' bone burial field, contact heart river bank, Mini Western Desert's eerie fire dragon python, sand gull soil beach, Mini Southern Border's become dragon mound, Heaven Sealing Mountain, and Mini Eastern Sea's jade root lake were all heavily damaged. As for the few resource points that Fang Yuan defended heavily, they also met with a huge impact.

Fang Yuan's losses were severe!

There was no helping it, he had done his best.

The good thing was that his hard work and sacrifices were not in vain, he had already refined more than twenty heaven path dao marks!

Against the initial myriad tribulation, myriad destruction lightning forest, Fang Yuan came up with a countermeasure after great effort. Due to heaven's will's manipulation, the heaven path dao marks immediately changed the tribulation, causing Fang Yuan's previous method to become ineffective.

If this happened to most Gu Immortals in the current world, it would lead to despair. But for Fang Yuan, each time the myriad tribulation transformed, it was a great opportunity for him!

Because he had the killer move exposing heavenly secret.

Exposing heavenly secret allowed Fang Yuan to accurately predict what the next tribulation was, even though he could not prepare for it amply, it was still an opportunity he could use.

After all, the greatest problem and danger of tribulations was that they could not be predicted. Once they were known beforehand, their threat level would fall by many times.

Of course, even if myriad tribulations could be predicted, they were still myriad tribulations. Thus, the sovereign immortal aperture flooded and countless resources were destroyed.

Fang Yuan's losses were huge, but it was not a bad thing entirely!

The myriad tribulation's power continued to fall, because the essence of the Heavenly Dao was to maintain balance, the more losses Fang Yuan suffered, the weaker the tribulation would be, even if heaven's will was here, it could not defy the natural operations of the Heavenly Dao.

More and more heaven path dao marks were refined by Fang Yuan, his speed of refinement was getting faster and faster!

The first step was the hardest, Fang Yuan sacrificed all of his soul beasts to create an opportunity in this biggest predicament of his life.

He succeeded!

Despite the myriad tribulation's rampage, Fang Yuan already managed to regain his footing, he was slowly turning the situation around.

Spectral Soul fell into a tough battle.

Lu Wei Yin controlled the illusory sand shifting shadow battlefield, causing him to be in an extremely passive spot.

Qi Sea Ancestor, Demon Immortal Qi Jue, Qing Chou, and even Lu Wei Yin could attack Spectral Soul at the same time.

Qing Chou was overcome by rage, it was once used by Spectral Soul, but in here, Lu Wei Yin could relocate it easily, Spectral Soul had no opportunities to do so.

As intense winds blew, a sandstorm brewed, suddenly, all of the sand gathered into rocks, they flew around in their own vortexes.

Instantly, countless flying rocks enveloped Spectral Soul.

Spectral Soul waved his hand as smoke flew out, some of the flying rocks melted in the black smoke but most of them pierced through it and shot towards Spectral Soul.

Spectral Soul's figure suddenly vanished, when he reappeared, he was already at the other end of the battlefield.

He dodged almost all of the flying rocks, but after these flying rocks flew into the sandstorm, they turned back into sand.

After that, the sand turned back into yellowish flying rocks that shot towards Spectral Soul.

"This move is called flying sand turning rocks, please evaluate it, Lord Spectral Soul." Lu Wei Yin's voice resounded from within.

"Child's play." Spectral Soul howled as his body shook, black smoke rumbled with him as the center, spreading towards the surroundings with rapid speed.

"Spin." As Spectral Soul vanished within the black smoke, he shouted again.

At the next moment, the black smoke turned into a vortex that started to rotate. Spectral Soul was at the center, he released black smoke while simultaneously absorbing it.

As the flying rocks flew into the black smoke, they corroded into sand before the black smoke swept them into Spectral Soul's immortal aperture.

Seeing this countermeasure, Lu Wei Yin praised: "Brilliant, as expected of Lord Spectral Soul. However, I specially chose the location of my battlefield on this earth vein. No matter how many flying rocks you absorb, this battlefield can draw more earth qi from the earth vein as replenishment. Thus, unless you can deplete the entire earth vein, these flying rocks are endless."

These words did not affect Spectral Soul, the former Demon Venerable sneered with deep killing intent: "Lu Wei Yin, did you think this move only countered your flying sand turning rocks?"

"Oh no." Lu Wei Yin's expression changed, there was no time to react.

At the next moment, all of the flying sand in the sky fell to the ground, a portion of the illusory sand shifting shadow battlefield was corroded by the black smoke, it returned to being a flat yellowish landscape.

"Shifting sand illusion was actually broken so quickly!" Lu Wei Yin's expression was ugly.

Spectral Soul hid his true move deeply, he seemed to be dealing with the killer move, flying sand turning rocks, but his real target was shifting sand illusion. Now that this move was broken, there were no longer any sand puppets left.

Demon Immortal Qi Jue broke out of the illusion, while Fang Yuan's real location was exposed.

"Fang Yuan, how long are you going to hide for?" Spectral Soul flew towards Fang Yuan without hesitation.

Wu Shuai fought to resist him, but the defense of the army ants became torn apart instantly by Spectral Soul.

A black soul ball shot out, after a few breaths of time, it reached Fang Yuan.

Fang Yuan remained seated on the ground, he opened his eyes as he smiled lightly: “I don’t need to dodge.”

Rumble!

An Immortal Gu House suddenly appeared, shielding Wu Shuai and Fang Yuan.

The black soul ball landed on the Immortal Gu House, erupting with immense might. However, this Immortal Gu House remained still like a mountain, it did not move!

“You still have an Immortal Gu House?!” At this moment, Spectral Soul’s pupils shrank, he frowned deeply.

Chapter 2049 - Spectral Soul“s Anxiety

2049 Spectral Soul“s Anxiety

An Immortal Gu House suddenly appeared in the battlefield.

It was like a mountain, but it was not tall. There were clear layers on this mountain from the bottom to the top, it was smooth on the surface, so it resembled a tower made of dozens of giant drums. This Immortal Gu House was yellowish brown, there was also a misty layer of sand covering its surface, giving it a strong feeling of sturdiness and peace.

Rank eight Immortal Gu House — Peaceful Soil Heavy Mountain Fortress!

This earth path Immortal Gu House was obtained when Fang Yuan explored the dream realm. It was different from most Immortal Gu Houses in essence, because this Immortal Gu House did not have any core Immortal Gu, its core was made of immortal killer moves.

Peaceful Soil Heavy Mountain Fortress had three core killer moves, the most important one was accumulated soil mountain.

This move was very special, it did not have offense, movement, healing or other aspects. Using this killer move, the Gu Immortal could stack earth path Gu worms to allow them to form an Immortal Gu House! This could be done even if the Gu Immortal using the killer move had zero attainment in formation path itself!

Gaining this killer move was also the same as gaining the foundation of the Immortal Gu House, Peaceful Soil Heavy Mountain Fortress!

Thus, every Peaceful Soil Heavy Mountain Fortress had a different appearance. In fact, even for the same Peaceful Soil Heavy Mountain Fortress, because the earth path Gu worms used were different, they could gain various forms and abilities.

Fang Yuan had created this Peaceful Soil Heavy Mountain Fortress for some time already. He obtained the complete blueprint from the dream realm, he also gained a large number of earth path Immortal Gu from the blue dragon whale. The truth was, he had already obtained this rank eight Immortal Gu House before the fate war!

Right now, Fang Yuan took out this Peaceful Soil Heavy Mountain Fortress to change the situation.

Spectral Soul's assault did not work on Fang Yuan, Lu Wei Yin, Qing Chou, and the rest could force him to divert his target to them.

"I thought Fang Yuan was lying earlier to put up a front, I thought he was forced to abandon Myriad Year Flying Warship and Dragon Palace. Now it seems, he intentionally lured me into this trap!" Spectral Soul's heart sank a little.

The truth was, Fang Yuan's act of giving up the two Immortal Gu Houses did lower his wariness. After all, without Myriad Year Flying Warship or Dragon Palace, Fang Yuan really seemed like he was at his wits' end.

To think that he had such a trump card!

Lu Wei Yin also felt surprised, thinking to himself: Fang Yuan was willing to pay such a huge price to lure Spectral Soul here. Is this a form of trust? Or is he testing our first cooperation?

The truth was, Fang Yuan had no other choice.

Even though he had been keeping this Peaceful Soil Heavy Mountain Fortress a secret, it had one huge drawback. Its speed was too slow! If there was a list of fastest to slowest Immortal Gu Houses, this Peaceful Soil Heavy Mountain Fortress would definitely rank at the bottom without doubt.

Honestly speaking, Peaceful Soil Heavy Mountain Fortress was the tortoise among Immortal Gu Houses, its speed was only superior to immortal formations, it was simply helpless. But such weaknesses came with great advantages, Peaceful Soil Heavy Mountain Fortress had an incredibly powerful defense instead!

If Spectral Soul or Lu Wei Yin knew about Peaceful Soil Heavy Mountain Fortress' weakness, they would understand Fang Yuan's plight.

If he took out Peaceful Soil Heavy Mountain Fortress earlier in the battle, he would not be able to get far, he would only be a target board, attacked by everyone. Even though Fang Yuan would have some temporary safety, the other forces could mobilize their people and gather to kill Fang Yuan together.

Thus, he could not stay at one spot, this was Central Continent, Heavenly Court's territory, even though Heavenly Court was weak now, it was still governing the ten great ancient sects!

But here, when Fang Yuan used Peaceful Soil Heavy Mountain Fortress, the effect was completely different.

Spectral Soul had to defend against the attacks of Lu Wei Yin, Qi Sea Ancestor, and the rest, he did not forget to attack Peaceful Soil Heavy Mountain Fortress in the meantime.

But Peaceful Soil Heavy Mountain Fortress remained unmovable, it was a true fortress!

Even someone like Spectral Soul started to be emotionally affected. His main target was Fang Yuan from the start, but to get to him, he would have to destroy this Immortal Gu House. This huge obstacle was causing Spectral Soul to feel anxious internally.

If Spectral Soul ignored Fang Yuan and dealt with the enemies in this battlefield, Fang Yuan would gain more time to recuperate. This was something Spectral Soul did not want to see.

During the intense battle, Spectral Soul looked towards Qing Chou, thinking of using it to create an opening.

But Lu Wei Yin sensed it quickly, once Spectral Soul showed signs of targeting Qing Chou, he would use the battlefield killer move to teleport Qing Chou away.

Qing Chou only targeted its greatest enemy, Spectral Soul, it knew that Lu Wei Yin was trying to help it instead of Spectral Soul, it would not attack him abruptly.

Spectral Soul's plans were thwarted in advance, he transmitted to Demon Immortal Qi Jue: "Qi Jue, focus on destroying this Immortal Gu House, I will definitely satisfy you with the reward!"

Demon Immortal Qi Jue hesitated: "Spectral Soul, you have higher battle strength than me, if you can't succeed, how can I?"

Spectral Soul snorted coldly: "Who says I can't do it? It will merely take some effort. We lack cooperation, the best move now is for me to deal with these enemies and the battlefield while you target Fang Yuan. You have the secluded domain of heaven and earth, Xi, as long as you pay some price, how hard can it be to destroy the Immortal Gu House?"

Spectral Soul's main target was Fang Yuan but now, he had to look away from his target. Firstly, this Immortal Gu House had high defense, destroying it was too troublesome. Secondly, Spectral Soul and Qi Jue were just working together, their relationship was quite shallow, Qi Jue was not reliable at all. Asking him to attack was guarding against him, if anything happened, Spectral Soul could still break out of the battlefield, it was a relatively safer option.

Spectral Soul had the strongest killing nature throughout history, but he was not a fool who lacked wisdom or logic, he was not overwhelmed by his desire to kill.

Demon Immortal Qi Jue also did not want to be trapped in this battlefield, he did not doubt Spectral Soul's decision to destroy the battlefield.

He thought about it for a while before laughing: "My Xi Land can break this earth path Immortal Gu House but the price is very steep, after all, I cultivate qi path and not earth path. After I succeed, it is likely that my Xi Land will be destroyed! But this deal is not impossible, it will depend on you, Spectral Soul, what price can you pay me to make such a huge sacrifice?”

“What, you think I can’t afford it?” Spectral Soul asked.

“You are a venerable, you have immense foundation, I am quite looking forward to it. But until now, the true inheritances that you gave me are high in quantity but lack quality, I am quite disappointed.”

“Hmph! You mean to say, only venerable inheritances are good enough for you.”

“Of course.” Demon Immortal Qi Jue spoke openly: “Only venerable true inheritances are of value to me. In fact, I am interested in your true inheritance too!”

Demon Immortal Qi Jue was an old demon, in this situation, he actually wanted to extort Spectral Soul’s soul path true inheritance. This was a really shameless thing to do.

Spectral Soul was not willing to take this loss, he replied firmly: “Qi Jue, don’t forget about our goal! If you do not put in effort now, how can you kill Fang Yuan? We might both get trapped in this battlefield, ending up as their prey.”

Demon Immortal Qi Jue became silent, the situation was quite tense now, this earth path battlefield had unfathomable depths, he had not understood it completely yet.

Demon Immortal Qi Jue was merely testing him earlier, seeing that Spectral Soul was firm in his stance, he decided to work together and get over this hurdle first.

Even though Spectral Soul broke one layer of the earth path battlefield, the combination of Lu Wei Yin, Qing Chou, and Qi Sea Ancestor still placed a huge pressure on him.

Even though Demon Immortal Qi Jue countered Qi Sea Ancestor entirely, due to Lu Wei Yin’s control, Qi Sea Ancestor did not fight against Demon Immortal Qi Jue. Qing Chou was actually quite useful here, this beast fought without regard for its life, it created huge problems for Demon Immortal Qi Jue.

Battlefield killer moves were hard to set up, but usually, after they were activated, the Gu Immortal would gain a huge advantage in the domain.

Enslavement path and formation path could allow one to fight against many enemies, it was because these two paths could allow one to gain huge strength if used well.

As for this illusory sand shifting shadow battlefield, it was created by Paradise Earth Immortal Venerable, modified by generations of inheritors, it was very threatening. Furthermore, this battlefield was created in Earth Abyss, combined with the earth vein, it had an unceasing amount of earth qi, Spectral Soul and Qi Jue were troubled.

Within the sovereign immortal aperture, the myriad tribulation was still continuing.

The myriad tribulation changed again, it was a flood earlier, now it turned into a blazing flame, razing everything to the ground and creating huge heat waves.

“I have already refined more than fifty heaven path dao marks!” Fang Yuan made some new progress.

Each time the myriad tribulation changed, it created danger for him.

But danger was accompanied by opportunity!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2050 - How Do We Fight This?

2050 How Do We Fight This?

Along with his gains, Fang Yuan also paid a hefty price.

Mini Southern Border, which was the most prosperous of the five mini regions, was half devastated.

Immortal Succession Mountain was destroyed, washed away entirely by the flood. This mountain was a mid-sized resource point obtained from Hei Fan grotto-heaven, it once had the ability to help mortals ascend to immortal.

There was also Heaven Sealing Mountain. This mountain was created by Fang Yuan, it was small and unassuming, within the mountain itself, Fang Yuan had once set up a formation to seal his strength path immortal zombie body.

Other than them, there were also up to a hundred mountains and valleys. The greatest losses were Interior Rain Mountain, Copper Seal Mountain, and Bone Bird Peak.

Interior Rain Mountain's peak was always shrouded by a layer of dark clouds from where light rain continued to fall. The drizzling rain was not ordinary rainwater, but rank six immortal material interior rain! This was a resource point that produced water path immortal materials, now it was in ruins.

Copper Seal Mountain was no longer whole, it used to have a red and squarish shape, it was like a large seal was standing upright in Mini

Southern Border. This mountain did not have even a trace of soil, it was completely formed from all kinds of copper.

There was mortal level copper like chaotic sky copper, pragna copper, snow flower copper, and so on, and immortal copper like profound grey copper and ascending dragon copper.

Copper Seal Mountain was so special, it was heavily targeted by the myriad tribulation myriad destruction lightning forest. Now, half of the mountain was destroyed and charred, giving out dense smoke and sparks. The entire mountain had turned into a molten state, it emitted a terrible smell.

This mountain once produced domination copper, that was a rank seven immortal material! It was a pity that the tribulation struck, it could no longer produce any.

As for Bone Bird Peak, it used to have a large number of flower wing white bone birds, filled with vitality. Now, the entire mountain had collapsed too, all of the flower wing white bone birds died from the lightning bolts.

Lightning bolts destroyed mountains, floods destroyed forests.

Fang Yuan had originally obtained a large amount of musical trees from Hei Fan grotto-heaven, he created Mini Southern Border's primitive forest using them. After this myriad tribulation, what forest could survive? Not to mention the beautiful qi death birds or the fragrant tea streams.

Mini Southern Border was almost completely devastated.

Only several areas were heavily protected by Fang Yuan.

Among them were the coiling thread caves, stalactite caves, and the dark inkstone mines. These resource points were all underground, it was easier to preserve them. Furthermore, the rockmen lived in these places.

Fire Bird Mountain was an exception, because it was quite isolated, it escaped this disaster.

This mid-sized resource point had fire path birds of all kinds growing in it. At the top of the volcano were fire phoenixes that were suppressed by the formation. The sunset parasol trees on the mountain absorbed lava as nutrients to grow, branches extended as leaves grew, they gave out the beautiful light of the setting sun, it was an amazing sight to behold.

Other than Mini Southern Border, the other four mini regions were also affected to some extent.

Mini Northern Plains' shallow rock beach was obtained from annexing Han Dong blessed land. It was completely washed away by the floods, all of the pinkish red spirit snakes living in it died.

Mini Western Desert's hound desert was obtained from Liu Yong blessed land. There were more than twenty desolate hounds there, they all died without a corpse remaining.

Mini Central Continent and Mini Eastern Sea, even the mini nine heavens were implicated by the myriad tribulation!

However, Fang Yuan could not care about it at this point.

Myriad tribulations had taken so many rank eight Gu Immortals' lives, in the long history of the world, countless geniuses died primarily from them. If he was careless, even Fang Yuan could lose his life!

Fang Yuan not only had to deal with the myriad tribulation, he also had to face the three forces chasing after him!!

If losing some resources meant that he could improve the situation, why wouldn't Fang Yuan do it?

What was more important, his life or these resources?

The answer was obvious.

Only by staying alive could he have any hope for the future.

In fact, even if all of Fang Yuan's resources were destroyed, even if he lost the sovereign immortal body and his clones, as long as he was alive and got through this predicament, as long as he had one breath remaining, he would accept the result.

The most important thing was an unyielding spirit, how could mere success and failure determine his life!

“The loss of these resource points is actually helpful to me. The Heavenly Dao seeks balance, with these resource points gone, the myriad tribulation has weakened proportionately. Thus, my efficiency in refining the heaven path dao marks will continue to become higher! Hmm?”

Fang Yuan’s expression suddenly changed.

Rumble!

With an intense sound, Peaceful Soil Heavy Mountain Fortress shook harshly, hundreds and thousands of Gu worms shattered and died.

It was the move that Demon Immortal Qi Jue had been preparing for a long time!

Demon Immortal Qi Jue!

This old demon who had resisted Limitless Demon Venerable in history, he had vicious methods capable of weakening and damaging Peaceful Soil Heavy Mountain Fortress. If he was allowed to continue attacking, he would eventually break through Peaceful Soil Heavy Mountain Fortress.

It was not that Lu Wei Yin or the Qi Sea clone did not try to stop him, but Spectral Soul’s continuous attacks hindered them.

Spectral Soul’s body surged with black smoke, he attacked and defended at times, unleashing several immemorial soul beasts while using peculiar soul path killer moves. He not only protected Qi Jue, giving him ample time and opportunity to attack, he even probed illusory sand shifting shadow battlefield even further, he managed to break another layer of this battlefield!

“Lu Wei Yin, Qing Chou, and the Qi Sea clone are attacking Spectral Soul but he is still having an easy time. This current Spectral Soul is also just his remnant soul, he is still injured and has not reached the peak state he was in during the time he refined sovereign immortal fetus Gu."

Fang Yuan sighed internally.

He could genuinely feel the depth of Spectral Soul's strength!

"I cannot let this go on, Wu Shuai, go and join the battle, deal with Spectral Soul!" Fang Yuan instructed.

In this current situation, Spectral Soul and the other two forces wanted Fang Yuan dead. On the other hand, Lu Wei Yin carried on Paradise Earth's will, he wanted to exterminate Spectral Soul.

Fang Yuan was the focus, but Spectral Soul was also crucial.

Fang Yuan did not feel great external pressure now, his wariness stemmed from Spectral Soul, he did not hesitate to use all his strength against him.

Wu Shuai joined the fight!

At once, army ants gathered and formed a river of ants, they swept towards Spectral Soul.

Spectral Soul split a portion of his concentration and used killer moves to resist them.

Wu Shuai was Fang Yuan's dragonman clone, he cultivated enslavement path, even though he had not cultivated for long, he inherited the inheritance of the dragonman race, as well as the actual Wu Shuai's true inheritance.

After several rounds of attacks, Lu Wei Yin became hopeful as he thought: "Even though Wu Shuai does not attack often, he has rank eight cultivation level, his battle strength is quite incredible. With him around, we can finally place pressure on Spectral Soul!"

With him controlling the battlefield, even Qing Chou could join the fight, not to mention Wu Shuai who cooperated with them.

Wu Shuai soon mixed in with this group, their tempo became faster as they emitted greater pressure on Spectral Soul.

Spectral Soul was the strongest in the world, but he had not regained his peak strength. Demon Immortal Qi Jue and Qi Sea Ancestor could fight him for over ten rounds even if they could not defeat him.

With Wu Shuai's participation, a qualitative change appeared, it tilted the balance of both sides.

Lu Wei Yin and the rest attacked unceasingly, their attacks did not stop even once.

Spectral Soul started to get into a passive spot as he resisted their joint attacks.

Immortal killer move — Upper-Lower Breathless Qi!

Demon Immortal Qi Jue stretched out two fingers as he pointed at the top and bottom of Peaceful Soil Heavy Mountain Fortress.

At once, Peaceful Soil Heavy Mountain Fortress became immobilized, Fang Yuan who was inside had a change of expression, he could not breath smoothly. Even worse was that his injection of immortal essence into Peaceful Soil Heavy Mountain Fortress became choppy and inconsistent.

Immortal Gu Houses required a lot of immortal essence to work. The same applied to Peaceful Soil Heavy Mountain Fortress, after getting hit by this move, its defenses became much weaker.

A huge flaw in Peaceful Soil Heavy Mountain Fortress became exposed.

It was just too slow, it had to resist most killer moves head on. Of course, it had immense defense, it could waste a lot of the enemies' immortal essence.

Thus, Peaceful Soil Heavy Mountain Fortress was suited for a battle of attrition. Gu Immortals could heal up inside and analyze the enemy's killer moves while using the defense to waste the enemy's immortal essence.

Peaceful Soil Heavy Mountain Fortress also lacked offensive methods. The truth was, Demon Immortal Qi Jue could ignore Fang Yuan and help Spectral Soul fight against Lu Wei Yin and the rest. Fang Yuan was currently troubled by the myriad tribulation, Peaceful Soil Heavy Mountain Fortress was of little threat to them in terms of offense.

Immortal killer move — Soul Explosion!

Spectral Soul suddenly turned around, he endured the attacks of Lu Wei Yin and the rest as he pointed with his fingers, more than ten black dots flew out.

The black dots shot towards the top of Peaceful Soil Heavy Mountain Fortress before turning into more than ten immemorial soul beasts.

These immemorial soul beasts crashed down onto Peaceful Soil Heavy Mountain Fortress, their mountain-like bodies completely burying the Immortal Gu House.

At the next moment, boom!

A terrifying explosion killed these immemorial soul beasts on the spot, their sacrifices resulted in this intense explosion resembling a giant black ball.

The black ball rapidly expanded, in a few breaths of time, it grew to over the size of a hundred li!

The earth and mountains shook, the entire battlefield started to shake intensely.

Lu Wei Yin's expression changed, he immediately went away to defend the battlefield. If this battlefield broke, even if one corner of it was destroyed, the entire situation would aggravate.

"Spectral Soul is so crafty, he actually had such a terrifying move!" Demon Immortal Qi Jue squinted, retreating to a safe distance: "Soul explosion is not uncommon, it is expected that he would detonate the immemorial soul beasts, but how could he perfectly fuse the detonation of more than ten immemorial soul beasts together like this?"

“Oh no, I wonder how our main body is doing?” Wu Shuai and Qi Sea Ancestor became worried.

“Roar!” Qing Chou was also implicated and got quite injured, the greater the pain, the more maniacal it became.

It did not care about anything, it attacked Spectral Soul again.

Wu Shuai and Qi Sea Ancestor had to follow suit, they could not allow Spectral Soul to absorb Qing Chou’s strength.

After using this move, Spectral Soul also turned pale. Against Qing Chou’s assault, he focused on defense while trying to recover. It was evident that the move earlier consumed a huge amount of his mental energy!

In truth, this soul explosion was very costly. Immemorial soul beasts had rank eight battle strength, Spectral Soul expended more than ten of them at once!

“I wonder how Peaceful Soil Heavy Mountain Fortress is now?” Demon Immortal Qi Jue approached Fang Yuan.

As the dust clouds faded away, Peaceful Soil Heavy Mountain Fortress appeared in everyone’s vision again.

They saw that this earth path Immortal Gu House was thirty percent shorter, the surface seemed damaged but no holes were created.

Demon Immortal Qi Jue squinted as he sighed internally: “This Immortal Gu House’s defense is likely the highest of all Immortal Gu Houses that currently exist!”

Immortal killer move — Accumulated Soil Mountain!

Within the Immortal Gu House, Fang Yuan injected immortal essence as he activated the core killer move.

Countless earth path Gu worms flew up in sovereign immortal aperture, entering the Immortal Gu House. After three breaths of time, not only did Peaceful Soil Heavy Mountain Fortress recover fully, its appearance also changed, instead of being round like before, it became more like a tower now, there were edges and sharp corners.

“This?!” Even someone like Demon Immortal Qi Jue stared at this with wide eyes, he felt a little empty internally.

This was too shameless.

Not only did Peaceful Soil Heavy Mountain Fortress have high defense, its recovery speed was also this fast!

In the current world, most Immortal Gu Houses could not be easily repaired. When replenishing Gu worms, those positions were usually fixed. It was also not as easy as placing Gu worms into these specific positions, there was usually a need to use special Gu worms or killer moves to achieve this.

Immortal Gu Houses were a type of mobile immortal formation, to repair Immortal Gu Houses or immortal formations, one had to consider the influence that these actions would have on the main structure.

But Peaceful Soil Heavy Mountain Fortress was different.

Looking at one example.

Repairing other Immortal Gu Houses was like stacking a Jenga tower, the Gu Immortals had to put specific Gu worms into specific holes. During this process, the Gu Immortal had to use methods to stabilize the tower while placing the Gu worms to try to prevent it from toppling.

But Peaceful Soil Heavy Mountain Fortress was the opposite, because the core was made of immortal killer moves, no matter how many earth path Gu worms Fang Yuan put in, they could easily merge with the tower and have great stability. In fact, they could even alter the properties of the tower.

Demon Immortal Qi Jue and Spectral Soul spent so long dealing with Peaceful Soil Heavy Mountain Fortress, they had finally gotten some information about it, yet after Fang Yuan’s modifications, the entire fortress was different than before. Spectral Soul and Qi Jue’s probe had to start all over again!

“How do we fight this?” Similar thoughts emerged in the minds of Demon Immortal Qi Jue and Spectral Soul.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2051 - Giant Spectral Soul

2051 Giant Spectral Soul

Other Gu Immortals would feel despair at this moment.

“This rascal Fang Yuan is too good at turtling up, how can we kill him?” Demon Immortal Qi Jue asked with a tone that contained anger and frustration.

Spectral Soul also turned silent for a moment before he smiled coldly.

Instantly, a terrifying killing intent seemed to condense and solidify, emanating from his body, everyone could feel their limbs turning cold as they shook in their hearts.

After suffering a setback, Spectral Soul’s determination to kill Fang Yuan became even firmer!

“I will dismantle his tortoise shell! Go and deal with the rest, guard me.” Spectral Soul said as his soul flew out and devoured Lady Cold Ash’s body in one mouthful.

A soul giant that was as large as a mountain appeared before everyone!

The giant’s body was black as ink, it had muscular limbs and bulging muscles. There were two heads, one was scary while the other was cold and aloof. The first pair of eyes had blood red light in them, shooting towards heaven, the other pair of eyes was cold as ice, emitting a deep chill.

It also had six hundred pairs of arms that were raised up or lowered, some were tucked in while others were straight, it showed the stance of grasping the sun and moon, it had the potential to catch stars and whip up storms.

“Amazing giant!” Lu Wei Yin’s body shook as he praised, fighting spirit surged in him as he shouted: “Then take this move!”

He used all his strength to activate illusory sand shifting shadow battlefield.

Whoosh whoosh whoosh!

Intense winds blew as yellow sand flew, countless rocks moved along, they slammed towards the black soul giant’s body like shooting stars.

The black soul giant only watched coldly as it raised its arms.

Two hundred pairs of arms stretched out and stabbed into the sandstorm. The ghost hands stretched out their fingers as they grabbed towards the sandstorm.

Unexpectedly, the formless sandstorm was grabbed onto like silk or threads in the sky!

The black soul giant pulled, snapping sounds could be heard continuously. The sandstorm was pulled apart, wind scattered as clear vision returned to the battlefield.

Lu Wei Yin’s eyes were bulging, his expression turned pale, Spectral Soul dealt with the battlefield so easily, he was deeply shocked!

“Let me.” Qi Sea Ancestor flew into the sky, staring at the black soul giant at equal heights.

Immortal killer move — Qi Breath Mountain.

Rumble!

A huge translucent mountain created from air currents descended and pressed down immediately.

This move was once used by Duke Long, it was part of Primordial Origin's true inheritance, it managed to send Purple Mountain True Monarch flying. Right now, with Qi Sea Ancestor using it, the power was not to be underestimated.

Giant Spectral Soul looked at the mountain but approached it instead, he raised more than a hundred pairs of arms, at once, the entire battlefield seemed to have hundreds of black trees, resembling a forest!

The hundred pairs of arms blocked the qi mountain, emitting a loud sound.

The five sharp fingers of each of the ghost hands grabbed, the qi current mountain lasted for a breath of time before breaking apart.

Qi Sea Ancestor grunted, he was forced to retreat.

But Spectral Soul did not let him off, the angry head roared loudly and spat out a grand soul river. The soul river was made of countless ghosts and vengeful spirits, they cried out in agony and despair, causing the entire battlefield to freeze up for a moment.

Seeing the power of this move, Qi Sea Ancestor understood that this move was extraordinary, its might was many times higher than the self-detonation of the immemorial soul beasts earlier!

At this moment, Spectral Soul had used his true strength. Not only did he turn into a black soul giant, he even changed his killer moves, each attack became much stronger, they were all vicious and terrifying.

Qi Sea Ancestor waved his hands, two hands flew out of his wide sleeves. His index and middle fingers stretched out and drew a circle in the air, causing wind and clouds to move along.

Immortal killer move — Qi Current Scissors!

A translucent qi current flew out of his sleeves, moving rapidly.

These qi currents seemed weak but they were extremely sharp, they drew an arc in the sky before gathering to form a translucent qi current river.

With a loud sound, the qi current scissors river crashed into the vengeful ghost river!

The qi current scissors was forced back but the soul river also suffered some damage, it still managed to move as it quickly approached Qi Sea Ancestor.

Lu Wei Yin shouted as he activated the battlefield, creating a rock shield that intercepted the soul river at its weak spot.

Qi Sea Ancestor's face was already flushing red, it was a tough contest of strength, he quickly used this chance to escape.

“Spectral Soul, why aren't you going to die!!” At the same time, Qing Chou shouted as it approached from the left.

At the right of Giant Spectral Soul, Wu Shuai wordlessly manipulated his army ants that pressed down like a black cloud, attacking Giant Spectral Soul's head.

Attacked from the left and right!

Spectral Soul did not move, three hundred pairs of arms resisted Qing Chou while a hundred pairs of arms attacked Wu Shuai.

Qing Chou was fighting without regard for its life, it advanced relentlessly.

Spectral Soul snickered as the fingers of his hands gathered into a sharp spear form, this move countered soul beasts!

At the next instant, a hundred pairs of arms stabbed into Qing Chou's body, green-black blood oozed out and dyed the battlefield.

Seeing this blood, a bright light shined on the face of Spectral Soul's angry head, he snickered coldly: “Soul beasts have no blood, but your body seems to have changed under the influence of hatred Gu's refinement. Interesting! After this battle, I will dissect your body before attempting good and thorough research.”

In other words, Spectral Soul was completely confident in taking down Qing Chou.

Qing Chou growled in pain, its snake-like neck struggled intensely, its roars almost burst the immortals' eardrums.

Its entire body emitted black smoke, almost the same as Spectral Soul. Not just that, it opened its mouth and shot out more than ten human faced soul balls that were covered in lightning!

All sorts of attacks landed on Giant Spectral Soul, it was like wind blowing on a tree, even though the leaves were moving, the trunk remained still and motionless.

Spectral Soul's arms that were stabbed into Qing Chou pushed deeper, trying to destroy its body from the inside.

Qing Chou cried out continuously, it was heavily injured by Spectral Soul, unable to break free, its blood flowed like a river, this was a gruesome sight.

Seeing this, Wu Shuai who cultivated enslavement path and had a weak body did not dare to take a risk, he quickly retreated. He decided that unless there was no choice, he would only attack from afar.

The army ants were densely packed and moved like a cloud that could gather and split at will, they rushed towards the black soul giant's eyes, nose, and ears.

Spectral Soul's cold head snorted as he breathed out black smoke from his nose. The smoke spread out, wherever it went, army ants died without resistance, a large number of them fell at once.

"As expected of a former Demon Venerable!" Demon Immortal Qi Jue's eyes shined with bright light, he was full of praise.

Spectral Soul unleashed his true strength, it immediately changed the situation!

Even though Lu Wei Yin and the rest had the territorial advantage as well as more people, they still got suppressed by him.

Spectral Soul struck several times to completely block them, after that, he went back and stared at Peaceful Soil Heavy Mountain Fortress. Four hundred arms stretched out and clenched into fists, they punched at the rank eight earth path Immortal Gu House with black qi covering the fists!

Bam bam bam…

Each punch caused Peaceful Soil Heavy Mountain Fortress to shake intensely.

As countless fists rained down, black qi also invaded the Immortal Gu House. Soon, the fragments began to fall off Peaceful Soil Heavy Mountain Fortress' surface, shattering into pieces.

Fang Yuan quickly used his killer move and added in earth path Gu worms to replenish it.

But other trouble came at the same time, inside his sovereign immortal aperture, the myriad tribulation transformed again!

Almost all of the heaven path dao marks gathered into a giant monstrous ball of flesh.

The flesh ball floated in the air, it was large as a mountain, more than ten times of Spectral Soul's size, casting a shadow down onto the ground.

Countless black colored holes appeared on the flesh ball's surface.

As the holes expanded, they emitted a huge suction force, soon, tornadoes began to form from these holes.

As the tornadoes moved, countless resources in the sovereign immortal aperture, even variant humans got swept away and sucked into the flesh ball.

At once, growling and crying could be heard as fatalities rose.

The flesh ball quickly digested them as it slowly expanded in size!

"Oh no, I have never seen this myriad tribulation before, it also seems to be able to grow, it can get stronger and stronger!" Fang Yuan's heart sank.

He needed to deal with Spectral Soul's attacks and the myriad tribulation in his immortal aperture.

Either one required his full attention and strength, nobody else could help him with this.

Fang Yuan could not attend to both ends, he had to choose what to give up.

"Peaceful Soil Heavy Mountain Fortress can still last some time, but if I let the myriad tribulation grow further, it will exceed the limit of my capabilities!" Realizing the greater problem at hand, Fang Yuan chose to deal with the myriad tribulation.

Most of his attention was placed in the sovereign immortal aperture, his manipulation of Peaceful Soil Heavy Mountain Fortress became slightly slower.

Combat Beast King had already awakened, he dragged his injured body and stood up while gritting his teeth, listening to Fang Yuan's orders.

Xue Er controlled the situation on the ground, using the ice crystal formation to resist the suction of the tornadoes.

The flesh ball monster floated towards her slowly while being firm as a mountain, there was a huge pressure placed on Xue Er.

Immortal killer move unrestrained heavenly mark was still active, Fang Yuan had not stopped using it even for one moment! But now, its effect had fallen to its lowest point.

Countless thoughts collided in Fang Yuan's mind, it was like a turbulent sea, the sight was spectacular.

Fang Yuan multitasked, he first activated a wisdom path killer move, the quantity of his thoughts expanded abruptly, even his mind seemed small in comparison!

A vast number of thoughts collided, allowing Fang Yuan to think acutely, he was able to use other killer moves now.

There was no choice, Fang Yuan activated the human path formation to interfere with the Heavenly Dao's interference.

As the formation activated, it created a buzzing noise as it shined with a brilliant light. At this step, over half of Fang Yuan's thoughts were already expended!

If this continued, the consumption of thoughts would exceed the production, he would soon run out of thoughts and Fang Yuan would turn into an idiot instantly.

Fang Yuan gritted his teeth but was not flustered, he was prepared for this, there were many of his wills in the human path formation.

Fang Yuan's wills took charge of the formation as it operated, allowing his thoughts to accumulate again. Fang Yuan only had to do the first step of activating the formation.

"Again!" Fang Yuan shouted internally as he activated the wisdom path killer move again.

The thoughts in his mind burst out again like a tsunami, the quantity rose continuously, almost filling up his entire mind!

For wisdom path Gu Immortals, having too many thoughts was a bad idea, they would take up all the space in the mind and prevent any collisions from happening, it was the worst case scenario.

Fang Yuan did not do something stupid, this was part of his expectations.

Seeing that these thoughts were about to fill up his mind, he placed his concentration on the sea of clouds in the sky.

It was a huge and wide sea of clouds!

Chapter 2052 - Eat Hear

2052 Eat Hear

Looming clouds spread out in the boundless sky, surging like tides as ripples splashed, it seemed like the sea but it also resembled countless cloud mountains, changing forms at will, having unlimited possibilities.

This was a killer move.

This killer move was Fang Yuan's trump card, it was in fact his strongest offensive method at this moment!

Immortal killer move — Unlimited Qi Sea!

This move was — mystical!

After Fang Yuan's modifications, it not only used rank eight Immortal Gu Big Qi as the core, it also had more than ten supplementary qi path Immortal Gu, as well as hundreds of thousands of foundational mortal Gu. There were even qi path immortal materials that could be expended to increase the power of this move.

This move was — incredible!

It could use all of the kinds of qi in this world, life qi, death qi, sword qi, blade qi, dusk qi, dawn qi… the more qi path immortal materials stored in it, the more powerful this move would be. When used offensively, it would expend immortal essence and immortal materials. When used defensively, it would absorb external qi currents.

This move was — powerful and unstoppable!

Qi Xiang left this move behind, resulting in Qi Xiang grotto-heaven surviving many myriad tribulations after his death. Myriad tribulations… most rank eight Gu Immortals in this world did not even dare to challenge their first myriad tribulation, they desperately delayed the time in their immortal aperture. But Qi Xiang grotto-heaven's heavenly spirit could use this move to get past myriad tribulations time and time again.

After annexing this grotto-heaven, Fang Yuan used the light of wisdom to modify unlimited qi sea before the fate war! After that, during this battle, he used this move to break the primordial qi wall and shocked everyone, including Gu Immortals, in the five regions.

The primordial qi wall was the creation of Primordial Origin, it not only had qi path Immortal Gu but also qi path immortal materials. Qi path had one trait, it was able to use qi path immortal materials in place of Gu worms to execute killer moves.

Fang Yuan used unlimited qi sea to break the primordial qi wall, he also absorbed the vast amount of qi path immortal materials inside the qi wall.

After the first time, Fang Yuan broke it again for a second time!

Not long ago in Heavenly Court, he used unlimited qi sea to absorb the immortal material qi currents in the primordial qi wall, breaking it apart.

After absorbing two qi walls and with Fang Yuan's exploration of Qi Sea grotto-heaven, he gained a huge amount of immortal material qi currents, it caused unlimited qi sea's storage to rise to an unprecedented amount. Thus, the power of this move reached a level that felt terrifying even for Fang Yuan!

As Fang Yuan willed, he unleashed the killer move unlimited qi sea!

The sea of qi rumbled, a huge white qi pillar gathered in the sky and shot down at the giant flesh ball monster.

The qi pillar was extremely thick, reaching a level that had never been seen before, even Qi Xiang would gasp at its majesty now.

Not only that, the qi pillar was covered in a layer of shining golden light, it gave off a tough feeling, it was extremely domineering!

Before the white qi pillar hit the flesh ball monster, a terrifying force acted on it from all directions, immobilizing the flesh ball monster in the air.

Boom—!

The white qi pillar crashed into the flesh ball monster like a falling monument, before rushing through it violently.

The huge sound created even deafened Xue Er, who was far away from the battlefield.

The qi pillar had an intense white light, Xue Er, who was hiding in the ice crystal formation had to shut her eyes to prevent them from being blinded.

The flesh ball monster could not resist the power of the qi pillar, it was suppressed on the grassland of Mini Northern Plains.

The grass and soil of the grassland had already been sent flying long ago by raging tornadoes before the qi pillar struck.

Thus, the flesh ball monster was pressed down on the barren grassland by the unstoppable qi pillar!

As the earth shook, hundreds of cracks formed below the flesh ball monster, resembling a spider web.

The white qi pillar was still continuing its assault, it had the power to destroy mountains and split seas! The great flesh ball monster made from the myriad tribulation got pressed on the ground like a defenseless chick, unable to struggle.

Ten feet, twenty feet, thirty feet…

As the flesh ball monster sank into the ground, its body became smaller and smaller. It continued to be disintegrated by the white qi pillar bit by bit!

The black holes all over the giant monster were shut, it tried to curl up, a pitiful cry could be heard from within its body.

This was the cry of heaven's will!

The white qi pillar lasted for twenty breaths of time before fading away.

Not only did the sea of clouds in the sky shrink by eighty percent, the remaining clouds were sparse and thin. Fang Yuan quickly moved them away.

But the flesh ball monster was in a worse condition, its mountain-like body had shrunk to the size of Dragon Palace.

The flesh ball monster did not move, it remained in the pit like a corpse. This pit was over a thousand feet deep!

Fang Yuan's main body breathed roughly, his brain was hurting along with each breath. In order to use this move, he exerted his mind to its limit, he used up too many thoughts, beyond the capabilities of his mind.

The myriad tribulation created from three thousand heaven path dao marks finally paused for the first time.

It was as if it got beaten into shock by Fang Yuan!

The opportunity was rare, Fang Yuan quickly hastened his action and used unrestrained heavenly mark to refine the heaven path dao marks.

In a short while, Fang Yuan refined more than a hundred heaven path dao marks. Together with his earlier gains, he had already refined over a hundred and sixty heaven path dao marks!

When Fang Yuan refined over two hundred heaven path dao marks, the Heavenly Dao finally reacted. The flesh ball in the hole vanished as it started to hail.

However, even though Fang Yuan could take advantage of this chance, he could only sustain this situation as he was forced to place his attention back to the outside world.

Peaceful Soil Heavy Mountain Fortress was heavily damaged beyond repair, Giant Spectral Soul's attacks were increasing in frequency, he had made huge advancements!

Spectral Soul swore to kill Fang Yuan, Lu Wei Yin and the rest tried to restrain him but Giant Spectral Soul ignored their attacks and endured them, while maintaining his firepower on Fang Yuan.

Even though Fang Yuan was doing his best to repair his Immortal Gu House, the situation was going downhill.

Bam.

Peaceful Soil Heavy Mountain Fortress could not take it anymore, a hole was created, it connected to the outside!

Through this hole, Giant Spectral Soul's four eyes emitted cold killing intent as he looked at Fang Yuan who was sitting inside.

He saw that Fang Yuan's expression was pale after unleashing unlimited qi sea.

Fang Yuan was in bad shape now!

Spectral Soul had a realization, his incredibly deep battle experience made a decision for him, similar to Fang Yuan, he was going to use his trump card.

Immortal killer move — Eat Heart!

"I comprehended this move in my later years from u003cu003cThe Legends of Ren Zuu003eu003e. Fang Yuan, it is over. The current Peaceful Soil Heavy Mountain Fortress has no way of blocking this attack." Spectral Soul surged with killing intent.

And like what he said.

At the next moment, Fang Yuan grunted, his face became distorted, he grasped his chest in pain.

The intense pain in his heart felt like it was bitten by a fierce beast!

u003cu003cThe Legends of Ren Zuu003eu003e, chapter five, section thirty-three —

Ren Zu stared at the skeleton head: “Next, I will eat the most important part of the Predicament’s body.”

Strong Gu laughed: “This is a stupid move! Oh human, your choice is extremely foolish.”

The Predicament shook its body as it shrank. At the same time, countless Tribulations flew out of its neck and attacked Ren Zu.

The Tribulations were like fire, burning Ren Zu’s bones. The Tribulations were like hammers, charging at Ren Zu as his bones cracked. The Tribulations were like wind and rain, sweeping at Ren Zu’s lone body. The Tribulations were like flashing lightning, striking on Ren Zu continuously.

Fear Gu shouted: “Oh heaven, this is too scary, that human will die for sure at this rate.”

Courage Gu encouraged: “Oh human, don’t be afraid.”

Self Gu and attitude Gu shouted together: “I am very strong, I am very strong, all Tribulations are mere drizzles, they are insignificant breezes!”

Weak Gu, betrayal Gu, and fear Gu flew together, wanting to escape with Ren Zu: “Oh human, quickly run. Don’t believe in self Gu’s words, it has already been deceived.”

Ren Zu was trapped in the Tribulations, he could not escape.

When Tribulations loom over you, it is not a simple matter of running away.

“This is too scary, let’s go, forget about the human.” Weak gu, betrayal Gu, and fear Gu flew away together.

“You traitors!” Self Gu was furious, it grabbed onto these three Gu and bit them all.

The three Gu were injured but they were not stopped by self Gu, they quickly escaped from Ren Zu.

Self Gu wanted to chase them but rules and regulation Gu urged: “Don’t chase them. Escaping when Tribulations strike due to fear and weakness, betraying one’s self and courage in the process, it will only lead to death. Isn’t it good that they are gone? Weak Gu and betrayal Gu are unable to help us, as for fear Gu… if the Tribulations did not appear, fear would have been pointless. But since the Tribulations are here now, fear will only lead to greater pain in the human.”

“You are absolutely right.” Self Gu stopped.

Hope Gu flickered with light as it supported Ren Zu: “Oh human, as long as you still have hope in your heart during the Tribulations, there will still be hope in this situation.”

Strong Gu could not stop laughing: “Oh human, you are truly pitiful, you easily believe in the words of hope. Don’t you know? Having only hope during the Tribulations will only cause them to continue longer, hope is the thing that lengthens the person’s pain. When you stop bearing any hope, you will feel relaxed in the Tribulations.”

Ren Zu did not speak, he endured the attacks of the Tribulations with great difficulty.

No matter how bent his body became, he did not fall.

Strong Gu soon found the reason — on Ren Zu’s feet, there was a pair of independent wings. Even though the wings were small, they flapped stubbornly, helping Ren Zu to stand up despite everything.

Strong Gu continued to demoralize Ren Zu: “Oh human, I am starting to admire you. It is a pity that you are going to fall soon, look at your bones, they are covered in cracks now due to the Tribulations.”

Ren Zu was silent.

Originally, Ren Zu’s bones were shiny and intact, there were no cracks at all. Now, his skeleton was covered in cracks, it seemed like it would shatter at any moment.

All the other Gu worms were silent, only hope Gu gave out light: “Oh human, don’t give up! Tribulations are not scary, the scariest thing is a person who has lost hope.”

The light of hope Gu penetrated the cracks of Ren Zu’s bones, into his bone marrow.

In the life of everyone in this world, cracks would always form at some point, but those were the times where the light of hope would shine in!

Ren Zu’s bones absorbed the light of hope, they started to engulf the surrounding Tribulations.

Each crack was like a huge mouth, the larger the crack, the larger the mouth, and the more Tribulations it could devour.

“How could this happen?” Strong Gu was extremely shocked.

The more Tribulations that Ren Zu’s skeleton devoured, the stronger and firmer his bones became.

Tribulations could destroy people, but they could also toughen oneself!

Chapter 2053 - Finding a Way Out of a Desperate Situation

2053 Finding a Way Out of a Desperate Situation

As the Tribulations continued, Ren Zu's bones started to shine in a golden light.

The Tribulations became wilder as Ren Zu's bones burned in flames, becoming dazzlingly golden.

Ren Zu started to straighten his back, he raised his head and puffed his chest, after enduring countless tortures, his skeleton shined like a golden pillar, he stood directly inside the Tribulations. This was the myriad tribulation golden skeleton.

And on Ren Zu's skeleton head, a crown grew out naturally, it was the heaven connecting bone crown.

All of the tribulations and disasters that people suffer would become their crowns of achievement in the future.

Even though the Tribulations had not ended, Ren Zu could already speak at this time: "I know, Fate has arrangements, Tribulations are the arrangements it makes for people. But I can persevere, any Tribulations that seem unendurable are all in fact endurable to me."

Strong Gu was shocked and bewildered.

Self Gu realized at this time: "I understand. Oh human, you are someone who walked out of Ordinary Abyss, that is why you can endure these Tribulations that are impossible to endure.”

Strong Gu saw that the Tribulations could not take down Ren Zu, it forced itself to stay calm: “Oh human, don’t forget, as long as you have hope Gu, these Tribulations will not stop. Are you going to delay our bet from earlier? I don’t care! I will treat it as if you passed the Tribulations. Now, it is our turn to eat you.”

“Which part of me do you want to eat?” Ren Zu sighed.

Strong Gu laughed loudly, pointing at Ren Zu’s chest: “Next, I will eat your hearts!”

Ren Zu shook slightly, strong Gu’s choice was too fatal, how could a human live without his heart?

“Quickly take out all of your hearts, let us eat them!” Strong Gu shouted in excitement.

Ren Zu sighed as he hesitated, before taking out the heart of sympathy.

Strong Gu directly placed the heart of sympathy into the Predicament’s neck as the heart fell into its stomach. The Predicament’s stomach expanded slightly.

When faced with predicaments, people often lose their hearts of sympathy first.

Ren Zu took out his heart of nobleness next, the Predicament ate it as its stomach expanded some more, it seemed to have problems digesting it.

Ren Zu took out his original heart next: “Oh hope Gu, leave now. I do not want to implicate you.”

Hope Gu resided in Ren Zu’s original heart, it did not fly out, instead it said: “I am not leaving, this is my home. Oh human, just toss me in along with it, I do not blame you.”

Ren Zu had no choice, as strong Gu rushed him, he gave his original heart to the Predicament as food.

After the Predicament ate it, its belly expanded again.

Predicaments often caused people to lose hope as well.

Without hope Gu, all of the Tribulations around Ren Zu vanished. This caused the pressure on Ren Zu to fall, but he felt deep melancholy as well.

“Quick, oh human, take out your final heart and let us eat it!” Strong Gu pointed at the heart of loneliness in Ren Zu’s chest.

Ren Zu hesitated as he felt troubled, the heart of loneliness did not only contain his self Gu, it was also his final heart. Without this heart, Ren Zu might die.

Strong Gu laughed and threatened: “Quick! If you do not take it out yourself, we will make our move and eat you entirely!”

Self Gu had already been deceived, it called out in nonchalance: “Oh human, just give it to them. I do not care, you will not die either! We are the strongest.”

“Give it to me!” Strong Gu grabbed the heart of loneliness in Ren Zu’s hand and stuffed it into the Predicament’s stomach through its exposed neck.

At this point, Ren Zu lost all his hearts.

He fell onto the ground, losing all signs of life, he could not stand up anymore.

Ren Zu died.

“Oh human, you died, we have regained freedom.” Rules and regulation Gu flew away.

“There is no helping it, the human met with the greatest predicament in his life.” Courage Gu and edge Gu flew away as well.

On Ren Zu’s corpse, only self Gu remained, it flew around him. Attitude Gu wanted to leave too, but self Gu grabbed onto it, forcing it to stay.

Strong Gu laughed happily: “Hahaha, oh human, you were nothing impressive after all. Hmm? Predicament, what’s wrong?”

The Predicament that strong Gu was attached to grabbed onto its bulging stomach as it rolled on the ground in pain.

Loneliness was extremely hard to digest, the stronger the Predicament, the lonelier one would feel.

Boom!

Suddenly, the Predicament’s belly burst open.

Ren Zu’s heart of loneliness, his skin and flesh fused to create a boy.

Strong Gu was flabbergasted: “Who are you?”

The boy said: “I am Ren Zu’s son — Great Strength True Martial!”

Before finishing his words, he jumped up and grabbed strong Gu.

Strong Gu tried to struggle while self Gu used the opportunity to approach and take a bite of it.

Strong Gu was injured, it got weakened.

“Where are you trying to go!” Great Strength True Martial shouted, he grabbed strong Gu and stuffed it into his chest.

Strong Gu went into his chest and got imprisoned in his heart, unable to escape.

“Don’t waste your effort, this is my heart of ambition, you cannot escape.” Great Strength True Martial laughed.

Next, he found Ren Zu’s other hearts from the corpse of the Predicament and placed them back into his chest.

Ren Zu was revived once again!

…

Undeniably, a person’s heart was the source of their vitality, one of the most fatal weaknesses of a human's body.

The food path killer move eat heart that Spectral Soul created was a greater creation than bitter taste and swallow loss. Even if these two moves hit his enemies, they could only tilt the balance of victory and defeat. Meanwhile, eat heart was a fatal attack, once hit without ample preparation, it could decide the outcome almost instantly!

This was a method that could claim victory!!

Fang Yuan was hit.

Peaceful Soil Heavy Mountain Fortress had outstanding defense without doubt. But among all the Gu Immortal paths, food path was extremely well hidden, there were few defensive measures against it. Thus, during the fate war, Western Desert's Gu Immortals were all without options against Heavenly Court's combination killer move, sitting and eating the mountain empty, they were all hit by it.

Fang Yuan also had a food path inheritance, he also knew that Spectral Soul had a deep attainment in food path.

Peaceful Soil Heavy Mountain Fortress was assembled by Fang Yuan, it could defend against food path originally.

But now, Spectral Soul broke a hole in this Peaceful Soil Heavy Mountain Fortress!

Even the complete Peaceful Soil Heavy Mountain Fortress would have difficulties blocking the killer move eat heart entirely, Fang Yuan would still be affected regardless.

At this moment, the intense feeling of death assaulted Fang Yuan.

He could not struggle, he had no way to struggle!

The Heavenly Dao in the sovereign immortal aperture seemed to have noticed this, it stopped conjuring new myriad tribulations as the dao marks scattered all over the aperture, trying to restrain Fang Yuan's entire body.

Fang Yuan could not use any defensive methods, he could only wait for death.

Lu Wei Yin saw that the situation was bad, he quickly activated the earth path battlefield, yellow sand gathered into dragons that coiled around Giant Spectral Soul, squeezing and attempting to immobilize Spectral Soul.

Spectral Soul smiled coldly, hundreds of arms blocked them as he defended easily. His four eyes were still staring at Fang Yuan, most of his attention was spent on sustaining eat heart.

“Oh no!” Lu Wei Yin’s heart sank.

Qi Sea Ancestor and Wu Shuai also felt chills flowing down their spines, they tried to desperately attack, but Spectral Soul did not even turn around for a moment.

Spectral Soul would rather suffer heavy injuries to make use of this opportunity.

He wanted Fang Yuan dead no matter what!

“Is… is everything going to end like this?” Fang Yuan’s mind was still quite empty, he did not have many thoughts left. This was the aftermath of using unlimited qi sea.

Spectral Soul was just too strong.

Worthy of the former Demon Venerable! The man who was invincible in this world during his era!

During that time, he killed until the world became shrouded in darkness, nobody dared to make a sound, all of the living beings in the world could only tremble under his shadow.

Only until the appearance of Paradise Earth Immortal Venerable, he spent his entire life to mend the wounds and scars of the hearts of the people.

Before Spectral Soul went all out, his battle strength was not much higher compared to the rest, yet he still had a firm control over the situation. After he used his full power, his battle strength rose greatly, he immediately surpassed everyone. The most despairing thing was that each of his decisions carried immediate effect, he did not give his enemy any opportunities to recover, there was no way for them to survive.

“No, even if there is only a trace of hope, I need to do my best!” Fang Yuan could not use any methods, even if he could use a killer move, he could not block the killer move eat heart.

Unless it was reverse flow protection seal!

The pain on Fang Yuan’s face vanished, his lips curled up as he revealed a mysterious smile, it was extremely unusual.

At the next moment, he shouted loudly: “If you do not take action now, when will you ever get another chance? Qi Jue!”

A pair of Spectral Soul’s pupils expanded, while another pair of eyes squinted: “Is… Fang Yuan trying to deceive me? No wait!”

One of his heads turned around, he saw Demon Immortal Qi Jue attacking!

Boom!

Demon Immortal Qi Jue activated his killer move, the Xi Land on top of his head flew down like a comet, crashing into Spectral Soul’s back.

Spectral Soul was greatly impacted, he also fell to the ground.

Puff puff puff!

Countless holes appeared on his body, it was like a deflating balloon, dark soul qi spewed out of the holes towards the outside.

Not only that, a hundred arms of Spectral Soul immediately fell onto the ground like decaying tree branches.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2054 - Spectral Soul, You Are Too Poor!

2054 Spectral Soul, You Are Too Poor!

“Ahhhh—! Qi Jue!” Spectral Soul screamed, staring at Demon Immortal Qi Jue with deep anger.

Demon Immortal Qi Jue retrieved Xi Land as he retreated, guarding against Spectral Soul’s retaliation.

“You idiot!” Spectral Soul stepped on the ground as a loud sound echoed, he finally stabilized his footing.

Even someone like him who had lived for so long became furious this instant, he was about to kill Fang Yuan but his ally actually attacked him.

Demon Immortal Qi Jue floated in the air, staring at Spectral Soul with deep vigilance.

He first frowned as he recalled Fang Yuan’s expression, it was evident that Fang Yuan did that on purpose so Spectral Soul would expose a weakness.

“Was Fang Yuan really at his wits’ end at that time? No, this is more likely Spectral Soul’s deception to distract me. The truth is, even if I was deceived, at this point, I can only continue to attack Spectral Soul!” Demon Immortal Qi Jue made up his mind very soon.

With eat heart broken, Spectral Soul suffered a backlash. During this time, Fang Yuan quickly repaired Peaceful Soil Heavy Mountain Fortress, at the very least, he fixed that hole on it.

While recovering, Fang Yuan did not forget to attack using words: “Spectral Soul, don’t be too angry now, the truth is, before you contacted Qi Jue, I had already reached an agreement with him.”

“You made an agreement? Impossible, I checked secretly, you do not have any alliance agreements on you!” Spectral Soul retorted.

“I have just been revived, I will not trust any information path methods. Oh Spectral Soul, you tempted me with benefits, but Fang Yuan did that even earlier. And… he is much more generous than you!” Before Demon Immortal Qi Jue finished his words, he attacked again.

A qi path killer move erupted, the attack swept towards Giant Spectral Soul like a storm.

Lu Wei Yin and the rest saw this, they felt overjoyed.

Wu Shuai and Qi Sea Ancestor were unaware of this cooperation, seeing Demon Immortal Qi Jue’s betrayal, they became very excited. The situation was tight earlier, but with Demon Immortal Qi Jue’s action, the situation was immediately flipped around to their advantage!

Lu Wei Yin pondered and quickly realized: “After the fate war, I used Lord Paradise Earth’s methods to confirm that Spectral Soul had not only regained freedom but was also getting stronger. Soon after, the secret of the sovereign immortal aperture got exposed in treasure yellow heaven. When I contacted Fang Yuan secretly to inform him, I wanted to cooperate with him to deal with Spectral Soul and Shadow Sect. But initially, Fang Yuan did not fully believe me.”

“But soon after, Fang Yuan contacted me and agreed to this alliance. Now it seems that he had already contacted Demon Immortal Qi Jue and used him to confirm my information.”

Lu Wei Yin was Paradise Earth’s inheritor, the venerable had spent his entire life restoring peace to the world, he was at odds with Spectral Soul.

The reason why Lu Wei Yin participated in the fate war was to get rid of Spectral Soul's remnant soul for good.

But even after it ended, Lu Wei Yin did not find Spectral Soul's remnant soul.

Lu Wei Yin naturally did not give up, he paid a huge price and used Paradise Earth's method to deduce Spectral Soul's current condition, but he could not find his location.

Thus, Lu Wei Yin thought of Fang Yuan.

If Spectral Soul wanted to regain full strength, he would need to kill Fang Yuan. After killing Fang Yuan, Spectral Soul would regain sovereign immortal fetus Gu as well as his personal dream realms and attainment levels.

Lu Wei Yin used Paradise Earth's method and contacted Fang Yuan after great difficulty, but the latter was very wary in regards to him.

Fang Yuan had been reborn, he knew that Lu Wei Yin was not what he seemed like on the surface in supporting Heavenly Court, he had his own personal objectives.

Also, because Fang Yuan did not see Spectral Soul during the fate war when he invaded Heavenly Court, he trusted some parts of Lu Wei Yin's information.

Soon after, the secret of the sovereign immortal body was exposed in treasure yellow heaven, it made Fang Yuan believe his words even more.

After Demon Immortal Qi Jue revived, Fang Yuan tried to contact him in secret but did not succeed once.

But coincidentally, Demon Immortal Qi Jue went to approach Qi Sea Ancestor for trouble. Using Qin Ding Ling's reinforcement, Fang Yuan managed to force Demon Immortal Qi Jue to retreat, but the truth was, he secretly made a deal with Demon Immortal Qi Jue.

In order to gain Demon Immortal Qi Jue's trust, Fang Yuan told him that Qi Sea Ancestor was his disguise.

Demon Immortal Qi Jue gained this hold on Fang Yuan and immediately understood that Fang Yuan was sincere in this cooperation.

Demon Immortal Qi Jue lacked knowledge of the Gu Immortal world at that time, Fang Yuan attended to his needs, he used his various true inheritances as the transaction goods.

Demon Immortal Qi Jue was greatly moved but he was still very wary, he did not want to set an alliance agreement with Fang Yuan, he was afraid that Fang Yuan would use unknown information path methods to harm him.

Fang Yuan did not force him, they eventually came to a relaxed agreement that could not have any restraining power to either of them.

Fang Yuan provided true inheritances of various paths to Demon Immortal Qi Jue, while the latter gave Fang Yuan the secret of his qi path resurrection. Furthermore, he even followed Fang Yuan's arrangement and sold a huge amount of qi path immortal materials in treasure yellow heaven to purchase inheritances of all paths.

Fang Yuan learned of the secret regarding Qi Jue's revival, he immediately gained a huge breakthrough in resolving the qi harvest fruit. Thus, Qi Sea Ancestor was able to get rid of it. After that, Fang Yuan's clone used Heavenly Court's qi harvest fruit to create the Qi Sea clone successfully!

The truth was, with just Fang Yuan's qi path attainment, he could not resolve the problem of the qi harvest fruit so quickly.

But Demon Immortal Qi Jue was contacted by Spectral Soul in treasure yellow heaven some time after that.

Demon Immortal Qi Jue was greatly shocked, after hearing Spectral Soul's words, he understood Fang Yuan's intention.

Demon Immortal Qi Jue and Fang Yuan had a lax agreement, they could betray each other easily. Demon Immortal Qi Jue would not consider Fang Yuan's benefits, he immediately negotiated with Spectral Soul in secret.

But soon, he realized that Spectral Soul's offer was far inferior to Fang Yuan's.

"How can a great Demon Venerable be so stingy?!" Demon Immortal Qi Jue first held disdain before he pondered: "Oh, I get it! Spectral Soul is the pioneer of soul path, he also has a food path true inheritance, but he wants to keep them and refuses to transact these two. Even though Shadow Sect had existed for so long, they only found very few venerable true inheritances. But Fang Yuan is the crucial pawn of heaven's will and the ten venerables, many of these venerables invested in him, thus he possesses Red Lotus' true inheritance, Thieving Heaven's true inheritance, Giant Sun's true inheritance, Spectral Soul's true inheritance, Reckless Savage's true inheritance, Primordial Origin's true inheritance, Genesis Lotus' true inheritance, Paradise Earth's true inheritance, and Limitless' true inheritance. Other than these, he also has Lang Ya's true inheritance, the dragonman race's true inheritance, food path true inheritance, Bo Qing's sword path true inheritance, and many more. Damn… how can this one guy have so much wealth?"

After Demon Immortal Qi Jue understood the reason, a complex feeling emerged in his heart uncontrollably.

Fang Yuan could be said to be the wealthiest person in terms of true inheritances throughout history!

Even though Spectral Soul's Shadow Sect had searched for such a long period of time, obtaining venerable true inheritances took a lot of time and effort, and they were usually incomplete. Every venerable would make each inheritance with a specific purpose. Even if Spectral Soul destroyed them, he would not gain much. His greatest gain was still that Red Lotus true inheritance, and that was left to him intentionally by Red Lotus Demon Venerable to allow them to cooperate.

Regarding Fang Yuan's gains, Demon Immortal Qi Jue felt jealousy, envy, and hatred.

Fang Yuan was too rich, even though Spectral Soul was a Demon Venerable, compared to Fang Yuan in this regard, he was simply too poor!

After comprehending this, Demon Immortal Qi Jue gained a deeper understanding of Fang Yuan: “No wonder this guy was chosen to be the crucial person to destroy Fate! He is making use of me to defend against Spectral Soul while also harming him, he also knows my wants so even without an agreement, I would not betray him easily.”

Fang Yuan had abundant wealth, he also knew that Qi Jue would go against Spectral Soul, he naturally acted very generously.

Spectral Soul was kept in the dark, he had to deal with the crafty Demon Immortal Qi Jue that showed signs of this betrayal, it was a stark contrast from Fang Yuan.

Of course, Demon Immortal Qi Jue would not side with Fang Yuan simply because of this.

He took advantage of both sides, on one hand, he told Fang Yuan about the price that Spectral Soul was paying, on the other hand, he requested for more things from Spectral Soul, Demon Immortal Qi Jue had been trying to gain the maximum benefits for himself all along. Up until he attacked Spectral Soul earlier, he had been interacting with both parties.

The sovereign immortal aperture’s situation was not optimistic.

The myriad tribulation transformed again, it became a boundless grey wind. Wherever the wind blew, ash and sparks would appear, in the end, it would burn and destroy everything, the grey wind would sweep through, leaving a huge empty land behind.

It was the myriad tribulation — Spark Blowing Grey Wind!

The heaven path dao marks turned into wind path and fire path dao marks, creating this myriad tribulation that Fang Yuan had trouble dealing with immediately.

Not only did the grey wind appear in the mini five regions, it also affected the mini nine heavens.

A lot of resource points were destroyed, the sovereign immortal aperture had always been developed by Fang Yuan, it reached twenty percent development, but now, half of that was gone.

During this time, Fang Yuan could only try to save the people instead.

There were many humans and variant humans living in the sovereign immortal aperture, they were gathered in cities, mountains or valleys. This was huge wealth, Fang Yuan could give up the rest but he had to preserve the lives of these people.

“Cough cough.”

Inside Peaceful Soil Heavy Mountain Fortress, Fang Yuan continued to cough out blood.

He was heavily injured.

This was the result of Spectral Soul’s eat heart killer move.

The scene earlier was too dangerous, if it lasted for a few more breaths of time, Fang Yuan would have died. Even now, if Spectral Soul uses eat heart on Peaceful Soil Heavy Mountain Fortress again, Fang Yuan would not escape death.

Peaceful Soil Heavy Mountain Fortress could not fully resist the power of eat heart!

However, Spectral Soul no longer had a chance.

Demon Immortal Qi Jue’s betrayal changed the entire situation.

Earlier, Demon Immortal Qi Jue had Xi Land that countered Qi Sea Ancestor, he could shoulder some pressure for Spectral Soul. Now, Demon Immortal Qi Jue became the most troublesome person for Spectral Soul to deal with.

Immortal killer move — Great Qi Hand Explosion!

Qi Sea Ancestor activated his killer move, Spectral Soul sensed it, immediately moving a hundred arms as black smoke appeared around him.

Qi Sea Ancestor’s face flushed red, he felt like he was squeezing an expanding piece of metal, his killer move was about to break!

Immortal killer move — Upper-Lower Breathless Qi!

At the crucial moment, Demon Immortal Qi Jue attacked with his killer move, directly hitting Spectral Soul.

Spectral Soul soon felt his breath going out of sync, his immortal essence flow became choppy, his defensive method that resisted great qi hand explosion became much weaker.

Using this chance, Qi Sea Ancestor exerted more strength into his move.

Boom!

Great qi hand explosion was successfully used, and at this moment, Demon Immortal Qi Jue used a supplementary method to double the strength of this great qi hand explosion.

Giant Spectral Soul was sent flying from the impact as tens of black arms exploded, he was covered in dust and smoke.

Chapter 2055 - Countering Spectral Soul

2055 Countering Spectral Soul

Swoosh!

Some parts of Giant Spectral Soul's body broke out with countless holes of various sizes, from these holes, black soul qi spewed out rapidly.

As the soul qi leaked out, Giant Spectral Soul's huge body started to shrink at an observable speed.

Seeing this, Lu Wei Yin's eyes shined with bright light: "No wonder Spectral Soul used a physical body to fight earlier and did not turn into the giant immediately. This move gives him a temporary power boost but it cannot be sustained for long, it also has a severe problem in it!"

Giant Spectral Soul quickly healed his wounds and mended the holes, preventing soul qi from leaking further.

As he healed, he attacked in place of defense, hundreds of arms danced around and slammed at Lu Wei Yin and the rest, causing them to scatter and dodge.

Spectral Soul was actually even fiercer than before!

But Lu Wei Yin and the rest were calm, their morale rose as they saw the hope of victory!

"Create an opportunity for me." Demon Immortal Qi Jue suddenly transmitted to Lu Wei Yin and the rest.

Lu Wei Yin did not hesitate, he immediately activated the battlefield, a sandstorm concealed Demon Immortal Qi Jue's traces.

Within the sandstorm, Demon Immortal Qi Jue had a solemn expression, almost all of his concentration was placed in his immortal aperture. A brand new killer move was carefully prepared by him, it was taking shape.

Spectral Soul sensed something amiss, he immediately charged into the sandstorm, attempting to disrupt Demon Immortal Qi Jue's mysterious killer move.

Qi Sea Ancestor and Wu Shuai desperately tried to stop him but they could not stall Spectral Soul at all.

Qing Chou rammed towards Spectral Soul but was easily dodged.

Seeing that Spectral Soul was about to reach Demon Immortal Qi Jue, Lu Wei Yin stepped in.

He had outstanding defensive methods, even though he lacked offense, he was the one who could stall Spectral Soul for the longest time now!

Giant Spectral Soul fought with Lu Wei Yin, causing the latter to bleed from his nose and mouth, but he was unable to advance any further due to this obstruction.

Getting some crucial time, Demon Immortal Qi Jue took a risk and completed his killer move preparation.

Immortal killer move — Xi Xi!

The Xi Land above his head shined with profound light, directed at Spectral Soul. Seeing this, Spectral Soul roared with a trace of panic in his voice.

The profound light pillar emitted an intense suction force, forcefully draining the black soul qi from Giant Spectral Soul's body!

Giant Spectral Soul's body shrunk rapidly, all of his soul path methods fell drastically in strength.

Spectral Soul had a grim expression, he unleashed food path killer moves, bitter taste and swallow loss.

Demon Immortal Qi Jue got hit by them, his body shook, he almost failed to sustain the killer move, Spectral Soul nearly escaped.

But at the crucial moment, Lu Wei Yin strained his mind and pointed at Demon Immortal Qi Jue, shooting out two yellow lights.

One yellow light landed on Demon Immortal Qi Jue and spread around the battlefield.

Immortal killer move — All Life Is Bitter!

Instantly, all of the immortals here felt bitterness, even the illusory sand shifting shadow battlefield was sharing the burden of experiencing the killer move bitter taste.

The second yellow light entered Demon Immortal Qi Jue's body.

Immortal killer move — Suffering Loss Is A Blessing!

Demon Immortal Qi Jue benefited from this, his body's injuries started to recover, he laughed loudly in satisfaction.

Spectral Soul's expression was dark.

After Lu Wei Yin used both killer moves, his aura diminished to an extreme low, he immediately escaped using the sandstorm.

From within the sandstorm, his voice was firm: "Spectral Soul, you committed too many sins and caused great harm to the world. Back then, countless Gu Immortals fell victim to your two food path killer moves! Thus, Lord Paradise Earth Immortal Venerable created these two moves specially to deal with you!"

They were his direct counter!

Spectral Soul was stuck in a passive spot instantly, his two killer moves were broken.

Once a killer move was broken, the user would fall into a passive state, even Spectral Soul was no exception. Simply because he was dealing with another venerable, someone who had opposed him over his entire life!

Bitter taste and swallow loss were countered, Spectral Soul wanted to use eat heart now.

This move was created in his later years, it had almost never been used, there was almost no possibility that Paradise Earth Immortal Venerable had a counter to it.

But Spectral Soul could not use it.

When he used eat heart earlier, many soul path Immortal Gu were destroyed, he also expended a huge amount of food path mortal Gu, he had paid a huge price to forcefully activate it.

Simply put, he could not use eat heart for the following short period of time.

Precisely so, Spectral Soul had been holding back eat heart, not willing to use it without a good reason.

After Spectral Soul escaped, he first ransacked Heavenly Court's storage before devouring Soul Pacifying grotto-heaven, taking its entire foundation. Spectral Soul recovered his strength, he rose up again with great efficiency! However, it was undeniably that his gains in food path Immortal Gu were minuscule, he could not truly exert the full strength of his food path.

Food path was very rarely passed down, this was both Spectral Soul's advantage and disadvantage. Because there were too few food path Gu Immortals, there were also very few food path Immortal Gu around.

All in all, Spectral Soul had too little time to recover!

Ever since this battle to chase Fang Yuan started, Spectral Soul had been using countless soul path killer moves that were tough to deal with.

But in terms of food path, Spectral Soul only had three killer moves. Among which, eat heart was only used with great difficulty, it was a one-time use trump card.

Spectral Soul had countless soul path killer moves with terrifying and peculiar effects, they were hard to counter. But in terms of food path, there was nothing special, he only had three moves, for Lu Wei Yin and the others who had fought him for so long, it was hard to not accustom themselves to these moves.

It was like Fang Yuan's Peaceful Soil Heavy Mountain Fortress, when he used it earlier, it was shocking. But after a while of fighting, with its foundation exposed, Spectral Soul and Qi Jue quickly familiarized themselves with its weaknesses.

Trump cards were things that were best left unused as much as possible.

Spectral Soul's two food path killer moves were countered by Lu Wei Yin, he immediately suffered a backlash, his injuries were severe!

Killer moves could not be used carelessly, once they were broken, the outcome would be terrible.

But this was not Spectral Soul's mistake, in the earlier situation, soul path killer moves could not turn the situation around, food path was the wisest choice!

But Lu Wei Yin was someone with deep schemes, he was just Paradise Earth's inheritor, he was not the Immortal Venerable after all. Thus he kept these two moves concealed as trump cards, even though Spectral Soul used the two food path killer moves earlier, he did not show any hints. At the most crucial moment, he unleashed his counter and achieved the best result!

"Ming You, I will kill you, I will kill you!" After Spectral Soul suffered heavy injuries, Qing Chou attacked while roaring loudly!

It was like a mad beast, its expression was distorted and its eyes were red, bursting open and bleeding with green-black blood. Its body was covered in hundreds of holes, blood spewed out continuously, its injuries were scary to look at.

“Truly an amazing creation.” For a moment, Giant Spectral Soul squinted his eyes.

Spectral Soul’s attainment in soul path was definitely unsurpassed in the world. He created soul path, causing soul beasts to exist in the world. Thus, his understanding of soul beasts was extremely thorough, nobody could know more than him! And yet, Qing Chou was different, a qualitative change had occurred within its body.

Facing Qing Chou’s attack, Giant Spectral Soul became overjoyed instead!

Since the fight started, Spectral Soul had gained great benefits from Qing Chou. For others, Qing Chou would be a huge problem, it was quite fatal. But for Spectral Soul, it was like a gentle rain, it came at a good time to allow Spectral Soul to absorb its strength and recover rapidly!

Qing Chou charged with extreme speed, it did not care about its own life.

The sole enemy in its life was right before it!

But as memories surfaced, its vision blurred again.

“Escape, quickly escape!”

“Can anyone save me, oh, ancestors of Qing clan, why are you not taking action?”

“Father! Mother! Where are you?”

…

Cries resounded, screaming filled the entire Qing oasis.

Rough winds howled in the desert, while the oasis carried a warm breeze.

This was Western Desert Qing clan's blessed land headquarters, it was situated in a beautiful oasis of Western Desert.

The sandstones were like mountains, the still lake were like the sea, and the trees were lush and vibrant. However, this utopia that was Qing clan's beautiful home turned into living hell.

A terrifying slaughter was ongoing, blood flowed into rivers, countless Gu Masters retaliated desperately but were unable to cause any problems for the perpetrator.

The young Spectral Soul, Ming You from Southern Border's Gu Immortal world, wore a black robe, he stood proudly in the sky, each time he attacked, he took away thousands of lives.

He looked down on the ground, countless people were running in the face of death, they were like pitiful ants.

"Qing clan, you are a great Western Desert super force, how long are you going to hide?" Ming You snickered and taunted: "It is too disappointing, are you going to watch your clan get slaughtered like this? Hehehe, the so-called Qing clan is nothing amazing after all!"

Qing clan did not have many Gu Immortals left.

Right now, they were in the deepest part of their blessed land headquarters, hearing Ming You's voice, they felt extremely furious.

"This demonic path scoundrel is too arrogant and hateful!"

"To think that our second supreme elder would die at his hands, this is truly too unbelievable."

"Our great Qing clan actually ended up in this situation, nobody dares to go out and fight just this mere Ming You alone!"

"No, this is not all Ming You's credit. Don't you all find it weird that news of Divine Bean Palace was leaked out?"

Qing clan's Gu Immortals discussed, some were sad and dejected, some felt they were helpless to do anything.

“Cough cough, you are right.” Qing clan’s first supreme elder woke up from his coma.

“First elder!” Qing clan’s Gu Immortals were overjoyed, they cheered: “You are finally awake.”

Qing clan’s first supreme elder still had a purplish complexion, his aura was extremely weak. He barely sat up on his bed as he said: “Ming You has likely cooperated with the other forces to deal with us. He is an open blade while the other forces are restraining us secretly, they are too vicious. Not long ago, to settle some territorial dispute and get a giant resource point, I was sneak attacked and suffered heavy injuries, I have no battle strength now. Recently, our clan’s giant resource points have all been attacked by demonic path Gu Immortals. After sending our Immortal Gu Houses to deal with them, our headquarters have fallen into a state of absolute weakness… cough, cough.”

“First supreme elder, you need to rest, don’t exert yourself!”

“Yes, we will handle this!”

“As long as Qing clan survives this crisis, we will definitely take revenge on those vicious scoundrels.”

Qing clan’s Gu Immortals quickly assured.

But Qing clan’s first supreme elder shook his head: “Don’t go and waste your lives, Ming You has incredible battle strength, he possesses an immense innate luck, he is not a simple character. We were too careless earlier, by the time we realized this and want to deal with him seriously, the other forces already started to restrain us. We need to be very vigilant in dealing with him now!”

Qing clan’s Gu Immortals were discussing earlier, but hearing the first supreme elder’s words, it seemed like he had other plans.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2056 - Qing Chou!!

2056 Qing Chou!!

“First supreme elder, what idea do you have?”

Qing clan’s first supreme elder forced a smile: “The cause of everything, the origin of Qing clan’s predicament, is just one thing, Divine Bean Palace! Other than us, nobody wants to see Qing clan refine Divine Bean Palace successfully, even if we exert all our strength and give up our territories, even if we defeat Ming You, how can we deal with all the super forces?”

“Cough, cough.” Qing clan’s first supreme elder paused before continuing: “So our best counterattack is to refine Divine Bean Palace.”

An anxious Gu Immortal immediately asked: “How can we refine Divine Bean Palace rapidly?”

Qing clan’s first supreme elder sighed: “There is one method we can try!”

Qing clan’s immortals were very excited, they looked at Qing clan’s first supreme elder fixedly.

Qing clan’s first supreme elder slowly explained: “Earlier, we used hatred Gu to get past Divine Bean Palace’s defense, we made huge progress, we just need some time to refine it now. However, we lack the time we need, we can only take a risk and use that killer move now.”

“What killer move?”

“Don’t tell me…”

Some Qing clan Gu Immortals had perplexed expressions while some had changing expressions, they recalled some vague rumors they had heard.

Qing clan’s first supreme elder nodded, excitement showed on his tired face: “This killer move was created by second supreme elder and I, he was the main user with my assistance. The killer move has extraordinary might, I will activate it while all of you participate and help. As long as we can unleash it, the current Divine Bean Palace cannot block it, any rank eight Gu Immortal will need to avoid it as well. No matter how strong Ming You is, he is still rank seven.”

“We will do that!”

“First supreme elder, what do we name it?”

First supreme elder shook his head as he smiled bitterly: “Second supreme elder died before we could name it.”

This old man was silent for a while before replying solemnly: “Let’s call it, Qing Chou[1], this is the revenge of Qing clan! Divine Bean Palace was the cause of our predicament and suffering, Qing clan needs to take revenge. We will use Qing Chou to refine Divine Bean Palace completely! These super forces with ill intentions will also face the revenge of our Qing clan one by one! That arrogant and vicious Ming You who caused us great harm will also face our revenge! Using Qing Chou, we will…”

“We will take revenge! We will repay this debt a thousandfold to those who hurt us. In this aspect, we will not be stingy, we will repay them fully!”

These words raised the spirits of the immortals.

“Qing Chou… truly a good name.”

“First supreme elder is right, we must take revenge!”

“Let Qing Chou be the sign of our Qing clan’s rise to greatness.”

Qing… Chou…

Qing Chou…

Qing Chou?

Qing Chou!

Qing Chou's vision cleared up at once, it recalled everything, its memories were fully restored.

Facing Ming You's assault, Qing clan first decided to use the killer move Qing Chou to refine Divine Bean Palace. Next, they would go and fight to claim victory.

However, the Qing Chou killer move that they entrusted their hopes to did not fully refine Divine Bean Palace. Instead, it triggered a mysterious resonance with Divine Bean Palace, the entire sky shined with jade green light.

The mysterious light devoured Qing clan's immortals, it digested the entire Qing clan headquarters, including Qing oasis, it covered the surrounding ten thousand li!

Ming You was forced to retreat, after the mysterious light faded, the super forces came to check what happened, they saw that the great Qing clan territory was reduced to a huge and vast ruin.

The indignant Western Desert Gu Immortals searched the entire place thoroughly but they could not find anything.

As time passed, people went from disappointment to despair, they left this lifeless dessert eventually.

Only in some corner, a rank eight wood path Immortal Gu House with a dim hall and hatred Gu as the core within the hall was activating a killer move.

This killer move was called Qing Chou.

The killer move Qing Chou did not fail, it was only influenced by something and mutated in essence.

It turned into… a life form!

Countless vengeful souls who died terrible deaths fused together, a soul beast with hatred Gu as the core was born.

Initially, it was very small like a baby.

It opened its eyes, its gaze was crystal clear.

Next, it grew up continuously, without any idea of what was happening.

Its body started to grow as its physique became clear. It had claws, a tortoise shell, and a head with long hair.

Its size was initially the same as a rabbit, next it grew to a wolf's size, before a bull and then an elephant, eventually, it became as large as a mountain.

Countless vengeful souls cried out, from the moment it was born, they had been screeching in its ears, reverberating in its heart.

Every time it grew, these resounding voices would become louder and more muffled.

They were screaming, they were howling.

Qing Chou could not hear them clearly, it felt greatly troubled.

These voices were too annoying and muffled, they went on without stopping, it became confused, it became frustrated, it became angry.

Its thoughts became more chaotic, it became more ruthless and aggressive.

It growled, it slashed the ground of the hall with its claws, it crashed into the pillars using its shell, it bled from injuries as its hair covered its face.

The hall rapidly repaired itself but the voices still continued, they were getting more muffled and loud.

Qing Chou could do nothing.

It became dejected eventually.

It wanted to give up, it wanted to die.

But it did not do so, those vengeful voices were trying to remind it of something.

What was it?

What were those damned voices trying to say?

Tell me, tell me, why are you torturing me like this, why don't you just let me die?!

Ever since the chaotic battle started, Qing Chou sensed Spectral Soul, its consciousness fell into chaos due to hatred Gu. Even though it was conscious, its mind was not clear.

It only knew how to kill, it knew how to charge and advance, it only knew how to fight! It wanted to exert itself, to use every drop of blood in its body to kill Spectral Soul, to exterminate Spectral Soul!

But now, Qing Chou's mind was no longer in chaos, it regained clarity.

It was as if the clouds parted in the sky, everything was clear now.

Its memories were complete, it understood the whole situation from start to finish.

It… could finally understand the words of those vengeful souls.

These vengeful souls were screaming and crying all the time, they had never stopped or weakened at all.

Qing Chou heard them clearly now.

These vengeful souls were not screaming in pain or bitterness.

They were not crying out in grievance, they were not screaming their innocence.

They only said one thing — Qing Chou.

Qing Chou!

Qing Chou!!

You must remember the purpose of your existence!

You must remember the burden that you bear!

You must remember all your enemies!

Don’t forget it, don’t forget it for even an instance, don’t give up, don’t give up even for an instance.

Revenge, revenge, revenge!

Those clansmen who died pitiful deaths, those Qing clan members who had yet to fulfill their aspirations, we need to take revenge for the pain and suffering that was inflicted on us!

“Spectral Soul—!” Qing Chou screamed: “Have a good taste of this!”

“This is the revenge of Qing clan, after a hundred thousand years, the killer move that has been nurturing for a hundred thousand years—”

“Qing Chou!!!”

“Oh no!” At this moment, Giant Spectral Soul’s expression turned cold, his heart sank.

A qualitative change occurred in Qing Chou’s body, rank eight Immortal Gu Hatred which had been growing the entire time finally broke through at this moment, it became a genuine rank nine Immortal Gu!

Qing Chou’s mountain-like body shot out a jade green light that was familiar to Spectral Soul.

Within the green light, Qing Chou’s body transformed like flowing water.

It stood straight up, its four limbs turned into human hands and legs.

The huge pair of wings that it had turned into a full body armor.

Its shell turned into a shield, held by its left arm.

Its snake neck contracted rapidly, allowing its neck and shoulder to have the perfect proportion.

Next, a huge lump of light flowed from its long tail and snake neck, transferring to its right palm as it extended into a terrifying spear.

Giant Qing Chou charged towards Spectral Soul, the vast green light condensed and went into the tip of its spear.

The long spear stabbed forward with great force!

Giant Spectral Soul changed moves!

He had to make a change, if he used his earlier method on Qing Chou again, he would be courting death.

Spectral Soul grunted as he retracted his move, causing him to suffer backlash.

But he achieved his goal, he successfully changed killer moves. At the crucial moment, rumbling black smoke gushed towards Qing Chou, stopping its attack.

Seeing this, Wu Shuai, Qi Sea Ancestor, and Demon Immortal Qi Jue stared with wide eyes.

This seemed like a long process but in fact, it occurred too quickly and suddenly.

Qing Chou suddenly became stronger, it turned into a giant with a huge rise in battle strength.

Before Wu Shuai, Qi Sea or Qi Jue had time to celebrate, Giant Spectral Soul withdrew his killer move and retaliated instantly.

Seeing that this fatal killer move was mostly blocked by Spectral Soul, Wu Shuai, Qi Sea, and Qi Jue felt greatly disappointed, they could not help but admire Spectral Soul’s resolve and method.

He could actually swap killer moves within such a short time frame!

However, Lu Wei Yin smiled.

At the next moment, Giant Qing Chou's messy hair rose up and tangled together like vines, gathering into the appearance of a huge tree.

This tree had lush leaves, it was a massive cover over Qing Chou's head, it emitted a jade green light again.

Spectral Soul's rumbling smoke was all blocked by this powerful light!

"This is?!"

"A venerable method!"

"Genesis Lotus Immortal Venerable's karma divine tree killer move!!"

Qi Sea, Qi Jue, and Wu Shuai were shocked.

Swish!

Giant Qing Chou's attacks were no longer obstructed, the terrifying spear pierced through Giant Spectral Soul from the front to the back.

Following that, the green spear turned into jade green light and flowed into Giant Spectral Soul's body like a torrent of water.

Giant Spectral Soul took several steps back, his aura weakened to an extremely low level.

Spectral Soul was covered in holes as soul qi leaked out along with some jade green light. Hundreds of arms covered these holes but could not stop the overwhelming green light from shining.

These mysterious lights were like swords or spears, bursting out of Spectral Soul's body, radiating the entire battlefield.

Spectral Soul lost!

This was a truly fatal blow!!

Spectral Soul’s expression was cold as he muttered: “Genesis Lotus, Paradise Earth… good, you guys are really impressive.”

Next, he smiled coldly, his killing intent surged instead, reaching an unprecedented level!

“Long long ago, I swore that I would only make others struggle in the face of death. Are you all… prepared for that?”

Spectral Soul’s words made everyone’s expressions change.

“Oh no!”

“Get away from him, quickly!”

“He is going to self-detonate!!”

“All of you, die with me.” Spectral Soul roared.

Boom—!!!

[1] Chou means revenge

Chapter 2057 - Spectral Soul“s Death

2057 Spectral Soul“s Death

“Quickly, quickly, we need to be faster!” Fairy Zi Wei continued to urge herself internally.

She was the only wisdom path great expert here, the duty of unraveling this battlefield killer move ended up on her shoulders.

Fairy Zi Wei’s soul was modified by Spectral Soul, she was loyal to him, she exerted herself in trying to unravel this battlefield killer move.

However, Lu Wei Yin’s illusory sand shifting shadow battlefield was not a simple battlefield.

“This earth path battlefield is extremely sturdy, it also has a layer of vagueness. I’m afraid it uses Paradise Earth Immortal Venerable’s battlefield as the foundation and was modified from that!”

Fairy Zi Wei was frowning deeply, her mind was heating up, with her full effort, she managed to deduce some useful information.

But there was little progress overall.

Firstly, the battlefield killer move would shrink into a tiny spot once they were activated, isolating the inside and outside. Be it from within or externally, it was hard to unravel.

Initially, Fairy Zi Wei was able to break Fang Yuan’s yama battlefield in Lang Ya blessed land because she had Feng Jiu Ge’s fate armor

Immortal Gu to locate yama battlefield.

By combining both internal and external influences, she had a breakthrough in unraveling that battlefield.

Secondly, illusory sand shifting shadow battlefield was not ordinary, it was the work of a venerable, improved upon by future generations.

It was already amazing that Fairy Zi Wei could find the exact location of the battlefield so quickly, it showed her incredible wisdom path attainment.

Fairy Zi Wei continued to use various methods, sometimes, she activated individual Immortal Gu, sometimes, she used wisdom path killer moves, sometimes, she even asked the Longevity Heaven or Heavenly Court Gu Immortals to probe the illusory sand shifting shadow battlefield continuously.

This was truly an unthinkable sight.

Shadow Sect, Longevity Heaven, and Heavenly Court were actually working together closely!

At the outer periphery, the black bat group was like a raging black tide that attacked constantly. Heavenly Court's Immortal Gu Houses were guarding against them, forming a tight defense that killed all the black bats that were daring enough to approach them.

In the inner area, Fairy Zi Wei was high in the sky with Old Man Zheng Yuan, Bai Ning Bing, and Fairy Miao Yin protecting her.

At the center, two Immortal Gu Houses were situated beside each other. They were Longevity Heaven's Calamity Luck Altar and Heavenly Court's Demon Judgment Board. Each time Fairy Zi Wei gave instructions, these two Immortal Gu Houses would cooperate and use their methods to attack a corner of the battlefield.

Qin Ding Ling and Bing Sai Chuan did not doubt Fairy Zi Wei's anxiety, they also lacked a wisdom path great expert, they were willing to put in effort for this.

Everything they did was for the eventual goal, Fang Yuan!

Originally, these three forces restrained each other while chasing Fang Yuan, they had their own vigilance.

But now that the battlefield killer move enveloped Fang Yuan and Spectral Soul, these three forces started to work together, exerting their effort and energy into unraveling this battlefield killer move.

Fang Yuan's craftiness and viciousness was deeply etched in everyone's minds, since he put up an ambush here, he definitely had ill intentions.

The three factions' Gu Immortals felt something amiss, they quickly worked together, attempting to thwart Fang Yuan's plans with all their effort.

It was truly a wise decision.

But…

Guh.

Fairy Zi Wei suddenly shook as she spat out a mouthful of blood.

"Oh?" Seeing this change, all of the Gu Immortals' attention was drawn.

Fairy Zi Wei wiped the blood off the corner of her lips, her expression was pale but she gritted her teeth, continuing her deduction.

"Heavenly Court nurtured a great immortal, for her master, she is really giving it her all." Within Calamity Luck Altar, Bing Sai Chuan sneered as he tried to attack the two forces with words.

Within the Immortal Gu House, Qin Ding Ling snorted coldly, frowning: "Why is my luck wavering so much?"

At the next moment, Fairy Zi Wei and Old Man Zheng Yuan suddenly took action, profound light flickered, the Shadow Sect immortals were all enveloped, before they shot outside like a meteor!

Bing Sai Chuan and Qin Ding Ling's hearts jumped, they did not think anymore, quickly controlling the Immortal Gu Houses to follow after

Fairy Zi Wei.

Boom!

A terrifying explosion occurred at this moment.

Calamity Luck Altar had just started to move when an immense force assaulted it from the back.

Bing Sai Chuan growled: “Zi Wei harmed us!”

Calamity Luck Altar suffered a huge blow, but its momentum rose as it charged towards Fairy Zi Wei with killing intent.

Within Demon Judgment Board, Fang Zheng lacked experience compared to Bing Sai Chuan and Qin Ding Ling. When the explosion occurred, Demon Judgment Board was still staying motionless on the spot.

Thus, Demon Judgment Board suffered much greater damage than Calamity Luck Altar.

At once, Fang Zheng felt like he had fallen into a tsunami, he was caught unguarded, the entire Demon Judgment Board was swept away by the explosion.

Rumble!

This explosion was created by Spectral Soul’s self-detonation.

After the explosion destroyed the illusory sand shifting shadow battlefield, the three forces’ Gu Immortals who did not know what happened were greatly affected.

Both Immortal Gu Houses, Calamity Luck Altar and Demon Judgment Board, were heavily damaged, even though Fairy Zi Wei deduced the explosion slightly earlier, there was too little time, the explosion quickly implicated them, they were sent flying everywhere.

The numerous Heavenly Court Immortal Gu Houses were also sent flying like kites, blown away by the intense force.

The black bat group was even worse, hundreds of thousands of bats, be they desolate beasts or immemorial desolate beasts, were instantly blown to pieces.

The ground shook as the world seemingly collapsed, the entire scene was very chaotic now.

An extremely damaged fortress appeared in the air.

Qing Chou, which had turned into a giant, was blown into three pieces, it landed on the ground.

Xi Land was greatly damaged, it was originally complete and intact, now only less than thirty percent was left.

Demon Immortal Qi Jue was covered in blood as he flew out of this secluded domain of heaven and earth, he had a sharp gaze as he fixed his eyes on the fortress.

It was Peaceful Soil Heavy Mountain Fortress!

This rank eight Immortal Gu House truly had top notch defense, even though it was heavily damaged, it still managed to block the force of Spectral Soul's self-detonation.

At the next moment, Peaceful Soil Heavy Mountain Fortress was stored into Fang Yuan's immortal aperture.

This Immortal Gu House was too slow, it could not be relied on all the time.

Fang Yuan appeared!

Instantly, he attracted the attention of all the Gu Immortals.

But Fang Yuan was not alone, Lu Wei Yin and Wu Shuai were also around him.

"Let's kill Fang Yuan!" Calamity Luck Altar was not in good shape, Bing Sai Chuan gave up on it and let the rest repair, while he went to kill Fang Yuan himself.

This rank eight great expert who had once fought alongside Fang Yuan did not conceal his deep killing intent towards the latter.

“Fang Yuan, what did you do to master?!” Fairy Zi Wei stopped escaping, she screamed out as blood oozed out of her nose and mouth.

Demon Immortal Qi Jue had a child-like appearance but an elderly voice, he smiled coldly: “Didn’t you all feel the severity of the explosion earlier? Spectral Soul has already self-detonated and died.”

What?!

The immortals heard this and were intensely shocked.

“The great Spectral Soul actually died?”

“The explosion earlier was too terrifying, it was clearly a soul path killer move, was it Spectral Soul’s final attack before dying?”

“But how can this be! A great Demon Venerable…”

“No, Spectral Soul is no longer a Demon Venerable.”

“Even so, he still has the number one battle strength in the world, to think that he actually died at the hands of Fang Yuan and the rest!”

“Fang Yuan actually killed Spectral Soul??”

The immortals’ expressions changed, their pupils contracted as all of their gazes focused on Fang Yuan!

Even though Spectral Soul’s death was caused by everyone’s effort, Fang Yuan was undeniably the main perpetrator.

“Fang Yuan cannot be underestimated, he is too scheming, he actually managed to kill Spectral Soul, that is a former Demon Venerable!”

“He even destroyed fate Gu, it is not strange that he managed to achieve this.”

“Kill him, we cannot let him escape. This demon being alive is truly the greatest misfortune of all lives in this world!”

“Yes, even if he was acting earlier, after killing Spectral Soul, he must definitely be in bad shape. If we don’t kill him now, when will we?”

The immortals shouted in unison.

“Fang Yuan, even if I have to die here, I want you dead!” Fairy Zi Wei’s expression was distorted, she gritted her teeth as she attacked.

On one hand, Fairy Zi Wei was modified by Spectral Soul and became extremely loyal to him, his death angered her deeply. On the other hand, she had constantly experienced failure as a result of Fang Yuan. In Heavenly Court, she failed, in Shadow Sect, she still failed, she kept losing to this Fang Yuan.

“Kill him, if Fang Yuan is not dead, the ones to suffer will be everyone present here.” Demon Immortal Qi Jue called out as he attacked Fang Yuan as well.

At the same time, he secretly transmitted to Fang Yuan while chuckling: “Fang Yuan, when Spectral Soul self-detonated earlier, you did not let me into your Peaceful Soil Heavy Mountain Fortress, I’ll forget that. If you want to escape now, you will need my help, take out some venerable true inheritances, show me your sincerity!”

Demon Immortal Qi Jue’s Xi Land was greatly damaged but he retained most of his own battle strength.

This old demon was still working with Fang Yuan to fight Spectral Soul one moment ago, immediately after, he flipped and changed sides, using the three forces to threaten and extort Fang Yuan again!

Fang Yuan was really not in good shape, the sovereign immortal aperture’s myriad tribulation was still ongoing.

Beside him, Lu Wei Yin had a pale expression, his body was wobbling around, it would not be surprising if he fainted at the next moment.

Wu Shuai was looking terrible, even though his rank eight aura was not stable, he still retained some battle strength. Right now, he could only be sacrificed to try to stall for time. Even so, there was no guarantee regarding how much time he could fight for.

As for Qi Sea Ancestor, he was already put into Fang Yuan's sovereign immortal aperture. Within it, Combat Beast King was still unconscious, Fang Yuan needed a Gu Immortal expert to manage the situation.

If not, Qi Sea Ancestor would be forced by the situation, to protect his main body, he would need to expose his identity.

"At the crucial moment, without any better options, I will need to sacrifice the Qi Sea clone and Wu Shuai clone to stall for time." Fang Yuan thought.

He transmitted to Lu Wei Yin: "What is the escape method that you mentioned earlier?"

When Giant Spectral Soul self-detonated, Lu Wei Yin made his move, forcefully activating the illusory sand shifting shadow battlefield and suppressing the soul explosion miraculously, even though it only lasted a few breaths of time, it managed to successfully gain them some time.

Using this time, Fang Yuan's Qi Sea and Wu Shuai clone managed to hide inside Peaceful Soil Heavy Mountain Fortress.

During which, Lu Wei Yin transmitted to Fang Yuan that he had a way to escape and leave Central Continent safely.

Precisely so, Fang Yuan let Lu Wei Yin into his Peaceful Soil Heavy Mountain Fortress.

Firstly, Lu Wei Yin saved both of Fang Yuan's clones, that was a move demonstrating great sincerity.

Secondly, because Lu Wei Yin's battlefield killer move was broken, he suffered an immense backlash, his battle strength plunged and his threat level also diminished, Fang Yuan did not fear him now.

possible.

Chapter 2058 - Helping Fang Yuan Become Venerable

2058 Helping Fang Yuan Become Venerable

Lu Wei Yin replied Fang Yuan immediately: “Fang Yuan, follow me!”

However, Fang Yuan replied: “No rush.”

At the next moment, he smiled coldly, his arms were folded behind him, looking at the three groups of Gu Immortals and their Immortal Gu Houses, he spoke calmly and casually: “Very good, which of you want to die first?”

Saying this, intense aura burst out of his body, his rank eight aura was fully intact and not weak at all.

All of the immortals stared with wide eyes.

“Wasn’t he at his limit already?”

All of the excitement to attack was doused.

The immortals became hesitant.

Using this timing, Fang Yuan laughed loudly as he activated an immortal killer move, bringing Lu Wei Yin and the rest away, they turned into a sword rainbow, flying far away.

Different from earlier, Fang Yuan had already refined many heaven path dao marks, he had already gotten some freedom from the restrictions of the heaven path dao marks.

It was many times easier for him to use immortal killer moves now. Although he still needed to use the human path formation to attack the heaven path dao marks, he could already use other methods now.

“Fang Yuan escaped, chase him!”

“He was toying with us.”

The immortals realized at once, they started to pursue him relentlessly.

All sorts of killer moves were unleashed, bombarding Fang Yuan and the rest.

It was as if the situation had returned to before, except Spectral Soul, Qi Sea Ancestor, and Qing Chou were gone, in exchange there was Lu Wei Yin instead.

But…

“Everyone, be very careful! The final struggle of this demon Fang Yuan cannot be underestimated.”

“Let the other two forces fight, let’s save our energy.”

“Fang Yuan is too scheming, in my opinion, he might still have a second battlefield killer move or an immortal formation.”

“That’s right, in the Southern Border battle, Fang Yuan used a time path formation to trap the allied forces of Southern Border’s righteous path. Lu Wei Yin is also a devious person, he set up the earth path formation to trap Spectral Soul, he did the same thing as Fang Yuan. I was wrong about him!”

“The great Paradise Earth’s Southern Border inheritor actually collaborated with Fang Yuan so shamelessly!!”

The immortals’ words were filled with righteousness and heroism against the evil enemies, they transmitted thoughts and exchanged conversations, trying to come up with a plan.

They chased with a huge commotion, but they were all feeling internally fearful!

The current situation was already very different from earlier, it had changed almost completely.

Fang Yuan managed to kill Spectral Soul, this incredible feat made all three forces very wary and fearful.

Furthermore, Fang Yuan was devious and crafty, he was ruthless and vicious, his battle achievements were deeply etched into everyone’s hearts, the three forces’ Gu Immortals were filled with trepidation.

On one hand, even if Fang Yuan was near his limit, his final struggle would cause any of them to suffer huge losses, their plans would fail completely; on the other hand, the three forces were not just fighting Fang Yuan, they were also mutual enemies.

Earlier, Spectral Soul and Qi Jue took on the role as the vanguard, the three forces were happy to follow behind them and try to reap some benefits. But now, Spectral Soul was dead, even though Demon Immortal Qi Jue appeared imposing, he was secretly extorting Fang Yuan for his personal gains, why would he really fight with his true strength?

Speaking of which, the three forces’ Gu Immortals were wary of Fang Yuan, but was Demon Immortal Qi Jue not wary of him?

“Fang Yuan did not fight much in the few battles earlier. How much did he actually recover? Looking at his killer moves, they are clearly more complex and numerous, how much strength is he concealing? Does he have a fourth Immortal Gu House?” Demon Immortal Qi Jue thought to himself.

Earlier, Fang Yuan lost Dragon Palace and Myriad Year Flying Warship, he immediately took out Peaceful Soil Heavy Mountain Fortress. These three Immortal Gu Houses were all rank eight, they were peak creations of enslavement path, time path, and earth path.

Fang Yuan’s abundant wealth truly shocked Demon Immortal Qi Jue. He would not be surprised even if Fang Yuan took out a fifth

Immortal Gu House at this point.

“Just how deep is Fang Yuan’s foundation?! Aren’t the past venerables investing too much in him!” Demon Immortal Qi Jue gritted his teeth.

As Fang Yuan retreated, he suggested transacting using true inheritances, his attitude was tough at times, Demon Immortal Qi Jue could not make up his mind.

“Should I attack at this time?”

“How much strength does Fang Yuan have left? Would my gains be higher if I kill him?”

“But now, chasing and collecting true inheritances seems pretty good too…”

Among the people, Demon Immortal Qi Jue had the best time during this chasing period.

“We arrived! It is below this place.” Lu Wei Yin suddenly transmitted.

Fang Yuan controlled the rainbow, he suddenly changed directions, he instantly broke through the rock layer, entering the next layer.

Rumble…

Fang Yuan and the rest heard loud rumbling noises around them.

A boundless earth qi river surged intensely as tides raged, Fang Yuan and the other two were surrounded by it, they felt like ants in the river, being extremely insignificant.

“This is… the manifestation of an earth vein?!” Fang Yuan was stunned before he soon realized it.

Lu Wei Yin nodded as he smiled: “Indeed, with the five regions becoming one, the earth veins have merged as well, with the movement of the earth veins, they will manifest themselves. It is about to reach that island.”

Fang Yuan activated his killer move with difficulty as the sword rainbow shot down.

The sword rainbow was hard to maintain, it finally dissipated in the air after some time.

The three immortals fell onto a brown island, they were in sorry states.

This island was very small, it was only a few square kilometers in size. The island was deserted without any living beings, it had a plain terrain, there were three huge rocks at the periphery that resembled pillars, embedded into the grand earth vein.

Precisely because of these three rock pillars, the island remained unmoving despite the earth vein's movement.

"Fang Yuan, where are you running?"

"Chase!"

"What is this place?!"

At this time, the three groups of pursuers also arrived at this layer.

Someone activated a killer move but found that the earth path dao marks here were too dense, they suppressed almost all other paths.

Gu Immortals had to spend a lot of effort activating killer moves unless it was earth path, otherwise, only Immortal Gu Houses could still move around freely.

"Oh no, Fang Yuan came here with a plan in mind."

"No matter what he is trying to do, we must stop him!"

"Quickly destroy that island."

The three forces' Gu Immortals had imposing aura, they quickly got close.

However, Fang Yuan, Wu Shuai, and Lu Wei Yin attacked suddenly, destroying the three huge rock pillars on the island!

Without the support of the rock pillars, the island started to float away along the earth vein.

The three forces' Gu Immortals chased but the island moved rapidly, the difference between the two was just too big, the island quickly pulled apart some distance and in a few breaths of time, shook off the three forces' Gu Immortals.

The three forces' Gu Immortals were dumbfounded.

What the heck was happening?

It was just an island but it actually moved so quickly!

"We really escaped from them. What is this island? Where will it bring us to?" Wu Shuai touched the hard ground of this island with his hands as he asked in amazement.

Lu Wei Yin continued to cough blood, destroying the rock pillars earlier caused his injuries to be aggravated.

He did not answer Wu Shuai, he looked at Fang Yuan instead: "Fang Yuan, you must have recalled it already?"

Fang Yuan nodded, the moment he saw this island, a flash of inspiration struck in his mind. By the time he landed, he had already recalled it.

"This is Flying Earth." Fang Yuan told Wu Shuai.

Even though Wu Shuai was his clone, Fang Yuan did not give him a copy of all his memories, this was a precaution.

If Wu Shuai got captured in the future and got his soul searched, these memories would end up helping his enemies after all.

"In the previous life's five hundred years, the five regions became one, the two heavens combined, the earth veins of the five regions also merged and created many unique terrains. The people in the world called them the ten earths. They are Earth Abyss, Earth Trench, Earth Tunnel, Earth Cave, Earth Prison, Production Earth, Flying Earth, Formation Earth, Treasure Earth, and Tomb Earth.”

“This island is one of the ten earths, Flying Earth, it is formed from the earth vein. It can move around in the earth vein as quickly as flying, its speed cannot be matched normally.”

Wu Shuai finally understood: “So that’s it.”

He continued to sigh: “With the changes in the world, the underground has also become much more interesting.”

He knew the essence of this island, he asked: “Then where can we go?”

Fang Yuan shook his head: “I have only heard of Flying Earth, I have never interacted with it. We can only follow along its trail now, we cannot control the direction. Lu Wei Yin, I wonder if you have any method?”

In this ambush battle, Lu Wei Yin’s performance was very outstanding, Fang Yuan saw much value in him now.

This current generation inheritor of Paradise Earth had incredible power.

He first set up illusory sand shifting shadow battlefield, which was powerful enough to trap Spectral Soul and Qi Jue, it perfectly displayed the might of a proper battlefield.

Next, Lu Wei Yin controlled the battlefield and allowed the immortals to cooperate tightly while dealing with Spectral Soul. During the intense fight, Spectral Soul wanted to target Qing Chou but was obstructed by Lu Wei Yin multiple times.

After that, at the crucial moment, Lu Wei Yin displayed a powerful defensive killer move that blocked Spectral Soul’s rampaging attack, allowing Qi Jue to have enough time to use his xi xi killer move. This was the turning point of that battle.

In addition, Lu Wei Yin used all life is bitter and suffering loss is a blessing to counter Spectral Soul, causing him to suffer an intense backlash.

Finally, he forcefully maintained the battlefield and suppressed Spectral Soul's self-detonation, allowing Fang Yuan's clones to escape the crisis.

After the battlefield was destroyed, he was the one who guided Fang Yuan to this Flying Earth and escaped successfully.

Lu Wei Yin's battle strength was definitely top tier in the current world, but Fang Yuan admired his nature even more. He was adept at enduring and persevering, he used the two killer moves, all life is bitter and suffering loss is a blessing, at the crucial moment to cause Spectral Soul to suffer a huge setback.

With his deep shrewdness and wisdom, Fang Yuan believed that Lu Wei Yin definitely had a method to control Flying Earth. After all, this involved earth path, it was Paradise Earth Immortal Venerable's greatest expertise.

And as expected, Lu Wei Yin did not disappoint Fang Yuan.

He smiled and nodded: "I am not so skilled, but Paradise Earth's inheritance has a relevant method to control Flying Earth's direction and decide the place to stop at."

Wu Shuai heard this, his pupils shrank, he became quite cautious.

Lu Wei Yin seemed to have not noticed as he kept up his smile: "This earth vein travels along Western Desert, towards Eastern Sea, before reaching Southern Border and Northern Plains after that, I wonder where you want to stop at, Fang Yuan?"

Fang Yuan smiled too: "Didn't you invite me to be a guest of your Mushroomman Paradise earlier?"

Lu Wei Yin nodded: "Fang Yuan, now that Spectral Soul has been killed by us, I am sure you know of my sincerity already. This is not just my sincerity, this is also the sincerity of Paradise Earth Immortal Venerable!"

"Even though I am not sure of the details, there is something written down in the inheritance that Paradise Earth Immortal Venerable left behind — Gu Yue Fang Yuan is the Paradise Earth inheritor of the five regions! All of Paradise Earth's forces will help him, they will assist him to become a Gu Venerable with their full strength!"

Chapter 2059 - Paradise Earth“s Deeper Intentions

2059 Paradise Earth“s Deeper Intentions

“What?” When Wu Shuai heard this news for the first time, he was stupefied.

Paradise Earth Immortal Venerable was well reputed to be benevolent and kind, who did not know of his nature? He spent his entire life cleaning up the mess that Spectral Soul created, he did not have a single offensive method. All of his actions and words were meant to lead people to the path of kindness, he took joy in helping people.

Among the people he helped, were the numbers merely millions or tens of millions? In fact, not only humans, even variant humans and legendary immemorial beasts received his help. He even took action many times to repair mountains and rivers, he managed the natural resource points of heaven and earth.

Southern Border’s Mushroomman Paradise, Eastern Sea’s Merman Imperial Court, as well as the blue dragon whale, had all received Paradise Earth Immortal Venerable’s help.

Even Central Continent’s Reincarnation Battlefield was created by Paradise Earth Immortal Venerable because he did not want to see bloodshed between Central Continent Gu Immortals, he used it to resolve their conflicts.

And Fang Yuan?

He killed people like cutting grass, he was cold and callous. For his personal benefit, he destroyed fate Gu and disregarded the prosperity of humanity.

In order to cultivate, he plundered resources everywhere. He extorted, he stole, he snatched, he used all methods possible.

Everywhere he went, there was blood, there was disaster.

And now that Spectral Soul was dead, Fang Yuan became the genuine number one demon in the world!

It was not strange that Paradise Earth Immortal Venerable managed to deduce the existence of Fang Yuan, all the other nine venerables had done the same. But Paradise Earth Immortal Venerable actually wanted Fang Yuan to become his inheritor, he wanted all of the forces of Paradise Earth to help Fang Yuan ascend to the position of a venerable?

This was simply bizarre beyond belief!

“Has Paradise Earth Immortal Venerable gone mad?” Wu Shuai’s first thoughts after reacting were as such.

Immediately after, Wu Shuai thought: “Don’t tell me Paradise Earth Immortal Venerable wants my main body to become a kind person? This does suit his style of action.”

Indeed.

Fang Yuan was a demon.

After news of the earlier battle spread out, it would shock the world, Fang Yuan’s title as the number one demon in the world would gain everyone’s agreement!

If such a demon could turn over a new leaf and become righteous, it was definitely good news for the world and the people living in it.

Wu Shuai was shocked but Fang Yuan was expressionless, he did not show any external emotions.

Because he had already heard such words before he communicated with Lu Wei Yin.

Fang Yuan recalled the scene back then on the Red Lotus stone island.

Paradise Earth Immortal Venerable arrived at the stone lotus island, when he spoke with Red Lotus' will, he did mention that he wanted to snatch Fang Yuan as his inheritor.

For this purpose, Paradise Earth Immortal Venerable took away regret Gu and placed it inside the blue dragon whale.

Because of this, future events happened, Fang Yuan entered the blue dragon whale's grotto-heaven paradise, taking regret Gu and releasing Shen Shang.

Back then, the ultimate mission of the merit board seemed to have intentions of inviting Fang Yuan to stay in the grotto-heaven, to accept the mission and become the new owner of the blue dragon whale. But Fang Yuan did not give in to temptation, he chose to leave and participate in the fate war, to destroy fate Gu.

After the fate war, Lu Wei Yin contacted Fang Yuan, stating that he wanted to help the latter.

These two matters were related in essence.

Thus, it was not so hard for Fang Yuan to accept this.

"Ever since I was reborn, I obtained many venerable true inheritances. These are the investments of the past venerables, they used me as a tool to destroy fate Gu."

"I originally thought that Paradise Earth Immortal Venerable had the same idea, but to think that he had deeper intentions."

Thoughts continued to flicker and collide in Fang Yuan's mind.

This was the greatest predicament of his life, it was truly a near death experience. The most dangerous moment was when Giant Spectral Soul used the killer move eat heart on him, Fang Yuan was truly defenseless at that moment, he had to gamble.

Thus, he forced himself to laugh and put up a perfect disguise, successfully hoaxing Demon Immortal Qi Jue to attack and betray Spectral Soul. That interrupted eat heart and allowed him to survive.

At that time, Fang Yuan was half a step from entering his grave.

What was the cause of this precarious situation?

Externally, Spectral Soul was chasing after him, trying to regain sovereign immortal fetus Gu and the dream realms.

Internally, there was Red Lotus Demon Venerable's scheme, he used the three thousand heaven path dao marks to restrain Fang Yuan and forced him to be unable to fight.

Fate Gu was destroyed, Fang Yuan had no value remaining. However much help he had received in the past, he would suffer a proportionate backlash at this moment!

All of the venerables who invested in Fang Yuan also abandoned him, they had resolute killing intent.

In such a situation, one venerable stood out from the rest, he lent a helping hand at the crucial moment, pulling Fang Yuan up from the abyss.

What was Paradise Earth Immortal Venerable's intention?

What did he want from Fang Yuan?

Why did he think that Fang Yuan would become a venerable?

Why did he want to help Fang Yuan become a venerable despite the huge cost?

Surrounded by brown soil, earth qi rumbled.

Flying Earth continued to move within the grand earth vein.

"According to my understanding, in the Prophecy of Three Venerables, the next venerable is Great Dream Immortal Venerable. Does Paradise Earth Immortal Venerable think I have the capability to become Great Dream Immortal Venerable?" Fang Yuan's gaze flickered as he broke the silence, probing as he asked.

Lu Wei Yin replied: "The Prophecy of Three Venerables is well known to everyone, but now that fate Gu has been destroyed, the future is no longer certain. It is possible that Great Dream Immortal Venerable will emerge, it is also possible that this will not happen, right?"

"Fang Yuan, no need to say anymore, once you visit Mushroomman Paradise and receive Paradise Earth's true meaning, you will understand everything. At that time, I will definitely welcome you enthusiastically."

Lu Wei Yin smiled but was not willing to speak anymore.

After this battle, he was certain that Fang Yuan would go to Mushroomman Paradise, but he would not go now.

Lu Wei Yin knew of Fang Yuan's vigilance, he was a ruthless person but he was incomparably careful!

Even though Lu Wei Yin made such a huge contribution in this battle, if there was a chance, Fang Yuan would definitely kill him.

But Lu Wei Yin had been cautious, Fang Yuan had no such opportunities. When Spectral Soul self-detonated, he saved Wu Shuai and Qi Sea Ancestor, expressing his goodwill while also telling Fang Yuan he had a way to escape, that was the reason Fang Yuan let him into Peaceful Soil Heavy Mountain Fortress.

When they got to Flying Earth, because he had a method to control it, he retained his value, Fang Yuan was unwilling to kill him.

But if he fainted, Fang Yuan would definitely deal the fatal blow, before soul searching Lu Wei Yin and learning of all the details.

Eventually, Fang Yuan chose to leave mid-journey.

He was pestered by the myriad tribulation, the most important thing now was to resolve it!

His battle strength was low now, otherwise, he would have attacked the weakened Lu Wei Yin.

Before departing, Lu Wei Yin spoke to Fang Yuan, expressing great sincerity: “Fang Yuan, I am sure you are deeply aware of the situation now. All the venerables want to kill you, this will not be your only predicament. We have very little time now, the actual circumstances are even more dangerous than during the fate war. If we act slowly, we will end up with terrible deaths. Thus, I hope you will come visit the Mushroomman Paradise as soon as possible.”

Fang Yuan nodded, bringing Wu Shuai and leaving.

The two immortals left the earth vein, moving upwards. An hour later, they arrived at the surface, appearing in a desert.

There was nothing in the surrounding thousand li.

Wu Shuai suddenly smiled: “Lu Wei Yin seems to be in trouble. By helping us this time, and also being the leader of a variant human force, he is going to face the pressure of Southern Border’s righteous path.”

Fang Yuan nodded: “This is indeed problematic for him. Southern Border’s righteous path is led by Wu clan, while Wu clan’s leader, Wu Yong, is an ambitious and formidable person, he will not let go of this chance. But with Lu Wei Yin’s political skills, I am sure he already has a way to resolve it.”

Wu Shuai asked again: “Before parting, was Lu Wei Yin simply trying to scare us?”

Fang Yuan had a solemn expression, he shook his head slightly.

Wu Shuai’s mood became heavy.

“Let’s go, we will recuperate now, we really have no time left!” Fang Yuan said.

Earth vein.

“That demon Fang Yuan really escaped!” Inside Heavenly Court’s Immortal Gu House, Qin Ding Ling stared with wide and furious eyes as she gritted her teeth, clenching her fists tightly.

This was the situation that she had not wanted to see, but it happened anyway.

Within Calamity Luck Altar, Bing Sai Chuan also let out a sigh.

He did not think that this would happen, the powerful and imposing Spectral Soul died while Fang Yuan, who was escaping from them, managed to flee. The biggest surprise was Lu Wei Yin, this inheritor of Paradise Earth was simply not worthy of being in the righteous path, he was Paradise Earth Immortal Venerable's disgrace!

Of course, there was also the earth vein and Flying Earth.

The five regions were unified, the regional walls vanished, Gu Immortals of the five regions focused their attention on the fate war. The aftermath of the war had not settled, but qi tides already started to emerge, all Gu Immortals were busy dealing with them. Almost nobody had the time or energy at this time to explore the changes underground.

The earth vein was grand and vast, it was like a rumbling yellow river, creating huge commotions and sounds. Traveling around this turbulent earth vein was simply not easy.

The Flying Earth that Fang Yuan was on had already gone missing, the immortals traveled with great difficulty underground, their expectations regarding catching Fang Yuan became increasingly lower.

Wherever the immortals' gazes landed, they would see an abundance of earth path resources around the earth vein. And within the earth vein, there were even higher quality immortal materials.

"With the changes in heaven and earth, even the earth has become so foreign and unfamiliar."

"These earth path resources are very heavy, it is too troublesome to take them from the earth vein, that is, unless one has exceptional earth path attainment."

“Just these earth path resources that we saw along the way, if we can use them well, we can definitely change the situation. Ancient Soul Sect, who owns this Earth Abyss, is going to benefit, if they can absorb these resources, they will definitely become a much more powerful force!”

These were elites among the highest tier of Gu Immortals, they had excellent knowledge and understanding.

The resources underground were too abundant, this would have great implications. The way to extract these resources efficiently and make use of them would affect the entire world’s situation in the future.

“Quick, take out some spare Gu worms, another three hundred were destroyed. Who can help me to replace the new Gu worms together?”

When Immortal Gu Houses moved in this earth vein, they would suffer the invasion of these earth qi, there would be increasingly more earth path dao marks carved on the Immortal Gu Houses.

That was unless it was an earth path Immortal Gu House, Immortal Gu Houses of other paths could not stay inside the earth vein for too long.

“Fang Yuan has disappeared for a long time already.”

“Unless we can find another flying island like what they had, otherwise…”

“That Lu Wei Yin clearly had a method to control the flying island. He is Paradise Earth’s inheritor, back then, Paradise Earth Immortal Venerable cultivated earth path primarily.”

Heavenly Court’s Gu Immortals did not say it explicitly, but they had intentions to retreat already.

Qin Ding Ling kept silent, she was unwilling, but Fang Yuan was actually going to successfully escape in front of their very eyes! She knew that Fang Yuan had already escaped for quite some time, there was almost no hope in catching him now.

But she still subconsciously kept silent.

After this battle, her trepidation towards Fang Yuan rose by several times. Spectral Soul went after him personally but could not kill him, instead, Fang Yuan managed to kill Spectral Soul in reverse!

“Gu Yue Fang Yuan… I underestimated you after all.”

“No wonder even the wisdom path cultivator Fairy Zi Wei faltered in your hands time and time again.”

“Wait, where are the Shadow Sect members?”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2060 - Bai Ning Bing Versus Fang Zheng

2060 Bai Ning Bing Versus Fang Zheng

Countless rock pillars flashed by with speed that resembled illusory figures.

These rock pillars were located in Earth Abyss, they naturally could not move. What was moving was Fairy Zi Wei's group.

“Since Fang Yuan can kill master, he definitely has a method to escape. I have fought against him many times, I understand him too well!” Fairy Zi Wei said.

After Spectral Soul's death, the weakest group became Shadow Sect.

Earlier, Fairy Zi Wei purposely shouted and drew Longevity Heaven and Heavenly Court's attention to Fang Yuan, she secretly transmitted and directed these Shadow Sect immortals to escape mid-journey.

After that, she did not even get to the layer with the earth vein, she directly left the battlefield with these Shadow Sect immortals.

“No!” While flying, Fairy Zi Wei suddenly stopped, saying: “Even though I am not sure how long Fang Yuan, Longevity Heaven, and Heavenly Court will fight, we need to make some preparations in advance.”

Fairy Zi Wei cast her gaze towards Bai Ning Bing, Fairy Miao Yin, and Lady White Rabbit.

"Farewell to the three of you." Fairy Zi Wei's tone became extremely cold.

Fairy Miao Yin's expression turned ugly, evidently, Fairy Zi Wei was going to discard them as used pawns.

Lady White Rabbit was feeling uneasy, while Bai Ning Bing smiled as she rubbed her chin, nodding cheerfully: "Interesting, getting chased like this is common, but I have never experienced such a status myself."

Even if they objected, what could they do?

Fairy Zi Wei was a rank eight great expert, she could suppress the three of them!

Fairy Zi Wei nodded, bringing Old Man Zheng Yuan and Ying Wu Xie away, quickly vanishing from the sights of Bai Ning Bing and the rest.

"What do we do?" Lady White Rabbit asked, she was lost and unsure.

Bai Ning Bing chuckled: "We are in big trouble, I am sure we will be caught very soon."

White Rabbit stared with large and clear eyes, she asked: "Are you sure?"

Bai Ning Bing nodded but said: "We can't be too sure, but Fairy Zi Wei is a wisdom path great expert, seeing her action earlier, doesn't it tell you the truth? Even though we have low cultivation level, we have our value. Didn't they find out Fang Yuan's traces using us as the connection? But now, Fairy Zi Wei gave up on us instantly, it meant that she gave up the method to detect Fang Yuan. This shows how much danger we are currently in."

"What should we do, let's leave now." Lady White Rabbit said anxiously.

"Why don't we split up?" Fairy Miao Yin asked: "Whoever gets caught will be the unlucky one, White Rabbit, go with me."

Among Fang Yuan's subordinates, Fairy Miao Yin and Lady White

Rabbit had the closest relationship. In this critical moment, she wanted to bring White Rabbit along with her.

“We can’t escape, but I have a good plan.” Bai Ning Bing said, bright light flashed in her eyes.

“What plan?” Lady White Rabbit was curious.

But after Bai Ning Bing told them, the two rejected it instantly.

“Isn’t that too risky?” Lady White Rabbit was tongue-tied.

“You want to return to the black bat layer? You lunatic!” Fairy Miao Yin rolled her eyes.

Bai Ning Bing replied: “It seems dangerous there but the truth is different. With a vast number of bats in there, even pursuers will not detect us, they might go to the next layer while passing us by.”

White Rabbit was dazed, it seemed that Bai Ning Bing’s words made sense.

“Do you think Lord Fang Yuan will return to save us?” Lady White Rabbit suddenly asked.

Fairy Miao Yin’s expression sank: “Don’t forget that we participated in the chase against him earlier.”

White Rabbit was anxious: “But we were forced to, there was no choice. Lord Fang Yuan is so wise, why wouldn’t he understand it?”

Bai Ning Bing sneered: “You two are still hopeful about him? Not to mention that he is currently busy trying to save his own life, even if he could, with that cold aloof nature of his, why would he even come to save us? In fact, he would rather we die now, after we are dead, there will not be sufficient clues to deduce his location.”

Lady White Rabbit was speechless.

Fairy Miao Yin gritted her teeth: “No need for more talk, White Rabbit, come with me. As for you, Bai Ning Bing, farewell.”

Fairy Miao Yin had no interest in Bai Ning Bing's suggestion, after much interaction with her, she knew that this person was a lunatic.

Bai Ning Bing shrugged her shoulders: "Go ahead."

As she said that, an intense wind blew, the odor of blood spread throughout the area.

Rank eight Immortal Gu House Demon Judgment Board arrived, Fang Zheng's cold voice could be heard from within: "Where are you trying to go?"

Bai Ning Bing and the others were physically and mentally shaken, to think that their pursuers came so quickly!

Why was Fang Zheng here?

It turned out that after Heavenly Court, Longevity Heaven, and Demon Immortal Qi Jue lost sight of Fang Yuan, they lost hope while moving along the earth vein, they started to have other thoughts.

Demon Immortal Qi Jue was the first to strike, attacking Calamity Luck Altar.

Within Calamity Luck Altar, Bing Sai Chuan was prepared for this, he blocked Demon Immortal Qi Jue's attack.

Seeing that his attack failed, Demon Immortal Qi Jue did not feel dejected, he called out: "Heavenly Court! If you do not fight Calamity Luck Altar now, are you going to wait until Longevity Heaven invades Central Continent?"

Bing Sai Chuan heard this, his heart sank.

"You are not wrong." Qin Ding Ling laughed as she gave orders to Heavenly Court's Immortal Gu Houses, launching their attack as well.

However, Heavenly Court did not just encircle Calamity Luck Altar, they even targeted Demon Immortal Qi Jue.

Demon Immortal Qi Jue snorted coldly: "Heavenly Court, your appetite is simply too big!"

Qin Ding Ling replied arrogantly: “Qi Jue, after that intense battle, how much battle strength do you have left? Go ahead and show us.”

Demon Immortal Qi Jue was silent!

There was nothing wrong with Heavenly Court attacking him, it was a wise decision.

“However, Qin Ding Ling is acting resolutely, is she putting up a farce or…” Demon Immortal Qi Jue had no time to think, Heavenly Court’s attacks already arrived, and he had to defend himself.

The three parties fought above the earth vein.

“Fang Zheng, quickly go to the upper layers and pursue Shadow Sect. Fairy Zi Wei is able to use Bai Ning Bing and the rest to deduce Fang Zheng’s location. We can also do that, go capture these people, as for Fairy Zi Wei and Old Man Zheng Yuan…” Saying this, Qin Ding Ling hesitated.

But soon, she continued with a firm tone: “As for the two of them, kill them if you can!”

“Yes.” Fang Zheng acknowledged her orders, he controlled Demon Judgment Board and left the battlefield.

Calamity Luck Altar and Demon Immortal Qi Jue were trapped, they watched as Demon Judgment Board left.

Fang Zheng flew rapidly within Demon Judgment Board, using the Immortal Gu House’s ability to find the traces of Shadow Sect.

Shadow Sect’s members were all on the board list, Fang Zheng quickly found Bai Ning Bing and the other two immortals.

“Rank eight Immortal Gu House — Demon Judgment Board!” Lady White Rabbit’s and Fairy Miao Yin’s hearts sank, they felt a huge pressure.

They wanted to tell Fang Zheng about the direction that Fairy Zi Wei escaped to but there was an alliance agreement made earlier, if they betrayed Fairy Zi Wei, the consequences would be severe.

Cold light flashed in Bai Ning Bing's eyes, even with an enemy in front of them and possibly others behind, she still had an excited expression: "It's you, I know that voice, Gu Yue Fang Zheng."

Gu Yue Fang Zheng had a flickering gaze, he looked at Bai Ning Bing through the Immortal Gu House: "Bai Ning Bing, to think that we would meet here at this time."

Memories from before surged in his mind, it was as if he had just drunk some liquor before the battle, his entire body was filled with heated battle intent.

"Bai Ning Bing!" He shouted loudly: "Do you still remember Gu Yue Qing Shu?!"

In Fang Zheng's heart, Gu Yue Qing Shu was more of a brother than Fang Yuan to him. He was caring, he was gentle, he was responsible, he was admirable.

When he lived in Gu Yue village, even though Gu Yue clan leader took care of Fang Zheng and taught him personally, he was still a senior.

The care and concern that Gu Yue Qing Shu gave to Fang Zheng had always been kept in Fang Zheng's heart.

But such a person was killed by Bai Ning Bing, Fang Zheng witnessed the entire battle that involved Qing Shu's death.

"Gu Yue Qing Shu?" Bai Ning Bing was slightly dazed, how could she forget. Back in the day, she fought against Gu Yue Qing Shu, even though she killed the latter, she also lost an arm because of him.

But at the next moment, Bai Ning Bing turned a deaf ear, she laughed in disdain: "I would've forgotten if you did not mention him. That was an insignificant ant after all."

Gu Yue Fang Zheng's eyes widened in response, blood filled his eyes as killing intent surged in his body.

"Bai Ning Bing, die!"

Chapter 2061 - Demon Judgment Board!

2061 Demon Judgment Board!

“Dan… danger.” Lady White Rabbit’s expression turned pale.

“Quickly dodge it!!” Fairy Miao Yin screamed.

Demon Judgment Board became larger in the three immortals’ eyes, quickly filling up their field of vision. The intense winds made Lady White Rabbit’s breathing turn difficult.

Bam.

At the next moment, earth shook, rocks were sent flying.

Demon Judgment Board slammed into the tough ground with great intensity.

Bai Ning Bing and the rest split up and moved towards different directions, at the crucial moment, they evaded the attack.

Demon Judgment Board rose up, it charged again.

This time, it targeted Bai Ning Bing.

“So quick!” Bai Ning Bing’s pupils shrank, she focused herself to deal with the situation.

Demon Judgment Board was covered in a light red halo, granting it even more speed. It did not use killer moves, it only charged wildly with rapid attacks, Bai Ning Bing had to dodge continuously, spending her effort on evasion and having no chance to retaliate.

“What do we do?” Lady White Rabbit asked anxiously.

Fairy Miao Yin had an ashen expression, she replied: “Let’s go! This is their old grudge, let the two of them fight it out.”

Lady White Rabbit was dragged by Fairy Miao Yin as they tried to escape the battlefield.

“Where are you going?” Gu Yue Fang Zheng suddenly turned around.

Even though he hated Bai Ning Bing deeply, he did not forget Qin Ding Ling’s instructions. White Rabbit and Miao Yin were crucial clues to find Fang Yuan, how could they be allowed to escape?

Demon Judgment Board let out a wave of powerful blood red light, it radiated in the battlefield, Bai Ning Bing and the rest were enveloped by this blood red light, their expressions changed.

Under this blood red light, they felt the blood in their bodies drawn by a powerful force, it was as if the blood in their bodies was getting sucked into Demon Judgment Board, it was very uncomfortable.

“If we do not resolve this problem, we might get sucked dry of all our blood!” Fairy Miao Yin said solemnly.

Immortal killer move — Bai Xiang!

On the other hand, Bai Ning Bing successfully unleashed her killer move, she turned into a white ice giant.

The blood red light instantly became ineffective on her.

The killer move Bai Xiang was the famous trump card of the Southern Border rank eight Gu Immortal, it allowed the Gu Immortal to temporarily convert their body into another type of lifeform.

This move was incredibly powerful, it created the White Terror that once shook Southern Border, leaving its own mark in history.

Once Bai Ning Bing used it, she changed her circumstances. The ice giant did not have any blood in its body, Demon Judgment Board's killer move was useless against it.

Fairy Miao Yin's heart sank, with Bai Ning Bing's current condition, she could easily escape. But Bai Ning Bing did not do that, she attacked instead with great excitement and enthusiasm!

"This lunatic!" Fairy Miao Yin muttered, experiencing a complicated feeling.

However, when Bai Ning Bing's killer moves landed on Demon Judgment Board, they was like waves hitting the reef. No matter how Demon Judgment Board was attacked, it did not even move one bit against the currents.

Fairy Miao Yin frowned deeply as she called out: "White Rabbit, use that move!"

Lady White Rabbit nodded solemnly, she quickly used the killer move, protecting herself and Fairy Miao Yin.

Fairy Miao Yin took a risk and accepted her protection, using this chance, she unleashed her killer move, wondrous hand profound sound.

She grew five new arms, causing her to have a total of seven arms.

The seven hands moved by themselves, the smooth long fingers were moving in a dazzling motion.

Ding ding, dang dang…

Cling cling, clang clang…

With the movement of her fingers, sharp sounds could be heard whenever they touched.

The sounds even caused sound waves to start appearing in the surrounding air.

Sound waves moved like a storm, creating a huge commotion as the attacks landed on Demon Judgment Board!

"Fairy Miao Yin, thirty-seventh position on the Demon Judgment Board, she has rank seven cultivation level and the Profound Sound true inheritance. Among which, her wondrous hand profound sound killer move can be raised alongside the core Immortal Gu until it reaches rank eight." Fang Zheng muttered to himself.

On top of his head, countless texts in blood gathered to form a scarlet name list. Be they Fairy Miao Yin, Lady White Rabbit, or Bai Ning Bing, their names were present.

Fairy Miao Yin and Bai Ning Bing worked together, while Gu Yue Fang Zheng still had a calm expression.

After all, he was inside Demon Judgment Board.

The rank eight Immortal Gu House Demon Judgment Board was extremely powerful.

Normally speaking, rank seven Immortal Gu Houses could resist rank eight, they were the foundation of super forces.

As for top tier rank eight Immortal Gu Houses, they could resist pseudo-Immortal Venerables!

During the fate war, Fang Yuan used Myriad Year Flying Warship and Dragon Palace to fight against Duke Long. In the earlier battle, he used three Immortal Gu Houses against Spectral Soul, they were all rank eight.

Demon Judgment Board was also rank eight, but it was specialized in investigation.

Against rank seven Gu Immortals like Bai Ning Bing, Demon Judgment Board's battle strength was far superior, it could not be matched.

Waves of blood red light shot out of Demon Judgment Board!

These blood red lights shot down like rain, targeting Bai Ning Bing with an unceasing quantity.

Bai Ning Bing turned into a white ice giant, even though it was large and bulky, the giant’s movement was actually very agile and flexible.

She dodged continuously, none of the blood red lights managed to hit her once.

“But as long as I get hit once, I will suffer heavy injuries!” Bai Ning Bing knew this in her heart, she focused and fought, the dangerous situation was making her more excited and thrilled.

Suddenly, Demon Judgment Board shook lightly, Bai Ning Bing got immobilized.

Bai Ning Bing could not move, she was shot by tens of blood lights.

The white ice giant was punctured in many places, it was reduced to ice shards in a few moments.

Lady White Rabbit screamed while Fairy Miao Yin’s heart sank, the difference in battle strength was too great, they could not claim victory with just an advantage in numbers.

As the ice shards fell to the ground, an intense light burst out.

Within the icy light, the white ice giant reappeared.

Bai Ning Bing recovered fully!

This was the strongest aspect of the killer move Bai Xiang, as long as one shard was left, it could fully recover rapidly.

Fang Zheng was not surprised, he knew a lot of information about Bai Ning Bing. Long ago, the two were already enemies, Bai Ning Bing had fought against them many times, why would Heavenly Court not collect her information?

Furthermore, Demon Judgment Board had investigative abilities, the board list did not only include blood path demonic immortals. It was just that blood relation Immortal Gu made almost all blood path demonic cultivators unable to hide from it.

Bai Ning Bing got up and fought against Fang Zheng again, Miao Yin assisted her, half the blood red light in the battlefield dissipated.

As their blood was no longer affected, Fairy Miao Yin and Lady White Rabbit flew out with preparation, they were about to escape.

Fang Zheng smiled lightly: “Not so fast!”

The dissipated blood red light turned into a ball that floated above the battlefield. Instantly, the blood suction force that vanished amplified by several times of before.

Bai Ning Bing shouted as she took action suddenly. Her ice path killer move hit the blood ball and caused it to scatter slightly.

“Surrender now!” Fang Zheng’s lips curled up, he activated Demon Judgment Board, the formless pressure caused Fairy Miao Yin and Lady White Rabbit’s expressions to change.

At the crucial moment, Lady White Rabbit suddenly became ruthless, black shadows surged around her, enveloping her body.

Instantly, Black Tigress appeared on the battlefield!

Her eyes were pure black, her pupils could not be seen, only a dark and cold light was moving around. The area around her eyes was dyed black, her entire disposition changed from pure and innocent to vicious and ruthless.

Black Tigress took action, her dark path killer move landed on the blood ball with greater intensity than Bai Ning Bing’s attack, causing more than half of it to vanish.

Black Tigress and Miao Yin were almost killed by Demon Judgment Board, they managed to narrowly escape.

Fang Zheng was not flustered, he raised his hand, Demon Judgment Board’s aura changed.

With a change of method, he moved fluidly, blood qi surged, countless sand-like specks moved like stars, enveloping the entire battlefield.

“This is the killer move, blood speck star mark!”

“When was it used? I did not sense anything at all.”

Even if Qin Ding Ling saw this, she would call out in praise. After Fang Zheng became the Demon Judgment Board Lord, he had improved greatly, he already learned to use the various methods of Demon Judgment Board, he could use the methods while managing to display his own style.

This time, even Bai Xiang was not spared, it got hit.

As the blood sand entered the three immortals’ bodies, red marks started to appear, causing their movements to be restricted, their thoughts became slower, their immortal essence could not be instilled smoothly, they felt like they were trapped in quicksand.

The difference between the two sides was just too big!

Normally speaking, when Gu Immortals fought, if one side wanted to escape, it would be hard to stop them unless a battlefield killer move was successfully used to trap the enemy.

But Demon Judgment Board was a top tier rank eight Immortal Gu House, it was initially created to hunt demonic path Gu Immortals. Thus, other than investigative methods, even though Demon Judgment Board could not create a battlefield, it had ways to stop demonic path Gu Immortals from escaping.

Bai Ning Bing and the rest were about to be captured by Fang Zheng, but the ground suddenly shook as earth qi spewed up from the lower layer, the currents actually managed to pierce through the tough layer of ground.

With a loud sound, the brown earth vein rushed up like a grand river.

“What is this?” Bai Ning Bing and the other two did not know what was happening, they were shocked.

Even though Fang Zheng knew, at this moment, he felt like he was seeing Evil Dragon Di Zang Sheng.

As earth qi surged and flooded this battlefield, the earth path dao marks took over everything here, they corroded the surroundings.

From the surging earth vein, Calamity Luck Altar and Demon Immortal Qi Jue suddenly emerged.

Xi Land was above Demon Immortal Qi Jue's head, even though this secluded domain of heaven and earth was extremely damaged now, it was still useful. It was used earlier to draw all of the earth qi upwards earlier.

Meanwhile, Calamity Luck Altar was in charge of changing the direction of the earth vein on top of that effect, eventually creating this scene where the earth vein surged upwards!

"Longevity Heaven actually worked together with Demon Immortal Qi Jue?!" Fang Zheng was internally shocked.

Originally, under Qin Ding Ling's deployment, Heavenly Court's Immortal Gu Houses encircled Calamity Luck Altar and Demon Immortal Qi Jue.

The two sides fought intensely, Heavenly Court was unable to defeat them, while Calamity Luck Altar and Demon Immortal Qi Jue could not escape either.

Bing Sai Chuan thus communicated with Demon Immortal Qi Jue, they knew the situation was not looking good.

The two were genuine experts with lots of experience, they were suspicious about Qin Ding Ling's attitude and felt deeply worried.

Thus, the two sides cooperated seamlessly.

Chapter 2062 - Insanity

2062 Insanity

In order to break Heavenly Court's encirclement, Longevity Heaven and Demon Immortal Qi Jue collaborated, they made use of the earth vein to find a way out of Qin Ding Ling's arrangement.

After Calamity Luck Altar and Demon Immortal Qi Jue left the earth vein, they quickly split up as they ascended to the upper layers.

Heavenly Court's Immortal Gu Houses also appeared after them.

Qin Ding Ling transmitted her voice to Fang Zheng: "Stop them!"

Even before her order, Fang Zheng was already prepared to do so.

Boom!

Demon Judgment Board shook intensely, a huge blood red beam of light shot towards Demon Immortal Qi Jue and Calamity Luck Altar.

The terrifying power of the attack made Miao Yin and Black Tigress shake internally.

In order to capture the three of them alive, Fang Zheng had been quite restricted, its current attack displayed the true power of Demon Judgment Board!

The intense blood red light assaulted, Calamity Luck Altar and Demon Immortal Qi were obstructed for a moment, they swiftly blocked it, Qin Ding Ling quickly arrived and tangled with them.

"Good job, Fang Zheng! After you're done with those three immortals, come here and work together to deal with these people." Qin Ding Ling ordered again.

At this moment, Demon Immortal Qi Jue's battle strength had fallen greatly after the fight against Spectral Soul, but as long as he worked with Calamity Luck Altar, they were evenly matched with Heavenly Court. Where was Qin Ding Ling getting her confidence from?

"Yes." Fang Zheng had a serious expression, the moment he received his orders, Bai Ning Bing attacked abruptly.

In fact, Bai Ning Bing's ice path killer move had been prepared for some time, but Fang Zheng did not pay any attention to it. He had once controlled Demon Judgment Board to fight against rank eight ice path Gu Immortal Ice Crystal Immortal Monarch, he was attacked by the snowman race's immortal suppression coffin killer move. Fang Zheng still had a deep memory of that battle even now, compared to Ice Crystal Immortal Monarch, Bai Ning Bing was just rank seven, she was far inferior to him!

However, after Bai Ning Bing activated her killer move, Fang Zheng's expression changed.

Bai Ning Bing did not attack Demon Judgment Board, instead, she targeted Fairy Miao Yin and Black Tigress!

Gu Yue Fang Zheng could only change his tactic in a fluster, blood red fog enveloped Miao Yin and Black Tigress at the crucial moment, blocking Bai Ning Bing's attack.

"Bai Ning Bing, are you crazy! You actually attacked us!!" Fairy Miao Yin broke out in cold sweat as she screamed.

"No! This might be the best way." Black Tigress' expression was shaken but she quickly understood it.

Fairy Miao Yin was dazed, soon, she also got it.

Fairy Zi Wei was once the leader of Heavenly Court, she knew everything about Heavenly Court. She had informed Ying Wu Xie and the rest about the details of the Immortal Gu Houses, Miao Yin, Bai Ning Bing, and White Rabbit were naturally not kept in the dark.

Because earlier, even though Spectral Soul led them, Fairy Zi Wei and the rest did not have an Immortal Gu House, they were weaker compared to Longevity Heaven and Heavenly Court.

Thus, Fairy Zi Wei used information to make up for this gap.

Gu Yue Fang Zheng understood Bai Ning Bing and the rest quite well, but similarly, Bai Ning Bing and the rest also had a good understanding of Fang Zheng and Demon Judgment Board.

Especially the Immortal Gu House, its methods were difficult to change after creation, the more exceptional the Immortal Gu House, the more likely this was the case.

Why?

Taking Demon Judgment Board for an example, it was a top tier rank eight Immortal Gu House. Its abilities had reached the limit of a certain aspect, it was extremely hard to modify. Even if there were any good ideas, they might not be experimented on regarding this Immortal Gu House. Demon Judgment Board was extremely complex and was made of countless Gu worms. A single modification would change the entire structure, it would mean a complete makeover, that was as good as creating a new Immortal Gu House from scratch.

Fairy Miao Yin was not stupid, she had just failed to react at the first moment.

Now, she started to understand: “Southern Border’s Tie clan has Demon Suppression Tower, it most excels at imprisonment, but Heavenly Court’s Demon Judgment Board does not use such methods. Heavenly Court must have ordered Fang Zheng to capture us all alive. Thus, when fighting, Fang Zheng is very restricted, only against Demon Immortal Qi Jue and Calamity Luck Altar earlier, he used his full strength!”

As for why he wanted to capture them, the answer was obvious — to find Fang Yuan!

Fairy Zi Wei had constructed the wisdom path formation in front of all these Heavenly Court Gu Immortals, finally managing to deduce

Fang Yuan's location. Why would Qin Ding Ling not know about their value?

Using this as the starting point, Fairy Miao Yin soon guessed: "It seems that Fang Yuan escaped successfully, Heavenly Court wants to capture us and use us to find Fang Yuan in the future. Even though they lack a wisdom path great expert now, Central Continent's ten great sects did not suffer losses, they have many wisdom path candidates. Furthermore, Fairy Zi Wei's true inheritance has already been contributed to Heavenly Court, the wisdom path formation is likely part of the inheritance."

Thinking of this, Fairy Miao Yin thought of Bai Ning Bing and gritted her teeth: "Bai Ning Bing, you lunatic!"

But at the next moment, Fairy Miao Yin stared with her eyes wide open.

Bai Ning Bing's insanity was beyond what she had expected, she actually dispelled the killer move Bai Xiang, she returned to a body of flesh and blood!

"Come, Fang Zheng, attack me!" Bai Ning Bing shouted as she moved like a white light, circling around Demon Judgment Board as she shot out countless icicles.

The icicles landed on Demon Judgment Board but could not penetrate it, only leaving behind some icy marks.

"Hahaha!" Black Tigress laughed loudly, she did the same thing as Bai Ning Bing, dispelling her defense and joining the battle.

"She went insane too!" Miao Yin sighed.

Black Tigress was ruthless and vicious, her nature was the opposite of White Rabbit. When she resolved herself, she even disregarded her own life.

The three immortals attacked Demon Judgment Board, especially Bai Ning Bing and Black Tigress who gave up on defense, they invested all of their energy into attacking, Fang Zheng was actually feeling quite troubled.

He wanted to capture these three female immortals alive, he did not want to kill them. Qin Ding Ling had already informed him, it would be best to get more clues to deduce Fang Yuan's location. If one of them was killed, it could lead to a failure in the deduction next time. Fang Zheng knew the heavy responsibility on him.

But the Immortal Gu House Demon Judgment Board's weakest aspect was the lack of methods to capture others. When Demon Judgment Board was created, which person in Heavenly Court would consider this aspect?

Demon Judgment Board, naturally by looking at its name, it meant killing demonic path Gu cultivators. What was the point of capturing them?

In this aspect,, Qin Ding Ling seemed to have made a mistake in asking Demon Judgment Board to capture them, but she had no other choices at the moment.

Among Heavenly Court's Immortal Gu Houses, Demon Judgment Board had the strongest investigative ability. Even though Fang Zheng's cultivation level was low, Demon Judgment Board had an abundance of rank eight immortal essence and the wills of the past Demon Judgment Board Lords, it could display its full battle strength!

However, all Immortal Gu Houses had a fatal weakness, they were not flexible enough in terms of methods.

Demon Judgment Board was no exception, it was a final product that could not be altered. After it was created, its methods had always been the same until now, there had been no changes.

Fang Zheng fell into an awkward spot.

Using Demon Judgment Board, he had the upper hand, Bai Ning Bing and the rest were not his match. But just Demon Judgment Board alone could not capture them alive.

In terms of flexibility of methods, Gu Immortals far surpassed Immortal Gu Houses.

In the past, when facing this situation, the Demon Judgment Board

Lords would take action personally. But Fang Zheng only had rank seven cultivation level, if he left Demon Judgment Board, Bai Ning Bing and the rest would be able to turn this around.

Right now, if Fang Zheng had a rank eight Gu Immortal helping him, it would be sufficient.

But why would he be given an assistant?

In the eyes of Qin Ding Ling and the rest, wasn't Demon Judgment Board enough? He still needed more help?

Heavenly Court's manpower was extremely lacking now, they could not deal with the situation easily.

"No, Lady Qin Ding Ling's arrangement was logical, but I actually encountered two lunatics! It made the logical deployment completely illogical." Fang Zheng thought.

Who would be so crazy as to give up on defense against a strong enemy and only choose to attack?

Wasn't that courting death?

But Bai Ning Bing and Black Tigress did that.

And amazingly, the results were quite favorable for them.

During the intense battle, Bai Ning Bing laughed loudly: "Gu Yue Fang Zheng, don't you want revenge? Kill me, don't you want to kill me? Come take action!"

Gu Yue Fang Zheng was silent.

Bai Ning Bing continued to provoke him: "This is why you are just a dog that Heavenly Court adopted. Your enemy is right in front of you but you do not even have the courage to try killing me. You are far inferior to your brother Fang Yuan!"

Hearing her provocative speech, not just Fairy Miao Yin, even Black Tigress was stunned.

She thought: “Hmph, I thought I was crazy enough to give up my defense. But looking at Bai Ning Bing, I pale in comparison.”

Fairy Miao Yin and Black Tigress were very worried while Gu Yue Fang Zheng fell into silence.

Hearing Gu Yue Fang Yuan’s name again, he could not help but raise his head, looking at the blood text above his head.

The blood text formed into a giant name list, the rankings and names on it changed constantly.

Not long ago, Spectral Soul, who stood at the top of the list, vanished, replacing him was the person at the second position —

Gu Yue Fang Yuan!

Defeated Heavenly Court, destroyed Fate, killed Spectral Soul!

The number one demon of the five regions and two heavens!!

Fang Zheng smiled bitterly.

Regardless of time and place, even though he was the great Demon Judgment Board Lord, Fang Yuan’s name was still hanging above his head, Fang Yuan was still casting a shadow down on his life.

“Killing everyone on the Demon Judgment Board list is the grand ambition of the past generations of owners. But I know that I am not Fang Yuan’s match. For all my life, I could only look at his shadow and hear about his legends. But…”

“Bai Ning Bing!”

“You are merely ranked twenty-seventh on this list.”

“Do you really think I won’t dare to kill you?”

“Where does your confidence come from?!”

Fang Zheng shouted loudly as Demon Judgment Board charged ahead as he spoke, in a breath of time, he arrived in front of Bai Ning Bing.

Intense winds blew towards her.

Bai Ning Bing had no time to dodge, at the next moment, Demon Judgment Board would crush her entire body to a pulp, she would die undoubtedly!

“No!” Fairy Miao Yin shouted in her head as her seven hands moved, shooting out profound sounds.

The profound sounds were multi-layered and attacked rapidly but they could not stop Demon Judgment Board.

Black Tigress spat out a mouthful of blood, she activated a method to block it but Demon Judgment Board still rampaged unhindered.

The two immortals could only watch in despair as Demon Judgment Board crashed into Bai Ning Bing and pressed down on her harshly!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2063 - Number One Immortal Gu House In The World

2063 Number One Immortal Gu House In The World

Earth Abyss battlefield.

Boom!

Hit by Heavenly Court's attack, Calamity Luck Altar shook intensely, Bing Sai Chuan had a cold expression inside it.

Legendary immemorial beast Mao Li Qiu exploded and shouted: "Let this Grandpa Mao go out and kill them all!"

Five Elements Grandmaster shouted: "Grandpa Mao, this place has a huge hole, we need to repair it together."

Mao Li Qiu snorted as it helped to repair Calamity Luck Altar, it mumbled: "Taking hits like this feels really terrible! Bing Sai Chuan, Calamity Luck Altar was given to you to control, don't ruin master's reputation and prestige."

Bing Sai Chuan frowned as he answered: "Mao Li Qiu, take a look outside, there is someone who is even worse than us."

Demon Immortal Qi Jue was the one that Bing Sai Chuan referred to.

He was indeed in a sorry state, Spectral Soul's self-detonation caused his Xi Land to suffer huge damage, but it was his greatest reliance since reviving. Even though he had many exceptional true inheritances, he did not have time to modify killer moves. Thus, his qi path methods were all old fashioned, only killer moves that used Xi Land as the core were strong enough to be used in the battlefield.

But now, Xi Land was heavily damaged, Demon Immortal Qi Jue's battle strength fell sharply.

"This cannot go on, Heavenly Court likely has strong reinforcements! Longevity Heaven, we need to work together again." Demon Immortal Qi Jue transmitted with great difficulty.

"Right now, Heavenly Court is at its weakest throughout history, why would they have reinforcements?" Mao Li Qiu mumbled.

"Don't be careless, nobody can truly assess Heavenly Court's foundation." After replying to Mao Li Qiu, Bing Sai Chuan agreed to Demon Immortal Qi Jue's request for cooperation.

He had also sensed something amiss.

Thus, Calamity Luck Altar first exploded with a strong attack and shielded Demon Immortal Qi Jue.

Next, Demon Immortal Qi Jue gritted his teeth and summoned Xi Land, drawing upon the endless earth qi.

Calamity Luck Altar took over again, pulling upon the gradually declining earth vein.

"Hmph, trying the same trick again, you all are simply looking down on me!" Qin Ding Ling suddenly left the Immortal Gu House, she came to the outside world and used a luck path killer move.

The killer move's golden light shined everywhere, Bing Sai Chuan's expression changed, he quickly withdrew his hand like it was bitten by a snake.

"So close! This killer move vaguely counters Calamity Luck Altar. If I was slow, Calamity Luck Altar would have to resist the pressure of the earth vein, it would be suppressed and unable to escape, becoming an easy target.” Bing Sai Chuan sighed to himself, Qin Ding Ling’s method was out of his expectations.

Without Calamity Luck Altar’s guidance, the newly rising earth vein started to fall again.

But Demon Immortal Qi Jue’s and Calamity Luck Altar’s efforts were not in vain, giant pillars of earth vein tributaries spewed out randomly in all directions, towards the sky and ground.

An earth vein tributary that was like a yellow-brown river flowed across the battlefield of Demon Judgment Board and Bai Ning Bing’s group.

The three immortals were sustaining the battle with difficulty, resisting Demon Judgment Board.

Bai Ning Bing was still alive.

Even though she was crushed by Demon Judgment Board earlier, at the crucial moment, she used Bai Xiang once again.

Demon Judgment Board dodged, unwilling to fall into the earth vein tributary.

“Even heaven is helping me!” Seeing this scene, Bai Ning Bing’s eyes shined with bright light, she felt surprised and joyful.

Her body suddenly expanded from fifteen feet to over twenty feet instantly.

“The time to escape is now!” Bai Ning Bing stretched out her hands to Miao Yin and Black Tigress.

The two hesitated for a moment before allowing Bai Ning Bing to grab onto their hands.

Bai Ning Bing did not hesitate, she jumped into the earth vein tributary immediately!

“Don’t think of leaving!” Fang Zheng gritted his teeth as he drove Demon Judgment Board into the tributary as well.

The earth vein was extremely large, even the tributary was huge, after Demon Judgment Board entered it, it was like a small fish had entered the river.

“No, we can’t escape. Demon Judgment Board is a rank eight Immortal Gu House!” Fairy Miao Yin’s expression was pale.

After a short while, Bai Ning Bing was already unable to hold on.

A vast amount of earth path dao marks corroded her body, Bai Xiang was on the verge of collapsing, even though Miao Yin and Black Tigress were doing their best in terms of defense.

Bai Ning Bing smiled coldly, she was not flustered: “Of course we cannot match Demon Judgment Board, but now, it will depend on how resolute Gu Yue Fang Zheng is. Hehe.”

At the moment of life and death, Bai Ning Bing actually laughed.

She turned around and dispelled Bai Xiang, exposing her true body.

Fairy Miao Yin and Black Tigress had already resolved themselves, they charged towards Demon Judgment Board alongside Bai Ning Bing.

“You people?!” Gu Yue Fang Zheng was shocked to see that Bai Ning Bing and the rest dispelled their defenses, he had to use a rainbow of blood red light to envelop the three immortals.

After receiving Demon Judgment Board’s help, the three immortals were saved from the outcome of getting crushed by the earth vein.

Gu Yue Fang Zheng felt a huge rock weighing on him internally!

What was this?

He actually became the one who helped Bai Ning Bing and the rest!

But Gu Yue Fang Zheng had to do this, he had to complete the mission given by Qin Ding Ling and capture them alive.

“Gu Yue Fang Zheng, do you have any method to capture us? If

Demon Judgment Board had it, you would have used it already. In this situation, you will need to leave the Immortal Gu House and use your own methods! Come, let us take a chance." Bai Ning Bing could not speak, she could only think internally.

If they lost, they would be captured and left helpless. Once their value was extracted, they would be killed, becoming the sacrifices to raise Heavenly Court's reputation.

Gu Yue Fang Zheng stared with wide eyes, gritting his teeth tightly.

Bai Ning Bing had won this bet!

Fang Zheng did not have any special method to capture them.

Unless he took a chance and brought all three immortals into the Immortal Gu House.

But if Fang Zheng did that, he would be too stupid! Because that was simply letting the enemies into his territory. Just Fang Zheng alone could not deal with the three immortals.

"You are very crafty, but so what?" Fang Zheng said through the gaps between his teeth: "If I capture you, you will still live for some time. But now, you will die. Congratulations, your efforts in battle have reaped you such great rewards."

Fang Zheng spoke sarcastically before abandoning Bai Ning Bing and the rest, leaving the earth vein using Demon Judgment Board.

The strong Demon Judgment Board could not stay in the earth vein for long. Just this short period destroyed most of Demon Judgment Board's mortal Gu.

Without Demon Judgment Board's protection, Bai Ning Bing felt an immense pressure, their lives were at stake, they struggled at death's door.

"Maybe Fang Zheng was right after all." Fairy Miao Yin smiled bitterly.

Bai Ning Bing snorted.

“What’s that?” Black Tigress suddenly shouted.

The three immortals were like tiny bugs flowing along the earth vein tributary. From the boundless brown color surrounding them, a dark hole suddenly appeared.

“Go!” The three immortals had no choice, at the crucial final moment, they went into the dark hole precariously.

At almost the same time.

In a dense and lush forest on the surface, Fairy Zi Wei, Ying Wu Xie, and Old Man Zheng Yuan were traveling.

“This distance is not safe enough, we will continue moving.” Fairy Zi Wei saw that Ying Wu Xie was moving slowly, she quickly reminded.

Ying Wu Xie gritted his teeth but his expression was dazed, he said dejectedly: “My main body has died, what do we…”

Fairy Zi Wei looked at Ying Wu Xie solemnly: “Even if the main body is dead, we still have you. Ying Wu Xie, you are his split soul, from today onwards, you are our master!”

“But…” Ying Wu Xie was not feeling happy at all, he was in low spirits: “Even my main body died in battle, this entire world is no longer in Spectral Soul’s era.”

Fairy Zi Wei frowned slightly, she was about to console him when Old Man Zheng Yuan suddenly spoke: “Something is up, don’t move, let me deal with it!”

At the next moment, he activated his killer move, his body shot out white light that enveloped the three immortals.

After a few breaths of time, heaven and earth shook, birds flew out of the forest, a loud collision could be heard from afar, resounding throughout the place.

The three immortals raised their heads, they saw that the sky was dyed green, a grand and majestic Immortal Gu House descended from the sky, it shrouded even the sun itself, moving rapidly even though it seemed slow.

This Immortal Gu House was so big, it was definitely the number one in the world in terms of size. Its rank eight aura was vast as the sea, intimidating all living beings. Within the Immortal Gu House, clamor could be heard, it was filled with human vitality, seemingly comprising all kinds of people.

“This is… Divine Emperor City?!” Ying Wu Xie was shocked.

“Divine Emperor City was created by combining Divine Bean Palace and Emperor City. Isn’t it stationary at the largest gathering point of Central Continent’s human vein? It could actually move?” Old Man Zheng Yuan was shocked as well.

Fairy Zi Wei pondered: “This Immortal Gu House was made by Genesis Lotus Immortal Venerable, there must be a reason for its movement. Strange, why didn’t Qin Ding Ling relocate this house into Heavenly Court during the battle earlier?”

“So that’s it.” Old Man Zheng Yuan used his human path methods to investigate, he found something.

“Too strong, this Immortal Gu House is too strong!” Old Man Zheng Yuan’s body shook, he was greatly shocked by his discovery.

“This Immortal Gu House contains countless people, it is filled with the profundity of human path. It can actually relocate the human vein gathering point with ease! Genesis Lotus Immortal Venerable’s method is too amazing, his goals were too farsighted, he only exposed it now. Divine Emperor City gathers the strength of all the people inside, be they Gu Immortal, Gu Master, or mortal, they are gathered together and used in unison. Currently, this is likely the number one Immortal Gu House in the world!” Old Man Zheng Yuan praised, he sighed deeply.

“So that’s it, it was a pity that Genesis Lotus miscalculated, this Divine Emperor City did not make it to the fate war in time.” Ying Wu Xie said.

Fairy Zi Wei shook her head lightly: “How can a venerable fail his scheme so easily? There are extremely deep secrets behind all these, don’t come up with a conclusion so casually.”

The three immortals stopped in their tracks and hid in the forest, concealing their auras, as Divine Emperor City went past them and entered Earth Abyss, they finally let out sighs of relief.

“Let’s go.” Fairy Zi Wei was ready to move.

But Old Man Zheng Yuan stopped on the spot, smiling bitterly: “I cannot follow after the two of you anymore.”

Ying Wu Xie was surprised: “Why?”

Old Man Zheng Yuan sighed: “That Divine Emperor City has already become the gathering point of human path in the world, since I cultivate human path, I am restricted by it. Earlier, it probably sensed me but because there was something more important, it chose to ignore me. To play safe, I should part with master and Zi Wei.”

Ying Wu Xie’s expression was grim, they suffered a setback again. Before this battle, Shadow Sect was full of people and prospered for some time. Now, only him and Fairy Zi Wei were left.

It was truly pitiful!

“Maybe trying to kill Fang Yuan was a terrible mistake!” Ying Wu Xie gritted his teeth, he felt extremely bitter internally.

Chapter 2064 - Captured Alive

2064 Captured Alive

Divine Emperor City was filled with noise and commotion.

The hundreds of thousands of people living in the city were looking towards the sky.

Profound green light had covered the sky of Divine Emperor City. Not only this, the city gates were also closed and guarded heavily.

“What in the world is going on?”

“You don’t know? There were notices posted at the city gates, announcing the city will be closed for a period of time. During this time period, there will be abnormal phenomena and there is no need to panic.”

“I also heard of this notice, but I did not expect such a huge and grand phenomenon.”

The city residents discussed with relative calmness, no large scale chaos emerged.

Northern city area.

“Where did that fellow Hong Yi go?” Cao Yu sighed as he walked out of a dark alley.

Accompanying him was Xie Lan.

The two were Universal Life Academy’s disciples, who were ordered to search for Hong Yi after he disappeared.

Regretfully, they had been at Divine Emperor City for two to three months now and had yet to make any progress.

Xie Lan frowned: “We have almost finished combing through Divine Emperor City by now and have contacted a dozen or so information path Gu Masters, but have not gotten any news regarding Hong Yi. This is probably the worst case scenario.”

Cao Yu’s eyes opened wide: “Are you saying Hong Yi entered a painting world? How can that be?”

Xie Lan looked around in a hurry and lowered his voice: “Keep your voice down, such secret news have been circulating in the city recently. Painting worlds were arranged by Genesis Lotus Immortal Venerable, they can take in the city residents and return them safely after a period of time. Especially these days, how many Gu Masters have come to Divine Emperor City because they heard this rumor and wanted to find an immortal opportunity?”

Cao Yu was at a loss: “If Hong Yi really is inside a painting world, how are we going to find him?”

Xie Lan was silent for a while before saying with a sigh: “If that is the case, then we can only wait.”

Eastern city area.

“Master, please take care.” A female Gu Master sent her master off.

Most of the surrounding pedestrians were staring at the phenomenon in the sky, only a few were astonished at this sight.

The female Gu Master was a renowned refinement path master who was ranked among the top hundred in the Refinement Path Convention, and she was actually being so courteous to an unknown Gu Master.

This unknown Gu Master was wearing a long robe and a straw hat which hid his appearance under the shadows.

The unknown Gu Master moved cautiously and maintained his silence as he disappeared into the corner of the street.

"What exactly is going on? Such a phenomenon is definitely a Gu Immortal's doing." The unknown Gu Master moved along the empty alley and raised his head slightly to glance at the strange scene in the sky.

"Sigh, I did not expect to encounter such trouble in this trip to exchange Gu materials in the city. I just hope my identity won't be exposed."

"Just in case, I will choose a remote tavern to stay in until the city gates open again."

The unknown Gu Master was worried.

This person was Ben Duo Yi, who was taught the nature Gu refinement technique by Gu Immortal Yu Mu Chun.

He cultivated day and night, making huge progress. However, the cost of cultivating refinement path was high, and with no one else to depend upon, he had to frequently sell the refined Gu to purchase cultivation resources.

He was a hairy man and was hiding his appearance by using Gu worms. He had to move with caution in this gathering area of humans.

All kinds of people lived in Divine Emperor City, there were even rank six Gu Immortals.

But no one could imagine that under the cover of the profound green light, Divine Emperor City had not only left its original spot, it even flew towards Ancient Soul Sect and entered Earth Abyss to fight Demon Immortal Qi Jue and Calamity Luck Altar!

Immortal killer move — Great Qi Cloud Explosion.

Demon Immortal Qi Jue's killer move struck Divine Emperor City but it only raised slight ripples on the surface of the profound green light.

"This is probably the number one Immortal Gu House in the present age!" Even a person like Demon Immortal Qi Jue felt demoralized.

His current strength was simply unable to shake Divine Emperor City.

“So Qin Ding Ling’s trump card was this Divine Emperor City!” Inside Calamity Luck Altar, Bing Sai Chuan looked extremely serious.

Calamity Luck Altar was left behind by Giant Sun Immortal Venerable, while Divine Emperor City was created by Genesis Lotus Immortal Venerable. In this confrontation between the two, Divine Emperor City firmly won against Calamity Luck Altar and by a huge margin!

Calamity Luck Altar was not huge, and when compared to Divine Emperor City now, it looked even smaller.

The number one large size Immortal Gu House in history, Divine Emperor City, was like a colossal jade cloud that seemed to cover heaven and earth as it obstructed Demon Immortal Qi Jue and Calamity Luck Altar’s escape route.

And in the rear, Qin Ding Ling led the Heavenly Court Gu Immortals. Among the several Immortal Gu Houses, Demon Judgment Board was at the front, taking the position of the vanguard.

As the intense battle started, Divine Emperor City suddenly let out loud human voices, following which, the profound green light bubbled and formed a huge whirlpool.

The whirlpool blew out spiraling green wind that covered Demon Immortal Qi Jue.

Demon Immortal Qi Jue’s expression changed greatly, he could only take out the damaged Xi Land. But Xi Land was also unable to block this move, and at the next moment, Demon Immortal Qi Jue was absorbed into Divine Emperor City!

“Divine Emperor City suppressed Demon Immortal Qi Jue!” Inside Calamity Luck Altar, Bing Sai Chuan and the rest were horrified.

Even if Demon Immortal Qi Jue only had the damaged Xi Land, he had pseudo venerable battle strength. They did not expect there to be no disturbance in Divine Emperor City after he was absorbed.

Divine Emperor City’s might shook the minds of Longevity Heaven’s immortals.

It was no wonder Qin Ding Ling confronted them resolutely and had such a huge ambition as well!

“This is an emergency!” Bing Sai Chuan exclaimed in fright and activated the strongest method of Calamity Luck Altar without hesitating any more.

Golden lights shot out from Calamity Luck Altar and covered the surroundings.

The lights formed a broken path. The path extended far away, passing through the surface layer without damaging a single rock.

“Longevity Heaven, where are you trying to go!” Qin Ding Ling was aware that it was the crucial moment, she resolutely attacked and disturbed Calamity Luck Altar.

She cultivated luck path and opposed Giant Sun Immortal Venerable her whole life, and being an immortal concubine of Giant Sun before, she had a deep understanding regarding Calamity Luck Altar.

Calamity Luck Altar’s method was disturbed by Qin Ding Ling; the golden path started shaking immediately, unable to maintain stability.

At this moment, the profound green light around Divine Emperor City formed another whirlpool.

“Are we also going to be captured by Heavenly Court?” Hei Lou Lan’s heart sank as she sensed the worsening situation.

At this crucial moment, Five Elements Grandmaster hesitated for a bit before coming forward: “Let me hold them back, you should all leave!”

“No, little fellow, you cultivate formation path which will be very useful in the future. I, Grandpa Mao, am most suitable for this.” Mao Li Qiu pushed Five Elements Grandmaster aside.

“Grandpa Mao…” Five Elements Grandmaster was stunned. Mao Li Qiu’s status in Longevity Heaven was much higher than his. He had thought that sacrificing himself was the most sensible arrangement in this situation, but did not expect Mao Li Qiu to stop him.

Under this situation, Heavenly Court would never go easy on them.

Mao Li Qiu would probably lose its life if it went!

Bing Sai Chuan took a deep look at Mao Li Qiu, Mao Li Qiu, however, said casually: “Bing Sai Chuan, I will leave Longevity Heaven to you. Don’t bring shame to Grandpa Mao, you must escape. Don’t disappoint master, otherwise I will haunt you even if I turned into a ghost.”

Bing Sai Chuan gritted his teeth: “Hmph, so much nonsense. Even if you die, make sure you die in the most brilliant way.”

He had fought alongside Mao Li Qiu many times before and had deep friendship although they were quite rude towards each other. It was the way of these Northern Plainsmen, they only knew to express themselves with rough language.

Mao Li Qiu laughed heartily: “Then you can rest assured, I am most proficient in this!”

Bing Sai Chuan quickly opened the Immortal Gu House and closed it immediately. In that single moment, Mao Li Qiu had charged out.

“Come fight me, little ones of Heavenly Court!” Mao Li Qiu charged forward bravely.

In an instant, Demon Judgment Board was sent flying by Mao Li Qiu.

Mao Li Qiu fought madly and was soon soaked in blood with many bone fractures.

Its laughter however became more resonant and its aura kept on rising.

Divine Emperor City activated the spiraling green wind towards Calamity Luck Altar again.

Mao Li Qiu clicked its tongue as it flew forward and blocked the spiraling green wind with its body. At the next moment, like Demon Immortal Qi Jue, it was locked onto by the green wind and absorbed into the profound green light.

Using this crucial time, Calamity Luck Altar turned into a lump of light that escaped through the golden path.

Divine Bean Palace, painting world.

Boom!

Boom!!

Within short intervals of time, two enormous explosions reverberated throughout the whole painting world.

“What’s going on?” Fairy Bi Xia and the rest were shocked and bewildered. They were cultivating with all their efforts inside the painting world and were completely unaware of what was going on outside Divine Emperor City.

“Something big has happened, Fang Di Chang.” Shen Shang went up to Fang Di Chang with an excited expression.

Fang Di Chang was curled up in the corner of the alley, he was dirty and messy and his clothes were ragged. There was a bamboo cane beside him and a broken bowl in front of him.

He raised his head to look at Shen Shang and begged: “Lord, please give me something to eat, I have not eaten for three days and three nights now.”

While secretly, he transmitted his voice: “Brother Shen, what happened?”

Shen Shang transmitted his reply: “I am not sure about the exact details. But two large paintings have been added at the edges of the painting world. Qi currents are gathered in one painting with wind howling all the time. The other painting is mysterious with beastly roars resounding again and again.”

Fang Di Chang's eyes shined with bright light, he felt deep interest.

He was schemed against by Genesis Lotus's will, and his will had to escape secretly. With Shen Shang's help, the situation was showing improvement.

Fang Di Chang did not know what happened outside the painting world. But this situation had appeared for the first time in the painting world. Maybe they could probe the deeper secrets of the painting world through this?

Some days later.

At some part of Southern Border.

The fog in the valley dissipated and two people walked out.

One had a handsome face with dragon horns on his head and imposing dragon pupils, he was rank eight enslavement path Gu Immortal Wu Shuai. The other was wearing white clothes, had black hair, deep pupils and fair skin, he was Gu Yue Fang Yuan.

"Over three thousand heaven path dao marks have been refined, what should we do next?" Wu Shuai asked, "Should we go meet up with Lu Wei Yin first?"

Fang Yuan, however, was staring at his palm with a complex expression, there was slight loss, some curiously, and some excitement on his face.

His lips curled up into a captivating smile as he gave an irrelevant answer: "These three thousand heaven path dao marks are really amazing!"

Chapter 2065 - Compound Killer Moves

Chapter 2065 Compound Killer Moves

Divine Emperor City, painting world.

Three yellow leopards charged out of the dense shrubs that resembled a huge forest.

There were two female leopards and one male, they were growling at Ye Fan, while showing their sharp fangs that still had some bloody flesh hanging from them.

Ye Fan was surrounded, his heart shook slightly: “The concealment ability of these three leopards is so strong, I only sensed them when they moved. As for their battle strength, I will know after fighting them.”

Thinking of this, Ye Fan immediately threw out several Gu worms.

Boom boom boom.

White smoke burst and spread, three valiant warriors appeared around Ye Fan.

Human path Gu worm — vagrant warrior Gu.

“Go.” With Ye Fan’s command, the three vagrant warriors immediately split up to deal with one leopard each.

Humans and beasts fought, after ten or so rounds, two of the vagrant warriors won while one lost.

Ye Fan slightly nodded his head as he appraised inwardly: “Vagrant warrior Gu is rank three and is specialized in fighting enemies on the move. These three leopards are also very nimble and have around rank three battle strength.”

Ever since the Refinement Path Convention, Ye Fan had been cultivating inside the painting world. He not only had rank five hero Gu and rank three vagrant warrior Gu, he also had corresponding killer moves as well as relevant cultivation methods, so his progress was great.

Even so, he was frowning slightly at this moment.

“I have just entered the outside periphery of this growling beast painting world and there are already rank three strength enemies, it seems the level of this painting is rather high.”

“I wonder what progress Hong Yi is making over there? It is time, I should return and join with him.”

Ye Fan only came to probe some information. He was in charge of the growling beast painting world while Hong Yi went to inspect the qi howling painting world.

Ye Fan turned around and met Hong Yi along the way.

The two were like heroes who admired each other and had already become sworn brothers. While cultivating in the painting world, the two relied on each other as well as competed, the feeling of brotherhood deepened even more.

After learning of the situation on the other’s side, the two brothers walked while pondering over it.

“There is more to this than meets the eye.”

“Why would two paintings appear all of a sudden? Could it be, the painting world can continue to grow?”

“Genesis Lotus Immortal Venerable’s methods are indeed unfathomable!”

“We cannot completely explore these two new worlds with just us two. The best thing is to borrow the strength of the residents of the painting world.”

“Yes, that makes sense.”

Soldiers guarded the city gates, people continued to move out of the city while a small portion entered from outside the city.

The two newly added paintings brought a huge impact to the painting world. The painting world had limited space, while these two new paintings had vast space which attracted attention from everyone in the city, thus giving rise to a large wave of crazed exploration.

Ye Fan and Hong Yi blended into the crowd and returned inconspicuously to the city. But the two were unaware that the moment they appeared in the city gate, they were noticed by some people.

Shen Shang was sitting on the second floor of a teahouse near the city gate and was watching Ye Fan and Hong Yi, while talking with Fang Di Chang through voice transmission.

“Look at these two, they have made a lot of progress again! Their bodies are emitting dense human qi, extraordinary, they will definitely have outstanding achievements in the future. Brother Fang Di Chang, if you return to your main body one day, you can inquire about these two. You might be able to make great use of them.”

Fang Di Chang was sitting near the entrance of the street in a beggar’s appearance. He replied secretly: “There is not much gap between immortal and mortal in the painting world. They have cultivated for so many days in here and are like fish in water, their strength can be said to be at the top level in here. Their exploration this time was quite short, if I had to deduce their journey, they probably only explored the periphery of the two paintings. From this, it can be deduced that these two painting worlds are very large, even Ye Fan and Hong Yi don’t want to enter the inner parts rashly.”

Shen Shang chuckled: “As expected of Brother Fang, the former wisdom immortal of Fang clan, you are able to see the overall situation from just a few clues. Ye Fan and Hong Yi want to borrow external force, we might as well save our energy for now. Look, the ten children of human path are here.”

In fact, even without Shen Shang’s reminder, there was already commotion at the other side of the street.

With Xiao Qi Xing at the front, Fairy Bi Xia, Sun Yuan Hua, Sun Yao, Ying Sheng Ji, Chen Da Jiang, and the rest appeared together, immediately causing a disturbance.

The passersby glanced at them and praised these ten people.

Fang Di Chang’s gaze concentrated slightly, Xiao Qi Xing’s group was the one that Shen Shang called the ‘ten children of human path’. Shen Shang had already explained this, saying these ten had abundant human qi. Although it was inferior to Hong Yi and Ye Fan, it far exceeded ordinary people and they would have their own unique splendor in the future.

This was only natural.

These ten were selected from Central Continent’s ten great ancient sects, they were Gu Immortal seeds Heavenly Court was cultivating. They were the ones who were specially supported to develop human path Gu Immortals.

Even a pig which obtained the full support of Heavenly Court and Central Continent’s ten great ancient sects would have great accomplishments in the future.

The ten children of human path showed their brilliance during the expedition against Fang Di Chang, their talents were showcased even more over this period of time and their progress was astonishing. They had become famous people in the painting world and were recognized by the city’s higher-ups, almost all the important tasks were entrusted to them.

The painting world was currently in an uproar with the addition of the two large paintings. The ten children of human path received the command to become the main force in exploring them.

"Besides the main culprit, Genesis Lotus's will, these ten were the ones who forced me to escape with my will, my soul being destroyed. Don't let me get any opportunity, otherwise I won't mind cutting down your numbers." Fang Di Chang snorted coldly.

Although only a will remained of him, his strength had recovered by a lot.

This was all thanks to the mysterious and mystical human path!

When Fang Di Chang was cultivating silently, he gained a much deeper understanding of human path. The most striking characteristic of human path was having a Gu worm transform into a human.

For example, Hong Yi's scholar Gu could transform into a scholar. Ye Fan's hero Gu could transform into a hero.

After transforming into humans, these scholar and hero Gu worms would have a common man's wisdom. Their disposition, thoughts, and way of doing things would become different depending on their types as well.

The most important thing was, when these Gu worms transformed into humans, they could use other Gu worms! Moreover their proficiency in using them originated from the Gu cultivator.

This was a terrifying thing.

Transforming the Gu worm into a human and giving them a group of Gu worms could instantly produce a Gu cultivator. Mortal level Gu worms that transformed into humans and could use other Gu worms were essentially regarded as Gu Masters. Immortal Gu transformed into humans were considered Gu Immortals!

Fang Di Chang could not help but think of his main body's sovereign immortal fetus Gu.

Sovereign immortal fetus Gu's effect and abilities were naturally not on the same level as these human path Gu worms, but they had a lot of similarities.

People crowded around the ten children of human path and moved out of the city gate.

This was the largest exploration scale.

After quietly looking at this scene, Fang Di Chang returned to the deserted alley and silently waved his hand: “Men.”

Immediately, several beggars hurried towards him from their respective corners and greeted him with incomparable respect: “Sect leader, what instructions do you have for us?”

“Send some brothers to follow the crowd. They only have to probe for information.” Fang Di Chang instructed.

Although the current him was formed from a beggar Gu, he was already a rank five five bags beggar[1].

This was not all, he borrowed Shen Shang’s help to purchase large amounts of beggar Gu, and used a sect token Gu to form a killer move, establishing this Beggar Sect.

At present, most of the beggars in the whole city were already under his command!

…

Immortal killer move — Myriad Thought Sword Waterfall!

Rumble!

With a loud sound, a grand waterfall appeared. The silver waterfall was majestic and vast, it fell from the sky onto a hill.

Each drop of water in this waterfall was a thought, it had the appearance of a sword.

Within a few breaths of time, the hill was flattened.

Fang Yuan stopped the killer move. The hill was completely gone and a shallow pool appeared in its place. The gurgling water was made of flowing sword thoughts.

“Indeed, the killer move’s power has been increased by several times and it activates even more smoothly!” Fang Yuan meticulously observed the effects of the heaven path dao marks.

After resolving the myriad tribulation, Fang Yuan was not in a hurry to meet Lu Wei Yin and instead searched for a place to rest and reorganize.

The reason he used myriad thought sword waterfall was because this was not an ordinary killer move.

Most killer moves were based on a single path and Gu worms of other paths could only be supplementary even if they were mixed in. For example, rule path’s five restriction profound light qi and time path’s time cutting edge.

And there were some exceptional killer moves. They were compound killer moves which used two or more paths primarily. For instance, this myriad thought sword waterfall which was formed from the combination of wisdom path and sword path.

Fang Yuan had a lot of such killer moves; myriad dragon, yama, great thief ghost hand, myriad ghost sword dragon, jade flow pearl, and so on. To go into details, myriad dragon was a compound killer move formed from enslavement path and transformation path, great thief ghost hand was formed from soul path and theft path, jade flow pearl was formed from refinement path and space path. Myriad ghost sword dragon was even more complex, it was formed from the merging of ancient sword dragon transformation, myriad self, yama child, emperor yama, and familiar face. Every usage of myriad ghost sword dragon expended four thousand soul path dao marks from Fang Yuan’s body.

These compound killer moves were much more powerful than single path based killer moves. Enemies had to consider two or more paths to think of a countermeasure, so they were much more difficult to resist as well.

These compound killer moves were normally used by Gu Immortals who cultivated multiple paths. For instance, Qin Bai Sheng cultivated soul path and metal path, he had a killer move called burning soul supreme gold which was a compound killer move formed from soul path and metal path. Every Gu Immortal who cultivated two paths had such killer moves; Heavenly Court's Thunder Ghost True Monarch had them because she cultivated lightning path and soul path, Duke Long naturally had them as well.

Because of conflicting dao marks, Gu Immortals who successfully cultivated multiple paths were very rare, so compound killer moves were also very rare in Gu Immortal world.

Fang Yuan was able to cultivate many paths because of the sovereign immortal body, so he accumulated many compound killer moves.

But even so, these compound killer moves could hardly be used at the top level.

This was because although Fang Yuan's sovereign immortal body did not have conflicting dao marks, the compound killer moves themselves would have a large internal friction because of their own conflicting dao marks, resulting in wastage of power.

"But heaven path dao marks have greatly improved this situation." Fang Yuan was able to sense this acutely and even verified his guess.

Right now, when he used compound killer moves like myriad thought sword waterfall, because of the reduced internal friction, the power had increased by several times!

"According to my deduction, if I use myriad ghost sword dragon now, the previous consumption of four thousand soul path dao marks would be reduced by a lot. Because of the reduced internal friction, I don't need to expend so many soul path dao marks to balance the strength of various paths."

"Over three thousand heaven path dao marks still cannot remove this kind of internal friction completely, but what if the number increased even further?"

“In the future, can I use the help of heaven path dao marks to create a killer move that contains every path?”

At this point, besides the exception of certain unique methods, Fang Yuan no longer had interest in single path killer moves.

He had discovered a new and vast world ahead of him!

[1] The Beggar Sect in Jinyong novels uses the setting where each member carries at least one pouch-like bag and the number of bags he/she carries indicates his/her rank in the sect.

Chapter 2066 - Never Give Up Until My Road Ends

2066 Never Give Up Until My Road Ends

Fang Yuan was holding an information path Gu worm in his hand, the Gu worm had records of the previous battle of pursuit.Its contents were roughly: Heavenly Court had a huge victory, Spectral Soul was dead, Fang Yuan escaped, Demon Immortal Qi Jue and Mao Li Qiu were suppressed, Old Man Zheng Yuan was taken captive, Shadow Sect's Fairy Zi Wei and Ying Wu Xie were still on the run, Qi Sea Ancestor, Bai Ning Bing, Lady White Rabbit, and Fairy Miao Yin were missing, the probability of them being dead was high.

"In this current age, even if there is no ranking chart of Immortal Gu Houses, Divine Emperor City is worthy of being the number one Immortal Gu House." Fang Yuan sighed.

In the five hundred years of his previous life, during the five regions chaotic war, information path great experts had jointly let out many ranking charts. There was fierce competition on every ranking chart, Immortal Gu House ranking was also the same.

But Divine Emperor City had not appeared back then.

Fang Yuan's rebirth had led to all kinds of huge changes, now, even before the Immortal Gu House ranking was published, Divine Emperor City firmly held the position of number one.

"If this continues, even if there is an Immortal Gu House ranking in the future, Divine Emperor City's number one position will be immovable." Fang Yuan estimated.

Divine Emperor City could suppress Mao Li Qiu and Demon Immortal Qi Jue, Fang Yuan was not astonished by this.

Divine Emperor City was created by merging Divine Bean Palace and Emperor City, although it did not have a rank nine Immortal Gu and was not a rank nine Immortal Gu House, it contained painting worlds.

This was Genesis Lotus Immortal Venerable's contented lifestyle killer move. It was a human path killer move with painting path effect that formed paintings of the lives of people. It was a rank nine level venerable killer move.

Against venerable methods, Duke Long was defeated and Di Zang Sheng was brought to its knees. Even if Demon Immortal Qi Jue's Xi Land was not damaged, he would still only be at pseudo venerable level, and Mao Li Qiu was some distance away from being at pseudo venerable level.

"My Myriad Year Flying Warship and Dragon Palace are destroyed, even if they were still here, they would only be at peak rank eight level. Divine Emperor City can be considered to be half a rank nine Immortal Gu House. If Eighty-Eight True Yang Building had not been destroyed back then, it could contest for the number one position."

Eighty-Eight True Yang Building was refined by Long Hair Ancestor and Giant Sun Immortal Venerable together. It was divided into countless small towers that gathered wild Gu worms. After combining into one, they would form the main building and could even dispel calamities and tribulations.

When Giant Sun Immortal Venerable passed away, he had left behind Eighty-Eight True Yang Building, which could control the whole of Northern Plains' political situation even though Giant Sun had already died. Northern Plains held countless Imperial Court contests, and the Huang Jin bloodline was able to hold supreme status in Northern Plains' immortal and mortal world mainly due to Eighty-Eight True Yang Building.

At present, Divine Emperor City was the largest gathering point of Central Continent's human veins. It was the largest storage and cultivation ground of Central Continent's geniuses, a sacred land of human path. Looking at the setup, it was similar to Eighty-Eight True Yang Building.

Even Fang Yuan felt wariness towards such an Immortal Gu House.

As for why Heavenly Court publicized this battle information, Fang Yuan understood it fully.

Heavenly Court was in dire need of a surge in morale.

Ever since their defeat in the fate war when Fang Yuan destroyed fate Gu in front of the whole world, Heavenly Court was simply stripped of its backbone. They lost their spiritual banner and it was even trampled on by Fang Yuan.

This outcome had enormous influence, the whole of Central Continent was covered in looming shadow. Heavenly Court's Gu Immortals were furious and filled with hatred but were already fearful. The morale of Central Continent's ten great ancient sects fell much more and most were dispirited.

Central Continent was facing four regions and its situation was truly dangerous. If they were thought to be weak and easily bullied, when the five regions chaotic war starts, they would be besieged by the other four regions. At that time, even if Central Continent was strong like a tiger, they would still be torn to pieces by the hyenas.

Releasing this information would stabilize the internal forces and also frighten external forces, and Qin Ding Ling had to do this! Hiding the battle results might have some tactical advantages, but Qin Ding Ling was the leader of Heavenly Court and had to consider the whole world. So, she chose to give up the tactical advantage to recover the declining situation.

"Heavenly Court is filled with talents, even without a great expert like Fairy Zi Wei, they have Qin Ding Ling to stabilize the overall situation. Heavenly Court's foundation is extremely deep, it is not just a front." Fang Yuan sighed, he approved of Qin Ding Ling's decisiveness. He would do the same if it were him.

At their level, the five regions and two heavens were a chessboard. Fighting each other without any plans or vision might let them show off their strength for some time but it would lead them to a disastrous defeat.

Looking back at the pursuit battle against Fang Yuan.

There was no doubt that the biggest loser was Shadow Sect. Spectral Soul with pseudo venerable battle strength died, while the members were dead, missing, fleeing, or captured.

Next was Fang Yuan.

Fang Yuan's losses were severe!

Currently, the whole sovereign immortal aperture was in a miserable state. The vibrant Mini Southern Border was turned into ruins with only a few resource points remaining. The other four mini regions and the mini nine heavens were also not much better.

Many variant humans and humans died despite receiving Fang Yuan's protection.

The previous Combat Beast King had fallen into a coma after blocking the myriad tribulation and had yet to wake up.

The loss in Immortal Gu was also the largest that Fang Yuan had ever experienced in his life.

First, two rank eight Immortal Gu Houses were destroyed. Dragon Palace's core Immortal Gu, Dream Token, was preserved, along with Myriad Year Flying Warship's Years Flow Like Water, but they were injured and needed to recuperate. Many other Immortal Gu were destroyed in the battle, including Precaution, Fight, and so on.

There were many losses to earth path Gu worms as well. Although Peaceful Soil Heavy Mountain Fortress still remained, Spectral Soul's self-detonation was terrifying. By blocking this attack, Fang Yuan had lost seven earth path Immortal Gu and countless mortal Gu.

Peaceful Soil Heavy Mountain Fortress was heavily weakened as a result.

Over this period of time, Fang Yuan had experienced the fate war, defended against myriad tribulations and the pursuit of others, his rank eight immortal essence was already close to drying up. He had almost finished all the immortal essence he had painstakingly accumulated before the fate war.

He had just made some progress in the Twelve Zodiac battle formation, but after the battle with Spectral Soul, he had to gather them again.

There was only a little of Reverse Flow River left, it could not be used.

Unlimited qi sea's strength had fallen to rock bottom and could no longer be considered a trump card.

Fang Yuan did not obtain any battle spoils from Spectral Soul. Spectral Soul's self-detonation had destroyed everything completely.

Undoubtedly, Spectral Soul was extremely hard to deal with, even in death, he did not leave behind any benefits to Fang Yuan.

After the chase, Fang Yuan's greatest gain was preserving his life, as well as over three thousand heaven path dao marks and the Qi Sea clone. He did not possess them originally, they were his gains from the fate war and from scheming against Heavenly Court. They had no association with Spectral Soul.

Even though Spectral Soul was dead, Fang Yuan also suffered in the aftermath.

Shadow Sect and Fang Yuan were losers, so was Longevity Heaven. They lost Mao Li Qiu, a legendary immemorial beast, and did not have any battle gains. It was just that when compared to Shadow Sect and Fang Yuan, their losses were much fewer.

After this was Demon Immortal Qi Jue, who lost a lot but also made a few gains. Demon Immortal Qi Jue had extorted many inheritances from Spectral Soul and Fang Yuan with no lack of venerable true inheritances. But his Xi Land was heavily damaged and he lost his freedom as well, imprisoned by Divine Emperor City.

So, this battle's biggest winner was Heavenly Court.

Spectral Soul died and Fang Yuan escaped with heavy losses. Heavenly Court then defeated Longevity Heaven, Calamity Luck Altar escaped Central Continent in a panic. Divine Emperor City suppressed Demon Immortal Qi Jue and Mao Li Qiu. Qin Ding Ling's group captured Old Man Zheng Yuan and put up a bounty for Fairy Zi Wei and Ying Wu Xie. Qi Sea Ancestor, Bai Ning Bing, White Rabbit, and Miao Yin were speculated to have died in battle.

Such a battle result was truly impressive. It was a huge surge of morale to everyone in Central Continent.

Heavenly Court's battle result was spread all over the world. It was not just Fang Yuan who analyzed wins and losses, all the Gu Immortals were analyzing the overall situation too.

Among them, one person was the happiest.

"Brilliant, brilliant!" On the main seat in the hall, this Gu Immortal was holding the information Gu while praising repeatedly with joy in his eyes.

He was a middle aged man with an ordinary appearance, he had a strong body and sharp eyebrows. His expression revealed tyranny and some hints of ruthlessness.

He was Wu clan's first supreme elder, rank eight wind path Gu Immortal, a formidable expert of the present age — Wu Yong!

Sitting on the first seat to the left was Wu clan's second supreme elder, Wu Ba Chong. His battle strength was not outstanding in Wu clan, but he had the highest seniority, was steady, and dared to take on responsibilities. Previously, when every large force was creating difficulties for Wu clan, he came forward to stabilize the situation. He was a core member of Wu clan.

Wu Ba Chong asked Wu Yong respectfully: "I am not sure what good there is in this? Please enlighten me, my lord."

Wu Yong put down the information path Gu worm and explained with a burning gaze: "In the five regions and two heavens, the strong are respected. The so-called general trend is nothing more than the fight between those peak experts. Only when the strong ones are in a stalemate, will the weaker ones and super forces have space to grow. If a venerable is born, they would be invincible and rule as the sole leader, and all the heroes would have to lower their heads."

"Currently, with no venerable, the general trend flows with four people; Spectral Soul, Gu Yue Fang Yuan, Demon Immortal Qi Jue, and Qi Sea Ancestor. Besides them, there are super forces like Heavenly Court and Longevity Heaven who can take part in the fight, with Immortal Gu Houses like Calamity Luck Altar and Divine Emperor City to influence the overall situation."

Wu Ba Chong felt puzzled and asked: "Divine Emperor City is publicly recognized to be the number one Immortal Gu House as it could suppress Demon Immortal Qi Jue. Calamity Luck Altar is slightly inferior but is also a very strong Immortal Gu House that showed its splendor in the fate war. Why put Heavenly Court and Longevity Heaven below those four people?"

Wu Yong replied with a smile: "These two Immortal Gu Houses are indeed strong, but they can only be strong for some time. The greatest flaw of Immortal Gu Houses is that their methods are fixed. Once those methods are known, they can be targeted and countered. Immortal Gu Houses are difficult to modify, they are far inferior to individuals with pseudo venerable battle strength who can adjust themselves depending on the situation."

"Divine Emperor City is very strong since it could suppress pseudo venerable Demon Immortal Qi Jue. But when its methods are known clearly, its threat will fall by a level. Heavenly Court lacks a pseudo venerable, it is their greatest weakness. If Qi Sea Ancestor had not stood by Heavenly Court's side in this battle, Qin Ding Ling would not have had such success."

"So it is like that." Wu Ba Chong realized, "I now understand lord's happiness. In this pursuit battle, Spectral Soul died, Fang Yuan fled in distress, Demon Immortal Qi Jue was suppressed, Qi Sea Ancestor is missing with a high probability of being dead. This means the four pseudo venerables are mostly gone, and it is the perfect opportunity for us to develop."

Wu Yong nodded: “Naturally, it is better if such experts are dead. The most regrettable thing is Fang Yuan managed to escape, sigh, this demon is unfathomable, he cannot be evaluated by common sense. Maybe, when he appears again, he would be even stronger than before!”

Wu Yong’s expression turned heavy when he mentioned Fang Yuan.

Wu Ba Chong was also filled with worries.

Fang Yuan had deep conflicts with Wu clan, and now that Spectral Soul was dead, Fang Yuan was the number one demon in the world. If he recuperated and came to attack Wu clan, it would be an apocalyptic disaster.

Wu Yong continued: “We can do nothing about pseudo venerables. So we should take this chance to develop and strengthen ourselves, when Fang Yuan comes to trouble us in the future, we can at least have strength to fight back. If this situation doesn’t happen in the future, it will be preparation for the five regions chaotic war.”

“Central Continent and Northern Plains are guarded by Heavenly Court and Longevity Heaven. They have been operating for countless years and are like iron fortresses, let’s not talk about them for the moment.”

“As for the remaining three regions, Southern Border, Western Desert, and Eastern Sea are all disunited.”

“The wave of the great era has already risen, Wu clan needs to ride this wave and rise up. Western Desert is filled with sand and countless oases, it is easy to defend but hard to attack. Eastern Sea has plenty of resources but has never produced a venerable, their nature is the most gentle. We should first integrate the whole of Southern Border’s Gu Immortal world, then capture Eastern Sea and Western Desert. With resources of three regions to help me, I will pass my tribulation and become a pseudo venerable, then cultivate rank eight Gu Immortals and construct a peak level Immortal Gu House. Finally, we will attack Central Continent and Northern Plains!”

“Lord!” Wu Ba Chong was hearing this for the first time, his eyes opened wide in excitement but he felt nervous at the same time.

This was an aspiration to take over the world!

Can Wu Yong bring Wu clan to the peak? Or will they be turned into dregs by the tides of the era?

“There has never been a venerable in wind path. If there is a possibility, maybe I can fill this gap. Who can say for sure what will happen in the future?” Wu Yong only thought this inwardly and did not say it out loud.

He was sitting on the main seat but his gaze seemed to pierce through the hall and into the sky.

At the next moment, Wu Ba Chong heard Wu Yong’s recital:

“The mirage of eternal life is not my pursuit, longevity without accomplishments is no less than shameful.”

“Regional walls vanish as chaos ensues, the destruction of fate brings freedom to all.”

“Eagle rules the sky and whale dominates the sea, without trying, who knows if I am a dragon or worm?”

“How can plain commoners ever understand why, I will never give up until my road ends!”

Wu Ba Chong was deeply moved as he stood up and knelt on the ground, swearing with a trembling voice: “This subordinate is willing to follow by lord’s side, for the grand ambition of Wu clan, I will use every ounce of my strength and lay down my life!!”

Chapter 2067 - Seven-Seven Profound Soul Bird

Chapter 2067 Seven-Seven Profound Soul Bird

“Wu Ba Chong, get up quickly.” Wu Yong’s laughter resounded in the hall.Wu Ba Chong immediately felt a formless wind lifting him up firmly and gently.

“With your help, I will have nothing to worry about.” Wu Yong was satisfied.

“I am ashamed.” Wu Ba Chong bowed his head and cupped his fists, “My cultivation level is not enough to bear lord’s expectation. But from now on, as long as lord gives a command, I will stake my life to accomplish it!”

Wu Ba Chong was not acting, he had wholeheartedly pledged his allegiance.

Wu Yong was truly a formidable leader, the moment he took his position, he got rid of the spies inside Wu clan.

Although there was the matter of Fang Yuan disguising as Wu Yi Hai to make use of Wu clan as well as secretly stealing dream realms, Wu Yong put in vigorous effort and had taken back all the lost territories of Wu clan.

In the Southern Border giant dream realm event, Wu Yong and Heavenly Court had reached an agreement, they returned the super clans’ Immortal Gu, allowing him to gain incomparable prestige.

Later, he led the Southern Border immortals to hunt down Fang Yuan, forcing Fang Yuan to flee from Southern Border to Western Desert in a miserable state.

During the Five Regional Mountain Range battle, he suffered a slight setback due to the schemes of Fang Yuan and Lu Wei Yin. But after the event, Lu Wei Yin could not defeat him and Wu Yong became the Southern Alliance's leader in the end.

During the fate war, Wu Yong took the initiative to lead the Southern Alliance's champions in the battle, disregarding Fairy Zi Wei's threats. In this battle, Wu Yong led the immortals and attacked the nine-nine consecutive unceasing formation, he unhesitatingly used the killer move unlimited wind which expended his wind path dao marks permanently. Be it his heroic bravery in the battle or the contributions he made, they were all deeply engraved in the minds of Southern Border's immortals.

After the fate war, Wu Yong returned to the clan to rest and recuperate. He modified and improved his killer moves as well as Immortal Gu House Clear Jade Dripping Wind Tiny Bamboo Building. At the same time, he handled Wu clan's affairs, ensuring there was order and stability in Wu clan, which was growing day by day.

Whether it was in terms of cultivation, talent, battle strength, or leadership, Wu Yong was a rare genius from Wu Ba Chong's perspective. Even his mother, Wu Du Xiu, was below Wu Yong in the current opinion of Wu Ba Chong and many other Southern Border Gu Immortals.

"I am getting old, this is all my life will amount to. It is my honor to be able to follow a person like Wu Yong. I am really looking forward to seeing how far Wu clan can grow under his leadership." These were the inner thoughts of Wu Ba Chong.

Swoosh.

With a soft whistle, an information path Immortal Gu flew into the hall from the outside and landed on Wu Yong's hand.

Wu Yong probed with his divine sense and immediately learned of the content.

Wu Ba Chong guessed: “It is definitely a huge matter if an information path Immortal Gu is sent to deliver the message. I wonder if it is good or bad news?”

Shortly after, he saw Wu Yong smile: “Good news keeps coming, take a look.”

Wu Yong handed the information path Immortal Gu to Wu Ba Chong.

Wu Ba Chong received the Gu and inspected it carefully, he then understood Wu Yong had made a big accomplishment from his scheme, he had successfully lured the Fierce Gorge Seven Ghosts into the formation.

“The Fierce Gorge Seven Ghosts, they really are the Fierce Gorge Seven Ghosts!” Wu Ba Chong was excited.

The Fierce Gorge Seven Ghosts were a famous demonic path group in Southern Border’s Gu Immortal world comprising seven members. Every generation of the Fierce Gorge Seven Ghosts brought a huge disturbance and many losses to Southern Border’s righteous path.

The Fierce Gorge Seven Ghosts were arrogant and even infringed upon Wu clan’s benefits many times. As the leader of Southern Border’s righteous path, Wu clan naturally had to come forward to deal with this issue.

Thereupon, Wu clan and the Fierce Gorge Seven Ghosts could be said to be at odds.

Every generation’s first supreme elder of Wu clan dedicated themselves to exterminating the Fierce Gorge Seven Ghosts. And every generation’s Fierce Gorge Seven Ghosts provoked Wu clan, as long as the colossal force Wu clan showed any weakness, they would attack like dogs hiding in the darkness, biting off a piece of flesh of Wu clan and run away immediately.

Wu clan was a super force and stably held the throne in Southern Border. But the Fierce Gorge Seven Ghosts were not ordinary, there was much evidence that suggested their inheritance was very likely to be from Spectral Soul Demon Venerable. As long as there was one person living in every generation's Fierce Gorge Seven Ghosts, the inheritance would continue. And with time, there would be another six demonic immortals besides the survivor.

The life and death battles in every generation made it so that Wu clan and the Fierce Gorge Seven Ghosts had irreconcilable conflict. Wu clan became the biggest enemy of the Fierce Gorge Seven Ghosts, while the Fierce Gorge Seven Ghosts became a sore point of Wu clan that could not be gotten rid of. Every new member of the seven ghosts was committed to taking revenge against Wu clan.

Wu Du Xiu had mentioned three regrets in her last words, one of them was regarding the Fierce Gorge Seven Ghosts. In her life, Wu Du Xiu had commanded from behind the scenes and even personally attacked and killed over ten members of the Fierce Gorge Seven Ghosts, but had not been able to get rid of all of them at once.

As long as there was one survivor of the Fierce Gorge Seven Ghosts, they would bide their time patiently and fill the vacancies.

But now, according to the information in the Immortal Gu, all of the Fierce Gorge Seven Ghosts had ended up in Wu Yong's trap.

It was no wonder Wu Ba Chong was so excited.

Wu Yong took back the information path Immortal Gu and walked towards the outside while instructing: "The Fierce Gorge Seven Ghosts are a disaster that Wu clan must get rid of. If we ignore them, they will definitely cause trouble for us and drag us down in the future. To be on the safe side, I will personally make a move this time."

Wu Ba Chong followed closely behind and asked for permission to take part in the battle. If they could kill the Fierce Gorge Seven Ghosts completely, it would be extremely significant to Wu clan!

But Wu Yong refused him: "I will take Clear Jade Dripping Wind Tiny Bamboo Building with me, a lion uses its full strength even when hunting a rabbit. You need to guard the headquarters while I am gone."

“Yes.” Wu Ba Chong could only helplessly accept the command.

Under his anticipating and respectful gaze, Wu Yong flew to the sky and disappeared into the horizon.

Wu clan’s headquarters was located on Wu Yi Mountain and Wu Yi Mountain was located at the extreme southwest of Southern Border.

If you looked at the whole Southern Border from high above, you could roughly see: the intersection of yellow dragon river and red dragon river formed a ‘X’, and Wu clan’s territory was at the lower part of this ‘X’. Shang clan was on the right side.

Among all the Southern Border super forces, Wu clan was at the extreme south. Wu Yong was very satisfied with this location, as Wu clan would not be surrounded by enemies from all sides like Central Continent.

The surroundings of Wu clan’s territories were isolated by yellow dragon river and red dragon river, the geography was highly beneficial to the clan’s rise.

“The biggest weakness of Wu clan currently is insufficient Gu Immortals. Even if we annex the surrounding lands in the future, we won’t have enough Gu Immortals to guard them.”

As Wu Yong pondered over this, he thought of Fang Yuan.

It was Fang Yuan who created problems and havoc in Southern Border, making Southern Border go through many large battles. Not only Wu clan, the whole of Southern Border’s Gu Immortal world lost many people!

Wu Yong was flying towards the northeast extremely quickly.

After some time, a corpse mountain was already in his sight.

This corpse mountain that was beside the river was thousands of feet tall and there were large numbers of zombies living in it. It was close to the whirlpool at the intersection of red dragon river and yellow dragon river.

More accurately speaking, this corpse mountain was called Corpse Emperor Yu Ding Tian. In the past, a rank eight Southern Border Gu Immortal turned into an immortal zombie, and fought against allied attacks of super forces in this peak, finally dying here. As time passed, on the mangled corpse of this rank eight immortal zombie, due to the nourishment of the natural essence from the river, along with the aquatic plants in the river that rooted themselves, this place turned into a corpse mountain.

The corpse mountain produced transformation path zombie Gu, as well as qi path zombie qi Gu.

Before the headquarters of Southern Border's Zombie Alliance was exposed, they had targeted this precious area and wanted to pay a high price to buy it from Wu clan to make it their headquarters, but Wu clan rejected them.

Later, Yao clan seized it from Wu clan. Wu Yong brought out Clear Jade Dripping Wind Tiny Bamboo Building and took back the corpse mountain.

Because this resource point had high productivity and was also located at a strategic position, Wu Yong had stationed rank seven Gu Immortal Wu Zhen here.

After the fate war, qi tides emerged in the five regions. Qi tides swept the whole world, not only forcing the five regions' Gu Immortals to recuperate, they even exposed many true inheritance secret areas and grotto heavens of the two heavens.

Blood qi Immortal Gu, which Demon Immortal Qi Jue had seized in Western Desert, was one of the Blood Sea true inheritances, its traces were exposed because of qi tides.

A true inheritance had appeared on Corpse Emperor Yu Ding Tian as well. All the traces revealed this true inheritance was left behind by that rank eight immortal zombie back then!

A true inheritance of this level might not catch the interest of Demon Immortal Qi Jue and Fang Yuan, but it was a rank eight great expert's inheritance after all. It was enough for any super force to give it attention, it was reasonable for the Fierce Gorge Seven Ghosts to be tempted.

Wu Yong thus arranged traps, and now, the Fierce Gorge Seven Ghosts were all drawn into the trap and were just waiting for him to catch them.

An intense battle had already continued for some time at the peak of the corpse mountain.

“Cardinal directional wind formation! Such a pity that we, the Fierce Gorge Seven Ghosts, have a deep understanding of your Wu clan, this large formation cannot trap us!”

“The moment the formation breaks will be the moment your life ends, Wu Zhen!”

“Wu Zhen, the Corpse Emperor true inheritance appeared on Corpse Emperor Yu Ding Tian, but you intentionally concealed the information. Even if Wu clan’s reinforcements arrive, you won’t face a good outcome. How about you betray Wu clan and join us.”

The Fierce Gorge Seven Ghosts started to attack the wind path formation in four directions.

They had a lot of understanding of this formation because the Fierce Gorge Seven Ghosts had tackled the cardinal directional wind formation many times over the generations.

The formation was already on the verge of collapse.

Wu Zhen, who was controlling the formation from the outside, was riddled with wounds.

Suddenly, he received Wu Yong’s voice transmission. His face immediately brightened as he activated some methods.

The cardinal directional wind formation changed immediately, a gentle wind blew in and turned into Wu Yong.

“What? This formation actually changed!”

“Wu Yong came! Wu clan’s reinforcements came so fast?”

“Damn it, this was a trap.”

The Fierce Gorge Seven Ghosts were shaken but after the shock, their ferocity was stimulated.

“Kill!”

“Even if we die, we will make Wu clan suffer disastrous losses.”

“If we kill Wu Yong, Wu clan will only be a joke!”

The Fierce Gorge Seven Ghosts charged towards Wu Yong, but they were secretly discussing on how to break through.

Since it was a trap by Wu clan, the longer they stayed, the more unfavorable it would be for them. Moreover, Wu Yong was a powerful expert in the present age, he was a person at a level that was just under pseudo venerable.

The present Gu Immortal world publicly recognized Wu Yong, Qin Ding Ling, Bing Sai Chuan, Thousand Transformations Ancestor, and other experts to be on the same level, they were all experts merely below pseudo venerable level.

The Fierce Gorge Seven Ghosts knew they were not Wu Yong’s match, but they still had hope.

Wu Yong used this cardinal directional wind formation to lure these Gu Immortals, although there were some changes to it, it was still the original cardinal directional wind formation.

It was because this large formation was not a battlefield killer move that the Fierce Gorge Seven Ghosts let down their guard and attacked rashly.

Seeing the Fierce Gorge Seven Ghosts charging towards him, Wu Yong sneered: “Cowards putting up a strong front, you are nothing much.”

At the next moment, strong winds appeared and frosty air blew.

Winds roared and snow started pouring down like a blizzard!

Three ghosts of the Fierce Gorge Seven Ghosts were frozen solid, and after two breaths of time, two of them died from the coldness.

“What killer move is this?”

“It is so cold!”

This was the killer move that Wu Yong had created during his recent closed cultivation session — Snowy Wind of No Return.

The Fierce Gorge Seven Ghosts’ formation was in chaos, Wu Yong’s eyes shone with sinister light: “Cowards, you are not qualified to be my enemies.”

Green leaves emerged from the bodies of the Fierce Gorge Seven Ghosts, branches grew rapidly.

The remaining five ghosts screamed miserably as their life force was completely seized. Lush willow branches grew on the corpses.

It was another creation of Wu Yong — Willow Wind!

The seven ghosts died, but their souls flew out of the corpses and merged into one, becoming an immemorial soul beast.

The soul beast had the appearance of a bird, its whole body was completely black and it had seven heads.

Wu Yong’s expression was uplifted: “So it was the Seven Ghosts true inheritance, it is the incomplete product of Spectral Soul when he attempted to create the immemorial soul beast — Seven-Seven Profound Soul Bird. Jade Building, come to me!”

Wu Yong waved his hand, Clear Jade Dripping Wind Tiny Bamboo Building crashed towards the seven-seven profound soul bird like a green meteor.

The seven-seven profound soul bird struggled with all its strength, using all kinds of killer moves. Unfortunately, its consciousness alternated between clear and chaotic, and was finally suppressed by

Clear Jade Dripping Wind Tiny Bamboo Building in the end.

“Lu Wei Yin, I should not have trusted you!” The seven-seven profound soul bird let out an indignant cry at the last moment before falling unconscious.

Chapter 2068 - Two Choices

2068 Two Choices

“Lord!” Wu Zhen put away the cardinal directional wind formation in excitement.

He personally witnessed Wu Yong sweeping away the Fierce Gorge Seven Ghosts with methods that were never heard of before and were also extremely powerful.

Everyone knew of the price Wu Yong paid to use unlimited wind in the fate war.

Wu Zhen had not expected Wu Yong’s strength to increase so much in this period of time! In the whole battle, the Fierce Gorge Seven Ghosts were unable to counterattack at all.

Sensing the reverential gaze of Wu Zhen, Wu Yong smiled: “The Fierce Gorge Seven Ghosts are rank seven at most, we could not deal with them properly because they rarely moved together. If they were not dealt with at once, our efforts would only be in vain.”

Wu Yong’s expression turned slightly heavy: “You heard what the seven-seven profound soul bird said just now, what do you think?”

Wu Zhen immediately revealed a serious expression as he analyzed: “From their dying words, all of the Fierce Gorge Seven Ghosts attacked Corpse Emperor Yu Ding Tian not only because of our scheme, Lu Wei Yin had been urging them from behind the scenes as well! Lu Wei Yin… he could actually influence the Fierce Gorge Seven Ghosts, maybe we can make use of this!”

Wu Yong laughed heartily: “Not bad, Wu Zhen, well said.”

Wu Zhen had already guessed Wu Yong’s next plan. In Wu Yong’s plan, the first step was to unite Southern Border.

And the greatest obstacle to do this was Lu Wei Yin.

Lu Wei Yin was the current inheritor of Paradise Earth in Southern Border. Because of Paradise Earth Immortal Venerable’s influence and his contributions to Southern Border’s righteous path, Wu Yong could not easily make a move against him.

But who could have expected that during the pursuit against Fang Yuan, Lu Wei Yin actually helped Fang Yuan. This gave Wu Yong the perfect reason to make a move. And this time, Lu Wei Yin was secretly involved with the seven-seven profound soul bird, this gave Wu Yong the perfect excuse to lead the Southern Alliance and destroy the Mushroomman Paradise in the name of justice!

“Take care of your injuries, next, we will make a move against Lu Wei Yin and destroy Mushroomman Paradise!” Wu Yong’s eyes shone with cold light and imposing battle intent.

Wu Zhen hesitated for a moment before speaking: “Lord, isn’t it too early now? When qi tides appeared, many inheritances emerged in Southern Border. The Corpse Emperor true inheritance is only one of them. Currently, the Southern Alliance’s super forces are all actively exploring and gathering these true inheritances. If we hastily summon them, wouldn’t only a few show up and the other super forces conceal their strength?”

Wu Yong smiled and nodded: “You are right. The things you mentioned are one of the difficulties in attacking Lu Wei Yin and the Mushroomman Paradise. Besides this, there are several other difficulties. Firstly, Lu Wei Yin is extremely shrewd, he has all kinds of plans and unique methods, he is definitely not an ordinary opponent. Secondly, Mushroomman Paradise obtained Paradise Earth Immortal Venerable’s help, its foundation is deep and is not any inferior to the super forces. Thirdly, Lu Wei Yin helped Fang Yuan escape, if we attack him, we might have to fight Fang Yuan as well.”

“Fight Fang Yuan?” Wu Zhen’s face immediately turned pale.

The current Fang Yuan was the number one demon in the world. Just the possibility of having to fight him was enough to make a rank seven Gu Immortal like Wu Zhen feel uneasy.

Wu Yong laughed, his tone rising slightly: “But these difficulties are only difficulties, if we are afraid to take action because of difficulties, nothing can be accomplished. Farmers need to farm, but if they don’t cultivate the land because they are afraid of drought, there would not even be a single grain of harvest. When fishermen fish, if they don’t spread the net because they are afraid of drowning, their baskets will definitely be empty. Will our Wu clan retreat because of these difficulties?”

Wu Zhen’s expression became solemn and he quickly cupped his hands: “Thank you for the guidance.”

Wu Yong’s gaze was deep as he continued to explain: “This is the best time to attack Lu Wei Yin. A person like Lu Wei Yin will only make more preparations if he has more time, and Mushroomman Paradise will be increasingly hard to attack. It is obvious that Fang Yuan escaped because he did not have strength to fight. If we miss this chance and he recovers, there will be no hope of destroying Mushroomman Paradise.”

“As for those righteous path super forces concealing their strength? Hmph, do they think the Southern Alliance is so easy to join? As the alliance leader, I will gain the chance to reorganize the Southern Alliance once and for all.”

Wu Zhen no longer had any worries and was completely persuaded by Wu Yong’s plan: “I am willing to follow you, lord, and go on the expedition against the mushroommen.”

Wu Yong nodded, saying a sentence before leaving: “Tend to your injuries first, the path of Wu clan’s domination will require your contribution as well.”

At the same time, Eastern Sea.

Xia clan headquarters.

The atmosphere was tense in the discussion hall.

Over ten variant human Gu Immortals were divided into two groups and were in a standoff.

On the left side, Chaotic Rock Grotto Lord, Rotten Egg Grotto Lord, and Hair Monster Grotto Lord were clustered around Ice Crystal Immortal Monarch.

On the right, Xiao He Jian led Green Forest Great Sage and Great Wisdom Immortal Mother.

There was also a third group formed from human Gu Immortals, having Crossing Heaven Immortal Monarch, Black Locust, and Rainbow Rock Immortal Concubine in it.

During the pursuit battle against Fang Yuan, these variant human Gu Immortals were abandoned by Fang Yuan. After they escaped Heavenly Court, they returned to Eastern Sea.

Without Wu Shuai controlling the situation, these grotto-heaven lords of the two heavens were feeling panicky. Over these days, they were still pondering over how to resolve the qi harvest fruit disaster in their grotto-heavens, but made no progress.

“Xiao He Jian, are you prepared for when Lord Wu Shuai returns? I want to see how you will explain to Lord Alliance Leader why you promoted Lady Cold Ash repeatedly before!” Ice Crystal Immortal Monarch took the lead to reprimand his political rival.

Xiao He Jian’s expression was dark. Back then,he had promoted Lady Cold Ash to gather Gu Immortals and grow his force in contesting with Ice Crystal Immortal Monarch’s group. He had never expected Lady Cold Ash to be Spectral Soul’s disguise! Not only this, at the crucial moment, Spectral Soul made his move and chased Wu Shuai and Fang Yuan, eventually destroying Dragon Palace.

Spectral Soul created such huge losses to the two heavens alliance and Xiao He Jian naturally had to be held responsible.

Xiao He Jian's expression was ashen in face of the accusation, he stared at Ice Crystal Immortal Monarch: "It is not up to you to decide how much responsibility I bear. Ice Crystal Immortal Monarch, don't forget, we are both vice alliance leaders, we have equal positions! I am aware of how big a mistake I made, I am willing to accept any punishments from Lord Wu Shuai. But this is not only my responsibility. Ice Crystal Immortal Monarch, could it be that you didn't make any mistake? Think about it, who invited Lady Cold Ash into our alliance? Was it not you? You not only invited Spectral Soul, you even took in Heavenly Court's spy, Night Heavenly Wolf Lord. Your responsibility is bigger than mine."

"You!" Ice Crystal Immortal Monarch was furious.

After the defeat in the battle, Xiao He Jian had already realized his predicament. He had already made sufficient preparations for this meeting.

"Hehe. Speaking of which, isn't it all caused by humans? Be they Lady Cold Ash or Night Heavenly Wolf Lord, they are both humans. Human Gu Immortals cannot be trusted!" Great Wisdom Immortal Mother added sinisterly.

She was an inkman Gu Immortal, her Great Wisdom grotto-heaven had been invaded by Heavenly Court and suffered heavy losses.

Later, the two heavens alliance organized a rescue, but Ice Crystal Immortal Monarch had been worried about his own Ice Crystal grotto-heaven back then and disregarded Great Wisdom grotto-heaven.

Thus, there was a crack in the relationship between Great Wisdom Immortal Mother and Ice Crystal Immortal Monarch, Xiao He Jian had sensed it and recruited her. Great Wisdom Immortal Mother, whose strength had greatly fallen, became a member supporting Xiao He Jian.

Green Forest Great Sage was also a miniman like Xiao He Jian, so he had a natural closeness to the latter.

With these two supporting Xiao He Jian with all their strength, Xiao

He Jian was barely able to contend with Ice Crystal Immortal Monarch's group. But it was only barely.

This time, Spectral Soul's attack created a huge trouble for Xiao He Jian.

Thus, Great Wisdom Immortal Mother saw that the situation was bad and diverted the attention to the humans.

Her words immediately resonated with other variant human Gu Immortals.

"That's right, humans are crafty, they cannot be believed easily."

"In my opinion, our two heavens alliance should be a pure variant human alliance!"

"The performance of these human Gu Immortals in the battle was truly bad!"

Variant human Gu Immortals resonated with the words and looked at the human Gu Immortals in the hall with unfriendly gazes.

Crossing Heaven Immortal Monarch, Black Locust, and Rainbow Rock Immortal Concubine were pale, and were standing close to each other.

The two heavens alliance had been established not long ago, they had formed for an extremely short period of time. Now that they lost their powerful leader, they immediately showed signs of collapsing.

Right at this time, a majestic sound reverberated throughout the blessed land headquarters.

"Alright, stop fighting!"

Following which, a golden light shot down like a heavenly pillar.

The golden pillar of light dissipated, revealing two immortals.

One was wearing a white robe, with dark hair and deep pupils, while the other was tall and handsome, resembling a heroic champion.

They were Gu Yue Fang Yuan and Wu Shuai.

All the immortals in the hall were shaken.

With Ice Crystal Immortal Monarch and Xiao He Jian taking the lead, everyone knelt down on one knee and greeted: “Greetings to Lord Alliance Leader!”

After hesitating for a moment, they greeted again: “Greetings to Lord Fang Yuan.”

Wu Shuai raised his hand: “Get up.”

He was standing beside Fang Yuan, and Fang Yuan was grandly sitting on the alliance leader’s seat.

The immortals had different expressions seeing Wu Shuai’s subordinate-like attitude towards Fang Yuan.

Wu Shuai directly said: “You don’t need to guess, I am a dragonman, but it is a fact that I am Fang Yuan’s clone.”

The immortals were stunned for a bit before reacting, their expressions were even more complicated.

They were not overly shocked by this relationship. After Heavenly Court spread the battle results, the relationship of Wu Shuai and Fang Yuan was widely speculated. After all, Wu Shuai and Fang Yuan’s cooperation was extremely close in the battle, they were too trustful of each other, this was not common among demonic immortals.

The two heavens alliance’s Gu Immortals had already heard of these rumors, they appeared loyal and devoted on the surface but had many guesses inwardly.

So when Wu Shuai admitted it, the immortals did not find it hard to accept.

Wu Shuai continued: “The reason I gathered everyone is to rally our forces and vie for supremacy, while also to get rid of the qi harvest fruit disaster in your grotto-heavens.”

The immortals' eyes shone, one of them asked: "Could it be that lord alliance leader has a way to resolve it?"

Wu Shuai smiled: "I naturally don't have a way to deal with it, but my main body has."

The immortals cautiously looked at Fang Yuan.

Fang Yuan wore no expression and his gaze was indifferent as he spoke for the first time: "Right now, you have two choices. One is to let me annex your grotto-heavens, only through this way can the qi harvest fruit calamity be resolved."

The immortals turned pale, some were furious but dared not to say anything.

At once, the hall fell into silence.

Rainbow Rock Immortal Concubine broke the silence and asked respectfully: "I wonder what the other choice is?"

Fang Yuan leaned back on the wide chair and narrowed his eyes: "The second choice is that you will all be killed by me, thereafter, I will annex your grotto-heavens."

All the immortals were deathly pale and it was a scene of complete silence.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2069 - Eastern Sea“s Alliance Army

2069 Eastern Sea“s Alliance Army

Facing the extremely forceful Fang Yuan, the variant human Gu Immortals gritted their teeth and their gaze flickered with dark light. Many glanced around, hoping someone would speak up.

Unfortunately, Fang Yuan was currently the number one demon in the world, even Spectral Soul had died in his trap. His demonic prestige was increasing rapidly and the variant human Gu Immortals dared not to touch his nerve.

No one dared to resist Fang Yuan but no one surrendered and offered their headquarters either.

Anyone could see these Gu Immortals were not willing to!

Their grotto-heaven headquarters was the place where they lived day and night, it was their home and their sacred land. If they really offered their home to Fang Yuan, their friends and family would definitely blame them for the betrayal, and their own conscience did not allow it.

Back then, when Heavenly Court invaded Ice Crystal grotto-heaven, Ice Crystal Immortal Monarch directly staked his life and did not hesitate to expend his lifespan to activate the killer move extreme ice crystal light immortal suppression coffin. Great Wisdom Immortal Mother directly sold the racial inheritance regarding the Qian Kun

Crystal Wall to Wu Shuai to save her Great Wisdom grotto-heaven. All these showed that the grotto-heavens of the two heavens had great significance to the variant human alliance's members and they held an important position in their hearts.

But what could they do?

Fang Yuan's power was known to the whole world. He was currently the number one demon, Heavenly Court was defeated by him, fate Gu was destroyed by him, and now, even Spectral Soul was killed by him!

After the pursuit battle, although Fang Yuan had only rested for a little over ten days, which was a brief time, the variant human Gu Immortals in the hall had no doubt that Fang Yuan could exterminate all of them!

Their only hope might be external reinforcements.

But where would these variant human Gu Immortals find external reinforcements?

Should they approach Heavenly Court or Longevity Heaven?

What a joke!

An even more crucial point was that almost all the two heavens' grotto-heavens were facing the qi harvest fruit disaster. If they did not surrender to Fang Yuan and let these qi harvest fruits grow, their grotto-heavens would be destroyed.

But if they surrendered to Fang Yuan, they would be giving their lives to Fang Yuan. After they joined his side, it would be easier said than done for them to leave him again.

Fang Yuan's ruthlessness was already known to all. Previously, he had dispatched many of his subordinates to attack Central Continent, but after the fate war, Fang Yuan only escaped by himself, these subordinates were still wandering around the five regions. And just recently in the pursuit battle, Fang Yuan and Wu Shuai had left Heavenly Court using Dragon Palace, leaving the variant human Gu Immortals behind in Heavenly Court.

Who could feel safe following such a leader?

“Have you all thought it through? My patience is limited.” Fang Yuan’s expression was indifferent as he gave an ultimatum.

The immortals’ mind shook, many were pale and broke out in cold sweat.

Among them, the human Gu Immortals felt the most regret.

If they had known this, they would have directly surrendered to Heavenly Court.

In the present age, humanity was the ruler and they would not accept the surrender of variant human forces. But it was a different concept if humans were to surrender.

In fact, during the pursuit battle against Fang Yuan, when they were escaping Heavenly Court, it was not that they did not think of imitating Night Heavenly Wolf Lord and surrendering to Heavenly Court. But they simply did not have the chance with the variant human Gu Immortals watching them like hawks.

So, it was not without reason that these variant human Gu Immortals showed doubt and suspicion towards the human Gu Immortals.

The hall was still deathly silent, Fang Yuan’s expression was indifferent, but the variant human alliance members felt increasing pressure.

Fang Yuan had not used any killer moves, but most of the Gu Immortals felt like they were suffocating and their thoughts were being suppressed.

Unable to endure such pressure, one of the alliance members, Golden Fur Immortal Monarch, clenched his teeth and agreed, offering his immortal aperture to Fang Yuan.

Golden Fur Immortal Monarch was a rank eight hairy man Gu Immortal, he had his own reasons for doing this.

He knew Fang Yuan had annexed Lang Ya blessed land and had rarely sent Lang Ya Sect's hairy man Gu Immortals into battle. Golden Fur Immortal Monarch surrendered to Fang Yuan, thinking he would receive similar treatment.

Hairy men were proficient in Gu refinement, this had an enormous value which might preserve the lives of the people of Golden Fur grotto-heaven and even give them high statuses. It was far better than being slaughtered by Fang Yuan and forcefully annexed.

With Golden Fur Immortal Monarch agreeing, the remaining people felt even more pressure and urge to follow suit. It was like a gap appearing on a large dam and causing the flood to gush out of it.

But right at this time, alarms rang — a large group of Eastern Sea Gu Immortals were approaching this place with several Immortal Gu Houses!

Wu Shuai glanced at Fang Yuan, Fang Yuan nodded lightly. Wu Shuai turned around to look at the immortals: "The enemies have arrived, we will talk after repelling them."

The immortals finally let out sighs of relief.

If it were normal times and Eastern Sea's righteous path had organized a joint attack on them, these people would be extremely worried and fearful. But right now, they felt the pressure on them going away and were actually grateful instead.

Immediately, Wu Shuai and Fang Yuan stayed behind the scenes, while Ice Crystal Immortal Monarch and Xiao He Jian led the variant human alliance to meet the Eastern Sea alliance army.

The Eastern Sea alliance army had many people. Shen clan's first supreme elder Shen Cong Sheng, along with Tang clan's first supreme elder and Xie clan's first supreme elder, were personally taking part in the battle.

There were many Immortal Gu Houses as well, over ten at least. Eastern Sea was rich and populous, and was the number one region in terms of resources, so it was also the number one in terms of the number of Immortal Gu Houses possessed, surpassing even Central

Continent. Naturally, they had very few peak rank eight Immortal Gu Houses like Dragon Palace or Myriad Year Flying Warship.

Among the Immortal Gu Houses present, there was only one rank eight Immortal Gu House — Green Cloud Spark Warship, which belonged to Eastern Sea's Hua clan. Rank six Immortal Gu Houses were most numerous, after which was rank seven.

The two armies confronted each other in the sky, Xia clan's first supreme elder walked out of the Eastern Sea alliance army, it was rank seven Gu Immortal Xia Rui Zhi.

"Despicable variant humans, you disturbed Eastern Sea and invaded my home, your sin is too heinous. Today is the day you will all die!" Xia Rui Zhi shouted with a righteous aura.

Ice Crystal Immortal Monarch sneered: "Cowardly rat, you actually dared to come and court death."

Xiao He Jian also ridiculed: "Homeless dog, what gives you the confidence to challenge us?"

Xia Rui Zhi's face reddened with anger, he said through clenched teeth: "Variant humans, you deserve to die! I will fight first, who among you dares to face me alone?"

Xia clan's territory was seized by the variant human alliance; as the victim, Xia Rui Zhi naturally wanted to start the fight.

Ice Crystal Immortal Monarch immediately said: "A mere rank seven dares to start the fight. Never mind, my variant human alliance has no need to bully the weak, we will send someone with similar cultivation level to fight you."

Under Ice Crystal Immortal Monarch's instruction, a rank seven snowman Gu Immortal flew out and fought Xia Rui Zhi.

Both sides had just fought three rounds when Shen Cong Sheng stood up: "Who wants to fight me?"

Shen Cong Sheng was rank eight, his battle strength was also publicly recognized to be at the peak of Eastern Sea's Gu Immortal world. This time, Ice Crystal Immortal Monarch and Xiao He Jian did not dare to be overconfident. Under Fang Yuan's secret command, Xiao He Jian personally came out to fight.

Shen Cong Sheng and Xiao He Jian fought for a while, when another rank eight Gu Immortal from the Eastern Sea alliance army challenged, but he was not at Shen Cong Sheng's level.

The variant human alliance had many rank eight Gu Immortals, Ice Crystal Immortal Monarch thought for a while before sending a rank eight rockman Gu Immortal to meet the challenge.

Chapter 2070 - Huge Victory in Battle

Chapter 2070 Huge Victory in Battle

The two armies confronted each other, and the intense battles in the three battle circles attracted countless gazes.Xiao He Jian was a rank eight expert and in terms of strength, he was at the same level as a Heavenly Court member. And after returning from the blue dragon whale, Shen Cong Sheng also had a great improvement in his strength. The two were evenly matched.

But in the other two battle circles, the variant humans were at a disadvantage.

Chaotic Rock Grotto Lord was defending more than attacking, while the rank seven snowman Gu Immortal was already showing signs of defeat. His opponent was Xia Rui Zhi, who might be only at rank seven but was Xia clan's first supreme elder after all, he had abundant resources and many methods.

After several more rounds, Xia Rui Zhi suddenly shouted and used a fatal killer move to strike the snowman Gu Immortal.

The snowman Gu Immortal could not dodge it, his expression turned to despair.

Right at this time, Ice Crystal Immortal Monarch suddenly attacked Xia Rui Zhi with an ice path killer move.

Eastern Sea's alliance army was furious, they took actions to protect Xia Rui Zhi while blocking Ice Crystal Immortal Monarch's sudden attack.

Taking this chance, Ice Crystal Immortal Monarch pulled back that rank seven snowman to his side.

“Variant human Gu Immortals, you don’t have any sense of honor indeed, losing the battle as well as disgracing yourselves!”

“It was a one on one fight and you actually interfered to save your people? Alright, since you don’t respect rules, then we shall attack together.”

“Kill! Slaughter these variant human Gu Immortals!”

The Eastern Sea alliance army was furious, the whole army charged towards the variant human alliance like a rushing tidal wave.

Ice Crystal Immortal Monarch and the rest had a change of expression..

Eastern Sea alliance army’s offense was fierce, over ten Immortal Gu Houses took the lead and wreaked havoc. Comparatively, the variant human alliance had more rank eight Gu Immortals, but they lacked an Immortal Gu House and could only use their own bodies to fight.

Right at this crucial moment, an ant army suddenly appeared, forming a dazzling torrent that charged at the Eastern Sea alliance army.

The Eastern Sea alliance army was immediately obstructed by millions of ants. Many of the Immortal Gu Houses were infiltrated by the ants and could only use all their strength in defending, at once, the formation was in chaos.

Wu Shuai slowly showed himself, even without Dragon Palace, he was still a rank eight expert!

“Lord alliance leader!” The variant human alliance’s morale soared immediately.

On the contrary, the Eastern Sea Gu Immortals were pale in shock.

“Why is Wu Shuai here?”

“Wasn’t he together with that demon Fang Yuan?”

“If he is here, what about Fang Yuan?”

As if answering the questions of the Eastern Sea immortals, Fang Yuan’s figure also appeared.

“You guys have a lot of guts.” Fang Yuan waved his hand with a slight smile, a five-colored ray of light shot out.

A rank seven Immortal Gu House was struck by the five-colored light; it started shaking violently for a few breaths of time before it was no longer able to resist and exploded violently.

The Gu Immortals inside were horrified as they exclaimed: “This is a compound killer move, it actually contains metal, wood, water, fire, and earth, a total of five paths!”

Fang Yuan snapped his fingers, countless butterflies made of light flew out.

The butterflies of light flew in the sky and charged upon all the Immortal Gu Houses like a rainstorm.

Immortal Gu Houses used their abilities and resisted with all their strength.

The light butterflies changed their colors and ingeniously dodged most of the attacks as they infiltrated the Immortal Gu Houses.

“This is also a compound killer move, it contains the profundities of transformation path and refinement path!”

“Don’t let these butterflies near the Immortal Gu Houses, they can forcefully refine Gu worms!”

The Eastern Sea alliance army shouted in chaos.

The variant human alliance’s immortals were dumbfounded.

With just his strength, Fang Yuan disrupted the whole Eastern Sea alliance army, this was pseudo venerable battle strength! This was the strength of the number one demon of the present age!

“Fang Yuan, how have you been?” At the crucial moment, qi currents surged like the roars of tidal waves, Qi Sea Ancestor appeared.

The Eastern Sea alliance army’s morale finally stabilized.

“Qi Sea Ancestor is making a move!”

“He also has pseudo venerable battle strength, only he can fight Fang Yuan.”

“Qi Sea Ancestor also returned? Wasn’t he missing?” The variant human Gu Immortals were astonished, their expressions turning heavy.

The reason that the Eastern Sea immortals organized this army to attack the variant human alliance, aside from Xia clan actively contacting other forces and taking the initiative to offer many resources, was because Qi Sea Ancestor had secretly returned and gathered these immortals.

“Fang Yuan, let’s go!” Qi Sea Ancestor broke the heavenly wind qi wall and entered immemorial white heaven.

Fang Yuan laughed: “Since you are in such a mood, then I shall accompany you.” Saying so, he also charged into immemorial white heaven.

No one dared to follow them, the sky over the Eastern Sea was already in chaos at this moment.

The fight between Fang Yuan and Qi Sea Ancestor in immemorial white heaven shattered the sky and caused darkness to loom over Eastern Sea.

Suddenly, Fang Yuan’s cold laughter could be heard: “Qi Sea, I am no longer the same as before. This is the killer move sword feather bladewing, let me see if you can block it.”

When his words ended, the immortals saw countless sword feathers in the sky that pierced the heavenly wind qi wall and floated down, shrouding the whole battlefield.

Shortly afterwards, countless sword feathers formed into bright bladewings which rapidly cut everything in their path. The Immortal Gu Houses appeared extremely fragile in front of these bladewings, only the rank eight Immortal Gu House Green Cloud Spark Warship was able to resist them.

Xia clan's Immortal Gu House, Whale Fishing Boat, had its final layer of defense penetrated, over ten bladewings flew in and started a rampage.

"Ahh!" Xia Rui Zhi let out a mournful howl, he was actually killed inside the Immortal Gu House!

The immortals were horrified.

"Look at another move of mine, heartache crying blood." After a while, Fang Yuan's voice appeared again.

The Eastern Sea Gu Immortals immediately felt extreme heartache, and large amounts of blood flowed out of their mouth, eyes, and nose.

This was a compound killer move formed from blood path and wisdom path!

"There is also thunder note stream." After another while, Fang Yuan's voice resounded throughout the battlefield.

Countless formless qi currents slashed the sky.

Qi currents weaved into a net that covered all the Gu Immortals and Immortal Gu Houses, engraving lightning and qi path dao marks on their bodies.

"Too horrifying! This is a compound killer move of refinement path, lightning path, and qi path."

"As long as we are trapped inside, we will constantly receive injuries."

“Retreat, retreat!”

Both sides could not continue to fight, they started retreating madly without daring to stay even a second longer in the battlefield.

“Fang Yuan, you have actually progressed so much in just over ten days!” Qi Sea Ancestor’s voice finally spread, his voice vaguely contained shocked emotions.

The Eastern Sea Gu Immortals’ heart turned cold when they sensed his tone.

“Qi Sea, you are still injured, how can you be my match? Today will be the day your life ends.” Fang Yuan said, his voice was sonorous and resounded through the heavens, further horrifying the Gu Immortals.

Boom boom boom!

Loud explosions resounded like countless firecrackers were set off near the ears.

Both sides’ immortals looked up at the sky and saw qi waves fiercely moving around. The sky changed colors as if signifying the end of the world.

The enclosed heavenly wind qi wall fluctuated intensely. Right now, the thick qi wall gave people a feeling of fragile paper that was being torn by countless beasts.

Large amounts of powder scattered down.

This was the powder from splitting the heavens.

Qi Sea Ancestor and Fang Yuan had shattered the sky!

Shortly after, the immortals heard Qi Sea Ancestor’s exhausted voice: “Fang Yuan, it is easy for you to defeat me but you are dreaming if you think you can kill me.”

Fang Yuan laughed loudly: “Qi Sea, where are you going?”

The terrifying explosions in the sky seemed to be showing signs of slowing down.

Both sides let out sighs of relief. The aftermath of these two pseudo venerables' fight were too terrifying. They shattered the heavenly wind qi wall, these immortals could not imagine what the consequences would be if they were in the range of this fight!

"What are you in a daze for, attack!" Wu Shuai suddenly shouted, waking up the stupefied immortals, "Qi Sea is defeated, we must trap these remaining people here, our victory is secured when Fang Yuan returns."

"Attack!!!" The variant human alliance was roused, their morale rose to the peak from these words.

The immortals charged towards the Immortal Gu Houses.

They were attacking Immortal Gu Houses with their physical bodies, this battle tactic was obviously not sensible. But all the Eastern Sea Gu Immortals inside the Immortal Gu Houses were ashen and their hearts were cold.

If they said they were not afraid, they would be lying!

Even the Immortal Gu Houses were unable to give them any sense of safety.

"Retreat! Retreat!" Shen Cong Sheng shouted.

The Eastern Sea immortals fled without any hesitation.

The variant human Gu Immortals were most proficient in fighting these kinds of advantageous battles. They chased without resting and with imposing momentum.

After chasing for one hundred li, Fang Yuan returned and attacked.

The Eastern Sea alliance army looked extremely fragile in front of him, most of the Immortal Gu Houses were directly shattered.

"Obediently surrender now, offer up your Immortal Gu and you can still live.” Fang Yuan called out, “All members of the variant human alliance, listen to my command, no one is to attack those who surrender!”

The variant human alliance won a huge victory in this battle! The Eastern Sea alliance army suffered many casualties and even more were taken captive by Fang Yuan. Many Eastern Sea Gu Immortals chose to believe in Fang Yuan, seeing that this was a certain loss, they surrendered and gave up resisting.

Although Fang Yuan was the number one demon in the world and was extremely vicious, he had once captured Southern Border immortals, and as long as the ransom was received he released them alive.

Chapter 2071 - Eating Fruits, Devouring Heavens

2071 Eating Fruits, Devouring Heavens

“No doubt, this is a very rewarding victory!”

“Eastern Sea’s righteous path is no big deal.”

“I wonder if Qi Sea Ancestor died in battle? If he is dead, the whole of Eastern Sea will be ours!”

The variant human alliance Gu Immortals were extremely excited.

Fang Yuan detained the captives while commanding the variant human Gu Immortals to clean up the battlefield.

“Lord Fang Yuan, I am willing to follow you and offer my Golden Fur grotto-heaven!” Golden Fur Immortal Monarch suddenly knelt before Fang Yuan and proclaimed loudly.

The immortals were silent for a while before cries of pledging allegiance came from everyone.

The entire variant human alliance submitted to him without exception!

Wu Shuai was inwardly happy upon seeing this, while Fang Yuan was still indifferent.

This scene was within the expectations of these two.

If Fang Yuan forced these alliance members earlier, he naturally could suppress them even then, but it would not be like now when these people were willingly following him.

This arrangement that Fang Yuan and his two clones planned gave them a lot of gains.

One was the huge external pressure brought by the Eastern Sea alliance army's attack. The members of the variant human alliance was forced to unite, they observed the dangerous external environment and the deep malice held towards the variant humans by the entire human Gu Immortal world!

The other was that Fang Yuan displayed his peak level battle strength, leading the variant human alliance to a massive victory. This gave a deep impression to the variant human alliance immortals that they could not oppose Fang Yuan, and also made them feel some sort of anticipation towards their future after submitting to Fang Yuan.

From the perspective of these variant human immortals:

One, all their grotto-heavens were facing the qi harvest fruit disaster. If they did not surrender to Fang Yuan, they would not be able to deal with it by themselves.

Two, the outcome of going against Fang Yuan was displayed in front of them, they could not do this if they wanted to live.

Three, although Fang Yuan was ruthless, he was strong. Following such an expert would give them a much brighter future than fighting alone.

Humanity had dominated the five regions for a long time, these variant human Gu Immortals of the two heavens swallowed their anger and bore with it, and were already habituated to their lowered statuses.

They lacked the spirit and state of mind that were possessed by the members of Heavenly Court and Longevity Heaven. This was already shown in many of the past battles. The variant human alliance's Gu

Immortals had low fighting spirit and prioritized their own safety.

All these reasons made it almost certain that everyone in the variant human alliance would surrender to Fang Yuan.

After cleaning up the battlefield, Fang Yuan was not in a hurry to count his gains, he sent a command: “We will invade Soul Pacifying grotto-heaven and Night Wolf grotto-heaven!”

The immortals were shaken, once again feeling Fang Yuan’s forcefulness and tyrannical character.

Even this large battle could not satisfy Fang Yuan’s appetite, he still wanted to continue fighting and take down Soul Pacifying grotto-heaven and Night Wolf grotto-heaven.

Soul Pacifying grotto-heaven was a soul path grotto-heaven secretly controlled by Spectral Soul when he was alive. Now that Spectral Soul was dead, Fang Yuan was going to exploit the weakness and wipe them out.

As for Night Wolf grotto-heaven, its previous owner, Night Heavenly Wolf Lord, had surrendered to Heavenly Court, which was known by Fang Yuan and used to his advantage. Wu Shuai had killed Night Heavenly Wolf Lord in Dragon Palace, but to conceal the information, they had immediately invaded Heavenly Court and could not care about Night Wolf grotto-heaven at that time.

Now that Fang Yuan was free, he was going to take revenge and annex them.

Thereupon, the variant human alliance charged towards immemorial black heaven majestically.

The army drew closer, but before the battle even started, Night Wolf grotto-heaven opened its entrance. With Ye Zhi leading them, the grotto-heaven Gu Immortals moved out of their home and bowed to Fang Yuan, asking him to accept their surrender.

Fang Yuan did not start a slaughter, he took in all of them, then led the army towards Soul Pacifying grotto-heaven.

However, Soul Pacifying grotto-heaven was a scene of desolation.

After Spectral Soul had possessed Lady Cold Ash's body, he had placed An Xun behind in Soul Pacifying grotto-heaven to take care of the logistics.

After the pursuit battle against Fang Yuan, only Fairy Zi Wei and Ying Wu Xie escaped among the Shadow Sect members. After Fairy Zi Wei escaped, she immediately contacted An Xun and ordered him to flee.

An Xun fled, but naturally not with empty hands. Besides emptying out almost all the storage, he even detonated the qi harvest fruit before leaving, causing Soul Pacifying grotto-heaven to suffer severe damage.

The remaining Gu Immortals of Soul Pacifying grotto-heaven had just patched up the holes and not even rested for a few days when they were faced with Fang Yuan's army.

Against Fang Yuan's army, Soul Pacifying grotto-heaven did not have any strength to fight back and was conquered almost instantly.

The remaining Gu Immortals of Soul Pacifying grotto-heaven were led by An Chong. These people's souls were not tampered by Spectral Soul and they had fought An Xun before he left, they were all injured to some degree.

Fang Yuan did not reject anyone and took them in as well.

Now, it was time to create a new agreement.

Fang Yuan learned from his previous lesson, he did not establish a connection with other subordinates and let his clone Wu Shuai take his place.

This way, even if a powerful enemy captured these subordinates in the future, they could only deduce Wu Shuai's position through the clue from the agreement. Fang Yuan's main body would be secure.

Now, Fang Yuan had completely taken over the variant human alliance!

But this was not enough.

The qi harvest fruits in many two heavens' grotto-heavens had already become extremely large and were at the point of self-detonating.

Fang Yuan first went to Grand Swine grotto-heaven.

Under all the immortals' gazes, Fang Yuan raised his hand and released white light. The white light lingered around the huge qi harvest fruit and turned into vast fog.

The fog blocked investigative methods. Fang Yuan was still not assured, he ordered the immortals: “Get back, don't use any Gu worms or you might disturb my method.”

The immortals obeyed.

White fog spread and shrouded Fang Yuan's main body, outsiders were unable to tell what was going on inside.

Fang Yuan opened his sovereign immortal aperture, from which the Qi Sea clone flew out.

The Qi Sea clone went up to the qi harvest fruit, his eyes glowed like he had seen the most exquisite delicacy.

The Qi Sea clone stabbed his hand deep into the qi harvest fruit and used his qi path method.

Immortal killer move — Qi Jue Revival!

Fang Yuan had learned Demon Immortal Qi Jue's qi harvest fruit revival method and modified it to create this method. He had used this move to create the Qi Sea clone previously.

Under the killer move Qi Jue revival, the qi harvest fruit started to shrink, turning into large amounts of qi path dao marks that were directly added to the Qi Sea clone's body.

“After devouring this fruit, I will gain about sixty thousand qi path dao marks.” Qi Sea Ancestor estimated with a joyous tone.

This amount was very impressive!

On average, an ordinary grand tribulation gave about seven thousand dao marks, while an ordinary myriad tribulation gave about eighty thousand.

If it were just grand tribulations, a qi path Gu Immortal needed to undergo eight or nine grand tribulations approximately to accumulate sixty thousand qi path dao marks. (The new dao marks from the grand tribulation included dao marks of the Gu Immortal's main path as well as some dao marks of other paths.)

From another perspective: As long as Qi Sea Ancestor absorbed this qi harvest fruit, it was like passing half a qi path myriad tribulation without any risk!

So, Qi Sea Ancestor could make enormous gains by absorbing the qi harvest fruits.

Fang Yuan inwardly estimated: "The Qi Sea clone was made from Heavenly Court's qi harvest fruit, he possessed over eight hundred thousand qi path dao marks the moment he was born. After absorbing three qi harvest fruits like this one, the amount will cross one million. My own qi path dao marks is also at this level. When the Qi Sea clone absorbs all the qi harvest fruits in the two heavens' grotto-heavens, his qi path dao marks will surpass mine and accumulate to an unprecedented level!"

Fang Yuan's one million qi path dao marks were obtained from annexing Qi Sea grotto-heaven. The Qi Sea clone was starting anew and accumulating by himself. But by relying on the killer move Qi Jue revival and the qi harvest fruits, his accumulation speed became truly terrifying.

Clearly, for a long time from now on, the Qi Sea clone would become Fang Yuan's number one clone. Based on just battle strength, he would not be lower than the main body, and might even be stronger!

There were many factors that influenced a Gu Immortal's battle strength, for instance the Gu Immortal's individual battle attainment, the battle environment, the level of the Gu Immortal's Gu worms, killer moves, Gu formations, Immortal Gu Houses, and whether the Gu Immortal had an excellent combat system or not.

But the top of these factors would always be the Gu Immortal's cultivation level!

One thousand dao marks could grant a hundred percent amplification.

Besides freaks and monsters like Fang Yuan, Feng Jiu Ge, and the past venerables, on average: rank six Gu Immortals had zero to nine thousand dao marks. Rank seven Gu Immortals had ten thousand to thirty thousand. Rank eights had one hundred thousand to three hundred thousand.

So, the gap between the battle strength of rank seven and rank eight far surpassed the gap between rank six and rank seven. The gap between the latter stages of Gu cultivation would become increasingly bigger. Until they reached rank nine Gu venerable level where an individual could become invincible in the world, dominating everyone and everything.

Why was Northern Plains' Old Ancestor Xue Hu was the number one rank eight in Northern Plains' Gu Immortal world?

He was from the demonic path and lacked suitable Immortal Gu. The main reason was his ice and snow path dao marks far surpassed ordinary numbers.

“According to your estimation, how many dao marks does Demon Immortal Qi Jue have?” Inside the endless white fog, Fang Yuan asked the Qi Sea clone.

Qi Sea clone absorbed the qi harvest fruit while replying: “Maybe over five hundred thousand.”

Fang Yuan nodded in agreement.

From the various traces in battles, Demon Immortal Qi Jue's dao marks were slightly lower than Duke Long's. It was very likely because of Fang Yuan and the Southern Alliance disturbing the revival process and causing Demon Immortal Qi Jue to hasten it.

But Demon Immortal Qi Jue had Xi Land.

Xi Land was a secluded domain of heaven and earth!

A complete secluded domain of heaven and earth was a rank nine level immortal material.

So, as long as the qi path killer moves used Xi Land as the core, they would gain terrifying strength, even Spectral Soul could not face them easily.

This was similar to how Fang Yuan had once used reverse flow protection seal to leave a group of enemies without options.

Demon Immortal Qi Jue's killer moves were outdated and he lacked Immortal Gu, the two pillars that allowed him to have pseudo venerable battle strength were dao marks and Xi Land. After Xi Land was damaged, his battle strength fell sharply and he was finally imprisoned by Divine Emperor City.

The Qi Sea clone fully absorbed the qi harvest fruit and returned to the sovereign immortal aperture.

Fang Yuan withdrew the endless fog, the alliance members rejoiced when they saw the qi harvest fruit was completely gone.

"We are saved, our homes are saved!"

"As expected of Lord Fang Yuan, he is truly unfathomable and all-powerful!"

"Lord Fang Yuan, my home is in imminent danger, please save it first."

All kinds of flatteries were thrown at Fang Yuan.

Although not even a few of these Gu Immortals were good at fighting, their boot-licking skills were deep and improving day by day.

Fang Yuan then smoothly annexed this Grand Swine grotto-heaven and merged it into Sovereign grotto-heaven.

Grand Swine grotto-heaven was a rank eight transformation path grotto-heaven, it produced boar type desolate beasts, ancient desolate beasts, and even immemorial desolate beasts.

Fang Yuan's transformation path attainment level was at great grandmaster, he naturally could annex it.

Why did he not annex it before?

It was naturally because this Grand Swine grotto-heaven had fused with a nine heavens fragment and had taken in heaven path dao marks, which invaded the heavenly spirit and caused it to become powerless and dull.

Fang Yuan could now refine heaven path dao marks, expanding the 'food option' of sovereign immortal fetus Gu. From now, all grotto-heavens could be annexed by Fang Yuan, even if they had fused with a nine heavens fragment. (As long as the corresponding attainment level was sufficient.)

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2072 - Easily Creating Killer Moves

2072 Easily Creating Killer Moves

Fang Yuan began to create compound killer moves once again.

His divine sense was inside the sovereign immortal aperture, observing all sorts of mortal Gu.

He casually took out two wind path Gu worms from them.

Rank one clear wind wheel Gu and rank two jade wind wheel Gu.

When the former was activated, it would create a light green cyclone below each of the Gu Master's feet and increase their movement speed.

The latter was one of the possible advancements of clear wind wheel Gu. It could form a pair of jade green cyclones which circulated around the Gu Master's arms like armbands, and could increase the Gu Master's punching speed.

"I currently lack movement abilities in a large fight, why not use this as a base to create one?" Fang Yuan had an inspiration and fell into contemplation.

Ever since he fought the Qi Sea clone in immemorial two heavens, he had been thinking of this aspect.

Although it was a show to trick Eastern Sea's righteous path and the variant human alliance, Fang Yuan had truly fought with the Qi Sea clone.

If it were not real, how could there have been such terrifying phenomena? That fight had even cracked the sky and caused the powder of the heavens to scatter down!

In this friendly spar, Fang Yuan had used all kinds of killer moves, most of them put up an excellent performance. Even the worst ones were at ordinary level, at least their performance was up to par, there was neither surprise nor disappointment.

This spar made Fang Yuan understand his deficiency. Although he had already created many compound killer moves, they were mostly offensive or defensive methods, he lacked movement killer moves.

The two wind path Gu worms gave Fang Yuan an inspiration.

In his conceptualization, when he activated the wind path Gu worm, two cyclones would condense below his two feet and they would continuously rotate like two wheels. As long as some time passes, the wheels would rotate increasingly faster and thus increase Fang Yuan's speed continuously.

“Let me see how many wind path Immortal Gu I have.”

Fang Yuan had very few wind path Immortal Gu on him, but the large battle earlier provided him many wind path Immortal Gu.

The variant human alliance members also had some.

If it was still not enough, Fang Yuan could also extort the whole of Eastern Sea's righteous path and demand wind path Immortal Gu.

Fang Yuan had too many options!

Soon, Fang Yuan obtained several wind path Immortal Gu from his subordinates and they were all of rank seven level.

After pondering over it and trying out many wind path Immortal Gu as well as referencing wind path killer moves, the initial form of Fang Yuan's wind path killer move was created.

After the first activation, two cyclone wheels formed under both feet which could move the Gu Immortal's body.

Fang Yuan frowned slightly after testing the killer move, he felt its greatest flaw.

Although this killer move would become increasingly faster, its initial speed was too slow and it would need some time for it to show even a slight improvement.

How to improve it?

This was actually a common issue with wind path killer moves. Be they a gentle wind or fierce gale, they both needed some time to reach their strongest state.

But there were naturally many methods to push their strength to the maximum at the very start. If one's wind path attainment level was high enough, the killer moves could be modified to be extremely exquisite. They could also sacrifice a lot of time to prepare the killer move in advance and let it erupt at once. It was also possible to expend much more immortal essence to increase the strength.

However, Fang Yuan threw these methods to the back of his mind!

Because those were all ordinary solutions.

Fang Yuan targeted fire path instead.

Fire path's explosive strength was far beyond wind path. Based on just burst potential, fire path was at the top one or two among all paths.

After choosing several suitable fire path Immortal Gu, this compound killer move's modification was completed!

"Let's name it fire-wind wheel." Fang Yuan casually chose a name.

The killer move fire-wind wheel had burst speed and could also become increasingly faster, the crucial points were that it consumed little immortal essence and also did not need much mental control.

Fang Yuan tried it once again and was rather satisfied with it. Fire-wind wheel was a rank seven killer move, but was at an extraordinary level that trampled upon at least seventy percent of all existing killer moves!

However, it would be a different situation if this killer move were in the hands of other Gu Immortals.

Almost no Gu Immortal with a clear mind would use it. Based on just the internal friction between wind path and fire path, this killer move's practical results were lowered to rank six level.

Expending immortal essence for a rank seven killer move but getting rank six effect. This killer move would be lower than low grade in other Gu Immortals' evaluation.

This was the advantage of over three thousand heaven path dao marks.

It greatly reduced the internal friction between different dao marks, giving hope to many killer moves in Fang Yuan's hands.

Most importantly, the difficulty of deducing compound killer moves had fallen greatly for Fang Yuan!

If they were ordinary Gu Immortals who primarily cultivated wind path and were to conceptualize a killer move like fire-wind wheel, they definitely would not foolishly choose to use fire path Immortal Gu as another core. At most, they would use some other paths' low rank Immortal Gu as supplementary, and the quantity would be few as well.

The most common result would be to use countless fire path mortal Gu to reduce the internal friction as much as possible. But with this, the killer move would include too many Gu worms; the difficulty of its activation would soar, the concentration required would increase, and the overall value of the killer move would also fall.

For a killer move to be practical, there could not be too many Gu worms, the immortal essence burden could not be too heavy, the effect had to be good, and there could not be an obvious flaw.

So, creating a killer move was an extremely difficult project!

But for Fang Yuan, he could conceptualize compound killer moves with not only dual cores, but three cores, four cores, and more. Wind path did not have burst potential, so he casually chose fire path.

Single path killer moves had limited space for modification.

Compound killer moves were even more so, because they had to consider internal friction, which caused the number of compound killer moves in history to be far fewer than single path killer moves.

Single path killer moves had always been orthodox, they were the most mainstream!

But Fang Yuan's current situation was completely different.

Because of the great reduction in internal friction, he had much more room than ordinary Gu Immortals when creating and modifying killer moves. In his situation, the more paths there were in this world, the lower the difficulty of conceptualizing killer moves!

Because of this, Fang Yuan could rapidly create a large amount of compound killer moves in a short period of time.

He had countless Gu recipes and killer moves, so even if his wind path and fire path attainment levels were not high, he could find references and easily conceive a killer move like fire-wind wheel!

When he sparred with the Qi Sea clone before, Fang Yuan used killer moves like sword feather bladewing, heartache crying blood, thunder note stream, and refinement butterfly. They were only a small portion of the outstanding ones in his collection.

Three thousand heaven path dao marks might be few but they truly opened up a brand new world for Fang Yuan!

Since ancient times, countless heroes and experts had only lightly dabbled in this new world. They could only explore a few steps before they were forced to halt helplessly.

But with the help of heaven path dao marks, Fang Yuan made over ten steps, or even one hundred steps, easily obtaining an unprecedented achievement.

“Heaven path is all-encompassing and emphasizes balance of all beings, it is truly wondrous beyond words!” Over the next few days, Fang Yuan secretly created and modified compound killer moves, while leading Qi Sea Ancestor and Wu Shuai to clean up every grotto-heaven.

Most of the qi harvest fruits of the variant human alliance members were devoured by Qi Sea Ancestor, while some were left behind to grow in the grotto-heavens.

Fang Yuan annexed three rank eight grotto-heavens: transformation path Grand Swine grotto-heaven, time path Time Difference grotto-heaven, and rule path Novelty grotto-heaven.

The three grotto-heavens were rich in resources and had deep foundations. They were located on the nodes of heaven veins and had been taken care of by heaven’s will for many years.

Fang Yuan made ample arrangements. He split up these three grotto-heavens and placed them all over the sovereign immortal aperture.

For instance, Grand Swine grotto-heaven’s two super resource points were rolling fall cliff and pin tree snowfield.

Rolling fall cliff was home to a large number of desolate beast jumping pigs. These desolate beasts did not know how to walk and could only jump. When they grew to a certain size and their bodies were fattened enough, they would move to the tallest cliff and jump down.

A majestic waterfall flowed down the cliff. The water of the waterfall was boiling, containing endless fire path and water path dao marks, creating hot steam all year round.

When jumping pigs jump into the boiling waterfall, ten percent of them would die from the corrosion of fire and water path dao marks, while the remaining ninety percent would receive severe burns as well as bone fractures from the fall, barely surviving.

But as long as these jumping pigs survive, they would breakthrough to become deadly fat pigs!

Deadly fat pigs were not desolate beasts, their life essence had broken through to another level, becoming ancient desolate beasts.

Rolling fall cliff had an impressive number of deadly fat pigs and jumping pigs. The scale of the deadly fat pigs produced every year was number one in five regions and two heavens!

And pin tree snowfield was home to grand swines. The grand swine was an immemorial black pig, even its bones were black. Its body was as large as a mountain and its movement was slow.

Pin tree snowfield was extremely vast. Fang Yuan put it in Mini Northern Plains, increasing the area of Mini Northern Plains by twenty percent.

There were over five hundred grand swines of all sizes and ages.

Fang Yuan had all of a sudden become the largest pig farm owner in the world!

As for Time Difference grotto-heaven and Novelty grotto-heaven, they each had one super resource point.

Fang Yuan's sovereign immortal aperture had suffered severe losses due to the myriad tribulation. But annexing these three grotto-heavens immediately showed an improvement, the development of the grotto-heaven even increasing to twenty-five percent!

This development was slightly higher than before the myriad tribulation.

Previously, the sovereign immortal aperture only had one super resource point, it was Dang Hun Mountain which produced guts Gu. Next was the dragonfish resource point, which Fang Yuan had invested a lot into and grown to a giant resource point.

On one hand, Fang Yuan's management of the sovereign immortal aperture involved seizing grotto-heavens like Hei Fan grotto-heaven and Qi Sea grotto-heaven, but how could these two grotto-heavens have the security of the variant human alliance's grotto-heavens! Heaven's will was even taking care of the latter.

On the other hand, Fang Yuan's management also included creating eerie fire dragon python, sand gull soil, and Five Light Mountain. They were all at the initial phase and the investment in them was also little, their growth could not compare to the resources in the variant humans' grotto-heavens.

Finally, Fang Yuan also focused on raising humans and variant humans but did not put his energy in investing resources on them.

After annexing, the follow-up arrangements were extremely diverse and numerous, Fang Yuan handed these to the humans and variant humans in the immortal aperture to deal with.

He started on refining the heaven path dao marks contained in these grotto-heavens!

As for Qi Sea Ancestor, he returned to Qi Sea.

Xia clan's surviving Gu Immortals were all in qi sea and cried tears of joy when they saw Qi Sea Ancestor.

Qi Sea Ancestor was still alive, this was the greatest news!

Eastern Sea's large and super forces had sent representatives to station in qi sea. The moment they received this news, they also let out sighs of relief.

Without Qi Sea Ancestor, they simply had no way to deal with Fang Yuan.

"This defeat is my fault." Qi Sea Ancestor took the responsibility, "Cough cough cough."

"Don't say that, Ancestor! It was my Xia clan who conceived the plan to attack the variant human alliance."

"Sigh, I am too ashamed to face those comrades who died in combat…" Qi Sea Ancestor looked up and sighed, his eyes were slightly red.

“Qi Sea Ancestor, please heal your injuries for now. Tell us whatever resources you need, the whole of Eastern Sea will support you with all our strength!” Eastern Sea’s Shen clan Gu Immortal spoke, other super forces’ representatives also nodded with no objection.

Under everyone’s gaze, Qi Sea Ancestor coughed a mouthful of blood and sighed: “The important thing now is not my injury. Many of those in the two heavens who sided with me still have the qi harvest fruit problem in their grotto heavens. I need to get rid of these qi harvest fruits first!”

The immortals were immediately moved, the eyes of many Gu Immortals of the two heavens turned wet with tears.

“Qi Sea Ancestor, you are truly worthy of being the role model of Eastern Sea’s righteous path!”

“Lord Ancestor, we, the two heaven’s Gu Immortals, will follow your lead without question!!”

Chapter 2073 - Enthusiastic Cultivation

2073 Enthusiastic Cultivation

Sovereign immortal aperture, Mini Central Continent.

A new time path immortal formation's activation had reached a crucial point.

"Go." Fang Yuan willed, a large lump of cactus honey shot into the formation.

This was a rank eight time path immortal material.

At the next moment, profound light erupted and turned into countless light specks, which then spread rapidly like silver-white fireworks.

The light specks dissipated rapidly without any indication, as if the formation that Fang Yuan had constructed with great effort had completely failed.

However, when Fang Yuan used his investigative killer move, he saw the phantom image of a pool in midair. This pool was similar to a year essence pool but it was not big, only about ten percent of the size of a year essence pool.

Fang Yuan observed for a while before nodding in satisfaction, this formation arrangement was a success.

With a thought, he opened the rank eight year essence pool in the mini nine heavens. A tributary of the River of Time flowed down and gathered into the newly constructed sub-pool.

When the water of the River of Time in the sub-pool had accumulated to a certain level, it started to operate on its own. The river water passed through the bottom and poured onto the ground below.

At the bottom of the year essence sub-pool was an area of white fog. The fog covered a marsh which had a large number of desolate plants — extreme marsh flowers.

Some of these flowers were in the shape of an erect bud that was the size of a house. Some were blossomed and looked like a trumpet with their petals connected, and strands of white mist constantly spread towards the outside from the pistil of the flowers.

This was the flower mist extreme marsh that Fang Yuan had constructed meticulously.

Rank eight Immortal Gu Regret's food was the fresh extreme marsh flower mist.

Under the irrigation of the tributary of the River of Time, the whole flower mist extreme marsh's time was sped up. The water of the River of Time continued to spread over the surroundings, but walls of blue translucent light appeared around the flower mist extreme marsh.

As such, the time acceleration was only limited to the range within the walls.

"Success, it can even be said to be perfect." Fang Yuan inspected several times and was greatly satisfied when he found no issues.

Fang Yuan had obtained the method of the light blue translucent walls from Time Difference grotto-heaven.

Time Difference grotto-heaven's large resource points were all like this, encapsulated by walls of light, the rate of time inside was many times faster than other areas. Thus, Time Difference grotto-heaven had an outstanding production of time path resources.

Fang Yuan added the year essence pool on top of the original foundation, every sub-pool was in charge of regulating the time of a time path zone. The rank eight year essence pool was the main dam and these year essence sub-pools were secondary dams. The tributary of the River of Time drawn from the River of Time was first gathered into year essence pool and its largest distributary was spread over the whole immortal aperture, while many sub-distributaries gathered into secondary dams and sped up the production of the resources.

Like this, Fang Yuan's resource production was accelerated by over ten times!

Naturally, this method was not just used to speed up the resource production, it could also be used on Gu worms.

When the Gu worms were placed in a slowed time path zone, their food requirement would fall sharply.

This method showed minimal effect in other Gu Immortals' hands, the reason was simple — dao mark conflict. The time path zones were a time path method in essence, if they were used on Gu worms of other paths, the higher their rank, the lower the effect they would have on them.

Fang Yuan possessed heaven path dao marks which could reduce internal friction. After he attempted this method, he found the effects were quite wonderful.

On one hand, it could reduce the food requirement of the Gu worms; on the other hand, it could increase resource production. The issue of food for Gu worms was resolved before it even became a problem.

Qi Sea Ancestor left, but Fang Yuan was not idle during these few days.

The blessed lands left behind by the dead Eastern Sea Gu Immortals were almost all annexed by him.

And regarding the two heavens' grotto-heavens, Fang Yuan intended to leave them alone for the moment.

First, the sovereign immortal aperture needed food and had to annex a grotto-heaven once in a while, it could also reset the countdown of calamities and tribulations, which allowed Fang Yuan to make arrangements flexibly.

Secondly, grotto-heavens were like flower pots that were growing the qi harvest fruits. Although there was not a big hope, if the qi harvest fruits could continue to grow, it would not only be a suppression towards the variant human alliance members, it could also nourish the Qi Sea clone.

As for the three grotto-heavens that Fang Yuan annexed before, they were necessary.

Fang Yuan urgently needed to replenish his immortal essence.

The efficiency of using immortal essence stones was too low in replenishing rank eight immortal essence, the main source was self-production.

But the immortal aperture's immortal essence production depended on the immortal aperture origin core. And whether the immortal aperture origin core was strengthened or not, it depended on the immortal aperture's development.

To increase the development, Fang Yuan had to annex those three grotto-heavens.

The fate war had consumed a large amount of Fang Yuan's immortal essence reserves. Afterwards, Fang Yuan did not have any time to rest, he ran around many places during the qi tides, searching for a way to deal with heaven path dao marks. After finding the method, Fang Yuan entered Heavenly Court, which immediately started the pursuit battle.

Over this period of time, Fang Yuan had fought too many battles and almost all the battles were against strong enemies who were at the peak of the Gu Immortal world.

By now, Fang Yuan's immortal essence reserves had already fallen below the warning line, he needed to rest and recuperate and could not fight anymore within a short period of time!

“Fortunately, I seized the year essence pool and have plenty of time path methods that are able to speed up my immortal aperture's time flow to the limits. Otherwise, my immortal essence would have already been exhausted."

"Such a pity that I don't have rank eight Heavenly Essence Treasure Imperial Lotus, otherwise I would not have to be worried about this."

Heavenly Essence Treasure Imperial Lotus could produce rank eight immortal essence, its owner, Genesis Lotus Immortal Venerable, had been the venerable with the largest immortal essence reserves! Since Genesis Lotus Immortal Venerable began his cultivation, he seemed to have never had to worry about primeval essence or immortal essence. On the contrary, his enemies would often fall into the awkward situation of using up all their primeval essence and immortal essence when fighting Genesis Lotus.

Fang Yuan lacked immortal essence currently and it was delaying his recovery.

To explore dream realms, he needed immortal essence.

To cultivate soul path, he needed immortal essence.

He had lost many of his Immortal Gu and they needed to be refined. He had many low ranked Immortal Gu which needed to be upgraded. The injured Immortal Gu needed to be repaired using refinement path methods, which also required immortal essence.

Because of the lacking immortal essence, he had to reserve the final bit of it for any unexpected situations, so Fang Yuan could only put these tasks aside for the moment.

Only because the difficulty of creating compound killer moves was very small, he was able to barely manage it. Testing new killer moves no doubt required immortal essence, but it was within an acceptable range.

Besides accumulating immortal essence and deducing compound killer moves, Fang Yuan was relocating resource points as well as sorting out the immortal materials.

The resource points of the two heavens' grotto-heavens that could be moved were all relocated by Fang Yuan. After all, these grotto-heavens were in the immemorial two heavens, they had to defend a vast area and would not be able to defend against enemy attacks in time.

The countless immortal materials were sorted out and stored in several storages within the sovereign immortal aperture. Fang Yuan imitated Heavenly Court and constructed several large disclosed storages as well as several highly valuable hidden storages.

The variant human Gu Immortals enjoyed the favor of heaven's will and were truly rich.

Among the resources, wood path immortal materials were most abundant. Because Xiao He Jian and Green Forest Great Sage were minimen, besides them, there were also two wood path grotto-heavens.

There were naturally many immortal materials of other paths as well, but what gave Fang Yuan a pleasant surprise was he was able to get luck path immortal materials, and at an astonishing scale at that!

For example, luck path ancient desolate beast rolling cat, after collecting all of them, Fang Yuan discovered he had gathered dozens.

This small cat was extremely exquisite and could roll around on an adult's stretched palm.

The rolling cat looked extremely endearing with its snow white fur, tender claws, and large shiny black eyes. Its purring sound was also extremely delicate, meow meow meow…. the listener's heart would go wild.

There was also lucky jade, this was a rank eight luck path immortal material. It let out dazzling light from time to time and contained a dense number of luck path dao marks.

Tooth gap water was another luck path material. It looked no different from ordinary spring water, but if one drank it, it would get stuck in the gaps between teeth; it was not only extremely unpleasant, it even reduced the Gu Immortal's luck sharply.

"The variant human alliance does not have anyone cultivating luck path. But these people were able to develop a utopia away from the rule of humanity, they secluded themselves from the world and propagated, their luck naturally would be high. Let alone when they have the favor of heaven's will!" Fang Yuan carefully pondered, it made sense to gain these luck path immortal materials.

These luck path immortal materials were highly valuable to Fang Yuan and they came at the right time.

Because he needed to advance many luck path Immortal Gu but had only raised the rank of Cooking Luck Pot. Cooking Luck Pot's rank was somewhat too low for the current Fang Yuan.

Fang Yuan estimated he would earn a large amount of immortal materials and even Immortal Gu in the future.

Because those Eastern Sea Gu Immortal captives were still locked in the sovereign immortal aperture!

Fang Yuan's extortion letters were already sent to every large force of Eastern Sea.

After the heads of Eastern Sea's righteous path received the extortion letters, they sent them to Qi Sea Ancestor, hoping to listen to his opinion and ask him to decide.

Qi Sea Ancestor had just finished running around all the two heavens' grotto-heavens that had allied with him and absorbed all of the qi harvest fruits.

Currently, his qi path dao marks had broken through two million!

In less than half a month, the Qi Sea clone's strength rose explosively at a shocking rate.

The Qi Sea clone did not publicize and hid it for the moment, he would hide it however long he could.

"If those remaining qi harvest fruits could grow up again, it would be better." Qi Sea Ancestor secretly hoped, but he knew there was not much chance of this happening.

The qi harvest fruits were produced because of qi tides. Almost all the grotto-heavens were sitting on heaven veins, so they had major issues with this.

In the pursuit battle against Fang Yuan, the five regions' qi tides showed no movements, which signified the merging of the five regions' qi was near completion.

Qi Sea Ancestor was also pondering about his own cultivation.

He did not lack dao marks nor immortal essence, but killer moves.

Qi Sea Ancestor only had few presentable killer moves. Although he obtained Primordial Origin's true inheritance, Heavenly Court was too familiar with the killer moves in it and they needed to be modified.

Qi Sea Ancestor's ambition naturally was not limited to just this.

He wanted to create his own combat system!

His killer moves alone could bully some rank eight experts or the weaker pseudo venerables. But when facing people like Spectral Soul and Duke Long, he needed an excellent combat system.

The main factor that influenced a Gu Immortal's strength was cultivation level. But killer moves, Immortal Gu, immortal essence, favorable conditions, and so on also were influencing factors. For instance, special killer moves like reverse flow protection seal could allow the Gu Immortal to bypass ranks in battle. A combat system was also one of the factors.

To most Gu Immortals, a combat system was not necessary. Because the mentioned factors were enough to create a difference in battle strength and decide victory or defeat.

But to Fang Yuan and Qi Sea, a combat system was a must.

Because when cultivation level, killer moves, Immortal Gu and other common factors could not decide victory or defeat, it would depend on who had a mature and more outstanding combat system.

Fang Yuan's extortion letters made a round before finally arriving at Qi Sea Ancestor's desk.

Qi Sea Ancestor did not even take a glance at them, because he was aware of the content.

"My injuries are not light, I need to recuperate in closed cultivation." Qi Sea Ancestor's one sentence made Eastern Sea's righteous path lose the will to resist Fang Yuan. Even Qi Sea Ancestor did not stand up, who else could resist Fang Yuan?

Pay the immortal materials obediently to get back their clans' Gu Immortals?

Qi Sea Ancestor spoke once again: "I have already contacted Heavenly Court, maybe they will send their troops to reinforce us."

The Eastern Sea righteous path Gu Immortals felt complicated emotions and could not say anything.

After all, Qi Sea Ancestor was 'heavily injured' and he even contacted Heavenly Court for them, he did not act indifferent towards them.

As a lone cultivator who sided with the righteous path, Qi Sea Ancestor had already done what he could!

As for those Xia clan Gu Immortals, they rested and recuperated inside the Qi Sea formation. Their first supreme elder was already killed by Fang Yuan, the remaining few Gu Immortals became much more obedient.

They had been anything but obedient before, especially when the variant human Gu Immortals escaped from Central Continent. These Xia clan Gu Immortals had been extremely happy and thought the chance to regain their home had come.

The result…

The result was, the Qi Sea clone went along with and made use of their plan, their last Immortal Gu House was dismantled, their first supreme elder was killed.

Chapter 2074 - Contribution Board

2074 Contribution Board

Eastern Sea, Hot Springs blessed land.

Ever since Fang Yuan subdued the variant human alliance, he had been in closed cultivation within Xia clan's headquarters.

And the dragonman clone Wu Shuai was representing him in handling the alliance's daily affairs.

“I have taken note of your contributions, you may leave now.” Wu Shuai's voice rang in the hall.

“This subordinate takes his leave.”

At the next moment, the palace door opened and two miniman Gu Immortals flew out; they were Xiao He Jian and Green Forest Great Sage.

After leaving the palace, the respectful expressions on their faces disappeared and were replaced by grief and helplessness.

The reason the two immortals were summoned was because Fang Yuan had taken a fancy to their wood path Immortal Gu.

Under Wu Shuai's persuasion, the two immortals could only offer their wood path Immortal Gu.

Green Forest Great Sage transmitted his voice that was filled with anger: “Lord Xiao, what do we do now? My forest Gu is the core for many of my killer moves, I have lost almost all my battle strength without it.”

Xiao He Jian’s expression was unsightly as well: “Hmph, you only lost rank seven forest Gu, I had to offer rank eight Gu myself.”

The two naturally were not willing to contribute, but the situation was beyond their control, what could they do about it?

In fact, this situation had been happening often recently. Alliance members were all furious but did not dare to revolt.

“The list has been published!” Suddenly, an excited voice reached the two miniman Gu Immortals’ ears.

The two immortals changed direction and arrived in front of an information path mortal Gu House.

There was a list pasted on this mortal Gu House, and there were two large words written at the top: Contribution Board!

Looking below that, Xiao He Jian was listed at the top, his contribution points as high as four digits. As for Green Forest Great Sage, although he was not among the top three, he was top ten as well.

Green Forest Great Sage became slightly happier: “Lord Xiao, look, you are in first place! Alliance Leader did not deceive us, he really remembered our contribution to the alliance.”

He was depressed earlier, but now his mood had gotten much better.

Xiao He Jian snorted while commenting in his head: “This is just an exploitation method of the higher ups! I did not expect this demon Fang Yuan to have such political skills as well.”

“Sigh, I don’t have such indomitable strength like his and my headquarters still have the qi harvest fruit. In the current situation, what else can I do other than follow Fang Yuan?”

Xiao He Jian had outstanding strength and was not any weaker than a Heavenly Court expert. Unfortunately, even with his strength, he could only lower his head in front of Fang Yuan.

He was not willing to do so, but what could he do?

Circumstances often gave people no choice!

“Contribution board?” Soon, Ice Crystal Immortal Monarch and the rest also learned of this significant news.

“Over this period of time, alliance members were frequently summoned and pressured to offer Immortal Gu. Even Xiao He Jian was not exempted, what should I do?” Ice Crystal Immortal Monarch was worried.

“My name has not appeared on the contribution board, this is not a good thing as a vice alliance leader.” Ice Crystal Immortal Monarch was feeling somewhat anxious.

But he was reluctant to part with his ice and snow path Immortal Gu.

“If so, I need to gather a batch of immortal materials and offer them. I have to be among the top on the contribution board!” Ice Crystal Immortal Monarch soon made up his mind.

Naturally, Fang Yuan could force all of his subordinates to hand over their Immortal Gu. But this action would be too unsightly. The tiny bit of unity gathered would dissipate. If this happened, Fang Yuan’s previous efforts would have somewhat been in vain.

Although Fang Yuan was a demonic overlord, he was also deeply aware of the righteous path’s tricks.

Putting up a contribution board could ease many conflicts and could also stimulate the enthusiasm of others.

Naturally, it was still the same in essence, the strong were exploiting the weak!

On the very day Fang Yuan put up the contribution board, a major event happened on Qi Sea’s end as well.

The Gu Immortals of Eastern Sea’s righteous path had gathered in the hall and appointed Qi Sea Ancestor as the alliance leader of Eastern Sea's Righteous Qi Alliance!

Fang Yuan led the variant human alliance which became a huge threat to Eastern Sea's super forces. Especially the miserable defeat not long ago, it had increased the wariness and worry of Eastern Sea's large forces regarding Fang Yuan's force.

Facing the bullying of the strong, the weak naturally had to work together.

Forced by Fang Yuan, every super force's intention to unite had never been so strong!

As for the alliance leader's position, there was no space for competition. All the clans jointly appointed Qi Sea Ancestor. Only Qi Sea Ancestor, who had pseudo venerable battle strength, could openly face Fang Yuan.

The Qi Sea clone did not pretend to be modest, this situation was within his expectations.

"Since I am the Righteous Qi Alliance's alliance leader, I will give commands for the overall situation, I hope everyone will not merely pretend to obey the orders." Qi Sea Ancestor said solemnly.

"We don't dare to." Eastern Sea's righteous path immortals responded.

"There are three major tasks presently." Qi Sea Ancestor went into details, "First is the creation of an alliance storage, every clan has to offer a certain amount of resources, including not only immortal materials, but Immortal Gu recipes, immortal killer moves, and so on."

"The second task is to immediately create a contribution board and mission board. It will be fair and impartial, anyone who contributes to the alliance from now on will have their merits known to everyone. The Righteous Qi Alliance's affairs should be handled by people who are qualified to take on the tasks."

"The third task is that alliance members should help and protect each other. If there is a traitor, other members must ally to get rid of the traitor, there must be no conniving.”

“Reasonable, very reasonable.” The immortals agreed.

They all knew that they could only create the foundation of the alliance by doing this. Otherwise, the Righteous Qi Alliance would only exist in name and would be better off not established.

Qi Sea Ancestor held the first group discussion.

The first topic was regarding the exchange of true inheritances and the communication of geniuses across various clans. Some clans had many refinement path Gu Immortals, while some were strong in wisdom path. Such collaboration could truly strengthen the whole Righteous Qi Alliance’s strength.

The second topic was a discussion on how to negotiate with Fang Yuan and get back the captured Gu Immortals.

All the clans hoped Fang Yuan could return the intact Gu Immortals with their immortal apertures. For this, they were willing to make a concession in terms of ransom.

The third topic was to contact Heavenly Court openly with the Righteous Qi Alliance’s name, hoping to ally with Heavenly Court and establish an even stronger alliance army to exterminate Fang Yuan and the variant human alliance.

After receiving this information, Wu Yong pondered quietly in the study room for an entire afternoon.

Recently, Wu Yong got rid of the Fierce Gorge Seven Ghosts, increasing his reputation even more. However, soon afterwards, news of the fight between Fang Yuan and Qi Sea as well as the defeat of Eastern Sea’s righteous path was spread all over the world.

The following developments made Wu Yong feel like they were too much to take in.

Eastern Sea had split into two large alliances which entered the stage of confrontation!

"Lord." Wu Ba Chong sought an audience.

Looking at Wu Yong's solemn expression, Wu Ba Chong knew of the situation and his tone became much more gentle.

The changes in Eastern Sea's situation were a heavy strike to Wu Yong's ambition.

Wu Yong had intended to invade Eastern Sea after uniting Southern Border. But now, Eastern Sea underwent a complete change, let alone the matter of two large alliances, Fang Yuan was openly occupying an area of Eastern Sea.

Wu Yong's great plan that was just about to start was showing signs of failure already.

"Lord, do we still attack Mushroomman Paradise?" Wu Ba Chong asked.

Wu Yong's gaze flashed, he was too familiar with Wu Ba Chong and asked directly: "What happened this time?"

Wu Ba Chong handed an information path mortal Gu.

Wu Yong received and browsed it.

He crushed the information path mortal Gu and slammed his fist on the desk. Bang, the brushes and papers were scattered everywhere.

"These cowards, scoundrels!" Wu Yong clenched his teeth, his gaze carrying a trace of malevolent light.

The information stated that a large number of Southern Border clans had secretly contacted Lu Wei Yin.

Their reason for doing this was clear.

Fang Yuan displayed the might of the number one demon in the world, which struck fear in these super forces!

They might not want to be directly affiliated with Fang Yuan, but not long ago, Lu Wei Yin had collaborated with Fang Yuan and ambushed

Spectral Soul. So these super forces secretly contacted Lu Wei Yin to ally with him.

This was the way of survival for these super forces.

On the surface, they could not tolerate the existence of demon Fang Yuan, but secretly, there was communication between them. In case something happens in the future, there would be a trace of friendship and an opportunity to survive.

“Lord, demonic forces are rampant currently. Since lord has the great ambition of uniting the world, why not endure for some time and wait for a good opportunity?” Wu Ba Chong persuaded.

Wu Yong fell into silence.

He was aware of his plan and knew its pros and cons very well.

In the Gu world, strength ruled above all! In ancient times, Primordial Origin Immortal Venerable led humanity in overthrowing the rule of the variant humans. And at present, pseudo venerables like Fang Yuan and Qi Sea Ancestor were leading the whole world. The result of their confrontation would influence the politics of all five regions.

An alliance of weaklings to fight the strong?

History proved that this would always end up badly!

The conflict of dao marks made numbers lose their advantage.

Since ancient times, it was not that no predecessors thought of putting effort in this aspect. Ancient battle formations and Immortal Gu Houses emerged at opportune timings, but what of it?

Look at the fate war, the main characters were Duke Long, Fang Yuan, Feng Jiu Ge and others. They were all Gu Immortals!

Even Demon Judgment Board, Dragon Palace, Di Zang Sheng and others only served as support.

Naturally, Wu Yong’s plan was not making an alliance of weaklings to fight the strong.

He wanted to plunder enough resources through the alliance to increase his cultivation and battle strength to pseudo venerable and even venerable level!

Developing a force was only a method to grow stronger, it could gather resources and pressure enemies. In the end, everything depended on oneself.

Looking at the history of the five regions, super forces were no more than vassals of the strong. A super force's prosperity and decline was determined by the condition of their top experts.

After a long while, Wu Yong broke the silence and spoke: "Wu Ba Chong, your suggestion is reasonable. Alright, we will put off the attack on Mushroomman Paradise for the moment."

"We need to do several things now." Wu Yong said while tapping the desk with his finger.

"One, actively search and plunder all kinds of inheritances, strive to find venerable methods so that we can openly resist existences like Fang Yuan."

"Two, spread rumors boasting about Fang Yuan's strength, emphasize on the conflict between Fang Yuan and Heavenly Court, and try to make them fight each other."

"Three, secretly take part in internal affairs of other Southern Border clans. Assassination, instigation, temptation, no matter what methods are used, I want them to be more obedient!"

Chapter 2075 - Venerable Revival

2075 Venerable Revival

Central Continent.

Flowing Silver blessed land.

“Spare, please spare me!”

“Retreat, she is demonic immortal Zi Wei! She is not someone we can fight.”

“Such bad luck, we just invaded and demonic immortal Zi Wei arrives!”

The Central Continent Gu Immortals sighed as they escaped everywhere in a hurry.

“Did I let you leave?” Fairy Zi Wei sneered, purple radiance spreading from her whole body.

The radiance shone upon half the sky, most of the Central Continent Gu Immortals died miserably, and only one escaped alive.

Fairy Zi Wei was a rank eight Gu Immortal and a wisdom path great expert. Against these rank six and rank seven Gu Immortals, she displayed absolutely despair-inducing battle strength.

After easily killing the Gu Immortals, Fairy Zi Wei waved her finger, the Gu Immortals’ souls were pulled to Ying Wu Xie.

"Master's soul foundation will greatly increase once again after devouring them." Fairy Zi Wei said with a smile.

Ying Wu Xie, however did not feel joy and was low-spirited: "Sigh, even if my foundation is stronger, so what? The main body is dead, I am merely a lingering split soul that is barely living."

"Master, don't lose spirit." An Xun quickly persuaded, "I have brought almost all the soul path resources of Soul Pacifying grotto-heaven, they are food for your cultivation."

During this period of time, An Xun had already joined with Fairy Zi Wei and Ying Wu Xie.

After urging Ying Wu Xie, An Xun said to Fairy Zi Wei: "Lady Zi Wei, did you intentionally let that transformation path Gu Immortal leave? Why did you do that? Are you hoping for him to bring in even more Gu Immortals?"

An Xun's soul was tampered by Spectral Soul and had extreme loyalty towards Ying Wu Xie. He would object to anything that went against Ying Wu Xie's benefits.

Right now, he was staring fixedly at Fairy Zi Wei with a questioning look.

Fairy Zi Wei sneered and did not respond.

Ying Wu Xie quickly lightened the mood: "If I am not wrong, that transformation path Gu Immortal should be Steel Rush Warrior. He is Fang Yuan's subordinate, a Gu Immortal of Beast Calamity grotto-heaven. After the fate war, he has been drifting about in the outside world."

An Xun frowned and felt indignant: "It was Fang Yuan who killed our master's main body, he is our sworn enemy. There is even more reason not to let him leave!"

Ying Wu Xie sighed: "At present, Fang Yuan's demonic might is overwhelming, he has completely subdued the variant human alliance and is occupying a region of Eastern Sea. When he fought Eastern Sea's righteous path alliance, he displayed pseudo venerable battle strength and should have already broken free from the shackles of the heaven path dao marks. He is now calling his subordinates to return, do you think any super force will dare to block them? Even Central Continent's ten great ancient sects are turning a blind eye to it."

Fairy Zi Wei added: "Fang Yuan is crafty, despicable, sinister, and vicious. In his youth, he slaughtered his whole clan and relatives to increase his aptitude. He is cold and heartless, be it the fate war or the recent battle against Heavenly Court, he threw those subordinates away without any hesitation. Even if we killed this Steel Rush Warrior, can we inflict any loss to Fang Yuan?"

"Damn it!" An Xun clenched his fists as he realized: "This demon's dominance has been established, we cannot destabilize him indeed. Not only this, even killing his subordinates poses a huge threat should Fang Yuan decide to investigate it. Since this demon has already recovered his battle strength, why has he not gone to fight Heavenly Court?"

Fairy Zi Wei analyzed while looting Flowing Silver blessed land: "I have a suspicion, that is Fang Yuan's immortal essence reserves. It is very likely he lacks immortal essence currently. He may only have been putting up a front when fighting Qi Sea Ancestor, currently, he should be completely focused on recuperating."

"Are you sure?" An Xun's eyes shone: "Maybe we can make use of this!"

Fairy Zi Wei fell into silence once again.

Ying Wu Xie gave a bitter smile: "Do you know what our greatest gain in fighting with Fang Yuan is?"

"What?"

"It is that this person, Fang Yuan, can never be estimated with common sense. According to the previous battles' intensity and frequency, it is common sense for him to be lacking immortal essence now. But no one knows how many methods he has, how many venerables have provided resources for him, what miraculous methods he has brought back from his rebirth. Even my main body fell to his trap, it was not easy for us to escape, it is better if we don't try to provoke him." Ying Wu Xie explained.

Fairy Zi Wei frowned, Ying Wu Xie's words did not upset her, instead she felt somewhat worried about Ying Wu Xie's morale.

Fang Yuan showed astonishing performances so frequently that Ying Wu Xie was now filled with fear. This was not the disposition of the grand Spectral Soul!

Ying Wu Xie was not just a split soul of Spectral Soul, he was the master whom Fairy Zi Wei and An Xun had devoted their loyalty to, they were looking forward to his rise.

To lift Ying Wu Xie's spirit, Fairy Zi Wei pondered for a while and said slowly: "Fang Yuan is terrifying indeed. He has always been pressured by all forces. Be it the forceful push by great venerables or the pursuit of Heavenly Court when I led it, he had to keep on wandering around from place to place for a long time in a precarious state."

"According to my guess, Fang Yuan was only a chess piece, and the moment he destroyed fate Gu, the venerables who supported him abandoned him. Not only abandoned, they even want to get rid of him! Be it the shackles from heaven path dao marks or Spectral Soul's pursuit, they are both evidence of this."

"But now, Fang Yuan has escaped the shackles and killed Spectral Soul. He is free from the venerables' arrangements and obtained freedom. He never had the time to develop himself properly, but now he has."

"Currently, he is growing stronger with every moment of time at an unknowable speed. Even though I am a wisdom path great expert and have fought Fang Yuan many times, I am unable to estimate how strong he will be the next time he makes a move."

"But, no matter how strong he becomes, as long as he does not become venerable, he is not invincible." Fairy Zi Wei changed the subject.

Ying Wu Xie gave a bitter smile: “Who can say for sure, Fang Yuan might have already become a venerable the next time he makes a move.”

“No.” Fairy Zi Wei smiled, “The realm of venerable is not that easy to reach. Since ancient times, there have only been ten of them. Venerable ascension holds an enormous secret! All the clues point out that the venerables who helped Fang Yuan will not inform him of this secret.”

“So that’s it!” An Xun clapped and said excitedly: “This is too good. As long as Fang Yuan does not become a venerable, he will only be a pseudo venerable, no matter how strong he is, there will be limits. Be they Qi Sea Ancestor or Divine Emperor City, they both can fight him.”

Ying Wu Xie let out a breath of air: “That means, as long as Fang Yuan does not become venerable, we still have hope?”

Fairy Zi Wei nodded: “Although Fang Yuan is strong, there are many restrictions on him. Fate Gu is destroyed, the order of the world has turned chaotic. Since Demon Immortal Qi Jue revived, could venerables not revive as well? That would not make sense. Demon Immortal Qi Jue was only a pseudo venerable.”

An Xun’s heart shook: “Lady Zi Wei, you once led Heavenly Court, can it be that you have some clues on venerable revival?”

Fairy Zi Wei shook her head slightly: “This is only my guess, I have no evidence. But one thing is obvious; the stronger the Gu Immortal, the more difficult it is for them to revive. Demon Immortal Qi Jue consumed a grotto-heaven and also borrowed the help of the qi harvest fruit. Even so, because of the severe interference during the revival process, Demon Immortal Qi Jue’s strength was not consistent with Heavenly Court’s records, it fell after the revival. A venerable’s revival will be countless times more difficult than Qi Jue’s.”

As she said this, Fairy Zi Wei could not help but think of Genesis Lotus Immortal Venerable.

She already had many suspicions.

These last days, although she and Ying Wu Xie were pursued, Heavenly Court did not chase them intensely.

After carefully thinking of it, although Genesis Lotus Immortal Venerable's arrangements showed up during the fate war, they clearly were not focused on guarding Heavenly Court.

Under the control of Genesis Lotus' will, Divine Bean Palace and Emperor City combined, forming Divine Emperor City. But during the fate war, it only stayed in Central Continent and did not move.

And the battle not long ago proved Divine Emperor City could move.

And after the bamboo tree painting that Genesis Lotus Immortal Venerable arranged at the topmost floor of Heaven Overseeing Tower absorbed many of Northern Plains' Gu Immortal experts, it flew out of Heavenly Court and left without a trace.

Genesis Lotus Immortal Venerable had left behind various methods, but Fairy Zi Wei all along felt Genesis Lotus Immortal Venerable's focus was on other things, and not on defending Heavenly Court and protecting fate Gu.

“Fang Yuan might have also sensed this so he did not attack Divine Emperor City, I assume?” Fairy Zi Wei gazed towards Eastern Sea.

It was unknown who released the rumor in treasure yellow heaven, but rumors that were luring Fang Yuan and Heavenly Court into fighting were spreading wildly.

There was only one discussion in the whole of the world of the five regions' immortals — the fight between Fang Yuan and Heavenly Court's Divine Emperor City would decide who was the ruler of the world!

Wu Yong only started it, Western Desert's Gu Immortals, Eastern Sea's Gu Immortal world, Northern Plains' Gu Immortal world, and even the two heaven's Gu Immortals had strong motives to secretly give momentum to this rumor.

“This plan is quite good, but what kind of person is Fang Yuan, will he fall for it?” Fairy Zi Wei sneered.

The world’s game of chess that involved all living beings was decided by the fight between several people. Although Fairy Zi Wei did not have the strength to participate, as a wisdom path great expert, she had the ability to observe this game.

Flowing Silver blessed land was looted completely and Fairy Zi Wei successfully obtained the Flowing Silver inheritance as well.

This was a metal path inheritance created by Silver Horn, a rank seven Gu Immortal of Central Continent.

It did not have much value to Fairy Zi Wei. Ying Wu Xie and An Xun also cultivated soul path, so the true inheritance’s value was not big. The useful part of it were the immortal materials in the blessed land.

After making sure they did not miss out on anything, Fairy Zi Wei and the group immediately left this place.

Immemorial black heaven.

Under Bing Sai Chuan’s lead, Hei Lou Lan arrived in front of Luck Suppression Heavenly Palace.

“Longevity Heaven actually hid such a trump card!” Hei Lou Lan was inwardly shaken.

The rank eight Immortal Gu House in front of her was much larger than Calamity Luck Altar, its grand dark golden body revealed signs of vicissitudes that spanned across countless years, but had a disposition of being firm and unshakable.

“I brought you here to seek an audience with a person.” Bing Sai Chuan led Hei Lou Lan inside the depths of Luck Suppression Heavenly Palace.

“You, you are?!” Hei Lou Lan’s eyes widened as she saw Immortal Zombie Giant Sun, who was sitting cross-legged on a cushion mat.

The intense reaction from her bloodline and Immortal Zombie Giant Sun’s appearance made Hei Lou Lan quickly confirm the identity of this person.

She immediately knelt on the ground and bowed: “This unfilial descendant greets Ancestor Giant Sun!”

“Good child, get up.” Immortal Zombie Giant Sun smiled kindly.

A formless and gentle force lifted the agitated Hei Lou Lan.

She had just stood up when she heard Immortal Zombie Giant Sun continue: “You are my outstanding descendant, if we talk about who was unfilial, those Gu Immortals of Hei tribe were the unfilial ones. They are cowards who actually surrendered to an outsider — that junior Bai Zu.”

Immortal Zombie Giant Sun paused before continuing: “Hei Lou Lan, from today onwards, you will cultivate in Luck Suppression Heavenly Palace, in the future, you will go to Northern Plains and rebuild Hei tribe!”

Chapter 2076 - Earth Treasury

2076 Earth Treasury

Bai Ning Bing opened her eyes and the first thing she saw was warm yellow light.

“You are awake.” A seemingly familiar voice resounded in her ears, but she could not be certain.

A few breaths of time later, Bai Ning Bing’s vision became clearer.

She saw Fairy Miao Yin and Black Tigress beside her.

Bai Ning Bing barely had any strength left, she used her hands to push her upper body up: “Where is this?”

She looked around and saw she was in a cave. The cave was extremely peculiar, its form was like a sphere, and Bai Ning Bing’s group was at the bottom of the sphere.

The spherical cave’s inner walls had large patches of scattered yellow soil. From time to time, red lights flashed, like they were flowing on the yellow soil which seemed to condense into blood veins.

“Wait a moment, these are…” Bai Ning Bing was bewildered. She saw immortal materials embedded in the inner walls at set intervals of distance.

The first material she saw was a piece of copper near her.

The copper was firm and dominant, it was inlaid in the soil and glittered with cold metallic light.

“Isn’t this rank seven immortal material domination copper?” Bai Ning Bing recognized it.

She then saw a pure white iron lump not far from the domination copper.

The iron lump’s aura was even stronger than the domination copper; it was the rank eight immortal material white snow iron!

“What’s going on here? In the production area of domination copper, there would not be other rank seven metallic materials. But just a brief look and I can see more than five types of rank seven metallic materials.”

“And white snow iron only appears in rooster iron mines, how could there be lone white snow iron here?”

“Looks like even you don’t recognize this place, Bai Ning Bing.” Black Tigress said with disappointment.

Fairy Miao Yin said with a smile: “We only woke up a while earlier than you and are also greatly puzzled about this place. This place is too fantastic, it seems to be a storage for immortal materials. Not only metal path immortal materials, there are also materials of other paths. Take a look over there.”

Fairy Miao Yin pointed towards the left of Bai Ning Bing.

Bai Ning Bing looked towards the direction and saw a small patch of soil where a dozen or so large round turnips were growing.

“I know, this is white wine turnip, white wine is produced inside it. Although it is only rank six, it is a rare food path immortal material.” said Bai Ning Bing.

“Now look here.” Fairy Miao Yin pointed again.

Bai Ning Bing discovered a lump of wind.

This wind had condensed into a lump, the size of a woolen ball, it was dark green and its sounds were low and deep.

Bai Ning Bing had obtained Bai Xiang grotto-heaven and followed Fang Yuan for a long time, she could be considered to be experienced and knowledgeable. After seeing this lump of wind, she narrowed her eyes as she thought of its relevant records.

“This is profound eerie wind, a rank eight wind path immortal material. It only appears deep in the underground, even Heavenly Court’s Gu Immortals have a huge desire for it.”

Metal path immortal materials like domination copper, white snow iron, and others; food path immortal material white wine turnip; wind path immortal material profound eerie wind. Besides these, Bai Ning Bing and the rest also discovered red snake iron, orchid vitality qi, dream soil and so on.

“What is this?” Bai Ning Bing and the group saw a small fox above them.

Its hairy tail and limbs were all trapped in the soil. When it saw Bai Ning Bing’s group had discovered it, it curled into a ball from fear and let out soft whimpers.

The three female immortals’ eyes widened, they were dazed for a while before they said in unison: “Blue smoke fox child!”

This was a rank eight transformation path immortal material, even u003cu003cThe Legends of Ren Zuu003eu003e had records of it.

“What place is this?”

“Blue smoke fox child is already extinct, but this place has it.”

The three immortals then discovered purple manor soil.

This was a rank eight immortal material which looked like a patch of soil with purple grains, purple smoke rose above from the ground. The purple smoke could only rise half an inch before it condensed back to even smaller grains that fell on the purple manor soil.

“This purple manor soil had long been completely extinct. Because its effect was too powerful, it only appeared for a brief moment in history.” Fairy Miao Yin said with certainty.

Purple manor soil's effect was extraordinary. A strand of purple smoke, when put inside an aperture, could raise a mortal Gu Master's cultivation level. And when enough purple manor soil was put inside an immortal aperture, it could similarly raise a Gu Immortal's cultivation level!

The three immortals searched roughly for a while and found that there was many kinds of immortal materials here. Although the quantity of each material was slightly little, their overall value was enormous!

"Crystal essence is the highest in quantity here. Earth path crystal essence, water path crystal essence, lightning path crystal essence, and so on. Could this be the legendary secluded domain of heaven and earth — Hu Land?" Black Tigress guessed.

Fairy Miao Yin shook her head: "Although u003cu003cThe Legends of Ren Zuu003eu003e did not record it in details, since Hu Land is mentioned together with Xi Land, it should be similar to Demon Immortal Qi Jue's Xi Land."

Bai Ning Bing smiled: "It is really amazing and mysterious! There are even heavenly crystals here, aren't heavenly crystals a product of the nine heavens? We should be deep underground right now."

The three immortals continued to discuss and soon rejected the previous assumption.

"So crystal essence is not the highest in quantity here, it is the blood veins buried in the soil."

At every set interval of time, the earth blood veins would shine and flow like blood capillaries had grown in the ground. Because of them, Bai Ning Bing had discovered the flowing red light before.

Following the blood veins, the three immortals discovered its source, which was also their most important discovery.

A delicate little black-yellow heart.

With it as the source, the net-like blood veins spread out widely.

The three immortals looked at each other before shaking their heads, none of them recognized the history of this black-yellow heart.

“But this is clearly a luck path immortal material.”

“It is rank nine, the most valuable immortal material here!”

“There are no signs of humans here, the work of nature really leaves one dumbstruck.”

“The world is vast, it is truly mysterious and interesting, spectacular and exquisite. If us Gu Immortals don’t live a brilliant life, then we truly would have lived in vain, what meaning is there in such a life?” Bai Ning Bing was full of praise.

Fairy Miao Yin looked at Bai Ning Bing’s expression and sighed helplessly.

Bai Ning Bing was such a person, she concentrated on herself and pursued excitement, she did not care about life or death, let alone talk of any morals or ethics.

Fairy Miao Yin disliked Bai Ning Bing before, but if not for Bai Ning Bing risking her life to fight in the previous battle, Fairy Miao Yin and Lady White Rabbit would have been Heavenly Court’s prisoners.

Black Tigress said: “This is great, these immortal materials will definitely be of huge help to master.”

The master she was talking of was naturally Fang Yuan.

Fairy Miao Yin glanced at her, sighing helplessly in her mind once again.

She knew: Lady White Rabbit was not much different from Bai Ning Bing, she was also an abnormality. Lady White Rabbit’s true inheritance was extremely strange and was a top tier dual path cultivation technique.

Lady White Rabbit cultivated light and dark path, following the idea that light cannot exist without darkness and darkness cannot exist without light. When Lady White Rabbit’s cultivation was rank six, her transformation, Black Tigress, would be rank seven. When Lady White Rabbit possessed rank seven cultivation, Black Tigress would possess rank eight cultivation!

But this inheritance had a huge influence on the cultivator's mental state.

Lady White Rabbit was pure and kind while Black Tigress was fierce and ruthless, both had extreme characters. Not only this, once the feelings of acknowledgement and reverence were accumulated in the depths of White Rabbit and Black Tigress, they were unable to be changed.

After the pursuit battle against Fang Yuan, Black Tigress was even more in admiration regarding Fang Yuan. Because even Spectral Soul was killed by Fang Yuan!

Hearing that Black Tigress wanted to offer these immortal materials to Fang Yuan, Bai Ning Bing's face immediately turned dark. Her eyes let out a dangerous light as she took a step forward: "You actually have such a stupid thought?"

"Are you calling me stupid?" Black Tigress raised her brows and said furiously: "You really think I am afraid of you?"

"You two!" Fairy Miao Yin immediately stood between the two: "It was not easy for us to escape here. Our lives and freedom that we obtained by using all our efforts should not be used on strife between ourselves. What we need to consider is what we should do next!"

Bai Ning Bing and Black Tigress were persuaded as they stopped with a snort.

The three immortals continued to explore.

They dug a small hole and saw the raging earth qi outside the cave.

"We are still in the earth vein!"

"What do we do?"

"With just our strength, even if we collaborate, the risk is too high."

This discovery worried the immortals.

Fortunately, this place did not restrict communication with the outside world.

The three immortals easily connected with treasure yellow heaven and quickly understood the situation after the pursuit battle against Fang Yuan, as well as the rising storm in Eastern Sea during this period of time.

Black Tigress was exulted: “Master finally broke free from his predicament and became the number one demon lord!”

Fairy Miao Yin was somewhat worried: “I did not expect Heavenly Court to still have a trump card like Divine Emperor City. Even the powerful Demon Immortal Qi Jue was captured. Sigh, Heavenly Court’s foundation is truly too deep.”

Black Tigress snorted: “What is a mere Immortal Gu House? Its methods are fixed and hard to change. As long as master probes all the methods of Divine Emperor City, it will be easy for him to crack this Immortal Gu House.”

Black Tigress’ eyes were shining as she said in a firm tone: “I am going to return, master has already sent the word and summoned his subordinates. I will immediately return and continue to follow master!”

Fairy Miao Yin nodded, approving of Black Tigress’s thoughts.

She knew the five regions’ regional walls were gone, fate Gu was destroyed, and it would be a chaotic world in the future. To survive in this chaotic world, it was best to rely on the strong.

Naturally, Fairy Miao Yin knew of Fang Yuan’s ruthlessness and coldness, but she had nowhere else to go now.

Compared to Black Tigress, Fairy Miao Yin had limited loyalty towards Fang Yuan.

What she cared about was mainly herself.

So, when Fairy Zi Wei captured Fairy Miao Yin, Fairy Miao Yin had cooperated.

But the current situation was different, Fang Yuan was now recognized as the number one demonic immortal in the world. Even Heavenly Court was vaguely suppressed by him! Even if Fairy Miao Yin wanted to side with other forces, who would dare to accept her? Would they not be afraid of Fang Yuan knowing about it and coming to settle the score?

Bai Ning Bing sneered at the other two: “Looks like you still want to follow Fang Yuan? Hehe, do you have a brain or not? Who do you think is the cause of our situation? Wasn’t it Fang Yuan who abandoned you? He could abandon you once, he can naturally abandon you a second time, or even a third time.”

“Why do you always want to rely on others? This is the best opportunity to gain freedom! Although our alliance agreement with Fang Yuan is still there, it has already been suppressed by Fairy Zi Wei. The world thinks we died in battle, even Heavenly Court is in the dark. You still want to return?”

Fairy Miao Yin sighed: “Bai Ning Bing, don’t forget our status. We are wanted demonic immortals, listed on the Demon Judgment Board and hunted by the righteous paths of the five regions. What else can we do if we don’t go to Fang Yuan? If we fight by ourselves, we will be discovered one day and be hunted for bounty by waves after waves of Gu Immortal experts.”

Bai Ning Bing laughed loudly: “Running for our lives will definitely be exciting. Don’t you have any anticipation towards it?”

Fairy Miao Yin rolled her eyes.

Black Tigress snorted: “Even if Lord Fang Yuan abandons me again, I am still willing to follow him!”

Bai Ning Bing and Fairy Miao Yin were speechless.

Chapter 2077 - Four Elements Square Regret Blood Refinement Pool!

2077 Four Elements Square Regret Blood Refinement Pool!

Sovereign immortal aperture, Mini Central Continent.

Fang Yuan's months of arrangements (in the immortal aperture's time) had reached the crucial moment!

Within a square shaped pool, there was a small pavilion situated at the center.

Following Fang Yuan's will, a Gu worm slowly flew towards the pavilion.

This Gu resembled a round pearl, it was as large as a goose egg, the pearl had countless markings on it that were moving around, they were brilliant like a blooming field of lotuses, or the rumbling of clouds.

It was blood asset Immortal Gu!

This was a unique Gu created by Lang Ya land spirit by combining some blood path Gu recipes he bought in treasure yellow heaven.

Blood asset Immortal Gu's effect was to protect a portion of the immortal materials or Gu worms during refinement. If the refinement failed, some of these immortal materials or Gu worms could be restored afterwards using blood asset Immortal Gu.

Blood asset Immortal Gu was originally only at rank six, but not long ago, Fang Yuan had used the Long Hair refinement path formation to refine it to rank seven.

Blood asset Immortal Gu House slowly flew to the top of the pavilion where a golden seat was constructed.

Inside Fang Yuan's mind, thoughts surged like tidal waves. This step looked simple from outside, but in actuality, Fang Yuan spent one hundred thousand thoughts every second to complete this final step!

Splat.

With a soft sound, blood asset Immortal Gu finally landed on the golden seat.

Shortly after, as Fang Yuan transferred his immortal essence, the golden seat produced an attraction force that fixed blood asset Immortal Gu in place.

Blood asset Immortal Gu burst out with dense blood light.

The blood light was like water as it flowed down from the roof of the pavilion, dying everything in its path; the white jade-like pavilion was dyed crimson red.

After it dyed the pavilion, the blood light continued to spread and covered the calm pool.

The pool water became red like blood.

Slight waves appeared on the surface of the pool. Burble burble, waves struck the squarish rock walls surrounding it, but the waves immediately disappeared, as the pool became calm once again.

Four Elements Square Regret Blood Refinement Pool's construction was finally completed!

Fang Yuan wiped off the sweat on his forehead. After maintaining the tense state for over a month, he could finally relax.

He immediately felt an extremely intense exhaustion spread from his bones to his entire body.

“I consumed too much mental energy, a lot of immortal essence was also expended.” Fang Yuan was aware of it, his mind was exhausted and he wanted nothing more than to fall asleep without caring for anything else.

He did just that.

This sleep lasted for two days and two nights.

Thereafter, he finally recovered his spirit.

Shortly after, Fang Yuan used his divine sense to inspect this Four Elements Square Regret Blood Refinement Pool.

After inspecting once and finding there were no mistakes, he nodded in satisfaction.

To construct this refinement pool, he had racked his brains and spent an enormous effort!

And after paying such a price, the constructed Four Elements Square Regret Blood Refinement Pool was without any doubt the peak creation of refinement path in the present world.

Fang Yuan’s Four Elements Square Regret Blood Refinement Pool’s was conceptualized by merging Immortal Gu Houses and immortal formations together, such as Regret Pool, Refinement Cauldron, and Long Hair refinement path formation.

Regret Pool was one of the three legendary pools of the world along with Heavenly Pool and Wine Pool, they were all famous in history. When Gu Immortals refined Immortal Gu successfully in it, they could leave an insignia behind. When the Immortal Gu was destroyed, Regret Pool could be activated, using the power of the tributary of the River of Time and the preserved insignia to refine the Immortal Gu again, the success rate was about fifty to sixty percent.

Sun Ming Lu, one of the seven extremities of Longevity Heaven, imitated Regret Pool and constructed a super Gu formation, fate reversing sacrificial refinement formation, to refine rank eight Fortune Rivaling Heaven for Old Ancestor Xue Hu.

Refinement Cauldron was the most proud masterpiece of Long Hair Ancestor, it possessed the ability to forcefully refine Immortal Gu. In the five hundred years of Fang Yuan's previous life, Lang Ya blessed land relied on it to defend against seven waves of enemy attacks. The Immortal Gu of the Gu Immortals who invaded the blessed land were forcefully refined, and countless Gu Immortals were captured like this.

Long Hair refinement path formation was even more so the strongest foundation of Lang Ya Sect, the essence of its trump cards. The formation was extremely outstanding and only hairy man Gu Immortals could control it. In history, Long Hair Ancestor had refined Immortal Gu for Giant Sun Immortal Venerable and Thieving Heaven Demon Venerable by using this formation. Before the fate war, Fang Yuan had refined many Immortal Gu by similarly relying on the grand might of this formation.

If Fang Yuan's refinement path and time path attainment levels were not at quasi-supreme grandmaster, he would never be able to think of such a design.

Just the design of this Four Elements Square Regret Blood Refinement Pool was unprecedented, and it was likely that no one in the future would be able to accomplish it as well. The price that Fang Yuan paid to construct this Immortal Gu House was shockingly high!

First of all, Fang Yuan dismantled the Long Hair refinement path formation that had a long history and was unparalleled; one of its cores, rank eight Immortal Gu Advance Refinement, was still used as a core, becoming a portion of the foundation of Four Elements Square Regret Blood Refinement Pool.

Secondly, Fang Yuan used rank eight Immortal Gu Regret, which was the essence of Regret Pool, to construct the pavilion in the pool.

Thirdly, Fang Yuan specially constructed a year essence sub-pool outside to lead a tributary of the River of Time into the square pool. To accomplish this step, Fang Yuan arranged three rank eight time path Immortal Gu; Early Autumn, Mid Autumn, and Late Autumn (from Three Autumn Yellow Crane Platform).

Finally, Fang Yuan even put the incomplete form of Refinement Sea into the pool. Lang Ya land spirit had heavily invested in Refinement Sea because he wanted to create a refinement path secluded domain of heaven and earth. To successfully put in the incomplete form of Refinement Sea, Fang Yuan had to use rank eight Immortal Gu Water Refinement as well.

The entire Four Elements Square Regret Blood Refinement Pool had four main cores; rank eight Immortal Gu Advance Refinement, Water Refinement, Regret, and rank seven Immortal Gu Blood Asset. Thus, it was named ‘Four Elements’. There were over twenty supplementary Immortal Gu; rank eight Early Autumn, Mid Autumn, and Late Autumn were among the top ones. As for mortal Gu, there were over one hundred million, their types were as numerous as stars, this was simply unheard of.

Fang Yuan had used almost all his refinement path Immortal Gu in this, time path Immortal Gu, wisdom path Immortal Gu and other paths’ Immortal Gu were also not invested in small numbers. Fortunately, he controlled the variant human alliance and also extorted Eastern Sea’s Righteous Qi Alliance, only then did he have a sufficient number of suitable Immortal Gu.

With such an amazing investment without any regard for the cost, Four Elements Square Regret Blood Refinement Pool had the abilities of Long Hair refinement path formation, Regret Pool, Refinement Cauldron, Refinement Sea, and so on. It was infused with various refinement path techniques like flesh body blood refinement technique, seven kill blood path Gu refinement method, Bei Luo ice refinement method, and so on. It could utilize refinement path killer moves like slumbering lightning python, wind grind, reflect snow, muffled thunder stone drum, dragon-shaped blizzard, heavenly light ring, refinement snake lifespan flower, omnipresent four seas, and even ‘one step back, sea and sky expands’.

As soon as Four Elements Square Regret Blood Refinement Pool was constructed, it became the number one refinement path Immortal Gu House in the entire history of Gu cultivation!

There was no debate, nothing could rival it.

“If news about it is spread, Four Elements Square Regret Blood Refinement Pool can absolutely compete with Divine Emperor City and Eighty-Eight True Yang Building for the position of the number one Immortal Gu House.”

Divine Emperor City was a human path sacred land, while Eighty-Eight True Yang Building controlled Northern Plains, raising the Huang Jin bloodline to its height. And Four Elements Square Regret Blood Refinement Pool was as good as them.

It merged the essence of human style Gu refinement and hairy man nature Gu refinement. With it, not only could the cost of refining Immortal Gu decrease sharply, the success rate had also increased beyond imagination!

Whoever controlled this Four Elements Square Regret Blood Refinement Pool would have an unceasing supply of Immortal Gu!

“But, Four Elements Square Regret Blood Refinement Pool is not comprehensive. It is heavily focused on Gu refinement, and has almost no strength in other aspects like offense, defense, movement.”

“Moreover, in this world, only I, Fang Yuan, can construct it. Even if other Gu Immortals get its blueprint, they can do nothing with it!”

If a Gu Immortal saw Fang Yuan’s design, they would praise it endlessly at first. But when they started delving deeper, they would begin to curse and feel disdain, they would think this design was too naive and absurdly impossible.

Because the design of Four Elements Square Regret Blood Refinement Pool did not consider the case of conflicting dao marks in almost all the areas.

Only inside the sovereign immortal aperture, where there were no conflicting dao marks, could Four Elements Square Regret Blood Refinement Pool be turned into reality.

In fact, as long as Fang Yuan took out Four Elements Square Regret Blood Refinement Pool from his aperture, this Immortal Gu House would automatically collapse because of the severe internal friction and rejection of different dao marks!

In fact, it would not have been possible to construct this Four Elements Square Regret Blood Refinement Pool when Fang Yuan had three thousand heaven path dao marks.

It was because Fang Yuan annexed three rank eight grotto-heavens, Grand Swine, Novelty, and Time Difference, and refined their heaven path dao marks, that he was able to meet the lowest requirement for refining Four Elements Square Regret Blood Refinement Pool.

Each of these three grotto-heavens had merged with a nine heavens fragment before, and the nine heavens fragments contained heaven path dao marks.

Time Difference grotto-heaven possessed over seven hundred thousand time path dao marks and had over eight hundred heaven path dao marks.

Novelty grotto-heaven contained over one million and six hundred thousand rule path dao marks and had over one thousand nine hundred heaven path dao marks.

Grand Swine grotto-heaven had the most dao marks, with over three million and two hundred thousand transformation path dao marks and over three thousand three hundred heaven path dao marks.

At present, Fang Yuan's heaven path dao marks had already grown to over nine thousand!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2078 - Targeting Luck Path Firs

2078 Targeting Luck Path Firs

Most of the two heavens' grotto-heavens possessed a vast number of dao marks.

The main source of these dao marks were not tribulations but the contribution of generations of Gu Immortals.

For instance, Soul Pacifying grotto-heaven had over seven million soul path dao marks! With such an amount of soul path dao marks, the grotto-heaven contained a large number of super resource points.

At the start, Soul Pacifying grotto-heaven only had over one hundred thousand soul path dao marks. After it fused with a large nine heavens fragment, it was free from calamities and tribulations.

With the favor of heaven's will, Soul Pacifying grotto-heaven produced Gu Immortals generation after generations.

These Gu Immortals were humans, although they could casually choose their cultivation paths, most of them chose soul path.

Because the grotto-heaven had all kinds of soul path dao marks, it could be said they would enjoy a natural advantage in cultivating soul path. Even if Gu Immortals chose other paths, their number was extremely few and it was many times more difficult for them to obtain cultivation resources of other paths.

In fact, the two heavens were not places where ordinary rank six and rank seven Gu Immortals could explore.

Normally speaking, only a few rank seven experts and ordinary rank eights could take the risk to explore the two heavens to gather resources.

And after these soul path Gu Immortals died, almost all of their immortal apertures merged with Soul Pacifying grotto-heaven.

Although these Gu Immortals did not have the sovereign immortal aperture and there would be a lot of internal friction when merging immortal apertures, because their dao marks were mainly soul path dao marks, there was much more benefit than loss in merging.

As this continued for generations after generations, it had accumulated to the current number of over seven million dao marks!

Since the moment he started cultivating, be it in his previous life or now, Four Elements Square Regret Blood Refinement Pool was Fang Yuan's largest investment. He had thrown in all the resources of refinement path into it, even using time path, rule path, wisdom path, blood path, and other paths.

With Four Elements Square Regret Blood Refinement Pool, Fang Yuan's refinement path ability had a massive increase, becoming the number one in refinement path in the present world. Adding on his quasi-supreme refinement path attainment level, even over the long span of history, he was absolutely among the top three in refinement path.

But because he had invested many Immortal Gu of time path, rule path, and other paths, the relevant paths' foundation had subsequently decreased.

Over this period of rest, Peaceful Soil Heavy Mountain Fortress had yet to be repaired, immortal essence reserves had already returned to normal, many Immortal Gu were invested, but because of a massive surge in his major paths' dao marks, Fang Yuan's overall strength had not decreased but increased instead!

Fang Yuan's days were getting better.

Thinking of before, Fang Yuan had lived almost every day in a precarious state, he was forcefully pushed forward by schemes of venerables and hunted down everywhere by Heavenly Court. And now, Spectral Soul was dead, Heavenly Court and Longevity Heaven were recuperating, Fang Yuan no longer had a lot of external pressure and he could formulate his cultivation plan much more relaxedly.

From a long term view, constructing Four Elements Square Regret Blood Refinement Pool was absolutely a highly rewarding project!

“Now, it is time to refine and advance my luck path Immortal Gu to rank eight level.” Fang Yuan looked at Four Elements Square Regret Blood Refinement Pool with pride, he already had a plan.

When fate Gu existed, the ratio of fate and luck in the world was about nine-to-one. Now that fate Gu was destroyed, luck path’s influence had no doubt surged!

Especially when the five regions chaotic war was in accordance with the overall situation; the more chaos there was, the more effects luck path could display.

“My current immortal material reserves have already reached an unprecedented level, I have the capability to refine rank eight luck path Immortal Gu. But it is still not enough to construct a complete Refinement Sea. Hmm?”

Just as Fang Yuan was pondering, he suddenly received Black Tigress’ message through treasure yellow heaven.

“They are still alive and trapped in an earth vein. Interesting, they are hiding in Earth Treasury. This is good, Earth Treasury is one of the ten earths, every Earth Treasury holds abundant immortal materials, especially the rank nine luck path immortal material, favored heart, it is perfect for my current usage!”

Fang Yuan could not help feeling happy.

Rank nine luck path immortal material could refine rank nine luck path Immortal Gu.

But just a single Earth Treasury's favored heart was far from enough.

Among Fang Yuan's luck path immortal materials, most were rank seven while a small portion were rank eight. He clearly did not have the foundation to try refining rank nine luck path Immortal Gu.

But using rank nine immortal material to refine rank eight Immortal Gu could slightly increase the success rate as well.

With favored heart, Fang Yuan was like a tiger who gained wings!

Southern Border, Chi clan headquarters.

Bam.

The current Chi clan first supreme elder slammed the table fiercely and said through clenched teeth: "Outrageous!"

This rank seven Gu Immortal, who looked rather young, had pale white skin and dark eyes that showed signs of excessive drinking, was furious at this moment.

It was Chi Bang.

He was Chi Qu You's son, Chi Qu You had greatly supported him and had internally appointed him as the next first supreme elder. Although Chi Qu You died in the fate war, because he had made sufficient arrangements, Chi Bang succeeded in inheriting the position.

After Chi Bang got the position, he sensed that the situation was greatly different from before.

Previously, he was under his father Chi Qu You's protection, there was Chi Qu You to shelter him from any trouble. But now, he had to face the pressure directly.

This time, Southern Border's super force Yang clan had given him a tough problem.

The cause of this was a sound path inheritance. This sound path inheritance was called Roar, it had a long history and its reputation was spread far and wide. It had been passed down since long ago.

The previous generation Roar inheritor was only rank seven but the one before that was a rank eight Gu Immortal.

That was to say this Roar sound path inheritance could let someone cultivate to rank eight, it had high value.

More importantly, this Roar inheritance was in Chi clan's territory, but was extremely close to Yang clan as well.

After Chi Qu You died, Chi clan lost its only rank eight Gu Immortal and Chi clan was weak internally. Yang clan decisively made its move, encroaching on Chi clan's border and surrounding the inheritance ground. At present, they were actively exploring that sound path blessed land.

Chi clan had to do something about Yang clan's conduct. Their territory was invaded and this concerned their reputation. If they did not handle this properly, Chi clan's reputation would drop to the floor.

But, what could Chi clan do to protect their prestige? Could Chi clan beat back Yang clan's invading force?

Could they fight? How would they fight? If they could not fight, what should they do?

This was the problem Chi Bang was facing.

“What do you three think?” Chi Bang inquired the three rank seven Gu Immortals in front of him.

Chi Da Pi immediately said with a loud voice: “Of course, we fight back and kill those scoundrels of Yang clan!”

“Keep your voice down.” Chi Bang quickly shook his head and looked at Chi Gui.

Chi Gui frowned: “First supreme elder, we need to consider this properly.”

“What are you afraid of!” Chi Da Pi opened his eyes wide, “Yang clan does not have a rank eight Gu Immortal, they only sent two rank seven this time. If our Chi clan does not fight back, we would be the laughing stock of all of Southern Border’s righteous path.”

Chi Gui heaved a sigh: “Even though they only sent two people, they are famous experts. Yang Yin Guang is proficient at freezing soul profound light, which is very hard to defend against. The other, Yang Wen Kui, dual cultivates wisdom path and information path, he is the brain of Yang clan.”

“According to our investigation, Yang clan’s other Gu Immortals are stationed in Yang clan’s territory, but we cannot say for sure that Yang clan is not pretending and is secretly transferring their forces. Even if Yang clan is not pretending, we need to consider Yang clan’s Immortal Gu House as well. Since Yang clan invaded our territory, it is very likely that they have mobilized their Immortal Gu House, and it is being stored inside the immortal aperture of one of the two Yang clan immortals, just that they have not used it yet.”

“Yes.” Chi Bang nodded then looked towards Chi Shang: “What do you think about this?”

Chi Shang wore a white robe, he was handsome but his gaze looked somewhat distant.

“Chi Shang? Chi Shang?” Chi Bang called out softly.

But Chi Shang seemed to have not heard anything, his eyes looked towards the front in a daze.

The three immortals looked at each other before sighing in unison.

Clearly, Chi Shang’s mind was wandering again. He was the most hopeful genius of Chi clan to become a refinement path great grandmaster, he was called the formation devotee and would often blank out. He would even forget to eat when he thinks of a formation path problem. If not for the clan’s care, he would have likely forgotten to eat and died while immersed in his thoughts.

Chi Shang did not pay attention to Chi Bang. Chi Bang was inwardly furious, but he had to treat him nicely.

Before participating in the fate war, Chi Qu You had summoned Chi Bang to the study room and said to him: Chi Shang is the perfect helper that I am leaving to you.

In fact, the three Chi clan rank seven Gu Immortals in the study were the trusted aides that Chi Bang relied on.

But these trusted aides were unable to help him resolve this issue.

Chi Bang had to make the decision himself.

Right at this time, an information path Gu worm was passed on through treasure yellow heaven.

After Chi Bang browsed with his divine sense, his eyes brightened in joy: "Excellent, Alliance Leader Wu Yong heard of this matter and is willing to cooperate with our Chi clan. After expelling Yang clan, they won't take the Roar inheritance and will even send their Immortal Gu House to help us. But they want us to reach a further agreement with them, mainly wanting our clan to set up many immortal formations in Wu clan's resource points."

"There is such a good thing?" Chi Gui was greatly surprised. Wu Yong's conditions were extremely good and he was inwardly moved.

"What do you two think?" This time, Chi Bang directly ignored Chi Shang, asking only Chi Da Pi and Chi Gui.

Chi Da Pi cupped his fists: "The decision is completely up to you, first supreme elder."

Chi Gui hesitated slightly: "If we rely on Wu clan to beat back Yang clan this time, it looks as if we have profited greatly, but Wu Yong is a formidable character, why would he make an unprofitable transaction?"

Chi Da Pi said: "Did you forget? Back then when Wu clan was weak, Yang clan seized Wu clan's poisonous waterfall and went after their corpse mountain. Lord Chi Qu You took an Immortal Gu House to drive them away, then Wu clan seized back poisonous waterfall. Wu clan and Yang clan have enmity."

Chi Bang patted his forehead: "Right, Chi Da Pi is correct. Talking about it, Wu clan seems to have always been trying to rope us in. Back then when Yi Tian Mountain's dream realms still existed, Wu clan brought our Chi clan along whenever they did the immortal opportunity business. Wu Yong is a formidable character, and although my father has passed away, my Chi clan still has value. This time, let Wu clan work for us while we sit back and relax, haha!"

Chi Gui saw that Chi Bang had already made the decision and could only suppress the unease in his heart.

He thought for a bit and added: "This time, if we ally with Wu clan, we need to consider Ba clan's feelings and thoughts."

"Right, Ba clan…" Chi Bang felt a headache.

Super forces had been in power for a long time and had complicated relationships with each other. It was extremely troublesome to deal with them.

Ba clan wanted to get the position of overlord in Southern Border and wanted to replace Wu clan. There was a great deal of conflict between Ba clan and Wu clan.

And Ba clan had a close relationship with Chi clan, they were not merely allies, they had an alliance marriage!

Chapter 2079 - Rank Eight Dog Shit Luck

2079 Rank Eight Dog Shit Luck

“My Chi clan is facing difficulties but Ba clan is not doing anything to help. They even tried to interfere and support Chi Xu Zhi when I was about to take my position. Ever since that damned Chi Xu Zhi married a female immortal of Ba clan, his ambition has been rising day by day.” Chi Bang’s tone was filled with hatred as he recalled.

He slammed the table: “I have decided to agree with Wu clan’s alliance, as for Ba clan… I will send a letter of explanation and hope they can understand.”

The news of Chi Bang’s agreement to cooperate reached Wu Yong.

Wu Yong laughed heartily: “This young Chi Bang is no cause for concern!”

Clearly, Wu Yong’s plan was working smoothly.

With Chi Qu You dead, Chi clan’s internal structure was weak. Ba clan had a change of leadership, the previous first supreme elder, Ba Shi Ba, was captured by Fang Yuan and lost his immortal aperture as well as his cultivation. After Ba De took his position, Ba clan became unstable.

Wu Yong intuitively sensed the crack in these two clans. The incident regarding the Roar inheritance was like a heaven-sent opportunity to Wu Yong, how could he not grasp it?

“Good news, I have good news.” At this time, Wu Ba Chong suddenly came before the door and sought an audience.

“Come in.” Wu Yong said: “What’s the news?”

He rarely saw the stable Wu Ba Chong express such joy.

Wu Ba Chong said: “When Wu Bei was exploring Space Comprehension Pit, he unexpectedly discovered a large amount of dry clear qi!”

Wu Yong was slightly dazed before applauding: “This is indeed good news.”

Wu Du Xiu had three regrets in her life.

The first was the group, Fierce Gorge Seven Ghosts, that Wu Yong had already eliminated. Second was she was not able to refine eight-faced prestige wind Gu.

Wu clan had been gathering immortal materials for eight-faced prestige wind Immortal Gu for many years, and only lacked one main material: dry clear qi.

Wu Bei unexpectedly obtained dry clear qi this time, which was enough for Wu clan to refine eight-faced prestige wind Gu.

“Wu Bei is indeed my clan’s lucky star. Reward him!” Wu Yong quickly thought before speaking.

“Eight-faced prestige wind Gu is a rank eight Immortal Gu, it is a major matter if we are to refine it, we must treat it seriously and make many preparations. Everyone in Wu clan needs to give their all for this refinement.” As Wu Yong said this, he sighed: “Refining rank eight Immortal Gu is difficult, truly difficult! Even Fang Yuan, with Lang Ya blessed land’s help, will struggle with refining rank eight Gu. This is a serious matter, we might have all the immortal materials but we need to consider this carefully.”

Wu Ba Chong’s excited state slowly calmed down.

“Lord is right, I was too rash.”

Wu Yong was able to maintain calm and logic, Wu Ba Chong felt even more admiration towards him.

Wu Yong said: “We will put aside refining eight-faced prestige wind Gu for now. Chi Bang has already agreed to ally with us, what we need to do now is to pressure Ba clan and make them unable to interfere in this matter.”

Wu Yong took precautions and thought of everything, he had already started to get rid of this future obstacle in advance.

It was another round of planning and arrangements.

Wu Ba Chong left the study room while praising inwardly: “Lord Wu Yong has both battle strength and a strategic mind, would my Wu clan even have to worry about not accomplishing great things under his lead?”

Days later, in the sovereign immortal aperture.

Fang Yuan’s time path clone was controlling Four Elements Square Regret Blood Refinement Pool.

“Rise!” The time path clone shouted, rank eight immortal essence poured in crazily.

Boom!

The blood-like water in the square pool suddenly rose towards the sky like a reverse waterfall.

The whole Four Elements Square Regret Blood Refinement Pool began making noises, it was activated to its limit.

The blood waterfall rose in the air and formed a whirlpool at the top.

The whirlpool rotated rapidly while letting out brilliant radiance.

After the whirlpool absorbed a large amount of blood water, it gradually calmed down.

Finally, an Immortal Gu flew out of the whirlpool.

The whirlpool dissipated, the reverse flowing blood waterfall also fell down to the square pool; only some blood water remained in the pool.

Blood red light retreated like birds returning to their nest, to the top of the small pavilion in the pool. That was the position of blood asset Immortal Gu.

Fang Yuan's time path clone regulated his breath for a while before moving his will. The Immortal Gu that was floating in the air flew into his palm.

This Immortal Gu looked like a dung beetle.

Its whole body was golden yellow, it had three parts to its body; head, stomach, and tail. its head was like a crescent shovel which had paddle like tentacles in its sides. Its stomach had a horizontal ridge, and its tail was oval.

It had two pairs of legs and a pair of tails. Every tentacle was rough and thick, and had hard black barbs on their ends.

It was dog shit luck Immortal Gu; after having gone through Fang Yuan's refinement, it had advanced to rank eight.

Dog shit luck Immortal Gu was the core Immortal Gu of Cooking Luck Pot.

Giant Sun Immortal Venerable created luck path and left three great true inheritances: Self luck, all living beings luck, and heaven and earth luck. Cooking Luck Pot was the peak creation of the essence of self luck true inheritance.

Before the fate war, Fang Yuan had thrown in almost all his luck path Immortal Gu into Cooking Luck Pot.

This time, he dismantled Cooking Luck Pot and advanced the rank of all its luck path Immortal Gu.

Dog shit luck Immortal Gu was the primary target, but Fang Yuan succeeded in his first attempt at refinement.

Four Elements Square Regret Blood Refinement Pool had fifty to sixty percent success rate even when refining rank eight Immortal Gu. This was such a terrifying success rate that if news about it were to spread, it would shake the whole Gu Immortal world; it might even lead to crazed attacks by Longevity Heaven and Heavenly Court.

With rank eight Dog Shit Luck, Cooking Luck Pot's rank had already advanced to rank eight.

If one were an ordinary Gu Immortal, they would stop here. But Fang Yuan was far from being satisfied, he would now advance qi luck Immortal Gu, connect luck Immortal Gu, luck plan Immortal Gu, luck inspection Immortal Gu, and so on.

The time path clone maintained the activation of Four Elements Square Regret Blood Refinement Pool.

Following the rapid expenditure of rank eight immortal essence, the almost used up pool water began to fill up again.

This pool water was the refinement water of the incomplete Refinement Sea which was mixed with the water of the River of Time, and had gone through refinement path methods using water refinement Immortal Gu as the core, to form this wonderful creation.

The time path clone opened the hidden door of the Immortal Gu House's storage, the luck path immortal materials inside began to fall into the pool.

Among them was the favored heart.

Fang Yuan had already brought back Lady White Rabbit and Fairy Miao Yin.

What he used was a killer move involving Fixed Immortal Travel.

The killer move Jade flow pearl was no longer suitable for the current Fang Yuan because of his enormous dao marks.

But it was of no issue, Fang Yuan had created many compound killer moves and had already created the new heaven and earth travel killer move!

With the help of over nine thousand heaven path dao marks, heaven and earth travel directly sent Fang Yuan to the nearby Earth Treasury.

In the heart of the mighty earth vein, Fang Yuan withstood the strong pressure leisurely and stored the whole Earth Treasury into his immortal aperture.

Bai Ning Bing had already left secretly but Fang Yuan did not care about her. There was clearly no reason to waste time on her at this moment.

After refining dog shit luck Immortal Gu, rank nine luck path immortal material favored heart shrunk a little. Another layer of its surface was refined and merged into the pool water.

Such usage of immortal materials had already reached the peak of brilliance.

Blood red light once again spread from blood asset Immortal Gu and covered the whole pool.

The pool water billowed, the immortal materials inside it melted and mixed with the blood water.

After a while, everything was in place. Four Elements Square Regret Blood Refinement Pool's efficiency in processing immortal materials was astonishing.

The time path clone threw luck inspection Immortal Gu into the water.

The second round of refinement had begun!

Immemorial black heaven, Luck Suppression Heavenly Palace.

A tribulation had just dissipated in Hei Lou Lan's blessed land.

Hei Lou Lan revealed joy at the impressive gains of this tribulation. She could not have passed it alone, but with Giant Sun Immortal Venerable's guidance and Bing Sai Chuan's protection, she easily succeeded.

“It has not been long since I came to Luck Suppression Heavenly Palace, but over this period, I have already gone through many calamities and tribulations; my strength has been increasing rapidly day by day.”

“My previous feeling was not wrong, it seems Longevity Heaven really wants to heavily nurture me!”

Hei Lou Lan inspected her immortal aperture.

After she came and met Immortal Zombie Giant Sun for the first time, Bing Sai Chuan used time path methods to increase her immortal aperture’s time flow to an astonishing level.

At the same time, Longevity Heaven supported her with an endless stream of strength path immortal materials. There was simply no hidden threat of advancing too rapidly.

With such an abundant amount of strength path immortal materials, it would naturally attract strength path calamities and tribulations.

Longevity Heaven held the strongest luck path methods in the world which were extremely helpful in undergoing tribulations. Hei Lou Lan only had to sit back and enjoy the spoils.

With the support of the second largest super force in the world and being valued highly by Immortal Zombie Giant Sun, Hei Lou Lan deeply felt the advantage of relying on a force.

She did not need to worry about nurturing and refining Gu, and also did not need to go gather Gu recipes, killer moves and so on; someone would directly send them to her.

Even the management of immortal aperture and the arrangement of resource points were planned for her by specialized wisdom path Gu Immortals.

Hei Lou Lan only needed to ponder on the usage of Gu and train her killer moves.

Although she was a descendant of the venerable, her life was full of hurdles, and after meeting Fang Yuan, she had to endure even more hardship and face life and death situations many times. So, after obtaining the huge support, besides being extremely thankful, she cherished this opportunity even more so!

She was deeply aware of how precious such an opportunity was and how difficult it was to come by.

She cherished every minute and every second of her time, and besides the necessary rest, she cultivated hard every day.

Once in a while, Immortal Zombie Giant Sun would summon her to evaluate and guide her.

This time when he called for her, Immortal Zombie Giant Sun was no longer able to watch Hei Lou Lan train in such a self-damaging way, he urged: “Hei Lou Lan, my descendant. Don’t be overly harsh on yourself, everything in the world emphasizes on balance between work and rest. Gu Immortal cultivation is also the same. If you carry on like this and stay in a tensed state all the time, it will instead be harmful.”

Hei Lou Lan faced Giant Sun immortal zombie but still insisted on her thoughts: “Lord ancestor, the toughness I am experiencing is not too much to handle. In the past, I cultivated beside Fang Yuan and saw the effort he made. The world thinks he got his current accomplishments because of the help that venerables gave. But in my opinion, even if no one helped him, based on his character, he would still be able to stand out and wreak havoc in a region.”

Immortal Zombie Giant Sun was slightly stunned before smiling, appreciating Hei Lou Lan even more: “Looks like you are regarding Fang Yuan as your enemy and the goal to surpass. Good, with such determination and spirit, you are worthy of being my, Giant Sun’s, descendant!”

“But, it will be very difficult for you to surpass Fang Yuan, it is simply like a mortal trying to ascend to heaven. I won’t conceal it from you, Fang Yuan’s strength has been increasing rapidly in this period of time, the speed is extremely astonishing.”

Hei Lou Lan looked at Giant Sun immortal zombie doubtfully.

Immortal Zombie Giant Sun explained: “Although luck inspection Immortal Gu is no longer with me, Luck Suppression Heavenly Palace contains similar luck inspection killer moves, moreover because it has been here for too long, all the luck of the five regions and two heavens are in my sight.”

“Recently, I have been looking at Eastern Sea repeatedly, over at Xia clan’s headquarters, the luck has been rising constantly and fiercely, even I have rarely seen such a case in my life.”

“Spectral Soul, Heavenly Court, and my Calamity Luck Altar failed to kill Fang Yuan, finally giving him the chance to develop. He obtained the help of several venerables and has excellent character, as well as plenty of experiences from several rebirths. The more time he has, the stronger he will grow. If you want to catch up to him, you will only have a trace of hope if you make a desperate effort.”

Hei Lou Lan’s expression was serious as she asked firmly: “Please instruct me, Ancestor, what way is there?”

Giant Sun Immortal Venerable shook his head slightly: “It is not time yet, continue to cultivate hard for now.”

Chapter 2080 - Fang Yuan“s Luck

2080 Fang Yuan“s Luck

Over two months had passed in the sovereign immortal aperture, a brand-new Cooking Luck Pot finally presented itself before Fang Yuan.

Its whole body was shining in golden light. When observed carefully, a platinum light would occasionally shine inside and outside the pot, giving a strong sensation of richness.

The sides of the pot were as thick as a child’s fist.

There were eight lifelike dragon statues around the outer edges of the pot.

These eight dragons’ tails were all at the base of the pot, coiling around each other and extending their claws to become the legs of this pot.

The eight dragon tails pointed in eight different directions, towards the north, south, east, west, northeast, northwest, southeast, southwest.

Each dragon claw was attached to the surface of the pot, the dragon bodies moved upwards as the dragon heads hung on the edge, looking inside. The dragon eyes were shut as if they were sleeping.

Cooking Luck Pot was now a rank eight Immortal Gu House!

Compared to before, not only had its size increased, the eight dragon statues were clear and vivid, unlike the blurry and crude image when Cooking Luck Pot was rank seven.

The current Fang Yuan possessed over nine thousand heaven path dao marks, the difficulty in conceptualizing compound killer moves had decreased sharply. So, even though Fang Yuan's luck path attainment level was not high, he had the ability to modify Cooking Luck Pot and make it even stronger.

But after careful consideration, he gave up on this idea for the moment.

If Cooking Luck Pot were to be made like Four Elements Square Regret Blood Refinement Pool, then when it was used outside his aperture, its might would be reduced greatly. And Cooking Luck Pot needed to be used outside the aperture.

When Fang Yuan fought Qin Ding Ling before, Qin Ding Ling targeted Fang Yuan's luck, but at the crucial moment, rank seven Cooking Luck Pot appeared above Fang Yuan's head to block Qin Ding Ling's rank eight luck path killer move.

At Fang Yuan's level, because the enemies were too strong and had many methods, his defense had to be all-rounded. Fang Yuan not only needed to protect his body and soul, he needed to maintain his luck as well.

The strongest experts placed great emphasis and importance on their own luck.

Because it could affect a major part of their strength!

Even the recently revived Demon Immortal Qi Jue had such thoughts. Back when he fought Qi Sea Ancestor and Qin Ding Ling above qi sea, in order to preserve his luck, he chose to retreat wisely.

Fang Yuan raised the rank of Cooking Luck Pot to protect his luck. Cooking Luck Pot's structure and origin made it such that it was weak in offense and strong in defending the Gu Immortal's luck. Luck path offensive methods were mostly in the true inheritances of all living beings luck and heaven and earth luck.

The luck path Immortal Gu used in Cooking Luck Pot were all rank eight and were enough to defend his luck.

Naturally, Cooking Luck Pot still had Immortal Gu that were not rank eight.

For instance, food path Immortal Gu Cook was still at rank seven.

It was not that Fang Yuan did not want to raise its rank, he lacked the corresponding rank eight food path immortal material. Four Elements Square Regret Blood Refinement Pool's blood asset Immortal Gu's situation was also the same, it was still at rank seven due to the lack of rank eight blood path immortal materials.

Rank eight food path immortal material and blood path immortal material were not easy to gather in a short period of time.

This was greatly related to their paths.

The more flourishing the path was, the more corresponding immortal materials there would be. They would be easier to gather and there would be many more Immortal Gu. There would also be a lot of Gu Immortals cultivating that path.

In Gu Immortal cultivation, the more Immortal Gu recipes were created, the more immortal materials were cultivated which then added on to the prosperity of the whole path.

Food path and blood path were never truly prosperous, there were also few Gu Immortals who cultivated them. Compared to food path, there were more blood path cultivators, but most of them were only Gu Masters. There were few blood path Gu Immortals, which was not much help in making blood path popular.

On one hand, it was because of Heavenly Court's Demon Judgment Board. On the other hand, Blood Sea Ancestor, who created blood path, was only at rank seven.

Speaking of it, luck path was also never prosperous, but because Giant Sun Immortal Venerable had created and developed it, its reputation was spread far and wide.

Gu Immortals who truly cultivated luck path were not numerous.

After Giant Sun Immortal Venerable passed away, there were almost no luck path experts in history. Maybe only Qin Ding Ling could be barely considered one.

The main reason was because Giant Sun Immortal Venerable had hidden his three true inheritances deeply and did not spread them wantonly.

Qin Ding Ling could become a famous luck path expert because she had derived some foundation from Giant Sun Immortal Venerable, and later, she changed her original path and spent countless years in comprehension before she was able to reach the success of today.

So, Fang Yuan felt extremely fortunate for being able to raise the ranks of so many luck path Immortal Gu.

Because luck path was not prosperous, it was difficult to gather luck path immortal materials. He was able to loot so many luck path immortal materials from the two heavens' grotto-heavens, which was something that would not happen frequently.

Naturally, the success in refinement was mostly due to Four Elements Square Regret Blood Refinement Pool.

Without Four Elements Square Regret Blood Refinement Pool, then it would have been impossible!

Four Elements Square Regret Blood Refinement Pool had fifty to sixty percent success rate in refining rank eight Immortal Gu. This success rate was enough to mass-produce rank eight Immortal Gu.

A higher success rate led to lower expenditure of immortal materials, which saved Fang Yuan a large amount of luck path immortal materials.

If it were an ordinary Gu Immortal who had all of Fang Yuan's luck path immortal materials and they were able to advance just one rank eight Immortal Gu successfully, they would already be immeasurably thankful.

When ordinary Gu Immortals refined rank eight Immortal Gu, their expenditure of immortal materials would be at least more than ten times of what Fang Yuan used!

Old Ancestor Xue Hu was a good example.

To gather materials to refine rank eight Fortune Rivalling Heaven, he spent all of his accumulations and even squeezed his subordinates dry, finally leading to the collapse of the whole of Snowy Mountain blessed land.

This was still the case when Old Ancestor Xue Hu had captured Ma Hong Yun, which saved him a large amount of luck path immortal materials!

Forget about Old Ancestor Xue Hu, even Giant Sun Immortal Venerable and Thieving Heaven Demon Venerable had to cooperate with Long Hair Ancestor for Gu refinement.

With Four Elements Square Regret Blood Refinement Pool, Fang Yuan's refinement path strength was absolutely among the top three in all of history. This advantage was just brought into play and had already shown a frightening performance, the benefits it brought were unimaginable for outsiders!

At least, Fang Yuan was aware that even Long Hair Ancestor, who had once cooperated with Giant Sun Immortal Venerable, did not have as high of a success rate as him.

A new issue propped up in front of Fang Yuan, he was slightly worried of being too successful in advancing his Immortal Gu to rank eight; with too many rank eight, he would have to worry about their food.

The food of rank eight Immortal Gu was a lot more difficult.

Back then, to feed regret Gu, Fang Yuan directly created an enormous flower mist extreme marsh!

But Fang Yuan was already prepared in this aspect, his wisdom path attainment had always been supporting him silently.

Fang Yuan learned from Time Difference grotto-heaven and did not hesitate on spending a large amount of material resources and effort in constructing year essence sub-pools, which he spread over the whole of the sovereign immortal aperture, creating various time path zones.

With these zones and the help of over nine thousand heaven path dao marks, the problem of feeding rank eight Immortal Gu was alleviated to a huge degree.

Fang Yuan willed and activated rank eight Cooking Luck Pot to inspect his luck.

Cooking Luck Pot quietly floated above his head, it was slightly drifting earlier but was now stationary as it started to rotate slowly.

The previous Cooking Luck Pot's rank was lower than Fang Yuan's which led to Fang Yuan being unable to inspect all of his luck; every time, he could only inspect the portion inside the pot.

But now, Cooking Luck Pot could bear all of Fang Yuan's luck.

Fang Yuan could finally witness the complete form of his luck again.

His luck was like a pure silver pillar of light, even though it was slim, it was tall, shooting towards heaven, seemingly trying to pierce the sky.

At the bottom of this dense pure silver light pillar, there was a lump of yellow qi guarding it, looking like a dust cloud that seemed to support the pillar.

At the top of the pillar, there were three clouds, one was black as ink, one was golden and dazzling, one was shining with starlight.

Such a scene made Fang Yuan fall into contemplation.

After a long while, he collected his thoughts and observed the luck again.

But this time, he did not observe his own luck, but looked at his clones' luck outside Cooking Luck Pot.

Among the clones' luck, the most majestic and grand naturally belonged to the Qi Sea clone.

Qi Sea Ancestor's luck was like the ocean. Milky white qi currents flowed, becoming endless sea waves.

"The Qi Sea clone's luck fits his name, they are both a qi sea." Fang Yuan knew the reason.

The luck's appearance was tightly connected with the individual's condition.

Qi Sea Ancestor's qi sea luck not only originated from his name, but also because he took command of qi sea and controlled the qi sea formation. More importantly, several days ago, Fang Yuan had completely handed the killer move unlimited qi sea to the Qi Sea clone.

It was because the Qi Sea clone wanted to create his own combat system and wanted unlimited qi sea to be its core.

"The Qi Sea clone possesses over two million qi path dao marks, has many qi path Immortal Gu along with the complete Primordial Origin qi path true inheritance, and is also the Righteous Qi Alliance's alliance leader. All these reasons gave birth to such a boundless white qi sea luck."

"But although this white qi sea is enormous, the qi currents are moving in disorder and chaos, which shows hidden undercurrents and threats."

Fang Yuan thought carefully and felt this hidden threat originated from two aspects.

First, the Qi Sea clone was attempting to create a combat system which was causing his thoughts to be in chaos. If he succeeded, maybe the qi sea would recover. if he failed, this internal chaos might still continue.

Second was the Qi Sea clone's clone identity. The relationship of the Qi Sea clone and the main body was not exposed but there was the danger of it being exposed at any time. Demon Immortal Qi Jue already knew this but was suppressed by Divine Emperor City.

Once this secret was revealed, it would have a severe impact on Qi Sea clone, which was why there was a possibility of the qi sea luck falling apart.

“The Qi Sea clone is my strongest clone, he has rank eight cultivation and pseudo venerable battle strength. So, he has such a vast milky white qi sea luck. But it can be seen from this that the Qi Sea clone has a flaw; there is limited space to progress and grow.”

Fang Yuan compared his own pure silver light pillar with the milky white qi sea luck, he could clearly see that the pure silver light pillar was shooting up towards the sky while the qi sea luck’s foundation was unstable, it could only suppress his current situation.

“If the qi harvest fruit plan shows results, maybe the qi sea luck could reach the clouds as well. Unfortunately, the qi harvest fruits left in the two heavens’ grotto-heavens are showing extremely slow growth. It will be very difficult for them to give any qi path dao marks to the Qi Sea clone anymore.”

Chapter 2081 - Luck of Fang Yuan“s Clones

2081 Luck of Fang Yuan“s Clones

Second to the Qi Sea clone’s luck was Wu Shuai’s luck.

His luck had weakened by a lot.

Dragon Palace was destroyed and could not be constructed within a short period of time, the Four Dragon Generals were dead, and even Di Zang Sheng was suppressed in Heavenly Court.

Wu Shuai’s luck still had the flying dragon’s form. This was closely related with his dragonman identity.

When observed carefully, Wu Shuai’s dragon luck seemed to be formed from ants.

The countless ants gathered to form an ant-dragon luck.

“Besides handling the variant human alliance’s affairs as my representative, Wu Shuai is researching enslavement path methods to increase his battle strength. This is why there is the ant-dragon luck.”

Fang Yuan observed his time path clone’s luck.

The time path clone’s luck was still in the shape of a miniature River of Time. But compared to before, it was much more vast and the water was flowing rapidly.

Zhan Bu Du’s eagle luck had not changed much.

But Li Xiao Bai’s luck had a huge change in appearance.

His luck had been a blooming flower with thin layers of nectar in its pistil, which signified how Li Xiao Bai’s cultivation would improve back then.

But now, his luck’s appearance had changed into a white wall.

There were three poems on the wall with different lengths. When read carefully, it was clear they were the three masterpiece poems that Li Xiao Bai had ‘created’.

Every letter of the poem was pitch-black, which was even more conspicuous on the white wall.

Moreover, countless dark, inky characters were flying around the white wall, about to fly into the wall.

“This is his poem wall luck.” Fang Yuan realized in his mind.

After Li Xiao Bai obtained the Book House inheritance, he progressed rapidly, walking on the path of becoming renowned in the world.

Not only did he change his vital Gu, he also roamed the world to collect poems, and formed three killer moves with the poems he created (copied and stole).

These three information path killer moves made him the number one Gu Master in Profound Literature grotto-heaven and also the Gu Immortal seed who was looked upon favorably by countless people. There were even discussions saying he was a talent that was hard to come by in several hundred years!

Li Xiao Bai’s outstanding achievements naturally attracted Old Immortal Hua Yu’s attention.

There were all kinds of indications that Old Immortal Hua Yu had decided to nurture Li Xiao Bai with all his strength!

The Qi Sea clone and Fang Yuan’s main body were aware of Li Xiao

Bai's recent condition, but they did not interfere and only watched from the side.

Back when Fang Yuan had created Li Xiao Bai, it was to scheme for Profound Literature grotto-heaven's information path inheritance to fill the deficiency in his information path aspect.

However, because Profound Literature grotto-heaven was an information path grotto-heaven with extremely strict monitoring, Fang Yuan could not give too much support and Li Xiao Bai had to move ahead by himself.

The result was that only after Fang Yuan had gone through the fate war, the pursuit battle, killed Spectral Soul, and resolved the issue of heaven path dao marks did Li Xiao Bai finally show some advancement and progress.

Moreover, Profound Literature grotto-heaven was also in the Righteous Qi Alliance, most of the contents of its information path true inheritance could be obtained through the internal exchange between Righteous Qi Alliance members.

This was life.

Sometimes, plans could not keep up with changes; sometimes, changes could not catch up to plans.

Like this, the chess piece Li Xiao Bai had a new arrangement.

So, Fang Yuan was going to let him develop naturally.

Last was the pure dream clone's luck.

The pure dream clone was still at rank five level, the Pure Dream Reality Seeker Physique body would attract dream path calamities and tribulations when undergoing immortal ascension. Even the current Fang Yuan did not have confidence to deal with it.

But the pure dream clone's luck had also changed.

His luck was like a drifting pink fog that fluctuated constantly. But this lump of pink fog had condensed now, becoming a sandbox.

The sandbox was still pink in color, it was very small but yellow sand entered it continuously, turning into pink sand that strengthened the sandbox.

“Sandbox luck… what is this trying to say?” Even Fang Yuan was puzzled.

After activating wisdom path methods, Fang Yuan’s eyes shone sharply as he made some guesses, but they had to be confirmed.

Fang Yuan counted; unknowingly, he had already created eight clones.

Creating these clones was one of the gains Fang Yuan had from studying Spectral Soul.

Spectral Soul relied on clones to create Shadow Sect and Zombie Alliance. Fang Yuan’s clones also gave him huge help.

“Among the eight clones, only Fang Di Chang was sacrificed. Huh? Wait, this is…” Fang Yuan suddenly discovered a piece of luck.

This piece of luck was vague, almost transparent, and gave an extremely weak feeling.

Fang Yuan had almost missed it, but after carefully observing it, he showed pleasant surprise: “This is Fang Di Chang’s luck? He is still alive!”

During the fate war, Fang Yuan was schemed by Genesis Lotus, not only losing Divine Bean Palace but also Fang Di Chang.

Such a long time had passed, Divine Bean Palace had already combined with Emperor City to form Divine Emperor City, becoming the number one Immortal Gu House in the world; Fang Yuan thought Fang Di Chang was already done for.

But he had never expected to gain some clues from this round of luck inspection.

“How did I not discover it before?”

"I see."

"Cooking Luck Pot has just advanced to rank eight, my luck inspection method is many times more powerful than before. Also, it is clear that Fang Di Chang made some progress in this recent period of time. Combining both of these causes, my connection with him was strengthened by a lot and I am able to see his luck now."

Although Divine Emperor City possessed painting worlds, Genesis Lotus Immortal Venerable, who had left behind the killer move contented lifestyle, was active before Giant Sun Immortal Venerable.

Because of this, Divine Emperor City was rather weak in the aspect of luck path.

Discovering Fang Di Chang was alive and strengthening himself, this was a pleasant surprise. But Fang Yuan did not change his plan.

He had no plans to attack Divine Emperor City in the short term.

Divine Emperor City was not a Gu Immortal, its methods were fixed and hard to change, it was not a problem to let it be. And Fang Yuan was a pseudo venerable who had finally gotten the opportunity to rest and recuperate safely, it was a splendid time for him to focus on cultivating.

Four Elements Square Regret Blood Refinement Pool was constructed and most of the grotto-heavens had yet to be devoured, Fang Yuan's strength would soar without stopping now. Why would he take the risk during this precious period of time to fight Divine Emperor City?

After inspecting his and the clones' luck, Fang Yuan understood a lot.

Cooking Luck Pot could allow Fang Yuan's main body to greatly increase his clones' luck, but Fang Yuan did not do so.

On one hand, the situation of both the main body and the clones was much better. After getting through the previous predicament, their luck was spontaneously rising, it was the so-called 'when misfortune reaches the limit, good fortune starts to rise'. So there was no necessity.

On the other hand, what this consumed was not immortal essence, but the luck of Fang Yuan's main body. After all, it increased the clones' luck by using the luck inside the pot.

"I should refine wood path Immortal Gu now." Fang Yuan once again invested in his Gu refinement project.

As for why he chose wood path, the reason was simple.

Fang Yuan had gathered a lot of wood path immortal materials and they were enough for refinement. The variant human alliance's Xiao He Jian and Green Forest Great Sage were rank eight miniman Gu Immortals, their grotto-heavens were wood path grotto-heavens which provided enough wood path immortal materials.

"Let's first raise Immortal Gu Heavenly Essence Treasure Imperial Lotus to rank eight."

Divine Emperor City, painting world.

In the newly added growling beast painting world, a camp was being constructed rapidly.

The camp's location was selected after careful thought, it was in a strategically located area and there was a stream flowing near it.

Zhao Shu Ye was standing on a boulder and commanded the hundred craftsmen in constructing the camp.

"Although craftsman Gu has weak battle strength, it has broad usage." Fairy Bi Xia was standing beside Zhao Shu Ye and praised as she looked at the busy work site.

Zhao Shu Ye's head immediately lifted as he said proudly: "It is our Fairy Bi Xia who has good foresight. Craftsman Gu's prospects are much higher than thief Gu, soldier Gu, and officer Gu. Besides processing immortal materials and constructing Gu houses, it can also refine Gu!"

Fairy Bi Xia nodded: "Yes, if not for your craftsman Gu, how could we have constructed ten camps and explored deeper into the growling beast painting world. But, how can you control so many craftsmen alone? This is an enormous burden to the mind. Did you use organization Gu?"

Organization Gu was a type of human path Gu worm which allowed human Gu to form a group. Fang Di Chang's sect token Gu was also of this type.

Zhao Shu Ye laughed heartily and did not hide it: "Right, I used labor union token Gu and constructed a labor union. I am carrying union head Gu and gave supervisor Gu to twelve or so high ranked craftsman Gu. I have given one vice union head Gu out as well and still have three in my hand. No need to hurry, as my labor union continues to grow, they will have ample scope to show their abilities."

The two were discussing when the emergency bugle was played.

Fairy Bi Xia's expression had a slight change: "Beast groups came to attack again."

Zhao Shu Ye said indifferently: "With Xiao Qi Xing and others here, we don't need to worry."

Sure enough, at the next moment, Xiao Qi Xing's voice spread throughout the camp: "All forces, attack!"

Thump thump thump thump thump…

There was a series of footsteps, and as the white smoke was blown away by the wind, the wide camp was filled with soldiers.

Soldier Gu were in the highest number, there was the small group leader level sergeant Gu, lieutenant Gu, the higher ranked captain Gu and even chief captain Gu were used.

The size of Xiao Qi Xing's army had increased again in this period of time.

Divine Emperor City was truly the sacred land of human path cultivation!

The army charged towards the beast tide, both sides collided like huge sea waves.

After the stalemate lasted for a while, the orderly battle lines began to show uneven gaps; a large number of wild beasts and soldiers had died in the most intense areas. Immediately after, these gaps were filled by soldiers and beasts.

Roar—!

Several powerful beasts appeared. Their size was clearly larger than others, like fortresses rampaging on the battlefield.

Xiao Qi Xing's expression showed a trace of seriousness: "The deeper we go in, the stronger the beast groups are. Everyone, please make your moves."

"Alright." Chen Da Jiang, Gu Ting, and the rest began to attack.

This large battle lasted for an hour, the beast tide retreated, and there were casualties in Xiao Qi Xing's group as well.

After half a day, the camp's construction was finished. The supply group along with merchants, peddlers, citizens, and even beggars settled in the camp.

These camps were like the strongest nails that were firmly fixed in their position, becoming the support for the ten children of human path to explore deeper.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2082 - Defeated Army

Chapter 2082 Defeated Army

“Sect leader.”

“Sect leader.”

Fang Di Chang walked to a hidden corner of the camp where he was greeted by two to three beggars.

Fang Di Chang also had a beggar’s appearance with ragged clothes and foul odor coming off of him.

The ten children of human path organized a large army and entered the newly appeared growling beast painting world, playing the role of pioneers. At every set interval of distance, they would construct a stable camp before the logistics and support came to fill the camp, giving ample supplies to the army led by the ten children of human path.

Fang Di Chang had been following in secret and also mobilized Beggar Sect to look for an opportunity.

“How is the situation?” Fang Di Chang asked.

“Our sect brothers have been following the pioneering army.”

“Sect leader, the situation is good. We gathered many wild beast corpses and valuable skin and fur. We are going to be rich!”

“It is just that we got into a conflict with some merchants and guards because of this.”

Fang Di Chang frowned: “What are the casualties?”

His Beggar Sect developed quickly, its members were not only the human path Gu worms he used, there were also many of Divine Emperor City's native beggars.

Hearing the number of casualties, Fang Di Chang's frown became deeper.

"Although Beggar Sect is easy to grow, beggar Gu are the cheapest human path Gu worms with very low battle strength. They are disadvantaged when facing merchants, guards, and others. Only by uniting and forming a numbers advantage will they not suffer losses."

Fang Di Chang sighed inwardly, Beggar Sect seemed to be enormous but it did not have much strength. It was not reliable to use Beggar Sect to deal with the ten children of human path in the future.

Fang Di Chang entered the tenth camp, but the ten children of human path had already marched even further and were constructing the twelfth camp.

"I can only rely on the beast tide now. The deeper we enter growling beast painting world, the stronger the beasts become."

Fang Di Chang's only hope was for the beast tides to defeat the ten children of human path.

Not only defeat, it would be even better if they suffered serious loss with casualties. Only then would Fang Di Chang have an opportunity to exploit.

"I can do nothing about this, my current strength is too low. The only thing I can use is Beggar Sect. The ten children of human path are all Gu Masters and possess primeval essence, they can only maintain their human path Gu worms for some time. But I am using Shen Shang's immortal essence, which is akin to unlimited primeval essence, so I can maintain these beggar Gu all the time."

As Fang Di Chang thought up to this point, his gaze suddenly darkened and a feeling of weakness spread from the depths of his body.

Fang Di Chang quickly took out human will Gu and placed it in front of his nose, breathing in deeply.

A gust of human will was absorbed into his body and merged with his will.

Fang Di Chang's body was formed from a beggar Gu, it did not have a soul and only a will. And a will was difficult to maintain and would be expended rapidly when thinking.

Fortunately, in Divine Emperor City's painting world, there was human will Gu.

Human will Gu produced human will, which could change into any form of will. With its help, Fang Di Chang's will could continue to exist and be active.

At this time, in the depths of the growling beast painting world.

A lifelike will was floating in the air.

He was wearing a green and white robe, he had a gentle demeanor and had a smile on his face; he was Genesis Lotus' will!

And below him, Mao Li Qiu was lying on the ground in a curled up position. It was bound by a huge formless force, making it unable to even budge.

Not only this, another powerful force was constantly extracting its dao marks.

"Dog shit Genesis Lotus, release me and fight me if you have the guts!" Mao Li Qiu shouted.

Genesis Lotus' will shook his head: "Mao Li Qiu, are you still not conceding? You are in a hopeless situation, unless Giant Sun Immortal Venerable revives and comes to save you, your death is certain."

"And you yourself are aware that there is no hope for that. Your only chance at survival is to surrender."

"Otherwise, as time passes, your strength will continue to fall. Until… you die."

Genesis Lotus' will urged, his voice was persuasive and his expression was kind.

Mao Li Qiu, however, roared in fury: "Then so be it, I don't want it, you can take all my dao marks!!"

Genesis Lotus' will was astonished.

At the next moment, Mao Li Qiu not only released all his defense but also cooperated with the absorption force, abandoning his dao marks.

Amidst the dazzling profound light, countless dao marks spread towards the surroundings and entered growling beast painting world.

Some dao marks fell to the ground, turning into giant beasts of all kinds of sizes and shapes; some dao marks flew to the sky, condensing together into vicious birds that covered the sky.

The painting world was extremely profound, it could collect external dao marks and paint them into all kinds of birds and beasts.

But at this moment, with Mao Li Qiu's full cooperation, the painted beasts surged in amount and soon surpassed the safety boundary.

"Oh no." The expression of Genesis Lotus' will changed, not having expected Mao Li Qiu to be so impulsive.

It was suppressed in the painting world, although it had a way to attack, it still had enough strength to defend. If it defended with all its strength, it could last for a long time. Therefore, Genesis Lotus' will came to persuade it to surrender.

To Mao Li Qiu, the most sensible path would be to let the painting world wear down its strength bit by bit while holding on for as long as possible.

Like what Demon Immortal Qi Jue was doing; he was suppressed by Divine Emperor City and could not break free on his own, but he placed his hopes on the future.

Who could be certain of the future?

But Mao Li Qiu did not follow this logic, it went against the plan of Genesis Lotus' will.

An unprecedented violent beast tide formed and rushed madly towards the army of the ten children of human path!

The ten children of human path had a huge change in their expressions the moment they saw the beast tide.

"Retreat, this beast tide is too fierce!"

"Even if we use all our strength, we are not their match."

"Retreat, the urgent matter is to preserve our energy for later."

The ten children of human path were all elites, they retreated without hesitation.

But retreating was not easy, the beast tide was like a tsunami that threatened to drown the world. Many birds moved faster than the beasts and pestered the pioneering army.

The ten children of human path fought a bloody battle and were finally able to carve a path out.

When they reached the eleventh camp, the whole army was reduced by half, they suffered immense losses!

The beast tide continued to rush forward as if it was endless!

The camp was constructed properly and had thick defense, but it was quickly showing signs of collapsing under the beast tide's charge.

"Heavens, looks like we have completely angered these beasts."

"This beast tide is so fierce, even if we add all the previous beast groups, they are not even one-tenth of this."

"Retreat!"

The ten children of human path retreated to the tenth camp.

Fang Di Chang had already left earlier.

He had already received the information, and understanding the strength of the beast tide, he knew the tenth camp was definitely going to collapse.

Although he wanted to look for an opportunity to retaliate, he did not want to disregard his own safety. In fact, with just Beggar Sect's strength, he might not be able to get revenge even if he staked his life.

The tenth camp also fell and was run over by the beast tide.

The ten children of human path could only retreat again and again, the beast tide also paid the price, but the scale was truly too large. It could completely bear the price!

Finally, the terrifying beast tide chased away all the humans.

The painstakingly built camps were destroyed with not even one remaining.

Not even ten percent of the troops following the ten children of human path survived, the other residents of the painting world faced even more severe losses.

The surviving group of people were in an extremely miserable state, they were all shocked and terrified.

The city gate closed shut. The city guards looked solemn, the beast tide had arrived in front of the city!

The ferocious beasts did not stop and began to attack the city.

The offensive and defensive battle lasted for three and three nights, the city was actually on the losing end. Many times, giant beasts directly climbed the city walls and carved a path of blood on their way to the inner areas, causing massive casualties.

At the crucial moment, large numbers of divine bean soldiers appeared and participated in the defense, beating back the beast tide.

"The divine bean soldiers are working for us!"

"Right. This was Divine Bean Palace's killer move, and after we succeeded in slaying the immortal, the divine bean soldiers became our helpers."

The ten children of human path were shocked and joyous, as well as deeply regretful.

Their losses were too severe this time, almost all their previous accumulations were gone. The only fortunate thing was that none of them had died.

Fang Di Chang had already left this city to a much further area.

Beggar Sect's losses were also big.

The crushing defeat that Fang Di Chang hoped for had happened, but this level surpassed his expectations. Still, the ten children of human path helped each other and were united, he did not find any chance to attack them.

The beast tide disappeared, the large number of wild beasts returned to growling beast painting world. They scattered everywhere, making the difficulty of exploring growling beast painting world much higher than before.

The painting world was like a huge beast that was licking its wound. The claw that had stretched into growling beast painting world earlier had almost shattered.

"I did not expect growling beast painting world to be so dangerous, it can be deduced the other painting should also be at a similar level." Shen Shang found Fang Di Chang.

The two exchanged information.

Fang Di Chang informed Shen Shang about the intel collected by Beggar Sect, for instance, the losses of the ten children of human path, as well as Ye Fan and Hong Yi's performance in this expedition.

And Shen Shang informed Fang Di Chang of a huge discovery.

Shen Shang was the person who had explored the deepest and he witnessed the scene of the beast tide transformation!

“Using dao marks to paint, sure enough, painting path’s methods are mysterious and exceptional. But if so….” Fang Di Chang analyzed, “It seems like growling beast painting world is suppressing a great enemy of Heavenly Court in its depths. The battle between the beast tide and the humans is essentially a method to weaken this enemy and increase the suppression.”

Shen Shang approved of Fang Di Chang’s analysis as he said: “I wonder who is being suppressed inside? They are at least a rank eight Gu Immortal! The enemy of an enemy is a friend, we might have a chance of cooperating.”

“The losses to the army were severe this time, only one-tenth survived. In a short period of time, it should not be possible to organize an exploration army. Do we use this chance to go to the depths of the painting?” Fang Di Chang shook his head, “No, those beasts don’t care about anyone.”

Shen Shang nodded: “The gap between immortal and mortal is not large in this painting world. It seems we can only wait for the exploration army to be organized again. We can then take the chance to go deeper.”

When the large battle between the humans and beasts had settled in the painting world, Fang Yuan had secretly arrived in Mushroomman Paradise.

Heavenly Essence Treasure Imperial Lotus was successfully raised to rank eight and Fang Yuan also created a large number of compound killer moves.

Over on the Qi Sea clone’s end, the Qi Sea clone contacted Heavenly Court again and again to organize an alliance army to attack Fang Yuan’s variant human alliance. But although Heavenly Court had agreed, they did not show any signs of taking action.

Such an attitude made Fang Yuan believe the severity of the situation.

Mushroomman Paradise’s entrance opened, Lu Wei Yin personally welcomed Fang Yuan to the depths of the blessed land.

They had just sat down when Fang Yuan asked: “Is Spectral Soul still alive?”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2083 - Lu Wei Yin’s Invitation to Tea

2083 Lu Wei Yin’s Invitation to Tea

Gurgle gurgle!

The tea was boiling and was letting out yellowish-brown strands of steam.

In the small wooden cabin atop the mountain, experts that could influence the world were sitting in front of a small tea table.

One was the number one demon in the current world — Gu Yue Fang Yuan.

The other was Southern Border’s Paradise Earth inheritor Lu Wei Yin. His comprehensive battle strength might not reach pseudo venerable level, but his defensive prowess was enough to compete against a pseudo venerable.

The fresh mountain air blew in from the open window, mixing with the fragrance of the tea.

Fang Yuan gazed afar, outside the window were tall mountains and clean rivers, looking like utopia. Cranes flew, apes shrieked, desolate beasts and plants were abundant and docile.

There were treehouses and villages around the mountains, lots of commotion could be heard from chickens and dogs, there were columns of smoke rising from houses, it was a serene and tranquil atmosphere.

In the sky, there were many floating mountains. These mountains were made from float soil and could stay in the sky, there were many specialties in each mountain, their environments varied. Some had long green vines that extended like hair. Some had drizzles and beautiful rainbows. Some had waterfalls with huge crashing torrents that gathered in huge pools.

And this mountain that Fang Yuan was on stood majestically on the ground and was the tallest mountain in Mushroomman Paradise.

Fang Yuan had just sat down when he asked Lu Wei Yin: Was Spectral Soul still alive?

Lu Wei Yin only smiled and did not reply, instead concentrating on making tea.

The tea was prepared.

This was extreme serene mind tea, it was created with rank eight immortal materials. The tea fragrance was refreshing and seemed to be mixed with the smell of soil after rain.

The tea, the location, and Mushroomman Paradise itself seemed to complement each other. Right now, they were not distant immortals who were high and mighty, but were instead experiencing the joy of an ordinary farmer's life and the tranquil state of mind.

"Please." Lu Wei Yin handed the tea cup to Fang Yuan with both hands.

The tea had been boiling hot just earlier, but in just a few breaths of time, the steam disappeared and the tea turned into cooled tea[1].

Fang Yuan took a sip, but Lu Wei Yin directly lifted the large bowl-sized cup and took huge mouthfuls.

Fang Yuan's eyes shone, he gained some insight and copied Lu Wei Yin's drinking method.

Gulp.

His Adam's apple moved up and down as Fang Yuan took a large mouthful of tea.

This time, Fang Yuan had a very different feeling. The tea was not ice cold, but there was a gentle coolness that seeped into Fang Yuan's organs and intestines. His internal heatiness[2] was swept away, the tea was mellow and refreshing along with a trace of sweetness.

Gulp, gulp, Fang Yuan finished the whole cup of tea.

"Good tea." He had a peculiar expression when he placed the tea cup down.

That one bowl of tea had added one thousand earth path dao marks in his body!

When a Gu Immortal passes a heavenly tribulation, they would only obtain seven hundred and fifty dao marks. And earthly calamities normally gave two hundred and fifty.

This extreme serene mind tea actually increased so many dao marks. It was akin to a Gu Immortal risking their life to pass a heavenly tribulation and an earthly calamity.

Lu Wei Yin spoke slowly: "This Mushroomman blessed land received Paradise Earth Immortal Venerable's help and turned into a paradise, thereby being free from calamities and tribulations. Paradise Earth Immortal Venerable also left behind his Virtue true inheritance here, so this Mushroomman Paradise's name became Virtue Paradise."

"Before Paradise Earth Immortal Venerable became venerable, he cultivated and studied in this place. When he became venerable, he changed this place into Virtue Paradise and lived here for some time. Lord Paradise Earth Immortal Venerable created extreme serene mind tea during this period of time."

"Although food path was passed down, it was kept secretive by Spectral Soul and was almost never exposed to outsiders. Lord Paradise Earth Immortal Venerable spent his life mending the disaster caused by Spectral Soul and brought order to the chaotic world. Thus, he did a deep research on food path."

"He left behind many of his food path gains in Virtue true inheritance. In his view, food path had huge potential but there were too few people cultivating it. If it was truly developed, it could bring fortune to the world. For instance, this extreme serene mind tea is essentially a food path killer move formed from expending rank eight immortal materials. So, it can add earth path dao marks."

"The talent of a venerable is truly deep and unfathomable." Fang Yuan praised.

Paradise Earth Immortal Venerable created the killer moves suffering loss is a blessing and all life is bitter to counter Spectral Soul's food path methods. These two methods played a crucial role during the ambush of Spectral Soul.

But Paradise Earth Immortal Venerable did not stop here, he pushed food path to an even higher level!

In the present five regions Gu Immortal world, almost all the tea and wine were incomplete food path Gu recipes. This was already acknowledged by Gu Immortals.

Just drinking wine or tea was merely to delight the tastebuds and show off one's wealth, or maybe display the results of one's refinement path improvement.

Paradise Earth Immortal Venerable, however, completed this aspect and turned tea and wine into food path killer moves. Like this, food path finally showed its own unique splendor!

"Paradise Earth Immortal Venerable's food path methods can change tea and wine into killer moves. After tasting the food, Gu cultivators can increase their dao marks. This is a method that can change the entire structure of the Gu Immortal world!" Fang Yuan realized.

The influence of this method was enormous!

In history, the main source of dao marks was to undergo tribulations.

But this food path method broke away from this situation.

Fang Yuan had eat strength Immortal Gu and could do this. But Immortal Gu were unique, while Paradise Earth's food path method could be learned and referenced to create a number of other similar killer moves.

Eat strength Immortal Gu could not be popularized, but killer moves could be spread everywhere, these were two different concepts!

Fang Yuan's gaze turned deep and dark.

Just this extreme serene mind tea was enough to show Lu Wei Yin's deep accumulation and foundation.

This Virtue Paradise had deep foundation and did not lack rank eight earth path immortal materials. Lu Wei Yin could simply use this tea to accumulate earth path dao marks beyond common sense.

It was no wonder he could fight Spectral Soul.

Fang Yuan looked beyond the window once again and at this Mushroomman Paradise. His previous evaluation of this place was raised by several times.

This food path method was extremely beneficial to Gu Immortal cultivation. Virtue Paradise had many Gu Immortals, these Gu Immortals' strength very likely surpassed other same ranked immortals.

But, since the start, Lu Wei Yin had only moved around by himself and did not reveal these other Gu Immortals.

This person's shrewdness and patience made Fang Yuan have a different view of him.

Sensing the deep meaning in Fang Yuan's gaze, Lu Wei Yin said modestly: "Fang Yuan, do not overestimate me and this Virtue Paradise. Although we have this food path method, the cost to use it is truly high. Virtue Paradise produces large quantities of earth path resources, but besides me, who cultivates earth path mainly, most of the Gu Immortals here are mushroommen and what they cultivate is poison path. There are also a few human Gu Immortals who cultivate wood path and water path."

"This food path method's efficiency is not that high. For instance, this bowl of extreme serene mind tea used a large number of rank eight earth path immortal materials to only give several hundred earth path dao marks."

"Of course, Fang Yuan, you have the sovereign immortal body which does not have conflicting dao marks, so your gains should be greater than normal."

Lu Wei Yin concluded: "Even Lord Paradise Earth Immortal Venerable said in his last words that this food path method is not even worth mentioning when compared to Giant Sun Immortal Venerable, Genesis Lotus Immortal Venerable, Red Lotus Demon Venerable, and other venerables."

Venerable methods were extremely majestic and could change the world.

For instance, Primordial Origin Immortal Venerable led humanity's uprising and founded Heavenly Court. Star Constellation Immortal Venerable created wisdom path and tricked heaven's will, setting the foundation for Heavenly Court to stand for countless years.

Giant Sun Immortal Venerable left behind his bloodline and created Eighty-Eight True Yang Building, taking the whole of Northern Plains as his courtyard.

Red Lotus Demon Venerable made arrangements that spanned over one million years to destroy fate Gu.

Genesis Lotus Immortal Venerable left behind his methods to create Divine Emperor City. The painting world developed and established the foundation of human path.

These were all arrangements that influenced not only one generation, they would result in endless development throughout the whole world!

Fang Yuan frowned as he guessed something from Lu Wei Yin's tone.

He directly asked: "Since Paradise Earth Immortal Venerable mentioned Genesis Lotus in his last words, did he already know Genesis Lotus Immortal Venerable would create Divine Emperor

City?”

Lu Wei Yin nodded: “When Lord Paradise Earth Immortal Venerable roamed the world and saved lives everywhere, he got familiar with Genesis Lotus Immortal Venerable’s methods. Back then, Genesis Lotus Immortal Venerable left behind Divine Bean Palace to restrict Spectral Soul and to plot against him when he had yet to be a venerable. Qing Chou’s core is hatred Gu which was formed through Divine Bean Palace, the relationship between Qing Chou and Divine Bean Palace is extremely close.”

“Genesis Lotus Immortal Venerable’s original plan was to merge Qing Chou, Divine Bean Palace, and Emperor City during the fate war to form Divine Emperor City and protect Heavenly Court.”

“However, a mishap occurred before this time. Fang Yuan, you collaborated with Fang clan to drive away Qing Chou and seized Divine Bean Palace. Even though Divine Bean Palace merged with Emperor City afterwards, it lacked Qing Chou.”

“Without Qing Chou, Divine Emperor City’s strength was incomplete. The will of Genesis Lotus inside it probably wanted to protect the human path gains, so it did not participate in the fate war.”

Fang Yuan’s expression was complex: “So it was like this.”

Genesis Lotus’ plan was originally perfect.

During the fate war, Qing Chou could sense the existence of Spectral Soul’s damaged soul, it would possess rank nine hatred Gu and have pseudo venerable battle strength. Not only could it help Duke Long to guard Heavenly Court, it could even exterminate Spectral Soul’s damaged soul.

Unfortunately, Fang Yuan unintentionally destroyed this plan.

Originally, Qing Chou had been nurturing hatred Gu inside Divine Bean Palace and strengthening itself. But after being driven away, this process was disrupted. Thereupon, during the fate war, Qing Chou did not have the expected battle strength and it was separated from Divine Bean Palace.

When the fate war ended, Genesis Lotus' will contacted Qin Ding Ling, which was why Red Heart Traveler and Nine Spiritual Fairy collaborated and secretly moved to bring back Qing Chou to Heavenly Court.

So in fact, it was not Genesis Lotus Immortal Venerable who plotted against Fang Yuan, but Fang Yuan who first broke Genesis Lotus Immortal Venerable's plan. This led Genesis Lotus' will to have no options left other than to appear suddenly during the fate war and modify his plan.

So then, why was Fang Yuan willing to accept the alliance agreement and cooperate with Fang clan to drive away Qing Chou?

The crucial key was great thief Immortal Gu.

After obtaining great thief Immortal Gu, Fang Yuan created great thief ghost hand with the rank nine killer move ghostly concealment as the core and the rank seven great thief Immortal Gu as a supplement, forcibly stealing rank eight Soul Beast Token from Qing Chou's body.

Without Soul Beast Token, Qing Chou's strength fell sharply, which led to Fang clan's victory.

And where did great thief Immortal Gu come from?

It was obtained by Fang clan from their Thieving Heaven true inheritance.

[1] This can be called herbal tea which is also literally cooling/cooled tea.

[2] Chinese medicine theory which is resolved by consuming 'cooling' food or drinks.

Chapter 2084 - Spectral Soul’s True Main Body

2084 Spectral Soul’s True Main Body

“So Thieving Heaven Demon Venerable did not just arrange heaven form, this is also another arrangement but I did not notice it earlier.” Fang Yuan thought to himself.

He suddenly had a thought as he asked: “Is Qing Chou also alive?”

Towards the end of the pursuit battle against Fang Yuan, Divine Emperor City came to participate in the battle, causing a huge commotion, was it really to suppress Demon Immortal Qi Jue and Longevity Heaven?

Fang Yuan thought about the fragments of Qing Chou’s corpse.

What was Divine Emperor City’s true motive?

It was a debatable question!

Lu Wei Yin’s expression turned solemn as he sighed: “I only got an answer after returning here and recuperating for some time. What was the main reason why Divine Emperor City joined the battle? In that situation earlier, the aura of rank nine hatred Gu was completely gone, it seemed to have been destroyed.”

“However, Qing Chou is a living being formed from a killer move. I cannot be certain if it is dead or alive. Genesis Lotus Immortal Venerable’s method is simply too unfathomable, we can only sigh in amazement!”

Turning a killer move into a legendary immemorial beast was simply too profound, even Fang Yuan and Lu Wei Yin could only watch without being able to decipher it.

Lu Wei Yin continued: “I cannot deduce Qing Chou’s current state, but regarding Spectral Soul’s situation, I am very clear about it.”

Fang Yuan smiled lightly: “Please tell me.”

Lu Wei Yin beat around the bush for so long, he finally got to the main point.

He answered: “Spectral Soul can be said to be both alive and dead at the moment. because his true main body has always been inside the Door of Life and Death.”

Fang Yuan nodded as he sighed: “As I had expected.”

When Spectral Soul self-detonated, Fang Yuan already felt something amiss. After refining all of his heaven path dao marks, Fang Yuan thought back about the situation and had even more suspicions brewing.

The great Spectral Soul actually died like this?

Spectral Soul was the most heaven defying one out of all the venerables after all!

In the five hundred years of Fang Yuan’s previous life, Zombie Alliance was around while Shadow Sect hid in the dark, Spectral Soul secretly controlled the whole of Heavenly Court. Duke Long did not appear at all, he was evidently harmed by Spectral Soul. He even plotted against Feng Jiu Ge, using that chance to seize Lang Ya blessed land, he controlled the overall situation and was the mastermind behind the five regions chaotic war.

As long as Great Dream Immortal Venerable did not appear, Spectral Soul would be the greatest winner in this situation.

Thus, Fang Yuan invaded Hu Immortal blessed land and was aided by Song Zhong, managing to kill Feng Jin Huang.

Who was Feng Jin Huang?

In her childhood, dream wings Immortal Gu came to her, Feng Jin Huang was the prospective Great Dream Immortal Venerable!

Who was Fang Yuan?

He was an otherworldly demon, before Fate was destroyed, he was the only one who could create different outcomes.

And who was Song Zhong?

He was publicly Song Zi Xing's son, but in reality, he was created from his blood fetus.

And Song Zi Xing?

He was known as the Blood Dragon, he was a member of Shadow Sect, one of Spectral Soul's split souls!

In the five hundred years of Fang Yuan's previous life, there were many hidden truths.

At that time, fate Gu was not destroyed, Demon Immortal Qi Jue could not revive, the other venerables could only watch as Spectral Soul wreaked havoc.

Spectral Soul was too overbearing, in the end, heaven's will had to choose Fang Yuan to return to the past and change everything!

During the Battle of Yi Tian Mountain, on the surface, Fang Yuan successfully stopped Spectral Soul.

But was that really the case?

Spectral Soul knew that Fang Yuan had been reborn as a result of heaven's will. According to his original plan, he would be able to control Heavenly Court and manipulate the five regions chaotic war, but heaven's will would still obstruct him. If Fang Yuan failed, a second or third otherworldly demon might appear, Spectral Soul would never be able to stand at the peak of the universe.

Thus, he changed his plan, at that moment, he started working together with Red Lotus Demon Venerable.

Eventually, he gave sovereign immortal fetus Gu to Fang Yuan, creating a complete otherworldly demon!

After the fate war, fate Gu was destroyed by Fang Yuan.

Spectral Soul wanted to reclaim the sovereign immortal body.

His plan was perfect. He had no lack of soul path attainment level, with the sovereign immortal body, he would be able to annex Soul Pacifying grotto-heaven and others, instantly regaining his strength!

Thus, he would be ahead of the other venerables, he would have the initiative.

The advantage of being first was unimaginable, if Spectral Soul succeeded, he would be the strongest person, the entire world would be trampled under his feet.

But he did not succeed.

Red Lotus Demon Venerable plotted against him, while the heaven path dao marks restricted Fang Yuan, they also protected him.

Spectral Soul did not regain the sovereign immortal body, his growth became very different.

While chasing after Fang Yuan, Heavenly Court and Longevity Heaven worked together, Paradise Earth Immortal Venerable’s inheritor Lu Wei Yin also interfered, eventually managing to kill Spectral Soul.

Fang Yuan tried to put himself in Spectral Soul’s shoes, if he were Spectral Soul, what would he do?

Thus, he found a huge flaw in Spectral Soul’s plan —

It was too risky!

During the dream realm battle, Duke Long defeated Purple Mountain

True Monarch and broke into the blessed land, capturing Spectral Soul and taking the Door of Life and Death.

Spectral Soul's life was in the hands of Heavenly Court, if Fairy Zi Wei did not go after information and clues but killed Spectral Soul right away, would that not ruin everything?

Fang Yuan would not make such an arrangement if it were him.

What about Spectral Soul?

Even though he had the strongest killing nature, he was not stupid at all.

Thus, the most likely case was that the captured Spectral Soul was not the true main body of Spectral Soul!

If Fang Yuan were Spectral Soul, he would also create a clone to disguise as his main body and let Heavenly Court capture him.

Firstly, it would lower the enemy's guard.

Secondly, the clone was a trap as well, Fairy Zi Wei fell right into it.

Thirdly, the amount of information and true inheritances that the clone had would not be the same as the main body, even if he was captured, the enemies would not gain much.

And finally, even if the clone was killed, the main body would not be affected.

Fang Yuan had two pieces of evidence regarding his suspicions of Spectral Soul.

The first one was Demon Immortal Qi Jue.

Demon Immortal Qi Jue was the crucial person in their pursuit of Fang Yuan.

Fang Yuan and Spectral Soul used their respective true inheritances to lure Demon Immortal Qi Jue into becoming their ally.

Eventually, Fang Yuan won Demon Immortal Qi Jue over, Spectral Soul was forced to self-detonate and died.

After the battle, Fang Yuan recalled this contest, he felt that victory was simply too easily obtained, it was quite different from his expectations.

But if Spectral Soul was just a split soul, everything would make sense.

Spectral Soul did not predict the rebirth of Demon Immortal Qi Jue, because fate Gu was destroyed, all fixed traces were erased, the future was uncertain.

Spectral Soul's plan was for his split soul to get captured by Heavenly Court, he would only place certain memories into it. These memories would not make Heavenly Court suspicious, but they would also not contain precious information like valuable true inheritances.

Thus, Fang Yuan won against Spectral Soul in this aspect.

The second piece of evidence was obtained by Fang Yuan recently.

Through luck inspection, he checked his own luck and found that at the top of his pure silver pillar of light, there were three clouds. Among them, one was pitch-black like ink.

Who could cause such disturbance to him?

This black cloud was obviously pointing towards Spectral Soul!

If Spectral Soul was still alive, would he let Fang Yuan off? Shadow Sect and Zombie Alliance spent years of accumulated resources and even the ten extreme physiques to create sovereign immortal fetus Gu. Would Spectral Soul let Fang Yuan off? Impossible!

On the other hand, with the revival of Demon Immortal Qi Jue, the world knew that it was possible for venerables to be revived now.

Spectral Soul's main body had likely already planned for his revival long ago.

In fact, did the other venerables not have such plans?

In the past, due to fate Gu, nobody could revive. But now that it was destroyed, who would not want to revive?!

Nobody knew which venerable would be the first one to revive fully. Nobody was clear when they would revive. It was even possible that a venerable would revive at the next moment.

Thus, the situation was quite precarious for Fang Yuan.

Once a venerable revives, the value of his pseudo venerable battle strength would fall greatly. His status as the number one demon in the world would turn him into a target instead.

After the battle, Lu Wei Yin told him to use his time well before departing, this was what he meant.

Fang Yuan did exactly so.

After the battle, he used his time to its limit, he did not relax for even a moment.

Once his strength returned and was able to deal with risks, Fang Yuan came to Virtue Paradise.

He came here not for Lu Wei Yin, Paradise Earth's true meaning, or to inherit Paradise Earth's true inheritance.

He only had one objective.

“Tell me. Lu Wei Yin, how do I become a venerable?”

Fate Gu was destroyed, the future of the world became uncertain, anything could happen now.

Not only the Gu Immortal world, even Gu Masters were starting to see the turbulence of the future.

Fang Yuan was fighting, the mortal Gu Masters were also struggling.

Sorrowful Wind Mountain Range.

Four Gu Masters traveled together, they entered deep into the mountain range for investigation.

They had rank four cultivation level, together, they could resist rank five. In Central Continent's Gu Master world, they were famous demonic path experts.

They were the Four Great Obscenities; Eastern Obscenity Chen Yin Dao, Western Thief Yu Ba Guang, Southern Disturbance Shi Bao and Northern Squandering Fan Chun Yao.

"Sorrowful winds are blowing again." Yu Ba Guang alerted the rest, among the four, he had the most effective investigative methods.

"Quick, take out the Gu House." Chen Yin Dao immediately ordered, he was the leader of the four.

The Gu House was kept by Fan Chun Yao, he was in charge of healing and support.

The four Gu Masters quickly hid inside the Gu House.

Sorrowful winds blew outside the Gu House, the entire place was creaking and shaking, from time to time, Fan Chun Yao had to replenish Gu worms in place of those that died from the sorrowful winds.

"A terrible loss, this is a terrible loss!" Fan Chun Yao shouted in grief: "Along the way, we already lost so much by resisting the sorrowful wind, is there really anything good in this Sorrowful Wind Mountain Range?"

Chen Yin Dao shook his head and smiled bitterly: "I cannot guarantee that, but as long as there is some hope, we need to take a risk! Not long ago, Gu Immortals fought on Sorrowful Wind Mountain Range, they might have left something behind by chance, it may allow us to ascend to immortal!"

The moment immortal ascension was mentioned, the other three Gu Masters started to breathe heavily.

"As long as we become immortal, who would dare to attack us four immortals? We will no longer be pursued by anyone.”

“Once we become immortals, those high and mighty female Gu Masters will all be at our mercy, right? Hahaha.”

“You need to be more ambitious! After becoming immortal, what’s the point of going after mortals? We can target immortal fairies!”

The Gu Masters looked at each other and started to snicker pervertedly.

What they did not know was, Heavenly Court had already cleaned up the battlefield, all those immemorial year beast corpses were taken away already.

The four of them came to the ruins and searched for seven days but found nothing of value at all.

Just as the four were anxious and furious, preparing to leave, they finally found something.

“There is a person here! Quickly come.”

“What’s so strange about seeing a person, there are so many corpses here, they are the villagers living on the mountains.”

“No, this person is still alive! And there is a weird phenomenon around him.”

“What?”

The other three Gu Masters rushed up and saw Wang Xiao Er who had tightly shut eyes, he was still barely alive.

Around him, there were several wild flowers and grass, they were rapidly blooming and wilting, alternating between green and grey with his every breath.

Chapter 2085 - Four Conditions to Become Venerable

2085 Four Conditions to Become Venerable

In this Gu world, looking at the past to the present, in the period of over three million years, ten Gu cultivators stood at the peak of the world, looking down on all the living beings.

In the long river of history, the five regions and two heavens had countless geniuses and heroes. If these people were akin to shining stars in the sky, then the ten rank nine Gu Immortals were each like suns, they were bright and dazzling, spreading their radiance over the whole world.

Their glory had never faded, their legends continued to be widespread.

They were the ten great venerables!

From the start of history until now, they were —

Three million years ago, Remote Antiquity Era: Primordial Origin Immortal Venerable, Star Constellation Immortal Venerable.

One million years ago, Olden Antiquity Era: Limitless Demon Venerable, Reckless Savage Demon Venerable, Red Lotus Demon Venerable.

Three hundred thousand years ago, Medieval Antiquity Era: Genesis Lotus Immortal Venerable, Thieving Heaven Demon Venerable, Giant Sun Immortal Venerable.

A hundred thousand years ago, Late Antiquity Era: Spectral Soul Demon Venerable, Paradise Earth Immortal Venerable.

These ten stood at the apex, dominating the world with unparalleled might, they suppressed their entire era with no rival that could match them!

Their methods were terrifying, even after a long period, they still remained like eternal arrangements.

Their intelligent schemes spanned across the eras, existing throughout the past and present, they used all living beings as their pawns. Even after death, they still continued to influence countless future generations.

Towards these people, Fang Yuan had the deepest feelings in this aspect compared to everyone else in the world.

Fang Yuan was extremely clear about the gap between him and these venerables. Even though he was the number one demon of the current world, having pseudo venerable battle strength, he was not confident in fighting against a venerable.

Venerables dominated heaven and earth, everyone else other than them were ants.

The fate war was a huge lesson to everyone, any method left by any venerable could turn the entire situation around just like that.

Only a venerable could resist another venerable.

Putting it crudely, the reason why Fang Yuan succeeded in the fate war was because he struggled and managed to survive while sandwiched between the battle among the ten venerables and heaven's will.

Towards these venerables who invested in him and treated him as a pawn, for every bit of admiration that Fang Yuan held towards them, there was also an urge to challenge them. For every bit of wariness he felt towards them, there was a bit of desire to match them.

If they could become venerables, why couldn't I, Fang Yuan, do it?

Furthermore, in order to pursue eternal life, the so-called rank nine venerable cultivation level was merely the stepping stone for Fang Yuan.

The plan to become venerable had already been set the moment he was reborn!

Years ago, when Fang Yuan had just been reborn, he looked up at the sky during those nights, viewing the moon, he felt incredibly minuscule. But now, he had already risen to the skies, venerable level was merely his next step of advancement.

But how could he become a venerable?

Fang Yuan did not know, he was uncertain, he did not understand.

There was a huge secret behind the ascension of a venerable!

This secret had never been publicly spread.

The ten venerables seemed to have some sort of tacit agreement, they kept this secret together.

Nobody in the world could find out, they could only analyze using some clues and common traits that everyone knew.

Among the ten venerables, there were nine males and one female. This meant that there was no gender restriction in becoming a venerable, it was possible for both sexes.

Venerables possessed invincible battle strength but they were not omnipotent. Giant Sun Immortal Venerable and Thieving Heaven Demon Venerable had once asked Long Hair Ancestor to refine Immortal Gu with them.

Two kings could not exist at the same time. In every great era, there was only one venerable, there had never been two venerables in the same time period. Contests between venerables were limited to the type in the fate war, where they competed using methods they left behind.

Each venerable possessed immense innate luck, phenomena could be seen for some when they were born, their lives were smooth sailing, for example, Red Lotus Demon Venerable. Some were not apparent in their early days, they only grew explosively after a certain period of time.

Seemingly, in the growth of every venerable, there would be one Dao Guardian in existence. Each Dao Guardian played a monumental role in the journey of the venerable's growth, they could be either friend or enemy.

It was publicly recognized that every rank nine venerable's main path was at supreme grandmaster.

The venerables were still restricted by lifespan, there were records in history where venerables used their full strength to hunt for lifespan Gu.

The ten venerables were all humans, there had never been a variant human venerable.

However, just this information could not truly deduce the secret of venerable ascension. One of the most successful deductions in history was the Prophecy of Three Venerables. Immortal Yi Yan said that in the future, there would be Spectral Soul Demon Venerable, Paradise Earth Immortal Venerable, and Great Dream Immortal Venerable.

This deduction did not involve the details of the secret of venerable ascension. Furthermore, after Fang Yuan destroyed fate Gu, this prophecy was no longer set in stone.

Then, what was the secret of venerable ascension?

Fang Yuan needed to know about this secret urgently.

Demon Immortal Qi Jue's success was the best example, it was likely that the venerables were going to revive.

Thus, the best way to deal with this possibility was for Fang Yuan to become venerable himself!

Fang Yuan understood deeply: No matter how many grotto-heavens he annexed or how many immortal materials and dao marks he had, he could not become venerable. Thus, the most important reason why he came to Lu Wei Yin was for the secret of venerable ascension. Other things, like Paradise Earth's true inheritance or Paradise Earth's true meaning, were just secondary gains for the current Fang Yuan.

Sitting opposite each other, Lu Wei Yin drank his tea as he smiled.

He was not surprised by Fang Yuan's question.

He raised his head and placed down his tea cup, he raised three fingers and said directly: "There are four conditions to satisfy if you want to become a venerable."

"First, the Gu Immortal's immortal aperture origin core has to produce white litchi immortal essence."

"Second, the Gu Immortal's main cultivation path needs to have at least three hundred thousand dao marks."

"Third, the Gu Immortal's main cultivation path needs to be at least supreme grandmaster in attainment level."

"Fourth, after meeting the first three conditions, the Gu Immortal has to break through the Heavenly Dao blockade, after which the immortal aperture origin core will undergo a qualitative change and produce rank nine yellow apricot immortal essence."

Out of Fang Yuan's expectations, Lu Wei Yin actually told him the secret of venerable ascension directly and honestly.

Fang Yuan originally thought that Lu Wei Yin would make a transaction regarding this and list some conditions for Fang Yuan. Or more accurately, there had to be a reason why Paradise Earth Immortal Venerable chose Fang Yuan as his inheritor.

Fang Yuan did not know what Paradise Earth Immortal Venerable was plotting.

But he had already decided that as long as he could obtain the secret of venerable ascension, he would be willing to give in to some extent and work with Paradise Earth Immortal Venerable.

However, Lu Wei Yin did not conceal this secret, he directly said it to Fang Yuan.

This was like a transaction where both parties were meant to hand over the goods and money at the same time, but suddenly, the trader tossed the goods to the buyer first.

Lu Wei Yin's action did not make Fang Yuan relax, he instead became more alert.

Lu Wei Yin had a deep scheming mind, Fang Yuan had lost to him once in the past and failed to regain upper extreme heavenly eagle. During the battle to pursue Fang Yuan, Lu Wei Yin worked with him and killed Spectral Soul together, this battle even showed Fang Yuan his strong mental fortitude and endurance.

How could such a person be so unwise?

Fang Yuan carefully thought about the four conditions of venerable ascension.

"The first two conditions are basically those of a rank eight Gu Immortal who has passed three myriad tribulations. I have already met this condition in qi path, time path, refinement path, and transformation path."

"As for the third condition of the main cultivation path being supreme grandmaster, I have not fulfilled this criteria yet, but my refinement path, time path, and enslavement path are already quasi-supreme, the difference is not huge."

"As for the fourth condition, breaking through the Heavenly Dao blockade?"

Fang Yuan frowned slightly as he asked: "What does the Heavenly Dao blockade refer to?"

Lu Wei Yin continued to explain for Fang Yuan: "The way of heaven is to take away surpluses while replenishing deficits, so all things are in balance and mutually restrict each other. A tall tree is the first to face destruction, soil that is nearest to the water will be the first to be swept away by the currents. But the way of humans is the exact opposite, it reduces the deficits and builds up the surpluses, by devouring the weak and continuing to learn, one can grow and make up for insufficiencies to become even stronger."

"The Heavenly Dao does not want the number of Gu Immortals to increase while they at the same time get stronger, thus calamities and tribulations occur. Calamities and tribulations are part of the Heavenly Dao blockade. Before becoming a venerable, the Heavenly Dao will send a tribulation far greater than any myriad tribulation!"

"Other than that, there is lifespan Gu. Lifespan Gu is a heaven path Gu worm, it cannot be refined by people. Even though the ten venerables were invincible in their eras, they were still bound by it. During an era with a venerable in existence, natural production of lifespan Gu will continuously fall."

"The third blockade is fate Gu, but you have already destroyed it."

Fang Yuan pondered: "There are basically three types of Heavenly Dao blockades, fate Gu has been destroyed while lifespan Gu is of no concern for now, the remaining tribulation blockade is the greatest hurdle that I will face."

"Is there a way to deal with the Heavenly Dao blockade? How did the venerables in history get past it?" Fang Yuan asked.

Lu Wei Yin answered: "There are ways to take shortcuts, luck path is one of them. The venerables in history all have immense innate luck, it mostly comes from two sources. The first is the favor of heaven's will, the second is the adoration of human path."

"Three million years ago, the variant humans were strong and disrupted the balance, the Heavenly Dao sought to deal with them, so heaven's will favored Primordial Origin and allowed him to become an Immortal Venerable."

"The best example of human path adoration is Red Lotus Demon Venerable. He is a child of humanity, he has extremely dense innate luck, when he was born, tribulation struck. The Three Dukes of Heavenly Court had to intervene and block the tribulation for Red Lotus."

Fang Yuan raised his brows: “Thinking about it, can human path methods be a way of breaking through the Heavenly Dao blockade?”

Earlier, Fang Yuan had used human path methods to interrupt with the Heavenly Dao, allowing him to gain time to take action. In this aspect, he was quite experienced.

Lu Wei Yin nodded: “Indeed, human path methods are a good way of breaking through the Heavenly Dao blockade. Precisely so, the various venerables had a common trait, they all comprehended something from u003cu003cThe Legends of Ren Zuu003eu003e and created their own top tier human path killer moves!”

They continued to converse for some time, Lu Wei Yin answered every single one of Fang Yuan’s questions to the best of his knowledge.

Fang Yuan finally understood the conditions to become venerable, he fell into deep contemplation.

After careful analysis, he found that only two points restricted him from becoming venerable: One was attainment level, the other was the Heavenly Dao blockade.

The latter could be dealt with eventually, Fang Yuan had Cooking Luck Pot in terms of luck path, he also had human path methods, he just had to elevate and develop them further.

The true problem was attainment level.

Quasi-supreme grandmaster attainment level, it seemed very close to the genuine supreme grandmaster, but that was actually very hard to reach.

If there was a suitable environment and sufficient time, Fang Yuan could work hard in cultivation and continue to deepen his comprehension, he believed that in this lifetime, he could definitely reach supreme grandmaster in at least one path.

But now, the revival of venerables had started to cast a shadow on his future.

“What method is there to allow me to get past this problem?”

Dream realms?

Obviously not.

Fang Yuan had already found out that the dream realms originating from Spectral Soul could only reach great grandmaster attainment level at most.

True meaning?

He thought about it: “Don’t tell me, Paradise Earth Immortal Venerable left behind his true meaning so that my earth path could reach supreme grandmaster?”

Seemingly sensing Fang Yuan’s thoughts, Lu Wei Yin shook his head: “Lord Paradise Earth Immortal Venerable’s true meaning can only allow you to reach earth path great grandmaster. However, there is a solution in Paradise Earth’s true inheritance.”

Fang Yuan looked at the smiling Lu Wei Yin, an obscure light flashed in his eyes: “Oh, please do tell me.”

Lu Wei Yin thus said: “Fang Yuan, you have read u003cu003cThe Legends of Ren Zuu003eu003e, you must know this secluded domain of heaven and earth, Primordial Domain. The truth is, if one can enter Primordial Domain, they would be able to make one of their paths reach supreme grandmaster.”

“Primordial Domain?” Fang Yuan was moved: “You know where it is.”

Lu Wei Yin’s eyes flashed with bright light: “At the deepest layer of Crazed Demon Cave!”

Chapter 2086 - The Secret of Venerable Invincibility

2086 The Secret of Venerable Invincibility

“Primordial Domain… is at the deepest layer of Crazed Demon Cave?” At once, thoughts collided in Fang Yuan’s mind rapidly.

u003cu003cThe Legends of Ren Zuu003eu003e did mention Primordial Domain but the description was vague and ambiguous, it depended on the reader’s own perspective and comprehension.

“Even if Primordial Domain has such power, is it really at the deepest layer of Crazed Demon Cave?” Fang Yuan would not believe Lu Wei Yin’s words so easily.

But this was quite possible.

Fang Yuan had been to Crazed Demon Cave, he had observed then that Paradise Earth went there and even created his own Dao field.

Fang Yuan could not enter the deepest layer, but Paradise Earth was an Immortal Venerable, his ability could not be easily assessed.

“If this is real, then Paradise Earth’s objective is in Crazed Demon Cave?”

Fang Yuan’s mind was turbulent but his expression remained unchanging.

Lu Wei Yin looked at his expression as he sighed internally: “This Gu Yue Fang Yuan is the number one demon in the world after all, no wonder heaven's will and the venerables chose him as their pawn. Just this information is not enough to gain his trust!"

Lu Wei Yin had no choice but to continue speaking: "Primordial Domain is indeed at the bottom of Crazed Demon Cave, it is quite unique, it is both the beginning and the end, it contains the supreme profundity of the whole of heaven and earth. Limitless Demon Venerable used it and rank nine derivation Immortal Gu as the cores to derive new worlds and create brand new heaven path dao marks."

"In a way, Crazed Demon Cave is far more important than even Heavenly Court!"

Lu Wei Yin said slowly as he exposed even more secrets.

During the Olden Antiquity Era a million years ago, humanity's first Demon Venerable, Limitless Demon Venerable, attacked Heavenly Court and threatened to destroy it, forcing Star Constellation's will to engage in a game of chess with him.

The chessboard was secretly linked to Crazed Demon Cave, as the two venerables schemed, their thoughts collided and new ideas were born, they created brand new heaven path gains.

These gains went into Crazed Demon Cave through the chessboard, helping Limitless with his derivation.

Star Constellation pretended to be unaware but she was prepared for this long ago, she went along with the plan.

The venerables of the future, like Reckless Savage Demon Venerable, Genesis Lotus Immortal Venerable, and Giant Sun Immortal Venerable, all visited Imperfection Regret Pavilion and knew of the two venerables' game, they understood the importance of Crazed Demon Cave.

During the fate war, the silhouettes of both venerables vanished within Imperfection Regret Pavilion, but this was only the end of a segment of their game. The true place to decide victory was still Crazed Demon Cave!

All the venerables knew this, they all took part in some way. For example, Genesis Lotus Immortal Venerable created his Green Lotus Dao field in the eighth layer of Crazed Demon Cave. Reckless Savage Demon Venerable created his Savage Wilderness Great World, while Paradise Earth Immortal Venerable made his Yellow Earth Great World.

This way, the situation became more complex.

Fang Yuan was shaken internally: “This has been one of my deepest suspicions so far. A portion of the venerables spent so much effort to create their Dao field in the eighth layer of Crazed Demon Cave, why did they want to defend their own big world so much? Unless, they are also after Primordial Domain?”

“Venerables have already become venerable, Primordial Domain is not necessary to them. Wait, that might not be the case!” A flash of inspiration sparked in Fang Yuan’s mind, he saw through the fog and observed a corner of the truth.

“Haha.” Lu Wei Yin laughed loudly: “Fang Yuan, you truly live up to your reputation, you are someone who did not falter to the venerables’ plots no matter how many were in your way. You have already understood a portion of it.”

“Indeed.” Lu Wei Yin continued: “Fate Gu has been destroyed, venerables can revive now. However, the stronger the Gu Immortal, the more troublesome and bigger the price their revival will be. If they are careless, even if they revive, they will not have their former strength. For example, Demon Immortal Qi Jue was interrupted by you and Wu Yong, his strength fell and he was no longer in his peak condition.”

“Venerables are the same. After they revive, even though they will not have their venerable blockade and will be able to regain rank nine cultivation level, the competition between venerables will be intense. Even though venerables left behind revival methods, they are still limited in the end. Thus, the venerables want to make their revival certain, it would be best if they had their former peak battle strength the moment they revived.”

Fang Yuan nodded continuously.

He could understand the venerables' mentality.

When fate Gu was around, everyone was unable to revive. But all the venerables still left behind some methods, once fate Gu was destroyed, these methods would activate and allow them to revive.

However, venerables were in opposing factions, they had their own perspectives, they also schemed against each other.

Who would not want to be the strongest person in the world?

Who would want the existence of venerables other than themselves?

The venerables were wary of each other, they thwarted each other's plans, even though they were dead, they still competed with each other in the dark.

Due to the long duration of history, this type of competition would usually benefit the venerables of the future eras. For example, Paradise Earth Immortal Venerable.

But nothing was absolute.

Genesis Lotus Immortal Venerable came before Spectral Soul Demon Venerable, but his arrangements, Divine Emperor City and Qing Chou, still managed to harm Spectral Soul!

Or the situation of Paradise Earth Immortal Venerable entering the Red Lotus stone island and taking away regret Gu, it was an easy task.

But all in all, this was the general trend.

Later venerables had a greater advantage in this contest.

Because the entire Gu cultivation world was continuously developing and growing. In the Remote Antiquity Era, in Primordial Origin Immortal Venerable's time, there were only four to five paths, qi path was the strongest. But now? There were paths of all kinds, mainstream paths numbered to at least twenty!

Taking Divine Emperor City as an example, it was created by Genesis

Lotus Immortal Venerable using his peak wood path and painting path attainment at that time, it could even mimic human path. But in terms of luck path, it was quite lacking. After all, Giant Sun Immortal Venerable only appeared after Genesis Lotus.

In fact, it was not certain if Divine Emperor City was still the peak product of wood path at this current time.

Three hundred thousand years had already passed since Genesis Lotus Immortal Venerable's era. During this long period, wood path had grown tremendously, countless geniuses emerged, they had their own developments, they promoted wood path to a new level.

Only painting path was still at its peak.

Why?

Painting path had been kept as a secret by Genesis Lotus Immortal Venerable, it was not leaked to the outside world.

Thus, the current painting path was still kept at its peak state from back then.

This was also why a portion of the venerables held onto their own paths' true inheritances and did not spread them widely.

Like Giant Sun Immortal Venerable's luck path true inheritances.

Lu Wei Yin continued to expose more secrets: "Fang Yuan, do you know that Duke Long had moved the Door of Life and Death into Crazed Demon Cave before the fate war?"

Fang Yuan's gaze flickered: "Heavenly Court knows that Spectral Soul's main body is inside the Door of Life and Death, so they moved it away in advance and prevented him from succeeding his plot? No wonder Spectral Soul and Fairy Zi Wei could not find the Door of Life and Death even after ransacking Heavenly Court's treasuries."

Lu Wei Yin drank some tea before continuing: "Duke Long did not just relocate the Door of Life and Death, he even moved a portion of Heavenly Court's immortal graveyard into Crazed Demon Cave!"

Fang Yuan was stirred: "This means that I only destroyed a portion of Heavenly Court's immortal graveyard, the rest is inside Crazed Demon Cave. Is this the backup plan that Heavenly Court had? It does seem like the way of a righteous path super force. After all, Heavenly Court had limited Gu Immortals, even if they woke up, they could not retain their peak battle strength, Star Constellation's will also needs some Gu Immortals to hibernate and support her."

"I was about to get to Star Constellation's will." Lu Wei Yin's gaze was bright as a torch, he stared at Fang Yuan: "Do you know that for a long time, Star Constellation's will has not showed herself to tell Heavenly Court what to do?"

Fang Yuan was finally moved, he understood the implicit meaning behind these words.

Fang Yuan stared at Lu Wei Yin: "You mean to say, Star Constellation has already revived using her will?"

Lu Wei Yin nodded: "Although I am not certain, this is very likely to be the case. If Star Constellation Immortal Venerable revived, she would definitely lurk in the eighth layer and try to obtain the ninth layer's Primordial Domain. Once she enters it, she will regain her supreme grandmaster attainment level in wisdom path, she will be able to use the primeval energy of the world for herself and become a complete and genuine Dao Lord!"

Fang Yuan frowned deeply.

He had originally thought that no venerable had revived yet. But from this conversation, he knew that it was likely at least one venerable had already revived.

And this revived venerable, the only female among them, was terrifying, the only wisdom path venerable.

This woman was so strong that even after her death, she could scheme against three Demon Venerables of the future. Even though the true details were quite different from what Heavenly Court publicly announced, it was true that Heavenly Court was saved by Star Constellation's schemes and arrangements, surviving the onslaught of three Demon Venerables.

This contribution was undeniable, every time Fang Yuan thought about it, he could feel how terrifying it was!

As for why Star Constellation Immortal Venerable was no longer a wisdom path supreme grandmaster, Fang Yuan knew clearly.

Star Constellation Immortal Venerable died three million years ago during the Remote Antiquity Era.

Too much time had passed!

Wisdom path had developed until today, it had already undergone a complete revolution in terms of improvement and elevation.

Quasi-supreme grandmaster meant that the Gu Immortal's understanding of the path was already at the limit of heaven and earth, they were already touching that ceiling, they had almost completely understood the profundity of the path. But they were just inches away, unable to break through.

As for supreme grandmaster attainment level, not only did they need to comprehend the full profundities of the path, they also had to innovate further. At this level, each time the Gu Immortal improves, it would be an unprecedented feat, it would elevate the upper boundaries of the entire path, it would even elevate the whole of heaven and earth to some degree.

Star Constellation Immortal Venerable's wisdom path supreme grandmaster attainment level back in the day was no longer supreme grandmaster in today's world.

Even though she merged with heaven's will and studied Heavenly Court's wisdom path research results at all times, this was still true.

Forget about the difference between Star Constellation's will and a clone, just Heavenly Court's wisdom path research results alone only represented a portion of the whole of wisdom path.

Only after Star Constellation Immortal Venerable entered Primordial Domain could her wisdom path attainment level return to supreme grandmaster, she would become a Dao Lord again.

“What is a Dao Lord?” Fang Yuan heard of a new concept from Lu Wei Yin once again.

This journey to the Mushroomman Paradise was truly valuable. He had already understood the conditions of venerable ascension, he also learned of the venerables’ schemes, and now, the term Dao Lord was likely concerning the secret of venerable invincibility!

As expected, at the next moment, Lu Wei Yin smiled: “Why could the past venerables be invincible in the world? The difference between venerable and pseudo venerable lies in the concept of Dao Lord. Why could venerable methods remain for so many years without dissipating? This is also due to the concept of Dao Lord.”

Before Fang Yuan could ask him, Lu Wei Yin immediately answered: “The so-called Dao Lord refers to the lord of a certain path. When a Gu Immortal becomes venerable and has supreme grandmaster attainment level, they will be the leader of that path, their own improvement would signify the improvement of the path, that would also be the improvement of heaven and earth, that person is a Dao Lord.”

“As a Dao Lord, the Gu Venerable can sense all of the natural dao marks of heaven and earth of that particular path and refine them! After refining the dao marks, the Gu Venerable can manipulate them at will.”

Fang Yuan could not help but feel shaken: “Refine them? Manipulate them at will?”

Lu Wei Yin continued to speak: “After every venerable becomes venerable, there will be a period of time when they roam the world. For example, Genesis Lotus Immortal Venerable or Paradise Earth Immortal Venerable. But the truth is, during this period, they are refining the natural dao marks of the world, they are turning the entire world into their personal battlefield killer move.”

This was the secret of venerable invincibility!

Chapter 2087 - Obtaining Southern Border’s Paradise Earth True Inheritance

2087 Obtaining Southern Border’s Paradise Earth True Inheritance

“So this is the secret of venerable invincibility…” Fang Yuan sighed in his heart.

This trip to the Mushroomman Paradise was truly not in vain!

Fang Yuan obtained a lot of secrets involving venerables, he also had some sort of guess towards Paradise Earth Immortal Venerable’s motive.

At this point, the signs shown in Fang Yuan’s luck inspection were verified.

His luck was like a pure silver pillar of light, even though it was slim, it was tall, shooting towards heaven, seemingly trying to pierce the sky.

At the bottom of this dense pure silver light pillar, there was a lump of yellow qi guarding it, looking like a dust cloud that seemed to support the pillar.

At the top of the pillar, there were three clouds, one was black as ink, one was golden and dazzling, one was shining with starlight.

These three clouds were phenomena that seemed to be obstructing

Fang Yuan's luck from rising further.

The black ink cloud should be Spectral Soul Demon Venerable. After all, the current Shadow Sect was already left with few members, it had little threat.

The starlight cloud was most likely the revived Star Constellation Immortal Venerable. It radiated mystery, it had an aura filled with wisdom.

As for that golden cloud, there was no need to guess, it was Giant Sun Immortal Venerable. In the fate war earlier, Giant Sun's attack came from Northern Plains with imposing might, arriving in Heavenly Court with unparalleled strength!

During the battle to pursue Fang Yuan, even though they lost one legendary immemorial beast, Longevity Heaven's strength did not fall much, they still retained their foundation. The Huang Jin family was like the ten great ancient sects of Central Continent, it dominated Northern Plains and ensured that the whole of Northern Plains was controlled by Giant Sun Immortal Venerable's bloodline descendants.

Crazed Demon Cave was in Northern Plains, there was no way to avoid Giant Sun Immortal Venerable and Longevity Heaven.

"Maybe, Giant Sun Immortal Venerable chose to create Longevity Heaven in Northern Plains not because he was a Northern Plainsman but because of the crucial Crazed Demon Cave, he wanted to make his arrangements."

Fang Yuan had many thoughts, he pondered about the deeper meaning of this.

If it were him, he would make the same arrangements.

If fate Gu was not destroyed, everything would not matter. But once it was destroyed, the venerables could revive. By then, whoever occupied Northern Plains and encircled Crazed Demon Cave would have the clear advantage!

Fang Yuan looked at Lu Wei Yin again: "Since Paradise Earth Immortal Venerable created the Yellow Earth Great World, then by helping me become venerable, does he also want me to help him revive successfully?”

Lu Wei Yin nodded and smiled: “Precisely. Back then, Paradise Earth Immortal Venerable brought blessings to the world, but his main true inheritances were left in the five regions. Southern Border’s Paradise Earth true inheritance is here. Eastern Sea’s Paradise Earth true inheritance is in the blue dragon whale. Central Continent’s Paradise Earth true inheritance is Reincarnation Battlefield. Northern Plains’ Paradise Earth true inheritance is inside the Yellow Earth Great World. As for Western Desert’s Paradise Earth true inheritance, someone seems to have taken it already.”

“Venerables have left behind their revival methods but they are limited. As long as they are destroyed in advance, these venerables will not be able to revive. But if they revive, the difficulty to take them down will be at a whole new level compared to before.”

“Now that fate Gu has been destroyed, the River of Time’s lower stream is in turbulence and chaos, the world is experiencing an unprecedented shift in era. Who can be sure of what will happen in the future? Not just venerable revival, just talking about Great Dream Immortal Venerable alone, will she still appear? Pseudo venerable is just pseudo venerable in the end.”

“By now, Fang Yuan, I am sure that you no longer suspect our sincerity. As long as you help Lord Paradise Earth Immortal Venerable revive, we will be the closest allies. Not only will we give you Southern Border’s Paradise Earth true inheritance, we will also provide clues for Eastern Sea’s and Central Continent’s Paradise Earth true inheritances, the value is simply immeasurable.”

Fang Yuan was silent.

Lu Wei Yin was here to convince him, he was not just qualified to do so, he was incredibly skilled!

“As expected, every venerable had extremely deep wisdom.” Fang Yuan was starting to understand the accuracy of Paradise Earth Immortal Venerable’s scheme.

Paradise Earth Immortal Venerable did not need to worry that Fang Yuan would reject him!

Because the things that Paradise Earth Immortal Venerable offered had immense value, not only would Fang Yuan be moved, he also needed these venerable secrets urgently.

The reason why Lu Wei Yin exposed these secrets to Fang Yuan earlier was not because he was stupid or generous.

It was because Paradise Earth Immortal Venerable knew about Fang Yuan's nature.

To work wholeheartedly with a person like Fang Yuan, the first condition was that he needed to be assured. Otherwise, even though Fang Yuan was a risk-taker, with his immense vigilance, he would not help to revive a venerable while only being a pseudo venerable!

Thus, Paradise Earth Immortal Venerable needed to help Fang Yuan become venerable.

Red Lotus and Spectral Soul were worried that Fang Yuan would become unstoppable when he became a venerable, thus they wanted to get rid of him. But Paradise Earth Immortal Venerable wanted to help Fang Yuan in this, while the other venerables were fighting alone, he had already cooperated with Fang Yuan.

Venerables were the strongest existences in heaven and earth, they were at the limit of the world. In a contest between such individuals, their strength would usually be quite equal, any bit of difference would decide the eventual outcome.

Thus, if Paradise Earth worked together with Fang Yuan, the advantage would be huge.

All these were simply alluring temptations.

Paradise Earth Immortal Venerable did not just tempt Fang Yuan with the present gains, he even lured Fang Yuan with the future benefits of working together.

Of course, other than allure, there was also pressure!

Lu Wei Yin had already told Fang Yuan clearly: The venerables want to revive in Crazed Demon Cave, would you not stop them? If not, after losing this opportunity, you will definitely suffer in the future.

Fang Yuan, look at what you've done in the past!

Longevity Heaven, Heavenly Court, and Shadow Sect were all his enemies, if the venerables revived, they would not let him off.

Even if they had no grudges, hehe, as a pseudo venerable closest to the level of venerables, would those revived venerables want more chess players in this world to compete with them?

Paradise Earth was a good person, he only expressed kindness to others. However, Paradise Earth's magnanimity and scheming ability definitely lived up to his title as a venerable!

Paradise Earth Immortal Venerable tempted and pressured Fang Yuan at the same time, what would he choose?

How else could he choose?

At the next moment, Fang Yuan nodded with a grim expression: "Alright, I agree to this. Let's set the agreement."

Lu Wei Yin waved his hand: "I believe in you, Fang Yuan, why would we need to set an agreement?"

He was bullshitting.

The true reason was that Fang Yuan had methods like myriad beings assimilation transformation, almost no alliance agreements in the world could restrict him.

Lu Wei Yin had no choice but to show his tolerance in this issue.

Fang Yuan was a logical person, if he was not logical and vigilant, he would not reach this stage today. Precisely because of his logic and wariness, he knew that working together with Paradise Earth Immortal Venerable had benefits, while refusing had its demerits.

This was more effective than any alliance agreement in the world!

Lu Wei Yin slowly stood up: “Since we are in an alliance, Southern Border’s Paradise Earth true inheritance is yours now. Please follow me.”

Fang Yuan followed Lu Wei Yin and left the house, going to a mountain peak.

Outside the house, the sky was tall and the clouds were wide, the fields under the mountains were green, the breeze was gentle and the trees were swaying slowly.

Lu Wei Yin pointed at the base of the mountain: “Fang Yuan, firstly, this Mushroomman Paradise is now your property. You can freely annex it, of course, you can let it remain here as your territory in Southern Border’s Gu Immortal world.”

Fang Yuan was moved, this gift was not a small one. Mushroomman Paradise had existed for over a hundred thousand years, it had abundant resources, comparable with top tier grotto-heavens in the two heavens.

Let alone the giant resource points inside, just the countless mushroommen living here were definitely something unique among the five regions and two heavens! This was the best mushroomman resource in the world, there was no contest!

Next, Lu Wei Yin handed Fang Yuan more than ten Immortal Gu, they were mostly earth path.

Among them, one was an information path Immortal Gu that recorded the details of Southern Border’s Paradise Earth true inheritance.

Fang Yuan’s divine sense entered and saw everything at once, he found that this true inheritance had three components. The main part was the earth path true inheritance, there was the core killer move, paradise creation, after using this move, the immortal aperture would no longer have calamities and tribulations.

The second part was related to human path, Fang Yuan had seen the contents before, when Lu Wei Yin tried to reform Fang Yuan in the dream realm, Fang Yuan had obtained this Virtue true inheritance before.

This true inheritance had a weird requirement. It needed the inheritor to maintain a just heart, to be a virtuous person. The greater the user's virtues, the easier it was when cultivating.

The core Immortal Gu was accumulate virtue Gu. As long as Fang Yuan did good deeds and acted kindly, it would continue to refine itself. The greater the accumulation of kindness, the higher the rank of the accumulate virtue Gu refined.

Accumulate virtue Gu had many incredible uses, the most useful one was to modify Fang Yuan's physique into the Righteous Virtue Physique that was only inferior to the ten extreme physiques, but it did not have any of the ten extreme physiques' flaws, it represented a limitless future and potential!

Fang Yuan only took a few looks before he sighed in amazement towards Paradise Earth Immortal Venerable's talent.

Earlier, he had only interacted with a small portion in his dream, he did not understand its full profundity.

The human path segment of Southern Border's Paradise Earth true inheritance opened a new door for Fang Yuan, he saw a new perspective of human path. It stemmed from the morals of people, developing in this direction. If Gu cultivators chose to cultivate this way, it would definitely create change and become a central part of Gu cultivation in the future.

If this cultivation information was spread widely, it would definitely cause the righteous path to prosper.

Additionally, the refinement method of accumulate virtue Gu was also incredible!

It was able to refine accumulate virtue Gu in the person's body through acts of righteousness and kindness. This was a type of human body Gu refinement method, or rather, a human path Gu refinement method.

From this aspect, one could see that Paradise Earth Immortal Venerable had shocking refinement path attainment.

Fang Yuan currently lacked this essence of refinement path, it was a huge inspiration to him.

“I am only a quasi-supreme in refinement path, mainly consisting of the hairy man Gu refinement method. To become a genuine supreme grandmaster, I lack these things! But how many of these things are in existence? Where are they left at? This human path refinement method of accumulate virtue Gu seems to have some similarity with Qing Chou’s hatred Gu refinement.”

Fang Yuan thought about it for a while, he was secretly happy internally.

He next moved his attention to the third portion of Paradise Earth’s true inheritance.

This was regarding the dream path.

The core killer move was: three lifetime dreams reform a chosen one.

This killer move used fetus earth maze as the foundation to create a dream realm. It allowed the people who entered the dream to live in the same dream together for three lifetimes, one could experience the mortal lives fully and comprehend life and death, understanding the vicissitudes of human ways and forgetting the evil in their heart, turning over a new leaf.

Fang Yuan had already been hit by this move before, Lu Wei Yin was the user.

The reason why Lu Wei Yin understood Fang Yuan’s nature and goal so well was also because of this move.

Thus, Fang Yuan obtained two rank seven dream path Immortal Gu from him.

The first was dreaming Immortal Gu, it was the core Immortal Gu of three lifetime dreams reform a chosen one, it was not a surprise.

The other Immortal Gu made Fang Yuan very happy.

“Even though this Immortal Gu is only rank seven, it carries a huge significance in my case, its importance surpasses rank eight Immortal Gu, and even rank nine!”

Chapter 2088 - Dream Path Master

Chapter 2088 Dream Path Master

The dream path Immortal Gu held in Fang Yuan's hands now was a round ruby-like jewel that was cut in half.

This semi-circular ball-shaped Gu worm looked very cute, its red color was also very attractive.

Its head was only ten percent of its body, its back was round and smooth, there were black markings all over, resembling a tortoise shell.

This was rank seven dream path Immortal Gu — Dream Armor.

It was a defensive dream path Immortal Gu!

Fang Yuan had many Immortal Gu currently, but he only had one dream path Immortal Gu, it was rank eight Dream Token, the core Immortal Gu of Dragon Palace.

Dream Token was shaped like a dragonfly, it had a round head and long body, with a pair of pink ruby eyes and four pairs of transparent wings. Looking closely at its thin wings, one would also see a faint layer of rainbow halo.

Looking at the two, Fang Yuan found that dream path Immortal Gu seemed to all look very pretty.

"I wonder what Dream Travel and Dream Wings look like?" Fang

Yuan could not help but think.

He had five hundred years of memories, he knew that dream wings Immortal Gu was in the hands of Feng Jin Huang, while dream travel Immortal Gu was in Lady Poison Scorpion's hands.

it was not that Fang Yuan had no intentions of targeting them.

All along, he could not effectively deal with Feng Jin Huang, while he had little confidence in regards to Lady Poison Scorpion.

In his previous life, Dream Travel, Carefree Travel, Fixed Immortal Travel, and Liquor God Travel were the publicly recognized four great movement Immortal Gu. Even though Fang Yuan was strong, Lady Poison Scorpion could travel through dreams and instantly enter any single dream realm.

"Currently, dream path is still not developed enough, dream realms have not manifested everywhere in the outside world. Dream path immortal materials are still rare, while dream path Immortal Gu are even rarer, and yet I already own three of them." Fang Yuan was quite happy with this result.

In the previous life, the manifested dream realms were even larger than Spectral Soul's dream realm, they were everywhere in the five regions.

Thus, everyone could enter dream realms for exploration, it was unlike now where dream realms were occupied by the experts.

A vast amount of dream realms meant countless opportunities for Gu cultivators to excavate dream path Gu materials. With these materials, dream path started to develop rapidly as a path.

Thus, at this current time, dream path had only started to grow in its initial state. Thieving Heaven's dream realm, Paradise Earth's dream realm, and Spectral Soul's dream realm were just small flames that could not boil this entire pot of water.

To boil the pot of water that was dream path, Spectral Soul's dream realm was just too small, the entire world's strength was needed.

In Fang Yuan's case, the Immortal Gu Dreaming and Dream Token were even less important than Dream Armor.

Because Dream Armor was a defensive Immortal Gu.

With this Immortal Gu, he would have the capability of resisting dream path tribulations, the Pure Dream Reality Seeker clone would be able to undergo immortal ascension!

Fang Yuan recalled his luck inspection results earlier.

The pure dream clone's luck was like a pink sandbox, it was very small but yellow sand entered it continuously, turning into pink sand that strengthened the sandbox.

The sandbox luck predicted that the pure dream clone would receive the help of Paradise Earth, now it seemed like that was truly the case.

Fang Yuan activated Cooking Luck Pot again to inspect his luck.

His silver luck pillar did not change much, the pillar of light only became slightly larger while most of the yellow sand below it had vanished.

The pure dream clone's luck was still like a pink sandbox but no more yellow sand fell into it. The sand pile in the box was very tall, there was a feeling of collapse or breakthrough at the next moment."

"I gained Southern Border's Paradise Earth true inheritance, with his help, the pure dream clone has the opportunity to breakthrough. But even so, the risks are still huge, I need to make even more preparation."

Fang Yuan quickly understood.

After Cooking Luck Pot reached rank eight, Fang Yuan obtained even more benefits from luck path.

He was increasingly feeling the advantage of luck path, it was no wonder that Giant Sun Immortal Venerable managed to rise to the top back then!

Crazed Demon Cave was definitely a place to visit, but Fang Yuan could not go now.

Currently, his strength was growing explosively, Fang Yuan intended to raise his battle strength to the limit before heading to Crazed Demon Cave.

Even though Lu Wei Yin claimed that the situation was extremely urgent, Fang Yuan had Luck Inspection, he knew that he still had some precious time left.

“More preparation leads to better future results, let me first research on dream path methods before I help the pure dream clone to ascend!”

Fang Yuan looked at himself, his dream path knowledge was undoubtedly the number one in the current world.

The knowledge of dream realm exploration that he brought along with rebirth was still the top tier research result of the current world, but his advantage was quickly shrinking.

However, after Fang Yuan was reborn, he still made incredible progress in dream path.

The killer move unravel dream came from his memories, from Shadow Sect, he obtained lead soul into dream, switch soul in dream, and pure dream reality seeker transformation. From Dragon Palace, he obtained dreamy light smoke, dream within dream, and dream revelation. And now from Southern Border’s Paradise Earth true inheritance, he obtained three lifetime dreams reform a chosen one.

Fang Yuan had more dream path killer moves than dream path Immortal Gu.

Many of the dream path killer moves had core Immortal Gu of other paths, there was no helping it, he used a vast number of dream path mortal Gu in place of a dream path Immortal Gu. For example, killer moves like lead soul into dream and switch soul in dream.

“What I need now is a dream path defensive killer move that uses dream armor Immortal Gu as the core. After that, I need a dream path movement method so that I can escape danger and gain some time to recuperate. After that is healing and finally offense."

Even though Fang Yuan's dream path attainment level was ordinary, he was confident in creating new dream path killer moves.

The reason was that he had unrestrained heavenly mark, he could create a large number of compound killer moves!

Longevity Heaven and Heavenly Court were definitely plotting to contest in Crazed Demon Cave, they would not send troops to attack Fang Yuan's variant human alliance.

Not to mention approaching Fang Yuan.

As for the Southern Alliance led by Wu Yong, they would be glad if Fang Yuan did not find them for trouble. Why would they come to him and court death?

The external environment was unprecedentedly safe, Fang Yuan started to enter closed cultivation, he created dream path killer moves, he made good progress every day.

More than ten days later, Fang Yuan suddenly stopped, entering a daze.

He advanced to dream path master!

This was the explosive growth of his accumulation, it was extremely smooth after long periods of foundation building. When creating his killer moves, he had unknowingly succeeded and stepped into the next realm.

Ever since rebirth, Fang Yuan had been pressured by external forces, he had never invested any time or energy into dream path.

Until now, he started to truly cultivate dream path, he put effort into it.

Because his foundation was deep, he was able to progress rapidly from the start, raising his dream path attainment level.

Master attainment level — the Gu cultivator's use of Gu worms had already reached an artistic level, they were no longer amateurs.

The most evident trait was the emergence of instinct. Their understanding of Gu worms and the conceptualization of immortal killer moves for that path had also turned into the cultivator's innate ability. It was like a natural skill that came with them from birth, smooth and easy to use.

For example, Fang Yuan had a very vague idea of dream path Gu worm compatibility for killer moves, he had to try to find out if they would succeed or fail. But now, before trying, his instincts would tell him if some ideas were more feasible or if they were meant to fail even without trying, whether he would only waste his time, energy, and resource if he went ahead.

"Good! Having dream path master attainment level is truly icing on the cake! My dream path achievement is definitely at the top of the current world. But… this might change after some time."

In the memories of Fang Yuan's previous life, there were many dream path geniuses. Among them were shocking talents like Feng Jin Huang and Lady Poison Scorpion, raising dream path attainment level was much easier for them compared to others.

Some people were born with compatibility with certain paths, talent was something that could not be explained. Especially for Great Dream Immortal Venerable seeds like Feng Jin Huang and Lady Poison Scorpion!

Fang Yuan had self awareness, he knew that others would surpass him soon in the aspect of dream path attainment level.

But Fang Yuan would not give up on developing dream path, he would not commit the same mistake as in his previous life.

Dream path was the great trend ahead, the revolution of the future, there was a huge advantage in a new path.

"But now is not the time to truly cultivate dream path!" Fang Yuan understood his circumstances clearly.

He had to become a venerable first to resist the external threats, only then would he have time and opportunities to develop his dream path slowly.

After hearing of the four venerable ascension conditions from Lu Wei Yin, after careful consideration, Fang Yuan guessed that refinement path would be the most likely path that he would become venerable in.

First becoming a venerable in refinement path, then going onto becoming venerable in other paths.

This was the advantage of the sovereign immortal body!

The other venerables would only be able to stare at his growth.

Even though Spectral Soul knew how to refine sovereign immortal fetus Gu, after failing in his pursuit of Fang Yuan, he had already fallen behind in terms of progress.

Fang Yuan had far greater potential for development than the current venerables.

At the same time, Central Continent, Spirit Affinity House.

In a certain Gu refinement secret room within Spirit Affinity House, Feng Jin Huang's Gu refinement was reaching its crucial stage.

“I am about to succeed.” Feng Jin Huang's eyes shined: “As long as I refine this dream path mortal Gu, I will have defensive abilities in dream realms. This is definitely a huge breakthrough… urgh!”

Suddenly, the light in front of Feng Jin Huang exploded, the Gu refinement failed as she coughed out a mouthful of blood, falling down.

“How did this happen?!” Feng Jin Huang was extremely shocked, this was not supposed to happen, the dream path mortal Gu recipe had been checked more than ten times, how could there be a mistake?

Even if any mistake was present, it should not have triggered at this crucial point.

“This is not a problem with my Gu recipe, the problem is the Gu material!” Feng Jin Huang’s head was hurting greatly, but she still understood what had happened.

“When refining the Gu, I did my inspection. The Gu materials must have been tampered with, and it must be the work of an immortal, that is why I could not notice it.”

“I was plotted against.”

“Someone wants me dead!”

Thinking of this, a deep chill emerged from the depths of Feng Jin Huang’s heart.

She struggled to get up but halfway, she fell over.

Her face was pale as her aura weakened, the strength in her body dissipated as well.

“I am going to die here.” Feng Jin Huang gritted her teeth as tears appeared in her eyes. her beautiful and elegant face was plastered on the cold ground, she had no strength to raise it herself.

“Master…” Before dying, Feng Jin Huang thought of Duke Long, her mother, and her father.

“I am not willing to die here!” Feng Jin Huang shouted in her heart.

Suddenly, she heard some quarreling outside.

“Fairy, fairy, you cannot go in!”

“I, Zhao Lian Yun, am the current generation fairy of Spirit Affinity House, I can use any Gu refinement room I want, why can’t I choose this best room?”

“Fairy, this room has been taken already, you barged in like this, what if an accident occurs when the person inside is refining Gu…”

“Accident? Hmph! How can there be any accident?” The moment she said that, there was a loud sound, the third door of the secret room was forcefully opened.

“Ah, what is going on?” The Gu Master in charge of the Gu refinement secret room became pale with shock.

“Her Gu refinement failed, she suffered a backlash. Quickly give way, how can a Gu Master like you save her from these injuries?” Zhao Lian Yun pushed the Gu Master aside, a dark light flickering in her eyes.

The Gu Master was covered in sweat, thinking about the history between Feng Jin Huang and Zhao Lian Yun, she was flustered and did not know what to do.

“Aren’t you scramming? If you interrupt my healing, can you bear the consequences?” Zhao Lian Yun called out again.

The Gu Master gritted her teeth: “Fairy… ah!”

Zhao Lian Yun waved her hand, a lump of profound light sent the Gu Master flying far away.

Zhao Lian Yun approached Feng Jin Huang as she squatted down.

The two peerless beauties looked at each other.

The Gu refinement secret room fell into dead silence.

This was truly a twist of fate, the two of them had reversed statuses at the moment.

Feng Jin Huang was not flustered in the face of death, she said calmly: “So you are the ones who want me dead.”

She was intelligent, after seeing Zhao Lian Yun, she thought of Li Jun Ying and Xu Hao. The latter two had deep grudges with Feng Jiu Ge.

Zhao Lian Yun sighed as she extended her hand towards Feng Jin Huang.

Feng Jin Huang had no strength to resist, her vision fell into darkness.

Chapter 2089 - Come Compete Yourself!

Chapter 2089 Come Compete Yourself!

Water vapor surged, three Gu Immortals flew rapidly among the clouds.

“Faster, faster!” The Gu Immortal in front was the current first supreme elder of Spirit Affinity House.

The three Spirit Affinity House immortals that were moving showed unease and anxiety on their faces.

It turned out that after Zhao Lian Yun forcefully sent the rank five Gu Master guarding the Gu refinement room away, this Gu Master felt very worried and went to inform the higher-ups of Spirit Affinity House.

After receiving the news, first supreme elder and the rest could not wait any more, they quickly rushed towards the place!

Nothing had to happen to Feng Jin Huang!

Earlier, even though Feng Jiu Ge betrayed them in the fate war and caused Fairy Bai Qing and Feng Jin Huang to fall from grace, Heavenly Court dealt with the issue calmly, they did not punish the two of them.

According to the rules of the righteous path, they could not punish them. This was because Feng Jin Huang and Fairy Bai Qing did not betray their sect, Feng Jin Huang was even the disciple of Duke Long.

During the pursuit of Fang Yuan, Qin Ding Ling handed out emergency orders. Spirit Affinity House's first supreme elder personally controlled the Immortal Gu House and brought Feng Jin Huang to the battlefield, where she collected all of the dream realms that Fang Yuan left behind.

Feng Jin Huang made a huge contribution in this battle!

Before the first supreme elder left, Qin Ding Ling secretly transmitted to her and said: "Take good care of Feng Jin Huang. Even with the destruction of fate Gu, dream path is still the future trend of the world."

Spirit Affinity House instantly understood the intention of Heavenly Court — they still thought highly of Feng Jin Huang and wanted to nurture her. All of the dream realms that Feng Jin Huang collected were kept with her, Heavenly Court did not take a single one away!

The three immortals flew into the Gu refinement secret room directly.

"Fairy Lian Yun, you need to calm down… hmm?" The three immortals were surprised.

They did not see Feng Jin Huang's corpse, instead, they saw that Feng Jin Huang and Zhao Lian Yun were facing each other.

Traces of blood was still seen on Feng Jin Huang's lips but using their investigative methods, the three immortals found that she was very healthy, completely uninjured.

"What is going on?"

"Did Zhao Lian Yun really save Feng Jin Huang?"

"This is too strange. Zhao Lian Yun has always been part of the anti-Feng faction, Feng Jin Huang failed her Gu refinement this time, she came at a peculiar timing, she evidently wanted to deal a fatal blow. Why did this happen?"

The three immortals were unable to understand.

Looking at the situation, Feng Jin Huang had the upper hand, while

Zhao Lian Yun's expression was quite ugly.

"Feng Jin Huang, very well done!" Zhao Lian Yun looked at Feng Jin Huang deeply in the eyes, she spoke with deep meaning before leaving.

She walked past the three immortals without even greeting them, this went against her usual demeanor, it showed how terrible her mood was.

Feng Jin Huang wiped the blood traces off her lips as she smiled and greeted the three supreme elders.

The three immortals quickly understood the reason, they sighed in their hearts.

"This must be due to Feng Jin Huang's plan, she must have sensed something and went along with the scheme to lure out the enemies, causing Zhao Lian Yun to expose herself."

"Ever since the fate war, Feng Jin Huang's improvement has been very evident. Predicaments truly help to train people."

"But what should we do about their conflict?"

The three immortals were secretly troubled.

On one hand, there was the anti-Feng faction, Li Jun Ying and Xu Hao were the pillars holding this faction up, they helped Zhao Lian Yun become the current generation fairy of Spirit Affinity House. With her addition, the faction was already the number one force within Spirit Affinity House.

On the other hand, there were Fairy Bai Qing and Feng Jin Huang. This mother and daughter pair was not easy to deal with, they had deep foundations. Even though Feng Jin Huang seemed to have lost her grace, she was still very important to Heavenly Court. After all, her father was Feng Jiu Ge, even though he betrayed the righteous path, as long as he was not dead, Spirit Affinity House could not ignore his existence!

The conflict between the two factions became the greatest internal threat of Spirit Affinity House, but the first supreme elder was unable to do anything.

“Feng Jin Huang, if you want to refine Gu in the future, you can come to my mountain peak.” The first supreme elder looked at Feng Jin Huang for a while before speaking amicably.

She pretended not to know about the fact that Zhao Lian Yun came to find trouble earlier.

There was no direct evidence.

The only evidence was the Gu refinement materials, but they were destroyed already.

Even if there was evidence, the first supreme elder would likely not want to deal with it. Having it manifest now would just trigger the internal threat, causing the decline of the sect.

The first supreme elder was very mature. She knew that Spirit Affinity House had fallen into some internal strife now, it was like a volcano bound to erupt soon. She needed to use a pot lid and cover the top, stalling for as much time as she could. During this period, she had to dig some routes to redirect the lava away and release the inner pressure to stabilize the situation.

Zhao Lian Yun returned to her mountain with a livid expression.

She did not enter the hall, she stood on the mountain peak, looking at the dark weather.

She knew that someone would come.

As expected, a while later, Xu Hao and Li Jun Ying flew over together.

This couple’s expressions were not good, along the way, they already knew that the plan had failed. But they still needed to find out the details from Zhao Lian Yun herself.

Before Xu Hao or Li Jun Ying spoke, Zhao Lian Yun already asked them: “How did Feng Jin Huang find out the flaw in the Gu materials? Do you have anything to say about this failure?”

Xu Hao was silent.

Li Jun Ying said grimly: “I underestimated Feng Jin Huang. Lian Yun, you know about my title as Illusory Fairy, I am skilled at such things. Especially when I became a shadow path great grandmaster recently, even if the Gu material were to be placed in front of first supreme elder, she might not have found out.”

Zhao Lian Yun’s expression was cold as she waved her sleeves in anger: “But it happened anyway, what explanation do you have?”

Xu Hao spoke: “Maybe Duke Long left Feng Jin Huang some defensive methods. Or maybe this is the power of dream path. After all, we are not familiar with dream path, that demon Fang Yuan has also relied on dream path to fight strong enemies while he was weak.”

Xu Hao continued: “Alright, this was our mistake. Fairy Lian Yun, according to our agreement, after helping us with this matter, we no longer owe each other anything. Since this plan failed, let it be, it was our fault after all, we will treat it as a completed task. From today onwards, we do not owe each other anything!”

Hearing his words, Li Jun Ying showed anxiety on her face, she wanted to speak, but Xu Hao stopped her with his hand.

Zhao Lian Yun’s expression eased at this moment, she nodded at the two immortals before turning around and leaving without speaking.

The two immortals saw that Zhao Lian Yun went into her palace, they had to return.

Along the way, Li Jun Ying said angrily: “If not for our help, how could this Zhao Lian Yun have gotten the divine concealment of Thieving Heaven’s true inheritance? If not for our help, how could she have become the current generation fairy? She actually wants to keep a clear distance from us now, she is truly an ingrate. And husband, you actually let her off so easily, do you know that she is the best weapon for us to deal with Feng Jiu Ge! To think that you are a wisdom path cultivator, sigh."

Xu Hao smiled: "My dear wife, don't worry. Even though we failed, there were gains too. Firstly, we learned about Heavenly Court's intentions through the first supreme elder's actions. Secondly, we now have Zhao Lian Yun on our side for good. Thirdly, we also found out some of Feng Jin Huang's abilities."

Li Jun Ying was slightly dazed before she realized: "That's right, even though we failed, Zhao Lian Yun also became enemies with Feng Jin Huang. Even if we do not look for Zhao Lian Yun, Feng Jin Huang will eventually 'repay' her for this, the enemy of an enemy is a friend, so she is still on our side."

"Precisely." Xu Hao nodded.

Li Jun Ying smiled: "Husband, you are really a wisdom path cultivator, I was wrong earlier."

Xu Hao smiled, showing a gaze full of bitterness: "Feng Jin Huang is truly the daughter of Feng Jiu Ge, her attitude, talent, and dream path methods surpass my expectations. Our original plan was to use Feng Jin Huang as the bait to lure Feng Jiu Ge into attacking Spirit Affinity House angrily, to make him conflict with Heavenly Court."

Xu Hao and Li Jun Ying's target was still Feng Jiu Ge after all.

Even though Feng Jiu Ge was strong and even ten of Li Jun Ying and Xu Hao together could not fight him, was there really a need to face him in combat?

Humans were the spirit of living beings, there were many ways to kill an enemy stronger than yourself.

Xu Hao, who cultivated wisdom path, thought of a plan to use Heavenly Court as the blade to exterminate Feng Jiu Ge.

This was the flair of a wisdom path Gu Immortal, he was skilled at using other people or situations to achieve his goal!

"This plan failed, I truly underestimated Feng Jin Huang. After this, she will definitely stay by her mother's side, we will not have many opportunities to strike again in the future.” Xu Hao was very worried.

Feng Jiu Ge had once suppressed Xu Hao, causing him to live a life shrouded by darkness. This was their grudge.

When Feng Jiu Ge was in Spirit Affinity House, his family occupied all of the resources, causing Li Jun Ying and Xu Hao to progress slowly in cultivation. This involved their benefits.

Feng Jin Huang cultivated dream path and was highly regarded by Heavenly Court, she was the forerunner of the new era. This was a future threat.

Spirit Affinity House and Heavenly Court could not be depended on, the only one who could defend Xu Hao’s benefits was Xu Hao himself.

If he did not do his best, who would help him?

“The journey of cultivation involves competition and conflict, we can only win if we stake our lives on important gambles.” Xu Hao muttered, determination flashing in his eyes again.

Some days later.

Eastern Sea.

On a nameless island in a nameless sea area, Fang Yuan let out his dream path clone.

“Start.” Fang Yuan said plainly.

The dream path clone nodded as he took a deep breath, shattering his aperture at the next moment.

The complete Pure Dream Reality Seeker Physique’s aperture was different from an ordinary rank five aperture, it was constantly alternating between shattering and forming at all times, yet its aperture wall had a thin layer that was able to fix this dream path aperture in place.

At this time, Fang Yuan’s dream path clone only used primeval essence to assault the wall before it shattered.

At the next moment, formless heavenly power surged towards him from all over the place as the pure dream clone’s body started to rise into the air.

Rumble!

Clouds gathered in the sky as thunder rumbled.

The waves around the island became more intense, soon turning into huge tides!

The environment became quite hostile, using Gu worms in this area, be they immortal or mortal, would result in backlash.

If the backlash was severe, even Immortal Gu would be destroyed!

Heaven’s will was seemingly enraged!

Fang Yuan was a hated scoundrel, he actually wanted to become a dream path Gu Immortal in advance.

This was not part of the plan of heaven’s will.

This went against the arrangement of fate.

It could not be spared!

It could not be forgiven!

Fang Yuan looked up at the sky, his gaze was peaceful yet determined.

So what if the Heavenly Dao did not allow it?

Then contest!

Then fight!

In this world, the most reliable thing was neither your clan or sect, nor your family or lover, it was yourself.

Chapter 2090 - Meng Qiu Zhen

Chapter 2090 Meng Qiu Zhen

Fang Yuan's pure dream clone had already shattered his aperture to start the immortal ascension.

Once this process started, it could not be stopped. Either he became an immortal or he would face failure in death!

Heaven qi poured down like a calm yet swift breeze, earth qi rose up with a heavy and stable feeling.

The pure dream clone emitted a dense human qi as well.

The complete Pure Dream Reality Seeker Physique was the eleventh extreme physique, it contained an immense amount of human qi to begin with.

As the three qi converged, qi currents surged and intertwined, creating a huge cocoon that enveloped the pure dream clone's entire body tightly, leaving no gaps outside.

At this juncture, Gu Masters had to be mindful to regulate the three qi and fuse them together. The three qi had to be balanced, if human qi was slightly in excess, it would lead to self-detonation. If heaven qi was slightly more, the Gu Master would dissolve into the sky. If earth qi was slightly denser, the Gu Master would turn into a fossil and suffocate to death.

This step was precarious.

But Fang Yuan had absolute confidence in the pure dream clone.

He had already given the pure dream clone an abundance of memories regarding immortal ascension. This not only included Fang Yuan himself but also those he soul searched. For example, the Northern Plains Gu Immortals like Hei Cheng, or Southern Border Gu Immortals like Xia Cha, there were also many Eastern Sea, Central Continent, and Western Desert Gu Immortals that Fang Yuan harmed.

In the long history of Gu cultivation, in terms of immortal ascension experience, the pure dream clone's accumulation was definitely rare.

The difficulty of the pure dream clone's immortal ascension was not the three qi, but the tribulation!

In the sky, heaven and earth qi rumbled like a turbulent sea. A vast amount of pink fog covered the sky of a few thousand li, it was grand and majestic, emitting a dense aura of dream path.

Fang Yuan's main body was solemnly awaiting it, this immortal ascension definitely enraged heaven's will greatly, the difficulty was far beyond ordinary.

Bam bam bam…

At the next moment, rumbling thunder could be heard unceasingly.

Within the sea of pink clouds, more than ten balls of light shot down.

These balls were all pink in color, they were large as mountains, the surfaces were smooth without any impurities.

The balls of light did not move quickly, they gave people a feeling of being weightless.

As the ten pink balls descended, they were aimed at the pure dream clone who was floating in the air.

Fang Yuan immediately acted to obstruct them.

There were countless thoughts accumulated in his mind, at once, his thoughts collided, killer moves were unleashed in rapid succession, creating a huge sky of fireworks that blocked the ten pink balls.

The following scene was a slight shock to Fang Yuan.

One pink ball shattered into countless bubbles that spread in the sky.

One pink ball engulfed everything in its path as it expanded by several times.

One pink ball shattered and turned into desolate beast nightmare demonic colts, rapidly approaching the pure dream clone.

One pink ball turned into a lump of dream realms that flew over.

One pink ball turned into a dream path Immortal Gu, rapidly vanishing into thin air.

…

The ten pink balls had varying effects, it was a chaotic scene!

Any ordinary Gu Immortal would have flustered by now, but with Fang Yuan's deep wisdom path attainment, he made the most appropriate reaction right away.

He first released the desolate level year beasts in his immortal aperture to resist the nightmare demonic colts.

Next, he waved his sleeves, dense smoke flew out and captured all of the dream butterflies that got close to the pure dream clone.

After that, he used pure dream reality seeker transformation on the dream realm!

But this dream realm still approached the top of the pure dream clone's head as its form changed violently, resisting Fang Yuan's pure dream reality seeker transformation.

"It seems that this dream realm contains heaven's will." Fang Yuan did not worry.

Even though he had not undergone a dream path immortal ascension before, he had already made many deductions regarding this.

This was one of the scenarios that he deduced.

A large amount of wisdom path and dream path Gu worms were rapidly activated in the sovereign immortal aperture, they formed a killer move, heaven's will dissipation.

This killer move was modified by Fang Yuan, it was originally able to dispel the heaven's will in dream realms but the efficiency was too low. After modification, by adding in dream path Immortal Gu, the speed became faster.

However, the brand new heaven's will dissipation could not work on this dream realm.

“What is going on?” Fang Yuan frowned.

At the next moment, thoughts collided in his mind, inspiration flashed.

“This dream realm is fake!”

“This is why pure dream reality seeker transformation did not work earlier. Even if I use heaven's will dissipation, the result is the same.”

“But in that case…” A dark light flashed in Fang Yuan's eyes as he hesitated for once: “Looking at the scene in front of me, what is real and what is fake?”

The seemingly chaotic tribulation had real and fake elements to it.

But even with Fang Yuan's strength, he could not tell.

One skill to dominate the world, this was the power of dream path, even Fang Yuan's main body succumbed to it unknowingly.

“Indeed, the pure dream clone is only undergoing immortal ascension, the tribulation cannot be this powerful. There were desolate beasts and dream path Immortal Gu… Why did I not realize this earlier?”

Fang Yuan's pupils shrunk uncontrollably.

The dream path tribulation was truly peculiar, not only could it blur reality and truth, it could even silently affect Fang Yuan's thoughts and mental state.

Dream armor Immortal Gu had been given to the pure dream clone long ago, Fang Yuan quickly used his compound killer move.

Using dreaming Immortal Gu as the core, his body started to shine in a layer of profound light, it was able to defend against some dream path abilities.

Fang Yuan instantly felt his mind clearing up, he was no longer disrupted when thinking.

But that did not help the tribulation that the clone was facing.

At this time, Fang Yuan could only stop his actions!

Just a mere rank six tribulation was able to force the pseudo venerable Fang Yuan to no longer take action.

Because soon, Fang Yuan realized that he could not decipher the reality and illusion of this scene, was that the case for the pure dream clone too?

Even though Fang Yuan felt that the pure dream clone's cocoon had never changed location, it was likely that its traces had already been concealed.

If Fang Yuan did anything now, he might be killing the pure dream clone in reality!

At this time, dream path defensive methods became extremely precious.

Fang Yuan did not move, he let the dream path tribulation hit him, only using the compound killer move to defend himself.

As for the pure dream clone, he was defended by dream armor Immortal Gu.

The pure dream clone did not have the sovereign immortal body, he could not use Fang Yuan’s compound killer moves.

The pure dream clone also had to stabilize the three qi, he could not divert his precious thoughts into activating any dream path killer moves.

The truth was, Fang Yuan was only a dream path master, he could not create dream path killer moves compatible with the pure dream clone in this short period of time.

Thus, the pure dream clone directly activated dream armor Immortal Gu instead.

Even though dream armor Immortal Gu was rank seven, the pure dream clone had the immortal essence that the main body gave him.

Fang Yuan was very patient, he watched the dream realm descend upon his clone, he watched as the nightmare demonic colts got free from the year beasts and attacked the pure dream clone.

The dream path tribulation lasted for over forty-five minutes before the clouds in the sky dissipated.

Heaven and earth was clear again.

As heaven and earth qi faded away, the sea became calm again.

The nightmare demonic colts on the ground returned to their original form, they were actually the desolate level year beasts that Fang Yuan released earlier.

As expected, the cocoon was not far away, it was to the left of Fang Yuan!

This discovery made Fang Yuan’s heart turn cold. The cocoon was at a dangerous spot, if Fang Yuan used any killer move, he could likely implicate it.

By then, Fang Yuan’s main body would be the culprit that killed the pure dream clone!

The dream path immortal ascension was truly dangerous.

If Fang Yuan took risks, it was likely that his main body would be the biggest obstacle for his clone's tribulation. Thankfully, Fang Yuan was vigilant and only did the tribulation after getting dream armor Immortal Gu.

Even so, this immortal ascension was very dangerous, he almost failed to pass it.

"This dream path tribulation even managed to affect my main body, let's call it bewildering illusion dream tribulation." Even though Fang Yuan also had a compound killer move that contained dreaming Immortal Gu and could be used for investigation, this killer move was clearly not enough to decipher the truth.

The key was that he had too few dream path Immortal Gu.

Dream Armor was with the clone, the main body only had rank seven Dreaming and rank eight Dream Token.

If Dream Token was used alone, the user would die from using it, because this Immortal Gu uses all of the Gu Immortal's foundation (immortal essence, emotions, true meaning) to create a dream realm.

The size and power of the dream realm would depend on the situation.

Back then, Wu Shuai was a peak rank eight Gu Immortal, he was a quasi-supreme grandmaster in enslavement path, after sacrificing his life, Dragon Palace gained the power to enslave the Four Dragon Generals.

Dream Token was very hard to use alone, killer moves that used it as the core were very difficult to activate. In Fang Yuan's case, it was not even as useful as rank seven dreaming Immortal Gu.

The three qi fused into one lump.

The pure dream clone tossed a rank five dream butterfly mortal Gu into it.

At the next moment, there was a loud sound as the three qi exploded, creating an immortal aperture.

With the creation of the immortal aperture, it started to absorb the surrounding heaven and earth qi of the pure dream clone in a frenzy and grew rapidly.

The pure dream clone put in dream armor Immortal Gu and the rest, quickly soothing the three qi and stabilizing the newly created blessed land.

The blessed land was completed, even though it was not comparable to the sovereign immortal aperture, it was a super grade blessed land, far beyond high grade.

The complete pure dream clone had a ten extreme physique, thus, it was not strange to have a super grade blessed land that only ten extreme physiques could obtain.

With the blessed land, a portion of heaven and earth qi still remained.

The pure dream clone used the chance to refine his vital Gu.

The dream butterfly mortal Gu that he tossed in earlier was his vital Gu.

During the resonance with heaven and earth earlier, he learned of three dream path Immortal Gu recipes from natural inspiration, dream butterfly Immortal Gu was one of them.

Dream butterfly Immortal Gu successfully became rank six, Fang Yuan finally had a total of four dream path Immortal Gu now!

After the Immortal Gu was refined, new dream path tribulations appeared in the blessed land, but the might was far lower than the immortal ascension tribulation.

This time, Fang Yuan's main body did not need to do anything.

Fang Yuan gave dreaming Immortal Gu to the pure dream clone, the latter used the three Immortal Gu to pass the tribulation.

"Dreamy light smoke of the otherworldly guest," “Calling out the inner soul of my nightly dream.”

“Even if this is not fated for a hundred years,”

“I leave behind this mortal shell to seek reality in my dream.”

After the tribulation, the pure dream clone sang his poem, he placed his palm by his chest, bowing at the main body: “From today onwards, my name is Meng Qiu Zhen[1].”

Fang Yuan laughed: “Good name. Meng Qiu Zhen, show me your dream path blessed land.”

He was very interested in the dream path blessed land.

This dream path super grade blessed land had a total of 8000 km2 of land, the rate of time was forty-six times, the immortal aperture origin core would produce fifty-five green grape immortal essence each year.

This was the standard of a super grade blessed land, there was nothing out of the norm.

The truly satisfactory thing for Fang Yuan was the special environment of the blessed land.

“This is the best location to nurture dream path immortal material, the potential for development is huge, it did not disappoint me after all.” After some observation, Fang Yuan was quite satisfied.

The severe lack of dream path immortal materials had always troubled him.

With this dream path immortal aperture, he had a foundation to develop more immortal materials.

Throughout history, the signature development of a new path was the emergence of Gu Immortals that cultivate the path! Because of the unique and enclosed environment, the Gu Immortal’s immortal aperture could rapidly grow a large amount of immortal materials of that path, these immortal materials would flow into the market and push the path to prosper and progress.

[1] Literally Dream Reality Seeker, he uses a part of the physique as his name, this is also what the last part of the poem refers to.

Chapter 2091 - Clear and Bright Eyes

Chapter 2091 Clear and Bright Eyes

“Kill, kill him!”

“Don’t let him bring the Immortal Gu away!”

“That Immortal belongs to me, Gu Diao Gui Men, don’t think of leaving.”

The pursuing group was closing in, Feng Jin Huang had two paths ahead of her to choose from.

Only one could allow her to escape, the other path would lead to Diao Gui Men’s blessed land headquarters.

Feng Jin Huang did not hesitate, she chose the left path and rushed out.

With a loud sound, the view before her shined brightly.

Feng Jin Huang was slightly dazed, she soon found that her soul had returned to the outside world. The dream realm from earlier had already vanished.

“I passed the dream realm, as expected, that wild soul path Immortal Gu is the key!” After her soul returned to her body, Feng Jin Huang showed an excited expression: “This time, my soul path attainment level rose. Dream path master attainment level is really helpful when exploring dream realms.”

Ever since that dangerous situation in the Gu refinement secret room, Feng Jin Huang benefited from the ordeal instead and advanced to dream path master.

The last scene of the dream realm earlier was also Feng Jin Huang's first attempt, she did not know which way was the right one. But at the crucial moment, her dream path master instincts told her which was the correct route to take.

“It is a pity that I cannot control the instinct gained by becoming a dream path master, it works at times but does not have effect at other times.”

“If I can become a dream path grandmaster, this instinct will be many times stronger, I can even use dream path Gu worms to form killer moves that mimic other paths as well.”

Feng Jin Huang sighed internally.

This advancement to dream path master was already an incredible experience to her, she had been fortunate to succeed after facing immense danger and the threat of death.

Feng Jin Huang could clearly feel that her understanding and accumulated knowledge of dream path had been used up, she barely became a dream path master. To raise her attainment level again, she would need to accumulate more foundation next, this would take a long time.

After packing up, Feng Jin Huang stood up and pushed the door of the cultivation secret room open.

Passing the long walkway, she arrived in the living room.

Fairy Bai Qing had already cooked food, the table was full of delicacies.

Seeing Feng Jin Huang, Fairy Bai Qing smiled: “Huang Er, has your cultivation for today ended? Looking at your expression, you must have succeeded.”

“Indeed, mother. Dream path master attainment level is truly phenomenal, it is so helpful for my dream realm explorations!" Feng Jin Huang sat down and described the final scene of the dream realm: "If not for my instincts, my soul would have gotten heavily injured now."

Fairy Bai Qing's smile faded away: "I've already looked into it, that situation is quite clear now. The ones plotting against you are Li Jun Ying and Xu Hao. Li Jun Ying secretly became a shadow path great grandmaster but kept a low profile, allowing her to tamper with the Gu materials. But eventually, Zhao Lian Yun did not harm you but saved you instead. I am truly seeing this otherworldly demon in another light. No wonder she could become the current generation fairy, it was not just because she was the lucky person who received love Gu's recognition."

Feng Jin Huang had a complex expression on her face.

She recalled the scene in the secret room, fear still lingering in her heart.

Back then, she was completely defenseless, she was fish on the chopping block, Zhao Lian Yun could decide her life and death.

Even though Feng Jin Huang survived without any danger in the end, this situation still stirred her inner heart greatly!

Fairy Bai Qing continued to speak: "Huang Er, I have already inspected your body, there are no problems. Did Zhao Lian Yun really just save you, she did not list any requests?"

Feng Jin Huang shook her head: "Even though she did not say it, I have already guessed her plan. After all, her eventual goal is very obvious. Mother, forget about this, let's eat! After eating, I need to continue exploring dream realms."

Fairy Bai Qing nodded: "As long as you know what you are doing. But cultivating day and night all the time is no good, cultivation has its own pace to follow."

"Mother!" Feng Jin Huang interrupted Fairy Bai Qing: "I know about the concept of pacing myself, but I also know that I need to be stronger. I can only protect you when I am stronger, I do not want to be the one who is constantly protected. Only by getting stronger can I fulfill master's dying wish and become a dream path Gu Immortal. Only by getting stronger can I make people like Zhao Lian Yun and Fang Yuan unable to bully and plot against me. Only by getting stronger can I face my father directly and engage with him in a fight to show him my true goals!"

Fairy Bai Qing was dazed for a moment.

Feng Jin Huang's eyes were seemingly emitting bright light, two rays of light shot into Fairy Bai Qing's heart.

Fairy Bai Qing held down her worries as she smiled: "Huang Er, since you have made your decision, go ahead and do it. I will support you all the way! If you have any needs, I will do my best to help you."

Feng Jin Huang left her seat and came to Fairy Bai Qing, she held her mother's hands: "Mother, I know you love me. Do you have any method to get guts Gu? I need guts Gu the most now."

Fairy Bai Qing smiled bitterly: "Oh Huang Er, this request is too much for me. You know that guts Gu is only produced on Dang Hun Mountain, and this mountain is in the hands of that demon Gu Yue Fang Yuan, he has already stopped selling guts Gu publicly for a long time now. All of the guts Gu in the market are just the remaining stock that he sold in the past, with the quantity dwindling, the price is also getting higher."

Feng Jin Huang sighed: "Mother, you know that many methods can heal my soul but they will have certain side effects, nothing can match guts Gu. I must become a dream path Gu Immortal, if my soul has too many varying dao marks at that time, it will limit my future potential."

Fairy Bai Qing patted Feng Jin Huang's hands: "I will do my best, sigh, if only your father was here…"

Feng Jin Huang's expression changed as she said in displeasure: "Mother, don't mention him in front of me!"

“Alright, alright, I won’t talk about him.”

At the same time, Affection Peak.

“To think that the sect sent you to convince me.” The owner of Affection Peak, Zhao Lian Yun, looked at the person with a smile.

Bu Zhen Zi smiled bitterly: “Fairy, please don’t take offense. This was a task given to me, I had no choice but to come here and talk to you.”

Zhao Lian Yun’s smile widened: “You are too polite. Back then, when we went to Northern Plains and fought on Snowy Mountain, if not for your protection, I would have died already, please come in, I have prepared some tea for you.”

Bu Zhen Zi was a rank seven Gu Immortal who cultivated phantom path, back then, he was ordered by the sect to protect Zhao Lian Yun, he showed a good performance in Reverse Flow River and was heavily nurtured after returning to the sect.

Spirit Affinity House’s higher-ups also considered this point, they sent Bu Zhen Zi here to convince Zhao Lian Yun to stop her actions.

Bu Zhen Zi arrived in the evening, when the tea ceremony ended, the moon had already appeared into the sky.

“Fairy, there is no need to send me off, I will take my leave now.” Bu Zhen Zi cupped his fists, his expression was joyful, this discussion was quite successful, Zhao Lian Yun was far more magnanimous and easy-going than he had expected.

Zhao Lian Yun nodded: “Goodbye.”

Bu Zhen Zi said sincerely: “Fairy, I have already understood your circumstances and problem, I will go and inform first supreme elder, please do not worry.”

Zhao Lian Yun smiled: “I will have to trouble you then.”

Zhao Lian Yun watched as Bu Zhen Zi left, even after his figure vanished into the clouds, she still remained standing at the top of Affection Peak.

Night winds howled, the surrounding mountains were covered in dense fog, nearly concealing even the bright moon in the sky.

This was Spirit Affinity House's main headquarters, the moon in the sky was just an immortal formation in essence.

Zhao Lian Yun was dressed in white, her clothes moved along with the wind, she had long black silky hair and clear skin, her eyes were furrowed as she looked at the night sky.

She was Spirit Affinity House's current generation fairy, her status was very high, even a rank seven expert like Bu Zhen Zi had to speak to her politely.

She had the Thieving Heaven true inheritance of divine concealment, she controlled love Gu, she could command people at will, it was really not easy for an otherworldly demon like her to reach this stage.

However, none of these made Zhao Lian Yun happy.

"Right now, I have become an immortal but you are not by my side. Sigh, being an immortal is no better than a mortal…"

The huge five regions and two heavens were still not her homeland, she could not truly feel at ease.

She was once favored by fortune, she encountered Ma Hong Yun, whom she entrusted her heart to.

But destiny was also cruel, she got separated from Ma Hong Yun, getting sold publicly as Feng Jiu Ge bought her, she participated in the Reverse Flow River battle but watched as Fang Yuan killed Ma Hong Yun in front of her.

She was used by Xu Hao and Li Jun Ying as a pawn, she had once knelt on the ground and begged, she tried all ways possible to become the current generation fairy.

She was given trouble at the secret inheritance peak, at that time, Spirit Affinity House's Gu Immortals were very cold to her.

After hearing of Fang Zheng's successful immortal ascension, she went to visit him and even brought gifts.

She helped Fang Zheng train his blood turns cold killer move.

With the help of Xu Hao and Li Jun Ying, she became the Affection Peak Lord. She knew about this couple's scheme, but she had to agree to deal with Feng Jin Huang for them.

But not only did Feng Jin Huang not die, Zhao Lian Yun saved her instead.

This was Zhao Lian Yun's scheme.

"Xu Hao and Li Jun Ying made use of me, but I can also make use of their hatred towards Feng Jiu Ge to manipulate them! If they want to deal with Feng Jiu Ge, they will need to rely on me. I can also use them to cultivate and grow faster. Thankfully, I have divine concealment, it allows me to face wisdom path Gu Immortals with ease."

"Bu Zhen Zi and I have some history of fighting together, we can become allies for benefits."

"Fang Zheng has already become the Demon Judgment Board Lord, my investment was truly worth it."

"And Feng Jin Huang also owes me this favor, maybe we can join hands to deal with Fang Yuan. After all, he snatched her Hu Immortal blessed land."

Zhao Lian Yun schemed with all her strength, a vague web that connected several forces was already forming around her.

She only had one goal, that was to retrieve Ma Hong Yun's soul from Fang Yuan and revive her lover!

"Fang Yuan…" Zhao Lian Yun muttered, the worry on her face deepened immediately.

Fang Yuan was like the fog that covered this sky, he was grand and vast, compared to him, Zhao Lian Yun was insignificant and weak.

Her goal was like the moon in the sky, clouds covered it and hid everything from her, almost completely obscured.

She could not see the path ahead, she could not find a destination.

Zhao Lian Yun gritted her teeth, her body was like a weak white flower that would be blown away by the wind at any time.

But her eyes were still shining brightly.

“I need to persevere!”

“I cannot give up.”

“If even I fail, then who can still save Hong Yun?”

“In this world, he can only rely on me. And I can only rely on myself!”

“Tomorrow, I will head to Sorrowful Wind Mountain Range. The traces of their fight can still be found there, I can gain first-hand information and deduce Fang Yuan’s current strength.”

Chapter 2092 - Wang Xiao Er’s Amnesia

Chapter 2092 Wang Xiao Er’s Amnesia

Sorrowful Wind Mountain Range.

In an ordinary and common cave, the four great obscenities of Central Continent chose to rest in this place.

Eastern Obscenity Chen Yin Dao, Western Thief Yu Ba Guang, Southern Disturbance Shi Bao and Northern Squandering Fan Chun Yao, they all had rank four cultivation level, they were infamous in Central Continent’s Gu Master world, they had taken the chastity and lives of many innocent girls.

At this time, these four men were standing in a circle, they stared at a young man who was unconscious, observing him.

“Why hasn’t he woken up yet?”

“He has been sleeping these last days, he has not even eaten anything but he is still full of vitality.”

“Do you guys think he is an immortal?”

The four Gu Masters were talking about Wang Xiao Er.

Wang Xiao Er was an ordinary shepherd, but life was extremely cruel to him. During the battle to pursue Fang Yuan, the aftermath caused the mountain he lived on to be destroyed, all of his family members were dead.

But for some reason, Wang Xiao Er did not die, he even fell into this peculiar state.

"Think about it, when we first met him, the grass and flowers around him were blooming and dying constantly. He might be a Gu Immortal who joined that battle, he got injured and his enemies thought he was dead, but he used some method to preserve his life, except he fell into a coma afterwards." Yu Ba Guang tried to connect the events.

They were just Gu Masters after all, they did not have the information that Heavenly Court was spreading around in treasure yellow heaven.

"But if he is an immortal, why would an immortal dress like this?" Shi Bao pointed at Wang Xiao Er's clothes as he showed a strange expression.

Wang Xiao Er's clothes were tattered and patched up, he obviously had the lowest status in society, he was not even qualified to become a Gu Master.

Fan Chun Yao rubbed his chin: "If only we can soul search him, we would know the truth. But these days, even though we used all our soul searching methods, there was no effect. This is definitely something a Gu Master cannot do."

Soul searching methods had been widely spread ever since Spectral Soul created them, it was simply too convenient after all.

Any demonic path Gu Master who did not know a single soul searching method would be too ashamed to call themselves demonic.

The four Gu Masters gritted their teeth, they had never seen such a peculiar situation, they did not know what to do now.

Eight eyes stared at Wang Xiao Er fixedly.

Chen Yin Dao spoke: "Sigh, look at his motionless state, if only this were a female immortal."

The other three looked at each other.

"Hehehe." At the next moment, they chuckled knowingly.

After some silence, Shi Bao suddenly shouted: "Screw it, waiting like this will have no progress! I am going to take action."

"What are you thinking of doing?" Fan Chun Yao asked.

Shi Bao snickered: "This!"

Before finishing his words, he attacked abruptly, he activated an offensive Gu worm and shot out a red light at Wang Xiao Er.

"You are crazy!" The others were shocked.

But soon, all of their attention was drawn by the phenomenon around Wang Xiao Er.

They saw that traces of silver threads glowing around Wang Xiao Er, these threads easily blocked the red light, it weakened and dissipated instantly.

Shi Bao was dumbfounded, the others showed the same expression. They all knew that this was Shi Bao's strongest method, but it was easily dispelled by this Wang Xiao Er.

"Looking at his aura alone, this is clearly just a mortal."

"But he managed to block Shi Bao's attack in his sleep, this is something that even a rank five Gu Master has to block carefully."

"If he is not an immortal, what can he be? This is not something a Gu Master can do."

"Wait, his eyelids are moving!!!"

The four were shocked, the cave fell into dead silence.

Wang Xiao Er slowly opened his eyes, his vision was still blurred, his mind was in a mess.

He sat up.

Plop, plop… the four Gu Masters knelt down on the ground, shouting: "Immortal, spare us!"

Wang Xiao Er was shocked: "Who are you guys? Where am I? Wait, who am I?”

Wang Xiao Er hugged his head as pain could be seen on his face.

The four demonic path Gu Master looked at each other, a similar thought appeared in all their minds.

“Don’t tell me, the immortal… lost his memories?!”

Several days later.

In a valley at night, a raging bonfire was burning.

“Come, drink wine!” Chen Yin Dao placed his arm around Wang Xiao Er’s shoulder as he took out the precious wine that was kept for years, offering it to him.

Wang Xiao Er’s face was already red, he was covered in the odor of alcohol.

Once he took the bowl, Shi Bao smiled as he handed the fragrant barbecued meat to Wang Xiao Er.

“Come, eat, little brother.” Shi Bao’s tone was so mushy he even felt like vomiting, this evil individual had never been so nice to anyone.

Wang Xiao Er was not only looking rosy, even his clothes had changed, the quality was much better than before.

He drank wine and ate meat as he said: “Brothers, you are really nice people, not only did you save me, you are treating me so well.”

“Don’t mention it!” Chen Yin Dao patted Wang Xiao Er’s shoulder: “It was fate that we met.”

At the same time, his heart was bleeding internally: “My wine that has been kept for more than ten years, I couldn’t even bear to drink it myself!”

“We are all people in the same situation, this is nothing.” Yu Ba Guang returned, he had just arranged some investigative Gu worms in the surroundings, he showed an honest and dependable smile.

“Rely on family when at home, rely on friends when outside. As long as everyone helps each other, I believe this world will become a better place!” Seeing the other three’s performances, Fan Chun Yao did not want to fall behind as well.

They were all shocked by the scene in the cave earlier. After confirming that Wang Xiao Er was a Gu Immortal who had lost his memories, they decided to treat him like their own ancestor.

After all, if Wang Xiao Er regains his memories in the future, seeing how well the four of them treated him, he would not do anything bad to them.

Wang Xiao Er drank wine and ate meat, after filling his stomach, he went to sleep on the comfortable and large bed that the four of them prepared.

He had truly gotten amnesiac.

Even though he did not lose his ability to function as a person, he could not remember any of the details of his past.

During this period, the four Gu Masters had brought him back to the ruins but his memories did not return.

All that happened was that Wang Xiao Er remembered his own name, he told the four great obscenities.

Wang Xiao Er felt that life was very blissful.

But the other four Gu Masters felt like life was currently torture.

Since when did these four demonic path Gu Masters act so subserviently before? They were ruthless and cruel, they did things without worry, why would they put up this groveling attitude?

Thus, a few days later, these four Gu Masters could not take it anymore.

“Guys, even though I want to know the immortal ascension method from this immortal, this life is really too hard to live.”

"I know, we have to be careful all the time, it is really stifling."

"My worry is, if this Gu Immortal recovers his memories, will he really reward us?"

"If he is a righteous path Gu Immortal, he will easily learn of our past deeds. What will he do to demonic path members like us?"

"If he is a demonic path Gu Immortal, if he recalls the scene of us attacking him, will he rip out our tendons and skin?"

The four of them had deep chemistry after years of living together, their thoughts were quite similar.

The four of them discussed for a while, they decided to get away from Wang Xiao Er.

Life was too painful while reward was nowhere in sight, in fact, they might be awaiting death instead.

"How can we get free from Wang Xiao Er?"

"We can't leave too directly, if he regains his memories, wouldn't he come after us for trouble?"

"I have a good idea."

"Tell us, tell us."

"We are currently here, there is slaughter soul crater nearby, we will enter this place and get free from this problematic person!"

The next day.

The four Gu Masters brought Wang Xiao Er deep into slaughter soul crater.

Slaughter soul crater had a plain terrain, but the actual environment was very complicated.

This place was part of Sorrowful Wind Mountain Range, it was originally an ordinary mountain that had nothing special in it. But after the huge battle involving Fang Yuan, this place was implicated.

At that time, Black Heaven Temple's Gu Immortals witnessed themselves how this slaughter soul sunken land formed.

Spectral Soul shot out a black soul ball but Dragon Palace dodged it.

This soul ball shot into the mountain valley.

There was no sound, at the instance, with the valley as the core, the surrounding thousand li of mountains and valleys turned into black dust that flew away with the wind. The originally bountiful mountains vanished soundlessly, only a huge crater was left.

The crater was formed by Spectral Soul's killer move, it was filled with soul path dao marks.

The living beings who had once lived here were wiped out, but their souls remained.

Soul path dao marks, wind path dao marks, earth path dao marks, and others converged to form a dense fog, all sorts of soul beasts started to live in the fog.

The surrounding living beings either entered by mistake or were attacked by the soul beasts, either way, the more living beings that died here, the more souls that remained, this slaughter soul crater's fog became increasingly denser.

The five of them carefully avoided many strong soul beasts, they went to the center of slaughter soul crater.

Yu Ba Guang made an excuse of scouting the area as he left, the other four did not move away.

Wang Xiao Er did not understand the situation, he asked: "Brothers, why are we here?"

"Clearly, we want to leave you here. Of course, we won't do it directly, we will lure some soul beasts here and pretend to be outmatched, in order to protect you, we will lure these soul beasts away while risking our lives." Chen Yin Dao smiled to himself as he thought.

Other than putting up a show, the four great obscenities also had another thought.

In the event that this immortal died at the hands of the soul beasts, would he leave any inheritance behind?

Those who were in the demonic path were normally people with extraordinary guts.

The four great obscenities were outstanding members in this aspect.

Chen Yin Dao did not speak the truth of course, he patted Wang Xiao Er's shoulder: "Brother, we came to Sorrowful Wind Mountain Range to collect some Gu materials. This slaughter soul crater was created by the fight between immortals, before it calms down completely, we have a lot of opportunities to get rich here."

Chapter 2093 - Chaotic Battle of Five People

Chapter 2093 Chaotic Battle of Five People

Slaughter soul crater was still forming now, during the process of conflicting with the surroundings, many gaps would naturally appear. After it stabilizes and reaches balance with the surroundings, the living beings would return inside, beast groups and beast kings would guard their own territories and expand the crater. By then, outsiders would not be able to enter easily.

Right at this time, the howling of soul beasts could suddenly be heard.

Chen Yin Dao was slightly surprised: “Yu Ba Guang’s ability to lure beasts has increased.”

But soon, they found something amiss.

What lured the soul beasts here was not Yu Ba Guang, but a group of Central Continent righteous path Gu Masters.

These people passed the soul fog and arrived in front of Chen Yin Dao, they were at first happy to see reinforcements but soon, their expressions changed.

Someone shouted: “Oh no, the four great obscenities!”

After observing the situation, Chen Yin Dao relaxed and smiled coldly as a sharp gaze flashed in his eyes: “This is my lucky day.”

An intense battle ensued.

The Central Continent four great obscenities obtained great victory.

Not only did they kill some soul beasts, they even captured some righteous path Gu Masters alive.

“What a coincidence, these five remaining ones are all girls.”

“Look at this one, she looks really cute.”

“This one is not bad too.”

“My favorite is this one, look at her tiny mouth and big eyes!”

The four demonic path Gu Masters assessed the girls with increasing fondness.

As their captives, the female Gu Masters were extremely fearful.

“What are you trying to do!”

“I’m warning you, don’t have any evil thoughts, otherwise, even if I die, I won’t let you succeed!”

“Hmph, I am a Gu Master of Spirit Affinity House, consider the consequences before you act.”

Facing the threats of the girls, the four great obscenities laughed wildly instead.

“Yes, this is what I like, I love this expression.”

“Go on and scream, shout louder, nobody is going to save you!”

“So what if you are from Spirit Affinity House? Back then, we even targeted Heavenly Lotus Sect’s Fairy Bi Xia. It was a pity that guy called Fang Zheng ruined it. Hmph, we will find him and settle the score eventually.”

The four great obscenities slowly approached the female captives as they chuckled lewdly to themselves.

“Brothers, what are you guys doing?” Wang Xiao Er spoke from behind them, he was completely muddled.

The other nine people were all stunned.

Chen Yin Dao frowned.

The atmosphere from earlier was completely ruined by Wang Xiao Er's words.

Shi Bao directly walked towards Wang Xiao Er and wrapped his arm around his neck, bringing him to the female Gu Masters as he chuckled: "Brother Wang Xiao Er, we will give you an eye opener today. You will learn what the true joy of the mortal world is!"

The other three obscenities looked at each other, they communicated with each other subtly and nodded.

All of them were daring people who had been on the righteous path's arrest warrants for years, they lived lives of worry and danger, they were used to maximizing their happiness regardless of consequences.

Wang Xiao Er was going to be dealt with later anyway, in fact, dragging an immortal through the mud was also quite fun!

Let's do that!

Thus, the four great obscenities surrounded Wang Xiao Er.

"Oh, so little brother does not know this. Don't worry, us elder brothers will teach you!"

"Come on, this is a really fun thing to do."

"After one attempt, you will be hooked."

"Half the fulfillment of life lies here."

Wang Xiao Er nodded repeatedly as he asked with interest: "What should I do?"

Shi Bao had a muscular body and impatient nature, he immediately dropped his pants: "Do this!"

The female Gu Masters shouted in unison, some had their eyes shut.

"Hehe." Yu Ba Guang had a slim body, he also removed his pants.

There was another wave of screaming.

Fan Chun Yao was slightly chubbier, he pouted as he removed his pants, pointing downwards: “Look!”

The female captives screamed even louder now.

Shi Bao and Yu Ba Guang stared with wide eyes, they showed an indignant expression but the fact was right here, it made them feel helpless.

Chen Yin Dao quietly pulled down his pants.

The female Gu Masters’ screams reached an unprecedented peak.

The other three obscenities raised their thumbs in unison, saying: “As expected of our boss!”

“Let me do it too.” Wang Xiao Er was excited, he quickly removed his pants.

“Eh?” The female captives gasped at the same time.

The four great obscenities cast their gaze at the same time.

The surroundings fell into a state of awkwardness.

Shi Bao was the most straightforward person, he walked towards Wang Xiao Er and patted his shoulders in sympathy.

“This is not your fault, you should blame your parents instead!” Fan Chun Yao consoled.

“Don’t worry, even though you have a poor foundation, this also proves that you have a lot of room for improvement. I have many Gu worms, I can help you.” Yu Ba Guang encouraged.

Chen Yin Dao did not speak, he only thought to himself: “This Wang Xiao Er really lives up to his name[1]!”

“Let’s go, I can’t wait anymore!” Shi Bao walked towards the female Gu Masters.

"No, don't come here!" The female Gu Masters quickly shuffled backwards, some had pale expressions, some had bright red faces.

"Let's go together, together." Fan Chun Yao clapped.

"But they don't seem too willing, this isn't appropriate?" Wang Xiao Er asked softly.

"Don't worry, don't worry, just follow what we do." Chen Yin Dao encouraged Wang Xiao Er.

Just as the five were about to take action, they heard a cold snort.

Instantly, the four great obscenities and Wang Xiao Er turned into motionless statues.

The female captives were extremely shocked.

Next, Zhao Lian Yun walked out of the dense fog.

She came here to try and deduce Fang Yuan's strength through the traces he left behind, but now, her mood was very heavy.

While she was about to return, she found that a female Gu Master of Spirit Affinity House had gotten into danger, she immediately took action.

Thus, the Central Continent four great obscenities were taken down easily.

After expressing her identity, Zhao Lian Yun saved these female Gu Masters.

The female Gu Masters thanked her profusely, the Spirit Affinity House Gu Master was even filled with admiration and excitement: "Fairy Lian Yun, these four great obscenities have committed many atrocious acts, this is their retribution! These people have sinned greatly, even killing them is too cheap of a punishment."

Zhao Lian Yun smiled: "Taking their life is really too good for them. How can we uphold justice for those women they harmed? I have a good method, just watch."

Zhao Lian Yun waved her sleeves as the five guys started to move again.

Despite being so close in proximity, they could not see Zhao Lian Yun and the rest, they were stuck in some illusion.

“Beauty, here I come!” Shi Bao pounced at Fan Chun Yao.

After Fan Chun Yao was pushed to the ground, he continued smiling: “Ah, you are really rough.”

The five men were stuck in a physical brawl, engaging in a chaotic ‘battle’.

The female Gu Masters watched with dumbfounded expressions, they quickly turned red.

“Oh heaven.” A girl covered her eyes but continued to peek through the gap between her fingers.

“This hurts my eyes!” Someone gasped.

“This position is possible?” A mature female Gu Master recorded this knowledge in her mind.

“Alright.” Zhao Lian Yun waved her sleeve: “Leave with me, these people will continue with this until the soul beasts eat them or when they die of exhaustion.”

The female Gu Masters were shocked by Zhao Lian Yun’s method, they obediently followed her and left the place.

But even Zhao Lian Yun could not have anticipated this, after a few minutes, silver threads started to shine around Wang Xiao Er’s body.

These silver threads radiated the surroundings, causing the five who were locked in intense physical engagement to awaken, they remembered everything that happened.

There was dead silence!

“We were so unlucky, a female immortal actually came!!” Fan Chun

Yao was internally shocked.

“This female immortal is too vicious, that was more cruel than just killing us.” There were tears in Yu Ba Guang’s eyes as he grabbed his hair and screamed internally.

“I actually, I actually…” Chen Yin Dao no longer had the disposition of a leader, his eyes were hollow, he muttered as he thought of suicide.

“Urgh!” Shi Bao started to vomit profusely.

“What happened guys?” Amidst the silence, Wang Xiao Er spoke with a confused expression: “Why did we stop?”

The four of them were shocked!

They turned around to look at the naked Wang Xiao Er, they were frozen like statues.

Wang Xiao Er scratched his head: “Brothers, why are you looking at me? Oh right, those female Gu Masters were all brought away. I thought they were going to play a game with us?”

Shi Bao stopped vomiting, the four of them looked at each other with complete silence.

“Erm…” After some time, Chen Yin Dao spoke with a trembling voice: “Brother Wang Xiao Er, you are really smart. Those women that we invited were… audiences. Didn’t you see their expressions? Think about it, they were all excited, very excited and focused, they were watching in amazement. We were helping these people feel joy and pleasure, isn’t this how us men should act?”

“As expected of our boss!” The other three obscenities raised their thumbs in approval.

Wang Xiao Er clapped with his fist and palm as he realized: “So that’s it, brothers, you are all good people.”

Chen Yin Dao laughed loudly: “Of course we are.”

Saying so, he wiped his tears away.

Next, he said to the other three: “So be it that this happened, don’t tell anyone about it. We are doing a good deed but we will not publicize it, this is how true gentlemen act.”

The other three nodded rapidly.

Of course!

If they spoke about this, it would be too humiliating, what would everyone think of them?

Wang Xiao Er asked again: “Brothers, are we still going to play?”

The atmosphere froze once again!

Shi Bao cursed: “Play my ass! Play what?”

“They, they have all left, nobody is here to see it.” Yu Ba Guang added in with a meek voice.

After getting scolded, Wang Xiao Er felt quite happy as he smiled innocently: “Oh, it is great that we’re stopping. Brother Shi Bao is right, my butt still hurts a lot now.”

The scene fell into silence again!

Shi Bao slammed his fists on the ground repeatedly.

Yu Ba Guang lowered his head, biting his lips as blood started to appear.

Fan Chun Yao slammed his own head with his fists, trying to send himself into a coma.

Chen Yin Dao stared at Wang Xiao Er with wide eyes, his lips were shaking.

Wang Xiao Er looked at Chen Yin Dao as he asked in confusion: “Brother Chen, do you have anything to say to me?”

At the next moment, Wang Xiao Er realized: “Oh, I get it, does your butt hurt too?”

Cough!

Chen Yin Dao spat out a mouthful of blood as he fell down on the ground.

“Boss!”

“Boss!”

“Boss!”

The others who were still naked quickly ran over to him, trying to help Chen Yin Dao.

Chen Yin Dao was very feeble now, he barely managed to open his eyes as he said weakly, in an almost sobbing voice: “Go away… don’t touch me.”

[1] In certain slangs his name sounds like ‘small little brother’.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2094 - Brotherhood

Chapter 2094: Brotherhood

Days later.

Sunlight pierced through the darkness, radiating on the world.

In a certain valley near the periphery of Sorrowful Wind Mountain Range, Eastern Obscenity Chen Yin Dao, Western Thief Yu Ba Guang, Southern Disturbance Shi Bao and Northern Squandering Fan Chun Yao had already woken up, they were sitting on an icy rock, looking at the sky as they laid spread eagled, their eyes were hollow, there was no life in them.

Ever since that terrible ordeal in slaughter soul crater, every night, the four great obscenities and Wang Xiao Er would lose control of their bodies, they would engage in the indescribable activity together.

The four great obscenities would lose their senses each time, by the time they wake up, they would realize that they had done some horrifying act once again.

Even though Wang Xiao Er got rid of a portion of Zhao Lian Yun's method, some of it still lingered.

"This is a curse! The most vicious curse in this world!"

"That fairy from Spirit Affinity House looks so kind and delicate but she is truly too vicious, she is evil to the core!"

"I don't believe it, I don't believe it, maybe I am just dreaming now. I will wake up from my nightmare one day, right?"

"I am a great man, how can I do something so shameful, I have let down heaven and earth, I have let down my parents, I have let down myself!"

The four great obscenities were silent on the outside but they were all crying out in their hearts, feeling sadness and anger, regret and pain.

Wang Xiao Er walked out of the Gu House at this moment.

He had just woken up, he rubbed his eyes and looked at them, asking in concern: "Brothers, why are you up so early, you are all naked outside, you might catch a cold."

The four great obscenities' bodies shook intensely.

They turned around and looked at Wang Xiao Er, showing a complex emotion on their faces.

On one hand, they revered Wang Xiao Er, because of Zhao Lian Yun's method, if not for him, they would have died of exhaustion already. They believed in Wang Xiao Er's identity now, only an immortal could dispel another immortal's method!

But on the other hand, they hated Wang Xiao Er. Ever since they saved him, nothing good had happened. Not only did they return from Sorrowful Wind Mountain Range empty handed, they even received the greatest humiliation of their lives!

After a long silence, their boss Chen Yin Dao spoke bitterly: "Brother, you woke up."

"Yes, our exercise last night was too intense, I slept very soundly." Wang Xiao Er smiled innocently: "Recently, I've started to feel pleasure from this, brothers, what you told me earlier makes sense after all."

The four great obscenities' bodies shook again.

The four of them looked at each other, sensing the fear and horror in each others' eyes.

"Don't tell me this immortal was like this to begin with?!"

“What sort of person did we actually save!”

“Maybe he has the ability to lift our curse but he purposely chose not to, this is something we should think about.”

“Is he really amnesiac, or is he pretending? If I like men too, as an immortal, I might want to play around in the mortal world as well…”

The four felt more terror as they thought about it.

They wanted to get away from Wang Xiao Er but they could not do that anymore.

Each time the curse activated, they needed Wang Xiao Er to dispel it. If they left, they might die the following night.

Thus, the four of them had to keep Wang Xiao Er happy, so that he would get rid of this fatal danger for them.

“Seriously, what is this situation!” Chen Yin Dao wanted to cry but he had to smile forcefully: “Xiao Er, this is nothing much, we enjoy blessings and endure misfortune together, we are brothers after all!”

After finishing his words, Chen Yin Dao stared at the other three.

They had to resist the disgusting feeling as they spoke in agreement as well.

“Indeed, this is our brotherhood!”

“Otherwise, why would there be a saying about brotherly relationships?”

“We were destined to meet, as your elder brothers, we need to take care of you.”

Wang Xiao Er smiled and nodded: “It was really my fortune to have met you brothers.”

“No, this is the greatest misfortune of my life!” The four of them screamed internally.

Wang Xiao Er added: “Let’s continue to play tonight!”

“Don’t remind me, you scumbag!!” The four of them cried out in anguish in their minds.

While Wang Xiao Er was away, the four of them gathered during the day.

“We cannot let this go on!”

“We cannot live life like this.”

“Guys, do you think Wang Xiao Er really lost his memories or is he pretending?”

“We need to test it. Go capture a few mortal women tonight, no matter what, we need to let Wang Xiao Er know we are normal people. If he really lost his memories, we will turn him back to normal, if he is pretending, we will make sure he cannot put up with the act anymore!”

The four great obscenities shouted in unison, they were going crazy these last days.

This method was risky, but even if they angered the immortal Wang Xiao Er, death was still a good reward at this point!

At night time, the four great obscenities captured over a dozen mortal women.

The women were all brought into the Gu House.

Wang Xiao Er was a little excited: “Brothers, you have worked hard to invite such a large audience tonight.”

“Brother, let us teach you something tonight.” Chen Yin Dao patted Wang Xiao Er’s shoulder as he said solemnly.

“Alright, I will do my best to learn it, I will listen with my heart!” Wang Xiao Er clenched his fists, showing an excited expression.

But reality was still cruel to them.

When their activity reached the climax stage, the four great obscenities were shocked to find out — they could not do it!

“Quick, turn hard now.”

“Oh, why, why did this happen?”

“I actually, I actually don’t feel anything towards women. Waaaaaaaaa…”

“Why do I feel more excited and pleasured when I look at men now?”

The four men wanted to struggle but the curse activated at the next moment.

The female captives were shocked to see the battle of five men, it was a climactic fight, some of them were very excited while the others felt disappointment.

Some even wanted to join in but were sent flying with one slap.

This incident was a huge blow to the four great obscenities.

“Let’s suicide, this is not a life that we can lead.”

“Living is worse than death, I’d rather die now.”

“Can anyone kill me, please come out now!”

The four of them were sick of life, they were listless and dejected all the time.

Seemingly granting their wishes, not long after, righteous path Gu Masters came to pursue them.

“We finally found you! You dared to target our Spirit Affinity House’s disciple, did you really think we would let you off?” Qin Juan said with anger, attacking the four great obscenities.

The four great obscenities were in despair and felt life was not worth living, after leaving Sorrowful Wind Mountain Range, they did not bother to conceal their traces, they were no longer as vigilant as usual.

After hearing that they were alive, Zhao Lian Yun felt a little interested, she passed down a sect mission to kill these people and investigate the truth.

Qin Juan was close to Feng Jin Huang, but she did not know that this mission which carried a huge reward was listed by Zhao Lian Yun. The Spirit Affinity House Gu Master who got captured in slaughter soul crater earlier was close to her, thus, she took on this mission.

The four great obscenities screamed about not wanting to live every day, but at the moment of crisis, they erupted with an intense will to survive.

For half a month, they fought nearly ten times.

Qin Juan had rank five cultivation level, she suppressed the five of them.

Even though the four great obscenities were famous demonic path Gu Masters in Central Continent, they were just demonic cultivators that the ten great ancient sects allowed to live. These demonic cultivators were useful in training their sect disciples, thus, they made use of these people to act as a trial for their members.

The ten great ancient sects did not mind minor characters like the four great obscenities, thus they were allowed to cause chaos in Central Continent and hide successfully from arrests.

But the situation was different now, the Gu Immortal Zhao Lian Yun had sent a mission, the force pursuing them was different from usual.

The four great obscenities escaped with Wang Xiao Er as they tried to come up with a plan.

“We can’t live in Central Continent anymore!”

“What do we do?”

“We can only go elsewhere, boss, you can decide for us.”

Chen Yin Dao pondered: “Northern Plains is dangerous and lacks resources, we can’t go there. Even though Eastern Sea is rich, the righteous path is fighting against those variant humans, it is too dangerous. Western Desert is full of deserts, and the environment is bad. Let’s go to Southern Border instead.”

“Alright, we will go to Southern Border!”

Southern Border.

Underground.

“According to Lu Wei Yin, it should be here. Mm, found it.” Fang Yuan went deep underground, suddenly, his eyes shined as he found his target.

He saw that at the walls of this small Earth Trench, there was a field of pink grassland.

Each ‘grass’ was pink, moving without any wind.

Looking at the ‘grass’, each was thin and long, resembling fur.

“This is the earth dream fetus hair, Meng Qiu Zhen, come out.” Fang Yuan opened his immortal aperture door as the pure dream clone came out.

Meng Qiu Zhen took a glance and praised it as he took action, using dream path methods to carefully store the earth dream fetus hair away.

After Fang Yuan obtained Southern Border’s Paradise Earth true inheritance, he gained many earth path Immortal Gu, he also had methods to search for immortal materials underground and the ability to control Flying Earth.

The Mushroomman Paradise had existed in Southern Border for a long time, after tens of generations of accumulation, they found a lot of treasures deep under Southern Border.

Among the treasures, Fang Yuan found some locations with dream path immortal materials.

The earth dream fetus hair was just one of them.

Dream path Gu materials and Gu worms had appeared in the world long ago, for example, Fang Yuan's Dream Token and the spring dream fruit tree that Bo Qing and Mo Yao found.

This was like how water path Gu worms and materials existed during Ren Zu's era, but water path was only created by Central Continent's Shui Ni, the founder of Spirit Affinity House, during the Medieval Antiquity Era.

Dream path was similar.

Even though dream path had not been formally created, the dream path Gu worms and materials that existed in history had already appeared.

But dream path was different from water path, it would have an explosive growth in the future.

By then, the five regions and two heavens would be full of dream realms.

Because dream path Gu materials would be too easily obtainable, and because a vast number of Gu cultivators could use them, dream path would quickly progress as a path.

Countless dream path Gu Masters would cultivate more dream path Gu materials to refine more dream path Gu worms, pushing the progress of dream path to an unprecedented level!

If Great Dream Immortal Venerable truly appears, then dream path would reach its peak popularity in history.

Thus, Fang Yuan was not surprised that some dream path immortal materials were hidden away.

Meng Qiu Zhen successfully took the earth dream fetus hair, he went back inside Fang Yuan's sovereign immortal aperture.

Next, Fang Yuan went to another location, there were many nine tune dream flowers there.

Meng Qiu Zhen had a lot of things to do.

On one hand, he had to organize dream path killer moves, on the other hand, he had to plant resources and develop his immortal aperture.

According to Fang Yuan's plan, after these dream path immortal materials were successfully retrieved, Meng Qiu Zhen would have a complete set of dream path methods.

At that time, he would take the place of Fang Yuan's main body and invest himself into exploring dream realms.

To play safe, Meng Qiu Zhen would first use up Spectral Soul's dream realms before moving onto Paradise Earth's dream realms, just in case there was a trap.

Even though this was highly unlikely, Fang Yuan was still a vigilant person.

Chapter 2095 - Sheng Tian True Inheritance

Chapter 2095: Sheng Tian True Inheritance

Meng Qiu Zhen was controlled by a Gu worm, his eyes were shut, he was brought into a secret location by someone.

“Alright, number three, you can open your eyes now.” A shrill voice could be heard beside him.

The Gu worm suppressing Meng Qiu Zhen had been kept away, Meng Qiu Zhen opened his eyes and found that he was in a dark cave.

Meng Qiu Zhen was kneeling on the ground, in front of him was an old man.

The old man had a sharp voice, his face was covered in paint, he gave off a peculiar and cold feeling.

“This is the leader of Painted Faces — Sly Heart Old Man.” Meng Qiu Zhen thought: “To think that I would meet this legendary person from a hundred thousand years ago.”

Indeed, Meng Qiu Zhen was exploring a dream realm now.

This dream realm naturally originated from Spectral Soul.

This Sly Heart Old Man in his dream was a wisdom path and transformation path cultivator, he was a legendary person who existed between the eras of Spectral Soul and Paradise Earth a hundred thousand years ago. He was also the creator of a demonic path organization, it was called Painted Faces.

This organization was like Zombie Alliance and Shadow Sect, it was a huge organization that spanned across all five regions, something rarely seen in history.

All of the members in the organization had painted faces of various colors to differentiate their varying statuses.

Painted Faces was an assassination organization, killing Gu Masters was just an ordinary thing, when they were at their peak, they even had Gu Immortal experts, as long as the price was paid, they could kill Gu Immortals for their customers!

Meng Qiu Zhen had already entered this dream realm for a long time, he went from the initial one hundred and eighth position to third position.

“According to my instincts, if I can become the number one position in the organization, I will pass this dream realm.” Meng Qiu Zhen was very certain, his dream path master instincts told him the answer already.

Sly Heart Old Man took out three Gu worms: “Number three, you want to become number two, but it will not be easy. There are three Gu worms here, choose one. Each one contains the details of a mission.”

Meng Qiu Zhen secretly activated dream butterfly Immortal Gu.

Almost all the other paths’ Gu worms could not be used freely in dream realms, but dream path Gu worms were not restricted.

After dream butterfly Immortal Gu was instilled with immortal essence, it vanished from within Meng Qiu Zhen’s immortal aperture.

Meng Qiu Zhen first placed his gaze on the Gu worm to the left.

At the next moment, he saw that after he chose the Gu worm, he went into a seizure, saliva appeared from his mouth, he died on the spot.

Sly Heart Old Man looked at his corpse as he said coldly: “What a pity, number three, even though you are skilled in transformation path, your wisdom path attainment is too low, it was your bad luck to have chosen this.”

Meng Qiu Zhen retracted his gaze as the scene vanished, he looked at the middle Gu worm.

At the next moment, he saw another scene.

After he took the second Gu worm, Sly Heart Old Man suddenly attacked.

With a loud sound, his palm slammed onto Meng Qiu Zhen’s chest.

Meng Qiu Zhen was caught unguarded, his ribs broke, his heart burst, his eyes stared widely as he died on the spot.

Sly Heart Old Man sneered: “So you are the spy after all, you went after this Gu worm, not knowing the trap that I set, I had already gave out some false information to trick those spies of the righteous path!”

Meng Qiu Zhen retracted his gaze.

Evidently, the first two Gu worms could not be chosen, but the third one might not be correct either.

Meng Qiu Zhen wanted to continue checking but Sly Heart Old Man rushed him: “Quickly choose, what are you waiting for?”

Meng Qiu Zhen knew that this Painted Face organization was dark and cruel, they had no regard for human lives, if he waited anymore, Sly Heart Old Man would activate the Gu worm in his body and he would be punished, he might suffer heavy injuries or even die on the spot.

Thus, Meng Qiu Zhen did not use dream butterfly Immortal Gu again, he quickly spoke and chose the third Gu worm.

For just a moment, a complex expression flashed on Sly Heart Old Man’s face.

After being silent for some time, Sly Heart Old Man nodded: “You chose the most appropriate Gu for you, it seems your luck is not bad.

Maybe you can gain some benefits there, you might even be able to return alive.”

Saying so, Sly Heart Old Man took a few steps and exposed the door behind him: “After opening this door, you will enter a tunnel, you need to walk quickly, do not stop, otherwise the tunnel will digest you. After passing it, you will reach a place, over there, do your best to survive. If you can find a way back and meet me once again, you will gain our organization’s number one position.”

“Yes, lord.” Meng Qiu Zhen immediately got up, pushing open the door and entering the tunnel.

This tunnel was quite unique, it was round in shape but the inner walls were made of flesh and blood, there was slight vibrations in them as gastric acid flowed out constantly.

Meng Qiu Zhen activated the defensive method of this person but still felt deep pressure. Like what Sly Heart Old Man said, if he stayed for too long, he might really get ‘digested’.

He quickly got past the creepy and wet flesh tunnel as he arrived in a huge world.

Within the primitive forest, fierce beasts roared as strange birds growled.

Far away, two beastman groups were fighting.

Meng Qiu Zhen turned around and looked back, the tunnel had already vanished, he only saw an ordinary mountain wall.

Meng Qiu Zhen was shook internally, to ensure that he could efficiently explore dream realms, the main body had given him many details of history: “That tunnel really is the intestine of the gluttonous demon frog, this is the place where Reckless Savage Demon Venerable left behind his true inheritance — Myriad Beast Fusion Color Heaven!”

Days later, the dream realm dissipated.

Meng Qiu Zhen had a tired expression as he started to inspect his gains.

“Transformation path and wisdom path attainment levels went up. Not bad.” Meng Qiu Zhen was rather satisfied.

Forget about transformation path, but his wisdom path attainment level really needed a boost.

Especially when Fang Yuan knew his own luck, and the fact that Star Constellation Immortal Venerable had very likely already revived.

The true Myriad Beast Fusion Color Heaven was naturally vast and boundless, but Meng Qiu Zhen was only in a dream realm.

Meng Qiu Zhen had dream armor Immortal Gu’s protection, and also dream creation Immortal Gu and dream butterfly Immortal Gu as methods. Especially dream butterfly Immortal Gu, even though it was an investigative Gu worm, its use in exploring dream realms surpassed Dream Armor and Dream Creation.

Dream path master attainment level gave him instincts.

When instincts worked, Meng Qiu Zhen would use them to find the correct answers rapidly.

When instincts did not work, then Meng Qiu Zhen would use dream butterfly Immortal Gu to foresee the future possibilities of the dream realm and avoid danger, he would quickly find the most appropriate methods.

Like how Meng Qiu Zhen used dream butterfly Immortal Gu in front of Sly Heart Old Man earlier to find out the correct choice, in the past, Fang Yuan would have to test it one by one. If he chose wrongly, his soul would be injured, he would waste time healing himself and restart the dream realm all over again.

Even though Meng Qiu Zhen only had rank six cultivation level, his efficiency at exploring dream realms was many times that of Fang Yuan’s main body!

Southern Border.

Central Continent’s four great obscenities and Wang Xiao Er were forced into desperation by Qin Juan.

There was a sinkhole behind them.

“Don’t come here, otherwise, we will jump off!” Wang Xiao Er shouted in anxiety.

Qin Juan smiled coldly as she walked closer: “Then jump, you will die if you do that. Behind you is Southern Border’s Sun Moon Sinkhole, the pit is unfathomably deep, not just Gu Masters, even Gu Immortals cannot explore it easily. If you jump, you will surely die!”

The four great obscenities were currently injured, they gritted their teeth.

“Qin Juan, we’ll remember you, you lunatic!”

“We already escaped to Southern Border but you actually pursued us all the way here, what are you after?”

“Even though we captured Spirit Affinity House’s female Gu Master, no matter what relationship she has with you, we did not touch her at all.”

“Qin Juan, you received a sect mission to kill us. But if we die like this, you won’t be able to report your mission easily too, right?” Chen Yin Dao suddenly said with a deep gaze.

Qin Juan’s movement froze for a moment.

But in just a moment, she realized that the enemy was trying to probe her.

And she fell for it, some information was leaked from this action.

Qin Juan concealed the shame in her heart as she placed her arms behind her back, looking at these defeated individuals, she said arrogantly on purpose: “I can’t report it? Killing you is the best evidence I need! But it is not that I cannot let you live, hand over all your Gu worms and surrender, if I bring you back to Central Continent, you will still have a chance to live.”

Chen Yin Dao sneered: “We know about the crimes we’ve committed. After Miss Qin Juan said that, it confirmed my guesses.”

Qin Juan also sneered: “So what if you guessed it? Can you turn this around? Do you still have a chance?”

A strange expression appeared on Chen Yin Dao’s face: “Actually, we still have hope. Brother Wang Xiao Er, we’ll depend on you now!”

Saying so, he pushed Wang Xiao Er, who was hiding at the back, to the front.

Wang Xiao Er was shocked: “Brothers, I am not a Gu Master.”

Qin Juan also felt confused, she had fought with the four great obscenities for this long, she knew that Wang Xiao Er was a mortal.

“Hmph, trying to bluster and act mysterious!” Qin Juan was about to attack.

But at the next moment, there was a loud explosion.

A huge air current surged as wind blew strongly.

Wang Xiao Er, Qin Juan and the others who were near the sinkhole were caught off guard, they were sent into the air by the currents before crashing down heavily.

“What happened?!” Everyone was shocked.

Next, the figure of a Southern Border Gu Master moved along this current as he flew into the sky.

“Kong Ri Tian, don’t think of leaving!!”

The Gu Master who landed on the ground first was the demonic path Kong Ri Tian, he escaped without even turning around as he shouted: “Wu Ji, you are the leader of Wu clan, yet you are not keeping your promise!”

Wu Ji chased after him as she shouted: “What’s the use of keeping my word to a demonic path scoundrel like you, leave behind the Gu worms of Sheng Tian true inheritance!"

Next, Shang Xin Ci, Xiao Yan, Counterfeit Master, Tie Ruo Nan, Yi Chong, and others also descended from the sky.

"Chase him, don't let him escape!"

"That is a Gu Immortal true inheritance!!"

As the group chased, a dust cloud was created along the way.

Qin Juan, Wang Xiao Er, and the rest were all stunned.

Seeing that he was about to be caught, Kong Ri Tian shouted at Qin Juan and the rest: "The people in front, whoever can help me escape will share this Gu Immortal true inheritance with me!!"

Qin Juan and the rest heard this, their eyes shined brightly.

"You cannot escape, everything belongs to my Wu clan!!" Wu Ji was enraged, she jumped into the air.

Both her fists were clenched, she raised them above her head as she activated a mortal killer move.

Boom!

As she landed on the ground, she slammed down, the ground shook, rocks were sent flying.

A huge vibration force spread to the surroundings rapidly, no one could avoid it in time, they quickly put up their defenses in a panic.

Qin Juan and the rest were also implicated, their expressions changed.

Wu Ji was the number one expert of the current Southern Border Gu Master world!

Chapter 2096 - Wu Ji Chooses Her True inheritance

Chapter 2096: Wu Ji Chooses Her True inheritance

Southern Border, Wu clan headquarters.

“Quick, quick, bring me the white king head flower herb.” Wu clan’s rank six Gu Immortal Wu Zhen Zhu called out with an anxious tone.

She was controlling the formation, her thoughts were focused on it at the crucial moment, she could not distract herself.

Thankfully, there were a few rank five Gu Masters assisting her, hearing these words, they quickly got to work.

White king head flower herb was a rank six immortal material, it was tossed into the immortal formation.

This immortal formation of Wu clan was famous in history, it was called dead sea life retrieval formation. It originally belonged to an Eastern Sea rank eight Gu Immortal, but after this Gu Immortal came to Southern Border and provoked Wu clan, they got killed instead.

Dead sea life retrieval formation was a healing immortal formation but the core Immortal Gu was only rank seven. That Eastern Sea rank eight Gu Immortal was indeed a rank eight Gu Immortal but before dying, all of their Immortal Gu were destroyed.

Wu clan spent a hundred years to finally refine the relevant Immortal Gu, managing to set up this dead sea life retrieval formation again.

Wu Ji and the rest had died on Yi Tian Mountain, the reason why they were able to revive was mostly because of fate Gu’s destruction, and also due to the effect of this dead sea life retrieval formation.

As the formation slowly stopped, light faded as Wu Ji woke up in the formation with a pale expression.

“It seems that I revived again!” Wu Ji smiled lightly, she wanted to get up but her body was too weak, she only succeeded after three tries.

“You should relax a little, Wu Ji. This is the fifth time this month.” Wu Zhen Zhu came to Wu Ji as she frowned deeply.

Wu Ji smiled indifferently: “Don’t we have this formation? Even if I die, I can revive.”

Wu Zhen Zhu scoffed: “Don’t think so highly of Gu Immortal methods. Wu Ji, do you know that you almost died earlier, you managed to revive because of the dead sea life retrieval formation. But this method has less and less effect as a person uses it continuously, you are playing with your life! You have a good future, why don’t you care a bit more about yourself, at this rate, you will die for real!”

Wu Ji raised her brows as her eyes shined brightly: “I’m someone who has died before, what is there to fear about death? Precisely because I had died before, I treasure life even more now.”

Wu Zhen Zhu rolled her eyes in anger: “This is considered treasuring your life? Since you already obtained Sheng Tian true inheritance from Kong Sheng Tian, you can give it to the clan already, why did you still go after him relentlessly? Why did you not retreat even against the attacks of everyone?”

Wu Ji laughed loudly: “This is how I treasure my life. After dying once, I reassessed my own life, how should people live? Everyone has their own answer. This is my answer, the duration of life does not matter as much as the value of the life that is being lived.”

“Even though I am not a Gu Immortal, I know about your circumstances. Lady Zhen Zhu, why do you think Gu Masters want to become an immortal so badly? After becoming an immortal, there will be countless calamities and tribulations, wouldn’t they be courting death? How many Gu Immortals have died from tribulations? Don’t they know the danger? Aren’t they continuing to face danger head on because they want to obtain the true meaning of life?”

“In this great era, if I do not advance bravely, I will be letting down heaven for giving me this life, I will be wasting my second chance. I, Wu Ji, want to become immortal, I want to see things at a greater height, I want to gain more strength. This is the meaning of my life.”

After hearing Wu Ji’s words, a complex expression appeared on Wu Zhen Zhu’s face.

She actually had high expectations of this junior Wu Ji, therefore she came to talk to her. But after talking, she found that she failed to convince Wu Ji, instead, she became the one who was convinced.

“Since you have decided this, I have nothing else to say.” Wu Zhen Zhu sighed.

Wu Ji had a sincere expression as she bowed: “Lady Zhen Zhu, junior will remember the concern that you have shown to me.”

Saying so, another Gu Immortal appeared: “Hahaha, Wu Ji, I heard your words earlier. As expected of the number one Gu Immortal seed of Wu clan, you did not shame our reputation.”

“Wu Zhan Ping, you came here for…” Wu Zhen Zhu asked but she had a guess in her heart, she was quite happy for Wu Ji.

Wu Zhan Ping nodded at Wu Zhen Zhu as he looked at Wu Ji: “I am Wu clan’s supreme elder in charge of guidance, Wu Ji, you have sufficient cultivation level and merit, I am tasked to guide you along the road of becoming an immortal!”

Wu Ji took in a deep breath, she clenched her fists unconsciously. This moment had finally arrived, she had been looking forward to it for a long time.

Wu Zhan Ping said solemnly: “Wu Ji, you are a senior of the mortal Wu clan, after being the clan leader for many years, you know of many Gu Immortal secrets. Our Wu clan cultivates many paths, we are most proficient in wind path, it is the reason why we are at the top of Southern Border's Gu Immortal world, our status is immovable."

"You can choose other paths too, we have almost all paths in our inventory, but I have a suggestion for you!"

Wu Zhan Ping had heard Wu Ji's words earlier, he liked this junior and was willing to say more things.

Wu Ji quickly replied: "Please teach me senior, I will listen."

Wu Zhan Ping continued: "Rather than choosing a path, it is more like you are choosing a true inheritance. Our Wu clan has the strongest wind path true inheritance, our first supreme elder Lord Wu Yong also cultivates wind path, he uses the strongest wind path true inheritance in Wu clan as well. However, there are many wind path cultivators, competition is very steep, I would not recommend you to choose it."

"Right now, Wu clan has two true inheritances that even us Gu Immortals feel desire towards, it is only that our paths have been set, changing it has too high of a cost. During normal times, we might have the opportunity to do that, but with the turbulent era now, chaos is everywhere, it is the best opportunity for you juniors."

Wu Zhen Zhu heard this, she agreed and said with happiness: "This means that first supreme elder is really taking out these three true inheritances to nurture our Wu clan's descendants?"

"Indeed, Lord Wu Yong has incredible foresight and magnanimity, everyone in Wu clan holds him in high regard." Wu Zhan Ping praised from the bottom of his heart, he told Wu Ji: "There are three true inheritances of high value that even us Gu Immortals want, I will list them for you, choose wisely."

"The first true inheritance is called Corpse Emperor true inheritance. He was a Southern Border rank eight Gu Immortal who turned himself into a zombie when his lifespan was near its end, hence the title. Corpse Emperor was in the demonic path, he was ruthless and vicious, causing super forces to join up and attack him. He died during the battle and his immortal zombie body turned into a corpse mountain upon his death. This mountain is hundreds of meters tall, zombies roam all over the mountain, it produces transformation path zombie Gu and qi path corpse qi Gu."

"Back then, Southern Border's Zombie Alliance wanted ownership of this mountain and offered a high price to buy it from us to use as their headquarters, but we rejected them. Right now, it seems like our decision was right. Zombie Alliance was a front of Shadow Sect, but that's not our issue now. The point is that with the shift of the era, a true inheritance appeared on Corpse Emperor Yu Ding Tian, which is this Corpse Emperor true inheritance."

"This is a rank eight enslavement path true inheritance, Wu Ji, if you choose it, Wu clan will definitely nurture you well. An enslavement path Gu Immortal can fight a group on their own, the problem with enslavement path is the huge amount of resources needed, but Wu clan can help you with it. The only downside is that this true inheritance lacks Immortal Gu."

Wu Ji considered it for a while before shaking her head: "Enslavement path is not my style, Immortal Gu are also hard to refine, I am not skilled in Gu refinement. It is too hard to cultivate this true inheritance well, even with the clan's help, I will not choose it."

"Alright, then onto the next one." Wu Zhan Ping continued to speak: "This true inheritance is a soul path true inheritance, it has a greater origin, it concerns Spectral Soul Demon Venerable!"

"This true inheritance is called seven-seven profound soul true inheritance, the most amazing method is to raise soul beasts and nurture them into seven-seven profound soul birds. Once a seven-seven profound soul bird is created, it is almost impossible to kill. Even if they were gravely injured, as long as one of them is still alive, they will reappeared in a short time. Even though this true inheritance also lacks Immortal Gu, it is able to bypass that and nurture soul beasts instead, the cultivation journey will be easier."

Wu Ji shook her head: "Even though soul beasts are strong, I dislike it. I cultivate my own body, raising soul beasts is like becoming a nanny, it does not suit me."

Wu Zhan Ping frowned slightly: “Choosing a true inheritance is not child’s play, Wu Ji, consider it well before making a decision.”

“Indeed.” Wu Zhen Zhu also nodded: “Be it Corpse Emperor true inheritance or the seven-seven profound soul true inheritance, they are extremely rare, Wu Ji, you need to treasure this opportunity.”

Wu Ji was unmoved: “Immortals, thank you for the advice, may I know what the third true inheritance is?”

Wu Zhan Ping: “The third true inheritance is the Sheng Tian true inheritance you retrieved. The person who left this true inheritance behind is famous in Gu Master history, he is called Kong Sheng Tian.”

“Kong Sheng Tian had qi escape Immortal Gu, this Gu is incredible, it was once fourth place on the List of Mystical Gu. But in recently years, because of the number one demon in the world, Gu Yue Fang Yuan, Spring Autumn Cicada received public recognition and got elevated to the third mystical Gu, causing qi escape Gu to fall in ranking.”

Speaking of Gu Yue Fang Yuan, Wu Zhan Ping and Wu Zhen Zhu showed complex expressions.

Wu Ji could acutely sense that these two Gu Immortals’ breathing became slightly disoriented.

Fang Yuan had once disguised as Wu Yi Hai and made his way into Wu clan, even someone as intelligent and perceptive as Wu Yong fell prey to his acting. But Wu clan was no longer qualified to take revenge on him, over the course of the fate war and the pursuit over Fang Yuan afterwards, even the variant human battle that happened in Eastern Sea recently cemented Fang Yuan’s throne of the number one demon in the world, nobody could topple his status.

Not wanting to continue talking about Fang Yuan, Wu Zhan Ping got back to the topic: “Kong Sheng Tian was a qi path Gu Immortal, he was most skilled at movement methods. The qi path movement killer move that he created back then was named Kong Sheng Tian, it is incredibly powerful. If you obtain this true inheritance, you will move unhindered in the world, you will always have the initiative.”

“This true inheritance was retrieved by you after all, it could be said you are fated for it. But the Immortal Gu in the true inheritance are likely in the hands of that Kong Ri Tian now.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2097 - Number One Person In Dream Path

Chapter 2097: Number One Person In Dream Path

Wu Ji's expression sank: "If that Kong Ri Tian did not have Kong Sheng Tian's bloodline, I would not have lost that contest!"

Wu Zhan Ping shook his head: "You did not lose. That Kong Ri Tian has Immortal Gu but he is just a mortal, even though he escaped luckily, so what? He cannot run for long, many righteous path Gu Immortals are already targeting him. If my Wu clan's Gu Immortals succeed, this true inheritance's value will rise greatly, it will suit you more."

But Wu Ji still shook her head: "These three true inheritances are enslavement path, soul path, and qi path, they are all wonderful. It is a pity they do not suit me, I should continue cultivating my strength path."

"Hmm?" Wu Zhan Ping frowned.

Wu Zhen Zhu urged her: "Wu Ji, I know you have a strength path true inheritance, but that true inheritance has a low quality, its original owner was only a rank six Gu Immortal, it cannot compare to these three true inheritances at all."

Seeing that Wu Ji was unmoved, Wu Zhen Zhu continued to speak: "And most importantly, strength path is declining, it cannot compare to enslavement path or soul path. Even though qi path was declining, with the merging of the five regions, qi tides appeared and qi path started to experience a rise again. Choosing qi path is definitely wiser than staying with strength path."

But Wu Ji shook her head: "I'll choose strength path! Even though other true inheritances will allow me to have an easier time, if there is a strength path true inheritance, I'll still choose it. I will walk on strength path in my life, if I cannot use someone else's foundation, I will create my own."

Wu Zhan Ping was unhappy: "Wu Ji, you are not a Gu Immortal yet, you do not know the difficulties that we face. The benefits of these three true inheritances are simply indescribable, but you cannot feel them yet. Listen to me and choose one of the three, in the future when you cultivate on this long journey, you will be glad about the decision you made today."

Wu Ji's expression had never been so solemn, she bowed deeply at the two immortals: "Great immortals, I, Wu Ji, will never forget the care and concern that you have shown me. But if I do not choose strength path, I will regret it at the next moment. I have already decided on this, I will not change it further. Even if I fail in the future, I am willing to bear the consequences!"

"You!"

"Sigh…"

Wu Zhen Zhu and Wu Zhan Ping shook their heads, they felt pity for Wu Ji who had given up such a great opportunity.

Meng Zhen immortal aperture.

The sky here was filled with a pink aurora that constantly moved and changed.

At the center of the immortal aperture, there was a field of 'pink grassland', it was the earth dream fetus hair that Fang Yuan had spent a lot of effort to dig from Southern Border's underground.

There was also a small sea of flowers situated at the north-most part of the immortal aperture.

The flowers were all nine tune dream flowers, this type of flower only had one petal each, but it spiraled upwards from the roots and showed a spiral form with nine layers, it was quite peculiar.

At the southeast of the immortal aperture, Meng Qiu Zhen specially created a lake.

The lake had little water, it was hundreds of feet lower than the water level of the nearby shore. The entire lake was like a bowl that had a bit of water left inside it at the bottom.

This lake water was called dream river water, in the lake, there was a type of monstrous fish that looked like a tongue, it was bright red and moved agilely, it was called tongue tip small dream fish.

Finally, at the north-most part of the immortal aperture was a field of desolate bones.

Hundreds of huge bones were buried on the ground, a portion of them was still exposed externally.

These bones were also dream path Gu materials, they were obtained from the corpses of a few dream path ancient desolate beasts. Meng Qiu Zhen placed them here and set up the Gu formation, creating this bone dream sand farm.

The sand farm was nourished using the bone marrow, gradually turning the soil into dream sand.

Earth dream fetus hair, nine tune dream flower, dream river water, tongue tip small dream fish, and dream sand, these were all the dream path Gu materials that Fang Yuan obtained during this period of time.

Currently speaking, dream path Gu materials were still very rare.

Fang Yuan had almost ransacked the entire underground area of Southern Border but he only collected this much.

“But inside Meng Zhen immortal aperture, these Gu materials will be nurtured well, soon, a stream of immortal materials will be produced.”

Meng Qiu Zhen was quite confident about this.

Even though there were dream path dao marks at these dream path

Gu materials' original locations, the surrounding dao marks were still mostly earth path, they were suppressed and could not develop well, they were simply living between the cracks.

But now, they were moved into Meng Zhen immortal aperture, they were like flood dragons released into the ocean, or tigers entering a mountain, they could grow freely without restraint.

In this relaxed environment that was predominantly made of dream path dao marks, these dream path Gu materials would have great growth.

In addition, Fang Yuan had memories of the future, he had outstanding methods to nurture them, Meng Zhen immortal aperture's time difference with the outside world was also quite good.

"This way, my dream path development has finally gotten on track, as long as I work hard, I will have ample gains in the future." Fang Yuan assessed himself.

His investment into dream path would stop here.

In terms of dream path mortal Gu recipes and experience in exploring dream realms, Fang Yuan had five hundred years of memories, he still had the upper hand.

In terms of dream path Immortal Gu, Fang Yuan had four of them, he was definitely the top person in the current world.

In terms of attainment level, Fang Yuan was a dream path master, there might be others who were at this level as well, but he was without doubt still among the fastest group of people.

Furthermore, in terms of dream path Immortal Gu recipes and immortal materials, Fang Yuan was certainly the person with the number one results! He had two dream path Immortal Gu recipes that were undoubtedly accurate and exceptional. In terms of immortal materials, Fang Yuan also had an absolute advantage, Feng Jin Huang was just a mortal, even if Lady Poison Scorpion was a Gu Immortal, she was not an immortal ascended from the Pure Dream Reality Seeker Physique, she could not compare to Fang Yuan.

Comprehensively, Fang Yuan was definitely the number one person in the world in terms of dream path!

Such results already exceeded Fang Yuan's expectations. In his plan, he only had to maintain a certain lead in dream path.

And now was still not the time for the true rise of dream path.

Taking Meng Zhen immortal aperture for example, it was definitely the number one dream path Gu material production ground in the world, but it could only produce rank six dream path immortal materials, the quantity was also pitifully small.

Without sufficient dream path immortal materials, Fang Yuan could not raise the ranks of his dream path Immortal Gu.

The truth was, even though he had rank eight Immortal Gu like Dream Token and could use killer moves like dreamy light smoke, he could not gain an advantage against Duke Long or Spectral Soul in combat.

In battles of the highest level, dream path was only a special method that could intimidate and make the foes wary.

Fang Yuan wanted to explore Crazed Demon Cave, he would need to face the likely revived Star Constellation Immortal Venerable and Spectral Soul Demon Venerable, who was inside the Door of Life and Death.

Facing such existences, his dream path methods that were still at the early stages of development were unreliable as his main methods.

"The truth is, by combining the perfect Pure Dream Reality Seeker Physique and Spectral Soul's split soul method, I can create dream path Gu Immortals in bulk. But the extra dream path immortal apertures are useless, the greatest gain will still be natural inspiration, I will obtain new dream path Immortal Gu recipes. Even if I try to use the ascension tribulation to refine Immortal Gu, it will not be easy."

Tribulations were controlled by heaven's will, they could be strong or weak. When strong, there would be more heaven and earth qi, after succeeding the tribulation, there would be a lot of heaven and earth qi left behind to use for refining Immortal Gu.

But if heaven's will reduced the strength of the tribulation, there would not be extra heaven and earth qi, he could not refine dream path Immortal Gu in that case.

If heaven's will did that, Fang Yuan's gains would be very small. Firstly, the cost of creating Pure Dream Reality Seeker Physique bodies was high, he had to use a large number of dream realms!

If heaven's will tried something new and altered the tribulation contents, Fang Yuan would be in danger as well. After all, Fang Yuan's dream path foundation was already exposed to heaven's will last time.

Thus, recuperating for some time and using Meng Zhen immortal aperture to hide from heaven's will and develop rapidly, while refining new dream path Immortal Gu before undergoing tribulation was the best method now.

Continuing to invest in dream path would not have much relative returns. If Fang Yuan continued his investment, he would face heaven's will's suppression and also the pressure of being a frontrunner, it would be difficult and troublesome. He might as well wait until dream path flourished and dream realms were everywhere, after the trend grew to that extent, he could use the opportunity to develop, saving time and energy.

Thus, Fang Yuan did not want to keep the dream realms that he had.

In the hands of others, these dream realms would give them an opportunity to stay ahead of the era. Be it Western Desert's Tang clan, Central Continent's Feng Jin Huang, or Northern Plains' Lady Poison Scorpion, they would be the same.

But for Fang Yuan, the true value of these dream realms was that they could raise his attainment levels and allow him to annex more grotto-heavens.

Meng Qiu Zhen was truly the dream path clone that Fang Yuan took effort to create, his dream realm exploration efficiency was many times higher than the main body.

As Fang Yuan's attainment levels rose, he made great gains.

At the same time, he also continued to annex the grotto-heavens in the two heavens.

Each grotto-heaven had at least a million dao marks, a thousand heaven path dao marks, as well as a vast amount of cultivation resources.

These grotto-heavens had long histories behind them, Fang Yuan annexed everything, it was the same as instantly taking the accumulations of others for countless years.

Fang Yuan's strength grew time and again, each time, his improvement was huge, this speed was simply unheard of.

The specialty of the sovereign immortal body and the power of unrestrained heavenly mark, they surpassed the logic of the cultivation world. Either one would allow a person to rise to the top, leaving their name in history.

The most terrifying thing was when they were used together, the effect would be even greater! The actual result created would far surpass a simple addition of the two.

But be it a rise in foundation or strength, Fang Yuan still remained as a pseudo venerable.

He might be the number one pseudo venerable in history, but that was pointless.

Without becoming a venerable, there would be no qualitative change.

Fang Yuan cultivated secretly while annexing immortal apertures, he also inspected his own luck very often.

The silver white pillar of light was getting thicker, but the clouds above him were also growing in size. Be it the black cloud representing Spectral Soul Demon Venerable or the golden cloud representing Giant Sun Immortal Venerable, they were growing.

As for the star cloud representing Star Constellation Immortal Venerable, it had expanded by several times, far surpassing the other two.

The situation had not reached the worst scenario yet, Fang Yuan still had time to continue his cultivation and recuperation.

Chapter 2098 - Hu Land

Chapter 2098: Hu Land

Rotten Mud Mountain was one of the famous mountains of Southern Border.

If it were in Western Desert, Eastern Sea, or Northern Plains, it might be more famous, but Southern Border had too many mountains, it had the most number of famous mountains in the five regions, Rotten Mud Mountain became quite inconspicuous, it gave people a feeling of being ordinary.

This place produced rotten mud, it was a common Gu material that had poison path and earth path dao marks, it had very little value in the market due to abundance.

During rainy seasons, Rotten Mud Mountain would turn into a temporary swamp, the rotten mud would turn into rotten swamp mud, which was a widely used Gu refinement material.

During winter, the rotten mud would combine with the ice and snow path dao marks and turn into rotten frozen mud, it was also a common resource. Because it was very fertile, when mixed in soil to nurture crops, the effect would be outstanding. Many Southern Border villages made use of it.

Furthermore, rotten frozen mud was the food of the smelly fart fat worm, thus, this Rotten Mud Mountain also produced the smelly fart fat worm as well.

The smelly fart fat worm was a rank one poison path Gu worm, it looked like black boar Gu, often sold by unscrupulous merchants as fake black boar Gu.

Similar to the smelly fart fat worm in name was smelly fart Gu, it was also a rank one poison path Gu worm. Similar to the smelly fart fat worm, smelly fart Gu was also living in Rotten Mud Mountain.

Living on what grew around them, there were several villages that survived using the resources of the Rotten Mud Mountain.

These villages were all scattered around the periphery of Rotten Mud Mountain, even though they competed with each other, they were more likely to work together.

Because Rotten Mud Mountain was a famous mountain, it could obviously produce immortal materials, the mountain even had poison path desolate beasts or ancient desolate beasts.

These villages did not have Gu Immortals, they were at most rank five Gu Masters, they would not dare to live on the mountain.

Rumble…

On this day, the people in the few villages heard thunderous sounds, they became shocked and uncertain.

"What is happening on the mountain?"

"Why is there thunder for no reason?"

"The mountain is dangerous, we Gu Masters cannot understand what is happening."

Next, people heard the shouting of people.

"Kong Ri Tian, you cannot escape! I know that you are hiding here, but can you hide here forever?"

"Come out now and hand over your Gu worms, I can still spare your life. If you miss this chance, after I search the mountain and find you, you will wish you were dead instead!"

Wu clan's Gu Immortal shouted, his voices creating sound waves that spread around the area.

The people in the villages at the periphery of the mountain were instantly shook.

“An immortal!”

“An immortal appeared. Oh heavens!”

“I know about this demon Kong Ri Tian, he specially targets pure and innocent girls, to think an immortal would go after him, he’s dead meat!!”

“Did Kong Ri Tian get an Immortal Gu so an immortal is coming to snatch it?”

“Hmph! This is not snatching, the immortal is just upholding justice and righteousness.”

“Do you guys think we will meet an immortal if we go there? Will we obtain a way to become immortal?”

After the fate war, everyone in the world learned of the existence of immortals. Before that, because most people lived in isolation, many people thought that immortals were just legends.

“Damn it!” Kong Ri Tian was covered in injuries, he hid in a rotten mud cave with a face full of despair.

“Sigh, Wu clan’s immortal is too domineering. I have implicated you all!” Kong Ri Tian looked at Wang Xiao Er and the four great obscenities, feeling guilt.

On that day, after leaving the sinkhole, the situation turned chaotic. The four great obscenities were originally after Kong Ri Tian’s immortal inheritance, but they ended up getting chased together.

Kong Ri Tian also knew about the four great obscenities’ desire, he used the inheritance to lure them, they ended up working together and escaping for their lives.

After all, Sheng Tian true inheritance had only showed itself slightly, Gu Immortals did not pay attention to it yet. Kong Ri Tian only had to face rank five experts like Wu Ji or Shang Xin Ci.

The four great obscenities had great strength themselves, together with Kong Ri Tian who was a famous demon in Southern Border, they managed to escape by working together.

However, good times did not last, because Sheng Tian true inheritance was exposed, all the super clans started to go after it, they sent Gu Immortals out.

Kong Ri Tian and the rest got into huge danger, they hid everywhere they could, eventually ending up in Rotten Mud Mountain, but now, Wu clan's Gu Immortal was here to send them into despair.

"So be it if we die, so what?"

"Brother Kong, say no more, this is our fate!"

"Speaking of which, dying in the hands of an immortal is quite glorious too."

The Central Continent four great obscenities chuckled, they were all demonic path members, at this desperate moment, they displayed their grand attitude towards life.

"Alright, enough of such talk. Who said you would die?" Suddenly, from Kong Ri Tian's body, a will floated out.

Seeing this will, Central Continent's four great obscenities showed a complex expression.

This was Kong Sheng Tian's will, other than the will in Sheng Tian true inheritance, there were also Immortal Gu and immortal essence. This way, Kong Ri Tian had Gu Immortal methods to use.

This was also the reason why the four great obscenities did not attack Kong Ri Tian to snatch the inheritance.

These people were able to struggle until now from the pursuit of Gu Immortals, it was all thanks to Kong Sheng Tian's will.

"Lord ancestor, you are finally awake. Are your injuries healed already? Do you mean we can still survive?" Kong Ri Tian's eyes shined with bright light, he asked in succession.

Kong Sheng Tian's will sighed: "I am not injured, using Gu Immortal methods just takes a huge toll on me. Thus, I had to sleep and use Gu worms to replenish my will. As for whether you can be saved, of course you can! Why did I ask you to come here before I fell asleep? It was because this place allows us to escape from these people."

After saying this, Kong Sheng Tian took action and activated his Gu Immortal method.

Everyone was shocked to find out that a long tunnel secretly appeared in this rotten mud cave without any commotion.

They all entered the tunnel as they went deeper underground, arriving in a hall.

Kong Sheng Tian's will sighed deeply after returning here: "Back then, my main body spent a hundred years and used all sorts of clues to investigate and track down this place after much effort, I finally found this Hu Land. It was a pity that my body was too old then, I did not have long to live, I could only make arrangements and leave."

"Hu Land? Is it the secluded domain of heaven and earth recorded in <<The Legends of Ren Zu>>?" Everyone was surprised, they had heard of it before.

<<The Legends of Ren Zu>> was simply too widely known in the world.

Kong Sheng Tian's will smiled arrogantly: "Of course! Hu Land shares the same reputation as Xi Land, it is a supreme secluded domain of qi path. Little Ri Tian, you know that my main body's most signature method was to shoot out currents from my body's pores and move rapidly. Hu Land and Xi Land are complementary[1], it is a perfect pair with my killer move, using it, we can definitely escape from these pursuers."

"That is great!!" Everyone was surprised and joyful.

Even though they did not fear death, the best situation was obviously to survive.

Kong Sheng Tian's will sighed as he added: "It is a pity that you are not a Gu Immortal, Little Ri Tian, you cannot bring this secluded domain of heaven and earth with you. Once I use this killer move, you will scatter and fly out like meteors, the speed is incredible and nobody can catch you, but this Hu Land will be left for those Gu Immortals outside."

Kong Ri Tian did not mind it: "Ancestor, keeping our lives is already good enough. Since we cannot bring the secluded domain of heaven and earth away, Wu clan can keep it safe for us now. One day, I will take it back, that Wu Ji or Shang Xin Ci will moan under my legs, they will suffer for this!!"

Kong Ri Tian said this, his gaze turned ruthless, he emitted the aura of a demonic path member who had no fear for anything, he was filled with evil intentions.

Kong Sheng Tian's will laughed loudly: "Good, this is how my descendant should act like!"

Kong Sheng Tian was also a demonic path member back then, he liked descendants like Kong Ri Tian.

Speaking of which, even though Kong Ri Tian had committed countless sins, he did not lack talent or a proper nature. Otherwise, he would survive in Southern Border for so long and even gain the reputation of a strong demon.

Chen Yin Dao spoke: "Lord Gu Immortal, these people are my brothers, we would like to travel together. I heard from lord's words that we will be separated?"

Kong Sheng Tian's will nodded: "Indeed, if my main body was still here, I can use Hu Land to let you guys escape together. But I am only a will now, I can barely use Hu Land, be it direction or destination, I cannot control either. Maybe you can stay here and hide elsewhere, after I leave with Little Ri Tian, that Southern Border Gu Immortal might go after us instead."

Chen Yin Dao and the rest were troubled.

Since they could leave, they definitely should leave.

Staying here was too risky!

Central Continent's four obscenities were experienced with living like fugitives, they knew that staying behind was the same as courting death.

But if they escaped, they would not be together with Wang Xiao Er.

And if they were separated and the cursed activated…

"Brother Kong, I would like to speak to you." Thinking of this, Chen Yin Dao sighed deeply, he decided to speak the truth.

Kong Ri Tian was a little surprised, even though he cooperated with the Central Continent four great obscenities, he kept his guard up. But now that his ancestor was awake, he was not afraid of the four great obscenities' sneak attack.

Kong Ri Tian went to a corner with Chen Yin Dao as they conversed quietly.

"So that's it." Kong Ri Tiang gasped.

"Why else would we be like this?" Chen Yin Dao spoke very helplessly.

Kong Ri Tian blinked wildly: "I thought that Central Continent people had such interests, speaking of which, when I first saw that, I was shocked, to think that you brothers would have such interests!"

Their conversation could be heard as muffled voices in the air.

"Brothers, what do you think boss is telling Brother Kong?" Wang Xiao Er was confused, he asked in curiosity.

[1] Xi Land sucks in qi, Hu Land expels qi.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2099 - Wu Yong’s Excitement

Chapter 2099: Wu Yong’s Excitement

The other three obscenities had ugly expressions too.

Kong Ri Tian was not just in the demonic path, he had the same ‘hobbies’ as them, they could be considered the same kind of people.

To think that they would have to expose the truth to him now, it was truly shameful and humiliating!

Hearing Wang Xiao Er’s words, they even felt their anus tightening up.

The four great obscenities were already in deep anguish while Wang Xiao Er was starting to enjoy himself. Because he was a mysterious immortal, the four great obscenities did not dare to say anything.

Thus, the three of them gave vague replies: “Boss has his own good reasons for not telling us.”

“Xiao Er, we need to believe in him.”

“Boss is definitely thinking for our sake, he just does not want us to worry. This is not a problem!”

Wang Xiao Er felt a little embarrassed from their words: “I was wrong, I was wrong! Brothers, don’t blame me, I was just curious.”

After Kong Sheng Tian understood the situation, he returned to his ancestor Kong Sheng Tian’s will and explained everything to him.

Hearing this, Kong Sheng Tian’s will showed a peculiar expression.

“Let me try first.” Kong Sheng Tian’s will did not say that confidently.

“Immortal, please go ahead!!” Chen Yin Dao and the rest quickly shouted with expressions of endless gratitude.

Kong Sheng Tian’s will was in no rush to treat them, he first used investigative methods to inspect their fortune.

After taking a look, Kong Sheng Tian’s will had an idea: “Hmm, the size of these people’s fortune qi is much larger than normal, it is not weak at all. Especially that Wang Xiao Er, is he really an amnesiac immortal?”

Kong Sheng Tian’s will decided to save them.

The Central Continent four great obscenities were mere mortals, whether it was worthwhile to help them would depend on their fortune.

Kong Sheng Tian was a demonic path Gu Immortal, he naturally did things with a focus on benefits.

Just using Hu Land to let them escape would not consume much immortal essence, he would only have to use a method. But to treat the four great obscenities’ problem would incur a huge cost.

Especially when the immortal essence that Kong Sheng Tian left behind were limited in quantity.

Next, Kong Sheng Tian started his true investigation.

A moment later, Kong Sheng Tian’s will showed a serious expression, he shook his head: “I cannot treat your problem.”

Kong Ri Tian was surprised: “Ancestor, even your methods cannot work?”

Kong Sheng Tian’s will sighed: “I can heal most injuries in this world, but the immortal method on you guys is quite extraordinary, it is caused by the legendary love Gu. This Gu belongs to Spirit Affinity House, it seems that the person who used it on you is the current generation fairy. You are quite lucky to have even met Spirit Affinity

House's fairy."

The four great obscenities' expressions turned pale.

Wang Xiao Er was confused: "Do my brothers have a huge hidden problem in their bodies?"

He became anxious: "All of you hid this from me, didn't we say that we would share good times and bad times together? What problem do you have, even though I can't help, I can at least try to share your burden!"

Wang Xiao Er said this, he got anxious, there was even slight rage in his tone.

The four great obscenities looked at Wang Xiao Er, feeling pain internally.

Or more accurately speaking, their butts were starting to hurt again.

Was it their good luck or bad luck to have met such a person? They were lucky because they could survive until now because of him. But why was it that they would rather have never met him?

"This is our fate." Chen Yin Dao sighed bitterly: "Immortal, since you cannot save us, we might as well stay here and wait for death."

Kong Sheng Tian's will chuckled as he waved his hand: "Even though I cannot save you, I have a method that can alleviate your problem. I can temporarily suppress this problem within you, it will not bother you for some time."

"You can do that!" The four great obscenities became excited, they quickly thanked him profusely.

Wang Xiao Er was also quite excited.

Kong Sheng Tian's will pondered again: "According to my deductions, your fortune does not exist in Southern Border, it is still in Central Continent."

"What?" The four great obscenities looked at each other, they were chased out of Central Continent after all, but hearing Kong Sheng Tian's words, they still had to return to Central Continent?

Kong Sheng Tian's will snorted coldly: "This is all I'll say, whether you believe it is up to you. Go!"

The reason he spoke to these mortals for so long was because of his inheritor Kong Ri Tian. As for Wang Xiao Er, Kong Sheng Tian's will did not want to involve himself.

If his main body was around, he might intervene.

But now, who knew what background Wang Xiao Er had? Was he really having amnesia or was he pretending? Even if he did lose his memories, looking at him, he still had defensive methods.

Kong Ri Tian had not become a Gu Immortal yet, he was even pursued by Southern Border's righteous path Gu Immortals, Kong Sheng Tian decided to act ignorant.

He wanted nothing to do with Wang Xiao Er.

"Go." Kong Sheng Tian spoke as he activated a killer move, utilizing Hu Land.

Normally speaking, when Gu Immortals used killer moves, a strong aura would leak out and cause others to be wary.

But Kong Sheng Tian's method could conceal the aura to a relatively perfect degree.

This method was really rare.

In the current five regions, only Wu Yong could do it.

This meant that when Kong Sheng Tian was alive, he was definitely a huge headache for his enemies, they could not easily defend against him.

Thus, when Wu clan's Gu Immortal found something amiss, it was all too late. He watched as these people flew away in all directions, unable to stop them.

Wu clan's Gu Immortal was upset but also filled with shock and uncertainty.

Because he found Hu Land!

"This is a qi path secluded domain of heaven and earth? I am going to make a huge contribution!" After Wu clan's Gu Immortal confirmed it, he became intensely happy, he started to contact Wu clan's first supreme elder Wu Yong.

When Wu Yong received the news, he was settling the clan affairs in his room.

"Hu Land?!" He immediately stood up from his seat, his eyes shining with bright light.

Next, he opened his mouth, he blew out a mouthful of green wind.

After the green wind moved around and grew into the size of a fist, it entered Wu Yong's mind.

Thoughts collided in Wu Yong's mind as they were constantly produced, the green wind would absorb them and assist in the collision speed, allowing him to think faster.

Even though Wu Yong was a wind path expert, his attainment level was beyond the level of mimicry, he could easily copy the trait of wisdom path.

"Hu Land is a secluded domain of heaven and earth, if Wu clan can obtain it, this might be the chance for me to start my domination!" Wu Yong was extremely happy, it was as if a fire burned in his heart, blazing intensely.

There were many secluded domains of heaven and earth recorded in <<The Legends of Ren Zu>>. For time path, there was the River of Time, for space path, there was space cave, also know as space door. For qi path, there was Xi Land and Hu Land. For rule path, there was Reverse Flow River, Cheng Bai Mountain, and Miniscule Mountain. For information path, there was Qian Kun Crystal Wall, Whisper Forest… and for soul path, there was Dang Hun Mountain and Luo Po Valley…

There were also some secluded domains of heaven and earth that comprised several paths, for example City Well, the Blue Sea of Life, and Ordinary Abyss.

Gu were the essence of heaven and earth, fragments of the Great Dao, even though secluded domains of heaven and earth had scattered dao marks, the total number usually surpassed rank nine Immortal Gu.

These secluded domains of heaven and earth were not just recorded in <<The Legends of Ren Zu>>, very rarely, they had been obtained by Gu Immortals or super forces, leaving behind their own legends.

If a secluded domain of heaven and earth was used well, it could give a huge benefit to the super force. Even pseudo venerables and venerables would benefit greatly from them.

Ignoring anyone else, just the pseudo venerable Demon Immortal Qi Jue, he had used Xi Land to participate in a top level fight of the Gu Immortal world immediately after reviving.

Wu Yong knew: “For a super force, if they could develop a secluded domain of heaven and earth well, they would gain immense profits from a monopoly in the market, for example, like Dang Hun Mountain.”

“For a Gu Immortal, a secluded domain of heaven and earth was the replacement of a rank nine Immortal Gu, it could shake the entire era, causing a new trend to emerge in the immortal world!”

Rank nine Immortal Gu were too hard to get.

There were not many rank nine Immortal Gu even in history.

For example, fate Gu, Heavenly Court spent millions of years trying to protect and restore it.

Or wisdom Gu for example, Giant Sun Immortal Venerable spent a lot of effort to keep it within Eighty-Eight True Yang Building.

There was also hatred Gu, Genesis Lotus Immortal Venerable plotted for hundreds of thousands of years before succeeding.

The venerables in history were the group that had the most number of rank nine Immortal Gu, all of their vital Gu were rank nine. Other than them, the number didn't even reach five.

Thus, the value of a secluded domain of heaven and earth was apparent. Using a secluded domain of heaven and earth as the core to activate an immortal killer move would often have great effects.

Like Fang Yuan's reverse flow protection seal.

"I need to do my best and obtain this secluded domain of heaven and earth, I need to get it secretly and prevent information from leaking!" Wu Yong made up his mind.

The secluded domain of heaven and earth had huge implications if it was exposed, the whole of Southern Border would get involved, the other four regions might even come to snatch it.

But now, this secret had not been exposed yet, Wu Yong saw a great chance for himself.

Other forces only knew about Sheng Tian true inheritance, they did not know about this Hu Land.

Earlier, Wu clan's Gu Immortal had already fought against the other clans' Gu Immortals, they left on their own accord. Right now on Rotten Mud Mountain, there were no other lone and demonic cultivators.

In the past, if a rank eight inheritance like Sheng Tian true inheritance appeared, the entire Southern Border Gu Immortal world would be moved, many people would be sent out to fight for it.

But it was different now.

All five regions had inheritances appear, they were all exposed due to the qi tides.

Wu clan's Gu Immortal was able to defeat the competitors mostly due to this reason, the other super forces were busy dealing with their own territories, they were trying to get the inheritances of the highest value.

Sheng Tian true inheritance was just one of them.

Compared to Southern Border's righteous path, Wu Yong was more worried about the pseudo venerables.

“Demon Immortal Qi Jue and Qi Sea Ancestor are both qi path Gu Immortals, this Hu Land has huge significance to them.”

“But luckily, Demon Immortal Qi Jue is currently suppressed by Divine Emperor City, while Qi Sea Ancestor is fighting against the variant human alliance led by Fang Yuan, he has no time to spare.”

“As for Fang Yuan…”

Wu Yong was still most worried about Gu Yue Fang Yuan!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2100 - Fire Thunder True Inheritance

Chapter 2100: Fire Thunder True Inheritance

In the past, Wu Yong chased after Fang Yuan and forced him to go from Southern Border to Western Desert. Now, Wu Yong was afraid that Fang Yuan would approach his clan and snatch Hu Land away!

Wu Yong knew that if Fang Yuan came for it, he would not be able to block him.

Immortal Gu were easily destroyed, Fang Yuan might act carefully, but these kinds of secluded domains were hard to destroy, he was almost certainly going to succeed in snatching it.

“Fang Yuan has the sovereign immortal body, he can cultivate any path, that is quite terrifying, Hu Land is definitely useful to him. If this Hu Land is exposed, my Wu clan will not be able to keep it, it will be taken away. By then, not only will we waste our time and resources, we may also incur deaths. Wu clan’s prestige may also fall, it will be better if we leave it alone!” Wu Yong thought about the situation.

He decided to send people and secretly take Hu Land away. If it got exposed during this process, he would immediately abandon it.

Even though Wu clan was big, it was not the match of someone like Fang Yuan!

In this world, the number of people did not matter, only individual strength was of importance.

“Those villages around Rotten Mud Mountain have no Gu Immortals, but we need to prevent the mortals and Gu Masters from exposing the news. Maybe we can make use of the ‘beast tide’ to settle this problem.”

“There is no rush to find Kong Ri Tian, we can just investigate it secretly. Hopefully, he does not expose his location before I get Hu Land.”

If he still kept up the commotion, he would cause suspicions — Wu clan’s Gu Immortal was actually unable to capture Kong Ri Tian, wasn’t that too strange? What method did Kong Ri Tian use to escape from Wu clan’s rank seven Gu Immortal?

By then, they would cast their suspicions on Rotten Mud Mountain.

Thus, Wu Yong would rather have Kong Ri Tian hide himself these few days without exposing his location.

“To lure the attention of Southern Border’s Gu Immortal world, I might need to activate my arrangement in Ba clan in advance to create a smokescreen for me to take Hu Land.”

“Of course, there is the one biggest flaw in this plan, that is Kong Ri Tian.”

“Kong Ri Tian has Kong Sheng Tian’s will, he can connect to treasure yellow heaven. At the crucial moment, if he exposes the secret of Hu Land, it would cause our Wu clan to suffer a huge amount of conflict.”

“But this possibility is quite unlikely.”

Wu Yong analyzed to himself.

Firstly, Kong Sheng Tian cultivated qi path, Kong Ri Tian would definitely cultivate qi path too. If Wu clan obtains Hu Land, from their perspective, they would want to compete with Wu clan in the dark and retrieve Hu Land without a commotion. They would not want a large number of competitors to emerge.

Secondly, if Kong Ri Tian exposed the secret of Hu Land, he would be the mortal enemy of Wu clan, it was not a wise thing to do since it would cause them to take revenge. At the same time, Kong Ri Tian would expose the secret that he was still escaping, other Gu Immortals would go and capture him.

Even though the possibility was unlikely, the chance was still there.

The risk of secretly taking away Hu Land was very huge to Wu clan!

But the benefit it involved was also massive, Wu Yong was willing to take the risk.

Some days later.

Above red dragon river, Wu clan's, Xia clan's, and Ba clan's Gu Immortals were nervously anticipating a contest.

River water surged as ripples spread with explosive sounds, this was the fire thunder river segment of red dragon river, it produced fire path and lightning path Gu worms.

A newly discovered rank eight true inheritance was hidden at the bottom of this river segment.

The person who set up this true inheritance was called Fire Thunder Divine Lord, he cultivated fire path primarily with lightning path secondarily, even though he was a lone cultivator, he had above average luck and experienced many fortuitous encounters.

He was not a Southern Border Gu Immortal, he came from Western Desert.

He had once caused chaos in Western Desert's Gu Immortal world, several Western Desert super forces chased after him. Even though he managed to survive, by the time he got to the fire thunder river segment of red dragon river, his injuries could not be healed, before dying, he made his arrangements.

Precisely because of his arrangements, this river segment turned into the fire thunder river segment gradually over time.

Fire Thunder Divine Lord's methods were not eye-catching, they were very close to that of nature, even though this was the intersection of Ba clan and Xia clan, the two super forces did not notice anything strange, they thought it was a natural development.

Even though fire thunder river segment produced fire path and lightning path Gu worms, no Immortal Gu had ever been produced. Thus, Ba clan and Xia clan did not pay attention to it.

For mortals, even though the fire path and lightning path mortal Gu were alluring, the environment was too dangerous, few rank five Gu Masters would take the risk.

Thus, Fire Thunder Divine Lord's true inheritance remained hidden for so long, until now when the qi tides swept through the world, it was unveiled.

Fire Thunder Divine Lord was a rank eight Gu Immortal, the rank eight true inheritance he left behind was quite high quality, it caused almost all of Southern Border's super clans to compete for it.

After some probing and fighting, only three competitors were left.

One was Wu clan, the other two were Ba clan and Xia clan.

Ba clan's current first supreme elder was Ba De, he was tall and had a plain look, he had a strong body with broad shoulders and chest, his skin that was not covered looked like thousand year old tree bark, there was even green moss growing on it.

He had a large mouth and broad nose, his eyes were covered by a black cloth, covering them completely. His dark green beard hung down to his waist, while his jade green hair extended to the back of his waist.

Ba De floated in the air as he called to Wu Yong: "Wu clan, you are overstepping your boundaries, this is the territory of my Ba clan. Regardless of what true inheritance it is, this belongs to Ba clan. Wu clan, as the leader of the Southern Alliance, the leader of Southern Border's Gu Immortals, why are you not being a role model, are you ignoring the rules of the righteous path?"

Wu Yong smiled as he said gentlemanly: "Since when has this fire thunder river segment become yours? The territorial boundary between Xia clan and Ba clan is a sensitive area, Ba De, you need to speak more carefully, at least, you need to ask about the opinion of our comrades from Xia clan."

Before he finished, Xia clan's Gu Immortal Xia Zhao spoke: "Lord Wu Yong, regardless of whether this is Xia clan's or Ba clan's territory, it is still our matter. Wu clan is far away at the southern-most area, even Qiao clan is nowhere close to the fire thunder river segment."

Even though Xia Zhao only had rank seven cultivation level, Xia clan's original first supreme elder Xia Cha had already been turned into a mortal Gu Master by Fang Yuan, Xia Zhao was now the current first supreme elder, on the same status as Ba De. Thus, it was not strange that he spoke.

Xia clan and Wu clan had conflict between them even from before now, their relationship was not good.

Ignoring anything else, just merely in recent years.

Xia clan and Wu clan conflicted over Frosty Peak, Fang Yuan had disguised as Wu Yi Hai and forced Xia Fei Kuai away, winning the contest.

After that, Xia clan still made an attack and took over Qiao clan's empty origin pit. Qiao clan was Wu clan's subsidiary force, invading Qiao clan's territory was offending Wu clan. After that, Wu Yong used Clear Jade Dripping Wind Tiny Bamboo Building to turn the situation around, Xia clan was forced to return empty origin pit.

Xia clan's external supreme elder Immortal Yan Huang had once owned Moon Bowl, but Wu clan had already taken possession of this territory.

Thus, even though Xia clan and Ba clan were not harmonious, because Wu clan was the strongest among them, these two clans were actually standing on the same side now.

Qiao Si Liu's expression changed slightly.

She was one of Southern Border's three great fairies, her beauty was on par with Fairy Miao Yin.

Her cultivation level was also rank seven.

This time, with Wu clan's action, Qiao clan had to show some effort as their subsidiary force, thus they sent Qiao Si Liu to accompany Wu Yong.

Qiao Si Liu knew about the rules of the righteous path, seeing Ba clan and Xia clan joining up against Wu clan, she became anxious internally.

Righteous path Gu Immortals had a set of rules to follow, they were not as free as the demonic path or carefree as the lone cultivators.

Even though Wu Yong was strong, seemingly the number one person in Southern Border, without a good righteous reason, he could not take Fire Thunder true inheritance by force.

At this moment, Wu Yong's reputation and his status as the Southern Alliance Leader became the chains that bound him.

If Wu Yong took it by force, he would lose everyone's support, Southern Border's righteous path would lose faith in his impartiality as the alliance leader.

Wu clan was a powerful force but they did not cultivate fire path or lightning path, a rank eight fire thunder true inheritance was really not significant to Wu clan. If Wu Yong tried to take it now, Wu clan's losses would be even larger instead!

Against Xia clan and Ba clan's resistance, the smile on Wu Yong's face became even more evident: "Go, bring the person here."

He instructed.

The Wu clan Gu Immortal behind him opened his immortal aperture's entrance, a mortal Gu Master came out.

Wu Yong introduced: "This Western Desert Gu Master is the bloodline inheritor of Fire Thunder Divine Lord. Whether fire thunder river segment belongs to Ba clan or Xia clan does not matter, what is clear is that the Fire Thunder true inheritance in the river belongs to this little friend."

The expressions of Ba clan's and Xia clan's Gu Immortals changed.

Wu Yong smiled again with calm composure: "As righteous path members, how can we snatch other people's inheritances? This true inheritance has its owner, it belongs to this friend from Western Desert. As the Southern Alliance Leader, I need to be impartial in my actions, if anyone suspects his identity, you can extract his blood and test it."

"As expected of Lord Wu Yong! So he came prepared." Qiao Si Liu's eyes shined as she calmed down.

With this excuse, Wu clan had the right of reason, they could block any accusations that came at them, Wu Yong could use his full strength. In contrast, Ba clan and Xia clan fell into an awkward spot.

Ba De and Xia Zhao looked at each other, their expressions were ugly.

Wu Yong made such ample preparation, they were quite surprised.

Even though Wu Yong had just risen to power recently, his political skill was a huge lesson to the entire Southern Border Gu Immortal world.

Ba De and Xia Zhao knew that since Wu Yong brought out this bloodline descendant, his identity had to be authentic. Even if Wu Yong was faking it, he would have done it with a superb method that could not be seen through for now.

Ba De and Xia Zhao discussed among themselves and took a few steps forward.

Ba De had a solemn expression: "How can we return an inheritance of Southern Border to Western Desert?"

Xia Zhao added: "Since Fire Thunder Divine Lord died here and left his true inheritance in Southern Border, this is simply the will of heaven."

Ba clan and Xia clan could not back out, the true inheritance was in-between their territories, if they backed off now, would they still keep their reputation?

Wu Yong was not surprised by their words, he waved his sleeves:”Then let the three of us compete for it.”

The situation had reached this stage, they could only fight to determine the outcome.

“Let me exchange blows with you!” Ba De shouted as he acted first.

Xia Zhao only had rank seven cultivation level, he quickly flew away and attacked from afar, helping Ba De to restrain Wu Yong.

Wu Yong laughed heartily, intense winds blew as the sky turned dark.

Ba De cultivated wood path, he activated his killer move, countless ancient trees and flying leaves appeared in the sky.

But against Wu Yong’s killer moves, the trees were sliced apart and the leaves wilted away.

After three rounds, Ba De and Xia Zhao got defeated by Wu Yong, the superior side was very obvious.

“Anything else to say?” Wu Yong smiled.

Xia Zhao had a livid expression, he remained silent. He could not help but recall the time when Xia Cha was still rank eight, at least back then, Wu Yong was not so arrogant.

“He actually became this strong!” Ba De was internally shaken as he clenched his fists: “But I still have another trump card killer move unused. If I try… can I defeat Wu Yong?”

Ba De thought about it, he relaxed his clenched fists.

Just this Fire Thunder true inheritance was not important enough for him to expose the killer move that he had kept a secret for years.

Ba clan and Xia clan left in the end.

Wu Yong brought the Western Desert Gu Master to the bottom of the river as he retrieved the Fire Thunder true inheritance.

The Western Desert Gu Master knelt down on the spot, requesting to join Wu clan.

Wu Yong agreed immediately.

This Western Desert Gu Master was called Zhong Yi, he had ample talent and a good character, he could become a Gu Immortal seed with some nurturing, Wu clan had no losses in taking him in.

Because of Fang Yuan, a number of Wu clan's Gu Immortals had died. Wu Yong needed more Wu clan Gu Immortals to emerge now, thus he took in the surrounding Gu Masters of other regions as their clan's future external elders.

"Congratulations to Lord Wu Yong, you easily defeated Ba clan and Xia clan, obtaining Fire Thunder true inheritance." Qiao Si Liu said with deep politeness.

"In the current Southern Border, who dares to contend with our lord?" Wu clan's Gu Immortals gained a surge in morale, they spoke excitedly.

Wu Yong acknowledged their words, he said calmly: "Spread news of today's battle, I want the entire Southern Border Gu Immortal world to hear of it."

"Yes." Wu clan's Gu Immortals answered.

"Lord Wu Yong, I, mushroomman Gu Immortal Ke Xin Hong, seek your audience." At this time, a mushroomman Gu Immortal approached from the southeast direction, riding waves along the way.

"What?"

"A mushroomman Gu Immortal!"

"Does he come from Mushroomman Paradise? Such guts."

The Gu Immortals around Wu Yong had changes of expressions.

Ke Xin Hong wore a white shirt, he had a plain face, he did not conceal his appearance, there was a large mushroom above his head, looking like a hat.

Wu Yong's heart jolted.

At the next moment, Ke Xin Hong transmitted to Wu Yong: "Lord Wu Yong, I come from Mushroomman Paradise, I carry the orders of Lord Gu Yue Fang Yuan."

Wu Yong's expression did not change, he replied: "For what matter have you come?"

Ke Xin Hong smiled: "Sheng Tian true inheritance."

Wu Yong's pupils shrunk immediately.

Chapter 2101 - Fang Yuan Makes A Transaction

Chapter 2101: Fang Yuan Makes A Transaction

Wu Yong tried to stay calm as he exchanged some words with mushroomman Gu Immortal Ke Xin Hong.

“So Fang Yuan wants my Sheng Tian true inheritance but he has not discovered Hu Land!” After some probing, the worry in his heart was finally lifted.

The truth was, as long as Kong Ri Tian did not expose this secret personally, there was only a slight possibility that Hu Land would be discovered by anyone else other than Wu clan.

Back then, Kong Ri Tian and the rest used Hu Land to escape, no other Gu Immortal saw them.

“After Kong Ri Tian and the rest escaped, no news of them had emerged. Thus, outsiders like Fang Yuan would think that Kong Ri Tian is in my hands. Thus, he came to me for Sheng Tian true inheritance.”

Wu Yong thought: “My actions earlier were not good enough. I should have announced immediately that Kong Ri Tian was captured by my Wu clan!”

Even though that was not true, if Wu clan publicized that, Kong Ri Tian would not come out to refute him anyway.

If Kong Ri Tian exposed himself, the Gu Immortals that were after Sheng Tian true inheritance would charge towards him like jackals, they would tear his weak little body to shreds.

"If Kong Ri Tian hears such an announcement from my Wu clan, he will also understand our motive. Keeping Hu Land a secret will also be ensuring his safety, he will not reject it."

Wu Yong had another plan, he could make up for his previous mistake.

Hu Land was a secluded domain of heaven and earth, it had immense value, if Wu clan wanted to own it, he would need to do it in secret!

"I can let you have Sheng Tian true inheritance." Wu Yong rapidly transmitted and replied Ke Xin Hong.

For Hu Land, giving up Sheng Tian true inheritance was a wise decision.

Moreover, this Sheng Tian true inheritance had just been obtained by Wu clan, it had contents but not Immortal Gu. The Immortal Gu and immortal essence were still in Kong Ri Tian's hands.

Ke Xin Hong was slightly stunned.

Wu Yong agreed so readily, it was out of his expectations.

He was a Gu Immortal expert of Mushroomman Paradise, after Lu Wei Yin submitted to Fang Yuan along with the entire paradise, he became Fang Yuan's subordinate.

This was the first mission that Fang Yuan gave him.

When Ke Xin Hong received this mission, he felt great internal pressure. He had heard of Wu Yong's name long ago, along the way, he was thinking of what to do if Wu Yong rejected or refused to agree with this.

To think that he would agree so easily after they met.

"I finally understand the might and prestige of my lord now." Ke Xin Hong sighed internally, filled with deep emotions.

Ke Xin Hong added: "Lord Wu Yong, my lord is willing to pay for the entire Sheng Tian true inheritance."

It was Wu Yong's turn to be stunned.

Hearing Ke Xin Hong's words, it seemed like Fang Yuan wanted a fair trade? He was not going to extort or snatch it by force?

Wu Yong quickly reacted, he listed his condition.

Ke Xin Hong frowned slightly, because Wu Yong wanted a rank nine wind path immortal material, it was quite rare in the market.

Ke Xin Hong could not decide this alone, he quickly communicated with Fang Yuan.

After receiving an answer, Ke Xin Hong started to smile again as he looked at Wu Yong.

Using treasure yellow heaven, this transaction was quickly completed.

Fang Yuan obtained the full details of Sheng Tian true inheritance, while Wu Yong obtained a rank nine wind path immortal material.

"Fang Yuan has a large number of grotto-heavens from the two heavens, it is not strange that he has rare immortal materials. But he really went ahead to transact with me?!"

Surprisingly getting a rank nine wind path immortal material, Wu Yong's preparatory work for refining eight-faced prestige wind Immortal Gu achieved a significant breakthrough.

But Wu Yong could not be happy!

Fang Yuan had the battle strength to snatch Sheng Tian true inheritance but he did not do that.

He only sent a mushroomman Gu Immortal and expressed his sincerity in making a fair trade, afterwards, he held his word and paid with a rank nine wind path immortal material.

"Fang Yuan is truly amazing!" Wu Yong sighed deeply.

As the saying goes, an expert swimmer would eventually drown, an expert combatant would die in battle, relying on one’s specialty without possessing other skills was a dangerous thing.

Once people started to rely on something, they would unknowingly stay within their comfort zone, they would develop a mental pattern. When they encounter problems, they would use their specialty trait to resolve the issues, as time passes, all of their other methods and perspectives would vanish. Eventually, they would face the greatest predicament of their lives, it might be their end.

But Fang Yuan did not do that.

He had great battle strength and could snatch the true inheritance, but if he did that, he would waste a lot of time and energy, there was even a chance of failing.

After all, the information could be erased.

But using this transaction, Fang Yuan easily obtained Sheng Tian true inheritance without a hitch.

Wu Yong analyzed: “This can mean at least two things.”

“Firstly, Fang Yuan has a lot of immortal materials, one rank nine wind path immortal material is not important in his eyes!”

“Secondly, even though he is the number one person in the world, he still keeps his composure and scheming mind, he does not overly rely on his strength. Sigh, it would have been great if I managed to kill him back then. Fang Yuan has already grown fully, with such a nature, he is too terrifying.”

When Sheng Tian true inheritance’s transaction ended, Fang Yuan’s main body was already in Western Desert.

Western Desert, Fang clan’s headquarters.

Fang clan’s supreme elders were almost fully gathered, they stared at Fang Yuan like he was a fatal enemy.

“Everyone, don’t be too nervous, really, I came here to make a transaction with Fang clan.” Fang Yuan smiled.

But Fang clan's immortals felt huge pressure weighing on them.

Fang clan's first supreme elder Fang Gong said: "Is it our fortune or misfortune to have received your attention?"

"Everyone, we have quite the relationship actually." Fang Yuan started to activate his killer move.

As the aura leaked, all of Fang clan's Gu Immortals stood up from their seats, they quickly activated their Immortal Gu, a battle was about to start.

"Fang Yuan, what are you doing?"

"This is our Fang clan's headquarters!"

"Earlier when we were outside, you said you wanted to make a transaction, if you attack now, who will believe your words in the future?"

Fang clan's Gu Immortals called out with intense nervousness.

Fang Yuan smiled coldly: "If I wanted to harm you, I could have attacked from the start, can your Fang clan stop me?"

As he said so, his appearance changed.

Fang clan's Gu Immortals were shocked: "Suan Bu Jin?"

Fang Yuan activated familiar face again, changing into another appearance.

Fang clan's Gu Immortals saw Fang Yuan's appearance, they became shocked again: "Fang Di Chang?"

Fang Yun frowned, he was the adopted son of Fang Di Chang, seeing Fang Yuan's transformation, he felt repulsed: "Lord Fang Yuan, did you come all the way to our clan just for this display of transformations to mock us?"

Fang Yuan looked at Fang Yun, saying with deep meaning: "Yun Er, during this time when I was gone, why didn't you convert to wisdom path? Father gave you three wisdom path Immortal Gu and even my wisdom path inheritance. Fang clan has no wisdom path Gu Immortal at the moment, if you do not take up this responsibility, who will?"

"You, you!" Fang Yun pointed at Fang Yuan, he stared with wide opened eyes, filled with shock.

The other Fang clan Gu Immortals also had a change of expression.

They realized something from his words, they had a guess regarding the truth, the reality of it made them sink into panic.

"Indeed, I am Suan Bu Jin, who also became Fang Di Chang later on. I have interacted with you guys much more than you think." Fang Yuan looked around as he laughed heartily.

Fang Gong's expression was livid, he could not wait anymore, he stood out: "What evidence do you have?"

Fang Yuan gave a bunch of evidence to the Fang clan Gu Immortals as he transmitted to Fang Gong, snickering: "Fang Gong, you and Fang Di Chang decided to sacrifice Suan Bu Jin to refine Divine Bean Palace, do you really want me to expose it?"

Fang Yuan not only had evidence, he even had accurate facts, Fang clan soon realized the whole story.

"So Fang Yuan infiltrated our Fang clan long ago!"

"He even became our external supreme elder!"

"Oh heavens, even our second supreme elder Fang Di Chang was replaced by him, we did not even notice!!"

After Fang clan's Gu Immortals realized the truth, they all turned pale as cold sweat broke out.

It was too terrifying.

If not for Fang Yuan's reveal, they would still think that Fang Di Chang was currently trapped inside Divine Emperor City.

Ever since the fate war ended, Fang clan had been trying to negotiate with Heavenly Court to get back their supreme elder Fang Di Chang.

“This means that Divine Bean Palace trapped your clone, while our second supreme elder died at your hands!” Fang Gong looked at Fang Yuan with a cold gaze.

Fang Gong was tall and sturdy, with long white hair and beard spreading around his head like a lion’s mane, he had bulging muscles that resembled rocks. Facing the murderer of his second supreme elder, if it were any other person, he would have attacked already.

But against Fang Yuan, he could only restrain himself, he looked at Fang Yuan with a complex gaze, there was anger and hatred in his eyes, but also helplessness and wariness.

Fang Yuan was too strong, his demonic might was unparalleled, his reputation was unmatched, Fang Gong did not dare to make a rash move!

Fang Yuan continued: “Saying that Fang Di Chang died at my hands is both correct and also wrong. Fang Di Chang’s body is destroyed but his soul is in my hands, do you want it back?”

Back then, to avoid the detection of soul lantern Gu, Fang Yuan did not kill Fang Di Chang, he only separated his body and soul.

Fang Di Chang’s soul was still kept in Fang Yuan’s hands.

Fang clan’s Gu Immortals heard this, they became excited.

“Fang Di Chang’s soul is in your hands?”

“Great, our second supreme elder can be saved!”

“No wonder Central Continent has been so vague all this time, so they did not even have our second supreme elder in the first place.”

“In the current world, Fate has been destroyed, as long as Fang Di Chang’s soul is around, if he gets a Gu Immortal body, he would return to Fang clan again.”

“If this Gu Immortal body cultivates wisdom path, then after Fang Di Chang revives, he will be an immense help to your entire clan!”

“Now tell me, friends from Fang clan, do you want to make a transaction with me?” Fang Yuan stated his ultimatum.

Fang clan’s Gu Immortals were silent, they looked at Fang Gong.

At the crucial moment, only a rank eight Gu Immortal like Fang Gong could make the decision!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2102 - Going After Tian Nan’s true inheritance

Chapter 2102: Going After Tian Nan’s true inheritance

The answer to Fang Yuan’s question was obvious for Fang clan.

Fang Gong nodded as he thought about his words before saying in a solemn tone: “Of course we are willing to transact, but Sir Fang Yuan, what do you want? If your request is too much, or if it exceeds our capability, then…”

Fang Yuan waved his hand, interrupting Fang Gong: “Firstly, I need Thieves Den. Secondly, I need Fang clan to take over green ghost desert and provide me with a vast number of soul cores, what I will give to you is not just Fang Di Chang’s soul. We can slowly discuss the details later.”

Fang Yuan gave loose conditions, Fang clan’s Gu Immortals were excited about it but also held suspicions.

Fang Yuan seemed to know what they were thinking: “I can easily destroy your entire Fang clan, why would I need to resort to other methods? I’ll let you know, I’ve already done a transaction with Wu Yong. I am not a brutal person, killing is just a method. Unless I have to, I will not use brute strength to satisfy my requirements.”

Fang clan’s immortals were shaken internally, Fang Yuan’s words had hidden meaning. He was saying that if they did not satisfy him, he would wage war on them, they would lose terribly and even get wiped out!

Fang Gong felt bitter internally, against this powerful and domineering Fang Yuan, what could he choose?

Actually, the moment Fang Yuan showed up, Fang clan no longer had a chance in the matter.

Fang clan had to cooperate with Fang Yuan, they had to undergo transactions.

Otherwise?

Death!

Heavenly Court could not stop Fang Yuan, Spectral Soul was even killed by him, even before that, Southern Border's rank eight Gu Immortals were also harmed by him!

What could the mere Fang clan do against him?

Even a super force would be exterminated.

Looking at the past, Northern Plains' Hei tribe had been destroyed, replaced by Bai Zu tribe.

There was also Qing clan, back then, they were incredibly powerful, but after provoking the young Spectral Soul, they were wiped out. Green ghost desert was now Qing clan's graveyard, it was right beside Fang clan.

Sometimes, one person could wipe out an entire force.

In the Gu world, strength ruled above all!

Thus, even though super forces had deep foundations, they would often be very careful when dealing with lone immortals or demonic immortals, especially when engaging in combat.

In order to survive, Fang clan agreed to Fang Yuan's requests.

The two sides negotiated for some time before they arrived at a conclusion.

Fang Yuan's terms were too relaxed, Fang clan could barely believe this was real.

Was this the number one demon in the world, Gu Yue Fang Yuan?

Because reality was much better than their expectations, these Fang clan Gu Immortals' moods improved drastically!

"I said before, I am not someone who enjoys killing brutally, cooperating with me has great benefits." The person who slaughtered his clan, killed all the Gu Immortals in Hei Fan grotto-heaven, participated in the Dong Fang tribe incident, partially accountable for Snowy Mountain blessed land's destruction, annexed his allies in Lang Ya Sect and the variant humans, destroyed Eighty-Eight True Yang Building, captured Southern Border's righteous path Gu Immortals, killed Gu Immortals from all the five regions and two heavens, participated in Heavenly Court's climactic battle, and the one who slaughtered Spectral Soul, Fang Yuan, said with an earnest expression.

Fang clan's Gu Immortals had twitching eyelids as they quickly agreed with him.

"Lord Fang Yuan is right!"

"Working with Lord Fang Yuan is our clan's greatest blessing."

"Actually, we know about your circumstances back then, Lord Fang Yuan, Heavenly Court was simply too much of a bully!"

Fang clan's Gu Immortals uttered words that seemed to be their heartfelt feelings, they showed no signs of insincerity.

Fang Yun and Fang Leng were still too young, they remained silent.

"If Lord Fang Yuan is interested in creating a clan, my Fang clan will do our best to help you!" Fang Gong ended the conversation with a promise that held great meaning.

Fang Yuan looked at him with a deep gaze before leaving.

At the next moment, he activated a killer move and vanished from everyone's sight.

Fang Gong tried to induce Fang Yuan into creating a clan, it was for the sake of Fang clan. If their secret transaction was exposed in the future, Fang clan would be in a passive spot, their reputation would fall, they might even get attacked by other super forces.

But if Fang Yuan creates a clan, he would go from the demonic path to the righteous path. by then, if this transaction was exposed, Fang clan would only face some criticism.

Gu Masters and Gu Immortals who were lone and demonic cultivators could convert their statuses into members of the righteous path.

Heavenly Lord Bai Zu was one such example.

If a demonic or lone cultivator had enough battle strength to make the righteous path forces wary, they would not want to fight. When these Gu cultivators create their clan, if they were adept at dealing with the surroundings forces to create beneficial relationships, they might reach a certain agreement and balance, they would become part of the righteous path.

The truth was, many super forces in history, be they in Western Desert, Eastern Sea, or Southern Border, involved such cases.

Fang Yuan's transaction with Fang clan made Fang Gong realize that Fang Yuan was someone with such political view and ability.

If a strong demonic cultivator stops focusing on fighting or killing, he would act like a righteous path member, he would be able to change his status.

"It is a pity that is not my goal." Fang Yuan smiled lightly to himself.

In the five hundred years of his previous life, he created the Blood Wing Demon Sect, at its peak, there were ten thousand members, he learned of the true essence of strength at that time.

In this world, a person's strength can surpass an entire organization's, any sort of organization was just icing on the cake.

Only when an individual had high battle strength would they truly be strong!

Even the number one super force, Heavenly Court, had to rely on venerable methods to survive at the moment of crisis. Otherwise, it would have been destroyed already.

“Thieves Den.” Fang Yuan started his closed cultivation, deciphering this damaged Immortal Gu House.

Meanwhile, his clone in Eastern Sea, Qi Sea Ancestor, was also negotiating a transaction with Song clan.

Right now, there were only Qi Sea Ancestor and Song Xia Qi in the hall.

Song Xia Qi was a rank seven Gu Immortal of Song clan, he was tasked to be stationed in qi sea, he was their representative.

Right now, Song Xia Qi had an ugly expression, he could not sit still. Because earlier, he had received a “small” request from Qi Sea Ancestor — Tian Nan’s true inheritance!

Qi Sea Ancestor claimed that his descendants wanted some development in refinement path, thus he wanted to make a transaction with Song clan.

Song clan had once competed with Ruo Lai clan and Cai clan over the ownership of Ascending Heaven Plain, in the end, they won the true inheritance of Old Eccentric Tian Nan.

Old Eccentric Tian Nan was a genius of the Remote Antiquity Era, he had high seniority, the first refinement path supreme grandmaster recorded in history, he was on par with Old Immortal Kong Jue and Long Hair Ancestor.

Even after three million years, Old Eccentric Tian Nan’s true inheritance still had immense value.

Song Xia Qi was silent for a while before replying: “Reporting to ancestor, I would not dare to lie. Ever since we obtained this refinement path true inheritance, our Song clan has been researching upon it, we specially chose to nurture Gu Immortal seeds to make Tian Nan’s true inheritance one of our signature strengths in the future.”

“This is a huge matter, I cannot decide on it, allow me to report it first. But I would guess that the result might disappoint you, ancestor.”

Song Xia Qi said in a polite tone that he would report it, but he was clearly rejecting the idea.

Qi Sea Ancestor smiled as he waved his hand: “You do not need to worry, that was just a thought that I had. Since Tian Nan’s true inheritance is so precious to Song clan, why would I snatch it from you? We can forget about this matter.”

Song Xia Qi had a grateful expression, as he stood up to express his gratitude, he mentioned several other super forces in Eastern Sea, they also had deep foundation in refinement path.

Qi Sea Ancestor had a compassionate smile as he said: “I’ll remember your suggestions, don’t be in a rush to leave, I have made some new tea.”

Meng Qiu Zhen passed many dream realms recently, causing Fang Yuan’s food path attainment to jump through master level from zero foundation, becoming a grandmaster.

Qi Sea Ancestor was Fang Yuan’s clone, they shared attainment levels, while he organized his combat system, he created some new qi path tea as well.

After drinking the tea, Song Xia Qi bid farewell to Qi Sea Ancestor respectfully.

After returning to his estate, he used an immortal killer move to communicate with Song clan’s headquarters.

This matter concerned Qi Sea Ancestor, it was too important, Song clan’s immortals soon learned of this situation.

Song clan’s Gu Immortals put everything else aside as they quickly discussed.

“Hmph, back then our Song clan spent so much resources and manpower to gain ownership of Ascending Heaven Plain and obtain

Tian Nan's true inheritance. This Qi Sea Ancestor wants to take the fruit of our labor just like that? Wishful thinking!"

"I think it was inappropriate to reject him on the spot. We need to give Qi Sea Ancestor some respect, at least, we should listen to his offer."

"No, Tian Nan's true inheritance is not for sale! Even though our Song clan specializes in light path and water path, these two true inheritances are not outstanding compared to other super forces. But with this Tian Nan's true inheritance, our success rate of refining Immortal Gu will rise sharply, the benefit for our clan is long lasting and immense."

Song clan had been looking for a refinement path true inheritance all this time.

The truth was, many Eastern Sea super forces were doing the same.

Because Eastern Sea had the most abundant resources and immortal materials, once they had a high quality refinement path true inheritance, the amount of benefits they would gain far surpassed the other regions.

"Tian Nan's true inheritance belongs solely to Song clan, this advantage might not be clear in the following years, but after decades or centuries, our Song clan's strength will definitely surpass the other super forces!"

"But offending Qi Sea Ancestor like this might not be appropriate? Thinking about our current situation, after the qi tides settled, all sorts of inheritances emerged, us super forces have been competing for them. Once we get into a deadlock, Qi Sea Ancestor would make the decision as the leader of the Righteous Qi Alliance. We need to consider if Qi Sea Ancestor will become biased after this, when he makes a decision in the future, will he purposely strip away our benefits?"

During this period of time, Qi Sea Ancestor was truly very busy.

Eastern Sea's righteous path forces joined his Righteous Qi Alliance, when they competed for true inheritances, it became the Righteous Qi Alliance's internal affair.

At some point, it became a trend to ask Qi Sea Ancestor to make the decision in a case of dispute, more and more forces started to find Qi Sea Ancestor.

Fang Yuan had very profound political skills, Qi Sea Ancestor was able to make decisions that could satisfy both parties in the dispute most of the time.

Thus, Qi Sea Ancestor's reputation rose every day.

Song clan's Gu Immortal had such a worry, it was not strange.

“We can satisfy any of his other requests, there is nothing wrong with improving our relationship with Qi Sea Ancestor. But he wanted Tian Nan's true inheritance… how do I put this? Qi Sea Ancestor has a really keen sense, as expected of someone who could contest with Fang Yuan!”

Earlier, Eastern Sea's super forces were friendly to Qi Sea Ancestor, wanting to rely on him to resist Wu Shuai and the variant human alliance. But now, after the battle to pursue Fang Yuan, Qi Sea Ancestor was enemies with Fang Yuan, the attitude of many Eastern Sea forces including Song clan had changed a lot.

“Song Xia Qi, when you rejected Qi Sea Ancestor, what did he do?” Song Qi Yuan asked.

Song Xia Qi quickly replied: “He gave up very quickly, there was no change in his attitude. He is very understanding and magnanimous, he even asked me to drink his tea. That new qi path tea is really amazing!”

Qi Sea Ancestor named his new tea triple layered qi tea. This tea was made using heaven qi, earth qi, and human qi.

In the cup, heaven qi was at the top, resembling floating clouds. Human qi was condensed into a lump, resembling a pill that floated in the middle of the cup. Earth qi sank to the bottom, the fragrance of the tea was deeply concealed, only after it was drank would it emit the fragrance and leave a lingering aftertaste.

After Song clan’s Gu Immortals heard the description, the unease in their hearts faded away slightly.

“Qi Sea Ancestor is really magnanimous!”

“Our Song clan has always been respectful to him.”

“Seeing his attitude, we should not have much to worry about. Even if he was angry, as the Righteous Qi Alliance Leader, he would not go overboard.”

“Tian Nan’s true inheritance concerns immense benefits, it will be the core inheritance of our clan in the future, we cannot lose it!”

After the Song clan Gu Immortals discussed for a long time, they made up their minds — they would leave this as it is.

Chapter 2103 - Song Clan Faces Disaster

Chapter 2103: Song Clan Faces Disaster

Several days later.

Inside the sovereign immortal aperture.

Dream realm.

After an intense battle of life and death, the opponent in front of Meng Qiu Zhen finally fell to the ground.

“I want to see who you really are!” Meng Qiu Zhen lost control of the body, he was acting as a young man who angrily went up and pulled off the opponent’s veil.

But the appearance shocked the young man deeply.

“Father, how can it be you?!” The young man shouted as his body trembled.

The one who fell was his father, he smiled in satisfaction as he said: “My son, you did well. You’ve learned all the killer moves of our clan, but your heart lacks sufficient hatred and sadness. I have a terminal illness anyway, I cannot live for long, it is better to sacrifice myself for you.”

The young man broke into tears: “Father, why can’t we give up on hatred and live in seclusion? Why must we take revenge at all cost?”

The young man’s father stared at him fixedly: “Our entire family was killed by the enemy, your mother, your grandparents, your younger brothers and sisters, they were all killed. This hatred is above anything else, how can we not take revenge?! Remember, your father died because of this. If you do not take revenge, my death will be in vain, I would have died because of you!"

The young man's body shook as he said in a hoarse voice: "Father…"

He wept in pain as a pale blue flame started to burn around his body at this time.

His father saw this flame as became very happy: "Good, good, good, such a powerful agony blue heart flame, it is enough to take our revenge, we can take revenge now…"

Saying so, the young man's father took his final breath.

"Oh no." Meng Qiu Zhen cried out internally.

Seeing his father's death, the agony blue heart flame on the young man' body expanded rapidly, it burned with at least ten times of the intensity as before!

Meng Qiu Zhen's soul was still in the dream, he instantly felt a surge of sadness, anger, and hatred, they poured into his heart like a torrential river.

"I cannot lose myself! This is the hardest part of the dream realm." Meng Qiu Zhen desperately held on but he started to lose his grip in a few moments.

Create dream!

Without a choice, he immediately used a dream path immortal killer move to defend his soul.

In a newly created dream within a dream, he was situated in a large room.

The room broke out in flames, it was burning in blue flames.

Meng Qiu Zhen quickly took action, extinguishing the fire all over the house, trying to save it.

After a chaotic period, the fire started to dwindle, the sturdy house was also burned to a crisp, only an intact guest room was left.

“I survived.” Meng Qiu Zhen let out a breath of air, dispelling the killer move dream within dream as he returned to the original dream realm.

The final hurdle of the dream realm was simply too fatal!

Meng Qiu Zhen was almost engulfed by emotions, he nearly forgot about reality and the dream completely, submerging entirely into this dream.

Of course, each time he explored a dream, his main body would stay outside to guard against any accidents, he would take action if something happened.

This dream realm was finally passed.

Together with the gains of the earlier few dream realms, Fang Yuan’s fire path attainment level reached great grandmaster!

“Fire path attainment level reached great grandmaster, I can finally annex those fire path grotto-heavens in the two heavens. Looking at the time, Wu Shuai’s method should have activated already.” Fang Yuan’s main body assessed.

Immemorial two heavens.

Fire Plain grotto-heaven.

On a vast grassland, there was red colored fire beard grass growing everywhere.

It was harvest season, Gu Masters of the grotto-heaven started to use Gu worms to collect the fire beard grass.

“Crack, crack…”

From somewhere, a terrifying sound could be heard from below.

The moment the Gu Masters sensed something, they were faced with a fatal threat.

Countless ants came up from underground, some were finger-sized, some were large as carriages, the number of ants was uncountably large, they instantly engulfed the entire fire beard grassland.

Skeleton grotto-heaven.

“What is going on? What is going on?!” The grotto-heaven Gu Immortal in charge of raising the bone armor hounds was flustered and helpless.

The thousand or so bone armor hounds that he was in charge of rearing started to growl in anguish, some were rolling on the ground, biting in a frenzy.

The Gu Immortal had a pale expression: “Oh no, I’m finished. Granny said that I had to take care of these bone armor hounds with utmost carefulness, but I actually screwed up so badly!!”

Some bone armor hounds started to die, a large number of ants crawled out of their corpses.

The Gu Immortal gritted his teeth in anger: “So these ants are the cause of this! I want you all to… ugh!”

The Gu Immortal was quickly shocked and uncertain.

Because more and more ants came out of the bone armor hounds, some were even coming out from the ground.

These ants were like raging tides, the size was growing rapidly, the Gu Immortal was very shocked. There was even Immortal Gu aura among them, the Gu Immortal did not dare to stay here, he quickly retreated.

Profound Literature grotto-heaven.

Imperial Court.

“Your Majesty, Chuzhou[1], Qingzhou, Lianzhou and other areas are experiencing ant plagues.”

“The ant plagues are too terrifying, in just half a day, hundreds of thousands of mortals died, a hundred cities got wiped out!”

“Within the ant plague, there are rank six and seven immortal ants, all of the officials in the various provinces are troubled.”

The current dynasty’s emperor frowned with a solemn expression: “The ant plague is too vicious, it is not something we can resolve. The current matter at hand is to contact the Grotto Lord!”

Song clan headquarters.

“Grandpa, you’re so nice to me, thank you for the Immortal Gu!” Song Yi Shi held the rank six water path Immortal Gu in her hands as she spoke happily.

Song clan’s first supreme elder Song Qi Yuan was her grandfather.

At this moment, Song Qi Yuan looked at his beloved granddaughter, he said in concern: “Our clan is researching Tian Nan’s true inheritance, this water path Immortal Gu is our first success. But my dear granddaughter, don’t go around flaunting it, tell others that you captured this wild Immortal Gu by chance. Even though I am the first supreme elder, I cannot be openly biased towards you.”

“I get it, I get it.” Song Yi Shi looked at the water path Immortal Gu in her hands with overflowing joy, while she was toying around with it in her hands, her face suddenly turned pale as she held her tummy.

“So much pain, so painful!” She fell down weakly, her face had turned white like snow.

Initially, only her stomach was hurting, but soon, the unbearably intense pain spread to her entire body.

“My granddaughter, what’s happening?!” Song Qi Yuan was shocked, he quickly checked.

At the next moment, Song Qi Yuan found that there were countless ants roaming around in Song Yi Shi’s body, devouring her flesh.

The thing that made him even angrier was that these ants were actually eating away at her dao marks!

“Such evil ants, such vicious methods!” Song Qi Yuan quickly made his move.

A pure white light shrouded over Song Yi Shi, the light split into countless threads that entered her body, killing all of these ants in an instant.

Song Qi Yuan cultivated light path, his attainment level was very high, he used his methods with great proficiency, easily suppressing the situation.

But good times did not last long, soon, new ants grew out and continued to torture Song Yi Shi.

Song Qi Yuan’s brows were tightly locked, he felt heartache at her plight but also deep anger, he soon realized the problem.

It turned out that these new ants were emerging from Song Yi Shi’s immortal aperture!

“My granddaughter, bear with the pain, take a look at your immortal aperture!” Song Qi Yuan tried to speak to her in a gentle tone.

Song Yi Shi took a look at her immortal aperture as her face turned pale with shock, she cried with reddened eyes: “So, so many ants! Grandfather, my immortal aperture is going to be destroyed by these ants!!”

The terrifying ant plagues spread around the many Gu Immortals of the Righteous Qi Alliance.

The grotto-heavens of the two heavens were the main victims, Old Immortal Hua Yu, Granny Skeleton, and Fire Plain grotto-heaven’s owner were the main targets. Other than them, there were the Song clan, the Ruo Lai clan, and the Cai clan. As for the remaining Eastern Sea super forces, even though they faced the ant plague too, it was to a smaller extent, involving their external resource points.

Once the ant plague appeared, it immediately received the attention of the entire Righteous Qi Alliance.

"This ant plague is too strange, it is clearly targeting us!"

"We didn't find anything strange earlier, the variant human alliance is completely intact!!"

"Such powerful ants, even an idiot knows that this is the work of Wu Shuai."

"To think that Wu Shuai is just a mere clone of Fang Yuan, yet he has such a terrifyingly vicious method."

The Righteous Qi Alliance soon found the culprit, they were furious and gathered to discuss it.

Many of the victims displayed the ants in their territories. The aura of these ants varied from weak to strong, from mortal to immortal. They came in all sorts of shapes and sizes, there was no clear pattern.

"These ants are very scary, the most terrifying thing is that they can devour dao marks to refine and raise their rank themselves!"

"They are too hard to eliminate, we could not find any ant eggs."

"And the biggest question now is, when did we get hit by this move?"

The Gu Immortals discussed among themselves while Qi Sea Ancestor sat at the main seat, holding this session for them. He had a worried expression but he secretly admired Wu Shuai internally.

"I've been trying to complete my combat system and create core killer moves. Thus, I asked the main body to get Sheng Tian true inheritance. To think that Wu Shuai has already gone one step further and innovated, creating an even more complex killer move, lingering poisonous ant plague."

Qi Sea Ancestor knew some details.

Even though Fang Yuan's main body and Wu Shuai did not tell him, they were not keeping things a secret either. In their interactions, they exposed some details.

It turned out that after Meng Qiu Zhen became an immortal and obtained multiple dream path Immortal Gu, his efficiency in exploring dream realms rose tremendously.

Fang Yuan’s food path and poison path rose to grandmaster level. Clones shared his attainment levels, Wu Shuai used his quasi-supreme refinement path and enslavement path attainment levels, as well as wood path grandmaster, to create a qualitative change and make a breakthrough.

Originally, Wu Shuai’s ants came from Green Ant Ascetic. Even though this method had great battle strength, a long time had passed since his era.

This time, Wu Shuai referenced the killer move Qing Chou, on the basis of Green Ant Ascetic, he made a breakthrough and allowed his ants to devour dao marks to auto-refine themselves into higher ranks.

But Wu Shuai’s main body could not use the move, only Fang Yuan’s main body could use it.

Lingering poisonous ant plague was in essence a compound killer move comprising poison path, enslavement path, refinement path, wood path, and food path, it even expended unrestrained heavenly marks!

This move had an incredibly powerful concealment effect, it began by using the advantage of poison path, possessing concealment and infectiousness. After the killer move’s dao marks infect the target’s immortal aperture, it would turn into miniature ants that devour the surroundings to grow stronger and increase in numbers. After they reach a certain size, they would turn into the terrifying ant plague.

To completely get rid of the ant plague, one would need to eliminate the respective dao marks.

But currently, the Righteous Qi Alliance had not found out this fact yet.

Even if they knew, they would not have efficient methods to deal with this compound killer move either.

Chapter 2104 - Helpless Immortals

2104 Helpless Immortals

In the hall at the bottom of qi sea.

The representatives of the clans in the Righteous Qi Alliance gathered with many different wills, discussing on how to resolve the lingering poisonous ant plague.

The ant plague had just been discovered, the clans did not have any good ideas.

Thus gradually, their gazes shifted towards Qi Sea Ancestor.

The grotto-heaven owners that resided in the two heavens were already gritting their teeth, they asked Qi Sea Ancestor to stand up for them.

The ant plague harmed almost all the two heavens grotto-heavens' Righteous Qi Alliance members, these people were considered closest to Qi Sea Ancestor, as for Eastern Sea's forces, only Song clan, Ruo Lai clan, and Cai clan were affected.

Thus, Eastern Sea's Gu Immortals deduced: "Did this method originate from the two heavens? Song clan, Ruo Lai clan, and Cai clan got hit by it because they have Ascending Heaven Plain?"

Nobody suspected Qi Sea Ancestor to be the culprit.

Because the ones who suffered the most were Qi Sea Ancestor's closest allies in the Righteous Qi Alliance.

After staying silent for a moment, Qi Sea Ancestor said: "We need to resolve this ant plague. In my opinion, this problem is even greater than the qi harvest fruit from before. As long as the qi harvest fruit does not explode, it would not damage the grotto-heaven. But this ant plague harms Gu Immortals and their foundations at all times."

"Among us here, some have not encountered this problem. But if we do not try to resolve this now, nobody will be spared in the future!"

The immortals in the hall were all very worried.

Gu Immortals were astute people, everyone acknowledged Qi Sea Ancestor's words. If not for this, they would not have gathered to discuss this so quickly.

The ant plague was like a fire, even though it was only burning some people now, if it was not put out in time, everyone would be affected by it eventually.

Qi Sea Ancestor continued: "Resolving this ant plague will not be like the qi harvest fruit problem. During that time, I could still try to solve it, but this ant plague does not concern qi path. Thus, we will have to rely on all of you, we must work together to get through this."

"We need to gather the wisdom path Gu Immortals of the respective clans and make deductions together. During the process, if they need any Immortal Gu, killer move, a particular path's Gu Immortal great expert, or even the help of a true inheritance, you need to provide it without holding back."

Qi Sea Ancestor's expression became increasingly solemn: "Even if we cannot resolve this, we need to be able to suppress and slow down the ant plague for now. If we cannot even suppress it, we will need to wage war on the variant human alliance again!"

Qi Sea Ancestor spoke with a firm tone, his expression was very serious.

The hall fell into silence.

The Gu Immortals stopped talking.

Qi Sea Ancestor's words made good sense.

The terrifying part of the ant plague was that it consumed the foundation of the Gu Immortal.

If it could not be restrained or stopped in time, the ant plague would grow increasingly strong while the Righteous Qi Alliance would became weakened severely.

After a long time, a clear difference in strength would be apparent between the Righteous Qi Alliance and variant human alliance, if they did not attack early and deal with the variant human alliance, eventually, the Righteous Qi Alliance would not have the strength to contest the variant human alliance anymore!

The killer move lingering poisonous ant plague involved many paths and even used up unrestrained heavenly marks. This killer move was at the strategic level, it had terrifying might.

"But waging war on the variant human alliance? Isn't that simply waging war on Gu Yue Fang Yuan and Wu Shuai?"

"How can we be Fang Yuan's match? Even Spectral Soul fell at his hands!"

"But if we do not fight, are we going to wait for death?"

"There is no longer an option for us, this demon Fang Yuan is too overbearing!"

"No, even Heavenly Court could not do anything against Fang Yuan, even though our Righteous Qi Alliance has many members..."

"Isn't Fang Yuan also accumulating strength right now?"

"Maybe we can get help from Heavenly Court?"

"Hmph, Heavenly Court is not worthy of being the leader of the righteous path, our Lord Alliance Leader has already contacted them, wanting to work together to deal with the variant human alliance.

They have been stalling with excuses."

"In my opinion, the best situation is for us to work together and resolve this ant plague!"

"Even though Fang Yuan is behind this, he has not taken action personally, this is his probe towards us. We need to perfectly resolve this ant plague and show him our strength!"

The immortals in the hall discussed, they soon came to a consensus.

They did not want an all-out battle to the death.

Eastern Sea's Gu Immortals did not have the same nature as Northern Plains' Gu Immortals.

Furthermore, all of the clans were busy competing for the newly exposed true inheritances, they were too busy, why shouldn't they strengthen themselves instead of pitting their lives against the enemies?

For normal fights, they would be wins or losses, there was hope, that was why people would want to fight.

But to fight against Fang Yuan to the death?

It would not lead to the enemy's death, they would certainly die themselves!

All the Gu Immortals did not say this but they had the same opinion internally.

Heavenly Court's distressed state, Spectral Soul's loss, all these proved that Fang Yuan had terrifying might and incredible craftiness.

Eastern Sea's Gu Immortals did not know that Spectral Soul's main body was still around. In their eyes, Fang Yuan even managed to kill a former venerable, his strength was simply too much, his demonic might was unparalleled.

Unless they had absolutely no choice, they did not want to provoke such a person!

"In that case, let's try to resolve the ant plague." Qi Sea Ancestor's final sentence ended this meeting.

The Righteous Qi Alliance started to put in effort to research on how to resolve this.

But was the killer move lingering poisonous ant plague so simple?

The more the Gu Immortals from the Righteous Qi Alliance researched, the less confident they got. Facing everyone's expectations, even the wisdom path Gu Immortals doing the deductions felt increasing pressure as time passed.

Days passed, they did not produce any good results.

All the clans were unhappy, Qi Sea Ancestor also personally came to ask about it.

The wisdom path Gu Immortals with Hua An at the lead had to ask: "Don't be anxious, we have a discovery! The ant plague contains wood path profundity, these ants are able to grow while growing is a specialty of wood path. This is likely because Fang Yuan fought against Qing Chou and gained some inspiration from it."

To be honest, these wisdom path Gu Immortals were quite impressive to have realized this.

Thus, Eastern Sea's wood path experts were brought over and participated in the research.

There was no result again.

The wisdom path and wood path Gu Immortals felt increasing pressure, they shouted: "Enslavement path, enslavement path! The ant plague contains enslavement path profundity, these ants are organized in an orderly manner, they work in unison to create a huge plague, this is the power of enslavement path."

Thus, the Righteous Qi Alliance's enslavement path experts also joined in the group and participated in the research.

But the research still made no progress.

The wisdom path, wood path, and enslavement path Gu Immortals could not stand the pressure, they shouted again: "We need poison path experts!"

There were not many poison path experts but they still existed.

Under everyone's expectations, the poison path experts also joined in the research.

"We also need food path experts! These ants have the ability to grow from devouring food." The researching Gu Immortals said in agreement.

However, food path Gu Immortals were just too rare.

After talking among themselves, the immortals had to invite the famous Eastern Sea lone immortal, Zui Xian Weng.

Zui Xian Weng had many acquaintances, he had some sort of connection with most of the righteous path forces, but he was not currently in Eastern Sea.

"We need refinement path as well! We found that the core of the ant plague is refinement path! Undoubtedly, after Fang Yuan obtained Lang Ya Sect, his refinement path attainment is too deep. These ants are able to devour dao marks and refine themselves into Immortal Gu, this is too shocking!"

Eastern Sea's clans quickly put in effort together, they sent most of their clan's refinement path Gu Immortals over.

With everyone's collective effort, progress in the research was showing.

These clans' elites were really talented people.

But they could not find the most important and fundamental result!

Did this single move, lingering poisonous ant plague, overwhelm the entire Eastern Sea righteous path?

That was the fact of the matter.

This was simply unbelievable to the Righteous Qi Alliance's Gu Immortals, but they had no choice but to admit it!

Shen Cong Sheng said some words that showed deep wisdom: "At this point, I've already understood some things. That Fang Yuan has the sovereign immortal body, he cultivates all paths, he is an all-rounded genius. This compound killer move comprises poison path, wood path, refinement path, food path, and enslavement path profundities, he put the specialties of all these paths together in an intrinsic manner."

"As for us? We can only cultivate one path, or two at most. If we cultivate poison path, we cannot understand wood path. if we cultivate wood path, we know nothing about food path. Because of this, even if we work together, we cannot solve this ant plague problem."

Even now, the Righteous Qi Alliance had not discovered that lingering poisonous ant plague killer move also comprised heaven path profundity.

However, nobody in history had ever cultivated heaven path, it was normal that they did not discover this.

"How can a person cultivate every path like this?!"

"Speaking of which, Spectral Soul is too useless. Shadow Sect and Zombie Alliance spent over a hundred thousand years of accumulation to refine a rank nine sovereign immortal fetus Gu, but he actually lost it to Fang Yuan like this!!"

"Creating compound killer moves is simply as easy as breathing for him. After some time passes from now, he is going to have even more new methods."

"This demon only used one move to send us into panic and helplessness."

"Why is it that our Eastern Sea has to be the one suffering from this number one demon's method?!"

The Righteous Qi Alliance could not find a solution, while venting their frustrations out loud, they felt disdain towards Spectral Soul, they felt increasing hatred towards Fang Yuan, along with dense wariness, they also felt helpless and tearful about their own fate.

"In that case, let's fight with them!" Qi Sea Ancestor surged with fighting spirit, he said with a firm tone.

"Lord Alliance Leader, the situation has not reached that stage yet." A Gu Immortal immediately interjected.

Qi Sea Ancestor sighed: "Our Righteous Qi Alliance's losses have been severe these days, carrying on like this is pointless, we will fall into that vicious Fang Yuan's trap. If we wait anymore, we will not have the strength to fight anymore."

These days, the two heaven's Gu Immortals suffered tremendous losses.

Among Eastern Sea's righteous path forces, Song clan, Cai clan, and Ruo Lai clan suffered the most losses. As for the other clans… even though the ant plague also affected them, it had just started for them after all.

Thus, most of the righteous path clans did not want to wage war now.

Of course, this situation was something that Fang Yuan intended for when he took action earlier!

Chapter 2105 - Obtaining True Inheritances

2105 Obtaining True Inheritances

"We still have hope!"

"We are not in a truly desperate situation yet."

"That's right, even though we gathered most of the elite Gu Immortals of our clans, we have not taken out our true inheritances for them to use as reference."

"With these true inheritance contents, if we can come up with ideas together, there is a high chance of resolving the ant plague crisis!"

Qi Sea Ancestor was silent for a while before nodding slowly: "The situation is very severe, I believe all of you know that even without me saying it. Thus, everyone needs to contribute their true inheritances, please show us your utmost sincerity! If anyone dares to hide their inheritance or conceal it, don't blame me for taking matters into my own hands."

"As long as we can get rid of the ant plague, the entire Righteous Qi Alliance will benefit. Everyone's efforts will be rewarded and compensated, I believe that our contribution board would be the best answer to you!"

To resolve the ant plague, all the clans started to make contributions.

Hua clan took out their snake poison qi thread true inheritance, Nan Gong clan took out great profound true inheritance, Xie clan took out remnant leaves true inheritance, Su clan took out big belly true inheritance…

Originally, even though Righteous Qi Alliance had a contribution board, there were few names on it.

Before this, Qi Sea Ancestor also asked the clans to exchange inheritances and killer moves mutually, but these were all superficial exchanges. After all, if there was no need to, who would take out their unique inheritance to trade to others?

But now, the situation was different.

Not only did the contribution board's length get longer, the intensity of the competition over rankings also rose, the names on the list moved up and down constantly.

Different inheritance details had varying value, some were more precious than others, while some were hard to assess.

But Qi Sea Ancestor was Fang Yuan's clone, they shared attainment level, he had deep knowledge about this and gave all the clans' inheritances an appropriate assessment of value.

Even if the contributor was not happy with it, Qi Sea Ancestor would gather the immortals and discuss together, each time, his arguments would convince all the Gu Immortals and leave them unable to rebuke him.

As this happened with increasing frequency, Qi Sea Ancestor's prestige also rose as well.

The Righteous Qi Alliance's members were all in awe towards Qi Sea Ancestor's wealth of knowledge.

"First supreme elder, are we really handing over Tian Nan's true inheritance?"

"This is Tian Nan's true inheritance after all!"

"Back then, in order to get Ascending Heaven Plain and obtain this true inheritance, we spent so much effort and suffered immense hardship!"

Song clan's Gu Immortals went to find Song Qi Yuan, they were very unwilling.

Song Qi Yuan sighed deeply as he said helplessly: "Can't you see the current situation? It has gone out of our control. Everyone knows that we possess Tian Nan's true inheritance, they have already been asking us to contribute it time and time again, even dragging it until now is our limit. Xia clan gave their molten casting true inheritance while Tang clan contributed their myriad fusion true inheritance, if we do not give them Tian Nan's true inheritance, we will not be able to explain for ourselves. Everyone is looking at us now, who would let us off?"

Song clan's Gu Immortals turned silent.

The situation had unknowingly gone out of their control.

Initially, all the clans had good intentions, in order to avoid war and to resolve the ant plague, they contributed some true inheritances.

Even though these true inheritances were of wood path, food path, and other relevant paths, they were not too important or valuable.

But even if the value was not high, they were still ranked accordingly.

Some people became higher ranked, some were lower ranked.

If the difference was not obvious, so be it.

But this contribution board indicated everyone's contribution very clearly!

The clans at the top would feel unhappy when they looked at it: "Why did we contribute so much while others make barely any contribution? Let alone the rest, doesn't that clan have that true inheritance we need? Why are they still keeping silent? Look at us, we even gave up our important true inheritance!"

With such pressure, those at the lower end of the list had to choose some inheritances to contribute.

This way, the people at the bottom would go to the top, they would feel unhappy again. If they still ranked below the rest, they would be mocked at by the top contributors, they might even face humiliating criticism: "Is this all that your clan has? You can't even give us anything good, you dare to call yourselves a super clan?"

Gu Immortals were astute people, when they took out their inheritances, they would think of offering those with similar value, to make sure everyone had around the same ranking.

But how could that happen?

There were too many names on the contribution board, who could be certain that their inheritance was 'just about right'?

And even if some Gu Immortals felt that it was about right, others would think differently.

Even if everyone was happy about it, hehe, don't forget who the person evaluating these inheritances was!

Qi Sea Ancestor pretended to be regulating this exchange but he was creating problems for them secretly!

Thus, all the different clans competed and mocked each other, the competition became intense. The clans started taking out more and more valuable inheritances, this led to the pain of loss, which turned into anger and unhappiness when they saw those people who contributed less than them.

Thus, the situation got out of their control.

All the clans had to take out their top tier true inheritances, Song clan was not the first one. And Tian Nan's true inheritance was already an eyesore to some people, they wanted it to be contributed.

"I've already given up this true inheritance, why is your Song clan keeping Tian Nan's true inheritance, do you think this is the right thing to do?"

"Hmph, my clan's sacrifice is so big, I need to make sure Song clan suffers as well."

"Song clan's Tian Nan's true inheritance definitely has huge value. Using this chance, we can obtain it easily while having a good reason for it, this is great!"

All the clans had many Gu Immortals, these were all elites.

The contribution of true inheritances became a competition, it turned into a political conflict between the clans, the Righteous Qi Alliance's members were tearing at each other, while the biggest beneficiary was the high and mighty Qi Sea Ancestor who watched this spectacle from his main seat.

Fang Yuan not only obtained Tian Nan's true inheritance, he also got several other refinement path true inheritances.

There were also some food path inheritances that he was interested in.

Undoubtedly, Eastern Sea was very rich, these super forces had very deep foundations.

They definitely had even better things, but it was not wise to ask them for more. If the pressure intensified, it might backfire instead.

What made the Righteous Qi Alliance slightly happier was that after the immense contributions, they finally saw some results.

Even though they could not get rid of the lingering poisonous ant plague, there were methods that could restrict its growth now.

Brainstorming was still an effective strategy.

Even though Fang Yuan's killer move was unique, with the hard work of the entire Eastern Sea righteous path, it was only a matter of time until they resolved it.

Using one killer move to decimate the entire region's righteous path was impossible to begin with.

Killer moves were fixed, they had flaws, that was why Gu Immortals could improve upon them.

Fang Yuan did not think this would work, his true motive was to get refinement path inheritances, everything else was an added bonus.

He wanted to become venerable through refinement path!

He had to become venerable to reach a qualitative change, that would give him the strength to resist Star Constellation, Giant Sun, and Spectral Soul.

Of course, it was not that Fang Yuan could not snatch these inheritances using force.

His current battle strength had surpassed the entire Eastern Sea righteous path.

But the efficiency was just too low, how could it compare to the speed of their willing contribution? Also, true inheritances could be destroyed, it was a risky thing to do. And finally, it would waste Fang Yuan's time and energy, his growth would become slower, Fang Yuan would also waste his luck.

All these super forces had immense foundation and huge luck, fighting against them would expend his own luck.

When he went to Crazed Demon Cave, Fang Yuan would need to face venerable opponents, it was better to conserve his strength instead of wasting it.

This was also why Fang Yuan made transactions with Southern Border's Wu clan and Western Desert's Fang clan.

Fang Yuan's main body soon got hold of the contents of Tian Nan's true inheritance and the others.

Among all the inheritances that the Righteous Qi Alliance took out, Tian Nan's true inheritance had the highest value. Right now, on the contribution board, Song clan was placed at the top spot.

Old Eccentric Tian Nan described his grand and maniacal ambitions in this true inheritance.

He wanted to refine the immemorial two heavens and even the five regions, to turn them into his own external immortal aperture!

There was no doubt about it, he failed.

Even a venerable could only refine the dao marks of their own path in the outside world. Yet, Old Eccentric Tian Nan wanted to refine all the dao marks of the world.

In Fang Yuan's case, this was completely possible in theory. When Gu cultivators refine Gu, weren't they just refining the relevant dao marks or dao fragments of the Gu?

The biggest obstacle to Old Eccentric Tian Nan was none other than heaven path.

He found that no matter what idea he came up with, he could not refine heaven path dao marks.

Eventually, he found an extremely risky method but ended up failing. In historical records, Old Eccentric Tian Nan had an eccentric nature, he tried to refine the heavens and ended up dying as a result.

It was said that being half a step ahead of the era was genius, while being one step ahead of the era was insanity.

Old Eccentric Tian Nan was such a lunatic.

Two million years passed and the eras progressed, one person who managed to resolve Old Eccentric Tian Nan's biggest problem finally appeared.

Limitless Demon Venerable!

He succeeded in his heaven path refinement.

Over a million years passed again, Paradise Earth Immortal Venerable entered Crazed Demon Cave in his exploration, he obtained Limitless Demon Venerable's method that could do this.

Indeed, it was unrestrained heavenly mark.

The unrestrained heavenly mark killer move that Lu Wei Yin gave to Fang Yuan had a long history, it was not created by Paradise Earth Immortal Venerable, Paradise Earth merely modified it, the source was Limitless.

And what surprised Fang Yuan was that in this Tian Nan's true inheritance, there were Reckless Savage Demon Venerable's notes.

It turned out that Reckless Savage Demon Venerable had also obtained Tian Nan's true inheritance in Ascending Heaven Plain.

Even though he learned the true inheritance's details, he did not destroy it, he even made it more sturdy to pass on to the future generations.

In his later years, Reckless Savage Demon Venerable returned here and added his own refinement path experience in Tian Nan's true inheritance.

"This old man Tian Nan is really daring, speaking of which, if I can refine the entire Heavenly Dao, that would be so cool!"

"It is a pity that refinement path does not suit me, I still prefer close combat using my body."

"But… I can make use of those remaining beastmen. Didn't they want to use food path to claim victory? Hehehe, wishful thinking!"

"They think I have not discovered that gluttonous demon frog."

Using the notes, Fang Yuan saw that the mystery of the past history was unveiled to an extent.

In historical records, Reckless Savage Demon Venerable used the lingering beastmen in his old age to create Reckless Savage grotto-heaven, he left behind his true inheritance inside it.

It turned out that Reckless Savage Demon Venerable was using Tian Nan's true inheritance to scheme against and make use of those beastmen's methods instead.

Chapter 2106 - Forcing A Rank Eight To Death

Chapter 2106 Forcing A Rank Eight To Death

The night wind howled in his ears.Fire Plain Grotto Lord flew in immemorial white heaven.

He concealed his traces as he moved, if others looked, they would only see a vague figure moving rapidly. The only thing was that the trail he moved on had high temperature, but wind soon blew the anomaly away.

Fire Plain Grotto Lord had rank eight cultivation level, but in an environment like immemorial white heaven, he still had to be very careful.

If he acted more brazenly, he would cause immemorial desolate beasts to attack him.

Especially those fire path immemorial desolate beasts, they had a huge interest in Fire Plain Grotto Lord.

Fire Plain Grotto Lord was not weak of course, but he was not in the frame of mind to bother with such problems. If he wanted to hunt immemorial desolate beasts in immemorial white heaven, he would need to plan and make preparations beforehand.

Fire Plain Grotto Lord rushed back to his grotto-heaven as he assessed his own body.

The ant plague in his body had already been suppressed.

Fire Plain grotto-heaven was affected long ago, the Gu Immortals in the grotto-heaven had also been hit by this vicious method.

Poison path excelled in traits like concealment and infectiousness, the Righteous Qi Alliance was right to ask poison path experts to participate in the research.

“The situation is stabilized at least, but Fire Plain grotto-heaven is still in deep trouble, we need a lot of contribution points to salvage it.” Fire Plain Grotto Lord was very worried.

Fire Plain grotto-heaven’s losses were severe this time.

Inside the grotto-heaven, the largest fire beard grassland had perished, turning into ruins. The fire beard grass that had great vitality was gone without a trace, not even the roots were left.

The vermilion flame wolves and red grass horses were also nearly extinct. The ant plague spared nothing, these wolves and horses were all eaten with no bones left behind.

“Our losses are too severe, but we still need to spend a huge sum to salvage this disaster!” Fire Plain Grotto Lord frowned tightly.

The Righteous Qi Alliance members paid such a huge price to research and gain some results that could suppress the lingering poisonous ant plague killer move.

Even brothers became sensitive when it came to money, not to mention this Righteous Qi Alliance that had barely any cohesiveness.

For the groups to survive and resist the powerful Fang Yuan, Wu Shuai, and the variant human alliance, they created the Righteous Qi Alliance.

Eastern Sea’s righteous path paid a huge price for this, they would not allow the rest to use these gains without paying a cost.

According to the rules set by Righteous Qi Alliance, Fire Plain Grotto Lord had to pay a huge amount of resources or use high quality true inheritances in exchange for contribution points, which could be used to save Fire Plain grotto-heaven.

But what else could he do except that?

Fire Plain Grotto Lord sighed deeply in his heart.

He was filled with worries towards the present and the future.

“This is only the first move by that demon Fang Yuan! This is likely just a test, but our clan has already suffered greatly. He will definitely make a second or third attack.”

“Fang Yuan possesses the sovereign immortal aperture, he can annex rank eight grotto-heavens. Those grotto-heavens of the variant human alliance are dwindling, he has already annexed many of them. My clan’s Fire Plain grotto-heaven is definitely on his hunting list!”

“Or more accurately speaking, all the grotto-heavens in the two heavens are now his prey.”

Ever since Fang Yuan annexed Grand Swine grotto-heaven and Time Difference grotto-heaven, he had not stopped annexing others.

The variant human alliance had been subdued by him long ago, they could only watch as he annexed their grotto-heavens, helpless against Fang Yuan.

Many were definitely furious that their homelands were annexed by Fang Yuan, but they did not dare to say anything in spite of their rage.

The commotion from the annexing of the apertures was too great, it was impossible to hide.

Therefore, Fire Plain Grotto Lord and others clearly were aware of this information.

“The enemy is too powerful, our Righteous Qi Alliance is clearly at a disadvantage. If we cannot match them in combat, we can only place our advantage in development.” Fire Plain Grotto Lord analyzed inwardly.

The grotto-heavens of the two heavens had limited space, after countless years of development and accumulation, they had long since reached the point where they had no more development potential.

However, Eastern Sea was vast and rich, even if all these grotto-heavens were added together, they could not compare to the size and wealth of Eastern Sea.

This advantage was also the source of Righteous Qi Alliance's confidence against the variant human alliance. Even though the latter occupied Xia clan's territory, they only had a tiny area of Eastern Sea.

In this aspect, the Righteous Qi Alliance had a clear advantage.

"Fang Yuan can also tell that we have this advantage, thus he used the compound killer move to weaken us."

"He is definitely not going to stop here, by then, us Gu Immortals of the two heavens will become his main targets."

"Sigh! When will we finally be able to… hmm?!"

Suddenly, the scene before Fire Plain Grotto Lord changed abruptly.

The surroundings were covered in blue fog that trapped him in many layers.

Fire Plain Grotto Lord quickly stopped moving, he activated his defensive and investigative methods.

At the next moment, his expression changed.

"Battlefield killer move! Who are you, how dare you attack a member of the Righteous Qi Alliance! Come out, don't try to act mysterious!" Fire Plain Grotto Lord shouted.

But he only heard a wave of chuckling noises that resembled a child's voice.

The laughter spread around Fire Plain Grotto Lord, causing this rank eight Gu Immortal to be unable to discern where the voice was coming from.

Suddenly!

A child attacked him from the huge blue fog without any notice.

He stretched out his chubby little arm and quickly grabbed at Fire Plain Grotto Lord's back.

Fire Plain Grotto Lord had already used an investigative killer move, even though its range was restricted to less than half of the usual because of this battlefield killer move.

But it was enough for Fire Plain Grotto Lord to detect this child's action.

However, Fire Plain Grotto Lord was still too slow, the mysterious child succeeded.

Fire Plain Grotto Lord grunted as he was hit by the move.

Bam.

At the next moment, Fire Plain Grotto Lord unleashed a fierce attack and sparks of flames burst out and slaughtered the mysterious child on the spot.

The child died but there was no blood or flesh, he turned into a lump of blue fog.

"This mysterious child is made from the battlefield, but thankfully, the attack is not strong. Still, my defensive killer move was weakened by this, it has half of its strength left!"

Fire Plain Grotto Lord started to feel uneasy and anxious.

He needed to break this battlefield killer move quickly, even if he could not, he had to create a hole and communicate with the outside world to seek help.

Fire Plain Grotto Lord started to use his methods, he attacked the surroundings and tried to break the battlefield.

But it was useless, his methods were like harmless wind, the surrounding blue fog was endless and limitless.

From time to time, mysterious children would appear from the blue fog, they were either male or female, having blue eyes. They surrounded Fire Plain Grotto Lord as they attacked continuously.

Fire Plain Grotto Lord was clearly able to detect their appearance but he could not stop them from attacking, each time, he got hit by them.

“This seems to be a wisdom path battlefield! It is influencing my thoughts, causing me to act slower and slower, I cannot attack in advance to stop the children.”

While Fire Plain Grotto Lord was thinking, his expression suddenly changed.

He felt that a fire path Immortal Gu was stolen by the children from his immortal aperture.

Fire Plain Grotto Lord quickly destroyed the child but the surrounding blue fog surged towards him, sweeping the exposed fire path Immortal Gu away.

Fire Plain Grotto Lord chased after it for a while but could not find anything.

“Oh no! This is a theft path battlefield, these mysterious children can steal my immortal aperture’s Immortal Gu when they attack!!”

“I cannot stay here anymore, it is too dangerous!”

Originally, Fire Plain Grotto Lord felt that even though these mysterious children could not be guarded against, they were not strong, he could last a long time.

But now, Fire Plain Grotto Lord became deeply shocked, his hair was standing on end, his expression turned very ugly.

There was a pessimistic guess in his heart.

“This is a compound battlefield of theft path and wisdom path, or at least, it definitely contains these two paths!"

"I've never heard of such a compound killer move before."

"If this is a new killer move, then the user is most likely…"

Fire Plain Grotto Lord thought of a name.

He could not help but shudder.

Just this name alone made him break out in cold sweat.

He wanted this guess to be wrong, but at the next moment, Fang Yuan's figure slowly emerged.

Life was this cruel after all.

"Gu Yue Fang Yuan…" Fire Plain Grotto Lord took in a sharp breath, his eyes were staring wide as he looked at Fang Yuan in a daze.

This was the number one demon in the world, he was smiling and appearing in front of him.

"This is my new killer move, what do you think about it? Fire Plain Grotto Lord, obediently hand over your Immortal Gu and Fire Plain grotto-heaven, I might allow you to surrender." Fang Yuan said calmly, the surrounding blue fog concealed his body, making his smile even more peculiar and sinister.

This battlefield killer move was Fang Yuan's newest creation.

Fang Yuan ventured into the territory of battlefield killer moves, the results were quite promising.

This killer move used sneak attack Immortal Gu as the core, it was a compound battlefield killer move that contained wisdom path, theft path, refinement path, time path, and others.

After getting the information of Fire Plain Grotto Lord's route from Qi Sea Ancestor, Fang Yuan arranged an ambush here and used this method to test out the effect of his new killer move.

“Gu Yue Fang Yuan, I am not your match. Let me… let me consider your request.” Fire Plain Grotto Lord had a hoarse voice as he lowered his head.

At the next moment, blazing flames started to burn around Fire Plain Grotto Lord’s body with a loud sound.

Immortal killer move — Furious Red Heart Flames!

“Fang Yuan!” Within the fire, Fire Plain Grotto Lord shouted: “Don’t force me! With just one thought, I can burn all of the Gu worms and resources in my immortal aperture.”

“Let me off! Give me a way out, let me leave the battlefield, I will hand my Gu worms to you.” Fire Plain Grotto Lord said with a distorted expression.

He knew that Fang Yuan was vicious and heartless, he tried to use this threat to survive.

But Fang Yuan snorted coldly: “Do you think I care about those few Immortal Gu? Or even the resources in your immortal aperture? Hehe, go ahead and burn. Incinerate your entire immortal aperture if you can, that will be a show!”

Fang Yuan did not take action personally, he vanished into the blue fog behind him.

Next, a large number of blue eyed children jumped out and attacked Fire Plain Grotto Lord continuously.

Fire Plain Grotto Lord was extremely furious and sad as the children attacked him. After enduring for a few breaths of time, he growled in anger as the flames exploded around him, he had actually burned himself to a crisp!

Chapter 2107 - Invading Fire Plain Grotto-Heaven

2107 Invading Fire Plain Grotto-Heaven

An exposed immortal aperture floated in the air, its entrance was not open but it absorbed the surrounding heaven and earth qi, Fang Yuan easily grabbed onto it.His immortal killer move could capture and relocate immortal apertures, it had originated from Blazing Heaven Demoness' fire hand killer move.

Now, this method had been modified by Fang Yuan into a compound killer move, its power rose greatly, the effects were shocking.

Next, Fang Yuan deactivated the compound battlefield killer move and used heaven and earth travel to leave the place.

Soon, the immortal aura leaked and the surrounding ancient desolate beasts and immemorial desolate beasts were attracted.

Fang Yuan could not conceal his aura yet.

It was not his expertise.

After arriving at a safe location, Fang Yuan tossed Fire Plain Grotto Lord's immortal aperture into the sky.

This was a rank eight grotto-heaven, it could only be attached to the two heavens, it would not land in the five regions.

After the grotto-heaven door opened, it took in heaven and earth qi and quickly settled into this location.

But Fang Yuan did not move in, he only sent his immortal aperture's Gu Immortals to scavenge the grotto-heaven.

During this time, Fang Yuan annexed more grotto-heavens, his dao marks increased in numbers again, the amount was so much that if he entered this unstable grotto-heaven, he might cause it to burst.

Soon, his Gu Immortals returned, there were no Immortal Gu and they only brought very few immortal materials.

“Everywhere is burning, everything went up in flames.”

“These are the only resources left, lord, please forgive us!”

“The newly born heavenly spirit is also trying to destroy everything in the grotto-heaven, this seems to be the obsession left by that rank eight Gu Immortal.”

His Gu Immortal subordinates reported.

Fang Yuan did not mind this, he let them back into the sovereign immortal aperture.

After the grotto-heaven stabilized, Fang Yuan would forcefully annex this grotto-heaven.

Even if the heavenly spirit was unwilling to, Fang Yuan had a method to suppress the heavenly spirit, he had already modified it into a compound killer move.

Fang Yuan's ability at modifying compound killer moves was limited to only usual killer moves and battlefield killer moves.

When using his usual killer moves and battlefield killer moves, all the Gu worms were inside Fang Yuan's sovereign immortal aperture, with the amplification of the unrestrained heavenly marks, he could unleash the might of a compound killer move.

As for ancient battle formations, Gu formations, and Immortal Gu Houses, their Gu worms were all in the outside world, without an environment of unrestrained heavenly marks, even if these methods were turned into compound killer moves, there would be no effect.

As Fang Yuan annexed grotto-heavens, he thought about the battlefield killer move he used earlier.

This killer move was not strong enough offensively, it was focused on combining theft path and wisdom path. But in actual combat, this battlefield killer move's effect was not good.

Fire Plain Grotto Lord was just an ordinary rank eight Gu Immortal, but Fang Yuan only managed to steal one rank eight Immortal Gu from him.

Immortal Gu were too easy to destroy, the Gu Immortal could destroy them with a single thought.

Even if Fang Yuan exerted his wisdom path methods to the limit, he could only affect the thinking speed of rank eights, he could not stop all their thoughts.

It was extremely difficult to reach that step.

Unless there was a huge difference in actual strength.

Fire Plain Grotto Lord was a rank eight Gu Immortal after all, he had many dao marks that naturally protected him. Furthermore, he also had decent defensive killer moves.

In history, almost no wisdom path Gu Immortals could reach this step against other similarly ranked immortals.

Looking at it carefully, certain people like Peeping Gentleman, Sect Leader Mei, Finger Deducing Steward and others had such achievements (many situations were unique and could not be replicated), but the total number was still less than five.

Even Star Constellation Immortal Venerable was not in this list.

Of course, nobody knew if she could reach this step, there were no clear records in history.

This showed that it was extremely difficult to suppress all the thoughts of a similarly ranked expert and make them unable to resist at all, even if it was only for a short period.

The strongest methods of wisdom path Gu Immortals against their enemies were still emotion based.

Thought, will, emotion; these were the three main wisdom path cultivation aspects.

In this case, Fang Yuan's compound battlefield killer move did not have much value in actual use, it needed to be modified further.

Even the best theories had to be tested in practice.

Like a combat system.

Creating a combat system out of nothing by simply staying in isolation was very difficult. There was a need for a powerful opponent or intense battle of life and death to test if a combat system was really superb or not.

Thus, as Fang Yuan considered his own combat system these last days, he felt some gratitude towards people like Duke Long or Spectral Soul.

Precisely because of them as reference, Fang Yuan had the qualifications to create his own combat system.

After annexing this rank eight grotto-heaven, Fang Yuan's fire path dao marks rose in numbers again.

But Fang Yuan was not satisfied, he continued to move.

This time, he placed his sights on Fire Plain grotto-heaven.

Immortal killer move — Heaven Form!

Fang Yuan created a huge entrance into Fire Plain grotto-heaven through brute force.

The heavenly spirit of Fire Plain grotto-heaven was a rabbit.

Because it had devoured a nine heavens fragment before, the rabbit was dazed and slow. But now, it was jumping around, screeching in fear and panic.

The Gu Immortals of Fire Plain grotto-heaven noticed this and became very uncertain and shocked.

“The heavenly spirit is muddled but the past Grotto Lords have used the killer move humanly flame smoke to help it gain a bit of clarity compared to heavenly spirits of other grotto-heavens!”

“As long as the grotto-heaven faces danger, the heavenly spirit will be uneasy, this is a warning for us.”

“When the ant plague occurred, the heavenly spirit became anxious already. In the grotto-heaven’s history, there were several disasters too, for example, when immemorial desolate beasts attacked or when enormous fires burned, the heavenly spirit became uneasy.”

“But we have never seen the heavenly spirit in such a wild mood, its voice even went hoarse from growling!”

The immortals in Fire Plain grotto-heaven looked at the heavenly spirit with increasingly uneasiness as well.

The heavenly spirit was becoming increasingly frenzied, its expression was fearful and it even slammed its head at the surrounding pillars.

Unfortunately, the heavenly spirit was not a real rabbit, it would not faint from this no matter how hard it hit the pillar.

“Go investigate! We need to get a result, we need to know what the danger is!”

“This danger is very severe, it might lead our Fire Plain grotto-heaven into the brink of destruction!”

“Quickly contact the Grotto Lord, only he can make the decisions in such a serious matter.”

“Is the ant plague going to continue intensifying?”

Fire Plain grotto-heaven's Gu Immortals were very anxious, they quickly got to action.

"Oh, oh no! Grotto lord's life tablet Gu and soul lantern Gu have been destroyed!"

"What?"

"How is this possible?!"

The immortals of Fire Plain grotto-heaven became dazed.

Next, they found a huge hole in the sky.

Fang Yuan used heaven form killer move without concealing himself, he came openly and grandly.

If Fire Plain Grotto Lord was still alive, he might be able to use the entire grotto-heaven to resist Fang Yuan for some time while waiting for reinforcements.

But now, he was already dead.

"Fang Yuan, it's Fang Yuan…" Seeing the person beyond the hole, many of Fire Plain grotto-heaven's Gu Immortals became anguished.

"Why did this demon come for us?" Even more Gu Immortals turned pale as they shuddered with fright.

"Grotto lord is dead, this demon Fang Yuan might likely be the culprit. What are we going to do?"

"Everyone, we've already requested for help from Righteous Qi Alliance, now is the time we stake our lives and fight for survival!"

"This is our home, the place where we were born and grew up in, our friends and family all live here. We cannot run! We cannot let that demon devour our homeland like this!!"

After their initial panic, the immortals gathered their spirits and united to resist Fang Yuan.

“It is a pity I cannot go inside now.” Fang Yuan rubbed his chin as he thought, looking at the huge hole formed by heaven form, he could only stand outside.

He had too many dao marks, according to his calculations, this Fire Plain grotto-heaven could not hold him either.

As long as Fang Yuan went in, with the conflict of dao marks, countless cracks would spread from this hole, the fire path dao marks inside would be forced to squeeze to the surroundings.

Seeing that the Gu Immortals were resolved to fight, Fang Yuan smiled coldly as they flew into the sky and attacked heaven form, he opened his immortal aperture.

At almost the next moment, a group of Gu Immortals led by Fairy Miao Yin and Lady White Rabbit flew out of the sovereign immortal aperture, charging into Fire Plain grotto-heaven.

Gu Immortals of both sides engaged in intense combat.

At once, flames danged as lightning flashed. Figures flew around in the sky, clashing and parting, shock waves could be felt at intervals, killer moves were unleashed like fireworks, many Gu Immortals lost their lives amidst this beautiful show.

Immortal killer move — Wondrous Hand Profound Sound!

Fairy Miao Yin wore a pink dress, her two original arms were white like snow, the remaining six were translucent and pink, formed from her killer move.

Profound sounds spread out, attacking her surroundings in all directions.

Once Fairy Miao Yin appeared, she created a huge battlefield that enveloped three rank seven experts of Fire Plain grotto-heaven.

After several rounds, the three rank seven Gu Immortals got suppressed and fell into a disadvantage.

Fairy Miao Yin disregarded immortal essence expenditure, there was a reason for her current desperate attitude. She was once captured by Shadow Sect, she had to work with them and provide clues about Fang Yuan for Fairy Zi Wei.

There was a clear contrast between her and Lady White Rabbit, after returning to Fang Yuan, she knew she had to perform well to make up for her past mistakes.

Fairy Miao Yin wanted to perform well, the other Gu Immortals had similar thoughts.

Bing Yuan led the snowman Gu Immortals, she sent a wave of frost energy that froze the enemies. Shi Zong directed the rockman Gu Immortals as they unleashed a large number of falling meteors together, causing huge losses to the enemies. Inkman Gu Immortal Mo Tan Sang was a qi path cultivator, he waved his hands as a large number of qi gathered and moved, he attacked and caused a huge commotion, causing the enemy Gu Immortals to fall out of formation.

Comparatively, the hairy man Gu Immortals were slightly weaker.

After all, the hairy man Gu Immortals mostly cultivated refinement path.

But there were exceptions to this.

Golden Fur Immortal Monarch was covered in golden thread-like fur as he held a hammer and charged forward, he had ferocious might, raising the morale of others as well.

Strange Hair Grotto Lord was covered in black hair, he activated the incomplete Immortal Gu House Black Emperor Building and rampaged all over the place, having already killed one Gu Immortal from Fire Plain grotto-heaven.

Their Golden Hair grotto-heaven and Strange Hair grotto-heaven had been annexed by Fang Yuan, becoming a part of the sovereign immortal aperture.

As for Lang Ya Sect's hairy man Gu Immortals, the best performance was from rank six Gu Immortal Twelfth Hair, he cultivated enslavement path secondarily and controlled multiple desolate beasts, creating quite a commotion.

Chapter 2108 - Slaughtering A Hundred Million People

2108 Slaughtering A Hundred Million People

There were mushroomman Gu Immortals as well.

Even though the mushroomman blessed land had not been annexed by Fang Yuan, most of these mushroommen had already relocated into his sovereign immortal aperture. Ke Xin Hong was the strongest Gu Immortal among them, his poison path methods were extraordinary.

It was not long before Fire Plain grotto-heaven started to lose on all ends.

Not only did they have fewer numbers compared to Fang Yuan's subordinates, even when rank sevens fought against each other, Fang Yuan's subordinates were still stronger.

As Fang Yuan's subordinates attacked, they killed several more Gu Immortals of Fire Plain grotto-heaven.

In the end, the remaining Gu Immortals lost their morale, they wanted to surrender but Fang Yuan ordered for them to be killed regardless.

Next, they cleaned up the battlefield.

Fire Plain grotto-heaven cultivated fire path primarily, most of the immortal materials were also fire path.

Even though some were lost due to the ant plague, because the grotto-heaven's Gu Immortals did their best to preserve the materials, there was still a large quantity of valuable resources.

For example, there were twenty-eight charcoal lakes, distributed all over Fire Plain grotto-heaven.

Every charcoal lake's location was meticulously calculated, there were huge advantages in placing them there.

Fang Yuan had once constructed his own charcoal lake, but it was inferior to any single charcoal lake of Fire Plain grotto-heaven.

These charcoal lakes were self-producing, especially at the depths of the lakes, a large amount of immortal material fire charcoal was produced.

Other than charcoal lakes, Fire Plain grotto-heaven also had a huge forest.

Fire date forest!

Fang Yuan even found several ancient desolate plant giant disaster blazing trees.

This type of tree was covered in raging flames, nothing could get close to it. More impressively, this giant disaster blazing tree would cause bad luck to whatever life forms got close to it.

This was an immortal material that contained fire path and luck path.

The two heavens' grotto-heavens of Fang Yuan's subordinates contained a certain quantity of luck path immortal materials at minimum, Fire Plain grotto-heaven was no exception, it had luck path materials too.

Other than these, Fang Yuan also gained a large amount of flames.

The largest quantity was date flame.

This flame was vermilion red in color, it was condensed into a lump and the fire was very well hidden within. Even though it was an immortal material, even a mortal could hold it with their hands without getting burned to ashes.

Other than date flame, there was also phoenix song flame, black lantern blind fire, elephant tusk flame, firefly flame, flying flame, dragon snake dancing flame, and others.

What disappointed Fang Yuan slightly was that even though there were many types of flames, there were none of the rank nine unique flames of heaven, earth, and human.

The so-called three flames of heaven, earth, and human were the heaven flame bright light glorious ring fire, earth flame azure divine stone furnace fire, and human flame raging wave rising dragon fire.

After collating the immortal materials, he looked at the Immortal Gu.

There were very few Immortal Gu gained, he only obtained three.

One was a fire path Immortal Gu that was heavily injured, it was a Gu worm that was let out, Bing Yuan was very fortunate to have obtained it.

The other two were ant Immortal Gu, one was golden in color and large like a mountain, it resembled red copper. The other was small as a thumb, its body was extremely long, like a soft white noodle.

The red copper immortal ant could spit out fireballs while the white noodle immortal ant could produce large numbers of ants.

These were all the products of the lingering poisonous ant plague killer move.

When ants devoured the Gu materials within Fire Plain grotto-heaven, they would continue to refine themselves. Those that were mortal Gu could be elevated into Immortal Gu.

But Fang Yuan could not guess or estimate what Immortal Gu would be produced.

From these two ants, he could still barely see their origin.

The red copper fire ant should have been an arrow ant, its mouth could shoot out sharp spikes. After shooting three spikes, it would be weak, it would not be able to fight even a worker ant.

The white noodle immortal ant should be a queen ant. It was huge and had no offensive or offensive methods, but it could rapidly produce worker ants, soldier ants, armor ants, arrow ants, and others.

Army ants were just vicious insects in essence, but they could raise their strength, from being an ordinary beast, to beast king, to desolate beast, to ancient desolate beast and finally, to immemorial desolate beast level.

This just was like the dark web spider in the River of Time which was an immemorial desolate beast, or the tiger-striped honey bee in u003cu003cThe Legends of Ren Zuu003eu003e that was also an immemorial desolate beast.

But after Wu Shuai's modifications, these ants that the lingering poisonous ant plague produced had undergone a qualitative change, they all became Gu worms!

Even though Gu worms also ate food, they were the hosts of dao mark fragments.

The value of a mortal ant Gu far exceeded an ordinary ant or insect.

These ant Gu were all tough and strong, they had intense vitality and fighting spirit. A hundred ant Gu could easily slaughter a hundred ants of the same rank.

Most Gu worms had fragile bodies that could be easily crushed, but some also had tough exoskeletons and strong vitality.

For example, the chainsaw golden centipede that Fang Yuan used in the past.

The chainsaw golden centipede had two main advancement routes.

One was the rank four chainsaw killer centipede, the other was the flying vajra centipede, having rank three, four, and five versions.

When Gu Masters used these two Gu worms, the former could slaughter strong enemies while the latter could pierce bones and flesh, drilling into the enemies' body.

Even at Immortal Gu level, such Gu worms existed.

Like the sword legged dragon centipede Gu.

Rank seven sword legged dragon centipede Gu was seven li long, it had a centipede body and dragon head. Its countless limbs contained sword path dao marks, allowing it to carry tens of thousands of swords with it. Once it coiled around its prey, these sharp swords would attack from all directions, creating bloody holes in the ancient desolate beast, it was very fierce.

Wu Shuai elevated the essence of his army ants from insect to Gu, they gained a huge amount of potential for growth.

But this method had huge flaws.

The first flaw was the immense expenditure. Originally, ants could breed themselves with just some resources expended. But to create ant Gu, Gu materials would be expended for the refinement. Other than that, ant Gu also needed to be fed. The price of feeding ant Gu was many times higher than raising normal ants!

The second flaw was regarding the level of rank six and above.

Because Immortal Gu were unique, even though there could be countless desolate level ants of the same variety, there could only be one Immortal Gu of each breed.

If there were just a few ant Immortal Gu, then overall, the earlier army ants with desolate beasts would be easier to form and have greater overall strength as well.

"However, if I use this method to cultivate them, the new army ants will also be able to expand greatly in numbers." Fang Yuan observed the red copper fire ant and white noodle queen ant as he thought.

These two ants were Immortal Gu but Fang Yuan could not recreate them, he did not know their Immortal Gu recipes.

These ant Gu had successfully ascended after devouring the Gu materials and immortal materials in Fire Plain grotto-heaven.

The ant plague was extremely huge, involving almost the entire grotto-heaven, but only two ant Immortal Gu were produced in the end.

The killer move lingering poisonous ant plague contained refinement path profundity, it stood at the apex of the current world's hairy man nature Gu refinement technique!

Nature Gu refinement technique used the natural dao marks of the outside world to refine Gu and greatly raise the success rate.

The moment Fang Yuan created lingering poisonous ant plague, his attainment in the nature Gu refinement technique already surpassed Long Hair Ancestor in every aspect!

These ants could refine and ascend themselves, it was not just due to the Gu materials of the outside world, most importantly, Fang Yuan was expending his own unrestrained heavenly marks.

Long Hair Ancestor did not have any unrestrained heavenly marks after all.

"Using lingering poisonous ant plague, I can nurture a large number of ant Immortal Gu. As long as I have a large number of ant gu, if I expend a lot of resources, I will have a continuous stream of ant Immortal Gu produced. Even though Immortal Gu are unique, after obtaining red copper fire ant, I can still produce ant Gu like red copper water ant or yellow gold fire ant!"

With just a slight difference, the Immortal Gu would still be considered unique.

Fang Yuan made his deduction, he realized that the key obstacle to this was not the uniqueness of Immortal Gu but the resources needed.

Using this method to nurture ant Immortal Gu had too high of an expenditure.

Refining the two rank six Immortal Gu, red copper fire ant and white noodle queen ant, took so much in resources from Fire Plain grotto-heaven, it was sufficient to refine more than ten rank seven Immortal Gu normally.

The efficiency of using the resources was too low!

Other than immortal materials and Immortal Gu, there were also some Gu cultivation inheritances gained from taking down Fire Plain grotto-heaven.

The most valuable one was Fire Plain true inheritance.

Even though Fang Yuan did not get it from Fire Plain Grotto Lord, there was the original copy in Fire Plain grotto-heaven.

Fire Plain true inheritance was a high quality fire path true inheritance, it had a profound method called furious red heart flames. Fire Plain Grotto Lord had used it before his death to threaten Fang Yuan to let him off, it was used in his suicide.

There was also the killer move humanly flame smoke, this was a fire path killer move with human path effects. For Fang Yuan, it was quite valuable.

“Lord, what do we do with these people?” A subordinate Gu Immortal asked.

Fire Plain grotto-heaven was a human grotto-heaven, there were over a hundred million purebred humans here.

If they were all moved into the sovereign immortal aperture, the burden would be immense.

Fang Yuan thought about it and gave his orders plainly: “Kill them all to construct Human Sea.”

Thus, the variant human Gu Immortals took action and engaged in a merciless slaughter.

A hundred million humans were all slaughtered, their bones, flesh, intestines, and soul were collected and classified into different groups of Gu materials, they were transported into the sovereign immortal aperture's inventory.

Their human qi was completely taken by Human Sea.

This incomplete artificial secluded domain of heaven and earth was obtained from Xia clan by Fang Yuan.

In order to become venerable, Fang Yuan would need to get past the Heavenly Dao blockade, these human path methods needed elevation to deal with it.

After cleaning up the battlefield, Fang Yuan annexed the immortal apertures of all these Gu Immortals, before finally targeting Fire Plain grotto-heaven.

He moved most of the resources in the grotto-heaven into Mini Red Heaven.

Because of his constant annexing recently, the sovereign immortal aperture had undergone a huge change, its development was currently at eighty percent!

The sovereign immortal aperture's Gu material inventory was completely full, more than ten more inventories were made in succession.

Be they the mini nine heavens or the mini five regions, they all had many resource points in them, at least hundreds or thousands of them.

After careful and meticulous deduction, Fang Yuan finally allocated all these resources to the most appropriate locations.

"Mini Red Heaven is almost full as well, the sovereign immortal aperture feels packed now." Fang Yuan sighed in his heart.

He felt that he was like a hungry fatty recently, he ate too much in a short period, he could not digest it well.

Normally, Gu Immortals cultivated one path, their immortal aperture's environment was quite simple and easy to manage. Most Gu Immortals did not have a huge immortal aperture, only space path Gu Immortals had the largest immortal apertures.

Fang Yuan, however, was different.

He cultivated all paths, the environment of his immortal aperture was very complex, almost all sorts of resources could be grown inside.

At the same time, his sovereign immortal aperture was also the largest and most unprecedented aperture, even a venerable's grotto-heaven might not be this big!

Thus, there were many things that he had to consider during this development.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2109 - Wu Shuai“s Life In Danger

2109 Wu Shuai“s Life In Danger

Fire path resources could not be placed too closely with water path resources, otherwise, they would affect each other's growth, not only would production shrink, they might even be destroyed.

But isolating all fire path and water path resources was also not a good idea.

Because fire path resource points also affected each other, they were not completely harmonious.

There were also a lot of immortal materials which had two types of dao marks, like giant disaster blazing tree's fire path and luck path.

A lot of Gu cultivation resources had dao marks of two paths or more.

Some resource points that produced immortal materials needed a lot of ordinary Gu materials in the vicinity for production to occur.

Some resources needed specific wind or water to grow as well.

There were also resources that needed an opposite environment. For example, frost ice flame was a fire path immortal material produced in an area of dense ice and snow path dao marks.

Thus, Fang Yuan had prepared for this, long ago, when annexing immortal apertures, he had specially split them up into portions and placed them scattered over the sovereign immortal aperture.

All in all, Fang Yuan was mimicking the characteristics of the five regions and nine heavens.

For example, Mini Southern Border had many mountains, Fang Yuan chose to put earth path resources there most of the time.

Or for example, Mini Red Heaven was fire based, so Fang Yuan placed his fire path resources there.

Fang Yuan could now feel the intricacy of the distribution of the five regions and nine heavens. Using this design, most resources could be classified and arranged, it could greatly lower the need for him to make deductions, he could control the influence of these resource points on each other more easily.

But it was not enough.

Each time Fang Yuan annexed a grotto-heaven, he would gain dao marks of a certain path.

With an increase of dao marks, there would be some influence for the following period of time on the entire sovereign immortal aperture.

Earlier, when he annexed Qi Xiang grotto-heaven, the sovereign immortal aperture gained a huge boost of qi path dao marks, currents started to appear all over the immortal aperture. There was the largest quantity of heaven and earth qi, allowing the sovereign immortal aperture to have no need to open its entrance and absorb external heaven and earth qi for some time.

After that, there were profound yin qi, luck qi, blood qi, astral qi, domination qi, life qi, death qi, righteous qi, orchid vitality qi, elderly qi, and other immortal materials.

Dao marks affected the entire sovereign immortal aperture, allowing it to produce resources gradually from a blank state. It started with mortal Gu materials, after dao marks accumulated, a qualitative change would occur, becoming immortal level Gu materials.

These resources were naturally formed as a result of dao marks.

The sovereign immortal aperture was gradually filled up like this, it reached eighty percent development now.

Other than resources, an increase in dao marks would also affect the production of existing resources.

After annexing Fire Plain grotto-heaven and gaining a bunch of fire path dao marks, the entire temperature of the immortal aperture would rise gradually, many water path or wood path resource points would suffer as a result.

If he gained metal path dao marks, a large amount of ores would appear in the soil, the fertility of the soil would change, affecting the growth of the vegetation above.

If he gained water path dao marks, there would be more rain, over time, floods might occur.

If he gained poison path dao marks, some plagues or diseases might erupt instead of being seasonal, they might spread widely and rapidly.

If he gained transformation path dao marks, many lifeforms might mutate when they grow, some might have different forms or natures, causing problems to their original groups.

Thus, during this period of time, the sovereign immortal aperture had not been peaceful.

Many strange things occurred at random times occasionally.

Like earlier, Mini Eastern Sea had eerie winds appearing out of nowhere.

Profound eerie winds swept the area, causing small islands to form on the surface of the sea.

But the area in which these profound eerie winds blew did not need islands, the earth path dao marks would obstruct the sea waves, while the soul path dao marks would kill the weak life forms and create soul beasts, changing the natural habitat.

Fang Yuan initially suspected the two neighboring sea areas, they were right at the core of the profound eerie winds, they were very plausibly the source of them.

But after some tests and deductions, Fang Yuan found that the reason was two far away sea areas, their dao marks influenced each other, like the repulsion of magnetic waves, causing profound eerie winds to be created between them.

As for situations like wild beast mutation that caused problems to beast groups, the spread of plagues and diseases, the increase of ores that destroyed the homes of rockmen, the burning of forests for no apparent reason, the fall of ice shards from the sky and others, they happened continuously.

All of the defending Gu Immortals were extremely busy, they went around taking action and salvaging the situation.

Fang Yuan's main body also took action frequently, setting up immortal formations at the important resource points, like he was patching up torn clothes.

"The boost of dao marks carry uncertainty, only time can digest and assimilate such issues. I need to let the sovereign immortal aperture develop and naturally acclimatize to these situations."

"Originally, the sovereign immortal aperture had a huge space and sparse resources, it was hard for them to affect each other. but now, after reaching eighty percent, there are too many resources that are closely packed together, their influence on each other is also not between two resources, but a large group of resources in the vicinity, they affect each other in a chain-like manner."

"And worse is that I used Time Difference grotto-heaven's method to construct year essence pools and created different time path regions. Because the areas have varying time flow, my deductions are even more complicated."

"When I bring in more immortal materials in the future, the deduction difficulty will rise by a hundred times! It is beyond my capabilities." Such deduction difficulties were simply too high, Fang Yuan was helpless about it.

“Furthermore, even if I can deduce the results, I will still need to modify the location of the respective resources. Each time I relocate them, it would be like a huge surgery, expending a lot of my resources, time, and energy.”

“I am afraid that eighty percent is my current limit!”

After understanding this, Fang Yuan felt admiration when he looked at the five regions and two heavens.

The five regions and two heavens had far larger space than the sovereign immortal aperture, but all of their resources were appropriately located, they influenced each other in a harmonious way.

Even when the five regional walls vanished, when the earth veins merged, even after the heaven veins merged, these resource points were still unchanged, they were barely affected.

“I see, this is — heaven path!”

Fang Yuan’s body and mind shook intensely, at this moment, he could sense the law of balancing of heaven path deeply!

“If my heaven path attainment level can rise to master level, I will be able to resolve this predicament and make a breakthrough, I can continue to develop the sovereign immortal aperture even further. What a pity, what a pity…”

In history, nobody had ever cultivated heaven path, even though Limitless Demon Venerable created unrestrained heavenly mark, he was still a rule path cultivator. As for Paradise Earth Immortal Venerable, he cultivated earth path.

Fang Yuan might be the Gu cultivator who had the deepest venture into heaven path.

Fang Yuan activated Cooking Luck Pot, inspecting his own luck.

He saw that above the silver white pillar of light, there were still three clouds that were continuing to get larger.

But the silver white light pillar that represented Fang Yuan forcefully grew to around four times the original size. It was originally thin and slim, but now it was slightly ‘thicker’.

This was caused by the annexation of Fire Plain grotto-heaven.

Because Fire Plain Grotto Lord and Fire Plain grotto-heaven had their respective luck, after Fang Yuan killed and devoured the grotto-heavens, he also expended some of his own luck.

After some time, Fang Yuan’s luck would recover and grow even thicker.

In terms of the growth of luck, Fang Yuan was naturally the winner among them.

“It seems that my tactic is correct, my development far surpasses the three venerables during this period. But…” Fang Yuan pondered.

He acutely sensed that even though the silver white light pillar expanded to four times of the original, it was no longer as condensed as before, it was quite loose now, the light was also no longer as clear as before.

“The reason why my silver white light pillar grew this much is because I annexed many grotto-heavens, my foundation rose sharply. Other than that, I also created and modified many compound killer moves, my time path clone also made many rank eight Immortal Gu.”

“But these things only reached a quantitative change, without qualitative change, it is still too loose.”

“For example, the sovereign immortal aperture is still very unstable, the resources are not assimilated into the environment yet, I’ve only used some methods to forcefully place them here. If I am careless, a disaster will occur, I will suffer huge losses and my luck will fall.”

“And even though I have many rank eight Immortal Gu and compound killer moves, I still do not have a proper combat system that perfectly uses them, I cannot link them together!”

“Thus, the silver white light pillar is loose.”

Fang Yuan could feel the amazing aspect of luck path once again.

Through luck inspection, not only could he understand his current circumstances, he could also inspect his own flaws and weaknesses.

With this, he even had the direction that he was going to pursue next.

Fang Yuan took a look at the luck of his clones as well.

Qi Sea Ancestor, Zhan Bu Du, Meng Qiu Zhen, and the rest had increased luck.

His connection with Fang Di Chang was also becoming clearer.

But Wu Shuai's dragon luck was not in good shape, it was actually near the brink of collapsing!

"What is going on? Don't tell me that after creating lingering poisonous ant plague, it actually led to a bad result?" Fang Yuan soon ruled out this guess, he was quite confused internally.

Among his clones, Wu Shuai was the safest in terms of circumstances.

Qi Sea Ancestor's true identity was a hidden threat.

Meng Qiu Zhen faced danger when exploring dream realms.

Zhan Bu Du had already been sent away by Fang Yuan to lurk elsewhere.

Li Xiao Bai was a mortal Gu Master, he did not have much control over his situation.

The time path clone made use of Four Elements Square Regret Blood Refinement Pool to refine a large number of rank eight Immortal Gu, yet he only had rank six cultivation level, if any accident occurs, he would die from backlash.

Even though Wu Shuai was also trying to get stronger himself, his main responsibility was to manage the variant human alliance. How could he be in danger?

And this was a fatal danger that could cost him his life!

Central Continent.

In an underground cave somewhere, an elderly Gu Immortal with a reddened nose laughed loudly: “I finally got here, I did not waste my effort for the last ten or so days without sleep!”

There was a rank eight Gu Immortal true inheritance in front of him!

The will that had been slumbering for a long time was awake, he looked at the elderly Gu Immortal: “If you want to obtain the true inheritance of myself and my wife, you need to agree to one condition.”

“What condition?” The elderly Gu Immortal squinted and asked.

The Gu Immortal will sighed: “In my later years, I took in a traitorous disciple named Wu Shuai. He actually enslaved both me and my wife! If you want to obtain this true inheritance, you will need to shoulder the responsibility of taking revenge.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2110 - Golden Bottle Drunken Wine

2110 Golden Bottle Drunken Wine

The elderly Gu Immortal's eyelids twitched, he had a certain guess, he asked: "So you are Senior Green Ant Ascetic, your wife must be Senior Wine Fairy?"

The Gu Immortal will nodded: "Indeed."

The old Gu Immortal let out a breath of air: "To speak truthfully, this junior is a Gu Immortal of Eastern Sea, Zui Xian Weng, over a million years have passed since your death."

The Gu Immortal will was slightly stunned before sighing: "Such a long time has passed… back then, to prevent that traitorous disciple from finding us, we specially hid our inheritance in an extremely concealed area, to think that it ended up like this, that traitorous disciple must have died already."

After pausing for a while, the Gu Immortal will thought of something and said: "Wait, Zui Xian Weng, put away your defensive method, let me test the truth of your words. How can I know if you are not one of my traitorous disciple's subordinates that came here to trick me?"

Zui Xian Weng hesitated for a moment but did not attack immediately, he was not confident in dealing with the arrangements here.

He spoke the truth: “I do not know if Wu Shuai is dead or not, but the situation is like this…”

Zui Xian Weng quickly explained everything, Green Ant Ascetic’s will became stunned again, what in the world had happened?

Was this still Heavenly Court?

Fate Gu was actually destroyed!

Gu Yue Fang Yuan!

It was hard to imagine the existence of such a great demon in the world, truly a misfortune for the common people.

Green Ant Ascetic’s will only accepted the facts after a long time.

“To think that the world became like this after a million years. Fate Gu was destroyed, even Duke Long lost and died! Whether that Wu Shuai actually revived or if he is just Fang Yuan’s clone is no longer important, since that Fang Yuan inherited Dragon Palace, he will also inherit this grudge!” Green Ant Ascetic’s will said firmly.

“So Zui Xian Weng, are you willing to oppose Fang Yuan for this true inheritance?” Green Ant’s will asked.

Zui Xian Weng was silent for a long time before taking in a deep breath, gritting his teeth: “I am willing to do that!”

“Alright, we will make the agreement.”

According to the instructions of Green Ant’s will, Zui Xian Weng made his vow.

“Accept this inheritance, the two of us put all our effort into it, we created a killer move called golden bottle drunken wine!”

“Golden bottle contains green ants, drunken wine dilutes dragon qi! Army ant was created by me, I hid the one weakness of these ants extremely deeply, that traitorous disciple had no idea all along.”

“As long as you use this golden bottle drunken wine killer move, you will be able to send the army ants into chaos and cause a backlash on the user. Most importantly, this is a food path killer move, it is hard to guard against!"

"So senior has prepared for it." Zui Xian Weng's eyes shined with bright light: "I cannot stay in this place for long, senior, please go into my immortal aperture, you can inform me of the remaining information later."

"Okay." Green Ant's will flew into Zui Xian Weng's immortal aperture, the latter took all the inheritance away and left.

Zui Xian Weng only took a glimpse of the inheritance details before feeling great joy internally.

This inheritance contained Green Ant Ascetic's enslavement path inheritance as well as Wine Fairy's food path true inheritance. The value of the enslavement path true inheritance was not high for Zui Xian Weng, but the Wine Fairy true inheritance was simply too valuable to him.

"It was not a waste of my effort to come here, it was worth it!" A smile appeared on Zui Xian Weng's face.

But the moment he left the place and arrived in the outside world, his expression immediately changed.

A battlefield killer move had been set up, it activated at once and trapped Zui Xian Weng.

"Heavenly Court! Qin Ding Ling!!" Zui Xian Weng was shocked to find out that Heavenly Court's Gu Immortals were surrounding him.

The leader was a female immortal, she had a tall nose, thin lips and eyes, a body covered in golden armor, her legs were long and smooth, she wore a white cape on her back, she radiated an elegant and noble aura, she had an air of indomitability!

She was the current leader of Heavenly Court, rank eight luck path great expert, Qin Ding Ling!

Zui Xian Weng's heart sank to rock bottom, he broke out in cold sweat: “It seems that I will lose my life in this fight.”

Thoughts flashed rapidly in his mind, Zui Xian Weng gritted his teeth and cupped his fists: “I am willing to contribute all my inheritances, I will make contributions to the righteous path.”

Qin Ding Ling smiled brightly, emanating with heroic aura: “Green Ant Ascetic’s and Wine Fairy’s inheritances are good, but is our Heavenly Court so greedy? We are the righteous leaders of over three million years, the number one super force in the world. Since you had the fortune to find this inheritance, then it belongs to you. Please do us the honor, sit down and have a cup of tea.”

Saying so, Qin Ding Ling sat cross legged in the air, she took out cushions, a table, and cups.

Zui Xian Weng sat down without a choice, Qin Ding Ling personally poured tea for him.

Tea fragrance spread out, but Zui Xian Weng felt his heart turning cold as ice, his entire body was shivering, his cold sweat could not stop pouring.

What status did Qin Ding Ling have, she was actually treating an Eastern Sea lone immortal like Zui Xian Weng in such a respectful manner? She certainly had huge motivations behind this.

“Feel free to drink it.” Qin Ding Ling stretched out her arm, smiling as she pointed.

Zui Xian Weng had no choice but to take a sip, he immediately placed the cup down, he asked while faking calmness: “I wonder what Lady Qin wants to say to me?”

The smile on Qin Ding Ling’s lips became even wider.

She spoke casually: “Haven’t you already guessed my intention? Zui Xian Weng, you are a smart person.”

“No need to be so pessimistic, in the current world, even though demons have the upper hand, it is only temporary. Even throughout the history of millions of years, the righteous path has been dominant for most of the time, while the demonic path can only hide at some corners. We are currently in a special era, so some geniuses will wreak havoc, don't think that they are domineering and overpowering, they are merely the pioneers that will pave a road for the venerables ahead."

Zui Xian Weng lowered his head, not daring to make eye contact with Qin Ding Ling.

His arms were placed on the table as he clenched them uncontrollably, his palms were covered in sweat.

"In this tough situation, no matter what overbearing request Qin Ding Ling states, I have no choice but to agree to it." Zui Xian Weng sighed in his head with great sadness.

But Qin Ding Ling took out some evidence immediately after: "Not long after, Star Constellation Immortal Venerable will revive and return to Heavenly Court, she will lead the rise of Heavenly Court once again."

Zui Xian Weng saw the evidence and became deeply shocked: "Star Constellation Immortal Venerable's revival?"

Qin Ding Ling smiled: "Fate Gu has been destroyed, even venerables can be resurrected now. Demon Immortal Qi Jue is the best example now, but he has already been suppressed by my Heavenly Court. If even Demon Immortal Qi Jue can revive, how can our venerables not do so? Our Heavenly Court has three venerables, throughout the world, which super force can rival us?"

Zui Xian Weng stared in a dumbfounded manner, thoughts started to collide rapidly in his mind.

He had already decided to say yes, but after seeing proof of Star Constellation Immortal Venerable's revival, the balance in his heart was tilted towards Heavenly Court.

Even though Fang Yuan was strong as the number one demon, he only had pseudo venerable battle strength.

He could not compare to a venerable.

In the millions of years of human history, there had only been ten venerables, each one had shown their invincibility in their respective eras!

Venerables were invincible!

No matter how many pseudo venerables there were, they could not match a venerable in the end.

While Heavenly Court had the most number of venerables — Primordial Origin, Star Constellation, Genesis Lotus! Other than that, the only other super force that had a venerable was Longevity Heaven.

Zui Xian Weng's expression became calm gradually.

"I am willing to work for Heavenly Court!" He said in a solemn tone: "Let's set the agreement."

Qin Ding Ling shook her hands: "No need for that. With that Fang Yuan's ability, he will notice if we make an agreement. Furthermore, you need to return to Eastern Sea and join the Righteous Qi Alliance."

"We will not set an agreement?" Zui Xian Weng was stunned.

Qin Ding Ling added: "Write me a copy of the true inheritance, Heavenly Court will try to provide you the relevant Immortal Gu."

Zui Xian Weng was stunned again, he sighed in his heart: "No agreement and they are also giving me Immortal Gu?"

Qin Ding Ling waved her hand again: "You can leave now."

"This subordinate takes his leave." Zui Xian Weng left the battlefield with completely stunned emotions.

It was truly unbelievable.

He was freed just like that!

What Zui Xian Weng felt was deep admiration.

He started to admire Heavenly Court from the depths of his heart!

“This is the calibre of the number one force in the world! Qin Ding Ling is not afraid that I will not follow the agreement. With this attitude, she clearly doesn’t think much of the inheritance, I am merely just one of her casual pawns. If I do not follow the agreement in the future, unlike Fang Yuan, can’t Heavenly Court easily deal with me?”

Zui Xian Weng was filled with a chilly feeling internally.

While watching him leave, Fang Zheng could not help but ask: “Lady Qin Ding Ling, we’re letting him go like this? What if he goes to join Fang Yuan and betrays us? Wouldn’t we be giving this inheritance to Fang Yuan as well? Are we going to give up this method to counter Wu Shuai?”

Fang Zheng was very familiar with the content of the inheritance.

It turned out that Heavenly Court had found this inheritance long ago, but before taking it, Qin Ding Ling had some intuition. Her instincts told her to not take the inheritance, it would be better to make her move three days later.

Qin Ding Ling followed her instincts and waited for three days, finally trapping Zui Xian Weng.

At this point, she realized the meaning behind her intuition.

Qin Ding Ling smiled: “Fang Yuan possesses the sovereign immortal aperture and has annexed many grotto-heavens, he even has Paradise Earth’s inheritor and the variant human alliance under him, we cannot estimate the speed of his growth at all. If we set an agreement with Zui Xian Weng, it will leave a huge piece of evidence behind.”

“However, when Zui Xian Weng drank the tea, I had already used my method to influence his luck. This will cause him to become enemies with Fang Yuan without doubt.”

Fang Zheng was not convinced, he held onto his beliefs: “Even so, I feel that we should gain a complete hold of this inheritance and use it as a trump card against Fang Yuan. This Zui Xian Weng is just a lone cultivator of Eastern Sea…”

Qin Ding Ling chuckled: “You are underestimating Zui Xian Weng while also overestimating the value of this inheritance.”

“Zui Xian Weng is a person who can endure hardship, he is a wise man who knows his circumstances, he possesses one of the three pools in the world, Wine Pool, he is a food path expert. The inheritance of his lineage has always been passed down very stably, while his luck is also very deep and sturdy!”

“Food path is powerful, while Zui Xian Weng cultivates food path solely, he can almost be considered a representative figure of this path. This has significant meaning!”

“As for this inheritance?” Qin Ding Ling shook her head: “In my opinion, the most valuable thing is not the killer move golden bottle drunken wine, but that human path wine drinker Immortal Gu recipe.”

This inheritance that Green Ant Ascetic and Wine Fairy created together contained a human path Immortal Gu recipe.

Wine drinker Gu.

Similar to hero Gu, scholar Gu, craftsman Gu, and farmer Gu, except that it was not at the mortal level, it was an Immortal Gu!

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2111 - Beast Tamer Gu

2111 Beast Tamer Gu

Fang Zheng blinked a few times, having understood something: “You mean to say that even if golden bottle drunken wine is effective and kills Wu Shuai successfully, he is still just a clone of Fang Yuan’s, it will not truly shake his foundation. Right now, with Dragon Palace destroyed, Wu Shuai’s biggest use is gone.”

“Meanwhile, the wine drinker Immortal Gu recipe is the symbol of human path prosperity, it will be the path that our Heavenly Court will focus on in the future!”

Qin Ding Ling patted Fang Zheng’s shoulder: “You have learned well!”

“No matter how strong Fang Yuan is, he is not a threat unless he becomes venerable.”

“Star Constellation Immortal Venerable has already succeeded in Crazed Demon Cave, the most urgent matter is to bring her back now. No matter how great of a commotion Fang Yuan causes, he is just like a cicada’s cry at the end of autumn, he has few days remaining.”

“I am not Fang Yuan’s match while Heavenly Court cannot afford another loss, thus, I have been dragging on the matter about the Eastern Sea Righteous Qi Alliance.”

“Right now, we need to put in effort for the Crazed Demon Cave battle. It will not be easy to bring back our venerable, we need to conserve strength and prioritize on that.”

“As long as Star Constellation Immortal Venerable returns to Heavenly Court, even ten of Fang Yuan added together cannot cause any problems for us.”

“Yes, you are absolutely right!” Fang Zheng did not refute nor hold any suspicions towards Qin Ding Ling’s plan.

Star Constellation Immortal Venerable had already proven her strength in history!

She had succeeded Primordial Origin Immortal Venerable’s position and stabilized the fruits of humanity’s labor, she expanded on the prosperity of humanity by getting involved in the other four regions. Before dying, she plotted against three Demon Venerables and preserved Heavenly Court when they attacked, she was truly a great and noble contributor.

Fang Zheng sighed internally: “Fang Yuan, I am not your match. Right now, even Heavenly Court is inferior, but someone can deal with you in the end. Throughout history, evil has never prevailed! If Star Constellation Immortal Venerable makes a move, can you stop her? You are already finished, even though I understand you, I will not pity you. You deserve a bitter end, this is the price to pay for all the sins you have committed!”

Fang Yuan inspected the inheritance in his hand.

He read through it rapidly.

With Meng Qiu Zhen exploring dream realms for him, all of his attainment levels were rising shockingly.

Using these attainment levels, all sorts of inheritances felt shallow in his eyes. Only a small number could give him a decent surprise at times.

These inheritances mostly came from Qi Sea Ancestor and the variant human alliance.

Because of the qi tides, Eastern Sea’s exposed inheritances were mostly gathered into Fang Yuan’s hands now.

Of course, there were still some excellent inheritances that were kept secret by the lucky forces not contributing them.

But Fang Yuan did not mind it.

At his current level, most inheritances in the world had little to no value from his perspective. His attainment was too high, in just a few breaths of time, he could create a superb inheritance himself.

These inheritances were merely a small supplement to his theories and knowledge base.

“Treasure yellow heaven also has inheritance transactions, this is really a rare sight.” Fang Yuan suddenly thought of something, he could transact most of these inheritances that he currently had.

What was the point of transactions? It was to exchange with others for some things that you were more suitable with, in order to cultivate more smoothly.

Because doing this had benefits for Fang Yuan to become venerable.

One of the four venerable ascension conditions was to break through the Heavenly Dao blockade.

The Heavenly Dao sought balance and suppressed Gu Immortals and venerables. The more widely spread these inheritances were, the stronger the cultivators would become, and the more effort the Heavenly Dao would need to suppress them.

This way, when Fang Yuan reaches a crucial moment in his venerable ascension, the Heavenly Dao blockade that obstructed him would fall in strength relatively.

This point was proven by historical records as well.

During the ten venerables’ eras, countless geniuses emerged one after another, grand heroes existed at the same time, being as numerous as the stars in the sky!

“To breakthrough the Heavenly Dao blockade, other than luck path, there is also human path. Divine Emperor City is the sacred land of human path, if I can obtain the human path essence inside it, it will help me greatly!” Fang Yuan thought.

Divine Emperor City, painting world.

In a market within the city, people gathered together to watch the performance at the center of the square.

A middle aged man with a muscular body wore beast skin clothing and held a leather whip in his hands as he swung it.

As the leather whip moved, it emitted cracking sounds.

A leopard danced around on the ground while following the tune of the whip.

The middle aged man suddenly stored his whip, he placed his head into the leopard’s huge mouth.

The leopard opened its mouth widely, its teeth were sharp as blades, only millimeters away from the man’s skull.

The surrounding audience gasped loudly.

But the leopard did not bite it, after waiting for some time, the middle aged man moved his head out again.

Immediately, applause resounded.

The middle aged man took out a bronze bowl and walked around the audience while holding it.

He moved quickly as he raised the bowl, shouting: “Friends, if you have money, please support me, otherwise, please help to promote my performance. Haha, if you think this was enjoyable, don’t hesitate to give some tips.”

The middle aged man’s entertaining performance was well liked by the audience, a large number of primeval stones were tossed into the bronze bowl as they emitted sharp sounds.

Not far away, a human path great expert, Eastern Sea’s rank eight Gu

Immortal Shen Shang, watched with a stunned expression.

“This is the reason why I got you to come here.” Fang Di Chang said, as he sat beside Shen Shang and drank tea.

Shen Shang finally retracted his gaze.

“Amazing, amazing!” He praised uncontrollably: “This Divine Emperor City painting world is really amazing.”

The middle aged man was a beast tamer, this profession had never existed in the painting world before. But after the ten children of human path led their troops to explore growling beast painting world and returned in failure, they recuperated for some time and this profession appeared.

In the market, in addition to hero Gu, scholar Gu, soldier Gu, and craftsman Gu, there was a new type of Gu — beast tamer Gu!

Once beast tamer Gu was activated, it could turn into a beast tamer.

Beast tamers were specialized to deal with wild beasts, they were more proficient at taming wild beasts to use for themselves.

Evidently, this new beast tamer Gu was created to deal with growling beast painting world!

“Who created this new Gu worm?” Shen Shang asked.

Fang Di Chang shook his head: “Beast tamer Gu appeared so naturally, I did my best to investigate but I found no specific targets.”

Shen Shang nodded: “Your Beggar Sect is the strongest information collection organization in here. It might not be a person, it might be this painting world itself or Genesis Lotus Immortal Venerable’s arrangement.”

Fang Di Chang took in a breath of human will Gu to replenish himself before saying: “Now that beast tamer Gu has appeared, growling beast painting world will be at a disadvantage, it is only a matter of time until it is taken down. The scariest part of human path likely lies here. I underestimated this path after all.”

Shen Shang moved his fingers around the cup as he concluded: “Now it seems that there are three types of human path Gu worms. The first are profession Gu, for example, craftsman Gu, hero Gu, and beast tamer Gu. The second are organizational position Gu, for example your beggar sect Gu and sect elder Gu. The third type are human emotion and virtue Gu, for example, traveling son Gu and doting mother Gu.”

“Human emotion and virtue Gu? Brother Shen, it seems that you have made great progress in your cultivation recently, that is an appropriate classification.” Fang Di Chang congratulated.

Shen Shang waved his hand: “I am ashamed, that is merely a classification of my own opinion.”

Traveling son Gu and doting mother Gu were once regarded as emotion path Gu worms, but in essence, they were actually human path.

This was quite a common sight in history as well.

The essence of Gu worms usually only showed itself after the path progressed to a certain level.

“The painting world is really the sacred land of human path, I am feeling quite expectant now. When the ten children of human path leave this place and bring human path to the world of the five regions, I wonder how big the commotion will be, many different Gu worms will be classified into human path by then.”

Shen Shang said with deep emotions: “I believe that many human path Gu worms scattered and forgotten somewhere in the world will gain recognition from people once again.”

Genesis Lotus Immortal Venerable had truly made a noble achievement!

Before him, human path was like the leaves on a tree, it only concerned a small individual group of cultivators.

But Genesis Lotus Immortal Venerable created the painting world, he held up the tree of human path and supported its trunk, allowing it to grow and nurture.

Human path was no longer empty internally, it was a complete path now. It had most of the foundational roots and sturdy roots, it even had countless leaves on it.

Fang Di Chang did not speak, he was feeling increasingly worried in his heart.

Even though he had not gotten a clear understanding of Divine Emperor City and the painting world's profundities, there was already something that was certain to him.

Human path was bound to prosper, Heavenly Court had already started to focus on developing this path!

"I am afraid that developing human path has become Heavenly Court's main strategy! This path is not simple, what should my main body do now? He might not even know this yet, I am only a lump of will that is barely surviving. How can I inform my main body of this crucial information?"

With the destruction of fate Gu, anything could happen in the world.

Demon Immortal Qi Jue and Star Constellation Immortal Venerable had already revived, the Prophecy of Three Venerables was no longer certain, human path and food path had the chance of prospering in this new era.

Dream path was mentioned in the Prophecy of Three Venerables, it was originally the fated path that was meant to prosper or even rule over this new era!

In the past, human path was something that only venerables or individuals with great talent could comprehend. But after Genesis Lotus Immortal Venerable strengthened its roots and foundation, human path was already suitable for everyone to cultivate. Heavenly Court owned Divine Emperor City, this was a huge advantage in itself.

As for food path, this path was created in the Olden Antiquity Era and had never been widely spread. Now, without the restriction of

Fate, it also started to show signs of prosperity.

The entire world had gone chaotic because of Fang Yuan.

The dead were reviving, secluded paths were now starting to prosper.

As for the future?

Fang Di Chang shook his head, the future was too complex and uncertain, he could not see clearly beyond this chaos.

Luck Suppression Heavenly Palace.

Hei Lou Lan was summoned by Immortal Zombie Giant Sun.

“Hei Lou Lan, my descendant, it is now time for you to risk your life.” Immortal Zombie Giant Sun got right to the point: “You want to surpass that Gu Yue Fang Yuan? Now is your chance! Go into Myriad Beast Fusion Color Heaven.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2112 - Totem Killer Move

2112 Totem Killer Move

Hei Lou Lan woke up and opened her eyes in a daze.

“Where… is this?” Her blurry vision started to clear up, she found that she was lying on a stone bed.

Around the stone bed, there was a large tent made of skin.

At the center of the tent, there was a huge pot hanging on a metal rack.

The pot was bubbling and seemingly contained boiling soup. At the bottom of the pot, there was a red rat spewing fire continuously.

“You woke up?” The flap of the tent was pulled aside as a person walked in.

This was a beautiful middle aged woman, her clothes were quite simple, she had a beast skin top and skirt, her shoulders, tummy, and half of her breasts were exposed.

On her chest and back, there was a blue phoenix tattoo, not only was it very vivid and lively, it even emitted a faint blue light.

Hei Lou Lan struggled and managed to sit up.

During the process, she found that her clothes had been changed as well, it was the same as the middle aged woman, having a wild and brutish style.

“I am Desolate Extremity Lu Tong Lan, you are now inside Myriad Beast Fusion Color Heaven.” The middle aged woman smiled as she walked towards Hei Lou Lan.

Hei Lou Lan had fully woken up now.

Longevity Heaven had the Eight Extremities, their names were Heaven, Earth, Black, Yellow, Space, Time, Flood and Desolate respectively. Black Extremity was Sun Ming Lu, he cultivated formation path. This woman in front of her was Desolate Extremity, she had been staying within Myriad Beast Fusion Color Heaven.

“Lady Lu, what should I do?” Hei Lou Lan inquired. Immortal Zombie Giant Sun had only told her to listen to Desolate Extremity’s instructions after arriving here.

Lu Tong Lan smiled: “In here, you should call me Blue Phoenix Tribe Leader. Your current identity is my illegitimate daughter, I birthed you long ago and left you outside. Recently, when relocating the tribe, I found you by accident and brought you back.”

“Myriad Beast Fusion Color Heaven has countless tribes, we coexist with the beasts, it is very different from the five regions. Every ten thousand years, all the tribes would gather and hold the Myriad Tribes Ceremony. This is your fortuitous encounter!”

“Alright, now, you need to start drinking soup.”

Lu Tong Lan scooped a huge bowl of hot soup and passed it to Hei Lou Lan.

Hei Lou Lan sat at the side of the bed, she held the hot metal bowl, the fragrance of food drifted into her nose.

She was currently hungry, she immediately drank a large mouthful.

But when the soup entered her mouth, it had a peculiar and spicy taste, it was not nice at all!

“Cough cough!” Hei Lou Lan was not prepared for this, she almost gagged on reflex.

But Lu Tong Lan had a solemn expression: “Drink it, this soup is extremely important for you, you need to finish every single drop of it in the pot. Drink.”

Hei Lou Lan knew that this was Immortal Zombie Giant Sun’s arrangement, she frowned as she drank one bowl, followed by another.

By the third bowl, she could not take it anymore, her stomach was bloated and painful.

Lu Tong Lan had been guarding her the entire time, seeing this, she nodded: “Stop here for now, your body is at its limit.”

Hei Lou Lan started to experience diarrhea, it was very serious, she almost went weak from it.

But Lu Tong Lan did not let her off, even though Hei Lou Lan was lying down in a weak state, Lu Tong Lan brought the bowl over and poured the hot soup into her mouth.

Hei Lou Lan drank as the diarrhea intensified, she felt extremely terrible.

“What is the point of drinking this soup?” Hei Lou Lan asked.

Lu Tong Lan answered: “Myriad Beast Fusion Color Heaven is different from the five regions, those who succeed in life are those who can eat well. I specially prepared this soup for you to expand your appetite. During the process of having diarrhea, your body is adapting to it. Even though it is initially very severe and seems nearly fatal, the symptoms will gradually become lighter. In less than three days, you will be back to normal and feel extremely hungry.”

Hei Lou Lan stayed in the stone bed for two days and nights before regaining her strength, she could barely walk again.

By the third day, like what Lu Tong Lan had said, she recovered her strength and the diarrhea was gone, her appetite increased and her stomach growled since the early morning.

Lu Tong Lan cooked soup for Hei Lou Lan again.

“This is meat soup, it is different from before.” Lu Tong Lan said while taking out five to six rats and tossed them into the pot.

The rat struggled in the pot, squeaking loudly.

Lu Tong Lan’s expression did not change, she took out several poisonous snakes of various colors, tossing them into the pot.

The snakes and rats gradually melted in the soup, floating at the top like colorful mud.

Lu Tong Lan took out several black rocks that resembled charcoal and tossed them inside as well.

Hei Lou Lan’s eyelids were twitching at first, but soon she understood certain details.

“Blue Phoenix Tribe Leader, are you refining Gu?” Hei Lou Lan asked in curiosity, she saw that when making the soup, Lu Tong Lan used many refinement path techniques.

Lu Tong Lan continued to cook the soup as she smiled and said: “Hei Lou Lan, you are quite perceptive. This snake-rat soup is already done.”

Hei Lou Lan was stunned, she watched as Lu Tong Lan stopped cooking the soup.

“Did the Gu refinement fail? This is a pity.” Hei Lou Lan said: “After all, the snakes and rats used earlier were ancient desolate beasts.”

But Lu Tong Lan shook her head: “I said before, I am brewing soup, not refining Gu. The snake-rat soup is very perfect, you need to drink it all.”

“What?” Hei Lou Lan was stunned again.

Lu Tong Lan scooped a huge bowl of soup and passed it to Hei Lou Lan.

Hei Lou Lan drank a mouthful and frowned immediately, this soup was ten times as disgusting as the diarrhea soup earlier! With just one mouthful, her entire tongue went numb, even her throat was gradually becoming numb.

By the time she finished the hot soup, her entire body expanded like a balloon, even her skin and flesh were bloated, hair started to grow on her body rapidly.

The hair grew extremely quickly, after a few minutes, Hei Lou Lan's hair almost filled the entire tent.

And the hair had various colors.

Red, orange, yellow, green, azure, blue, purple, white, black, there were various colors of differing quantity, none of them were the same.

Lu Tong Lan inspected the hair, even counting the number of hairs of each color meticulously.

Next, at her will, the blue phoenix tattoo on her chest floated up and spat out a lump of blue fire.

The blue fire burned the hair, in almost an instant, all of Hei Lou Lan's newly grown hair was gone.

Hei Lou Lan stared with wide eyes and asked curiously: "What method is this? It is really amazing, I am completely unharmed."

Lu Tong Lan smiled: "This is my blue phoenix totem. Inside Myriad Beast Fusion Color Heaven, totems are the mainstream way of cultivation. Even though we use Gu worms as well, totems are the symbol of our strength and status."

Hei Lou Lan's eyes shined with bright light: "If I am not wrong, this totem is not simple, each line and marking on the totem is a dao mark! The essence of the totem is a killer move! There actually exists such an amazing method in the world, does everyone cultivate totems in here?"

"Hahaha." Lu Tong Lan laughed even louder: "Hei Lou Lan, you are the genius that our lord chose to send here indeed. You saw the essence of the totem with just one glimpse. Indeed, our Gu cultivation killer moves use Gu worms or expend Gu materials. While Gu worms are fragments of the Great Dao, Gu materials are agglomerations of dao marks. The totems here use the same logic, it is just that the cultivation way uses Gu worms to assist slightly, the main method is still to rely on our consumption and digestion.”

“Myriad Beast Fusion Color Heaven is Reckless Savage Demon Venerable’s immortal aperture, this Demon Venerable left his immortal aperture within the body of the gluttonous demon frog, allowing this grotto-heaven to have a food path environment.”

The gluttonous demon frog was a legendary immemorial beast, it contained an unimaginable number of food path dao marks.

With the influence of food path dao marks, within Myriad Beast Fusion Color Heaven, humans could eat Gu materials to increase their corresponding dao marks. Using the Gu worms here, they can gradually construct their own totems.

Hei Lou Lan did not guess wrongly, totems were a special type of killer move. Normally, they would stay on the surface of the Gu cultivator’s body. Once primeval essence or immortal essence was instilled, they would turn solid and fly out to fight.

“Totem killer moves have a lot of advantages, ordinary killer moves need to activate Gu worms and expend thoughts when they are used spontaneously. But totems only need to be constructed beforehand, you can save a lot of effort and time as a result!”

“In the five regions outside world, even though Gu Houses also contain fixed killer moves, totems can be refined and improved upon continuously. Meanwhile, strong Immortal Gu Houses have no room for improvement.” Lu Tong Lan continued to explain.

Hei Lou Lan started to frown: “I have the Great Strength True Martial Physique, I should cultivate strength path, but this totem seems to be a transformation path killer move?”

Lu Tong Lan shook her head: “Not quite so.”

“The other specialty of totems is that they can be suitable for all Gu paths. I, for example, cultivate fire path, after devouring all sorts of materials, I used Gu worms to construct my blue phoenix totem killer move. This totem is a fire path killer move, it is very suitable for me."

"As for you cultivating strength path, you can also construct your own strength path totem."

Hei Lou Lan cupped her fists and said solemnly: "Please teach me, senior."

"Of course." Lu Tong Lan pointed at the empty pot: "The snake-rat soup I gave you to drink earlier is meant to decipher your physique and learn what ingredients you are suitable to eat, and what kinds of ingredients are the best for your natural absorption and contain the most nutrients you need, as for your totem, it is something unique to you, only you will know what it truly becomes."

There were countless totems, even if they looked similar, each one was different.

Lu Tong Lan continued to speak in concern: "Hei Lou Lan, you need to make use of your time and quickly construct your totem. This killer move is the only method you can use when you join the Myriad Tribes Ceremony."

After Hei Lou Lan understood all this background information, she started to wholeheartedly cultivate this method.

Each time Lu Tong Lan cooked something, she would eat it without leaving anything behind, using this food path environment to allow her body to absorb dao marks.

Lu Tong Lan initially boiled soup, gradually, there was meat and vegetables, she also added more grains as well.

All of the food had one similarity, they tasted horrible.

But Hei Lou Lan was an ambitious person, as long as it could raise her strength, she could eat anything regardless of the taste, even if she felt intense pain in her stomach countless times, as if she was in living hell.

Chapter 2113 - Eating People

2113 Eating People

Hei Lou Lan cultivated while sitting on the stone bed.

Long after, she opened her eyes slowly.

She lowered her head and looked at her chest, there was a totem.

The totem was very simplistic and only had a few strokes, however, the markings were very clear, one could see a black cat that was drawn on it.

The black cat was young and small, it looked very adorable, its tail was raised up as its back was crouched, its front paws grabbed the ground, as if it was going to pounce at the next moment.

“Desolate Extremity lent me the relevant Gu worms, using them, the first form of my totem killer move has been completed.”

Hei Lou Lan calculated the time in her mind.

Ever since she came here and cultivated the first form of her totem, thirty days had passed.

During these thirty days, Hei Lou Lan did not leave even once, other than eating and attending to daily affairs, she only cultivated the entire time.

She did not relax or slack off at any moment, she worked really hard.

Suddenly, there was an argument outside the tent.

“Blue Phoenix Tribe Leader, you are going overboard!”

“Indeed, these last days, you used so many ingredients in our inventory for your illegitimate daughter.”

“Initially, you used the ancient desolate beast single horned deer to increase your daughter’s appetite. After that you made the snake-rat soup and used ancient desolate beast snakes and rats just to find out the recipe most suited for your daughter! After that, you have been consistently draining our reserves dry, the ingredients you pick are at least desolate beast level.”

“We nominated you as the leader but you are being so selfish, you have let down the entire tribe’s expectations!”

Hei Lou Lan heard this and showed a peculiar expression.

It seems that the tribe elders were currently questioning and blaming their tribe leader Lu Tong Lan.

“Speaking of which, I have been using a lot of immortal materials recently, is Desolate Extremity unable to control the situation anymore?” Hei Lou Lan guessed.

At the next moment, Lu Tong Lan’s voice resounded: “Tribe elders, no need to be angry. I am doing this for the sake of our tribe. Lan, come out.”

Hei Lou Lan heard this and finally left the tent that she had stayed in for a month’s time.

This was a valley with lush greenery, there was a river not far away.

There were tents of various sizes all around, they formed into a tribe.

The tent that Hei Lou Lan was in was right at the center, it was the safest location. At the same time, this was the largest tent in this place.

At the area outside of the tent, a group of people confronted Lu Tong Lan.

These people were also wearing beast skin and exposed a large portion of their body, most of them were elderly people, being all Gu Immortals. The thing that attracted Hei Lou Lan's attention were the totems on their bodies.

"Lan, come over here." Lu Tong Lan waved.

Hei Lou Lan did not speak as she walked towards Lu Tong Lan.

The tribe elders' gazes were focused on Hei Lou Lan's body, or more precisely, on her chest.

The expressions of the elders started to change.

Some were in disbelief, while some became very excited.

"This, this is?"

"Has my vision gone bad?"

"Can anyone confirm with me, is this the dark capital strength tiger?!"

Lu Tong Lan smiled: "Indeed, this is the dark capital strength tiger totem!"

The tribe elders were silent, their bodies were shaking from agitation.

Lu Tong Lan continued: "I know what you want to ask, since my daughter has the dark capital strength tiger totem, I am sure you all understand she has the sacred physique! Only the sacred physique can cultivate the dark capital strength tiger totem."

The elders gasped at once.

Lu Tong Lan waited for some time, after their discussions became softer, she continued: "Now, do you still think that I am being selfish?"

"Of course not!" An elder shook his head and said with a firm attitude.

“This is the sacred physique, it allows a person to directly advance in the Myriad Tribes Ceremony and challenge the Predicament!” An elder stared at Hei Lou Lan with a heated and excited gaze.

“As long as the sacred physique survives in the Myriad Tribes Ceremony, our entire tribe will benefit from it, we will become one of the back-up sacred tribes.” Another elder started to dream about the beautiful future.

“Sacred physique? Are they referring to my Great Strength True Martial Physique?” Hei Lou Lan calmed down because she knew that the entire situation was still firmly within Lu Tong Lan’s control.

Lu Tong Lan’s lips curled up: “Why just the back-up, can’t we directly become the sacred tribe?”

The elders’ expressions froze before quickly shaking their heads.

“Tribe leader, don’t be so hasty!’

“Your daughter has rank seven cultivation level but to become the winner of the Myriad Tribes Ceremony, her cultivation level is not high enough.”

“We need to be patient, as long as she becomes rank eight, we will not need to challenge anything, according to the customs, she will be the Sacred King!”

“We need to protect and nurture her in order to become the sacred tribe. Why do we need to take a risk?”

Lu Tong Lan was silent for a while before nodding: “Elders, you are right, I was too hasty. But undeniably, the stronger Lan becomes, the higher our position in the Myriad Tribes Ceremony, and the more benefits our tribe will receive. Isn’t that right?”

The elders nodded: “Of course.”

Lu Tong Lan suddenly bowed: “Thus, I hope everyone can understand and help to improve Lan’s totem with your full effort. The more benefits she receives, the more gains we will have later on!”

The elders reacted and some nodded in agreement, while others pointed at Lu Tong Lan and smiled brightly: “So this was all part of your scheme, Blue Phoenix Tribe Leader.”

Because of Lu Tong Lan’s meticulous arrangement, Hei Lou Lan was accepted by the tribe at her first appearance.

Hei Lou Lan also understood that one of the main reasons why Immortal Zombie Giant Sun sent her here was because the Great Strength True Martial Physique was really useful in Myriad Beast Fusion Color Heaven.

Afterwards, Hei Lou Lan asked Lu Tong Lan why the Great Strength True Martial Physique was considered the sacred physique in this place and why it had such a huge status.

Lu Tong Lan answered: “The rumor is that Reckless Savage Demon Venerable has the Great Strength True Martial Physique. Nobody can confirm if this rumor is true or not.”

This was not important, Hei Lou Lan soon left this information behind.

She continued cultivating her totem killer move.

This time, not only did Blue Phoenix Tribe Leader Lu Tong Lan help her, the entire tribe was also chipping in.

Hei Lou Lan’s totem soon grew from a small cat into a black leopard.

At this point, the elders’ help also started to dwindle.

Throughout the process, the immortal material expenditure was immense. But the good news for Hei Lou Lan was that her dark capital strength tiger totem had incredible power when used, far beyond her previous methods.

The dark capital strength tiger totem became her strongest killer move!

“But this is not enough!” Desolate Extremity Lu Tong Lan said truthfully once after cultivating: “Since our lord sent you here, I will do my best to nurture you and not let our lord down! Those elders did not use up their inventory, but I do not have much resources left. Don't worry, in a few days, the situation will change."

The elders had their descendants too, even though Hei Lou Lan had the sacred physique, she was still the tribe leader's descendant, the elders would not expend all their resources for her, this was a natural thing.

Several days later, Blue Phoenix Tribe was suddenly attacked by their mortal enemy Fire Blend Tribe, they suffered huge losses and were forced to escape from the valley.

While retreating, Blue Phoenix Tribe Leader led her troops and retaliated harshly. Fire Blend Tribe was caught off guard and was forced out of the valley, allowing Blue Phoenix Tribe to regain their territory.

Fire Blend Tribe was not resigned to give up, they stayed outside the valley and went into a stalemate with Blue Phoenix Tribe, waiting for an opportunity to arise.

Late at night on this day.

Lu Tong Lan brought Hei Lou Lan away from the gathering point, going to a cave in the valley to meet Fire Blend Tribe Leader.

Fire Blend Tribe Leader looked at the shocked Hei Lou Lan and smiled while explaining: "I am Yellow Extremity Jiao Huo."

It turned out that this situation was just Lu Tong Lan's and Jiao Huo's performance.

Jiao Huo took out a large amount of immortal materials and handed them to Lu Tong Lan: "These are all the Gu materials I can find that are suitable for Hei Lou Lan."

"Other than that, we have these…" Jiao Huo had a strange expression as he took out several corpses.

These were the corpses of Fire Blend Tribe's Gu Immortal elders who had died from battle earlier!

Lu Tong Lan also took out several corpses, these were the ones sacrificed from Blue Phoenix Tribe.

In front of Hei Lou Lan, Jiao Huo started to cut the meat while Lu Tong Lan prepared the pot and flame.

Hei Lou Lan was stunned: “You want me to eat these people?!”

Jiao Huo cut the human flesh as he smiled: “No need to think of them as humans, just treat them as immortal materials. Normally speaking, when Gu Immortals die, as long as they are not immortal zombies, their dao marks will go back into their immortal apertures. But the Gu cultivators here are different, their immortal aperture will be digested by Myriad Beast Fusion Color Heaven before it falls in place, the totem killer moves on them are created by dao marks, they are fixed and contain the most value within the body.”

Saying so, Jiao Huo picked out a few pieces of meat from the pile and tossed them into the pot.

Lu Tong Lan stirred the meat soup while saying: “Hei Lou Lan, there aren’t many pieces of meat that suit you. But because they are humans after all, they are easier for you to absorb, it will help greatly in your totem’s growth!”

Hei Lou Lan turned pale as her voice changed slightly: “Is the act of eating people popularized in this Myriad Beast Fusion Color Heaven?”

Lu Tong Lan looked at the human meat soup in the pot as she said plainly: “Of course not. Even though eating people can help the growth of totems, it is still a demonic act. Publicly eating your tribesmen means you are a demonic path member, you will face judgment. That is why we brought you here secretly to hide from the rest. You have the sacred physique, but if you are found to be eating people, your status will be lost. There is no helping it, we have little time, to raise your strength to the limit, eating humans is the best way.”

“It’s cooked, go ahead and eat.”

Lu Tong Lan served the soup as Hei Lou Lan received it with a numb expression.

The human meat soup was far more delicious than all the food she had been eating previously. But after her first mouthful, Hei Lou Lan started to vomit intensely.

Lu Tong Lan and Jiao Huo looked at her calmly.

Hei Lou Lan vomited until even her gastric acid came out, she asked the two: “Have you eaten human flesh as well?”

Lu Tong Lan shook her head, but Jiao Huo nodded and said: “I was the first to arrive, after some time, my identity as an outsider was exposed and I got hunted down. All of my rations were consumed, I fell into desperation and had to eat people to raise the power of my totem killer move. Relying on that, I managed to survive and change my identity, eventually becoming the current Fire Blend Tribe Leader.”

Lu Tong Lan said with a calm tone: “Hei Lou Lan, you can choose not to eat it. We will not force you to do this, we are only trying to complete master’s tasks to the best of our abilities. I have not eaten human flesh before, I can understand why you reject it. This is only a method to become stronger, you can also eat other ingredients to help your totem grow, it will only take more time.”

“It will take more time?” Hei Lou Lan’s ears twitched.

She smiled bitterly as she muttered to herself: “The difference between me and him is already so large like a heavenly chasm, if I do not make good use of my time, how can I ever surpass him? If it were him in this situation, would he choose to eat the human meat?”

The answer was obvious!

“I’ll eat it.” Hei Lou Lan had a solemn expression as she came to the pot.

She drank the soup with huge gulps, she ate the meat in large mouthfuls!

Lu Tong Lan’s expression changed while Jiao Huo nodded slightly.

Such a person… it was no wonder their lord had such a high evaluation regarding her!

Chapter 2114 - Hei Lou Lan, You Are Too Ugly

Chapter 2114 Hei Lou Lan, You Are Too Ugly

Myriad Beast Fusion Color Heaven.The myriad tribes were gathered on Moon Field Slope.

“The Myriad Tribes Ceremony is held here?” Hei Lou Lan looked at the barren land and expressed her disappointment.

Every Myriad Tribes Ceremony was held at Moon Field Slope.

But in Hei Lou Lan’s opinion, this place was empty and desolate, there was yellow sand everywhere, nothing else was in sight. When wind blew, sand would stir and move in the air visibly.

“The Myriad Tribes Ceremony is different from the Thousand Tribes Ceremony, it is a grand event that involves the entire Myriad Beast Fusion Color Heaven, held once every ten thousand years. This is my first time taking part in it too.” Blue Phoenix Tribe Leader, one of the Eight Extremities, Desolate Extremity Lu Tong Lan, replied.

Behind them were the Blue Phoenix Tribe members.

Half a year ago, there was an intense fight between Blue Phoenix Tribe and Fire Blend Tribe, the result was that Blue Phoenix Tribe lost many Gu Immortal elders. But as a result, Blue Phoenix Tribe Leader gained a deeper control of the entire tribe.

"Blue Phoenix Tribe Leader, Sacred Child!"

"This is the Sacred Child?"

"Hahaha, I've heard that Blue Phoenix Tribe produced a Sacred Child, this is making us envious."

Entering Moon Field Slope, Lu Tong Lan met a few familiar faces. These people were either famous experts, tribe leaders, or elders, they had high authority and status.

Hei Lou Lan's reputation had already spread recently, her identity as a Sacred Child was too eye-catching.

"Hmph!" A cold grunt could be heard as Fire Blend Tribe Leader stared at Blue Phoenix Tribe Leader, Hei Lou Lan, and the rest with a furious gaze.

Around him, there was also a group of tribe leaders and elders.

"Blue Phoenix Tribe Leader, you came too slowly, are you afraid?" Jiao Huo asked arrogantly.

Lu Tong Lan immediately retaliated with a cold laugh: "Even if I am afraid, it will not be because of you. What fear can you create?"

"Tribe leaders, the Myriad Tribes Ceremony is about to begin, if anyone fights, they will be the enemy of the myriad tribes, we will use them as the ceremonial tribute." The elder of a large tribe saw this situation and came over.

Immediately after, the elder said to Jiao Huo: "Fire Blend Tribe Leader, why are you still here? My tribe leader has already held a banquet, you cannot be late."

Jiao Huo snorted coldly, leaving some words for Lu Tong Lan: "I'll let you off for now."

Saying so, he led the people around him and left.

"Fire Blend Tribe Leader, this guy…" After he left, the tribe leaders around Lu Tong Lan spoke out.

"Blue Phoenix Tribe Leader, even though Fire Blend Tribe Leader lost to you half a year ago and his strength fell greatly, you cannot be careless, he has already gone over to Yellow Bell Tribe."

"Yellow Bell Tribe is a super tribe, not just its tribe leader but even the first elder have rank eight cultivation level!"

These experts spoke one after another, detailing the information of Fire Blend Tribe Leader.

Hei Lou Lan listened without making a sound, gaining a deeper understanding of Myriad Beast Fusion Color Heaven's situation.

"The situation here is not too different from the five regions, the weaker forces still have to join larger forces. Lu Tong Lan and Jiao Huo are two of the Eight Extremities, even when they cultivate in here and use totem killer moves, they are still superior to others, being experts among rank sevens. Thus, a group of people gathered around them."

"But the truly top tier forces are still existences like Yellow Bell Tribe. It seems that Jiao Huo's plan succeeded, he made use of his tribe's weakness as an excuse to get close to Yellow Bell Tribe."

"Who could ever imagine that these two irreconcilable enemies were actually the closest allies in this world?"

Hei Lou Lan felt deep admiration towards these two people and their methods.

Days later, the Myriad Tribes Ceremony began.

"In the name of Great God Reckless Savage, Purple Gold Tribe offers thirty golden sand carps as tribute!"

"In the name of Great God Reckless Savage, Ice lake Tribe offers three fetus lions as tribute!"

"In the name of Great God Reckless Savage, Yellow Bell Tribe offers a vast heavenly sparrow group, ten sight plundering vines, and one outsider as tribute!"

At the central field of all the tribes, they took turns to slaughter and contribute their sacrificial tokens.

Some tribes were weak, they only contributed desolate beasts. Some tribes that were slightly inferior to Blue Phoenix Tribe offered ancient desolate beasts instead.

As for the strongest forces like Yellow Bell Tribe, they offered a large amount of ancient desolate beasts and plants, or even several immemorial desolate beasts and plants.

From time to time, outsiders would be captured and brought here to be killed in public view.

These outsiders were all Gu Immortals with at least rank seven cultivation level. The outsiders that Yellow Bell Tribe executed were even rank eight Gu Immortals!

“If these things were given to me as food, my totem would grow by a large amount.” Hei Lou Lan felt it was a pity.

Be it desolate beasts or Gu Immortal corpses, once they landed on the yellow soil, they would melt like candles, absorbed into the earth gradually.

It was as if this ground was a silent beast devouring all of the sacrifices without making a sound.

“This Moon Field Slope contains a huge secret, it is definitely not so simple!” Hei Lou Lan thought, she watched as the sacrifices sank into the yellow earth ground, the soil that was dyed red slowly returned to its yellow color.

No matter what cultivation level the outsiders have, each time they were sacrificed, the myriad tribes would cheer.

The cheers were loud like tsunamis or earthquakes, it was truly stunning.

Myriad Beast Fusion Color Heaven had existed for so many years, rumors had definitely spread. Even Immortal Zombie Giant Sun had sent people in regularly, others went in as well.

“Good, kill them all! These otherworldly demons deserve death!”

“In historical records, each time the Myriad Tribes Ceremony is held, these otherworldly demons will appear.”

“Let’s kill all of these outsiders, how dare they invade our world!”

Hei Lou Lan listened to their discussions while feeling deep and strange emotions surging internally.

The inhabitants of Myriad Beast Fusion Color Heaven saw this grotto-heaven as the whole world, they treated outsiders as otherworldly demons, not knowing that the outside world was even larger!

This made Hei Lou Lan think of City Well in u003cu003cThe Legends of Ren Zuu003eu003e, as well as the minimen living inside it.

The sacrificial ceremony lasted for a day, other than the super tribes who were allowed to openly hold their ceremony at the central field, the other tribes could only do their sacrificial ceremonies at their own camps.

On the night of the ceremony, there was a large bonfire celebration.

Leather drums made stunning noises as tens of thousands of bonfires were lit, countless people who wore beast skin clothings and feathered accessories danced around their bonfires as they laughed, danced, sang, and enjoyed themselves thoroughly.

Many men and women were attracted to each other, they held each other’s hands and left the bonfire, returning to their own tents, away from the laughter and noise outside, to engage in the most intense and enjoyable ritual on their beds.

Of course, some approached Hei Lou Lan too.

“This is the Myriad Tribes Ceremony, the most sacred moment of all. Lady Sacred Child, we are a match made in heaven, we will produce the most outstanding offspring.” The son of a tribe leader brought a large amount of immortal materials and approached Hei Lou Lan.

This young man belonged to a super tribe, on the same level as

Yellow Bell Tribe. His father was the tribe leader, a rank eight Gu Immortal, while he himself was rank six.

Hei Lou Lan had an ugly expression, she rejected him on the spot.

The young man laughed instead: “Great, I didn’t want to get close to you anyway, you are too ugly. But father gave me orders I could not defy, I had to come here. Hopefully, we never meet again!”

Other than the young man, an elderly rank eight expert also came to her.

He brought a large amount of extremely valuable immortal materials.

“With these immortal materials, Sacred Child, your totem will reach greater success!” The elderly rank eight Gu Immortal spoke: “Even though you are ugly, I am old and still do not have a son, we can cooperate and achieve a win-win status.”

Hei Lou Lan had a cold expression and rejected him as well.

The old rank eight Gu Immortal shook his head and sighed before leaving: “Sacred Child, you are still too young, after missing this opportunity, it might never come to you again. Not everyone can accept your ugly appearance, only people like me who have already gone past that stage can ignore the opinions of everyone else.”

Hei Lou Lan almost screamed at him to scram.

Even though she did not care about her appearance, she was still a great beauty at heart.

Her parents were both extremely good looking, she inherited their good genes and was beautiful enough to be a fairy of Northern Plains.

But within Myriad Beast Fusion Color Heaven, the concept of beauty differed greatly from the outside world.

The inhabitants here worshiped muscles, skin color should not be pale or smooth, they had to be dark and rough, giving people a sense of strength and power.

Thus, in this place, Hei Lou Lan was an ugly woman rarely seen in a hundred years.

The first time anyone sees Hei Lou Lan, they would subconsciously think: It was no wonder Blue Phoenix Tribe Leader abandoned this daughter in the past, she is simply too ugly! But possessing the sacred physique despite the ugliness, heaven is truly balanced and impartial.

On this night, Hei Lou Lan was pestered repeatedly until daybreak.

The Myriad Tribes Competition started!

At the area in front of every tribe, there was a blank space.

It was the field for their competition.

“I, Blue Phoenix Tribe Leader, challenge Stardust Tribe Leader by betting a divine peacock feather.” Lu Tong Lan brought Hei Lou Lan to the area of Stardust Tribe.

She was challenging the tribe for Hei Lou Lan.

“It seems that Blue Phoenix Tribe Leader is after that white thread tendon of the five emperor eel.” Stardust Tribe Leader smiled bitterly as he walked into the empty space.

In the Myriad Tribes Ceremony, a challenge could not be rejected.

“Please start.” Lu Tong Lan instilled immortal essence, her blue phoenix totem shined in bright light, turning solid and flying towards Stardust Tribe Leader.

Stardust Tribe Leader gritted his teeth, shouting as his totem flew into the sky, turning into a single-horned mountain goat.

The single-horned mountain goat crashed towards the blue phoenix, creating a huge cloud of stardust.

The blue phoenix dodged as it chirped, spitting out a torrent of blue flames.

The blue flames were extremely hot, the single-horned mountain goat was swept by the flames and got encircled, it tried to break out several times.

Each time the single-horned mountain goat tried to act, the blue phoenix would intercept and force it back.

“Lu Tong Lan definitely has a stronger totem, but the main reason for this situation is the difference in combat attainment of the two tribe leaders.” Hei Lou Lan watched at the side and realized.

“As expected of Blue Phoenix Tribe Leader, sigh, I admit defeat.” Not long after, Stardust Tribe Leader said.

He needed to preserve his strength, the Myriad Tribes Ceremony had just started. If he got injured and could not fight anymore, more people would challenge him and cause him to lose more immortal materials.

Lu Tong Lan stopped immediately.

Stardust Tribe Leader arranged for the white thread tendon of the five emperor eel to be given to the winner.

Both sides did not go overboard.

“Stardust Tribe Leader, if you encounter any difficulties in the future, you can send a letter to my Blue Phoenix Tribe. If it is a trivial matter, we will definitely help you.” Lu Tong Lan said before leaving.

Stardust Tribe Leader’s expression soothed.

Even though one could not reject challenges in the Myriad Tribes Ceremony, they could invite others to help them out. This was also why many weaker forces chose to join or side with super forces of their own accord.

Chapter 2115 - Lou Lan Fights a Predicamen

Chapter 2115 Lou Lan Fights a Predicamen

With the full support of Desolate Extremity Lu Tong Lan, Hei Lou Lan started to devour a large amount of immortal materials again.After digesting them, her totem finally reached greater success!

“Good, your dark capital strength tiger totem has formed completely. With just this move, you are a peak expert among rank sevens, even in the outside world of the five regions.” Lu Tong Lan was very happy: “Now, if you are interested, you can give it a go.”

The Myriad Tribes Ceremony had reached a cruel stage of the competition.

Every day, a large number of tribes were defeated, their experts got injured, and they lost many resources in their inventories. There were even those who went after their enemies, they did not bet on immortal materials but a person’s life instead!

What made Hei Lou Lan feel a chill inside was that any Gu Immortal who died during the Myriad Tribes Ceremony would be sacrificed on the spot, merging into the yellow soil land.

Blue Phoenix Tribe was still in a good state.

Because of Hei Lou Lan’s identity as a Sacred Child, as long as she was alive, when she reaches rank eight, the entire Blue Phoenix Tribe would be elevated to the Sacred Tribe, they would have high authority.

Thus, almost nobody provoked Blue Phoenix Tribe.

Even if some people felt jealousy and hatred, wanting to attack Hei Lou Lan before she grew stronger, they would be filled with caution, they would not attack the Sacred Child during this important event, it was disrespectful to Great God Reckless Savage after all!

During the day, the myriad tribes engaged in continuous combat. At night, countless tribe leaders and elders conversed in secret, forming alliances while working and scheming together.

Lu Tong Lan and Jiao Huo were also secretly in contact.

Anyone who wanted to target Blue Phoenix Tribe might likely contact Fire Blend Tribe, the opposite was also true.

Blue Phoenix Tribe, which possessed a Sacred Child, attracted a lot of jealousy, even including those people who were friendly to Lu Tong Lan normally!

Fire Blend Tribe did not have a good time either, they lost a good number of elders half a year ago, they became weaker and had to join Yellow Bell Tribe as a subsidiary force.

But Yellow Bell Tribe had enemies too.

All of the experts continued to fight and kill.

But thankfully, because only totems could be used in battle, the death toll was much lower.

In normal situations, other killer moves would be used in a battle of life and death. Totems were mostly trump cards, a good number of non-totem killer moves were also held as trump cards.

Hei Lou Lan gained a lot of insight these few days.

She saw all sorts of totems, she recognized many outstanding experts.

Her totem had already reached greater success, the path ahead of her was to continue eating with the dark capital strength tiger as the foundation, to fuse with other dao marks and gradually turn it into a totem that suited Hei Lou Lan specifically.

But there was another path, she could construct a second or third totem.

Experts who had many totems had a larger range of methods, but because their efforts were split, the quality of their totems were lower as well.

By investing the same effort and resources, cultivating one totem was naturally stronger.

As for which route to take, Hei Lou Lan was still thinking about it: "In historical records, Reckless Savage Demon Venerable had countless totems, each one was extremely strong. They had at least rank eight battle strength, some were even at pseudo venerable battle strength. It seems that Reckless Savage Demon Venerable took the second path."

As days passed, the situation of the myriad tribes changed rapidly every day.

Initially, those normal tribes with only Gu Masters started to lose and assimilate into each other rapidly. But this situation actually extended to the super forces as well, eventually, even a super force like Yellow Bell Tribe showed signs of downfall!

When three rank eight Gu Immortals died on Moon Field Slope, this yellow soil land started to emit a faint yellow light.

In this yellow light, a road slowly appeared before them.

"Myriad Life Road has appeared!"

"Huff… the myriad tribes challenge has finally ended."

"Only publicly recognized experts can enter the Myriad Life Road and find the immortal opportunities left behind by Great God Reckless Savage!"

Hei Lou Lan had some realization too: “So all the sacrifices are meant to open up this Myriad Life Road.”

As the one with the sacred physique, she did not need to be tested, she was qualified to enter the Myriad Life Road immediately.

After the tribes discussed among themselves, they chose eighty-eight people.

There were eleven people of each respective rank.

Among the tribes, there were no rank nine Gu cultivators, thus the maximum number was only eighty-eight.

For some reason, this number struck a chord with Hei Lou Lan.

Under countless envious gazes, eighty-eight people stepped onto the Myriad Life Road.

From the outside, the Myriad Life Road looked like an illusory image. But when Hei Lou Lan and the rest stepped into it, they felt a completely different sensation.

“It feels like there is really a road, I can step on it firmly.” Hei Lou Lan walked for over ten steps, her expression changed gradually.

She was accompanied by Lu Tong Lan.

Not far away behind her, there was Jiao Huo.

These two were part of the Eight Extremities after all, they had successfully emerged from the competition and became one of the eighty-eight chosen people.

“Walking on this Myriad Life Road, every step expends our strength, will, and even immortal essence.” Hei Lou Lan said.

Lu Tong Lan added: “More accurately speaking, our foundation and strength are depleted at a certain rate proportionately.”

There was fairness for everyone walking on this road, they experienced the same difficulty.

Gu Immortals were stronger than Gu Masters, but the difficulty level for Gu Masters was decided according to their own strength.

This caused many Gu Masters to move ahead of the Gu Immortals instead.

“I found a Gu worm, they are crawling on the ground, once we pick them up, they can be instantly refined!”

“Quickly look, there are so many food ingredients, this is worth a fortune.”

Many people shouted and cheered, they quickly gained some plentiful rewards.

The myriad tribes outside could not see this scene, they could only see eighty-eight figures that shrunk to the size of black dots as they became concealed by the heavenly road in the sky.

Hei Lou Lan observed closely and soon found something strange.

“The heavenly road is uneven, the slope is upwards at times and downwards at times. When going up, there will be Gu worms and Gu materials, when going down, even though there are no rewards, we will expend less of our strength.” Hei Lou Lan analyzed, suddenly gasping in shock: “Strange, this feels like something depicted in u003cu003cThe Legends of Ren Zuu003eu003e!”

She quickly looked at Lu Tong Lan as the latter smiled: “You are right, this is Upslope Road and Downslope Road.”

Hei Lou Lan could not help but shake internally!

Her eyes shined with bright light: “This means to say, I can obtain the legendary ability Gu and effort Gu here?”

Lu Tong Lan replied: “That will depend on your fortune. If these Gu worm really exist here, I am sure they will be near the end of the heavenly road.”

Hei Lou Lan gritted her teeth as she made up her mind: “This is a fortuitous encounter that I cannot let go of! In history, Gu worms that are mentioned in u003cu003cThe Legends of Ren Zuu003eu003e are all top tier Gu worms, they either have terrifying strength or incredible abilities. Ancestor Giant Sun was right, I need to make the best of this supreme opportunity to have a chance of surpassing that guy, Fang Yuan!"

Hei Lou Lan started to move ahead.

Lu Tong Lan instructed her: "Don't take the Downslope Road, try to walk on the Upslope Road. This is the guidance of our lord."

Hei Lou Lan was a little bewildered.

Normally speaking, the Downslope Road had a small expenditure on the person, it was most logical to walk on it. Only until the second half of the heavenly road should one start walking on the Upslope Road.

But Immortal Zombie Giant Sun's advice was the opposite.

Hei Lou Lan hesitated for a moment but decided to trust Immortal Zombie Giant Sun.

She and Lu Tong Lan walked together, trying to go on the Upslope Road as much as they could.

They found a lot of Gu worms and materials while walking on the Upslope Road, yet most were just mortal Gu and materials.

Not long after, they started to find immortal materials. As for the Gu Immortals who traveled the same distance as them, because they walked on the Downslope Road quite often, their rewards were fewer and also kept within the range of mortal materials.

Hei Lou Lan realized at once: "The heavenly road does not calculate distance traveled but the quality of the road traveled instead. It does not split into the first or second half, it only sees if we are giving it our full effort when we walk on the road. By putting in my full effort, I have a chance of making desirable gains. But if I slack off and take the easy path, I might consume all my strength without gaining anything significant."

Lu Tong Lan and Hei Lou Lan continued ahead.

When they found the first rank six Immortal Gu, the first Predicament also appeared.

Predicaments had all sorts of shapes and sizes, they were translucent and had various colors.

The Predicament in Hei Lou Lan's path was light brown in color, it resembled a raccoon with the size of a mountain, blocking the heavenly road.

"Predicament, a wild beast recorded in u003cu003cThe Legends of Ren Zuu003eu003e. It is extinct within the five regions, to think that it still exists here. But since this is the heavenly road, there is nothing strange about it."

Hei Lou Lan took in a deep breath, working with Lu Tong Lan to attack the Predicament.

The Predicament roared as it charged towards Hei Lou Lan and Lu Tong Lan.

The two of them felt their vision blurring and changing, they arrived in a light brown secluded space.

"We are inside the Predicament, we were eaten by it." Lu Tong Lan immediately said.

Predicaments were very special entities, rumor had it that the first person who created a battlefield killer move took inspiration from researching the Predicaments.

Each Predicament could also be treated as a natural battlefield killer move.

Within the Predicament, calamities and tribulations formed and descended.

Lu Tong Lan took the lead: "I will block the calamities and tribulations, Hei Lou Lan, you will break out of the Predicament!"

Hei Lou Lan was stunned: “What should I do?”

“You have the Great Strength True Martial Physique, according to the records of u003cu003cThe Legends of Ren Zuu003eu003e, you are a counter to these Predicaments! I do not know what you need to do, but just go ahead and try. Remember, you cannot spend too much time, the tribulations within the Predicament are unceasing!” Lu Tong Lan instructed.

Hei Lou Lan gritted her teeth, activating her strength path killer moves and attacking the place randomly.

A moment later, joy flashed on her face as she felt a movement in the space.

The tribulations became fiercer.

But Lu Tong Lan was very happy: “Continue with that, this Predicament is already staking its life to fight!”

Hei Lou Lan suddenly thought: She had the Great Strength True Martial Physique, but others did not. What could they do if they faced a Predicament?

“Dark capital strength tiger, come out!” Hei Lou Lan willed as she expended a large amount of rank seven immortal essence.

Roar!

With a surging black light, the huge black tiger condensed into solid form and charged ahead.

With a loud sound, a huge hole was formed.

“Let’s go!” Hei Lou Lan and Lu Tong Lan flew out of the hole together, returning to the outside world.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2116 - Fortitude Gu

2116 Fortitude Gu

The Predicament growled, clenching its body at the area of the injury.

The dark capital strength tiger totem created a huge hole and caused it to weaken greatly.

Its body continued to shrink like a burst balloon, until it was only half of its original size, before the hole closed up and mended itself.

After stabilizing its condition, the Predicament did not dare to attack Hei Lou Lan anymore, it screeched and ran away.

Hei Lou Lan did not chase it, she picked up the rank six Immortal Gu and continued on the road with Lu Tong Lan.

The two walked on the Upslope Road with all their effort, gaining greater and greater rewards.

A while later, they obtained two rank six Immortal Gu and one rank seven Immortal Gu.

Their encounters soon alerted the others, they started to use their full strength to walk on the Upslope Road.

Gradually, some expended all their strength and fell from the heavenly road, crashing onto the yellow land of the Moon Field Slope.

Some encountered the Predicaments but did not manage to break out, dying inside. There were some who defeated their Predicaments but lost too much strength, they had gloomy expressions.

Predicaments were a mystical type of wild beasts in essence, one's battle strength had to be greatly exceeding their endurance limit for them to lose. Only strength path methods had greater effect.

Hei Lou Lan felt more difficulty as she walked.

After defeating two more Predicaments, she found that from a total of eighty-eight people, only thirty or so were left.

"I am starting to lose my ability to continue, a lot of my strength has been depleted, while the Predicaments that show up are getting stronger. My remaining battle strength is only enough for one more Predicament." Hei Lou Lan gritted her teeth, feeling unresigned.

"Don't worry, I have a way, let's continue." Lu Tong Lan patted Hei Lou Lan's shoulder with an optimistic attitude.

After encountering another Predicament, Lu Tong Lan used her blue phoenix totem and worked with the dark capital strength tiger to defeat the Predicament.

"Be careful, don't let it escape!" This time, Lu Tong Lan shouted and acted in time, not allowing the Predicament to escape as they killed it successfully.

"Eat it." Lu Tong Lan cut the Predicament's flesh and gave Hei Lou Lan a piece.

Hei Lou Lan had read u003cu003cThe Legends of Ren Zuu003eu003e before, she understood something.

Each piece of the Predicament's meat that she ate, she felt her strength returned by a portion. After she and Lu Tong Lan devoured the entire Predicament, her strength had mostly recovered.

But this way, the method was exposed.

Many Gu cultivators saw this and started to mimic them.

But a portion of the Gu cultivators were not surprised, they knew about this long ago.

“You cannot overeat the Predicament’s flesh, otherwise, your heart will burn and your mind will collapse.” Lu Tong Lan sighed: “Let’s continue.”

After several more minutes, Jiao Huo chased up to Hei Lou Lan and Lu Tong Lan.

“What do you want?” Lu Tong Lan pretended to be unhappy as she called out.

Jiao Huo snorted coldly: “Only seven of us are left, we want to cooperate, of course. We can settle the score outside, but here, we need to look at the big picture!”

Lu Tong Lan was silent.

“Tribe leader Jiao Huo is right, the Predicaments are getting stronger, we need to work together.” Yellow Bell Tribe Leader also arrived, he looked at Hei Lou Lan and said: “Sacred Child, you are qualified to cooperate with us and fight together.”

Next, Yellow Bell Tribe Leader looked at the others: “Since everyone could reach this far, we are all qualified to work together. What do you think?”

Among the seven that were left, one was rank six, two were rank eight, while the last four were rank seven.

Everyone looked at each other, turning silent for a moment.

“Working together will allow us to get further indeed!”

“But how do we distribute Immortal Gu and immortal materials?” The rank six Gu Immortal asked the crucial question.

If they had to compete, he would definitely lose against them.

Yellow Bell Tribe Leader pondered and spoke: “There is no need to fight over Immortal Gu and immortal materials, we can take them in turns. As for the sequence, we can discuss it. If anyone ignores the rules, they will be everyone's enemy. The Myriad Life Road only appears once every ten thousand years, whoever disobeys the rules will face the pursuit of everyone!"

"Okay." The other rank eight Gu Immortal agreed.

But regarding the sequence, everyone argued for a long time.

The one who was placed first naturally would get the lowest value of resources. The one who got the later rewards would gain greater value. But who had the confidence to last until the end?

Right now, everyone was near their limit, otherwise, they would not have cooperated. If their position was later and got eliminated before they could gain the rewards, it would be a huge loss!

Everyone thought about it for a while before deciding the sequence and continuing on.

After defeating two Predicaments, the first rank eight Immortal Gu appeared!

According to the sequence, it belonged to that rank six Gu Immortal.

Under everyone's gaze, the rank six Gu Immortal collected the Immortal Gu with trepidation.

The two rank eight Gu Immortals did not snatch it, their turn was later, this rank six Gu Immortal also had a decent status, his father was a famous rank eight expert.

With the appearance of a rank eight Immortal Gu, the group of seven became quite tense.

Moving along another segment of the Upslope Road, there were no Predicaments blocking their way, but the group found a dragon horn grass.

Dragon horn grass was an immemorial desolate plant, it was shaped like a coral, similar to a dragon horn, every segment was the length of a finger, it would grow by one segment every month.

According to the sequence, it was Jiao Huo’s turn now.

Jiao Huo collected the dragon horn grass while feeling helpless internally, he wanted an Immortal Gu, Longevity Heaven did not lack such immortal material resources.

“Everyone, I can’t continue. I’m really sorry, please understand, I am not trying to leave after getting my reward!” After walking for some time, the rank six Gu Immortal said with a pale expression and shaking body.

Yellow Bell Tribe Leader nodded: “Go back, at this rate, you will die of exhaustion.”

The rank six Gu Immortal bowed deeply and fell towards the ground.

While in the air, he fell unconscious, luckily, there were people waiting for him at the ground.

After the rank six Gu Immortal left, the trend started as people also reached their limits. First was the other rank eight Gu Immortal, followed by Lu Tong Lan.

That rank eight Gu Immortal had not reached his turn yet before getting eliminated, he had an ugly expression when he left.

Lu Tong Lan was also at her limit, she instructed Hei Lou Lan to be careful before leaving.

Only four were left, they were Hei Lou Lan, Jiao Huo, Yellow Bell Tribe Leader, and a young rank seven Gu Immortal.

“What Gu is this?” Everyone’s eyes lit up.

Everyone saw an extraordinary rank eight Immortal Gu, it looked like an ant with the size of an adult’s fist, it emitted a rainbow colored light.

“This is quantity change Gu!” Yellow Bell Tribe Leader laughed heartily, it was his turn now.

With this Immortal Gu, he could make the target go from one to ten,

ten to a hundred, increasingly greatly in quantity. Of course, the immortal essence expenditure was also raised accordingly. Some targets could not be multiplied, for example, any Immortal Gu.

Of course, this Immortal Gu could be used in combat as well.

For example, if the enemy shot out a torrent of flames, quantity change Gu could reduce the number of flames and weaken the enemy's offenses rapidly.

However, they had to defeat this Predicament in order to get the Immortal Gu.

After an intense battle, everyone won and shared the meat together.

Yellow Bell Tribe Leader was the happiest, not only did he get a top tier Immortal Gu, his strength also recovered to an extent.

Everyone continued on their way.

A Predicament blocked them again, but there was nothing on the ground.

One could not turn back on the heavenly road, they were forced to engage in a tough battle, killing the Predicament and eating its flesh.

Everyone recovered some more strength.

Walking on the Upslope Road, a rank eight Immortal Gu appeared.

It was a rhinoceros beetle that resembled an ingot of steel, it was thickly armored and stoutly built.

"This is actually… fortitude Gu!!"

"Fortitude Gu, did I see wrongly?'

"It really is fortitude Gu, this is an Immortal Gu recorded in u003cu003cThe Legends of Ren Zuu003eu003e!"

Everyone was shocked as they looked towards the rank seven Gu Immortal. According to the sequence, it was his turn.

This Gu Immortal was really the greatest dark horse in this Myriad Tribes Ceremony. His entire body was shaking from excitement now!

After an intense battle, the Predicament shouted pitifully and fell on the ground.

Everyone split the meat while the rank seven Gu Immortal took fortitude Gu.

“This trip was worth it, it was worth it!” The rank seven Gu Immortal muttered to himself, feeling excited.

Yellow Bell Tribe Leader spoke to recruit him.

“I’ll consider it.” The rank seven Gu Immortal rejected immediately, Yellow Bell Tribe Leader frowned before relaxing his expression immediately.

“This person will not have a good time in the future.” Hei Lou Lan saw this but did not expose it. The rank seven Gu Immortal’s pride had swelled up, he was disregarding Yellow Bell Tribe Leader, thinking he had immense value himself.

But it was not strange, Hei Lou Lan knew that it was obvious: In the future, many people would go ahead and attempt to recruit this rank seven Gu Immortal. Maybe this rank seven Gu Immortal might get sick of hearing such words.

Everyone set off again.

Predicaments blocked the way, but there were no Immortal Gu or immortal materials.

One could not backtrack on the heavenly road, they had to kill this Predicament.

But Jiao Huo rejected the Predicament’s flesh.

“I can’t eat it anymore, I am at my limit. If I eat any more, my heart will burn and I will die.” Jiao Huo sighed, looking at Hei Lou Lan deeply before leaving.

Only Hei Lou Lan, Yellow Bell Tribe Leader, and the rank seven Gu Immortal were left.

Hei Lou Lan had chosen her reward earlier, now that Jiao Huo was out, according to the sequence, it was Yellow Bell Tribe Leader's turn again.

But after several segments of road, they had no gains, they even met two Predicaments, after an intense battle, even though they gained some flesh, the recovery could not match the expenditure, their strength fell sharply.

"Don't be anxious or dejected. I've seen the pattern already, the further we go, the more the Predicaments and the fewer the Immortal Gu and immortal materials, but any rewards that show up are all top tier!" Yellow Bell Tribe Leader tried to raise the morale, he was the next beneficiary, he did not want his efforts to be wasted here.

Like what he said, they finally saw another rank eight Immortal Gu in the end.

This Immortal Gu was shaped like a spider but it was a long body and many compound eyes, shining in blue and red crystal lights, it seemed like a fusion of ruby and sapphire.

"Ability Gu! Another famous Immortal Gu from u003cu003cThe Legends of Ren Zuu003eu003e!" Hei Lou Lan was tongue-tied.

"This Immortal Gu is incredible, it is even better than my fortitude Gu." The rank seven Gu Immortal also gasped.

"Kill this Predicament, I'll stake my life to kill this Predicament!!" Yellow Bell Tribe Leader's eyes were red, he spoke while breathing roughly.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2117 - Ability Gu

2117 Ability Gu

The three of them charged towards the Predicament, this was truly a battle of life and death!

The three had insufficient strength left, while this Predicament was strong beyond their expectations.

Calamities and tribulations befell endlessly, the three immortals did their best and used their trump cards, they squeezed out every ounce of potential in them.

Hei Lou Lan's dark capital strength tiger totem was crippled, Yellow Bell Tribe Leader's golden bell totem was greatly damaged, the cost of repairing it would be huge. As for the rank seven Gu Immortal, he had rain eagle totem and thunder fish totem, they both lost their ability to fight, but thankfully, this rank seven Gu Immortal had a method to fuse the two damaged totems into the thunder rain fish eagle totem.

They avoided death narrowly!

After fifteen minutes of stalemate, the three immortals risked their lives and finally killed the Predicament.

Yellow Bell Tribe Leader was lying on the ground, he did not even have the strength to laugh, he could only cough: "Ability Gu is mine! You two are very skilled, regardless of whether you join my Yellow Bell Tribe, I will owe you both a favor. What are you doing!!!"

Suddenly, Yellow Bell Tribe Leader stared with wide eyes as he shouted in anger.

Because he saw that the rank seven Gu Immortal had secretly moved away and took the ability Gu on the ground.

“What else? I am snatching the Gu.” The rank seven Gu Immortal placed ability Gu into his immortal aperture right in front of Yellow Bell Tribe Leader.

Cough!

Yellow Bell Tribe Leader coughed out a mouthful of blood and fell unconscious, falling from the heavenly road.

Hei Lou Lan gritted her teeth in anger: “I was just a step away, damn it!”

She wanted to snatch ability Gu too, but it was a pity that her location after leaving the Predicament’s body was bad, she was the furthest person from the Immortal Gu.

Thus, that rank seven Gu Immortal succeeded.

The rank seven Gu Immortal smiled at Hei Lou Lan before falling from the sky.

“I do not have the strength to continue.” Hei Lou Lan sighed deeply, even though she had great gains in this trip, she did not obtain any top tier Immortal Gu.

Right when she was about to leave the place, she suddenly froze as her palm seemed to have touched something.

“It feels like… an invisible Gu worm?”

Hei Lou Lan looked at it with deep focus, because she had touched the Immortal Gu, she could sense this Gu worm’s strength path aura.

“An invisible rank eight Immortal Gu? What can it be? Don’t tell me…” Hei Lou Lan was extremely happy, she grabbed the mysterious Immortal Gu and left the heavenly road.

u003cu003cThe Legends of Ren Zuu003eu003e, chapter five, section thirty-four —

Legend says that Ren Zu encountered the greatest Predicament in his life, he ended up creating his seventh child, Great Strength True Martial, and was saved as a result.

Ren Zu and Great Strength True Martial started to travel together.

Great Strength True Martial asked: “Father, where are we going now?”

Ren Zu replied: “My son, you still do not know the situation, I will explain it to you. I originally wanted to save your brothers and sisters, but fate Gu arranged everything, not allowing us to have a reunion. Right now, we need to break free from fate’s control in order to be with our family again.”

After hearing the story, Great Strength True Martial could not help but shout in anger: “This fate Gu is too wicked.”

At the same time, strong Gu also shouted in his heart: “Experts hate restraints, especially fate.”

Ren Zu patted Great Strength True Martial’s head and consoled: “Don’t worry, I have already thought of a way. I will use self Gu to gain strength and wisdom, after, I will obtain freedom Gu and break free from fate Gu’s control. Now, let us go to a place called Qian Kun Crystal Wall, we will search for wisdom Gu there.”

Great Strength True Martial nodded: “Let us go there then.”

Ren Zu and Great Strength True Martial walked and walked, the road was uneven, there were many upslope and downslope roads.

Strong Gu encouraged Great Strength True Martial: “Oh human, walk on the Upslope Road, even though it is a harder journey, there are often good things there!”

Great Strength True Martial nodded: “Experts like to walk on the Upslope Road.”

Great Strength True Martial took great effort to walk up the Upslope Road, he looked around and called out: “There’s nothing here at all.”

“No, it is right by your feet, pick it up now.” Strong Gu instructed.

Great Strength True Martial squatted down, searching the ground with his hands, as expected, he found something hard, it was an invisible Gu.

“I found something good.” Great Strength True Martial laughed: “So it is effort Gu.”

Ren Zu found it strange: “My son, how did you find out its name? We can’t see what it looks like.”

Great Strength True Martial scratched his head: “The moment I obtained it, I saw effort Gu’s appearance. As for why I know this is effort Gu, well, every expert should know what effort is. This is natural, there is nothing strange about it.”

After all, you cannot see the effort of other people.

The pair of father and son set off again.

“This is great, now that I have effort Gu, it will help me greatly.” Great Strength True Martial walked as he looked at effort Gu, feeling very happy.

He continued to choose the Upslope Road.

Ren Zu asked curiously: “Is effort Gu really that amazing? Can it allow you to achieve success?”

Great Strength True Martial shook his head: “Effort might not necessarily lead to success, but effort will give you a result. Regardless of the result, whether you put in effort or not will show a difference.”

Ren Zu was very worried: “Oh son, you have just been born, don’t be deceived by the Gu. I had once been deceived by wisdom Gu. I see that you are covered in sweat and pant heavily each time you walk on the Upslope Road, I do not see effort Gu helping you at all. I’ve heard of such rumors too, effort Gu can sometimes lie to you.”

Great Strength True Martial shook his head as he wiped the sweat off his forehead: “Father, because you cannot see the effort I put in, you misunderstood things. You cannot understand the amount of effort I put in to walk this Upslope Road. Actually, the result of my effort is below my feet, every step, I move higher and further. There are many good things on the Upslope Road, humans cannot obtain them without effort.”

“Is that really the case?” Ren Zu was half convinced and suspicious.

Ren Zu and Great Strength True Martial continued on their journey.

Great Strength True Martial kept walking on the Upslope Road, he continued to move up higher, he obtained authority Gu and fortitude Gu.

In the later part of the road, he found humility Gu and forgiveness Gu as well.

These two Gu worms took the initiative to follow Great Strength True Martial.

Great Strength True Martial asked for the reason while they replied matter-of-factly: “Because humility (forgiveness) is the authority of an expert to begin with.”

Because Great Strength True Martial walked on the Upslope Road, an ability Gu suddenly appeared within him.

Great Strength True Martial held ability Gu as he said to Ren Zu: “Look father, this is the result of effort Gu. It awakened my potential, I have my own ability now!”

Ren Zu asked: “Then what is the use of this ability Gu?”

Great Strength True Martial shook his head: “I am not sure. People will only know their abilities and their strength after they use them. But it is definitely useful, it can last my entire lifetime.”

Ren Zu shook his head, he still felt that his son was deceived by the Gu.

Ren Zu and Great Strength True Martial continued walking, the situation on the road was getting worse.

Downslope Road was easier to walk on, but it was getting rarer, there were more and more segments of Upslope Road.

Not only so, more and more Predicaments appeared on the road.

“Isn’t there an easier road to walk on?” Ren Zu was helpless.

Cognition Gu flew towards Ren Zu: “Oh human, there is no other way. The more valuable thing you try to pursue, the more segments of the Upslope Road you need to walk on, and the more Predicaments you need to overcome.”

Ren Zu and Great Strength True Martial had to continue on their way.

Indeed, as cognition Gu had said, they encountered more and more Predicaments, their road was completely blocked.

Ren Zu said: “Don’t be afraid of the Predicaments, we still have our hope.”

“But hope alone cannot defeat the Predicament, at this time, you will need me.” Great Strength True Martial’s ability Gu spoke.

Great Strength True Martial used his ability, defeating many Predicaments.

Ren Zu sighed at long last: “My son, your ability Gu is too amazing, it can actually do this. It seems I have underestimated your effort and ability.”

Great Strength True Martial smiled: “Often, we humans do not lack abilities, we lack the opportunities to display them.”

Strong Gu shouted in his heart with great ambition: “Kill them all, let’s eat them all! That way, we can become even stronger.”

Great Strength True Martial killed many Predicaments, he started to eat the Predicaments’ head.

“So this is a bitter head? It is really bitter. But I can feel myself getting stronger.”

He started to eat the Predicament’s loss.

Great Strength True Martial immediately spat it out: “Experts do not like to swallow losses.”

He also ate the Predicament’s flesh.

Strong Gu got bigger, Great Strength True Martial also became more muscular than before.

Strong Gu was very satisfied about this change: “In this world, only by becoming stronger can one avoid getting bullied.”

Great Strength True Martial gave some of the meat to Ren Zu: “Oh father, eat something, you are too skinny.”

Ren Zu was so thin he looked like a rack of bones.

Eventually, Great Strength True Martial tossed ability Gu into the tribulation.

Ability Gu went through great hurdles and difficulties, but it got larger and stronger as well.

All sorts of tribulations and difficulties were prime opportunities to train one’s ability, to develop one’s ability, and to increase one’s ability.

…

Several days later, in Eastern Sea.

Fang Yuan looked at the two rank eight Immortal Gu in his hands, they were fortitude Gu and ability Gu!

“This time, my clone Zhan Bu Du did a great job, this is a great gain for us.” Fang Yuan was very happy internally.

It turned out that after the fate war, Fang Yuan sent Zhan Bu Du into

Myriad Beast Fusion Color Heaven immediately.

Fang Yuan knew about Myriad Beast Fusion Color Heaven long ago, there was information about it in the five hundred years of his previous life. Ma Hong Yun had once entered and walked on the heavenly road, obtaining fortitude Gu in the end.

Even though Myriad Beast Fusion Color Heaven was secluded, there were ways to sneak in. Otherwise, there would not be so many outsiders sacrificed during the Myriad Tribes Ceremony.

Before annexing Lang Ya Sect, Fang Yuan knew about Myriad Beast Fusion Color Heaven but did not have ways to enter.

But Lang Ya Sect could.

Lang Ya land spirit had once tried to recruit Chu Du, he even asked Fang Yuan to help in this matter. It was because Lang Ya land spirit had this method, he wanted to send Chu Du inside to explore and gain benefits.

The most popular paths in Myriad Beast Fusion Color Heaven were food path, strength path, and transformation path, among which, pure strength path cultivators were the most successful.

After annexing Lang Ya Sect, Fang Yuan gained control of this method.

He used it to send Zhan Bu Du inside.

And his gains were much larger than expected.

“Fortitude Gu is useful to me, ability Gu also has great prospects in the future. As for Hei Lou Lan, she went to Longevity Heaven and is receiving a lot of attention and help, it seems. It is a pity that Zhan Bu Du did not have the strength to kill her at that point in time.” Fang Yuan did not feel much pity about this.

Hei Lou Lan was not important, the key was Crazed Demon Cave and the impending conflict between venerables!

Chapter 2118 - Wisdom Path Great Grandmaster

2118 Wisdom Path Great Grandmaster

Inside the sovereign immortal aperture.

Meng Qiu Zhen was exploring another dream realm.

Deep in the mountains, Meng Qiu Zhen sat cross-legged on a cliff with a torrential waterfall below him.

“Immortal, immortal!” A young man was covered in injuries, he crawled towards Fang Yuan and begged him to take him in as a disciple.

“You want me to be your master?” Meng Qiu Zhen smiled while feeling surprised internally, he tried to decipher the rules of this dream realm.

In the past, Fang Yuan would need to test it himself, but now, Meng Qiu Zhen had the dream path Immortal Gu, Dream Butterfly!

He activated dream butterfly Immortal Gu secretly to investigate while stalling for time as he spoke: “You are a mere mortal, but since you are able to find me after so many hurdles, this means we are fated. I have three cultivation paths, I will impart you one of them.”

The young man was overjoyed, he kowtowed continuously on the hard ground, a dull sound was heard each time.

Meng Qiu Zhen said: “The first path is formation path, it emphasizes on…”

Meng Qiu Zhen continued to explain, he said the truth without any lies in his words.

The young man nodded in hesitation: “Lord immortal, even though formation path is very complex, I am willing to work hard!”

Meng Qiu Zhen shook his head, saying: “No hurry, my second path is strength path, it is powerful and direct, the advantage lies in…”

After Meng Qiu Zhen finished his words, the young man became very excited: “I want to learn strength path!”

Meng Qiu Zhen smiled again: “I have a third path, wisdom path. Strength path is very common but wisdom path is rare, it can benefit you immensely. Among which…”

After a lengthy description, the young man was overwhelmed with excitement: “Lord immortal, lord immortal! I am most willing to learn wisdom path, please teach me.”

At this time, dream butterfly Immortal Gu finished investigating the dream realm.

The dream realm was not small, it had eight scenes.

It turned out that the immortal had once unknowingly destroyed a mortal village, causing the death of the young man’s parents.

The young man became all alone, he suffered greatly in the mortal world, not knowing who his enemy was.

After much effort, he finally became the disciple of this immortal. He had great aptitude and had the Ten Extreme Physique, he was very suited for wisdom path cultivation.

When the young man found out that his enemy was his master, he started to exact revenge.

In the final scene, the master and disciple turned on each other, this was a difficult dream.

“No matter what I impart, this disciple will learn it completely and even innovate to surpass the master. Furthermore, he will cultivate wisdom path secondarily and have incredible wisdom path methods.”

“Thus, this first scene is the most important chance to weaken this disciple!” Meng Qiu Zhen realized internally.

Without dream butterfly Immortal Gu, he had to test it himself, he definitely could not pass with his first try, his soul would get injured.

Meng Qiu Zhen would need to recuperate, wasting time and resources. After that, he would need to restart and explore the dream realm again.

But with dream butterfly Immortal Gu, he had the initiative, he was not in such a passive spot.

Even though dream butterfly Immortal Gu could only investigate the situation, the value of information was simply priceless.

Looking at the young man, Meng Qiu Zhen thought about it and smiled: “Then I will impart you my wisdom path cultivation. This method was not created by me, but I modified it personally, I named it — Nine-nine Multiplication Table.”

“Nine-nine multiplication table?” The young man’s eyes shined, just from the name, he felt that it was grand and impressive, it had an immortal flair.

Meng Qiu Zhen continued to spout nonsense: “Nine is the perfect number, nine times nine represents the concept of countless and boundless, the multiplication method is the rule of all beings, the extreme profundity of the natural order, those who lack aptitude cannot comprehend it. Come, let me teach you the first killer move — One Times One is One!”

The young man held his breath, he listened attentively and muttered to himself: “One times one is one, one times one is one, one times one is one.”

Not long after, at the final scene.

“Master, this is my final…”

“Shut up! Don’t call me master, you traitorous disciple, I am not your master.”

“No, even so, I will call you my…”

“Shut up! I worked so hard to nurture you, I imparted my strongest method, the nine-nine multiplication table to you, but yet you repaid my kindness with enmity!”

“No, master. No matter how angry you are, it is a fact you killed my parents, there is no resolving that grudge. For the last time, I will call you my…”

Meng Qiu Zhen did not care, he directly used his killer move on his disciple.

The disciple was constantly interrupted, he could not call him ‘master’ for the last time.

Meng Qiu Zhen wanted to see this. Because he understood this disciple, who had created his own raging emotion killer move, it was incredible, it could use wisdom path to allow all sorts of emotions to surge in power. If he managed to say it, he would feel a sense of freedom, he would be able to use the killer move freely.

Once he activated the killer move raging emotion, he would gain a huge advantage in this dream realm, Meng Qiu Zhen would face great difficulty in trying to pass it.

The battle progressed like how Meng Qiu Zhen predicted, he kept attacking and did not give his disciple a chance to talk.

His disciple was constantly suppressed, without a choice, he had to give up on his strongest raging emotion killer move and use the nine-nine multiplication table method instead.

Immortal killer move — Eight Times Eight Is Eighty-Eight!

After a long time of fighting, his disciple finally used his killer move.

Cough!

He had just activated the killer move when it failed immediately, he suffered a backlash and became gravely injured.

“This killer move is wrong! Master, don’t tell me you…” The disciple looked at Meng Qiu Zhen in disbelief.

“Oh my foolish little disciple, I’ll tell you the real name of this killer move — Eight Times Eight Is Sixty-Six!” Meng Qiu Zhen snickered coldly as he attacked viciously[1].

The disciple lasted only a few rounds before his head was taken, he died with grievance.

Meanwhile, Fang Yuan’s main body was comprehending killer moves now.

Using Gu worms alone often had all sorts of demerits or side effects. To fix this or to reduce the side effects, Gu cultivators started to use multiple Gu worms together in cooperation.

Killer moves were naturally developed on this basis.

Killer moves involved the use of multiple Gu worms, among the three aspects of nurture, use, and refinement, they came under ‘use’.

When cultivators developed killer moves, they were surprised to find that natural killer moves existed in nature all along. From the bodies of desolate beasts or desolate plants, these cultivators found that they had many innate abilities, these abilities were all profound and mystical, like the upper extreme heavenly eagle’s ability to enter and exit blessed lands and grotto-heavens.

The upper extreme heavenly eagle had dense space path dao marks on its body, these dao marks were distributed in a certain pattern, following the rules of space path to grant it the ‘innate ability’ to enter and leave blessed lands and grotto-heavens.

Thus, the essence of killer moves was dao marks.

“In this aspect, totem killer moves are the closest to the original form of killer moves.” Fang Yuan praised internally.

Totem killer moves were developed in Myriad Beast Fusion Color Heaven, they did not exist elsewhere.

Totem killer moves had very high status, they could complement ordinary killer moves and battlefield killer moves, being on the same level as them.

With regard to using Gu, other than using single Gu worms, there were ordinary killer moves, battlefield killer moves, ancient battle formations, current generation Gu formations, as well as mortal and Immortal Gu Houses. But now, on this foundation, there was a new type — totem killer moves!

Compared to other ways of using Gu, totem killer moves had a clear advantage.

The most obvious one was that activating them was easy and quick, even a fool could control them. Totem killer moves needed very few thoughts, they were reliant on primeval essence or immortal essence instead. Unlike ordinary killer moves which needed to activate every single Gu worm, the processes were very different.

Secondly, totem killer moves were easy to assemble, the maintenance cost was also low. The Gu worms of ordinary killer moves needed constant feeding. The cultivator would also need a lot of time to find appropriate Gu worms. As for totem killer moves, they only needed the corresponding food ingredients. Gu materials were much easier to find than Gu worms!

The cost of feeding Gu worms was very high, but once totem killer moves were created, they would exist on the user’s body, not requiring further food. Of course, if they were damaged, they would need to be repaired. By then, the cultivator would need to eat the respective food ingredients.

Thirdly, totem killer moves were very easy to publicize, many people could use them at the same time. Also, totem killer moves were suited for all paths!

Of course, there were disadvantages as well.

For example, the cost of creating a totem was not low. Also, with the creation of a totem, it would greatly affect the Gu cultivator's future cultivation, after all, it contained dao marks. And finally, totems were powerful but they had fixed methods, they were easy to counter. This was quite similar to Gu Houses.

Fang Yuan thought about it, he felt that the totem killer moves had some similarity to beast strength phantoms.

"These Demon Venerables and Immortal Venerables have unimaginable talent. Even though Reckless Savage Demon Venerable's personality was quite unexpected, his scheming abilities are top notch."

Originally, Reckless Savage Demon Venerable's grotto-heaven only had strength path and transformation path dao marks.

But from what Fang Yuan learned from Old Eccentric Tian Nan's true inheritance, he used the beastman's method against them, fusing his own immortal aperture into the gluttonous demon frog's body.

This was simply akin to the action of a deity, it could not be described in plain words!

The gluttonous demon frog was a food path legendary immemorial beast, with it encompassing the immortal aperture, and along with Reckless Savage Demon Venerable's method, Myriad Beast Fusion Color Heaven started to develop a food path environment.

This food path environment was crucial!

It was because of the food path dao marks that Myriad Beast Fusion Color Heaven's cultivators could use refinement path methods to cook while having low food path attainment, creating the food that could allow them to cultivate totem killer moves.

In the outside world, without the help of a food path environment, Gu cultivators could not create such food so easily.

"This is actually food path cultivation!"

Fang Yuan thought about Southern Border's Paradise Earth true inheritance.

In this true inheritance, Paradise Earth Immortal Venerable developed food path, allowing tea recipes to become food path recipes. Using Gu materials to create tea, the cultivator could drink it to gain dao marks.

The essence of the totem killer moves in Myriad Beast Fusion Color Heaven was the same.

Gu cultivators could absorb the dao marks of Gu materials into their own bodies and create totem killer moves gradually. Totem killer moves were very suitable for their own cultivator, because during the process, their bodies would choose to absorb whatever it could absorb as nutrients.

“Hmm?” Fang Yuan’s expression changed slightly, his thoughts were interrupted for a moment.

“My wisdom path reached great grandmaster attainment level.” He could feel this change immediately, but his expression remained tranquil and peaceful.

[1] This is the author’s idea of a joke, possibly regarding readers talking about his mathematics skills.

Chapter 2119 - Li Xiao Bai“s Immortal Ascension

2119 Li Xiao Bai“s Immortal Ascension

Soon, Fang Yuan placed the matter of his wisdom path attainment level aside as he continued his comprehension.

“Be they Reckless Savage Demon Venerable or Paradise Earth Immortal Venerable, they have a deep understanding of food path. In this aspect, Reckless Savage Demon Venerable is inferior to Paradise Earth Immortal Venerable, he only made use of the gluttonous demon frog. But the way he used the food path environment to create the totem killer move archetype is truly too amazing.” Even Fang Yuan could not stint on the praise towards such a move.

If one truly cultivated totem killer moves purely, they would need to undergo continuous deductions.

But in Myriad Beast Fusion Color Heaven, Gu cultivators only had to devour food ingredients and use the food path environment to naturally select the most suitable nutrition by their bodies themselves, those dao marks would develop into all sorts of totems on their own.

This was like using food path to make up for any deficiency in wisdom path, allowing countless totem killer moves to be born.

As for the Gu materials that the Gu cultivators devoured, where did those come from?

They were naturally produced by Myriad Beast Fusion Color Heaven itself.

Myriad Beast Fusion Color Heaven had bountiful transformation path dao marks, there were many mutated beasts and plants here, they had mutated and developed forms that far surpassed the five regions in diversity.

The wild beasts or plants living in Myriad Beast Fusion Color Heaven were all unique existences in the grotto-heaven, they could not be found elsewhere.

When Gu cultivators devour the mutated Gu materials, their totems would also continue to change and elevate. From this perspective, the Gu cultivator was making use of Myriad Beast Fusion Color Heaven's natural development to allow the totem killer moves to develop as well. Eventually, they would produce stunning results.

Just what Zhan Bu Du heard when he lurked in there was that there were over nine thousand basic totems in Myriad Beast Fusion Color Heaven.

Dark capital strength tiger, rain eagle totem, thunder fish totem, and golden bell totem were just part of them. Not to mention that aside from these basic totems, there were also unique totems that belonged to certain individuals.

“These totem killer moves are not very helpful to me, but there is high reference value in all the recipes that exist here!”

Fang Yuan originally had a food path true inheritance, it came from Shadow Sect and was the original food path inheritance in the world. Not long ago, Fang Yuan also obtained Southern Border's Paradise Earth true inheritance, obtaining all sorts of food path killer moves, there were tea recipes that could increase the number of dao marks on a Gu cultivator's body. And now, Fang Yuan obtained all sorts of recipes to create totem killer moves.

Combining all of his accumulations, food path had developed to a certain degree, Fang Yuan was starting to see its true profundity and depth.

"All along, I thought that food path most excelled in feeding Gu and reducing the burden on the Gu cultivator. But the truth is, this is only one advantage of food path, the true power of food path is to help the Gu cultivator gain extra dao marks and raise their foundation!"

The advantage of food path was to sustain the livelihood of the Gu cultivator and Gu worms, while also using specific methods to make the target even stronger than before.

Fang Yuan had wisdom path great grandmaster attainment level, his wisdom path deductions were elevated to a new level. Thus, Fang Yuan could deduce all sorts of food path killer moves from just these recipes alone.

Food path had a huge difference compared to other paths, most food path killer moves were used on the user themselves.

Fang Yuan had a lot of immortal materials, if he expended them to form food path killer moves that were used on the sovereign immortal body, he would gain a vast number of dao marks!

Fang Yuan estimated: "If I compare the benefits, annexing grotto-heavens gives me the most dao marks, each time, I will gain millions of them. But now that the sovereign immortal aperture is reaching its peak capacity, the balance of the habitat is already close to toppling, if I continue with that, I will start to experience unfavorable losses instead."

"Using these food path killer moves to increase my dao marks might have small gains each time but with enough attempts, I can also accumulate a huge amount of dao marks."

"Additionally, to prepare for Crazed Demon Cave, I need to create some defensive food path methods against Spectral Soul Demon Venerable."

Spectral Soul's killer moves, bitter taste and swallow loss, left a huge impression on Fang Yuan.

He could not ignore them!

At the same time, because food path was not popularized, ordinary

Gu Immortals could not effectively defend against it. Thus, if Fang Yuan developed some food path offensive methods, there might be great results too.

Fang Yuan held expectations towards food path, but the extent was not big.

Because his enemies in Crazed Demon Cave were either Star Constellation Immortal Venerable or Spectral Soul Demon Venerable. The latter's proficiency at food path was definitely higher than Fang Yuan, while the former had wisdom path quasi-supreme grandmaster attainment, the former leader of Heavenly Court, how could she falter so easily against food path?

"The enemies are too strong, food path is only a minor method, it cannot be used on that stage. But development is still necessary, I need to have defense against it at least. When I fight against Spectral Soul again, I will not be disadvantaged in food path anymore."

Thinking of this, Fang Yuan gave his time path clone new missions to refine another batch of Immortal Gu.

During this period of time, the time path clone had been using Four Elements Square Regret Blood Refinement Pool to refine rank eight Immortal Gu without pausing.

A large number of Immortal Gu that Fang Yuan possessed had already been elevated to rank eight!

Four Elements Square Regret Blood Refinement Pool had a terrifying success rate for refining rank eight Immortal Gu. Together with his huge stock of immortal materials and rank eight Heavenly Essence Treasure Imperial Lotus' immortal essence, there was nothing that could stop Fang Yuan from refining rank eight Gu in bulk.

Most of his Immortal Gu were rank eight already.

The time path clone started to have free time, he refined some rank six or seven Immortal Gu as well.

Fang Yuan had a vast number of Immortal Gu recipes. These Immortal Gu recipes mostly came from Lang Ya Sect, while a portion came from his various inheritances. Even without Immortal Gu recipe, with Fang Yuan's increasingly powerful wisdom path methods and quasi-supreme grandmaster refinement path attainment level, he could also create his own with some casual deductions.

Earlier, the time path clone had already refined a batch of theft path Immortal Gu.

Most of these Immortal Gu were rank six, a few were elevated to rank seven.

Four Elements Square Regret Blood Refinement Pool could refine rank eight Immortal Gu in bulk, those rank six and seven Immortal Gu were simply too easy in comparison.

The only thing stopping Fang Yuan was the fact that Immortal Gu were unique.

In this world, Gu Immortals had to make immense preparations until they reached their limit to refine Immortal Gu, after all that hardship and difficulty, they might not even succeed. The success rate was just too low! If anyone found out that Fang Yuan was refining Gu like this,they would be in disbelief and shock.

The truth was, Four Elements Square Regret Blood Refinement Pool was something that surpassed the limits of any Gu Immortal's imagination!

As for the theft path Immortal Gu that he refined, Fang Yuan used them to reconstruct Thieves Den.

The previous Thieves Den Immortal Gu House had been used too many times, it was the original version made by Thieving Heaven Demon Venerable, it was no longer suited for Fang Yuan. Thus, Fang Yuan used it as the foundation to modify and make adjustments.

Even so, he was mainly focusing on repairing and replenishing lacking Gu worms, he made few modifications, after all, this Immortal Gu House came from Thieving Heaven Demon Venerable, be it structure or killer moves, it was close to being perfect. Fang Yuan could modify it because the eras had changed, new Gu worms were developed that suited Thieves Den even more.

Cooking Luck Pot, Thieves Den, and Peaceful Soil Heavy Mountain Fortress, these were the three main Immortal Gu Houses that Fang Yuan focused on.

With Fang Yuan's current refinement ability, he could definitely reconstruct Dragon Palace and Myriad Year Flying Warship.

But thinking about it, Fang Yuan wisely chose to give up on them.

These two Immortal Gu Houses had been used too many times, everyone knew about their information, they were also peak creations that had little room for modification.

If Fang Yuan rebuilt them and used them in battle, they would definitely be countered.

Ordinary enemies were still fine, but Crazed Demon Cave had Star Constellation Immortal Venerable and Spectral Soul Demon Venerable, there could even be Limitless Demon Venerable!

If Di Zang Sheng were still enslaved under Fang Yuan, there was still a bit of value in Dragon Palace. Unfortunately, Di Zang Sheng was sealed by Heavenly Court, if Fang Yuan attacked Heavenly Court for it, he would waste a lot of effort and time, Star Constellation Immortal Venerable would have more opportunities to make her moves.

"Rather than rebuilding Immortal Gu Houses, I should design new ones. And the new Immortal Gu Houses that I conceptualize should revolve around my combat system as well."

Qi Sea Ancestor had already been preparing his own combat system, Fang Yuan was also facing the same difficult question.

"Against venerables, I need to have an outstanding combat system. It is a pity that Duke Long is dead while Demon Immortal Qi Jue is sealed, without them as my grindstones, I will have a lack of experience in creating my combat system."

Fang Yuan had always been considering his own combat systems.

He actually wanted some people with equivalent battle strength to show up so that he could have the inspiration to make a mature combat system.

Currently, Fang Yuan's most mature combat systems were sword path and time path, he used them during the fate war. Now that he gained rank eight fortitude Gu and ability Gu, he might be able to create a combat system around strength path as well.

Bzzz bzzz bzzz....

Cooking Luck Pot started to vibrate.

"Oh?" Fang Yuan raised his head and observed his own luck as well as those of his clones.

Soon, his expression became quite peculiar.

On the surface of his silver-white pillar of light, many small grey clouds formed.

Fang Yuan observed them carefully, he soon found that these external clouds came from Li Xiao Bai.

The luck of other clones was tranquil, but Li Xiao Bai's luck was changing intensely.

Fang Yuan deduced internally: "So Li Xiao Bai is undergoing immortal ascension. Looking at how his luck is changing, he is going to have a small problem. But why does this problem involve my main body? And looking at this, it has a huge relationship with me!"

Profound Literature grotto-heaven.

Thunder rumbled and lightning flashed, the sky was covered in dark tribulation clouds.

Li Xiao Bai was dressed in white and he floated in the air, a thick cocoon of triple qi layers covered his entire body.

Li Xiao Bai was at the crucial moment of his immortal ascension!

“Xiao Bai, you must persevere.” Su Qi Han was very worried, she stared at him with a fixed gaze, at the person whom she loved dearly.

Boom.

A pale green lightning ball shot down from the dark clouds with a trail behind it, approaching Li Xiao Bai.

Su Qi Han shouted in shock, at the crucial moment, Li Xiao Bai used his killer move and created a poem wall that blocked the lightning ball.

“This Li Xiao Bai is actually able to balance the three qi while blocking the tribulation with relative ease!” Far away, a young-looking man stared with eerie eyes, gritting his teeth.

“If you really become an immortal, then I, Du Zhi Xiao, will never be able to make it big. Oh Li Xiao Bai, blame yourself for being too outstanding. Being born in the same era as you is truly the misfortune of everyone who is forced to be a side character.”

The young man Du Zhi Xiao said while shooting out a wave of grey smoke.

The grey smoke floated up and entered the tribulation cloud, causing it to become turbulent as the clouds rumbled intensely, shooting out three pale green lightning balls in response.

“What is happening? Someone made a move!” Su Qi Han watched as her eyes turned red: “Xiao Bai is in danger!!”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2120 - From Today Onwards, You Are The Poet Immortal!

2120 From Today Onwards, You Are The Poet Immortal!

Seeing that the tribulation lightning was about to hit Li Xiao Bai, Su Qi Han flew into the sky.

She charged up relentlessly, wanting to sacrifice herself to block the lightning.

“Sigh, this foolish daughter.” A figure suddenly appeared, stopping Su Qi Han.

Su Qi Han saw the person who came and became joyful and surprised, shouting: “Father!”

He was the current dynasty’s Imperial Minister Su, a rank seven Gu Immortal of Profound Literature grotto-heaven.

“Li Xiao Bai is my son-in-law, why would I let him die on his own? Just be patient and watch, don’t create trouble.” Imperial Minister Su consoled Su Qi Han while sighing internally.

Truly, daughters would leave the parents to be with their husbands eventually.

Even though Imperial Minister Su appreciated Li Xiao Bai’s aptitude, he was against Li Xiao Bai's actions.

Originally, Imperial Minister Su wanted Li Xiao Bai to marry into his family and to impart him Su clan's inheritance, so that Li Xiao Bai could undergo immortal ascension and become an official in the Imperial Court, he would progress smoothly and become a support pillar of Su clan.

But Li Xiao Bai continued to wander outside and gather more knowledge, he did not want to become an official, this action made Imperial Minister Su very unhappy.

Minister Su had made his attempts to recruit him in the past, but Li Xiao Bai's vision was too broad, why would he care about the small Imperial Court within Profound Literature grotto-heaven? He was Gu Yue Fang Yuan's clone, he had grand ambitions, this Profound Literature grotto-heaven could not hold him down.

"Even though this lad does not know what's good for him, he is still a Su clan member, the man that my daughter loves. Even though he is too rash in undergoing tribulation this time and does not know fear, I need to protect him!" Imperial Minister Su sighed deeply, waving his robe, a bright rainbow shot out, blocking the three pale green lightning balls.

"Damn it, damn it! Imperial Minister Su came after all!" Du Zhi Xiao watched with and shuddered in anger, he screamed internally with indignance: "Li Xiao Bai, you are simply too lucky, such a great person actually defended you. I hate it, I hate everything about you!"

Du Zhi Xiao watched as his plans were about to fail, right at this moment, a figure appeared on his left.

This figure appeared from the sky, it was clearly a Gu Immortal.

The masked Gu Immortal charged towards Imperial Minister Su.

Imperial Minister Su had to fight against him, he showed anger on his face: "Come! I have many political enemies, which one of them are you? You have such methods!"

The masked Gu Immortal spoke in a hoarse voice: "Imperial Minister

Su, you understand it as well. Your son-in-law is exceptional but he is simply too dazzling. It is better if your Su clan is not so strong! Don't even think of helping him now."

"Someone is helping me?! Hahaha, great, wonderful!" Du Zhi Xiao was slightly stunned before becoming extremely happy, he started to jump around in joy.

"Father!" Su Qi Han shouted from the ground: "Help Xiao Bai."

Boom.

The tribulation lightning struck again, Li Xiao Bai had to use his killer move and create a poem wall.

Du Zhi Xiao screamed wildly: "Don't even think of blocking it!"

Grey smoke appeared from his body again, raising the power of the tribulation.

The poem wall was broken by the tribulation lightning, but most of its might was blocked, only the pale green fire was left on Li Xiao Bai's body, burning him.

"Xiao Bai!" Su Qi Han was deeply shocked, she charged towards him without second thoughts.

Since she could not resolve this problem, she would rather die together with Li Xiao Bai!

But at the crucial moment, Li Xiao Bai's hand pushed out of the cocoon, he waved at Su Qi Han: "Don't be rash, in this situation, in this danger, I gained a surge of inspiration, I have a feeling, I have the urge to recite a poem."

"What?" Su Qi Han was stunned.

Imperial Minister Su and the masked Gu Immortal also froze halfway through their fight.

Imperial Minister Su could not help but turn to look, the reason was that in the current dynasty and mortal world, there were many rumors of Li Xiao Bai surviving fatal danger by creating and reciting poems spontaneously.

“Again? I want to see if you have the ability to surpass the might of heaven itself!” Du Zhi Xiao had an extremely grim and dark expression.

In the past, he had an overwhelming advantage with victory in sight. In the end, because of Li Xiao Bai’s poem, he turned the situation around and won.

This experience became the great psychological trauma of Du Zhi Xiao’s life!

Everyone listened attentively as Li Xiao Bai recited:

Under the pine trees I ask of a disciple,

He replies, his master had gone to gather herbs.

Somewhere in the mountain he was for certain,

Within the dense clouds, his figure is hidden.

A chain of black characters flew out of Li Xiao Bai’s mouth, becoming four segments that revolved around him.

A few breaths later, the poem turned into dense smoke that moved turbulently around him.

The pale green fire on Li Xiao Bai’s body got completely absorbed into the smoke.

With a soft sound, the white clouds vanished while the pale green fire was extinguished, no longer able to obstruct Li Xiao Bai.

Du Zhi Xiao was dumbfounded.

Imperial Minister Su praised immediately: “Good poem, good poem. The diction is concise and straightforward, the words used can stir deep emotions, there is profundity in its plainness. To describe complex feelings with simple words, yet the sentiments are sincere and exciting!”

Su Qi Han raised her hands to her chest and looked up at Li Xiao Bai, her eyes shining with adoration: “Xiao Bai is truly a genius! The poem is free of flashy descriptions and feels very natural, but has vivid descriptions and appropriate intensity. Green pines and white clouds. The green and lush pines contain unparalleled vitality, the vast white clouds are thick and dense, remote and elusive, it makes one think of the autumn waters and beautiful women that remain as figures within the fog. It’s so beautiful, this poem and its meaning is really too beautiful!”

The masked Gu Immortal laughed: “I understand, I understand now. Li Xiao Bai, you are a true secluded genius, the white clouds in the poem show your high purity, the pines represent your upright attitude. You want to get away from the mundane mortal realm and go to the world of pines and clouds that is beyond. I was simply worrying for nothing, how can a person like you lower yourself to the Imperial Court? Forget it, forget it, I’m leaving, I’m leaving. With talent like yours, if you die, it is the loss of the entire world in terms of poetry development! I don’t want to be a sinner whose rotten reputation goes down in history.”

As the masked Gu Immortal said that, he turned around and left.

Imperial Minister Su, who had a complex expression, was left behind.

“He left? He let him go just like that?!” Du Zhi Xiao spat out a mouthful of blood, he stumbled backwards for a few steps, barely controlling himself and not falling over.

“This happened again, another person was convinced by Li Xiao Bai’s literary talent once again. I am indignant, I am not convinced, this is the treatment that I should receive instead!”

“Ahhhh!” Du Zhi Xiao screamed madly as grey smoke appeared from his body again.

At the same time, Du Zhi Xiao’s appearance turned old, he went from a young man to a middle aged man.

The grey smoke floated to the air and was discovered by Imperial Minister Su: “You are the one causing trouble? Du Zhi Xiao, the former number one scholar in the world, to think you would act so despicably!”

Du Zhi Xiao smiled bitterly: “Number one scholar in the world? I am no longer number one, I will reclaim this title personally!”

Imperial Minister Su called out: “It seems that I am forced to kill you today.”

“Wishful thinking!” Another person flew over from the right of Du Zhi Xiao.

This Gu Immortal was also masked.

“Another person is helping me?” Du Zhi Xiao was overjoyed.

The masked Gu Immortal fought against Imperial Minister Su, who was helpless to intervene anymore, watching as the grey smoke flew into the tribulation cloud.

The tribulation’s power rose again, three pale lightning balls shot towards Li Xiao Bai.

Imperial Minister Su was very angry: “I have many political enemies, which one of them are you?”

The masked Gu Immortal smiled coldly: “So what if you manage to guess it? Your son-in-law cannot block this tribulation cloud, he is dead meat!”

“Xiao Bai!” Su Qi Han shouted again, her voice was filled with agony, her expression was of despair.

But Li Xiao Bai waved his hand again: “In this situation, in this danger, I gained a surge of inspiration, I have a feeling, I have the urge to recite a poem again.”

“What?? Again? I don’t believe it, I don’t believe it!” Du Zhi Xiao shook his head in madness.

Imperial Minister Su was still worried: “Stimulation from danger can allow a Gu cultivator to gain a burst of inspiration and create a work that is divine and change his situation for the better. This has happened many times in the history of the current dynasty, but such situations often use up the Gu cultivator’s potential, it cannot be forced. Li Xiao Bai is in danger!”

“Xiao Bai, I believe you, quickly recite it.” Su Qi Han was filled with confidence.

Li Xiao Bai coughed once, sighing internally.

He did not want to keep a high profile, but there was no helping it.

His methods could not resist the tribulation alone, he had to rely on Profound Literature grotto-heaven’s killer move, assisting literary talents.

This killer move was used by Profound Literature grotto-heaven’s original owner, as long as the grotto-heaven existed, it would be effective.

As long as a purebred human created or recited outstanding poems or writings of any kind, they would obtain recognition and reward from this grotto-heaven.

Earlier, because of Li Xiao Bai’s poem, he was rewarded and the pale green fire was extinguished.

Thus, Li Xiao Bai recited again:

Over a thousand hills with no birds in flight,

The myriad paths had not one footprint in sight.

A straw hat man sits in a small lone boat,

Fishing alone in the cold frozen moat.

Once the poem was recited, the tribulation lightning dispersed, the effect was simply too good!

“Good poem, this is a divine poem! Fishing alone in the frozen water, it is eerily quiet and chilly cold. Comparing a thousand hills and a lone fishing boat, the absolute contrast produces absolutely breathtaking effects. In this backdrop, the intense yin produces yang instead, a reverse reaction occurs and the fishing action becomes full of vitality and vivid movement, everything becomes crystal clear, showing the poet’s clean inner heart, surpassing the mortal realm and having pride that is transcendent to all. I get it now, i really understand now. Li Xiao Bai, you never wanted to be an official from the start! You have such incredible talent, I really cannot bring myself to kill you, I am leaving!” The second masked Gu Immortal sighed with deep emotions, he praised intensely before leaving.

Cough!

Du Zhi Xiao coughed out another mouthful of blood, falling to the ground.

“This again, this again! I know his poems are good, really good, but that makes my heart hurt even more. I am really sick of such praises, it is disgustingly sickening, I want you to die, I want you to die!”

Du Zhi Xiao summoned the grey smoke again, turning from a middle aged man to an old man.

Li Xiao Bai was faced with a crisis again.

“Is there really a point in this?” Li Xiao Bai was really troubled: “I need to recite another poem now?”

He did not want to do that, it was too flashy and outstanding.

It would cause suspicions!

Thus, before he became renowned in the world, Li Xiao Bai controlled himself and only recited two poems. During the tribulation now, he recited another two new poems, it seemed that he was about to recite yet another ‘new’ poem now.

“I really can’t do anything about you, fine, I’ll recite it!” Li Xiao Bai looked at Du Zhi Xiao who was lying on the ground, he felt very helpless about this situation too.

Li Xiao Bai recited loudly:

The sun beyond the mountain glows,

The Yellow River seawards flows.

One can enjoy a grander sight,

By climbing to a greater height.

Li Xiao Bai's crisis was alleviated, the tribulation clouds dispersed, his three qi exploded into a new immortal aperture, he became an information path Gu Immortal!

"Oh heaven, since I was born, why did you create Li Xiao Bai?" Du Zhi Xiao shouted loudly in incomparable grief, he had a look of sadness, anger, helplessness, and hatred as he took his last breath.

"From today onwards, you are Poet Immortal Li Xiao Bai!" Imperial Minister Su flew to Li Xiao Bai with a complex expression.

He sighed: "The younger generations will surpass us in time, I had underestimated you all along. I wanted to make you an official of the Imperial Court, but your aspirations are too grand, compared to you, I am a mere commoner. It is truly laughable, from today onwards, go ahead and roam the world as you please, just don't let down my daughter."

"What?" Li Xiao Bai opened his mouth, he wanted to say that being an official was a good idea, he could have resources and a larger network. But his poem had already been recited, his 'aspirations' were shown.

Thus, Li Xiao Bai had to say: "Father-in-law, don't worry, I will protect Han Er."

Li Xiao Bai and Imperial Minister Su descended to the ground.

"My husband, you are too amazing! Your talent is vast as the sea, it cannot be estimated through logic anymore." Su Qi Han sprinted towards Li Xiao Bai.

Imperial Minister Su heard his daughter's words and felt a little uncomfortable internally, but he could not refute these words, after all, he had just witnessed the situation earlier with his own eyes.

Li Xiao Bai rubbed his nose, thinking that he had created too big of a commotion this time, he had to go along with the flow: "To speak the truth, ever since I was born, I had always felt that I was different from the rest…"

Chapter 2121 - Heaven“s Envy Immortal Gu

2121 Heaven“s Envy Immortal Gu

From Du Zhi Xiao’s corpse, an Immortal Gu floated up and appeared on his chest.

This Immortal Gu seemed like it was made of crystals, it looked like a flea and was as large as a fist, curling up into a ball and staying completely silent.

“This Immortal Gu allowed a mortal like Du Zhi Xiao to exert influence on the tribulation?” Li Xiao Bai cleaned the battlefield of loot, he naturally found this Immortal Gu.

To activate Immortal Gu, immortal essence was normally needed. But there were exceptions that did not face such a limitation.

“It seems that this peculiar Immortal Gu can be activated by a mortal.” Su Qi Han said.

“This Immortal Gu is very uncommon, let me check.” Imperial Minister Su looked at this Immortal Gu with a peculiar expression and used his information path methods.

Profound Literature grotto-heaven was an information path grotto-heaven, it focused on collecting and accumulating information. Even though Profound Literature grotto-heaven was physically secluded, it had not dared to isolate itself from the world, it still maintained contact with the outside world.

And Imperial Minister Su was an important person of the Imperial Court, with his authority, he could gain access to much of the Imperial Court's secret information.

Soon, he got the answer: "This is heaven's envy Immortal Gu!"

"Heaven's envy Immortal Gu?" This was the first time that Su Qi Han had heard of this.

Imperial Minister Su explained: "Heaven's envy Immortal Gu is a heaven path Immortal Gu, there are other similar Gu like heaven's rage Immortal Gu, heaven's sorrow Immortal Gu, and others. This type of heaven path Immortal Gu cannot be activated even by a rank nine venerable."

"Father, you must be wrong? We saw Du Zhi Xiao activate this Immortal Gu with our own eyes to create trouble for husband." Su Qi Han retorted.

Imperial Minister Su shook his head: "I'm not done yet. Immortal Gu like Heaven's Envy is quite special, it can resonate with emotions of envy and jealousy to activate itself. But the price to use it is huge, often requiring lifespan. Thus, Du Zhi Xiao turned from a young man to a middle aged man, before becoming an old man."

Su Qi Han was dazed, she could not help but think of u003cu003cThe Legends of Ren Zuu003eu003e, saying: "I remember that in u003cu003cThe Legends of Ren Zuu003eu003e, there are similar records. Don't tell me strength Gu and wisdom Gu are also heaven path Gu worms?"

Imperial Minister Su smiled faintly: "I am not sure about that either, even though u003cu003cThe Legends of Ren Zuu003eu003e states that, heaven path Gu worms cannot be used by any Gu cultivator, the most famous example is fate Gu. You've both seen the fight during the fate war yourselves."

Su Qi Han pouted unhappily, thinking: "I thought that this Immortal Gu would be useful to Xiao Bai, but to think that it is a heaven path

Immortal Gu. This Immortal Gu requires envy and jealousy to activate on its own, but my husband is someone with great personality, a noble and special individual in this world, how can he have such emotions? And the price of using it is too high as well, the lifespan needed is too much!"

Imperial Minister Su saw his daughter's disappointment, he smiled and said: "Xiao Bai, this heaven's envy Immortal Gu is yours. As for how to deal with it, that is your matter. If you offer this Gu to the Imperial Court, according to the rules, you will be compensated."

Su Qi Han's eyes shined with bright light.

Li Xiao Bai pondered: "Can I exchange for an information path Immortal Gu?"

Imperial Minister Su had a difficult expression: "That…"

Su Qi Han coyly grabbed Imperial Minister Su's sleeves: "Father! Our heaven's envy Immortal Gu is rank seven, we will take the loss and just exchange for some rank six information path Immortal Gu."

Imperial Minister Su flicked his daughter's forehead as he said jokingly: "You silly lass, you're looking down on the Imperial Court. Do you think Gu Immortals are so stupid? Even if a heaven path Immortal Gu is rank eight, it has little actual value, it is far inferior to a rank six information path Immortal Gu."

For her lover's sake, Su Qi Han did not give up: "Father! You are the current Imperial Minister."

Imperial Minister Su sighed, what else could he do, this was his beloved daughter.

"I'll think of a way and find a chance for Xiao Bai." He answered.

Su Qi Han smiled brightly, pressuring: "Father, I am sure that you can succeed!"

Imperial Minister Su smiled bitterly: "Little girl, I've never seen you so confident in your father before."

Li Xiao Bai was calm all along, he thought: “Father-in-law has many political rivals and enemies, if I ask him to get an Immortal Gu exchanged from the Imperial Court, he would face many obstructions, the chance of success is low. Even if he succeeds, he will lose a lot of his political power and bargaining chips, that is not a wise act.”

Thinking of this, Li Xiao Bai said: “Father-in-law, Han Er, no hurry in giving it up. I’ll try to put this heaven’s envy Immortal Gu up in treasure yellow heaven and see if anyone wants to buy it.”

Imperial Minister Su nodded: “That is a good idea, but Xiao Bai, don’t be too optimistic about it Even though heaven path Immortal Gu are rare, nobody can directly use them, this is a well known fact. Who would use their own useful Immortal Gu to exchange for an unusable heaven path Immortal Gu?”

Su Qi Han sighed: “That is true.”

Li Xiao Bai nodded: “I’ll just give it a try.”

Imperial Minister Su advised: “Don’t dwell on it, putting an Immortal Gu up on treasure yellow heaven requires a continuous fee.”

Li Xiao Bai’s expression suddenly changed: “Someone bought heaven’s envy Immortal Gu!”

“What?” Imperial Minister Su was stunned.

Su Qi Han called out in joy: “What price did they pay?”

Li Xiao Bai said with uncontainable excitement: “I… I already made the transaction. They are offering me rank seven poem wall Immortal Gu, this is an offer I cannot reject.”

Li Xiao Bai’s immortal ascension did not have excess heaven and earth qi to refine his vital Gu into an Immortal Gu. A large part of the reason was due to heaven’s envy Immortal Gu.

Li Xiao Bai did not have the ten extreme physiques, he only obtained a high grade blessed land.

But in this transaction, Li Xiao Bai obtained his first Immortal Gu, and it was rank seven at that.

Imperial Minister Su looked at the poem wall Immortal Gu in Li Xiao Bai's hands, he stared in disbelief: "Someone actually bought this heaven path Immortal Gu? They even offered an information path Immortal Gu of the same rank? Which fool is this?"

The 'fool' that Imperial Minister Su spoke of was none other than Gu Yue Fang Yuan.

Fang Yuan had always been paying attention to Li Xiao Bai's situation. Even though Du Zhi Xiao and heaven's envy Immortal Gu were out of his expectations, Fang Yuan had also not thought of interfering with Li Xiao Bai's development, but having an Immortal Gu was simply too important to Li Xiao Bai.

He had to help in this aspect.

Treasure yellow heaven was a safe place, nobody would be able to investigate the identities of the people undergoing this transaction.

With Four Elements Square Regret Blood Refinement Pool, Fang Yuan had a high success rate in refining rank eight Immortal Gu, not to mention rank six or seven.

The time path clone directly refined poem wall Immortal Gu and raised it to rank seven.

He wanted to create some opportunity to hand this Immortal Gu to Li Xiao Bai, but to think that he would appear in treasure yellow heaven and sell heaven's envy Immortal Gu.

With such a great opportunity, Fang Yuan immediately grabbed onto it.

The transaction ended quickly.

Li Xiao Bai obtained rank seven poem wall Immortal Gu, even though he was only rank six and had insufficient cultivation level, this rank seven poem wall Immortal Gu was good enough to be his core Immortal Gu.

On the way back, Imperial Minister Su sighed to himself internally: This Li Xiao Bai's luck was simply unrivaled!

"So this heaven's envy Immortal Gu is the thing that caused my luck resonance." Fang Yuan obtained heaven's envy Immortal Gu and found that Cooking Luck Pot was vibrating slightly.

After inspecting it, he realized the truth of the matter.

Looking at his silver light pillar again, the clouds on the surface had gathered into one, giving one a feeling of congruity. The clouds revolved around the pillar as they moved slowly, not only were they clearly defending it, they were rising up too, clashing with the clouds that were at the peak of the pillar of light.

Fang Yuan was deeply shaken: "It seems that this heaven's envy Immortal Gu is the key to dealing with those venerables?"

Fang Yuan started to use wisdom path methods for deductions, sharp light flickered in his eyes for a long time, afterwards, he started to instill immortal essence into heaven's envy Immortal Gu!

Heaven's envy Immortal Gu shook intensely, resisting him stubbornly. But it could not stop Fang Yuan's powerful invasion, it started to falter.

A moment later, heaven's envy Immortal Gu absorbed a portion of the immortal essence and spat out a lump of grey smoke.

Fang Yuan's eyes shined with immense brilliance!

"I actually refined a part of heaven's envy Immortal Gu! Furthermore, I can actually activate a heaven path Immortal Gu!! Is it because of my unrestrained heavenly marks?"

Fang Yuan's unrestrained heavenly marks had already passed ten thousand in number. Every grotto-heaven that he annexed would provide the sovereign immortal aperture with a number of heaven path dao marks, which would be refined by Fang Yuan into unrestrained heavenly marks.

Earlier, he used his rank eight immortal essence to forcefully refine heaven’s envy Immortal Gu, he actually succeeded partially.

Afterwards, he successfully activated heaven’s envy Immortal Gu!

Fang Yuan did not lose any lifespan.

Fang Yuan calmed down and inspected it carefully, he found out new information: “Even though I can activate heaven’s envy Immortal Gu, I cannot fully utilize it. I have only partially refined heaven’s envy Immortal Gu, I’ve only barely managed to gain its recognition. Thus, I cannot exert its full strength yet.”

Fang Yuan’s thoughts clashed rapidly: “This should be the result of having unrestrained heavenly marks, I am different from everyone else. If I continue gaining unrestrained heavenly marks, will I be able to further refine heaven’s envy Immortal Gu, or even completely refine it?”

“Wait!”

Suddenly, a flash of inspiration appeared in Fang Yuan’s mind, it was like lightning that pierced the darkness, creating a huge commotion in his mind!

At this moment, Fang Yuan’s lips became a bit dry: “Heaven’s envy Immortal Gu is a heaven path Immortal Gu, fate Gu is too. Since I can refine heaven’s envy Immortal Gu, does that mean that I can refine fate Gu and control fate as well?”

Southern Border.

Tribulations were raging, while Wu clan’s Gu Immortal Wu Zhen controlled the situation.

He focused his attention on that qi cocoon.

Suddenly, a person shouted from within the cocoon, breaking out of it and creating an immortal aperture, becoming an immortal.

It was Wu Ji!

In this immortal ascension, not only did she obtain a super grade blessed land, her vital Gu even became an Immortal Gu.

Wu Zhen could feel Wu Ji's aura, he sighed: “Wu Ji, you chose strength path after all.”

Wu Ji had no regret, she laughed: “This is precisely the path I seek!”

And on Shang Liang Mountain.

Shang Yan Fei gathered his children in the same hall.

He had died on Yi Tian Mountain, but because of fate Gu's destruction, he was revived by Shang clan's Gu Immortals.

Right now, he sat on the main seat with blood red light surrounding his body.

“Congratulations to father for succeeding in the immortal ascension, you have surpassed the mortal realm and become a blood path immortal!” Shang Qiu Niu was the eldest son, he was the first to speak.

After that, the rest of his children also congratulated him, including Shang Xin Ci.

Shang Yan Fei waved his hand: “Blood path has a poor reputation, keep the fact that I am now a blood path Gu Immortal as a secret. I gathered you here today because I want to distribute the family assets now, before I enter closed cultivation. The great era has arrived, I want you all to become immortals too and lead the new tides of this great era!”

Chapter 2122 - Nine Children Dragon Drawings

2122 Nine Children Dragon Drawings

In the hall, Shang Yan Fei sat on the main seat.

He wore a black robe, his hair was red like blood, his face was that of a handsome young man. His children were all seated in the hall, gathered together.

Under their gazes, Shang Yan Fei took out a stack of beast skins.

Each beast skin had markings on it, vividly drawing a certain dragon-like beast. At the corner of the skin, there was text written in ink, giving off the dense aura of primitive civilization.

“These are the nine children dragon drawings[1], I had obtained them from a Gu Immortal’s corpse in my younger days by chance. It is a pity this immortal opportunity is not suitable for me, even after asking Shang clan’s supreme elders, I could not unravel it. Now, I will pass these nine children dragon drawings to all of you, I hope you can unravel the mystery and gain your own immortal opportunities.”

Saying this, Shang Yan Fei diverted his gaze from the beast skin, looking at Shang Qiu Niu.

“Qiu Niu, come here.” He called.

“Father.” Shang Qiu Niu left his seat, walking towards Shang Yan Fei.

Shang Yan Fei passed him the first beast skin: “This is the Qiu Niu drawing, I gave you this name because of it as well. You are the eldest son, you have a dependable nature, I am very assured. This revival is the greatest opportunity in your life, don’t let me down.”

Shang Qiu Niu stretched out both hands and received the beast skin: “Father, I will do my best and not disappoint you.”

“Ya Zi, come over as well.” Shang Yan Fei waved his hand and called his son: “From today onwards, broaden your horizon and don’t dwell on petty matters, it will benefit you.”

“Yes, I will remember father’s teachings.” Shang Ya Zi took the beast skin and returned to his seat.

Shang Yan Fei called for his children one by one, distributing the nine children dragon drawings while saying words of encouragement.

Shang Xin Ci remained seated, she was not called.

She observed carefully, realizing that the nine children dragon drawings had varying beast drawings. For example, the Chao Feng drawing had a divine beast with a noble aura that could not be sullied. The Pu Lao drawing resembled a coiling dragon. The Bi Xi drawing looked like a giant tortoise that could carry mountains and rivers. There was also the Bi An drawing, it was like a fierce tiger with ferocious aura.

There were only nine beast skin drawings, they were soon distributed, but he had more than nine children.

Shang Yan Fei called for Shang Tuo Hai as well: “You have been managing the merchant caravan well. I will give you this entire caravan then. Other than that, I have a water path inheritance, it is the inheritance of a water path immortal. Even though it is largely incomplete, the contents are still worth a lot, I hope you can still continue to work hard in the future.”

After that, he called for Shang Yi Fan: “This is a rank five Gu Master inheritance but it has clues to an immortal inheritance. It will be up to you in the future if you try to find it.”

And finally, Shang Yan Fei called for Shang Xin Ci.

“Father.” Shang Xin Ci walked towards her father.

Shang Yan Fei sighed: “I’ve already distributed all my wealth, only this house is left. Oh Xin Ci, among my children, you are the one who most surpassed my expectations. If you do not mind it, take this house.”

Once he said that, the hall went into a commotion.

His other children looked at Shang Yan Fei and Shang Xin Ci, they wanted to speak but found that they could not.

It was clearly Shang Yan Fei’s doing.

Under everyone’s gazes, Shang Xin Ci replied with a calm expression: “I will thank father for this gift.”

After the gathering ended, most of Shang Yan Fei’s children came together secretly.

“Sigh, father actually gave the house to Shang Xin Ci.”

“He did not even let us voice our objections!”

“It seems that father really wants Shang Xin Ci to be the clan leader. What should we do?”

“This is too unfair! What did we all get? Some absurd things or broken inheritances. As for that Shang Xin Ci? She is going to become the clan leader, she will definitely be nurtured by the clan and become a Gu Immortal seed!”

Initially, Shang Yan Fei was still a young master, he was suppressed by an alliance of other young masters. He took a step back and abandoned the position of young master of his own accord, becoming an ordinary clansman. During that fallen period, he stayed in this house.

Afterwards, when he became the clan leader, he maintained this place as a reminder to himself and later generations. The clan banquets were always held here as a result.

Afterwards, when Fang Yuan and Bai Ning Bing left Qing Mao Mountain to roam the world, when they escorted Shang Xin Ci to Shang Liang Mountain, they were also attended to in this house.

Shang Yan Fei gave this house to Shang Xin Ci, there was deep meaning behind it, it meant that he was giving the position of clan leader to her.

Even though Shang Xin Ci was already the clan leader for some time, according to rules and customs, she had to be appointed by the previous clan leader, that would leave no flaws for others to criticize.

“Father is too biased!”

“That’s right, he loves Shang Xin Ci the most, what can we do?”

“Everyone, are we going to watch this happen? She is merely an illegitimate daughter!”

“Hmph, after I died, all of you are so useless, you actually let her become the clan leader.”

“I did not decide the clan leader, there were instructions from the higher-ups, what can we do?”

“In my opinion, our Shang clan’s supreme elders are too muddle-headed.”

“Shang Xin Ci and Fang Yuan have a mysterious relationship, I’m afraid the higher-ups are thinking about that too.”

Everyone’s discussions came to a halt.

After a moment of silence, Shang Yi Fan said: “Fang Yuan lived on Shang Liang Mountain for some time in the past, but what sort of person is he? He is someone who can influence the entire world, why would he care about ants like us? Shang clan’s supreme elders are overthinking it, can’t they see that even after so many years, Fang Yuan has not helped Shang Xin Ci even once?”

These words injected life into the stale discussion.

The remaining children brightened up again.

They agreed in unison that Fang Yuan had already forgotten about Shang Liang Mountain and everything that happened here, they were simply unwilling to give up on the position of clan leader.

Shang Yi Fan continued to speak: “Shang Xin Ci has a huge force, but it is not impossible to fight her. We need to work together to win, we can go ahead and split her forces.”

Shang Ya Zi snickered: “We need to use a multi-pronged approach so Shang Xin Ci cannot deal with everything at once. I met with an expert some time ago, if we can get his help, Shang Xin Ci will definitely face a lot of problems, her reputation will fall.”

Days later.

The study room’s atmosphere was tense.

Shang Xin Ci frowned as she listened to Shang Bu Li’s report, sighing deeply: “To think that the situation is so severe, in just a few days, those budding issues have already swept through the entire market of Shang Liang Mountain.”

A few days ago, counterfeit goods started to appear in Shang Liang Mountain’s Gu worm market. These fake Gu were identical to the real ones, even if they were used, the effects would be the same. But after some time, they would expose themselves and self-detonate, the buyer would suffer huge losses.

These fake Gu appeared in Shang clan’s market, it greatly affected their prestige.

The situation was very severe, Xiao Die stood beside Shang Xin Ci as she said to Shang Bu Li in displeasure: “Lord Shang Bu Li, you are in charge of the market. There has to be some time that passed for the situation to develop like this, why did you hold back the information and not report it?”

Shang Bu Li snorted coldly in anger: “I was too useless, I disappointed you, clan leader. The situation is too severe now, I cannot make any amendments, I will resign now, please don't stop me."

"You!" Xiao Die was dazed from shock, she said: "Who are you trying to scare?"

Shang Bu Li looked at Xiao Die coldly: "You are just a servant, I am magnanimous and will not blame you. But clan leader, I am resigning now, please approve of it."

Shang Xin Ci looked at Shang Bu Li deeply before replying calmly: "In that case, I will approve your resignation."

"Goodbye!" Shang Bu Li chuckled as he left.

"Is he really leaving things as it is?" Xiao Die was stunned.

"Clan leader, Lord Shang Tuo Hai seeks your audience." At this time, Xiao Lan reported.

Shang Xin Ci's gaze flickered for a moment before answering: "Let him in."

Shang Tuo Hai came into the study room and saw Shang Xin Ci's expression, nodding: "So you realized it."

Shang Xin Ci asked: "Because of the clan leader position?"

Shang Tuo Hai: "Precisely. Shang Bu Li had control of the slave market and had great business, but after your rise, because you did not like such cruelty, you banned the slave trade, causing Shang Bu Li to manage Shang Liang Mountain's Gu worm market instead. He has already been convinced by them, he is involved in this fake Gu conspiracy."

"This old fiend!" Xiao Die gritted her teeth in anger.

Shang Tuo Hai added: "This is not everything, Shang Bu Li is just the first to defect, more will appear soon."

Shang Xin Ci nodded: "And what do you want from this?"

Shang Tuo Hai replied plainly: “We are both illegitimate children. Even if you fall, I will not become the clan leader. I will rarely return in the future, I will lead the merchant caravan and explore the world, I want to become immortal too! But I cannot rely on the clan, if you become immortal in the future, I hope my act of kindness now will be repaid.”

“I’ll remember this.”

“Goodbye.”

Seeing Shang Tuo Hai leave, Shang Xin Ci had a complex emotion.

After leading Shang clan for so many years, Shang Xin Ci had developed many abilities and broadened her horizons. From her perspective, among Shang Yan Fei’s children, Shang Tuo Hai definitely was top three in terms of ability, he was a prime choice in both talent and personality. It was a pity that he lacked opportunities, he did not receive the favor of greater existences.

“Fate has been destroyed, the great era is here. Countless people are competing and fighting for that chance of immortality.” Shang Xin Ci sighed to herself internally.

Afterwards, like what Shang Tuo Hai reminded her about.

Zhu Ba and Wan Qian Shan resigned of their own accord. Xiao Yan got the news that some fire path Gu materials he needed were far away, so he went to search for them.

Xiong Tu, Xiong Huo, and Xiong Feng also received some information on how to save their ancestor Xiong Yan Po.

Zhou Quan and Wei De Xin also became ‘coincidentally ill’, they were bedridden.

At once, Shang Xin Ci was without her capable subordinates, she was alone without external help.

Those Gu Masters who bought fake Gu gathered together and started to create problems.

Shang Xin Ci had to bring Xiao Lan and Xiao Die to the scene and take control of the situation.

“These Gu worms are all fake, is Shang clan selling fake goods now?”

“Since Shang clan’s leader is here, tell us, what will you do!”

“I spent most of my assets to buy a rank four Gu worm from you, but it turned out to be a fake Gu!”

“Shang clan’s Auspicious Festival is held annually but there are actually fake goods sold to harm us buyers, this is simply unacceptable!”

“And more despicably, even though there are sales going on, the prices were actually adjusted upwards, it ended up being the same price as the market rate.”

Facing all of the intense rage, Shang Xin Ci was still calm as ice: “Shang clan will pay all of you back twice the amount of your losses.”

Just one sentence made the surroundings silent.

Shang Ya Zi and the rest who were watching from the dark became anxious, they started to give instructions.

From among the people, someone suddenly shouted: “Compensation, we demand compensation on the spot!”

“That’s right, you give us open promises but use dirty tricks in the dark, this is all Shang clan’s ploy!”

“Shang clan is selling fake goods, can we really trust your words?’

“I don’t care, your shop cheated us of our hard earned money, I want to destroy it!”

The lurking experts within the crowd took action and attacked Shang Xin Ci.

Shang Xin Ci stretched out her hand, using a killer move to protect the shop behind her, she managed to block all of the attacks.

Xiao Lan and Xiao Die were ready to strike but Shang Xin Ci stopped them.

Light flickered in her eyes as her aura erupted, she activated a battlefield killer move.

The killer move pushed outwards, trapping all of the people who caused trouble, the noisy street instantly became silent all of a sudden.

“So powerful!”

“To think that Shang Xin Ci has such hidden strength!”

Shang Ya Zi and the rest watched with intense shock.

At that moment, they felt like they were looking at their father Shang Yan Fei, she had the air of a peak rank five expert!

[1] Search up nine sons of the dragon for their in-depth descriptions. The names of some Shang children are also from there.

Chapter 2123 - Xin Ci“s Immortal Opportunity

2123 Xin Ci“s Immortal Opportunity

Shang Xin Ci had a benevolent nature but she showed an extremely strong stance now, suppressing the entire situation at the moment.

This was the Gu cultivation world — experts reigned supreme.

Even though Shang Xin Ci trapped everyone, she did not punish them, instead, she upheld her promise of paying them twice the amount back.

Even though she understood that people were intentionally causing this problem, she did not do anything to these people, she let them off.

“Shang Xin Ci actually released them!”

“Hmph, the excessive benevolence of a woman.”

“To think that she did not make a move, if it were me, I would rather kill them all than let any possible culprit escape.”

Shang Ya Zi and the rest discussed in secret, they expressed their disdain to conceal the unease in their hearts.

Shang Qiu Niu had a complex expression: “Maybe this is the difference between Shang Xin Ci and us. This might be the reason why father favors her to become clan leader.”

“Shang Qiu Niu, what are you saying?” Someone immediately rebuked.

Shang Qiu Niu said plainly: “You saw it yourselves, Shang Xin Ci had strength that surpasses all of us. When she took the role of clan leader, she also stabilized Shang clan’s position, all of our businesses made great profits. Even though she stopped the slave trade, our profits only fell for some time before rising again, far higher than before.”

“We need to admit that Shang Xin Ci’s capability surpasses us, right now, her reputation of benevolence had already spread widely. Father noticed this and gave the position of clan leader to her, he is not being biased or showing favoritism.”

Shang Qiu Niu revived from death, the experience was his precious wealth, allowing him to think more rationally and calmly when situations occurred.

But immediately after, Shang Yi Fan smiled coldly: “Brother Qiu Niu, even if that is true, so what? Whoever becomes clan leader will be nurtured by the clan into an immortal. This is an immortal opportunity! So what if Shang Xin Ci surpasses us in ability and character, so what? Are you not going to vie for this opportunity?”

Shang Qiu Niu was silent for a while before nodding as he said solemnly: “I have to try!”

After Shang Xin Ci released the troublemakers, she went to pacify the shop owners.

An elderly man walked to Shang Xin Ci shakily as he expressed his gratitude: “If not for clan leader’s appearance, I would have gotten into trouble. Sigh, it was because my vision was blurred and I lost my cool to greed, I believed in rumors and bought some cheap goods. To think that they were all fake.”

Xiao Die pouted: “You’re an old man, you’ve been in Shang Liang Mountain for so many years, this shop has been managed by you for so long, how can you be so shortsighted?”

The old man looked ashamed.

“Xiao Die.” Shang Xin Ci expressed her understanding: “The Gu cultivators living here are also not having it easy. If it were me, I would want to earn more for my business, this is a logical thing.”

Xiao Die snorted as she looked at the old man: “Old fellow, you were lucky to have met my young miss. Make sure you use your vision in the future, don’t go after cheap gains, do you understand?”

“Yes, yes, I understand.” The old man quickly replied.

“Young miss, let’s go, seeing these people makes me angry. If they were not after cheap gains, why would the market be flooded with fake goods?” Xiao Die turned around and looked at Shang Xin Ci.

But the elderly man spoke: “Clan leader, please wait.”

Shang Xin Ci asked: “Is there anything else?”

The old man spoke in trepidation: “I’m ashamed, I’m truly ashamed! I bought such a large batch of fake goods, they cannot be sold anymore. But if I destroy them, it would be a huge loss! Clan leader, didn’t you say you will compensate us?”

“What?!” Xiao Die heard these words and exploded, she pointed at the old man’s nose and shouted: “Old fellow, do you know no shame? You made a mistake while our clan leader defended you, yet you know no gratitude and even want to extort us?”

Xiao Lan was also disgusted by such behavior, she added: “You are already so old but your actions are truly despicable. Must all your losses be shouldered by our Shang clan? Even throughout this entire world, is there such a logic?”

But Shang Xin Ci stopped her two servants, she looked at the old man and the sellers behind him.

Shang Xin Ci’s tone was still calm as before: “Old sir, thanks for reminding me. As the Shang clan leader, I will not go back on my promise. Since I agreed to double the compensation, I will do my best to follow it. You can get twice the compensation for the fake goods you imported.”

“Thank you, clan leader!”

“Clan leader, you are the kindest clan leader I’ve ever seen!”

“Clan elder, you saved my entire family, without this compensation, we would be forced out of our homes.”

All of the Gu Masters spoke, some teared up, some knelt on the ground, kowtowing to Shang Xin Ci.

“Let’s go.” Shang Xin Ci brought her two servants away, arriving at the entrance of the street.

The two servants were very indignant.

Xiao Die grumbled: “Young miss, you are just too kind. Not only did you release those troublemakers, you even compensated them twice the amount.”

Xiao Lan also said: “Young miss, I know you are kind hearted and pity those people. But be it buyers or sellers, there are bad people among them. By compensating them all together, we have fallen into the culprit’s schemes, they want to expend our primeval stone reserves.”

Shang Xin Ci nodded: “Those are just primeval stones, we can still earn them back in the future even if we lose them now. But if Shang clan’s reputation is ruined, then we will need to spend a lot of effort and time to rebuild it.”

“If I mind these primeval stones instead, I would fall into the culprit’s trap. The loss of primeval stones is not important, Shang clan’s reputation is a bigger problem, I will not be a proper clan leader after all. They can use this excuse to take me down from the position of clan leader.”

Shang Xin Ci spoke warmly and calmly, she showed no anxiety, giving people a feeling of peace.

The two servants understood after this.

Xiao Lan said in admiration: “So that is it. Young miss, you are really amazing, you see things so clearly!”

Xiao Die pouted: “Young miss is right, but this matter is too infuriating. That old man might not be a bad person but he is taking advantage of us to earn a profit now! Why are they not going after the culprit who caused them a loss, instead trying to bully us good people. If Lord Fang Yuan were here, he would beat these people till they pissed themselves, they would not dare to get up from the ground, who would dare to bully us!”

Xiao Lan stared at Xiao Die, stomping on Xiao Die’s foot.

Xiao Die jumped from the pain, sticking out her tongue and apologizing to Shang Xin Ci: “Sorry young miss, I spoke out of line.”

Ever since Fang Yuan’s and Lu Wei Yin’s battle when he was hit by the killer move, three lifetime dreams reform a chosen one, after Shang Xin Ci returned to Shang Liang Mountain, each time she heard of Fang Yuan’s name, she would fall into agony and sadness uncontrollably.

Thus, the name Fang Yuan started to become taboo around Shang Xin Ci.

On the way back, the three of them were silent.

After reaching the end of the street, Xiao Lan said: “Young miss, Lord Zhou Quan and Wei De Xin have been sick for a long time, let’s go visit them and see how they are feeling.”

Xiao Die gave Xiao Lan a thumbs up secretly.

They tried to divert Shang Xin Ci’s attention to other matters instead.

Shang Xin Ci nodded: “You are right, let’s go visit them.”

The three of them arrived at Wei De Xin’s accommodation.

“Stop right there, who are you, why are you acting so suspiciously!” Xiao Die found someone suspicious at the entrance.

The suspicious Gu cultivator looked at Shang Xin Ci and his expression turned grim, but he was relaxed internally, knowing that Shang Xin Ci was a benevolent person, he answered: “I am Wu clan’s Gu Master, I am here to send a letter to Lady Wei De Xin.”

Xiao Die’s expression changed as she looked at Shang Xin Ci: “Young miss, oh no. Lady Wei De Xin must have gone to Wu clan after seeing this terrible situation.”

Shang Xin Ci knocked on Xiao Die’s head: “Don’t spout nonsense, Sister Wei is not such a person. She is the sister of Wei Shen Jing, it is not strange that they exchange letters. Come inside with me.”

Shang Xin Ci let that Wu clan Gu Master leave, she entered the house, seeing Wei De Xin who was bedridden.

Wei De Xin had obviously found out about the conflict that occurred earlier, she handed an information path Gu worm to Shang Xin Ci the moment they entered, but Shang Xin Ci smiled and did not receive it.

Wei De Xin explained: “Those people have outstanding methods, they schemed against Zhou Quan and I, causing us to be bedridden. But I will not falter so easily, I sent a letter to my brother and asked for his help.”

Xiao Lan was overjoyed: “That’s great. Lord Wei Shen Jing is known as the Counterfeit Master, his ability at creating counterfeit goods is well known in Southern Border. If he can help us, we will definitely be able to solve this predicament of the fake goods!”

Shang Xin Ci smiled: “Not long ago, in Sun Moon Sinkhole, I met with Wei Shen Jing and we chased after the demon Kong Ri Tian.”

Wei De Xin sighed: “Back then, Wei clan was plotted against by Shang clan, who was the mastermind. My brother was forced to roam outside, he had to join Wu clan to preserve his life. He bore hatred towards Shang clan and did not understand why I chose to join you. But he sent this letter to praise your character and morals, he sighed in admiration and said he understood my action.”

“It is a pity he is busy now. Wu clan’s clan leader Wu Ji has succeeded in her immortal ascension, she nominated my brother recently. Wu clan is focusing on promoting external elders, they want to make outsiders their Wu clan external Gu Immortals. My brother is facing a test now, he can only explain the situation to us but he cannot come personally.”

“Ah!” Xiao Lan and Xiao Die looked at each other in deep disappointment.

Shang Xin Ci continued to smile: “It is truly a great fortuitous encounter for Brother Wei, if he loses this chance, he will regret it for life. Even though I am facing a problem, I cannot hold back Brother Wei from his great opportunity, after all, any competition to become immortal is filled with danger and difficulty. If Brother Wei needs help, we must lend him a hand.”

“Clan leader, you are truly a great person, it is a pity I cannot help you.” Wei De Xin sighed.

“Sister Wei, I still need to thank you. But you are currently injured, don’t trouble yourself with this. Go ahead and recuperate, I have already gotten a solution for this problem.” Shang Xin Ci’s smile expanded.

Wei De Xin looked at her while sighing internally in her heart.

She had a deep understanding of Shang Xin Ci, she knew that this expression meant that Shang Xin Ci had no countermeasure or solution currently.

This situation was quite problematic, Shang Qiu Niu and the rest had cooperated. If this problem was not properly resolved, it might really affect Shang Xin Ci’s position as clan leader.

Shang Yan Fei passed the clan leader position to Shang Xin Ci but there were rules in the righteous path. If Shang Xin Ci was chased out of this position, Shang Yan Fei, who had already exercised the role transfer, could not intervene to defend her anymore.

“Shang Xin Ci cannot save herself now, but she does not want to trouble me, so she said those words.” Wei De Xin understood this, she smiled: “Since clan leader has a solution, I will rest at ease, I am going to recuperate now.”

“You should.” Shang Xin Ci smiled and said.

“Leave now, don’t disturb my recuperation.” Wei De Xin waved her hand, she knew that Shang Xin Ci’s time was pressing, she did not want to waste her time.

The trio was ‘chased’ out just like that.

After leaving Wei De Xin’s place, they went to visit Zhou Quan.

Zhou Quan said: “I’ve already learned of the matter that happened. Clan leader, you did the right thing!”

“In the past, I would not be able to see it clearly. But after these years, I’ve learned much from Steward Zhou and Sister Wei.” Shang Xin Ci said humbly.

Zhou Quan looked at Shang Xin Ci, initially, he was forced by Fang Yuan to become Shang Xin Ci’s subordinate and help her.

But gradually, he noticed Shang Xin Ci’s nature and was shocked that there was such a person in the world.

If Shang Xin Ci was mindlessly benevolent, Zhou Quan would look down on her and leave.

But Shang Xin Ci had a perceptive nature despite her poor cultivation talent, she grew rapidly under Zhou Quan’s and Wei De Xin’s guidance, rising to the next level. Now, not only did she have strength, she could even manage the entirety of Shang clan.

Zhou Quan was pleased at her growth while also feeling admiration.

Because Shang Xin Ci had a consistent demeanor, she had her own bottom line. Her kindness and benevolence had never wavered because of the darkness and cruelty of the world. In contrast, from the cruelty and sadness she had seen, she noticed the pity and agony behind them, affirming her heart of kindness.

This was something that was very rare!

Before leaving, Zhou Quan reminded them: “Even if you pay them double, you can only lessen the problem, you cannot solve its root cause. The problem is the fake goods after all, you need to find the source and put a stop to it. You also need to find out the rest of the fake goods in the market and remove them. After these two problems are resolved, you will be able to truly get past the problem.”

At night.

In the other room, Xiao Lan and Xiao Die had fallen asleep.

But Shang Xin Ci looked at the fake Gu on the table as she showed an expression of worry.

She smiled to herself soundlessly.

To prevent the rest from worrying and because of her clan leader responsibilities, Shang Xin Ci had always acted confidently. Only when she was alone would she show her true emotions.

At this moment, she was like a delicate flower facing an impending storm, it was truly heart aching to see her expression.

She was helpless against the fake Gu in front of her. The truth was, she had already done her best to get this far!

In the silent night, she let out a deep and helpless sigh.

“Clan leader, why are you sighing?” From within the fake Gu, light shined and gathered into the image of an old man.

Shang Xin Ci had a surprised expression, because this old man was the shop owner who asked her for compensation earlier!

Chapter 2124 - Admiring Fang Yuan

2124 Admiring Fang Yuan

Seeing the old man's appearance, Shang Xin Ci thought of many things at this instant.

The mysterious old man was so strong, Shang Xin Ci did not even detect his method to lurk within the Gu worm.

He came with unknown intentions, he could either be having kind or malicious intentions. He might even be the culprit behind this fake Gu incident, this might even be one of Shang Ya Zi's plans.

But Shang Xin Ci was more willing to believe that the mysterious old man came with kind intentions.

Shang Xin Ci said solemnly: "I sighed earlier because Shang Ya Zi and the rest chose to pull me down from the clan leader position in order to fight for that immortal opportunity. But they did not care that these schemes would bring great misery and losses to others. In fact, they completely disregarded Shang clan's reputation, they only cared about themselves."

"But I can understand their choice. Who does not want to become a Gu Immortal and transcend the mortal realm, gaining great abilities? But does becoming a Gu Immortal mean one must treat the people as insects? Isn't there another way, a kinder and less damaging way for the weak?"

The old man heard this and sighed deeply: "Shang Xin Ci, oh Shang

Xin Ci, I've stayed in Shang Liang Mountain for years, I believe that you mean this from the bottom of your heart, thus, I decided to help you!"

Shang Xin Ci bowed deeply but her expression was still calm and tranquil: "May I ask for senior's name?"

The old man smiled bitterly: "I am merely a pitiful person who is at his wits' end, I do not dare to expose myself. I know you are suspicious towards me, but I come with goodwill. You are someone worthy of my help, after becoming the clan leader for so many years, you know that to trust a person, what they say is not important, only their actions speak louder than words."

Shang Xin Ci nodded: "Please teach me senior, I am willing to listen."

The old man said: "I know the person who created the fake Gu as well as his residence. His name is Feng Tian Yu, your brother Shang Ya Zi befriended him and asked him to do this by offering huge benefits."

"Feng Tian Yu?" Shang Xin Ci's gaze flickered: "I know of this person, he is in the righteous path, once the young clan leader of a village. He has incredible refinement path attainment, he is a refinement path master, having rank four cultivation level. When he was rank three, he refined a rank five Gu worm. Although the rank five Gu died after half a day, he achieved instant reputation from that. Regrettably, his clan lost in a conflict and faced extermination, he was no longer the young clan leader that had limitless prospects, becoming a lone cultivator instead."

Shang Xin Ci was the leader of Shang clan, she knew the information of Southern Border's expert Gu Masters very clearly.

The old man nodded: "Feng Tian Yu has already reached rank five, but he keeps it a secret and only shows rank four cultivation level. I have a method for you to convince him and turn him over to your side, becoming your loyal subordinate."

Shang Xin Ci was very curious.

Feng Tian Yu had rank five cultivation level now, like Shang Xin Ci, he was also a refinement path master, extremely popular in Southern Border. Such a person would receive royal treatment anywhere he went, if he wanted to rebuild his clan and create Feng clan again, he would become the clan leader, a righteous path leader in the Gu Master world.

How could such a person submit easily?

The old man did not conceal anything, he told the method to Shang Xin Ci immediately.

Shang Xin Ci's expression changed: "Senior wants me to lie to Feng Tian Yu?"

The old man smiled: "That is not lying, it is true that you are acquainted with Fang Yuan. Of course, strictly speaking, it is still a lie. But Shang Xin Ci, if one lie can save countless people, will you do it? You have no other choice now, Feng Tian Yu is the culprit behind the fake Gu after all."

The old man's smile became wider: "In this world, being a bad person is not easy, but being a good person is even tougher. Because a good person has to defeat the bad person while defending their own morals and beliefs. Oh Shang Xin Ci, I am only giving you a method, as for what you are going to do with it, that is entirely up to you."

Shang Xin Ci did not hesitate: "Thank you senior, the method is very good, I am going to give it a try."

"Very good." The old man laughed: "This is why I like you. You have benevolence but you are not blinded by it, you know how to use various methods to deal with evil. In this world, pure kindness is akin to suicide, it can even harm your friends and family. But you are not like that, you are realistic in your goals, you are a truly practical good person."

At the end, the old man added: "This Gu worm contains a Gu Immortal true inheritance, I think this is the cultivation path most suited for you. Take a look, whether you cultivate it or not is entirely up to you."

Saying so, the old man’s image vanished.

At the same time, a Gu worm flew up from the table, floating in the air, away from the pile.

Shang Xin Ci held it and inspected the details.

A moment later, joy flashed on her face as she muttered to herself: “Good deeds Gu?”

Shang Liang Mountain had an outer city as well as the inner city. The inner city was split into first, second, third, fourth, and fifth inner city.

The first inner city was called the central inner city, the political heart of Shang clan, and also their military base. Shang Xin Ci stayed here.

The second inner city was also known as the clan city, only Shang clansmen could stay here. Tokens were needed to enter.

Feng Tian Yu stayed in the third inner city.

The entire third inner city was extremely expensive and valuable, it used star stones everywhere. Not only buildings, but even the walking paths were made of star stones. At one glance, starlight could be seen in one’s entire vision.

The streets had few people, quiet and serene, like a star palace.

There was no inn, there were only gardens.

Small gardens were rented at thirty primeval stones per day, while large gardens were a hundred primeval stones!

Feng Tian Yu was staying in a large garden.

He drank high quality tea and sat in a half inclined chair, his door was open as a breeze blew into the garden, he looked at the beautiful view of the bamboo forest.

“Brother Feng, you are truly enjoying yourself.” Shang Xin Ci’s voice resounded all of a sudden.

Feng Tian Yu shook intensely, he was so shocked he almost fell from his chair.

But at the next moment, he reacted and the Gu worms in his aperture got ready to strike. He turned around and looked at Shang Xin Ci, calming himself forcefully: “So Shang clan’s leader has visited me, I am truly honored beyond words. Clan leader, your method is really amazing, I set up three Gu formations here after all, you actually managed to enter so stealthily, is there anywhere in the world that can keep you out?”

Feng Tian Yu mocked Shang Xin Ci’s action of being like a thief, but she was not upset, she retorted: “How can my methods compare to you, Brother Feng? You caused a huge commotion in the market, the fake Gu flooded the market and resulted in conflict, as the clan leader, I almost lost all my reputation.”

Feng Tian Yu was shook internally, he did not expect Shang Xin Ci to find him so quickly.

“How can this be? I am sure that my fake Gu have no clues leading to me, is there a problem over on Shang Ya Zi’s end?”

Feng Tian Yu thought while sitting up, denying it entirely: “Clan leader, don’t try to scare me, the blame of selling fake Gu is not something a small fry like me can shoulder.”

Shang Xin Ci chuckled as she took a few steps, arriving at the door and looking outside, speaking with her back facing Feng Tian Yu: “Brother Feng, do you still not understand? Whatever I claim as the truth, even without evidence whatsoever, is the truth.”

Feng Tian Yu could not help but feel shocked: “This Shang Xin Ci has a reputation for benevolence, everyone knows that, but after seeing her today, to think that she is such a domineering person!”

He felt immense pressure.

Shang Xin Ci’s sudden appearance threw Feng Tian Yu into an extremely passive spot.

He was originally lying on the chair, he had a poor posture, he had to try to modify his posture while exchanging words with Shang Xin Ci, sitting upright gradually.

But Shang Xin Ci seemingly did not notice, she went past him and walked to the door, facing the outside with her back facing Feng Tian Yu, not concerned with his petty actions, she even gave him a chance to sneak attack her.

But Feng Tian Yu did not dare to move at all!

The more confident Shang Xin Ci was, the more wary and nervous Feng Tian Yu felt. Even though they had the same cultivation level, he had already unconsciously placed himself at the lower position.

Shang Xin Ci turned around, smiling: “Brother Feng, come work for me.”

“What?” Feng Tian Yu stared with wide eyes, he was stunned, but soon, he laughed: “Shang clan leader, do you know the price that Shang Ya Zi paid to hire my service?”

Shang Xin Ci chuckled: “No matter what price he offered, you will definitely not be able to reject my offer.”

Feng Tian Yu let out a breath of air, his eyes shined with brilliance as he stood up.

The moment Shang Xin Ci tried to recruit him, he understood that she was not able to resolve the fake Gu incident, otherwise, she could create a commotion and lead Shang clan’s troops to kill him.

“So she still needs my help.” Feng Tian Yu gained the psychological upper hand again.

He assessed Shang Xin Ci while smiling: “Then I will listen, I am sure that the great Shang clan leader will give me an offer befitting your status.”

Shang Xin Ci raised her right index finger: “Firstly, your life.”

Feng Tian Yu’s expression changed, his voice turned more grave as he spoke coldly: “Clan leader, do you think I am helpless against you?”

Shang Xin Ci smiled confidently: “Don’t worry, Brother Feng, you have rank five cultivation level, no need to be nervous.”

Feng Tian Yu was internally shaken, she knew his actual cultivation level, she came prepared, this situation was perilous!

Shang Xin Ci added: “Other than that, if you perform well, you might be able to receive Lord Fang Yuan’s audience.”

“What?!” Feng Tian Yu’s expression changed again.

Shang Xin Ci spoke without stopping: “Don’t be so shocked, Brother Feng. I know far more things than you can ever imagine.”

“I’ll tell you the truth, I’m sure you know about my relationship with Lord Fang Yuan. I was able to discern your identity because I got help from Lord Fang Yuan’s hairy man Gu Immortal subordinates.”

“I handed up a fake Gu and that hairy man Gu Immortal actually praised it. He said that you are a genius, if you are able to progress further, you might gain Lord Fang Yuan’s recognition and become his subordinate.

“Seriously? Is this true?” Feng Tian Yu was extremely excited, his face was flushed red.

Shang Xin Ci smiled: “Why would I lie to you? Since I can find you, I can easily take you down, what’s the point of wasting my breath here?”

“I am sure you know my situation. The reason I became clan leader was because of Lord Fang Yuan. To tell you the truth, Shang clan has already cooperated with Lord Fang Yuan in secret.”

Feng Tian Yu chuckled: “Shang clan? Lord Fang Yuan is the number one demon in the world! If Lord Fang Yuan wants to take something from Shang clan, will you dare to say no?”

“But I admire Lord Fang Yuan’s refinement path talent the most!”

"Back then on Three Kings Mountain, I was blessed to have watched the scene of Lord Fang Yuan refining Fixed Immortal Travel personally. That was truly the greatest fortune of my life."

"I had once used rank three cultivation level to refine a rank five Gu worm that lived for half a day. But Lord Fang Yuan actually refined an Immortal Gu as a mortal! And he did it in that dangerous situation."

"His talent, his aptitude, his strength, and his wisdom is number one in the world! Since then, I believed wholeheartedly that Lord Fang Yuan would become renowned in the entire five regions and two heavens!"

"As expected!"

"Lord Fang Yuan defeated Heavenly Court in front of everyone in the world, he destroyed fate Gu!"

"And the greatest thing was that he used a refinement path method to destroy fate Gu. From then on, fate Gu can no longer exist in this world."

"From then on, all of us broke free of the restraints of fate!"

"He is a warrior, a hero, a savior. He has made the greatest contribution for the whole of humanity in history!"

"But no one understands him, they think he is in the demonic path, they are just too shallow, they are too ignorant! Lord Fang Yuan is an unprecedented existence, he is a great hero that only appears once in a billion years!"

"But I understand those so-called righteous path people. They are petty figures who feel fear, these weaklings and cowards are shamelessly trying to slander Lord Fang Yuan after realizing they can no longer harm him! They are obstructing the rise of humanity, they are sinners that obstruct the development of the world!!"

"Lord Fang Yuan is too outstanding, he is too amazing, he is too noble!"

"If I can follow him, if I can follow in the footsteps of such a noble figure, I… I do not know what else I can say."

"Huff, huff!"

"Amazing, this is too unbelievable."

"Today is simply the happiest day of my life!"

"Unbelievable, Lord Fang Yuan is actually taking me in as his subordinate. This is unbelievable, oh heaven!"

Feng Tian Yu got more and more excited as he spoke, his entire body was shuddering, he was almost about to burst out into spontaneous spasm.

His eyes shined with such a bright light as they turned red and tears gathered in his eyes, even Shang Xin Ci was feeling a chill as she looked at him.

That mysterious old man was not wrong at all.

Feng Tian Yu was a most fanatical admirer of Fang Yuan.

In fact, Fang Yuan's rise, his stories, the scene where he destroyed fate, all of them were widely spread.

Most demonic cultivators saw Fang Yuan as their idol, they looked at him as their goal and inspiration.

Even in the righteous path, there were many who admired him secretly, looking up to his courage in challenging the experts of Heavenly Court, he had incredible wits and was able to scheme despite danger.

Feng Tian Yu was not special, he was just one of them.

But because he had once interacted with Fang Yuan, and because of their similarities in refinement path, he who had once been a blessed young master experienced his entire family being slaughtered, the terrible ordeal in his life made his personality even more twisted and extreme.

Thus, because of his life experiences, he treated the strongest refinement path expert in the current world, the grand and legendary figure who he cannot surpass in this life, Fang Yuan, as his target for fanatical idolism.

Even though Shang Xin Ci did not produce any solid evidence, as long as there was hope, as long as there was a chance for him to get close to his idol, the divine existence in his heart, it was enough for him to feel extreme excitement, he could not control himself.

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2125 - Brother Feng, You?!

2125 Brother Feng, You?!

Several days later.

Second inner city of Shang Liang Mountain.

Shang Ya Zi and the rest had gathered together for a discussion, but they were soon enraged to find out that they were encircled.

“Zhou Quan, Wei De Xin! You are too daring, you dare to gather a bunch of Gu cultivators in the second inner city!”

“What are you trying to do? We are Shang Yan Fei’s children, the blood siblings of your master Shang Xin Ci!”

“You outsiders dare to interfere and take action against Shang clan members on this Shang Liang Mountain?”

Shang Ya Zi and the rest were furious, they screamed loudly, getting their voices to spread out around the entire second inner city.

The second inner city was the residence of Shang clan’s members, the commotion attracted the attention of countless clansmen.

Soon, hundreds of clansmen gathered here as they encircled Wei De Xin and Zhou Quan’s group instead.

“What is going on?”

“Commander Wei De Xin and Steward Zhou Quan, they are Shang

Xin Ci's most loyal subordinates."

"They are encircling Shang Qiu Niu, Shang Ya Zi, and the rest!"

"These two are simply too daring, they are trying to take action against our Shang clan's members openly!"

"Don't be rash, without Shang Xin Ci's instructions, why would these two dare to make a move?"

"A good show is going to start! This is clearly a fight over authority."

Shang clan's members discussed, the matter was getting heated, more clansmen were arriving.

Wei De Xin smiled coldly.

Zhou Quan announced loudly: "Recently, fake Gu have been rampantly spread in Shang Liang Mountain, we have already investigated the truth. You are all the culprits behind this, quickly surrender. Our leader is kind and merciful, she might let you off with a light sentence."

Shang Ya Zi and the rest shook internally.

Shang Yi Fan stepped out: "Bullshit! You dare to accuse us without evidence. Shang Xin Ci was clearly the one without ability or morals, she could not handle this problem, so she wants to put the blame on us? She is simply too wicked!"

"Don't worry, there is no need to deny it now." Wei De Xin interrupted: "Since we are publicly arresting you, we have concrete evidence."

"What evidence?"

"Where is Shang Xin Ci?" Ask her to come out and speak."

"That's right, why is she letting you two handle this, you are merely Shang Xin Ci's two dogs!"

Shang Ya Zi and the rest screamed.

Zhou Quan smiled coldly: “Everyone, are you afraid now?”

“We are descendants of Shang clan, we fear nothing! But often, forceful courage is stupidity. If we leave with you, in your territory, we will be forced to submit, even if we are innocent, we will be tortured and forced to accept this blame, we will become the culprits in the end!”

“Since you have evidence, then tell us right here, right now, in front of everyone in the city!!”

Shang Qiu Niu and Shang Chi Wen spoke.

Shang Ya Zi and Shang Yi Fan frowned.

“That’s right, that’s right, speak clearly in front of everyone here!”

“That’s right! You are encircling the young clan leaders of our Shang clan!”

“Even if they are no longer the young clan leaders, they are not people that you outsiders can bully.”

The Shang clan members at the periphery shouted.

Zhou Quan laughed: “Everything is within clan leader’s expectations, alright, since you want evidence, I will leave you speechless. This is the evidence!”

Zhou Quan waved his hand as a large pile of Gu worms appeared on the ground.

Wei De Xin added: “Right now, all of Shang Liang Mountain’s fake Gu are gathered here.”

Shang Yi Fan laughed: “That’s it? Taking a bunch of Gu and framing it on us?”

Zhou Quan laughed: “Of course not. We have solid facts that Feng Tian Yu is the person who refined these fake Gu. Furthermore, he is among you right now, he is naturally instructed by you.”

Instantly, countless gazes gathered on Feng Tian Yu.

Shang Ya Zi and the rest were scheming, as a crucial person, Feng Tian Yu was naturally involved.

“It is Feng Tian Yu indeed!”

“Why is this refinement path master here?”

“I only recognized him just now.”

“It really is Master Feng.”

The surrounding talks became louder and rowdier.

Shang Ya Zi could not endure it anymore, he stepped forward and shielded Feng Tian Yu as he shouted: “Zhou Quan! You are framing us, this is a slander against a good friend of mine. We will not let this go! This matter is far more severe than you accusing us of this issue!! If you do not have solid evidence that Brother Feng is the person who made these fake Gu, I will seek an audience with father, I will ask him to uphold justice!”

Zhou Quan laughed: “Of course I have evidence. Tell me, Feng Tian Yu, are you the one who refined these fake Gu?”

Shang Ya Zi and the rest were dazed.

Next, the group heard Feng Tian Yu speak in a natural tone as he admitted: “Steward Zhou is right, I was instructed by Shang Ya Zi’s group to refine the fake Gu and create problems in the market, they want to harm the current Shang clan leader.”

“What?”

“What?!”

“Brother… Brother Feng, you?!!”

At this moment, the scene went silent.

Shang Yi Fan and the rest stared at Feng Tian Yu, their expressions were of disbelief and shock.

Shang Ya Zi turned around abruptly, rage and shock prominently displayed on his face.

Feng Tian Yu had actually betrayed them so suddenly?

What was he after?

How can this be!

Did Shang Xin Ci offer him an even greater price?

Impossible!

In order to hire Feng Tian Yu, Shang Ya Zi and the rest had expended their own wealth. How could Shang Xin Ci gather so much resources in such a short period of time?!

But this actually happened to them.

It was a fatal blow to Shang Ya Zi and the rest!

“No, you are not Brother Feng!” Shang Ya Zi’s expression was twisted, he struggled: “You must be an impostor, no, even if you are real, I am sure that vicious woman Shang Xin Ci has you under her control!”

Shang Ya Zi’s screams were so pale and weak at this moment.

Zhou Quan spoke: “Don’t worry, Master Feng Tian Yu is not the only person I have as witness. The rest of you, what do you have to say?”

At the next moment, Shang Qiu Niu sighed deeply: “I admit, we committed this mistake.”

“Shang Qiu Niu!!”

“Eldest brother, you?”

“Are you insane?’

However, Shang Qiu Niu was not the only lunatic, there was also

Shang Chi Wen.

She also stood up and agreed with Zhou Quan's accusations.

Shang Ya Zi almost coughed out a mouthful of blood, Shang Yi Fan shook in anger: "You two, you are going to be the death of us!"

Shang Chi Wen smiled: "Not just us."

She had once managed the battle stage, she had a good relationship with Shang Xin Ci. Back then, Shang Xin Ci's information business also helped her.

Shang Qiu Niu waved his hands: "Not long ago, Feng Tian Yu and Shang Xin Ci approached me, since Master Feng Tian Yu has already joined her, what can we do? There is no chance of winning. Shang Xin Ci has amazing methods, we cannot upset her position as clan leader. We have lost, admit it."

The crucial point was still Feng Tian Yu!

Shang Ya Zi realized this, he stared at Feng Tian Yu with a gaze that could devour him whole: "Feng Tian Yu, answer me! I know you are not someone who goes after beauties. You are such an aloof person, having only interest in refinement path. I do not believe that Shang Xin Ci has such charisma to win you over entirely. Tell me, why is this happening?"

"Hmph." Feng Tian Yu snickered coldly: "How can mortals understand my pursuit? Quickly surrender!"

"You guys can all die!" Shang Ya Zi exploded entirely, he attacked.

Shang Yi Fan and the rest followed after.

Shang Qiu Niu, Feng Tian Yu, Zhou Quan, and Wei De Xin were also prepared for this, both sides burst into a chaotic battle.

Shang clan's members continued to watch, they did not interfere.

"The situation is quite clear now."

“To think that Clan Leader Shang Xin Ci is so amazing!”

“This is a miracle, someone was actually able to win over Master Feng Tian Yu.”

“Empress Wu Ji had also tried to recruit him with a high price in the past, she was very sincere but Master Feng paid her no heed!”

Shang Yi Fan’s and Shang Ya Zi’s group soon fell into a disadvantage.

Zhou Quan and the rest came prepared, Shang Qiu Niu and Shang Chi Wen even betrayed them. This happened too suddenly and peculiarly, Shang Ya Zi was caught unguarded.

“No! I cannot lose, I still have a trump card. You guys forced me to do this, you guys forced me!!” Seeing that he was about to be captured, Shang Yi Fan shouted as he threw out a mortal Gu House.

The mortal Gu House was like a cage, it exploded, a mud monster was released.

At first glance, this mud monster was obviously extraordinary.

It had a vague human figure, mud moved along its body as countless faces surfaced.

These human faces had twisted expressions, they were filled with extreme hatred, everyone felt a chill upon seeing them.

“You bastard[1]!” The mud monster suddenly shouted as it attacked Zhou Quan and the rest.

Zhou Quan and the rest fought against it, they were heavily suppressed.

The flow of the battle was instantly overturned.

“Let’s go!” Shang Yi Fan shouted loudly.

The mud monster did not differentiate enemy and ally, it had great strength, rushing into the crowd and slaughtering innocent mortals, creating chaos.

During the chaos, Shang Ya Zi and the rest escaped narrowly.

They could no longer stay on Shang Liang Mountain, they escaped and became demonic path Gu Masters.

The mud monster caused huge destruction and losses to second inner city.

Not only did it have terrifying battle strength, it was even nearly unkillable, its regenerative ability was outstanding too.

Eventually, Zhou Quan and Wei De Xin exerted all their effort, with the help of Shang Xin Ci, more than ten Gu cultivators were sacrificed before this mud monster was sealed again.

The fake Gu crisis was alleviated, not only did Shang Xin Ci keep her clan leader position, she even took Feng Tian Yu in as a subordinate, her reputation soared.

But Shang Yi Fan's final struggle also left a huge problem for Shang Xin Ci to settle.

After receiving the report, Shang Yan Fei smiled.

Shang Xin Ci's performance did not disappoint him, in fact, he was even pleasantly surprised.

He did not think that Shang Xin Ci would be able to achieve this.

The thing that satisfied him the most was that Shang Xin Ci did not really target Shang Ya Zi and the rest, she only dealt with the troublesome mud monster.

As for Shang Yi Fan's and Shang Ya Zi's group, since they had failed entirely, it was a better end for them to become demonic path Gu Masters.

"They all have my hidden blood path methods, they can be protected during critical danger. The qi tides are rampant, immortal opportunities are hidden everywhere. If they want to become immortal, they will need to work hard and find their own opportunities."

Shang Yan Fei had never overly doted on his children, he had forced his brother and sister to commit suicide when he first became clan leader.

He had once ignored all objections and expended much resources to murder every single person in a village. He murdered all those who surrendered, and their skulls piled into a hill, in front of those elders who first objected to his decision to retaliate.

He appointed people based on merits, even for his own children. There were fifteen Shang clan young master positions originally, but after his rule, he reduced it to ten.

“This matter has been settled, I need to set off and find the other Blood Sea true inheritances now. Blood Sea Ancestor… the more I investigate it, the more mysterious I find this person.” Shang Yan Fei was finally at ease, his children had all grown up, they went on their own journeys now, they had their own destinies to follow. As for himself, he was going to find his own opportunities for development.

Chapter 2126 - Ni Clan

Chapter 2126 Ni Clan

In Shang Liang Mountain’s first inner city, Shang Xin Ci was handling the clan affairs.“Second inner city’s reparations are finished, the fake Gu incident has also been settled.” Shang Xin Ci inspected an information path mortal Gu in her hand with a slight smile on her face.

She then used her primeval essence to add new content into this information path Gu worm.

She made a decision that all the items in Shang clan’s managed stores would be sold at a discount with the reason being ‘the losses to the Gu Masters because of the fake Gu incident’.

“Like this, we can greatly increase Shang clan’s reputation as well as earn primeval stones and make up for the losses caused by the double compensation.”

Shang Xin Ci’s delicate fingers loosened, and this information path mortal Gu let out a light as it flew out of the study room.

Shang Xin Ci picked up another information path mortal Gu on the desk.

The mortal Gu’s information came from Shang Chi Wen.

Ever since Shang Bu Li resigned, Shang Xin Ci handed the task of managing Shang Liang Mountain’s market to Shang Chi Wen.

The information in the mortal Gu said that there were a group of merchants who were hoarding goods to push up the prices. Shang Chi

Wen's suggestion was to kill them all.

"Sigh, for their own self-interests, these people have harmed countless ordinary people!" Shang Xin Ci sighed in her head, she pondered and wrote a new message in the information path mortal Gu: Only kill the main culprit, let go of the others.

After this information path Gu worm also flew out, she looked at the third information path Gu worm that contained a request for help.

In the periphery of Shang clan's territory, a village encountered a beast tide and was in danger of being exterminated.

This village was a Shang clan vassal, but they only had several rank three Gu Masters and had little to no presence.

"Saving people is like quelling a fire, such distress calls should have been delivered urgently, why did it come through the regular affairs channel?" Shang Xin Ci frowned.

She understood the reason.

Her subordinates knew that, with her nature, she would definitely spare no effort to rescue them.

But the current situation was the opening stage of the great era, all kinds of inheritances were being fought over. Both mortals and immortals of Shang clan were extremely busy. Taking out some of their manpower to do this arduous and fruitless rescue task was a huge loss of human resources, as well as a loss of future profits.

"Considering the time, it might be too late already. Sigh, the hearts of the people…" Oftentimes, Shang Xin Ci felt her own insignificance. Like now, she could only sense her subordinates' thoughts but was unable to change them.

The longer she held this Shang clan leader position, the more she felt her powerlessness. Compared to Shang clan or even the entire world, she was really nothing important.

"Maybe this is the reason why almost all Gu cultivators stake their lives on chasing strength."

Shang Xin Ci pondered for a while, but still decided to assign a group of Gu Masters to commence on the rescue.

Even though it was very likely for that village to have already been destroyed by the beast tide by the time the rescue team set off.

The fourth information path mortal Gu mentioned good news.

A new qi path resource point was discovered in the surroundings of Shang Liang Mountain, and required Shang Liang Mountain to station some force there or support the nearby village.

Shang Xin Ci let go of the information path mortal Gu one by one, occasionally, Gu worms would fly into the study room.

Unknowingly, night passed and dawn arrived.

A dazzling information path mortal Gu flew in front of Shang Xin Ci.

Shang Xin Ci's mind jolted: "A task from the higher-ups."

Shang Xin Ci quickly took the Gu and looked into it. This information path mortal Gu's content was indeed about a huge matter.

The matter concerned the contest for Fur blessed land.

This Fur blessed land was located at the central region of Southern Border and contained Fur true inheritance, it was exposed because of the qi tide. Because of its remote location, it did not belong to any one of Southern Border's super forces, so it was fought over by all the super clans.

Righteous path Gu Immortals discussed and decided to send out Gu Masters to determine the winner, Gu Immortals were not to interfere.

The information path mortal Gu also had some secret information regarding the owner of the blessed land, Fur Immortal.

This immortal was a dual cultivator in wood path and transformation path. But she did not have an excellent method and was only carelessly dual cultivating. It led to conflict between wood path and transformation path dao marks, her battle strength was low her whole life and she was the target of bullying in the Gu Immortal world.

"None of the super forces have an interest in such a true inheritance, except, the blessed land's location holds true value!"

"It is not within our borders, in the event that our Shang clan wins in this contest and obtains this blessed land, it is only an exclave which will be difficult to manage."

"But, this territory can be transacted. I believe those super forces near the blessed land will definitely be willing to purchase it."

The curtain to the great era was pulled upon, there would definitely be huge commotion and unrest in the future.

At that time, this kind of blessed land would be a bridgehead for the super forces to expand their territories, or be an important front-line defense area, its value was high.

After all, these Southern Border super forces might not have any methods to relocate immortal apertures.

Shang Xin Ci evaluated inwardly.

Benefiting from the change in eras, she was exposed to even more information on Gu Immortals than Shang Yan Fei when he had been a clan leader.

Thus, even though Shang Xin Ci was only a rank five Gu Master, she had a deep understanding of the Gu Immortal world's situation.

"This is the most important priority for Shang clan, time is pressing, it must be dealt with immediately!" Shang Xin Ci felt troubled.

Despite having recruited Shang Qiu Niu, Shang Chi Wen and the rest, at the crucial moment, she had too few subordinates.

"Feng Tian Yu is not only a refinement path master but has rank five cultivation as well. I can let him take on the role of the head this time." Shang Xin Ci summoned Feng Tian Yu as she thought this.

Soon, Feng Tian Yu received the message and went up to the study room.

“Enter.” Shang Xin Ci willed and the study room’s door opened slowly.

Her study room was a mortal Gu House.

Feng Tian Yu had an excited expression: “Clan leader, I have good news to tell you!”

“Oh, what news?” Shang Xin Ci asked with a smile.

Feng Tian Yu: “I have been researching that strange mudman over these days, and I have discovered a shocking secret!”

“This mudman might be crazy and disorientated in thoughts, but he responds properly as long as we ask one question at a time.”

“I asked him question after question like this and learned of his origin.”

“His name is Ni Jian, he had been a young clan leader of a village. One day, a demonic path expert appeared and slaughtered everyone in the village, including him.”

“But after he died, he was revived by a qi path Gu Immortal. This qi path Gu Immortal inquired about the culprit and after getting the answer, he was disregarded and left alone.”

“This mudman Ni Jian was extremely strong, having near immortal level strength, but after such a long time, he has weakened to this state.”

“I did not expect this mudman to have such an amazing history!” Shang Xin Ci sighed,”But how did such an ordinary village get connected to a Gu Immortal?”

Feng Tian Yu said with even more excitement: “This is the point that I pursued, I found that Ni clan’s people have a huge secret! Once in a while, a Gu Master in Ni clan will awaken their bloodline. If they survive, an Immortal Gu will grow inside their body!”

“Immortal Gu?” Shang Xin Ci’s brows rose subconsciously.

“This Immortal Gu was the reason for the Gu Immortal’s attention.” Feng Tian Yu’s eyes shone, “This is too strange. A mortal Gu Master’s body can actually give birth to an Immortal Gu! More importantly, the slaughtered Ni clan village was only a separated branch. There are many other clan branches that are blood-related to him in several areas of Southern Border.”

Shang Xin Ci asked: “So, you are thinking of?”

Feng Tian Yu nodded: “Right, I want to request clan leader to allow me to investigate this huge secret! If we can grasp this kind of refinement path method, we can refine Immortal Gu while only being mortals.”

Shang Xin Ci pondered before saying: “Then, go ahead with it, I will send some people to help you.”

“No need, no need.” Feng Tian Yu shook his hand, “I am a rank five Gu Master, even if rank four Gu Masters accompany me, they will only slow me down. Moreover, if such a contribution can be made, it will definitely be huge. I need to accumulate contribution points to have hope of seeing Lord Fang Yuan in the future!”

Shang Xin Ci nodded, seeing that Feng Tian Yu’s attitude was so resolute, she could only let him go.

Inside the sovereign immortal aperture.

Mini Yellow Heaven.

A group of Gu Masters with the same surname arrived beside the gold fragment current.

An old clan leader whose hair had gone white and had rank five cultivation, stood with his back facing the gold fragment current as he called out towards the group of people.

“It has been about a dozen years since we mysteriously arrived at this place from Southern Border.”

“Although I don’t know what the reason is, it is definitely the doing of a Gu Immortal level existence!”

“Our Ni clan bloodline is all gathered in this place.”

“Over this dozen years, our Ni clan has been developing and growing, the number of our Gu Masters has increased by ten times! However, recently, the weather of this mysterious place has become uncertain with dangers emerging constantly. Right now, in front of us, we have a life and death crisis.”

“The gold fragment current is continuing to rise in water level, we must create more channels for the current! Otherwise, when the water overflows and turns into a flood, the surrounding thousand li will be completely submerged, we will lose our home and will no longer be able to live here.”

Chapter 2127 - Sovereign“s Commotion

Chapter 2127 Sovereign“s Commotion

Inside the sovereign immortal aperture.Mini Western Desert.

An enormous pitch-black city occupied the desert.

This was a large city with rigid structure. The entire city was a hexagon and its walls had gone through the weathering of time. The city walls were more than two hundred li long, they were a hundred feet tall and tens of feet thick.

If a person stood on the grassland, they would see what looked like a huge black beast sprawling. If they got closer, they would need to raise their heads to look up at the huge city gate and walls.

Every edge of the city had defensive towers that were filled with countless holes that could shoot out arrows.

Every few li apart, there would be a wide path for horse carriages to move on.

There were even very secretive armories within the city walls.

Passing the city walls, one would arrive at the vibrant world within.

The city had many streets and shops, there were great numbers of houses and palaces. People and carriages were bustling, there was an endless flow of activity. Loud noises could be heard constantly, this was truly a lively city.

This was Inkman City!

It was created by the legendary inkman Immortal Yi Yan, and was a smaller version of Emperor City. Later, it was captured by Fang Yuan and moved to Mini Western Desert.

At this time, two inkman Gu Immortals, Mo Tan Sang and Mo Qi Yi, were floating in the air and looking at the surroundings with grave expressions.

“These toxic vines and windmill trees have spread over ten li in just three days, they are only around twenty li from Inkman City.” Mo Tan Sang said.

Mo Qi Yi frowned: “We have already cleared them up over ten times, but every time we exterminate them, they grow back rapidly. Are we going to have to relocate again?”

Right now, the surroundings of Inkman City were covered in vegetation.

These vegetation were formed from purple-black toxic vines and huge azure-gold windmill trees. It was like a terrifying tsunami of plants engulfing everything in its path.

Mo Qi Yi sighed: “These vegetation have already started producing desolate plants, it is even more difficult for us to clear them up now. If we are not able to get rid of the source, even if we clear them up for thousands of times, we won’t be able to solve the root issue. I thought we had moved to a good place, but I did not expect the environment here to be dozens and even a hundred times worse than Northern Plains!”

Mo Tan Sang patted Mo Qi Yi’s shoulder: “Master has already sent people to help us, it is better if you speak less of such complaints.”

Mo Qi Yi immediately kept quiet.

His master was the number one demon in the present world, a ruthless and vicious existence.

"Look, our reinforcements have arrived!" Mo Tan Sang suddenly pointed towards the faraway horizon with joy.

Mo Qi Yi looked towards the direction and saw four Gu Immortals flying over.

There were two snowman Gu Immortals, one hairy man Gu Immortal, and one mushroomman Gu Immortal. Among them, one snowman female immortal was tall and vibrant, she had blue eyes and hair, and looked pure and noble, she was Xue Er.

Mo Tan Sang and Mo Qi Yi quickly went forward to greet them.

Xue Er's identity was special.

Back then, because of what happened with Fang Yuan and her, on the surface, Xue Er's identity was Fang Yuan's fiancée!

Naturally, Fang Yuan had never acknowledged it, but he had not denied it either.

The snowman tribe, especially the snowman Gu Immortal behind Xue Er, Bing Yuan, was always trumpeting about this relationship, which led to every Gu Immortal in the sovereign immortal aperture knowing of it.

"I did not expect Lady Xue Er to come personally."

"With your help, my Inkman City's crisis can be considered to be resolved!"

Mo Tan Sang and Mo Qi Yi flattered.

Xue Er: "Inkmen and snowmen might be of different races, but both sides have already cooperated back when we were in Northern Plains. I came this time to help you two as well as to request for you to come back to help my snowman tribe once this matter is resolved."

The snowman tribe was living in Mini Northern Plains and had also encountered trouble.

The two inkman immortals quickly expressed they would give full support.

Bing Yuan: “We have already investigated the situation on our way. I and Xue Er will activate ice and snow killer moves, to freeze and slow down the growth of the vegetation to buy time for you.”

The hairy man Gu Immortal: “I brought a large number of hairy man Gu Masters with me, we will modify Inkman City into one entity, forming a large Gu House. It will be extremely convenient for you to relocate in the future.”

The mushroomman Gu Immortal: “I can solve the issue of the toxic vines, these toxic vines are a disaster to you, but they are superior cultivation resources for my mushroomman tribe. Moreover, I have already found the source of the toxic vines. By fighting poison with poison, I can make use of the toxic vines to fix this area of vegetation and stabilize it for some time.”

The two inkman Gu Immortals showed both joy and new worries.

Mo Tan Sang asked the hairy man Gu Immortal: “Back in Northern Plains, Inkman City had a population of over eight hundred thousand, it has already crossed one million and two hundred thousand now. Modifying Inkman City will probably have some effect on the residents. Master had instructed me to preserve the lives of the residents and help them progress with all my strength…”

The hairy man Gu Immortal raised his hand and interrupted Mo Tan Sang: “You don’t need to be too worried. Our Lang Ya Sect has already received master’s command to modify all the cities in the sovereign immortal aperture. Every city has a specific blueprint, most of them will become mortal Gu Houses, while several large cities will be raised to become Immortal Gu Houses! I need to congratulate you two, Inkman City is one of the cities chosen to become an Immortal Gu House!”

Mo Tan Sang and Mo Qi Yi looked at each other, seeing the excitement on each other’s faces.

Mo Tan Sang was speechless and could not help asking: “Isn’t this too big of an investment? Master is actually so resolute! I naturally hope for such things to happen more often, but if this delays master's cultivation and uses up a lot of master's Immortal Gu, then wouldn't it be our fault?"

The hairy man Gu Immortal laughed loudly: "You are underestimating master! How can you estimate master's might and plans? Master's refinement path attainment has already surpassed the predecessors, reaching a level that you and I are unable to speculate. This evaluation was not made by me, Lang Ya land spirit personally said it."

"Currently, it is extremely easy for master to refine Immortal Gu. You have not seen those blueprints, they are all different and ingenious. Just choose one of them, it will take those ordinary Gu Immortals several years or even a dozen years to design them. But master casually drew them within a few minutes."

"Master's attainment and wealth rivals the scale of mountains and seas. This investment you see is just an insignificant amount to master."

This hairy man Gu Immortal's face was filled with fanatical reverence when he talked of Fang Yuan.

"I was wrong, I should be punished!" Mo Tan Sang quickly apologized.

That mushroomman Gu Immortal added: "Although us mushroommen have moved to this world just recently, we were immediately certain of the boundless potential of this world. To create the sovereign immortal aperture, Shadow Sect used up all of their accumulations. The important thing is it is able to show infinite grandeur in the hands of a divine hero like master."

"Every time master annexes a grotto-heaven or blessed land, there will be a huge surge of dao marks in the sovereign grotto-heaven and a large number of territories will be added out of nowhere. Just take these toxic vines, this species has never appeared in the five regions, and their toxicity is extremely strong."

The mushroomman Gu Immortal addressed Fang Yuan as master, it was natural and without any hesitation.

Although they had joined only recently, they were extremely optimistic and excited about their future.

Mini Southern Border.

At the base of Fire Bird Mountain, Shi Shi Cheng, Shi Zong, and other rockman Gu Immortals were controlling an immortal Gu formation.

As the immortal Gu formation started activating, the shaking Fire Bird Mountain reluctantly calmed down.

“Success.” Shi Shi Cheng let out a breath of air and relaxed his mind.

Shi Zong said: “Master annexed Fire Plain grotto-heaven as well as immortal apertures of its immortals and Fire Plain Grotto Lord, causing a huge increase in fire path dao marks in the sovereign immortal aperture. This Fire Bird Mountain is a volcano and almost erupted because of this, fortunately, we discovered it in time and set up an immortal formation to suppress it. But from now on, someone needs to stay and preside over the immortal formation.”

Shi Shi Cheng nodded: “We need to do that, but the number of Gu Immortals we can mobilize are already few, and now we are going to have one fewer.”

Shi Zong heaved a sigh: “Yes. We are already hard-pressed to control these territories, it can be imagined how troublesome it is for master to look after the whole sovereign immortal aperture.”

Shi Shi Cheng: “Didn’t master take in many members of the variant human alliance and station them everywhere in the sovereign immortal aperture to salvage the situation? There is no choice, master annexed too frequently in this period of time. There is a huge increase in dao marks, and countless resources of every path.”

Shi Zong shook his head: “What kind of person is master? He should have already known of these demerits beforehand. We don’t need to be concerned for master, it is better if we look after our territories properly. Like this Fire Bird Mountain, it is not feasible to suppress it with just the immortal formation. We must modify this Fire Bird

Mountain and make it adapt to the changed environment."

Shi Shi Cheng agreed: "Yes, the resources in the past all developed naturally bit by bit over a long period of time. But here, there are huge increases in dao marks, even this volcano was at the point of erupting. We must modify and quicken the volcano's adaptation process artificially. It is just that fire path is not the specialty of us rockmen, we need to send a request to Star Collection City."

Mini Blue Heaven, Star Collection City.

This was managed by the previous generation's Combat Beast King.

In the pursuit battle against Fang Yuan, this rank eight Gu Immortal had made a great contribution by resisting the tribulation formed from three thousand heaven path dao marks.

After that, Fang Yuan personally healed him.

Fang Yuan had annexed too many apertures, causing instability in the sovereign immortal aperture. Fang Yuan then arranged Star Collection City as the main city and ordered the Combat Beast King to oversee the overall internal affairs of the sovereign immortal aperture.

"The issue of Inkman City at Mini Western Desert has been resolved."

"Mini Southern Border's Fire Bird Mountain was suppressed by using the formation. But they want fire path Gu Immortals to go modify the volcano? This needs to be coordinated."

At this time, an information path Gu worm flew over while making loud sounds.

Combat Beast King's expression changed: "Where did the rank eight disaster appear again?"

He quickly inspected the Gu worm and found that the source of the disaster was a huge fire rain formed in Mini Red Heaven.

Fire rain often appeared in Mini Red Heaven, and after the increase in fire path dao marks, its emergence had become much more frequent.

But this wave of fire rain was different, it kept on growing and shot through a charcoal lake, forming rank six level killer move meteor rain.

As the meteor rain entered mini orange heaven, its strength increased to rank seven level.

As it entered Mini Yellow Heaven, it resonated with metal path dao marks and its might increased to rank eight.

“Damn it! Only I can deal with this disaster. But it is already too late to go and resolve it now!” Combat Beast King’s face was slightly pale.

He came from Beast Calamity grotto-heaven, the Gu Immortals there felt that it was their responsibility and glory to protect mortals.

Combat Beast King’s heart was in deep pain: “I cannot salvage this. This disaster covers a thousand li. Dozens of resource points as well as the human Ni clan and rockman metal water branch tribe will be annihilated.”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2128 - Hu Land Projection

2128 Hu Land Projection

Ni clan's Gu Masters were using all their strength to deal with the gold fragment current.

They first used mortal Gu to make a grand embankment, then they dug a canal to draw away a portion of the river, the rising gold fragment current was gradually receding.

However, a large number of lifeforms lived in the gold fragment current.

Ni clan's army had invaded the territory of the river fish, frightening these fish monsters.

All kinds of river monsters swam to the surface and attacked, some even charged to the shore and attacked Ni clan's Gu Masters while letting out strange sounds.

Ni clan specialized in earth path, their basic Gu worm was rank one mud Gu. Earth path specialized in defense, Ni clan Gu Masters had constructed lines of defense and were prepared for the fight.

But the number of river monsters was high and they even had stronger myriad beast kings.

Under the frantic offensive waves of the river monsters, the defensive lines of Ni clan's Gu Masters broke one by one.

"Persevere!"

“Kill!”

“Avenge our clansmen!”

“Hold on and carve the future of our clan!”

Mud and blood splattered everywhere, groups of Gu Masters rotated as they resisted the attacks of the river monsters.

The Ni clansmen were brought into the sovereign immortal aperture and had been secretly nurtured by Fang Yuan, the number of their Gu Masters had increased by a lot. Adding on the strong survival pressure in Mini Yellow Heaven, these Ni clansmen had to unite and foster a harmonious environment.

In this defensive battle, Ni clan’s army showed astonishing battle strength and resolute fighting spirit!

Finally, there were fewer river monsters and Ni clan’s army was able to hold on.

They then began their counterattack.

The river monsters did not have much internal organization from the start, and under this sudden change of situation, they began to collapse rapidly.

The Ni clan Gu Masters carved a path of blood, leaving behind countless river monster corpses in their way.

These corpses were Gu materials, they were rich battle spoils.

Ni clan Gu Masters killed their way to the gold fragment current, various kinds of Gu worms were activated, their attacks landed on the river, raising countless dazzling golden waves.

“We won!”

“Quick, set up the Gu formation, it is not the time to rejoice yet.”

“Yes, we must quickly set up the Gu formation, otherwise new waves of river monsters will come out.”

Ni clan Gu Masters were setting up the formation with all their efforts.

They had meticulously prepared for over half a year for this, making proper plans and arrangements.

However, just as the Gu formation was about to finish setting up, the whole gold fragment current and the cloud soil they were on began to vibrate.

“What’s going on? The river monsters are attacking again?”

“Something is wrong! Something is wrong!”

“Look up, oh heavens!”

Gu Masters exclaimed in shock, when they looked towards the sky, they all stiffened like rocks.

Because they saw the meteor rain falling from the sky.

Some of these meteors were only the size of a small field, while some were as large as a mountain.

And there were tens of thousands of them!

The large number of meteors whistled through the air, leaving behind blazing trails in their path as they pressed through the atmosphere and rained down with an irresistible momentum.

“We’re doomed!” The faces of Ni clan’s Gu Masters were deathly pale.

“Does heaven want to exterminate my Ni clan?” In the deathly silent battlefield, an elderly Ni clan Gu Master howled with grief and fury.

“I am not ready to die like this!” The current generation Ni clan leader, who was also the current generation Ni Xiang, clenched his fists, “We were close to success, my clan sacrificed so much to curb the flood, the beautiful future was already in sight. But now, we are going to die.”

Everyone was hopeless.

Nature’s might was so horrifying that these Ni clan Gu Masters did not even have the thought of resisting, they all felt their insignificance, this was the sorrow and helplessness of the weak.

But right at this time, the sky that was lit by the meteor rain dimmed suddenly.

Howl howl howl…

Ni clan Gu Masters heard waves of cries which seemed to have come from the nine layers of hell.

Temperature began to fall down rapidly, and the countless Gu Masters felt their hearts shaking!

“What… what is that?”

“Oh lords in heaven!”

“A black giant?!”

The Ni clan Gu Masters were horrified and in despair as they watched the scene before them with wide eyes.

They saw a giant appearing slowly, it was pitch-black like the abyss. Its body was so large that when it bent its leg, a huge shadow was cast on the ground.

As the giant stood up, its height was even more horrifying, directly reaching the sky with clouds floating beside its shoulders.

The black giant had two heads, its terrifying four eyes let out a dark, malevolent light that seemed to shoot through the sky!

Its hundreds of hands were raised high with their claws opened, forming a scene like that of an extremely ferocious and strange forest.

One of the pitch-black giant’s head opened and breathed out a dark soul river.

The soul river was tumultuous, whipping up astonishing waves that drowned a large number of meteors.

The giant's other head opened and sucked in. Many small meteors were directly absorbed into its stomach.

Bam bam bam…

Its ghostly claws and giant arms moved through the air, catching the hill sized meteors!

Waves surged up and down in the Ni clansmen's hearts.

"It is truly capable of holding up heaven and earth, picking moon and stars at will!"

"This world was actually concealing such a terrifying monster!"

"Compared to this giant, our Ni clan cannot even be considered as ants."

Almost the entire meteor rain was stopped by the giant, only some fragments fell to the ground.

Some of these fragments fell on the gold fragment current and some fell on the cloud soil, they would definitely bring unknown influences to the original ecology.

The meteor rain died down and the giant also left, the enormous body slowly disappearing from the Ni clansmen's sight.

After a long while, the surviving Ni clan Gu Masters erupted with cheers.

And the greatest contributor to this, the black giant, turned into a ray of soul light that entered Fang Yuan's sovereign immortal body.

Indeed.

This black soul giant was the soul of Fang Yuan's main body!

After Fang Yuan inherited Shadow Sect's true inheritance, he had gained the supreme cultivation method of soul path.

This method divided soul cultivation to two layers: First layer was human soul, the cultivation starting from single man soul to hundred man soul, thousand man soul… until the highest hundred million man soul. Hundred million man soul was the limit of human soul, where it turned from phantom to solid and could interfere with the material world.

The second layer was desolate soul. Because fate Gu was damaged by Red Lotus Demon Venerable, Spectral Soul Demon Venerable found a way to break through the limit of human soul. Once the soul broke through to desolate soul, the soul's essence would transform, the soul alone possessing desolate beast level battle strength.

Fang Yuan's soul had already reached desolate soul level, his soul cultivation had never stopped and now had already reached sixty million desolate soul!

Ten desolate soul, hundred desolate soul, thousand desolate soul, ten thousand desolate soul, hundred thousand desolate soul, million desolate soul, ten million desolate soul, and hundred million desolate soul!

Reaching hundred million desolate soul meant the Three Headed Thousand Arms Demon Soul which possessed quasi-rank nine battle strength, the soul could directly resist calamities and tribulations, defying the heavens and stamping the earth, slaughtering deities and ghosts, shocking the world with unmatched might!

This was the peak level of soul foundation, and also the limit that the world could contain.

Hundred million desolate soul had three heads and thousand arms, Fang Yuan had not reached that level yet.

Fang Yuan's soul cultivation was similar to the previous Spectral Soul's, they both had two heads and over six hundred arms.

"Soul cultivation is really amazing."

"Just the soul itself has pseudo venerable battle strength. If it uses immortal essence, it can even activate killer moves."

"More importantly, such killer moves aren't used through Gu worms, but through the arrangements of dao marks like a natural ability.”

Fang Yuan ruminated.

His soul manifestation had breathed out a tumultuous soul river, which was referenced from Spectral Soul’s ability during the pursuit against Fang Yuan.

According to Spectral Soul’s techniques, Fang Yuan transformed the referenced soul path killer move into soul path dao marks and engraved them on his soul.

Thereupon, this soul river killer move became an innate ability of Fang Yuan’s soul.

As long as the related arrangement of dao marks was not destroyed, Fang Yuan could quickly activate this killer move without a need for Gu worms. This was an extremely simple, convenient, and quick method!

“Soul cultivation innate abilities, totem killer moves, as well as formation path great grandmaster that can use natural dao marks to set up the formation… they are all the same in the end.”

“With the supply from Fang clan, I don’t lack soul cores, and it is not difficult to cultivate to the peak hundred million desolate soul.”

“This method can be one of my trump cards, it cannot be revealed casually.”

The five regions and two heavens were monitored by heaven’s will at all times, if Fang Yuan used this method in the outside world, it would be known by heaven’s will. There was no such threat inside the sovereign immortal aperture.

“Let’s look at the situation now.” Fang Yuan activated Cooking Luck Pot and observed his luck.

“Hmm?” Fang Yuan frowned.

His luck did not look good.

At this time, his silver light pillar had become increasingly loose and was actually showing a sign of collapse!

Those three clouds above the silver light pillar had also changed.

The starlight cloud occupied the highest position, this signified Star Constellation Immortal Venerable was the greatest threat.

Below this was Spectral Soul's pitch-black luck cloud. Although it was suppressed by the starlight cloud, it had spread some darkness that penetrated into Fang Yuan's silver light pillar like roots, showing signs of taking root and sprouting!

And the golden cloud that represented Giant Sun had become much thicker, although it was below the other two clouds, it showed signs of accumulating energy and biding its time.

And besides the previous clouds, an anomaly had also appeared around the silver light pillar.

The indistinct shadow of a raised hill was projected on the surface of the silver light pillar…

Southern Border.

The travel-worn Feng Tian Yu stopped his footsteps.

He was gasping for air: "I have finally arrived."

Feng Tian Yu's journey was arduous. He wanted to find other branch villages of Ni clan, but found nothing.

That went without saying. Fang Yuan had already moved all the Ni clansmen into his aperture long ago.

Feng Tian Yu was not able to make any contribution and was extremely disappointed. But on his way, he found that this mud monster Ni Jian could devour mud Gu materials to increase its strength!

"All the Ni clansmen have disappeared mysteriously. If I return in disgrace like this, I won't be able to give any explanation, and it is also not my style. I might as well raise this mud monster’s battle strength, and when Shang Xin Ci questions me after I return, I can give a proper reply.”

Therefore, Feng Tian Yu moved around until he arrived at… Rotten Mud Mountain.

Rotten Mud Mountain might not be too famous, but it was still considered a famous mountain. Although there were poison path dao marks, it mostly contained earth path dao marks. These mud Gu materials were everywhere on the mountain and were suitable for feeding Ni Jian.

“It seems like a beast tide occurred here, the Gu Master village down the mountain is also destroyed. Alright, let me explore it alone.”

Feng Tian Yu had rank five cultivation and also had Ni Jian with him. He moved up the mountain and gave the suitable mud Gu materials to Ni Jian to devour.

After several days and nights in the mountain, Feng Tian Yu arrived in an area.

Suddenly, Ni Jian spat out the mud Gu materials.

“What’s going on? The mud here actually contains qi path dao marks?” Feng Tian Yu was astonished after investigating the reason.

Chapter 2129 - Golden-Red Armor

2129 Golden-Red Armor

“This luck…” Fang Yuan frowned slightly.

Over this period of development, his luck had some growth, but the suppression from the three venerables had become even more clear now.

“I am growing day by day, but the three venerables are indeed beyond ordinary, they have stabilized the situation again.”

“There may be some changes if my luck manages to solidify.”

Fang Yuan sighed inwardly.

At present, he needed to stabilize the sovereign immortal aperture. The troubles in the sovereign immortal aperture were continuing to increase, unlike Fang Yuan’s previous expectations where he thought the abnormal changes would decrease with time.

With no choice, Fang Yuan placed many of the variant human alliance’s Gu Immortals inside. With these Gu Immortals working day and night along with himself taking frequent action, they managed to stabilize the unrest in the sovereign immortal aperture for the time being.

Moreover, he still needed to create a suitable combat system.

And the most important thing was to become venerable in refinement path!

Becoming a venerable would produce qualitative change.

Refinement path was divided into two major Gu refinement styles: hairy man heaven and earth style and human isolation style. Fang Yuan's hairy man heaven and earth style had already reached the peak and he could not improve anymore, currently, he was exploring the peak of human isolation style.

He gained a huge insight from Qing Chou's style and the accumulate virtue Gu refinement technique of Paradise Earth's true inheritance.

And the Ni clansmen could condense Immortal Gu in their bodies, it was the result of Ni clan Gu Immortal Ni Ren using a human path Gu refinement technique back then. In fact, this was very similar to Red Lotus Demon Venerable's method of destroying fate Gu and preventing it from emerging again!

"If I can reverse deduce Ni Ren's Gu refinement technique from Ni clan, I will be able to fill a huge gap in refinement path. Maybe, I can even ascend to refinement path supreme grandmaster!"

The best situation was if Fang Yuan could ascend to venerable before entering Crazed Demon Cave.

That would be the most stable.

If he could not become a refinement path venerable before then, the second best would be to raise his strength to the limits.

One was to get rid of the problems in the sovereign immortal aperture and annex all the two heavens' grotto-heavens, reaching the maximum accumulation.

Second was to form his own combat system.

Crazed Demon Cave was the greatest challenge Fang Yuan would face.

Because he was not facing just one Immortal Venerable, but several!

Currently, it looked like there was only Star Constellation, Spectral Soul, Giant Sun, Paradise Earth, and Limitless. But almost all the other venerables had entered Crazed Demon Cave and explored it.

When the time arrived, who would decide to jump out would be really uncertain.

Especially when the River of Time was so chaotic, even if Fang Yuan's Spring Autumn Cicada was raised to rank eight, it could not be used.

Fang Yuan only had one chance!

Finally, Fang Yuan's gaze moved to the surface of the pillar of silver light.

The previous clouds represented heaven's envy Immortal Gu, Fang Yuan already knew of it.

But what was this indistinct projection of a protruding hill?

Fang Yuan was not sure.

Southern Border, Rotten Mud Mountain.

"Nature is really amazing. There are actually qi path Gu materials in this Rotten Mud Mountain!" Feng Tian Yu praised.

These Gu materials had no value to Ni Jian.

Because Ni Jian could only recover his strength by increasing his earth path dao marks.

What Feng Tian Yu did not know was that these mud containing qi path dao marks were not a natural creation. It was the result of Kong Sheng Tian's will activating his killer move with the help of Hu Land.

Kong Ri Tian, Central Continent's four great obscenities, and Wang Xiao Er were able to escape because of this. It was unknown where they were now.

"This is strange, this amount of qi path mud is quite a lot. Is there a qi path immortal material buried deep under the ground? How could there be so much qi path mud with no rhyme or reason?"

Feng Tian Yu moved around, feeling increasingly odd.

He was a refinement path master, and had a lot of knowledge and experience.

He searched around before finally stopping at one area and ordered Ni Jian to dig.

However, even after digging for two days and nights, Feng Tian Yu did not discover any good loot.

After Wu clan's Gu Immortals secretly took away Hu Land, they had naturally cleaned up the scene. Even Gu Immortals would not be able to find out anything from just this qi path mud.

After all, qi tides had swept the world before, and qi path Gu materials emerged everywhere.

Western Desert.

Sand Heap blessed land was exposed because of qi tides, and Gu Masters continued to enter and explore it.

However, the environment here was extremely treacherous.

Wind raged and carried rough sand that cut like knives.

On the ground, sand waves rose and fell. If one was even a little careless, they would be buried under sand waves tens of feet high.

The only areas where one could stay in were the sand heaps that appeared inside the sand waves.

The sand heaps were of all sizes, even the smallest ones were the size of a hill.

There was space inside the sand heaps, not only was it tranquil, there were also a large number of cultivation resources.

At this time, inside a sand heap, a group of Gu Masters were surrounding a rank five Gu material. The atmosphere was solemn.

"I saw this wisdom bead grass first."

"Bullshit! We were clearly the ones who discovered it first."

"Everyone deserves a share, what is the use in talking about who discovered it first?"

While the Gu Masters were arguing, someone suddenly attacked.

The others were caught unprepared, and the person who got sneak attacked was heavily injured, shouting furiously: "Mo Li, you have such guts, you dared to attack me!"

Other Gu Masters immediately split up and stared at the attacker while also being vigilant of one another.

This Gu Master was a middle aged bearded man, he was wearing a white scarf on his head, and his triangular eyes let out a sinister light.

He sneered: "I was most wary of you. Now that you are heavily injured, my greatest obstacle is gone. Hahaha, all of you, die!"

The Gu Masters were stunned before erupting with fury.

"Mo Li, you have lost your mind!"

"Alright, let me see what ability you have to speak such words."

"Hehe, you have angered all of us. Everyone, attack together, let's get rid of this bastard first!"

Facing the group attack, Mo Li felt even more thirst to battle.

"Come, I will let you know my true strength." His whole body began shining with blue electricity.

He slowly rose to the air.

The chaotic and disorderly electric arcs became clear electric threads that covered Mo Li like they were clothes.

The killer move was activated successfully, Mo Li shouted: "Golden-red armor!"

Crack crack.

Pieces of armor floated out from his body, the hundred or so pieces followed the electric circuit and pieced together into one complete armor.

In an instant, Mo Li was dressed in full-body armor.

This armor let out metallic light, the golden and red lights emitted a domineering aura.

The armored Mo Li charged at the Gu Masters like an eagle.

At first, the Gu Masters attacked wildly, but the golden-red armor did not suffer any damage, there was only some soot left on its surface.

The Gu Masters were pale with shock as they began to evade and defend.

The armored Mo Li only charged around like a brute and many Gu Masters immediately died from the collision.

The remaining Gu Masters lost their will to fight and began to run everywhere.

Mo Li laughed coldly inside the armor, he then activated the armor's killer move.

At the next moment, the golden-red armor stretched out both hands, a circular marking shone on both his palms before several electric arrows flew out abruptly.

Swoosh swoosh swoosh!

The electric arrows flew with extreme speed, killing all the fleeing Gu Masters.

The battlefield became quiet immediately.

Mo Li slowly landed on the ground, the golden-red armor separated into pieces and disappeared. After that, the electricity weaved clothing also dissipated slowly.

Mo Li half-knelt on the ground, his breathing was rough and his face was sweating profusely.

“Although this golden-red armor has absolute might, the expenditure is too high. In just tens of breaths of time, my primeval essence, stamina, mental energy, and thoughts have been emptied. If not for your complete support, I would have only lasted half the time.” Mo Li mumbled.

Peng Da’s soul floated out: “Don’t we have wisdom bead grass now? We can refine electric brain[1] Gu with it, with its addition, the consumption of golden-red armor will reduce by more than half and the time it can be maintained will increase by at least double!”

“Yes.” Mo Li smiled and picked up the wisdom bead grass.

After Mo Li killed Peng Da and seized his Thieving Heaven true inheritance, he had been cultivating painstakingly. The killer move golden-red armor was his greatest achievement.

With this killer move, Mo Li’s battle strength was able to surpass rank five Gu Masters for a short period of time.

And the reason Peng Da was cooperating with Mo Li was because Mo Li had encountered a life and death crisis before this, if Mo Li died, Peng Da’s soul would also disappear. Mo Li promised Peng Da that as long as he helped, Mo Li would help resurrect Peng Da.

Peng Da and Mo Li reached an agreement.

“Let’s go, we have ransacked this place already.” Mo Li came out of the sand heap and arrived outside.

The strong wind almost blew him into the sand waves.

Mo Li activated his defensive method to endure the devastating sandstorm as he observed the surroundings.

He could not see other sand heaps and could only sand waves crashing down loudly.

Mo Li endured for about seven minutes before he finally saw a new sand heap.

“Such a large sand heap! This is the largest sand heap I have seen! There must be a lot of resources inside.” Mo Li was exulted and was just about to jump into it.

Suddenly, the sand heap exploded.

Several figures flew out of it.

“Gu Immortals!” Mo Li’s heart shook, he immediately retreated.

The Gu Immortals were fighting in the air, their fight seemed to shake heaven and earth, and even dispelled the large sandstorm.

“This is the power of a Gu Immortal, so frightening. Even if I have golden-red armor, I cannot endure the collateral damage of their confrontation.” Mo Li watched secretly, his heart jumped wildly and his mouth was dry.

Mo Li observed carefully and gradually saw the actual battle situation — several Gu Immortals were attacking one person.

This besieged Gu Immortal provoked them while laughing wildly without any worries.

Amidst the chaotic battle, a shadow suddenly intruded.

This intruding Gu Immortal left shortly afterwards, disappearing in the blink of an eye.

The Gu Immortal, who was sneak attacked by this figure, roared: “Ling Hu Xu, you dare to steal my Fang clan’s possessions!”

Ling Hu Xu laughed loudly: “Who asked you to be the nearest person to me? I didn’t expect you to actually carry so many soul cores. Looks like Fang clan’s plans in green ghost desert were quite successful.”

The Fang clan Gu Immortal was restless and furious: “Ling Hu Xu, I will advise you to leave those soul cores alone! You are provoking a huge trouble.”

"Haha, will I be intimidated so easily? Goodbye!"

Chapter 2130 - Pig-Head Land Spiri

2130 Pig-Head Land Spiri

Ling Hu Xu was a Western Desert demonic immortal who cultivated theft path.

Gu Immortal Fang Dong Xi of Fang clan could not restrain his anger. Sand Heap blessed land appeared too suddenly, Fang clan was unable to take out manpower within a short period, and could only mobilize him, who was the nearest to the blessed land.

He had not expected that the batch of soul cores he harvested in green ghost desert would be stolen by Ling Hu Xu during the chaotic battle.

“These soul cores are to be handed to Fang Yuan! I cannot lose them!” Fang Dong Xi was quite unlucky, he had a lot of resources in his immortal aperture, but what was stolen was the stuff that could not be lost.

Fang clan and Fang Yuan’s cooperation could not be exposed.

Fang Dong Xi could not announce it and could only give chase.

Ling Hu Xu’s cultivation had recently advanced to rank seven and his speed was extremely fast. Fang Dong Xi had already decided to chase him without resting.

But just as he was about to leave, he was obstructed by Shi Kang’s killer move.

“Shi Kang, what are you trying to do?!” Fang Dong Xi shouted.

Shi Kang smiled coldly: “Fang Dong Xi, you and these people attacked me for so long, and you want to leave just like this?”

Fang Dong Xi’s eyelids twitched in anger: “Shi Kang, you should rejoice that I am not going to attack you. Did you make some agreement with Ling Hu Xu in secret? The grand Shi clan is actually cooperating with a demonic bastard!”

The moment Fang Dong Xi spoke, he immediately made false charges.

But because of this disturbance, Ling Hu Xu had already disappeared.

Shi Kang laughed madly: “I have been in closed cultivation for several years, this is my first battle after coming out, it must be famous throughout the world. Don’t even think of fleeing, come fight! All of you are the stepping stones for my name to spread far and wide.”

The other Gu Immortals’ faces darkened upon hearing that.

Fang Dong Xi said through gritted teeth: “Shi Kang, you are the one who spoke insolently and provoked us, which was why we encircled you. But because we are all from the righteous path, we did not use our full strength. Now, you have not only allied with Ling Hu Xu, you are showing so much contempt towards us, you are really looking for death! Everyone, attack!”

“Good, I also want to see what methods Shi Kang has gained over these years.”

“Shi Kang, I have not seen you for several years and your guts have become so big. You think only you made progress?”

This time, Fang Dong Xi took the initiative to attack first, other Gu Immortals also attacked seriously from the sides.

Fang Dong Xi fought for a while before swapping with another Gu Immortal. Several Gu Immortals fought Shi Kang in turns!

Shi Kang did not get any breather, the pressure on him was several times higher than before.

The battle was rapidly becoming disadvantageous to him, but he was laughing with excitement: “Come, come!”

The Gu Immortals continued to battle intensely, and having observed the battle for a long while, Mo Li flew to that largest sand heap while clenching his teeth.

The Gu Immortals had flown out of this sand heap, they must have left many resources which had no importance to them.

“Fortune is found within danger!” Mo Li was originally a merchant. Right now, his spirit of taking risks was stimulated.

Mo Li entered the sand heap, he could still hear the sounds of the Gu Immortals’ battle. Shortly afterwards, he found that his choice was correct.

As he moved deeper, he collected a large number of Gu materials on the way.

Previously, there were many wild beasts and vicious plants inside the sand heap. But because the Gu Immortals had already explored it, the beasts and plants were already killed off.

There were corpses of wild beasts everywhere, from thousand beast kings to even myriad beast kings.

These resources were insignificant to Gu Immortals who tossed them aside casually, but they were incomparably abundant gains to Mo Li.

It was like he had picked countless battle spoils for free.

“I have struck it rich, we’ve struck rich!” Mo Li was extremely excited.

He also saw many giant craters as well as terrifying poisonous blood.

It was obvious that the desolate beasts and ancient desolate beasts were taken away by the Gu Immortals, but the huge ruins quietly displayed the horror of immortal fight.

“If I were exploring it, I might have become food for these ferocious beasts.”

Thanks to the Gu Immortals who explored it already, Mo Li entered the core area of the sand heap.

Originally, this was the place with the most valuable resources, but Mo Li did not make any gains.

This place was already ransacked by the Gu Immortals.

“If an immortal material was left out, even if it was only a leaf, it would be an enormous fortune!” Mo Li was not resigned, he was going to search this area completely.

He really ended up discovering a large rock buried under the ground.

“This is a rank four Gu material, flying rock, it contains qi path and earth path dao marks.” Mo Li sighed, this gain was far below his expectations, but it was better than nothing at least.

Mo Li was just about to lift this flying rock when the rock split apart.

A young man fell out from the split rock!

“What is this?” Mo Li was shocked before being curious.

This youngster was clearly a mortal, how could he appear here sealed in the flying rock?

Mo Li woke up this mortal young man.

The young man stated his identity: “I am Wang Xiao Er, from Central Continent. Uncle, thanks for saving me. Where is this?”

Mo Li gave a malevolent laugh as he grabbed Wang Xiao Er’s clothes: “Speak, how did you appear here?”

Wang Xiao Er stammered: “I… I don’t know.”

Back then at Southern Border’s Rotten Mud Mountain, Kong Sheng

Tian's will had activated the immortal move using Hu Land and transported everyone.

But he had forewarned that the killer move would transport them to random locations.

Like that, Wang Xiao Er was sent to Western Desert and coincidentally fell here.

And for some unknown reason, he was sealed by the flying rock and fell into deep sleep.

Although Wang Xiao Er knew some reasons, he wanted to preserve the secret of the whereabouts of the four great obscenities.

Mo Li had plenty of worldly experiences, he could tell from Wang Xiao Er's expression that he was lying.

Bam.

Mo Li punched Wang Xiao Er so hard that Wang Xiao Er's nose bled: "Tell the truth, tell me everything you know, otherwise I am going to make you wish for death!"

Peng Da's soul suddenly came out and stopped Mo Li: "Stop!"

Mo Li stared at Peng Da's soul with an ominous gaze: "Brat, what are you trying to do?"

Peng Da's soul said through clenched teeth: "Uncle Mo Li, you are a rank five Gu Master, and he is only a child, a mortal. Why do you need to resort to cruel means against him? The Uncle Mo Li that I met was a person who saved me in the desert, and told me about living outside and helping each other. Uncle, don't deceive your conscience because of hatred! You are not this kind of person!"

"Shut up!" Mo Li shouted and smacked Peng Da's soul to the side, "How do you know that I am not this kind of person? Even if I was not like this before… humans change!"

Mo Li walked towards the frightened Wang Xiao Er: "Since you don't want to speak, I can only soul search."

Wang Xiao Er suddenly screamed, pointing towards Peng Da's soul: "Ghost, there is a ghost, a ghost!"

Peng Da's soul: "…"

"Stop making a fuss! Do you think that I will turn you into a ghost as well?" Mo Li punched Wang Xiao Er to the ground.

He had just finished speaking when a strange existence appeared while laughing: "Good, amazing. Young man, I have a high opinion of you."

Mo Li, Wang Xiao Er, and Peng Da's soul turned solemn, the three pairs of eyes stared at this existence that had appeared all of a sudden.

Wang Xiao Er shouted: "A talking pig? But why is there only the head and no body?"

Mo Li, however, shook with excitement: "Idiot, this is Sand Heap blessed land's land spirit!"

Mo Li walked towards the land spirit: "Speak, land spirit, what is your condition for acknowledging a new master?"

The pig-head land spirit floated above Wang Xiao Er and looked down: "My condition is simple, the person who can take the most beatings will be my master."

It then laughed towards Wang Xiao Er: "Young man, I think highly of you."

Peng Da's soul realized at once: "I understand, no wonder the Gu Immortal named Shi Kang was so rampant outside, he is trying to be beaten up through all means."

The pig-head land spirit smiled: "That Gu Immortal took a beating from ancient desolate beasts for a while, so he saw me and learned of the conditions to be my master. But he doesn't realize that it is not the one who can take more fierce beatings who will become the blessed land's master. Taking a beating is a grand cause. Not only do you need the ability to resist the beatings, you also need to have a firm and indomitable spirit to take the beatings!"

"Look at this youngster, he is obviously lying but even if he is beaten and is facing someone he cannot defy, he is still stubborn. This spirit to take a beating is worthy of admiration."

"So there is this way." Mo Li's eyes shone brightly as he saw hope of contending for the ownership of the blessed land.

The battle in the sky was still continuing.

But the attacking Gu Immortals had started to feel something amiss.

"Shi Kang, is this your strength after closed cultivation? You have been beaten to the point where it is difficult for you to even speak, if not for us holding back, you would have already died!" A Gu Immortal scoffed.

Shi Kang's face was already swollen and blue from the beating, his vision was blurry but he still laughed: "Nonsnc! I few grat. Peak conditon, fight five hundr ronds, no problm."

Another Gu Immortal said: "On account of our two clans' close relationship, Shi Kang, just retreat. How much blood have you coughed from the beatings? Anymore and you might not have any left."

Shi Kang opened his mouth to retort but coughed out a mouthful of blood: "Bulsht! I haf lot o' blood, can cough coupl o' mthfuls."

Fang Dong Xi sneered: "Shi Kang, even if you are most specialized in defensive killer moves and can turn into a rockman, you cannot hold out for long. You have already become the laughing stock of Western Desert's Gu Immortal world in this battle, if we fight any longer, you will be crippled. If you are sensible, then take out some resources to compensate for our losses. My Fang clan will let bygones be bygones!"

Western Desert's righteous path had rules, they did not go overboard in their contest over the inheritances. These resources in Sand Heap blessed land were not worth it to stake their lives.

Shi Kang was beaten so miserably that it had already surpassed the usual standard of contending. Could they kill him and attract the retaliation of Shi clan, causing this dispute to escalate? This was something that all the Gu Immortals including Fang clan did not want to see.

Shi Kang raised his head and was about to speak, but the slight exertion caused his right leg to crack in a crisp sound.

Shi Kang held his right leg and pressed it on the broken area while activating a killer move, rocks filled the gap and his rockman transformation was back in one piece for the moment.

Shi Kang still did not want to show weakness, he shouted at Fang Dong Xi: “Cme, I cn stil fiht!”

If you find any errors (broken links, non-standard content, etc..), Please let us know < report chapter > so we can fix it as soon as possible.

Chapter 2131 - Fang Yuan: Hu Land?

2131 Fang Yuan: Hu Land?

With the situation in this state, Fang Dong Xi and the rest stopped attacking.

“Strange!”

“This is really odd. Something does not make any sense.”

“Shi Kang is not a suicidal person, there might be great benefits involved for him to push himself this hard.”

As for what benefits, the Gu Immortals had a similar guess.

“Shi Kang entered with us and had only gone into that sand heap earlier. Could it be?”

The Gu Immortals suddenly flew down and entered the sand heap again.

Shi Kang was really anxious this time as he gave chase.

He yelled and cursed but no one cared.

The immortals arrived at the center of the sand heap within moments and witnessed a painful scene.

They saw Mo Li lying on the ground with his legs spread open, he was gnashing his teeth while his body shook from the intense pain.

Wang Xiao Er was standing in front of him and fiercely kicking the part between Mo Li's legs, the most vital area of a man.

On the other side, Peng Da's soul was also attacking Mo Li.

What attracted the Gu Immortals' attention was the pig-head land spirit.

The pig-head land spirit was cheering loudly: "Good, this way of taking a beating really makes people marvel! What moves me even more is this spirit, what kind of spirit to take a beating is this! Exposing your vital area openly and allowing such fierce attacks. And you, Mo Li, have persevered without a thought of giving up. What fearless courage! Your dazzling spirit continues to move me."

"Ah ah ah! Then, then you… ahh! Are you moved… ahh! Will you recognize me… as your… your master?" Mo Li's tears fell from the pain as he shouted.

The pig-head land spirit said with a solemn expression: "Soon, soon! You have already surpassed that Shi Kang."

Mo Li wanted to cry: "You, you, you… ahh, you said that just before… ughh!"

"Stop them!" Fang Dong Xi shouted first.

"A mere mortal wants to obtain a blessed land?" The Gu Immortals made their moves.

Shi Kang was also among them, his head was soaked with cold sweat as he rejoiced. The other Gu Immortals discovered this secret, if not for that, he might have been defeated by this audacious mortal.

Immortal moves shrouded the entire place, they descended like a tsunami.

Mo Li's group was deathly pale.

"Mother!" Wang Xiao Er held his head and tried to run.

"Land spirit, save me!" Mo Li was lying on the ground, his legs tremblings intensely.

The pig-head land spirit shook its head and flew away: "I cannot save you. To become my master, you need to have the spirit to take a beating, but even more than that, you need to have the strength to take the beatings."

But right as Mo Li was about to die miserably, there was a loud sound, and all the killer moves were destroyed.

"Who?"

"Come out!"

Three mysterious figures appeared from the corner.

Their bodies were shrouded in a layer of profound light, hiding their appearance and gender.

They stood silently, but their auras were closely connected and actually suppressed the side of Western Desert's righteous path.

Fang Dong Xi and the rest became solemn like they were facing a huge enemy.

"This profound light and this kind of image…."

"You? You are the legendary Yi clan!"

"Western Desert's Yi clan? There really is this super clan?"

There existed a hidden super clan in Western Desert, with powerful strength and a long history, seemingly existing since ancient times.

But this was only a rumor between Western Desert's super forces, and there had never been clear evidence.

"Since you know of our Yi clan, then retreat." One of the three mysterious figures spoke. Their voice was also modified, gender-neutral and hoarse.

Fang Dong Xi snorted coldly: "Cowardly people who dare not show themselves, who knows if you are really from Yi clan.”

“You want us to retreat just like this? Aren’t you too arrogant?”

“You are even more arrogant than Shi Kang.”

Shi Kang rubbed his nose and was about to speak when another person said: “Look at the price of Shi Kang’s arrogance, your outcome will be the same.”

Shi Kang: “…”

A chaotic battle broke out.

Yi clan’s three Gu Immortals had tacit cooperation, they had clearly trained together for years. They immediately gained the upper hand.

Western Desert righteous path might have been suppressed but they had superiority in their numbers.

The pig-head land spirit floated near the edge of the battlefield and watched the battle excitedly.

Gu Immortals prioritized defense to become the blessed land’s master. They did not dodge the attacks they could dodge, and even moved towards the attacks.

They were also fighting for Mo Li; after all, he was the person who was thought highly of by the land spirit. If they could help him get the ownership, they would win this battle.

Finally, after a strange, fierce battle, Mo Li was taken away by Yi clan.

Wang Xiao Er was captured by Fang Dong Xi.

And the person who became the blessed land’s owner was Gu Immortal Shi Kang. He had not wasted his efforts after all.

Fang Dong Xi returned to Fang clan and reported the outcome of the battle.

The matter concerned Fang Yuan, Fang clan's first supreme elder Fang Gong immediately convened the clan's Gu Immortals to discuss about it.

"We should kill Ling Hu Xu!"

"The issue now is, how do we explain this to Fang Yuan."

"We will tell the truth and let Fang Yuan kill Ling Hu Xu! But we need to hide our transaction with Fang Yuan. Fang Yuan is the number one demon in the world who cultivates all paths. We are unable to deal with Ling Hu Xu because he cultivates theft path and is proficient in escaping. If Fang Yuan were to take action, Ling Hu Xu would definitely die an extremely miserable death."

"That is not appropriate." Fang Di Chang shook his head, rejecting this suggestion.

His soul was traded to Fang clan by Fang Yuan, and he obtained freedom once again. Right now, he had possessed a rank five Gu Master's body and was preparing to undergo immortal ascension again, he was part of this discussion right now.

Fang Di Chang continued to analyze: "Do you think that possibility is likely, or is it more probable for Fang Yuan to find trouble with us instead?"

"What is the reason for Fang Yuan's transaction with our clan? It is because our clan is the closest to green ghost desert, and he needs countless soul cores to cultivate his soul. After all, he inherited Shadow Sect's true inheritance."

"If my grand Fang clan cannot even handle this properly, we will no doubt lose our value in Fang Yuan's eyes. At that time, what do you think he will do?"

Fang clan's immortals felt their hearts turning cold from this analysis.

Fang Gong nodded: "I approve of Fang Di Chang's words. Fang Yuan could step on Heavenly Court, it is very easy for him to deal with Fang clan. We cannot fight him!"

"Besides this, our clan also benefited plenty from transacting with Fang Yuan. The numerous immortal materials in Fang Yuan's hands are the most important transaction gains for our clan."

Fang Dong Xi was troubled: "But this time's soul core quantity cannot meet the requirement. Tomorrow is the day to hand over the goods, what reason will we use to delay it? If Fang Yuan wants to investigate this, he can easily realize the truth. But if we don't lie and say the truth, won't our value fall greatly in Fang Yuan's eyes?"

Fang Di Chang said: "We must tell the truth. But since the soul cores are not enough, we will use other things to compensate for them. Won't it be okay as long as Fang Yuan is satisfied?"

Fang Hua Sheng was worried: "Fang Yuan has a large number of venerable true inheritances, his standards are extremely high. Our Fang clan does have some items that can satisfy Fang Yuan, but every one of these items is a foundation of our Fang clan. We cannot hand over our foundation because of Ling Hu Xu, can we?"

Fang Di Chang laughed: "You are thinking too deeply. In my opinion, this matter is easy to resolve."

Fang Gong asked: "What plan do you have?"

Fang Di Chang: "Didn't we already soul search Wang Xiao Er? Although he is only a mortal, his body is mysterious and his experiences are also quite amazing. We know about Hu Land, this secluded domain of heaven and earth should already be in Wu clan's hands now. We will hand this information to Fang Yuan, it should satisfy him."

"Is that going to work?" Some were doubtful.

Fang Di Chang shook his head: "Don't treat Fang Yuan like us normal people. Spectral Soul and Qing Chou are already dead, Demon Immortal Qi Jue is suppressed, Qi Sea Ancestor was defeated by him. He is now the number one person in the world! Even if Wu clan is the number one super force of Southern Border… Hehe, they still won't be able to protect Hu Land."

Fang Gong nodded: “Then, let’s do that. If Fang Yuan is not satisfied, we can only incur a greater loss once again.”

He then sighed: “Such a pity about Hu Land. If only my clan knew of it, we would definitely conceal it and dig it up secretly. Now, we can only give it to Fang Yuan.”

Fang Di Chang said in a heavy tone: “Fang Yuan should be satisfied. This person is terrifying! The most terrifying thing is not his strength, but his broadmindedness instead. He doesn’t bother about trifling matters in order to accomplish the major goal, his broadmindedness and shrewdness are unfathomably deep and vast like mountains and seas.”

“What gives me chills is that even though he is the strongest person in the world, he is still willing to trade with us and will not resort to brute force if he can.”

“This kind of person is not someone our Fang clan or Heavenly Court can deal with. I am afraid that only the rumored venerable revival can curb such a terrifying demon.”

Inside the sovereign immortal aperture.

Mini Yellow Heaven.

At some corner of Ni clan, a Gu Master who had been unconscious for several days woke up dazedly from his bed.

“An Immortal Gu condensed inside my body!” The Gu Master looked weak and pale, but he could barely hide his joy.

“From today onwards, am I going to rise up towards the peak of my life?” The Gu Master was extremely excited, he had rank four cultivation and knew of Ni clan’s secret.

“In the whole of Ni clan, there are three Gu Masters who have passed the difficulty of bloodline condensation and survived, and with me now, there are four who possess Immortal Gu. Now that I have an Immortal Gu, I will be Ni clan’s fourth elder even though my cultivation has not reached rank five!”

The Gu Master’s mind was filled with plans for his beautiful future, little did he know that his condition over the past few days as well as the thoughts going through his mind right now were all seen by Fang Yuan.

Fang Yuan fell into thoughts: “Ni Ren’s method is indeed an ingenious human isolation style refinement technique. After the event of the gold fragment current, although Ni clan lost a lot of Gu Masters, the surviving Gu Masters passed the cruel trial. After they returned to the clan, the phenomenon of bloodline condensation appeared successively. Over forty people got a fever and fell unconscious, but only two woke up successfully and refined Immortal Gu inside their body.”

Right at this time, a message disturbed his thoughts.

“Hmm? Hu Land?”

Chapter 2132 - Nurturing Gu Immortals

2132 Nurturing Gu Immortals

Southern Border, Wu clan.

Over fifty Gu Masters were gathered in the hall.

“First supreme elder! Supreme elder Wu Qiao, supreme elder Mountain Moving.” Gu Masters greeted together with solemn expressions and hardly concealable excitement.

Wei Shen Jing was among them.

He had finally emerged from the cruel competition and obtained the opportunity to become an immortal.

Besides him, there was Divine Doctor Sheng Shou and Wu Shen Tong, these two had been revived through the dead sea life retrieval formation. There was also Zhong Yi, the Western Desert Gu Master who had inherited Fire Thunder true inheritance.

These fifty or so people were geniuses of their generation and were Gu Master elites selected by Wu clan.

“You may stand.” Wu Yong was sitting on the main seat, to his left was Mountain Moving Old Monster, and to his right was Wu clan’s rank seven Gu Immortal Wu Qiao.

“The information on immortal ascension and the matters to pay attention to regarding immortal ascension have already been given to you. Over the following period of time, you should start closed cultivation and come out only when you feel you have the certainty to ascend to immortal. Our Wu clan's Gu Immortals will help you resist the immortal ascension tribulations with all their strength. You may leave now." Wu Yong raised his hand.

The group of around fifty Gu Masters retreated.

Wu Yong smiled towards Mountain Moving Old Monster: "Supreme elder Mountain Moving, I shall hand the matter of these Gu Masters' immortal ascension to you."

Mountain Moving Old Monster was not a Gu Immortal originating from Wu clan, his surname was Qin and his name was Jing Sheng, he was previously a lone immortal.

When Fang Yuan was disguised as Wu Yi Hai, there was the issue of Mount Snail where he reached an agreement with Mountain Moving Old Monster. Mountain Moving Old Monster obtained most of the benefits of Mount Snail, but this immemorial desolate beast still belonged to Wu clan in name.

But in the end, Fang Yuan's identity was exposed and Wu Yong went after him.

Mountain Moving Old Monster's situation immediately became awkward.

Wu Yong was a formidable character, why would he let go of this opportunity? He immediately exerted pressure on Mountain Moving Old Monster; using both forceful and persuasive measures, he made Mountain Moving Old Monster become Wu clan's external supreme elder.

Back to the present, Mountain Moving Old Monster quickly agreed to Wu Yong's command: "I am in deep admiration of first supreme elder's broadmindedness. I will stake all my strength to make sure the tribulations cannot harm anyone."

"Good." Wu Yong laughed, "I, Wu Yong, guarantee that the Wu clan I govern is fair with rewards and punishments."

"I shall take my leave and make preparations." Mountain Moving Old

Monster left.

He knew the meaning behind Wu Yong's action.

He was an external elder of Wu clan, external elders were usually ostracized.

But Wu Yong's move was too revolutionary, he actually supported so many Gu Immortal seeds at once. What raised Mountain Moving Old Monster's attention the most was that these fifty or so Gu Masters were mostly outsiders.

Wu Yong ordered Mountain Moving Old Monster to be in charge of this matter: on one hand, he was worried of Wu clan's Gu Immortals being biased towards the clan members if they were put in charge; on the other hand, it was to reassure Mountain Moving Old Monster, using action to tell him — I, Wu Yong, am different from ordinary leaders!

When Mountain Moving Old Monster left, Wu Yong's gaze moved towards Wu Qiao.

Wu Qiao had been keeping silent and was feeling uneasy under Wu Yong's gaze.

Wu Qiao had been Wu clan's third supreme elder with high authority and status. But he was enticed by Qiao clan and had supported Fang Yuan, who had disguised as Wu Yi Hai. This action was the same as betraying Wu clan's benefits!

Later, Wu Qiao was in charge of guarding Corpse Emperor Yu Ding Tian but lost it to the enemies. This was a great stain to his reputation.

After Wu Yong took the position, he suppressed Wu Qiao to the limit. Wu Qiao's situation declined day by day and he was even stripped of his third elder position.

"Wu Qiao." Wu Yong spoke, "What do you think of my decision to support so many Gu Immortal seeds?"

Under Wu Yong's gaze, Wu Qiao's forehead became covered in sweat.

He took a deep breath before standing and bowing, saying in a sincere manner: “Lord Wu Yong, I think this action has far more benefits in long term. I give my full support to it!”

Wu Yong laughed, he raised his tea cup and took a sip, before asking leisurely: “Then tell me how you will give full support?”

Wu Qiao took a deep breath and said what he had already prepared before.

Wu Yong did not comment and only nodded as he put down the cup: “Do it.”

Wu Qiao was exulted, he quickly requested for leave. He did not leave directly like Mountain Moving Old Monster, instead he stood at the door and bowed deeply towards Wu Yong before leaving slowly.

This attitude was extremely respectful.

Only Wu Yong remained in the discussion hall.

He was expressionless, but was sighing inwardly.

This time, he invested all the resources of the clan to support the immortal ascensions of over fifty Gu Masters, this move could be considered crazy.

His move had caused dissatisfaction in many Wu clan Gu Immortals.

The main reason was that among these over fifty Gu Masters, less than half were Wu clansmen while the rest were outsiders.

Many Wu clan supreme elders including Wu Ba Chong thought: Wu Yong’s action was shaking Wu clan’s foundation!

“These short-sighted people.” As Wu Yong recalled the recent times, when these people admonished his actions openly or secretly, he could not help but snort coldly.

Wu clan’s greatest issue was the lack of Gu Immortals, there was not enough manpower to guard their territories. Let alone when they were planning to expand in the future.

However, Wu clan had few Gu Immortal seeds as well.

Even when they lowered the standard and revived some Wu clan Gu Master elites, the number of Gu Immortal candidates was only eighteen.

Although Gu Immortals could deal with the tribulations, the crucial point in immortal ascension was the balancing of three qi. Outsiders could not help in this, the Gu Master had to rely on themselves.

Eighteen Wu clan Gu Immortal seeds, according to history, only one or two among them might succeed in immortal ascension.

That would not do!

What use was there in gaining one or two rank six Gu Immortals for Wu clan?

This simply could not satisfy Wu Yong's ambition!

Thus, Wu Yong disregarded his subordinates' opposition and recruited outsider Gu Masters to be Gu Immortal candidates. Moreover, Wu clan treated them fairly and gave them full support.

"It is not that these people cannot see the situation, but they raised opposition because it threatened their own benefits."

"They have really disappointed me. Their vision is too narrow, without the five regional walls now, our Wu clan's enemies are not just Southern Border forces, but the entire five regions. And among the five regions, the most terrifying enemies are in Central Continent."

"Central Continent's sect system…" Wu Yong sighed.

With his foresight and wisdom, he was already clear of the superiority of the sect system. That was the reason he gave full support to outsider Gu Immortal candidates and recruited outsiders to become Wu clan's external supreme elders.

But even with his prestige, he encountered such opposition and resistance, it could be imagined what the situation in other super forces would be like.

Wu Yong had excellent political skills, he dealt with this situation by deploying Mountain Moving Old Monster and supporting Wu Qiao.

Mountain Moving Old Monster was an external supreme elder, for the sake of his own future in Wu clan, he would definitely do his best to support those outsider Gu Immortal seeds in their ascension.

And Wu Qiao was an astute person.

He saw Wu clan's situation and Wu Yong's plan.

To get back onto Wu clan's political stage, even if he did not approve of Wu Yong's move, he had to grab this opportunity, becoming Wu Yong's dog and standing against those opposing supreme elders.

Like this, Wu clan's internal disorder was quickly resolved by Wu Yong.

“There will be five or six among these seeds who will succeed in immortal ascension. I hope one of my Wu clansmen becomes a qi path Gu Immortal. Hu Land can be used then.”

“In the future, if I am lucky enough to refine eight-faced prestige wind, my strength will rise by another level. Adding on Hu Land, my Wu clan will be among the top super forces in all five regions.”

Wu Yong's mood turned much better when he thought of Hu Land.

He thought very highly of Hu Land.

If not for him cultivating wind path primarily and having accumulated a lot of wind path dao marks, he might have converted to qi path for Hu Land.

Wu Ji did not choose qi path and persisted on strength path, which had actually disappointed Wu Yong.

Hu Land's value was extremely high, this could be seen from Demon Immortal Qi Jue.

As long as a set of killer moves involving this kind of secluded domain of heaven and earth was created, the Gu Immortal would have near pseudo venerable battle strength.

Hu Land could be taken as a quasi-rank nine Immortal Gu, while it would be extremely difficult for Wu clan to obtain a rank nine Immortal Gu. Even refining a rank eight Immortal Gu was a huge trial to Wu clan.

Inside the sovereign immortal aperture.

Be it Mini Blue Heaven's Star Collection City, Mini Western Desert's Inkman City, Mini Northern Plains' Triple Sacred Mountain, or other areas, Gu Immortals were cheering in excitement.

Just the previous moment, Fang Yuan had issued the latest contribution board, mission board, and exchange list.

The contribution board and mission board were issued long before, but it was the first appearance of the exchange list!

It was this exchange list that made all the Gu Immortals in the sovereign immortal aperture excited.

The exchange list contained a large number of rank six and rank seven Immortal Gu, a dazzling lineup of immortal moves, Immortal Gu recipes, and countless immortal materials.

The Gu Immortals in the sovereign immortal aperture only needed to spend their accumulated contribution points to exchange for any cultivation resource on the exchange list.

“I have never seen such a rich list of immortal materials and such enormous immortal material reserves!” Even Lang Ya land spirit, who was extremely knowledgeable, was dumbstruck when he saw the exchange list.

“There are rank six to rank nine immortal killer moves, including common killer moves, battlefield killer moves, the present age Gu formations and Gu Houses, and even ancient battle formations. Eh? What is this totem killer move? I have never heard of it before.” Many Gu Immortals exclaimed in shock.

The Gu Immortals who came from the variant human alliance cared much more about the Immortal Gu in the exchange list.

“Even these Immortal Gu can be exchanged?”

“Am I dreaming?”

“How difficult is it to refine Immortal Gu, but here, we only need to accumulate a certain amount of contribution points to exchange for an Immortal Gu?”

All of the Gu Immortals were moved.

They suddenly realized that becoming subordinates of Fang Yuan was a really fortunate thing!

“Our future is so bright after following master!”

“This is too good, looks like Lord Fang Yuan wants to nurture us.”

“I have never seen a force have such wealth. Master’s foundation is truly inestimable.”

The Gu Immortals’ eyes shined with excitement, their faces reddened, and some even cried in joy.

Some quick ones immediately looked at the mission board.

Previously, the tasks they completed were mandatory and they did not have much enthusiasm. But it was completely different now!

“Eh? The first task is so strange! Request for Lord Fang Yuan to protect us from tribulations, and we also get such rich contribution points in return?”

Chapter 2133 - Shi Zong“s Tribulation

2133 Shi Zong“s Tribulation

Fang Yuan was secretly observing his subordinates’ reactions.

He had issued the exchange list after careful consideration.

Previously, Fang Yuan had thought the sovereign immortal aperture’s chaotic phenomena would pass with time. But they were instead becoming more severe.

Sometimes, some strange situations occurred, which were so serious that Fang Yuan’s main body had to deal with them.

If he could increase the strength of the sovereign immortal aperture’s Gu Immortals by a level or two, the chaotic state of the sovereign immortal aperture would be dealt with much more properly.

Fang Yuan had no way to completely resolve the issues in the sovereign immortal aperture, so he could only alleviate them.

Naturally, regardless of how he strengthened them, these subordinates would not have the ability to take part in the contest within Crazed Demon Cave. Fang Yuan also did not have such extravagant hopes.

Nurturing these subordinates required a large amount of resources.

Fang Yuan had devoured many of the two heavens’ grotto-heavens and plundered the countless years of accumulations of these grotto-heavens, he naturally did not lack the resources to nurture them.

On the basis of cultivation resources, Fang Yuan had already surpassed most of the super forces in the world.

Even if Heavenly Court and Longevity Heaven had much more accumulation than Fang Yuan, they could not copy his action.

Fang Yuan possessed Four Elements Square Regret Blood Refinement Pool, it was extremely easy for him to refine rank six and rank seven Immortal Gu. That was why he could domineeringly place all kinds of Immortal Gu on the exchange list and let his subordinates exchange for them.

If Fang Yuan needed to use some Immortal Gu that they exchanged for in the future, he could just throw a compulsory mission at the person. Who would dare to go against Fang Yuan's decree?

At that time, Fang Yuan would give even more contribution points in exchange, the subordinate whose Immortal Gu was seized might even be quite happy.

The heated reactions of his subordinates was within Fang Yuan's expectations.

These Gu Immortals who were stimulated by the exchange list began to crazily accept the tasks, and took the initiative to go to various areas of the sovereign immortal aperture to work like bees.

As for the first task on the mission board, the Gu Immortals were discussing if Lord Fang Yuan had made a mistake?

But even after a few days, the task content had not changed.

The Gu Immortals became increasingly covetous, the contribution point reward of this task was sizable.

Shi Zong was the person to study the new exchange list for the longest time.

Recently, Shi Zong had been distressed over a huge issue.

He was the first supreme elder of Northern Plains' rockman tribe, he was rank seven and was about to face his third grand tribulation.

Rank seven Gu Immortals faced an earthly calamity every ten years, a heavenly tribulation every fifty years, and a grand tribulation every one hundred years.

Earthly calamities and heavenly tribulations were not big issues to Shi Zong. But a grand tribulation was huge trouble, the previous two grand tribulations had almost destroyed Shi Zong's confidence.

The third grand tribulation was imminent, Shi Zong was thinking of ways to delay the grand tribulation.
